

**MADISON HEIGHTS BUILDING DEPARTMENT  
RESIDENTIAL ELEVATION WORKSHEET**

This worksheet, completely filled out, must be attached to all plot plans submitted for review by this Department. All elevations must be in U.S.G.S. numbers.

PROPERTY ADDRESS: \_\_\_\_\_

The diagram shows a cross-section of a house with a basement. A vertical line represents the basement wall. A horizontal line at the top of the wall indicates the finish floor level. A horizontal line at the base of the wall indicates the bottom of the footing. A horizontal line to the left of the wall indicates the finish grade. A horizontal line to the right of the wall indicates the side door opening. Arrows point from text boxes to these specific points on the diagram.

The elevation of the Finish Grade adjacent to the structure is: \_\_\_\_\_.

The height of the basement wall is: \_\_\_\_\_ ft.

The elevation of the Bottom of the Footing is: \_\_\_\_\_.

The Finish Floor Elevation (F.F.E.) of the first floor is: \_\_\_\_\_.

If this structure has a side door opening onto a driveway, the F.F.E. of the floor adjacent to that door is: (MUST BE WITHIN 8" OF THE ADJACENT GRADE)  
\_\_\_\_\_.

The benchmark for this site is located at: \_\_\_\_\_  
and its elevation is: \_\_\_\_\_.
