SECTION 511
FIRE LANES

The Fire Chief or his duly authorized representative shall be responsible for establishing fire lanes on private property within the city. The following criteria shall be used in determining the necessity of said fire lanes:

1. Fire lanes shall be established as deemed necessary at all types of structures and uses except one and two family detached dwellings as defined by the Michigan Residential Code.

2. The necessity of access into the above areas from public thoroughfares.

3. The necessity of traffic lanes free from parked vehicles, and other obstructions, both to and around the above enumerated establishments capable of handling city fire vehicles.

This determination shall be made whenever the Fire Chief or his duly authorized representative deems such lanes necessary for the safety of occupants and property of the above enumerated establishments or after a petition by a private landowner or his authorized representative to have said fire lanes established on his or her own property is filed. The Department may declare fire lanes thereon in accordance with the above criteria.

511.2 Applicability; notification of owners of property whereon lanes established.

This article shall apply to all such existing facilities within the city. For fire lanes at new construction sites or modification of existing structures, this article shall also apply and be administered by the Fire Department through the site plan review process as set forth in the Madison Heights Zoning Ordinance. The erection and maintenance of said signs shall be the responsibility of the property owner. Any owner who, upon notification that a fire lane has been established on his property and within 30 days thereof, fails to erect uniform fire lane signs shall be in violation of this article and subject to punishment as provided herein. Further, when said signs are not erected within 30 days of notification, the City Council may direct that said signs are to be erected and the cost thereof assessed against the property and collected as prescribed in the Charter for the collection of special assessments. When such fire lanes are adjacent to a parking lot, such fire lanes shall be clearly outlined with curbing, posts or other markings raised above the grade sufficiently so they will not be obscured by snow or other materials.

Exception:

The Fire Chief or his duly authorized representative may grant permission for parking of certain vehicles, objects or trailers in designated fire lanes for limited periods where such parking will not interfere with the usage of the fire lane by emergency vehicles. Whenever such permission is granted, the driver or operator must be present at all times to provide immediate removal of such obstructions when necessary.

Where a hardship exists due to sidewalk width or architectural considerations the Fire Chief may approve signs mounted on the face of the structure.

511.4 Enforcement.

(a) When any administrative officer of the Fire Department, ordinance officer, code official or any member of the city police department shall observe any vehicle, trailer or other object in a fire lane herein established and such vehicle, trailer or other object is not there under authority of section 511.3, any of the foregoing shall issue a violation notice and affix it to said vehicle, trailer or other object.

(b) If any vehicle, trailer or other object is located within a fire lane at the time the Fire Department is responding to an alarm for reason which necessitates the use of such a lane, then any member or members of the police department or Fire Department may move, or cause the same to be moved, by any means possible, without liability for any damage being incurred by the City or any officer, agent or employee thereof.

511.5 Appeal.

If any property owner is aggrieved by any decision as to the establishment of fire lanes, he shall, within thirty (30) days of the date of mailing of the fire lane establishment notice, as provided for in Section 511.2 of this article or of denial of a petition to establish a fire lane, file with the Fire Chief or his duly authorized representative a written exception to such decision together with the reasons for same. Within ten days from the date of receipt of such exception by the Fire Chief or his designated representative, shall, after consideration of the reasons for such exceptions, affirm, modify, or rescind his original decision. The potable water supply shall be protected against backflow in accordance with the requirements of this Section, the Michigan Plumbing Code, and the rules of the Michigan Department of Public Health. The City of Madison Heights can not control the volume or pressure in the municipal water system and can not guarantee that the pressures observed during flow testing can be maintained during peak use periods. For this reason fire protection systems in the City of Madison Heights shall be designed using the lowest recorded sustained residual water pressure in the previous twenty-four month period (seasonal low) as determined by the Madison Heights Water

Department and approved by the Fire Chief. It shall be the obligation of all contractors to obtain the current design pressure from the Fire or Community Development Department.

287. Meeting Open to the Public

Gary George, 1735 Castlewood, stated that as a former member of the Fire Station Task Force he has questions about the use of the Fire Station Bond funds for the old Fire Station site restoration and redevelopment. He also had concerns about the construction of the Fire Station Headquarters training tower burn room. City Manager Austin stated that the Bond proposal includes funding for the redevelopment of the old fire station site and the 13 Mile frontage. The redevelopment plans were presented to and approved by Council and copies are available and have been given to residents who asked for them. He stated he remains available to explain the project, and that it is within budget at this time. Councilwoman Russell stated that the project is not running out of budgeted funds. She stated that Staff will research the burn room issue. She stated that the trees in Civic Center Park were cut down due to the problems with the emerald ash borer which is a separate project. Councilman McGillivray stated that removal, excavating and planting of new trees was funded by a grant from the State. Further, he explained that the Bond money for the Fire Station proposal, voted on by the residents, is separate from the General Fund and cannot legally be used to reopen the Branch Library or to hire personnel. Mayor Swanson commented that the Project Manager for the Fire Station Headquarters has found ways to save money and funds were saved by not midifying the sled hill. He stated that the Fire Fighters want the burn room to use natural (wood) burning, and that is why gas has not yet been put in.

Richard LePage, 30980 Plum Lane, indicated that in his opinion the Bond Proposal wordage stated, “develop its site” which he interprets to mean a very limited area and that further redevelopment should come from General Funds.

Clifford Oglesby, as Chairman of the Fire Station Task Force, has been questioned by residents about the redevelopment and recommended further public discussions as to it's funding. He stated that he has talked to outside professionals and values their opinions over the Madison Heights Fire Department and feels that gas burn rooms are superior, effect insurance costs and are positive for the environmental.

Jim Koppal, business owner at 1205 Spartan, asked for a variance to park a pop-up camper on his industrial property. He presented pictures of the site. Mayor Swanson informed him to make an appointment with the City Manager.

(1) A minor shall not purchase or attempt to purchase alcoholic liquor, consume or attempt to consume alcoholic liquor, possess or attempt to possess alcoholic liquor, or have any bodily alcohol content, except as provided in this section. A minor who violates this subsection is guilty of a misdemeanor punishable by the following fines and sanctions:

(a) For the first violation a fine of not more than $100.00, and may be ordered to participate in substance abuse prevention services or substance abuse treatment and rehabilitation services as defined in section 6107 of the public health code, 1978 PA 368, MCL 333.6107, and designated by the administrator of substance abuse services, and may be ordered to perform community service and to undergo substance abuse screening and assessment at his or her own expense as described in subsection (4).

(3) When an individual who has not previously been convicted of or received a juvenile adjudication for a violation of subsection (1) pleads guilty to a violation of subsection (1) or offers a plea of admission in a juvenile delinquency proceeding for a violation of subsection (1), the court, without entering a judgment of guilt in a criminal proceeding or a determination in a juvenile delinquency proceeding that the juvenile has committed the offense and with the consent of the accused, may defer further proceedings and place the individual on probation upon terms and conditions that include, but are not limited to, the sanctions set forth in subsection (1)(a), payment of the costs including minimum state cost as provided for in section 18m of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.18m, and section 1j of chapter IX of the code of criminal procedure, 1927 PA 175, MCL 769.1j, and the costs of probation as prescribed in section 3 of chapter XI of the code of criminal procedure, 1927 PA 175, MCL 771.3. Upon violation of a term or condition of probation or upon a finding that the individual is utilizing this subsection in another court, the court may enter an adjudication of guilt, or a determination in a juvenile delinquency proceeding that the individual has committed the offense, and proceed as otherwise provided by law. Upon fulfillment of the terms and conditions of probation, the court shall discharge the individual and dismiss the proceedings. Discharge and dismissal under this section shall be without adjudication of guilt or without a determination in a juvenile delinquency proceeding that the individual has committed the offense and is not a conviction or juvenile

adjudication for purposes of this section or for purposes of disqualifications or disabilities imposed by law upon conviction of a crime, including the additional penalties imposed for second or subsequent convictions or juvenile adjudications under subsection (1)(b) and (c). There may be only one (1) discharge or dismissal under this subsection as to an individual. The court shall maintain a nonpublic record of the matter while proceedings are deferred and the individual is on probation under this subsection. The secretary of state shall retain a nonpublic record of a plea and of the discharge and dismissal under this subsection. This record shall be furnished to any of the following:

(a) To a court, prosecutor, or police agency upon request for the purpose of determining if an individual has already utilized this subsection.

(b) To the department of corrections, a prosecutor, or a law enforcement agency, upon the department's, a prosecutor's, or a law enforcement agency's request, subject to all of the following conditions:

(4) The court may order the person convicted of violating subsection (1) to undergo screening and assessment by a person or agency as designated by the substance abuse coordinating agency as defined in section 6103 of the public health code, 1978 PA 368, MCL 333.6103, in order to determine whether the person is likely to benefit from rehabilitative services, including alcohol or drug education and alcohol or drug treatment programs.

(6) A peace officer who has reasonable cause to believe a minor has consumed alcoholic liquor or has any bodily alcohol content may require the person to submit to a preliminary chemical breath analysis. A peace officer may arrest a person based in whole or in part upon the results of a preliminary chemical breath analysis. The results of a preliminary chemical breath analysis or other acceptable blood alcohol test are admissible in a criminal prosecution to determine whether the minor has consumed or possessed alcoholic liquor or had any bodily alcohol content.

A minor who refuses to submit to a preliminary chemical breath test analysis as required in this subsection is responsible for a civil infraction and may be ordered to pay a civil fine of not more than $100.00.

(7) A law enforcement agency, upon determining that a person less than 18 years of age who is not emancipated under 1968 PA 293, MCL 722.1 to 722.6, allegedly consumed, possessed, purchased alcoholic liquor, attempted to consume, possess, or purchase alcoholic liquor, or had any bodily alcohol content in violation of subsection (1) shall notify the parent or parents, custodian, or guardian of the person as to the nature of the violation if the name of a parent, guardian, or custodian is reasonably ascertainable by the law enforcement agency. The notice required by this subsection shall be made not later than 48 hours after the law enforcement agency determines that the person who allegedly violated subsection (1) is less than 18 years of age and not emancipated under 1968 PA 293, MCL 722.1 to 722.6. The notice may be made by any means reasonably calculated to give prompt actual notice including, but not limited to, notice in person, by telephone, or by first-class mail. If an individual less than 17 years of age is incarcerated for violating subsection (1), his or her parents or legal guardian shall be notified immediately as provided in this subsection.

(8) This section does not prohibit a minor from possessing alcoholic liquor during regular working hours and in the course of his or her employment if employed by a person licensed by the Michigan Liquor Control Code, by the Michigan Liquor Control Commission, or by an agent of the Michigan Liquor Control Commission, if the alcoholic liquor is not possessed for his or her personal consumption.

(9) This section does not limit the civil or criminal liability of the vendor or the vendor's clerk, servant, agent, or employee for a violation of this act.

(10) The consumption of alcoholic liquor by a minor who is enrolled in a course offered by an accredited postsecondary educational institution in an academic building of the institution under the supervision of a faculty member is not prohibited by this act if the purpose of the consumption is solely educational and is a requirement of the course.

(11) The consumption by a minor of sacramental wine in connection with religious services at a church, synagogue, or temple is not prohibited by this act.

(12) Subsection (1) does not apply to a minor who participates in either or both of the following:

(a) An undercover operation in which the minor purchases or receives alcoholic liquor under the direction of the person's employer and with the prior approval of the local prosecutor's office as part of an employer-sponsored internal enforcement action.

(b) An undercover operation in which the minor purchases or receives alcoholic liquor under the direction of the state police, the commission, or a local police agency as part of an enforcement action unless the initial or contemporaneous purchase or receipt of alcoholic liquor by the minor was not under the direction of the state police, the commission, or the local police agency and was not part of the undercover operation.

(13) The police shall not recruit or attempt to recruit a minor for participation in an undercover operation at the scene of a violation of subsection (1) or (2).

(14) In a criminal prosecution for the violation of subsection (1) concerning a minor having any bodily alcohol content, it is an affirmative defense that the minor consumed the alcoholic liquor in a venue or location where that consumption is legal.

(15) As used in this section, "any bodily alcohol content" means either of the following:

(a) An alcohol content of 0.02 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine.

(b) Any presence of alcohol within a person's body resulting from the consumption of alcoholic liquor, other than consumption of alcoholic liquor as a part of a generally recognized religious service or ceremony.

327. SAD. 268 – Repaving Dorchester, Browning & Donna, Resolution 3

A public hearing was held to hear comments, if any, on the necessity to construct concrete pavement, approaches, sidewalks, landscaping, storm sewer connections and miscellaneous related improvements on Dorchester from Browning to Donna, Browning east and west of Dorchester and Donna west of Sherry. The following persons spoke:

Jan Kiewiet, 1703 Browning, stated that the concrete by his house is not in disrepair and there is no necessity for replacement. Community Development Director Schafer and City Engineer Nicolaescu explained the need for a drainage basin at that location and that the condition of the cement would not hold up for as long as the new construction.

Albert Bederka, 30219 Dorchester objected to the method of assessment as being unfair to corner lots. He asked if the project were rejected by the residents, could they be turned down if there is a new project, and asked that a list of the streets next scheduled for repair be sent to the homeowners in this special assessment area. City Manager Austin stated that the

Proposal R funds were used first to repave the worst streets and that if the road millage were renewed by the voters, a determination would be made at that time as to which streets would quality for replacement.

Bruce Phillip, 1716 Browning acknowledged the need for the project, but objected to the cost because he is out of work.

Carl Fiedler, 1741 Browning, asked why this project will cost the homeowners 50% and other road projects were funded 100%.

George Ciofu, 30208 Dorchester, objected to the proposed 50% assessments and asked questions about sectional repair projects. City Manager Austin stated that State tax revenues are used for small sectional repairs.

Susan Moldenhauer, 30193 Dorchester, stated there is a need for repair because the street gets heavy traffic, and objected to the 50% assessment. She asked what criteria is used to determine which streets are repaved without assessment to the homeowners. City Manager Austin read the list of streets proposed for paving in the Special City Newsletter provided to residents prior to the millage vote, and stated that sealcoat/gravel streets were the first priority. All other concrete streets were assessed the 50% cost of the project.

Donna Philips, 1716 Browning, objected to the 50% assessment, and that her tax money should pay for the road. Councilman McGillivray informed her that the major portion of her taxes is collected for school millages. The City portion is used to provide Police, Fire, DPS and other services. Road repaving is only funded through the Proposal R millage funds.

John Pulice, 30869 Avondale, stated that he does not live in the area, but reminded the residents that a petition of two-thirds of the property owners agreed to the reconstruction and special assessment..

Kenneth Moore, 1726 Browning, stated that he voted for Proposal R because he thought his street was included in the 10 year project. He objected to the 50% assessment but is in favor of the reconstruction because it needs to be done.

There being no further comments from the audience, the public hearing was closed.

334. Mayor and Council - Comments and Requests

Councilman Corbett congratulated Marie Donigan, the newly elected 26th District State Representative and George Suarez for being reelected 24th District County Commissioner. He stated that the Madison Heights Goodfellows and Salvation Army will be collecting food donations at the November 22, 2004 Tree Lighting ceremony and urged residents to participate.

Councilwoman Shad stated, for the benefit of the SAD 268 homeowners, that annual calendars, provide information on where tax dollars are spent, and noted the upcoming calendar is the City's 50th Anniversary. She congratulated Lillian and John Pulice on their upcoming 50th Wedding anniversary and requested a proclamation.

Councilwoman Russell congratulated the City Clerk's Office for their work during the Presidential Election, along with the Police Department, DPS and Finance Department. She noted that the 50th Anniversary Committee will be scheduling events during 2005 for the City's anniversary. She complimented Assistant City Manager Ben Myers for the very informative website which received over 260,000 hits this year.

City Attorney Austin stated that the Senior Citizen Center will be holding a Veteran's Day ceremony on Wednesday, November 10th at 11:00 a.m.

Mayor Pro Tem Clark commented that he understood some of the residents concerns about the costs of SAD 268, but that 50% is better than 100% for an assessment, because it is uncertain whether an additional road millage would be approved by the voters, and that he would hate to see nothing done.

Councilman McGillivray echoed all the comments.

Mayor Swanson complimented all who helped to run the election and introduced Alison Dorset, the new reporter for the Madison Park News.

Mr. Austin indicated the presentation was prepared at Council's request and that after Council's review, the presentation will be edited for length and provided to the City employees.

It was noted that Madison Heights has a Charter approved general operating limit of 10 mills, whereas most cities have a 20 mill limit. Discussion was held on the feasibility of raising the existing millage and/or adding new dedicated millages to finance specific operations (e.g., Library).

The Mayor requested a brief recess at 10:15.

City Manager Austin led a discussion of the Goal Proposals for 2005-2006. He outlined the new format which focuses on cost recovery and expenditure reduction proposals. The Council and Staff discussed the following Goal Proposals as ranked by Staff and Council.

(b) the pros and cons of a City appointed Library Board, acting under Act 164, to finance Library operations and future renovations;

339. SAD. 269 – Repaving portions of Delton, Resolution 5

A public hearing was held to hear comments, if any, on confirmation of the assessment roll needed to construct concrete pavement, approaches, sidewalks, landscaping, storm sewer connections and miscellaneous related improvements on Delton from Greig to Cowan. Robert Bogden, owner of the property at 26365 Delton, questioned the cost of the project, the 6% interest charge, if residents would receive reimbursement if the bid estimate is too high and if approaches and water taps would be put in for vacant land. City Manager Austin stated that the 6% interest is set by Charter, the cost of construction has risen 3% per year for the last ten years which is a reasonable amount, and residents would be reimbursed if the project is completed for significantly less than the estimated cost. He further stated that all existing driveway curb cuts are replaced during construction. If he desired an estimate from the contractor could be provided for new curb cuts and from the City for water tapping fees.. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Scott,
Supported by Councilman Clark,

SPECIAL ASSESSMENT DISTRICT NUMBER 269
RESOLUTION NUMBER 5

340. SAD. 268 – Repaving Dorchester, Browning & Donna, Resolution 5

A public hearing was held to hear comments, if any, on the confirmation of the assessment roll needed to construct concrete pavement, approaches, sidewalks, landscaping, storm sewer connections and miscellaneous related improvements on Dorchester from Browning to Donna, Browning east and west of Dorchester and Donna west of Sherry. Jerry McManus, 30407 Longfellow, asked for the total cost of the project, questioned why a guaranteed loan is at 6% interest, and what happens if the project cost exceeds the estimate? City Manager Austin stated that the total cost of $411,276.00 is the engineer's estimate and the actual contract will be known when bid at the end of the project. If the actual costs are more than 5% less than the estimate, the homeowners will be refunded the difference. The Charter provides that if the project goes over 5% of the estimate the City may charge it back to the homeowner, but that traditionally the City has paid the difference. He further stated that an informational meeting for the residents will be held in March concerning the detail plans of the project.

WHEREAS, the administrative costs of health insurance run between 25 and 30 cents on the dollar; and

WHEREAS, health care providers spend an excessive amount of time on processing required forms which takes away from treatment; and

WHEREAS, prescription drug prices are skyrocketing so that senior citizens and other uninsured have to chose between food and medicine; and

WHEREAS, our citizens, workers and retirees are increasingly losing health care coverage because of the cost of insurance to employers, the self-employed, government and school districts; and

WHEREAS, the Michigan economy is losing jobs at a pace among the highest in the country which is costing our citizens to lose health insurance coverage; and

WHEREAS, employer funded health insurance is one of the factors that does not allow our state produced products to be as competitive with other countries as they could be; and

WHEREAS, health is declared to be "a primary public concern" according to our state constitution (Article 4, Section 51); and

WHEREAS, under our laws the state is supposed to create a plan to provide access to health care to all segments of the state's population (MCL 325.2010).

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council calls on Governor Jennifer Granholm to establish a commission to study the financing of health care in Michigan and to make recommendations to change the financing so that all citizens in Michigan shall have health insurance available in a system which is affordable, cost efficient; eliminates disparities in access and mental health care; provides continuity of care (is portable from one job to another); protects consumer choice; and is easy to use.

Organizational Mission Statement

The Mission of the City of Madison Heights is to provide high quality services to residents and businesses in the most efficient, effective, and ethical manner possible so as to maintain and enhance, where possible, the public's health, safety and quality of life.

Public Safety Related Goals

A. Coordinate with Oakland County and support implementation of the new 800 Megahertz state-of-the-art public safety communication system.
B. Investigate options and prepare implementation plan to cost effectively deliver animal control services throughout the community.
C. Create a new self-supporting traffic enforcement detail that will focus on speeding traffic, stop sign violations, reckless driving, loud radios, and other traffic and ordinance violations.
D. Modify the existing Ten Year Residential Road Improvement Program to direct the remainder of Proposed "R" millage funds to critical road reconstruction projects.
E. Evaluate, identify, prioritize and create a new long-range comprehensive infrastructure replacement plan including roads, storm sewers and sidewalks to continue the success of the current Ten Year Neighborhood Residential Road Improvement Program.

Quality of Life Related Goals

F. Structure for City Council's consideration a plan to implement a State of Michigan Public Act 164 Library governed by an appointed Library Board and supported through an independent millage levy, State aid, penal fines, book fines and user fees; where the millage is offset by a reduction in the City's operating millage and the transition is "revenue neutral" to the General Fund.
G. Analyze options and update the Parks and Recreation Master Plan including, but not limited to, the possible sale of Gravel Park for residential redevelopment and swapping equivalent park properties at Sunset Park and Rosie's Park with the Madison School District.

Resource Management Related Goals

H. Implement measures to adjust procedures, operations, staffing levels, scheduling and where possible, negotiated labor contractual provisions to reduce significant Police and Fire overtime costs.
I. Outline options, receive Council's direction, and move toward new uses of former Branch Library Building.
J. Competitively bid local and long distance telephone services to minimize the costs.
K. Improve equity by establishing a solid waste collection and disposal fee that attempts to recover the costs of servicing manufactured home communities.

Councilman McGillivray stated that he is opposed to goal item F – an Act 164 Library funded through a new millage, but agrees with the remaining goals and will support the plan in total.

Councilwoman Shad asked if it has been considered to not operate a Library like Bloomfield Hills and contract with another city for use of their library by our residents. Assistant City Manager Myers stated that consolidation with other libraries in lieu of funding ours was not studied by the Library Advisory Board. Staff was asked to provide a brief report to Council on the Bloomfield Hills arrangements.

103. Special Approval – COSTCO expansion at 30550 Stephenson

A public hearing was held to hear comments, if any, to permit a 17,805 square foot addition to the north end and a new Tire Center to the east end of the existing COSTCO building at 30550 Stephenson Highway. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilman Corbett,

WHEREAS, a Special Approval Board application has been received from Ronald Maddos, authorized agent for Costco, requesting a 17,805 square foot addition to the north end and a new Tire Center to the east end of the existing COSTCO building at 30550 Stephenson Highway; said property is zoned M-1, Light Industrial.

WHEREAS, a public hearing was advertised in the Daily Tribune on April 15, 2005 and 68 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: 30550 Stephenson Highway – East side of Stephenson Highway south of 13 Mile Road.

REQUEST: Special Approval for proposed building expansion and relocation of existing tire center on a previously approved COSTCO facility under Section 10.329(5) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial District

EXISTING USE: Existing COSTCO facility, including tire center.

STAFF ANALYSIS:

1. Special Approval for this facility was granted in 1997 (Case 97-09). The proposed 17,805 square foot addition to the north and east side of the existing building will result in expanded internal sales area and relocation of the existing tire center from the north side to the east side of the building. The relocated tire center will be the same size as the current facility.

2. The revised parking exceeds minimum ordinance requirements. The plan includes additional parking within the area between the front yard setback and the actual building setback along Stephenson Highway. This is permitted after approval by the Planning Commission. Should City Council grant special approval for the expansion, the Planning Commission would consider the front yard

parking design at a future meeting. The applicant has proposed substantial additional landscaping and berming along the Stephenson frontage adjacent to these parking areas to reduce the visual impact from Stephenson Hwy. Cross sections have also been provided that demonstrate the screening impact of the proposed berming and landscaping.

3. Hours of Operation: *Existing - No Change Proposed*

determination shall be charged as an administrative expense to the Eligible Employer's Defined Benefit Program Plan3 account.

She complimented Lamphere High School for their Health Fair on May 20, 2005 and strongly disapproved of a WDIV television program showing the effects of drinking on a local a reporter. She recognized those members of the State House of Representatives who have publicly supported the concerns of revenue sharing. The MML has surveyed all Michigan cities as to how cuts are affecting them. He echoed Mr. Clark's concerns about mosquitoes breeding in the pond at Meijers. He invited the public to the Memorial Day Parade and the Pancake Breakfast at the Senior Citizens Center.

151. SAD 270 – Sidewalk Program, Resolution 3

A public hearing was held to hear comments on the necessity to repair or construct concrete sidewalks in the right of way of the public streets in the area bounded by Lincoln Ave., I-75, Eleven Mile Road, and Dequindre Road and at several individual parcels in the City of Madison Heights. The following persons spoke:

Unidentified woman, speaking for Mario Policiano at 313 W. Kalama, stated that three slabs were replaced by the City after water repairs were done three years ago and they object to paying for the replacement of those slabs.

Leland Sherburn, 1614 Middlesex, stated that he is disputing two of the six sections of sidewalk that are marked for replacement – the slabs near the apron of the driveway that dropped 4-6 inches after the City repaired two water main breaks at 1604 Middlesex two years ago.

Chuck Venticinque, 26064 Hampden, asked the name of the contractor who will be doing the project. Mr. Austin stated Italia Construction does sidewalk repairs for the City. Mr. Venticinque objected to being assessed for handicap ramps and asked why everyone is not assessed. City Manager Austin stated that the cost of handicap ramps is divided equally among all properties in each special assessment district. Mr. Venticinque objected to this policy.

Mike Mcelgunn, 26361 Lorenz, objected to replacing five slabs of sidewalk that are raised due to the roots of a maple tree, because two of these slabs were replaced a few years ago by the City and he feels the contractor did not dig deep enough to solve the root problem. He objects to paying for replacement again and for possible continued replacements every few years due to the roots. City Manager Austin stated that Mr. Mcelgunn has the option of getting his own contractor to replace the slabs and cut out the roots and/or he can have the tree removed. Deputy Community Development Director Williams stated that current standards are more stringent for removal of roots and the thickness of concrete.

Gertrude Makowski, 26104 Hampden, stated that her approach needs replacement but she cannot afford sidewalks. City Manager Austin stated that she could apply for financial assistance or get information on this pogram.

Rita Dodge, 26284 Tawas, stated she is concerned that kids in the neighborhood will destroy the sidewalk and requested information on the cost. Deputy Community Development Director Williams stated that personnel will be left on the site for as long as possible, and damaged sidewalks caused by kids would be replaced.

Mark Craddock, 26629 Couzens, stated the neighborhood, not the spcial assessment roll, should pay for the handicap ramps. He objected to the handicap ramp charge and proposed that the policy be adjusted.

Ismail Matti, 26758 Hampden, objected to the assessment which, in his opinion, should be paid out of property taxes, and stated that his sidewalks are not in need of repair.

City Manager Austin stated that Deputy Community Development Director Williams will follow up on these inquiries and report back to Council before the next Council Meeting.

There being no further comments, the public hearing was closed.

174. Meeting Open to the Public

John Pulice, 30869 Avondale, congratulated City Manager Austin and wife Lori on their 25th Wedding Anniversary and commended Deputy City Manager Connors and Recreation Supervisor Martin for the Pre-Fourth of July Festival in the Park and Fireworks held on June 26th.

Gary George, 1735 Castlewood, announced that the 5th American Cancer Society's Relay for Life walk/run 24 hour event will be held in Civic Center Park beginning at 10:00 a.m on Saturday July 16th, and ending at 10:00 a.m. on Sunday, July 17th. He noted that all money raised is used to fund Michigan Cancer related programs.

Robert Scheere, 27785 Brush, complimented the Fireworks display and complimented Dolly Ferries for the Memorial Day Parade. He requested that Zoning Board of Appeals meetings be rebroadcast and that the Plan Commission meetings be telecast. City Manager Austin stated that City Council sets the policy for televising meetings, and they will certainly consider this request.

175. Bokum Tool Company, Inc - Renaissance Recovery Zone Designation DENIED

June Heuser, speaking for Bokum Tool Company, Inc, 32301 Dequindre, stated that the company has been in business in Madison Heights since 1964 and they are a family owned business. She presented a brochure of the types of tools made in their plant. She stated that due to the current economic decline they are asking for designation as a Renaissance Recovery Zone pursuant to Public Act 202 of 2004. The designation exempts the company from its real and personal property tax liabilities (except debt millage) for up to 15 years. She stated that the tax exemption would help keep the company in business and keep employees employed. On behalf of Bokum, she indicated that they would agree to any property tax emption for lesser numbers of years.

Motion by Councilman Clark, supported by Councilwoman Russell, to deny the request from Bokum Tool Company, Inc. to designate the property at 32301 Dequindre Road as a "Renaissance Recovery Zone" pursuant to Public Act 202 of 2004.

177. Resolution Opposing Moratorium on Wireless Internet Access Expansion

Motion by Councilman Corbett, supported by Councilwoman Scott, to adopt the following resolution opposing legislative efforts to limit wireless expansion in Michigan:

RESOLUTION

WHEREAS, in his February 10, 2005 State of the County Address, County Executive L. Brooks Patterson announced the "Wireless Oakland" initiative to blanket Oakland County with wireless internet service and provide a free level of service to every resident, business and visitor; and

WHEREAS, the goals of this exciting project, which has never before been attempted anywhere in the nation on this scale, include: the breaking down of the digital divide to offer wireless technology to under-served populations; the enhancement of the commercial and residential character of the County; and the enhancement of the County's ability to attract and retain high-tech businesses; and

WHEREAS, the Wireless Oakland business model calls for the creation of a new public corporation that will not own or operate the collected public network assets, but rather will license the use of such assets to private sector partners on a non-exclusive, non-interfering basis; and

WHEREAS, the County has promulgated an aggressive project timeline that included deadlines of May 1, 2005 for local governments to apply to be pilot communities, August 2005 for selection of the private sector partners, Fall 2005 for commencement of the pilot projects, and early 2007 for complete build-out; and

WHEREAS, the City of Madison Heights has applied to be one of the pilot communities; and

WHEREAS, a June 14, 2005 Detroit Free Press article reports that State Representative Mike Nofs (R – Battle Creek) has indicated his intent to pursue a legislative moratorium on wireless expansion in Michigan; and

WHEREAS, in a June 19, 2005 Detroit News commentary, Representative Nofs again expressed his opposition to the Wireless Oakland initiative; and

WHEREAS, such legislative intent, which mischaracterizes the Wireless Oakland initiative as an anti-competitive concept that involves local governments too deeply in the private sector, would have a stifling effect on Michigan's economy and would deprive our most vulnerable citizens from having an opportunity to access the Internet.

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and Council of the City of Madison Heights do hereby indicate strong opposition to any legislative effort to place a moratorium on wireless expansion in Michigan, recognizing that outstanding initiatives such as Wireless Oakland are crucial in revving Michigan's economy and ensuring the accessibility of technology for future generations.

BE IT FURTHER RESOLVED, that copies of this Resolution be forwarded to Governor Jennifer Granholm, State Representative Marie Donigan, State Senator Shirley Johnson, State Representative Mike Nofs, County Executive L. Brooks Patterson, and County Commissioner George W. Suarez.

178. Royal Oak Public Library Service Agreement

Motion by Councilwoman Russell, supported by Councilman Corbett, to adopt the following resolution to enter into a Library Service Agreement to accommodate the Royal Oak Library closure on June 18, 2005, to begin a major renovation project, as follows:

Royal Oak Public Library Service Agreement Resolution

WHEREAS, the Royal Oak Public Library will not have a facility from which to offer full library service to the public during approximately four months starting June 20, 2005, due to closure for approximately three months for renovations and approximately one month for move-out and move-in operations; and

WHEREAS, Royal Oak residents make frequent use of the Royal Oak Public Library, and during this closure period, many of those residents will seek library service from surrounding libraries; and

WHEREAS, if all patrons using the Royal Oak Public Library were to use the Berkley, Clawson, or Madison Heights libraries, those libraries' daily visits would increase by approximately 68%, and their children's summer reading program registrations would increase by approximately 173%; and

WHEREAS, such dramatic increases in service utilization would be difficult or impossible for these neighboring communities, including Madison Heights, to sustain with existing resources, resulting in poor or severely limited service to Royal Oak residents; and

WHEREAS, by selectively providing several Royal Oak Public Library staff members in neighboring libraries, including Madison Height, pursuant to agreements negotiated by the Royal Oak City attorney, approved by the Library Director, and executed by the Mayor and City Clerk, Royal Oak residents would benefit from improved service in those libraries; and

WHEREAS, this staffing arrangement would also be beneficial to the Madison Heights Public Library through increased staffing, and the possibility of reciprocation should the need ever rise; and

WHEREAS, at their May 16, 2005 Meeting, the Berkley City Council approved a motion to offer Royal Oak residents with full library services while the Royal Oak Library is closed for construction in return for the loan of Royal Oak Library staff, provided that Royal Oak assumes responsibility for compensation of its employees and all necessary liability insurance; and

WHEREAS, at their Meeting of June 6, 2005, the Royal Oak City Commission adopted a resolution to authorize the City Administration to execute any agreements necessary to effectuate service agreements with neighboring communities; and

THEREFORE BE IT RESOLVED, that the Mayor and Council of the City of Madison Heights authorize the Madison Heights Public Library to offer Royal Oak residents full library services at its facility while the Royal Oak Public Library is closed for construction in return for the loan of Royal Oak Public Library staff to work at the Madison Heights Public Library during that time period, provided that the arrangement is cost-neutral to the City of Madison Heights, and that Royal Oak will be responsible for the compensation of its employees and will provide all necessary liability insurance.

197. Special Approval – Restaurant at 32389 John R

A public hearing was held to hear comments, if any, to permit the addition of 12 seats to the existing Cold Stone Creamery ice cream shop at 32389 John R. The property is zoned B-3 General Business, which requires Special Approval for eating and drinking establishments with seating. Motion by Councilwoman Russell,
Supported by Councilman Clark,

WHEREAS, a Special Approval Board application has been received from Steve Dumont of Designstruct, Inc. 22757 Woodward Ave, Suite 200, Ferndale, MI, 48220 requesting to add 12 seats to the existing Cold Stone Creamery ice cream shop at 32389 John R; said property is zoned B-3, General Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on July 15, 2005 and 63 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION:	32389 John R – West side of John R north of Whitcomb (Madison Place Shopping Center).
REQUEST:	Special Approval for a new restaurant under Section 10.326(10) and 10.319(4) of the Zoning Ordinance.
EXISTING ZONING:	B-3, General Business
EXISTING USE:	Existing carry out ice cream shop.

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-3 District. The existing facility was opened recently as a carry out only ice cream shop. The applicant is now seeking to add 12 seats, which necessitates special approval.

2. The facility is within 1,500 feet of 18 existing restaurants and therefore will require a variance from the Zoning Board of Appeals should City Council grant special approval for the proposed facility.

3. Parking exceeds minimum ordinance requirements.

4. Hours of Operation: 11:00 a.m. – 11:00 p.m. Monday through Sunday

5. The Site Plan Review Committee has reviewed the site plan and recommends the following condition should City Council approve the request: ZBA waiver of the 1,500 foot separation requirement.

6. Attached are specific review standards and criteria for review of Special Approvals (Section 10.201.1) and general standards for all City Council zoning-related decisions (Section 10.805).

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.326(10) of the Code of Ordinances, hereby approves the request to add 12 indoor seats to the existing Cold Stone Creamery at 32389 John R Road; conditioned upon a Zoning Board of Appeals waiver of the 1,500 foot separation requirement.

198. Meeting Open to the Public

Robert Scheere, 27785 Brush, stated that the Council Agenda topsheet was not on the City's Cable channel and that the audio for the July 11, 2005 Council Meeting was bad.

Carol LeMire and Helmut Lint, 28477 Alden, spoke objecting to the development of Harvard Village Subdivision (formerly the Sixma Elementary School site). Ms. LeMire stated she was unaware of the three-minute rule and had several emails sent to her by individuals living in the neighborhood and her own comments. Mayor Swanson suggested that copies be made of the emails to give to Council. Ms. LeMire read her statement objecting to the one entrance from the subdivision onto Alden because it will cause an increase of traffic on surrounding streets. She objected to construction traffic using residential streets and asked if an egress could be made onto Dequindre for the trucks. She inquired as to whose responsibility it was to notify the neighborhood of the sale of the

Sixma property. City Manager Austin stated that Lamphere School District owned the property and provide notification in April, 2005 and held two public hearings on September 28, 2004 and October 12, 2004. The City's Planning Commission approved a preliminary plan at their June 21, 2005 public meeting.

The following persons spoke objecting to the lack of notification from the Lamphere School District and with concerns about potential detriment to the neighborhood from increased traffic due to the new subdivision construction related traffic:

Edmund Freda, 1607 Myrtle
Richard Ihrke, 1591 Nottingham
Toni Prichard, 1556 Myrtle
Maureen Kilian, 1584 Westbrook
Diane Crosby, 1673 Myrtle
Kathy Conn, 1633 Westbrook

City Engineer Nicolaescu stated that a construction drive to Dequindre could be utilized, but only until the retention pond and the hard surfaces of the subdivision were built.

City Attorney L. Sherman stated that minutes received from the Lamphere School District for the two public hearings held by in 2004 showed that no one was present to oppose the project. He stated the property is zoned Residential and therefore did not require rezoning, which would have resulted in a public hearing and the related mail notification. The City's only involvement was the preliminary plan review, which does not require the mail notification, and that the plans submitted were prepared in accordance with City codes. He advised the residents that concerns about the project could have been directed to the Lamphere Board because they sold the property to, and are working with, the developer.

Councilman Clark requested that the City contact the Road Commission for Macomb County to review the timing of traffic signals on Dequindre from 11 Mile to 12 Mile for adjustments to allow traffic gaps for persons exiting from Nottingham, Jenifer and Beverly. He also requested that the Warren Police Department be contacted to enforce the no left-hand turn signs on southbound Dequindre at Universal Mall, across from Nottingham Drive, and suggested that residents request the use of the radar trailer to slow down traffic on Nottingham Drive.

Councilman Corbett requested that City consider a possible regarding the use of on-site signs to provide notification of upcoming Planning Commission meetings on any major development.

202. Resolution – I-75 Final Environmental Impact Statement.

Motion by Councilman Corbett, supported by Councilwoman Russell, to approve a resolution recommending that MDOT incorporate the summary of comments by the City of Madison Heights into the Final Environmental Impact Statement, as follows:

City of Madison Heights
Resolution regarding I-75 Draft Environmental Impact Statement

WHEREAS, the Michigan Department of Transportation (MDOT) has prepared a Final Environmental Impact Statement (FEIS) for the proposed widening and reconstruction of I-75 from M-102 to M-59; and

WHEREAS, MDOT has provided the FEIS for review and comment from the City of Madison Heights as well as from members of the public; and

WHEREAS, the City has reviewed the FEIS and offers the following "Summary of Comments – I-75 Final Environmental Impact Statement"; and

WHEREAS, the City continues to support improving the I-75 Corridor, including lane expansion as well as consideration of mass transit alternative components, and appreciates the opportunity to comment on this FEIS.

NOW, THEREFORE, BE IT RESOLVED, that The City of Madison Heights offers the following comments for MDOT consideration – "Summary of Comments – I-75 Final Environmental Impact Statement."

Summary of Comments – I-75 Final Environmental Impact Statement

The City of Madison Heights

General

- The City of Madison Heights supports the proposed I-75 improvements as a component of the measures needed to address the congestion issues within the I-75 Corridor.

- The City continues to support consideration of mass transit alternatives, in addition to the proposed I-75 improvements, as appropriate and supplemental methods of addressing current and future congestion within the I-75 corridor.

- The City is not committing to enforcement of any High Occupancy Vehicle (HOV) lane alternative. Should the proposed project ultimately include HOV lanes, enforcement should be the responsibility of the State Police. The response to our DEIS comment in this regard referenced "*…additional funding sources will be explored…*". We welcome the opportunity to receive additional information on these sources and their level of compensation for any eventual local enforcement resources.

Project Design/Improvements

- The City supports MDOT's efforts to provide separated storm water management through this project. There is a concern, however, with the method of conveyance for the separated storm flow from I-75 to the Red Run Drain East of Dequindre. The FEIS does not specifically address this issue, however, the consultant involved in the drainage study indicates that the intent is to construct a new storm system along the existing George W. Kuhn (GWK) Drain right of way. This concept must be reevaluated and discussed in detail with the Oakland County Drain Commissioner's office and all communities that are part of the GWK Drainage District. The exact location of the proposed storm pipe, to be established during the design phase, must take into account the surface and subsurface facilities that occupy the intended route. There is approximately 1 mile of I-75 right of way, north and south of 12 Mile Road including the interchange which has its run-off already accounted for within the GWK separated system being conveyed directly to Red-Run East of Dequindre.

- The City recommends including extension of a westbound right turn lane on 12 Mile Road, immediately west of existing Home Depot driveway, within the project scope. The response to our DEIS comment indicates potential conflicts with FHWA policy. The widening project will have substantial impact on this area and should be within the scope of the project. In light of the intersection design modifications called for later in the FEIS, the City continues to recommend that a dedicated I-75 access lane be accommodated in this location, designed in accordance with applicable federal and state design criteria.

- The City plans to install a sidewalk this summer on the south side of 14 Mile from Concord to Stephenson Hwy. The City requests that this expense, within the I-75 project area, be credited toward any local contribution that may be required relative to the I-75 project.

- The City plans to provide maintenance overlays for portions of the service drive at the I-75 / I-696 intersection. The City requests this expense, within the I-75 project area, be credited toward any local contribution that may be required relative to the I-75 project.

Non-Motorized Access

- The City continues to recommend providing designated pedestrian and bicycle access across all proposed bridges and underpasses, as well as at the Red Run Drain crossing, within the scope of this project.

- The Project includes new sidewalk adjacent to service drive on the east side. The City supports this concept and recommends continuing this non-motorized path throughout the project area (north to 14 Mile) with a design to accommodate bicycle traffic. This recommendation is not predicated on the referenced countywide non-motorized plan.

- The project includes removal of the I-75/Red Run Bridge. This will eliminate or minimize the potential for any future GWK, pedestrian/bicycle access across I-75 under the existing bridge system. Alternatives must be provided to ensure future access in this regard. This recommendation is not predicated on the referenced countywide non-motorized plan.

Local Road Impacts

- The FEIS generally references the extensive impact the proposed improvements will have on the adjacent road network (56 miles +), but does not address specific adjacent street improvement costs and impacts within Madison Heights or the funding mechanisms necessary to mitigate those impacts. This project will have extensive and long-term impacts on our local roads, both during construction as well as operationally after construction. These must be identified along with an identified cost sharing structure. The FEIS response that these costs will

be "…determined through the long-range planning process by the responsible agency" is not responsive and does not address the true costs of these impacts.

- The FEIS generally references the extensive impact on adjacent streets and communities during actual construction, but does not address costs attributable to local units to mitigate those impacts.

Neighborhood Impacts

- The FEIS identifies the possible taking of twenty-three (23) single-family homes, one church and portions of other parcels in Madison Heights. These are identified as "preliminary estimates" that are "subject to change during the design phase". The City supports efforts to reduce these impacts further during the design phase.

- The City recommends additional evaluation of the existing and proposed sound walls in the area from I-696 to 11 Mile. The City continues to oppose transferring responsibility for maintenance and reconstruction of the sound walls from MDOT to the City.

- Local access and diverted through-traffic during construction will be maintained via service drives. The FEIS references a future "…maintenance of traffic program…" during the design phase" to address safeguards to protect adjacent neighborhoods from this impact. This process must include analysis of closing / restricting access to side streets during construction as well as on a permanent basis.

Interchange Impacts

- The City continues to support use of land area freed up by new interchanges for private economic development, where appropriate based on adjacent land uses and parcel configurations. The proceeds from the sale of property should be credited toward any local contribution that may be required relative to the I-75 project and as partial compensation for lost local revenues due to possible takings elsewhere in the project area.

She extended condolences to John Pulice and his family and stated that she likes people to come to the Council meetings for an open discussion of problems, as was done tonight.

Councilman Clark stated that the condition of the Meijer's property is a disgrace. The pond fountain and waterfall are not working and geese and seagulls are leaving droppings all around the pond. The sprinkler system is broken and grass on the outlots has been allowed to get two-feet high and he would like Stuart Frankel to be required to maintain the property.

Councilwoman Scott asked if Assistant City Manager Myers could check the website because she has been unable to get the results of the prior 50th Anniversary trivia questions, and read the current questions. She announced that beginning August 1, 2005 residents can sign up on the website for the on-line Direct Payment program for water bills, and that the Senior Citizen Rummage Sale will be held on August 12th from 9:00 a.m. to 3:00 p.m.

Councilman McGillivray thanked the Rotary Club for the Movie in the Park and congratulated the Daily Tribune sports winners. He agreed with Councilman Clarks comment's about the condition of the Meijer's property, especially the non-working condition of the pond during the West Nile virus season, and that these concerns should be addressed with Stuart Frankel.

228. Resolution Supporting Property Tax Equity

Motion by Councilman Corbett, supported by Councilman Clark, to adopt the resolution submitted by City Assessor Mac Lachlan urging State legislators to reestablish tax equity for commercial and industrial real property owners by correcting the inadvertent impact of the Supreme Court ruling that prohibits the local assessor from immediately restoring the taxable value when a vacancy problem is resolved, as follows:

WHEREAS, the Michigan Supreme Court issued a decision in the ***WPW Acquisitions v City of Troy*** case concerning the assessment and taxable values of commercial and industrial properties; and

WHEREAS, the Supreme Court's decision has resulted in inequities relating to property assessments and taxable values based on levels of physical occupancy; and

WHEREAS, the WPW decision declared the "additions" language for an increase in occupancy to be unconstitutional but did not address the offsetting "loss" language for decreases in occupancy levels, which has a substantial impact on many properties in the State; and

WHEREAS, prior to this decision, a commercial/industrial property owner could work with their local assessor for assessment relief if the property's occupancy levels dropped substantially (loss), and subsequently, the assessment would return to a stabilized level when occupancy levels recovered (addition); and

WHEREAS, this process provided a fair and reasonable way to recognize occupancy problems with a particular property, as the "addition" and "loss" sections of the statute worked in harmony, providing "**temporary"** relief for an abnormal decrease in occupancy levels, clearly reflecting original legislative intent; and

WHEREAS, since the "addition" section of the statute has been ruled unconstitutional, commercial/industrial property owners can now manipulate the system by decreasing their occupancy level to achieve a permanent reduction in their Taxable Value, thereby locking in non-market property taxes at reduced levels; and

WHEREAS, the decision unintentionally rewards those commercial property owners who operate inefficiently and maintain high vacancy rates while penalizing those property managers who offer competitive lease rates; and

WHEREAS, the decision is unfair to residential taxpayers as the resulting effect will shift the property tax burden to residential taxpayers over time since, property taxes collected from commercial properties as a percentage of total tax revenues will decrease accordingly; and

WHEREAS, if left unaltered, the permanent loss of property tax revenue within the City of Madison Heights based on this Supreme Court decision will be significant. Such potential revenue loss will not only impact the City of Madison Heights, but also the County of Oakland, the Lamphere and Madison school districts, Oakland Community College and Oakland Intermediate School District, as well as Michigan's State Education Tax.

NOW THEREFORE BE IT RESOLVED, that the City of Madison Heights strongly urges its State Legislators to re-establish tax equity and correct the inadvertent impact of the ***WPW Acquisitions v City of Troy*** decision by supporting legislation to remove both the additions and losses sections of the General Property Tax Act (MCL 211.34d(1)(b)(vii) and 211.34d(1)(h)(iii).

BE IT FURTHER RESOLVED, that copies of this resolution be sent to Governor Granholm, State Senator Shirley Johnson, Representative Marie Donigan and the MML State and Federal Affairs Division.

248. Resolution Opposing Proposed Telecommunication Legislation

Gary George, 1735 Castlewood, questioned whether the Wireless Oakland program would put the County and City in competition with private businesses for cable services. Assistant City Manager Myers commented that one of the primary purposes of the Wireless Oakland initiative by the County Executive is to provide facilitation of a universal service concept to encourage private businesses to provide services to both inner City and rural areas, given that the private sector has not extended service to all of these areas.

Motion by Councilman Corbett, supported by Councilwoman Shad, to concur with the recommendation of the Michigan Municipal League and City Staff and to approve the resolution opposing Senate Bill 528 which would prevent local governments from providing any telecommunications services to citizens including cable, high-speed internet (Broadband), and wireless communications, as follows:

RESOLUTION

WHEREAS, State Senator Shirley Johnson (R-Royal Oak) has sponsored Senate Bill 528, which would prevent local governments from providing any telecommunication services to citizens; including cable, high-speed internet (Broadband), and wireless communications; and,

WHEREAS, for local governments, reliable high-speed internet (Broadband) service attracts businesses, spurs economic development, supports urban renewal, and helps communities provide effective and efficient core services such as public safety and public works; and,

WHEREAS, in today's global market, municipalities have the obligation to make sure that all citizens and businesses have equal access to the essential service of Broadband internet; and,

WHEREAS, corporate telecommunication companies, who want sole access to the internet market, want to determine which citizens and businesses are important and which are not important, cherry-picking only the "high-value" customers, thereby leaving behind senior citizens, the disabled, low-income, single-parent families and minorities; and,

WHEREAS, Michigan local governments already have specific restrictions and a well thought out statutory law (Metro Act) that regulates local government involvement in telecommunications services, and no further regulation is needed; and

WHEREAS, with Michigan having the worst unemployment rate in the country, high-speed internet access is a vital economic development tool essential for Michigan to successfully attract new jobs and to transition from a manufacturing to technology based economy; and,

WHEREAS, empirical evidence shows that municipal investment in telecommunications increases rather than decreases private investment and economic development in a community; and,

WHEREAS, recognizing the impact on economic development, many states such as California, Florida, Virginia, Oregon, and Alabama have passed legislation promoting municipal broadband service; and,

WHEREAS, without equal access to Broadband, Michigan would be further disadvantaged in attracting and retaining good jobs, particularly in the technology sector; and,

WHEREAS, municipal broadband projects are not intended to compete with the private sector, but rather to intervene in response to public demand where the private sector is either failing to provide a service at all, charging unaffordable rates, or providing substandard service; and,

WHEREAS, broadband access is not a luxury good that can be offered only to the most attractive customers and local governments must be able to step in to provide this vital service whenever and wherever needed; and,

WHEREAS, locally, the proposed legislation would effect the ability of Oakland County to provide access to all cities, villages, townships, and video arraignments for the 43rd District Court and for the provision of CLEMIS software to police agencies, which services are critical to providing residents of Madison Heights with a safer city; and,

WHEREAS, the City of Madison Heights has applied to be a pilot community in the Wireless Oakland Initiative, which would also be affected by this proposed legislation.

NOW, THEREFORE BE IT RESOLVED, that the City Council of Madison Heights does hereby indicate a strong opposition to the proposed legislation and urges State legislators to keep open the internet Broadband market for the good of all citizens.

BE IT FURTHER RESOLVED, that copies of this resolution are forwarded to Governor Jennifer Granholm, State Senator Shirley Johnson, State Representative Marie Donigan, County Executive L. Brooks Patterson, County Commissioner George W. Suarez, and the Michigan Municipal League.

1. This request is to modify an existing Special Approval to allow two self-serve vacuums at the existing automated car wash. The applicant was granted conditional special approval on August 11, 2003 after an initial denial in February 2003. (Minutes attached).

2. In the B-3 General Business District all operations must be carried on within the building area, including but not limited to vacuuming, washing and drying. The vacuums as proposed would require a ZBA variance to allow them to be placed outside the building.

3. The applicant has submitted a request to modify the special approval to permit installation of two self-serve vacuums on the east side of the building immediately adjacent to the building. The applicant has submitted information relative to the proposed vacuums in terms of their appearance and noise generation (attached).

4. Vacuums were included on the original special approval application and plan that was denied in February 2003. In conjunction with numerous other plan and operational changes, the vacuums were subsequently removed from the application and plan that was ultimately approved by City Council on August 11, 2003. Applicant now seeks installation of the vacuums. There have been no complaints regarding noise or other operational aspects of this facility since it opened in the spring.

5. The Site Plan Review Committee has reviewed the site plan and has one recommended condition for Council's consideration in their review of the request:

   Zoning Board of Appeals variance to allow vacuums outside the building area.

Recommendation:

Following public hearing, should City Council grant special approval for the proposed facility, staff recommends the following condition:

Zoning Board of Appeals variance to allow vacuums outside the building area.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section (10.3268) of the Code of Ordinances, hereby approves the installation and use of two self-serve vacuum units at 28245 John R; subject to approval of a variance by the Zoning Board of Appeals to allow vacuums outside the building area.

Answers: Assistant City Manager Myers stated that he would be switching from an administrative role to an operational role. He is currently in charge of administration to departments such as Human Resources, Information Technology, Purchasing, Library and City Clerk. The Department of Public Services duties include all Department of Public Services Departments, Nature Center, Parks & Recreation, Youth Center as well as a number of other programs. He stated that major contract

issues will be rising medical costs, retirement benefits and health and prescription drug costs. In regards to the Fire Regionalization Consolidation, he stated that Fire Department services, like all other City services, will have to be reviewed and restructured due to ongoing economic constraints. Mr. Myers stated that he will stay involved in the City's website as much as possible but that the browser based software will enable Department Heads to maintain their own departmental content on the site. Further, he has every confidence that Finance Director Marsh, who will be assuming the Director of Administrative Services position will continue to maintain the Website at it's current level. REQUEST: Special Approval for a retail sales facility in the M-2 District under Section 10.332A(5) and of the Zoning Ordinance.

EXISTING ZONING: M-2, Heavy Industrial

EXISTING USE: Vacant Industrial Building

STAFF ANALYSIS:

1. Special Approval is required for retail sales in the M-2 District. The applicant is seeking to reuse the site for a facility that will include wheelchair repair and maintenance, orthotics and prosthetics assembly, sales and fitting, and accessory storage / routine indoor maintenance of company delivery vehicles. Special approval is required only for the retail sales in the M-2 District.

2. Parking exceeds minimum ordinance requirements.

Adrianus Palm of 1667 Beverly spoke opposing the change in zoning. The following persons spoke in favor of the rezoning of the property:

Stacey Davis, 905 E. Guthrie
Andrea Palazzola, 1819 W. 13 Mile
Monica Smith, 31101 Edward
Rudolph Woods, 27795 Madison Manor
Irene Santangelo, 1204 Jenifer

Terri Spangler, 1215 Jerry
Charlotte Bielby, 816 W.Gardenia
Dr. Wittenberg, 28037 Dequindre

Jeff Chehab, owner of the property thanked everyone for their support and stated that his request for rezoning to B-1, Local Business is to permit him to add services as needed to increase his business, which is restricted by an O-1, Office Use. He stated that a larger building, with businesses to compliment his pharmacy, would improve the safety of the area, would bring in more tax dollars and services to the public, and would not adversely increase traffic flow. There being no further comments from the audience, the public hearing was closed.

City Attorney Sherman stated that the 0-1 Office zoning would permit optometrist and CPA businesses and allows Mr. Chehab to apply to the Zoning Board of Appeals to modify his previously granted use variances to include sales of food and medical supplies

Motion by Councilman McGillivray, supported by Councilwoman Russell, to deny Ordinance No. 1040 on second because a B-1 Local Business zoning would not be in conformance with the Master Plan designation for the site, would allow an extension of commercial uses into a planned office area, and is inconsistent with adjacent zoning and land uses immediately to the south and west, and existing and proposed single-family uses to the rear.

Mr. Chehab requested a postponement to allow his attorney, who was absent today, to attend a future meeting.

313. Substitute Motion

Motion by Councilwoman Russell, supported by Councilwoman Shad, to table the second and final reading of Ordinance 1040 until the Regular Council Meeting scheduled for January 23, 2006.

A public hearing was held to hear comments, if any, to permit the use of a proposed 171,069 square foot Lowe's facility including outdoor garden center, to be located at 434 West 12 Mile Road, at the site of the former 22-acre Saturn facility. The existing Saturn facility will be demolished. Rick Rattner, Attorney for Lowe's was present to answer questions and stated he was unaware of the Site Plan condition to delete Paragraph D of the proposed Development Agreement. Mike Roberts, 527 Bellaire, spoke against the development because it will increase traffic. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Shad,

WHEREAS, a Special Approval Board application has been received from Tom Ebels, Jr. Lowe's Site Development Manager, for Lowe's Home Centers, 1952 McDowell Road, Ste 101, Naperville, IL, 60563 requesting to use the property at 434 West 12 Mile Road for a Lowe's retail sales of home improvement goods facility and outdoor garden center; said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on November 4, 2005 and 92 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 434 W. 12 Mile – Northeast corner of 12 Mile and Dartmouth (Former Saturn Site).

REQUEST: Special Approval for retail sales in the M-1 District under Section 10.329(5) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial District

EXISTING USE: Vacant – Former 204,120 Saturn Facility (22.05 acres).

STAFF ANALYSIS:

1. Special Approval is required for retail sales in the M-1 District. Lowe's is proposing a 171,069 square foot facility, including outdoor garden center. The existing Saturn facility will be demolished. In addition, two outlots are proposed that would necessitate individual special approvals for future uses.

2. Parking for the proposed Lowe's facility exceeds minimum ordinance requirements, and includes 47 land banked parking spaces. Land banked parking spaces are provided for on the site plan, but are not paved and are "banked" as landscaped areas unless / until there is a demonstrated need for the spaces. Land banked parking requires approval by the Planning Commission. Parking for the future outlots is not a part of this special approval application, but for planning

design purposes has been calculated based on two 5,000 square foot buildings.

3. Hours of Operation: Monday – Saturday: 6:00 a.m. to 10:00 p.m.
   Sunday – 8:00 a.m. to 8:00 p.m.

4. The Site Plan Review Committee and Traffic Safety Committees have reviewed the plans, traffic study, and proposed development agreement. The following comments summarize the plans and proposed development agreement:

   a. **Site Plan** – The Site Plan details a Lowe's facility with an outdoor garden center, two outlots, a proposed public road extension of Dartmouth from the current terminus of Dartmouth north of 12 Mile Road north and then west to connect with John R at the signal near the Texas Roadhouse. In addition to the Dartmouth Road entrance, two drives are proposed to the Lowe's facility on 12 Mile – a central drive and a combined driveway with the adjacent commercial centers (RAMCO and Esshaki). The combined drive, if approved by all parties, will line this driveway up with Alger Street, thus eliminating the existing RAMCO / Esshaki drive offset that requires the prohibition of left turns from 12 Mile into the RAMCO / Esshaki centers. This combined drive will provide service and customer vehicle access to all three parcels. Both proposed drives on 12 Mile would have right turn lanes.

   b. **Development Agreement** – Applicant is proposing a development agreement to spell out the specific on-site and off-site improvements, responsibilities, and cost allocations for the various improvements. Below is a summary of the main elements of the Development Agreement as presented:

      i. **Paragraph 4A - SB I-75 Off Ramp @ 12 Mile Road** – Lowe's agrees to pay for the installation of a new traffic signal at this intersection, subject to a MDOT finding that it meets warrants and approving its installation. Lowe's obligation to pay for this improvement terminates two years from date of Certificate of Occupancy.

      ii. **Paragraph 4B - New Right Turn Lane – EB 12 Mile to SB John R** – The City has been progressing towards installation of a new right turn lane at this location as a part of our Right Turn Lane Goal Project. Lowe's agrees to pay $100,000 for costs associated with the construction

of this turn lane by the City. Lowe's obligation to pay for this improvement terminates two years from date of the development agreement.

iii. **Paragraph C(i) – Owner's (Lowe's) Ring Road – Lowe's agrees to dedicate public** right of way and then construct a public road from the terminus of Dartmouth, north of 12 Mile Road, north and then east to their easterly property line.

iv. **Paragraph C(ii) through (viii) – RAMCO Ring Road** – Lowe's agrees to continue its efforts to secure approval from the George W. Kuhn Drain District and RAMCO – Gershenson, owners of the Madison Center, to dedicate right of way and then construct the ring road from the Lowe's easterly property line east to John R at the Texas Roadhouse signal. If Lowe's has not completed the RAMCO Ring Road prior to issuance of a Certificate of Occupancy, or fails to secure approvals from RAMCO or the Drain Commission, Lowe's agrees to deposit $500,000 in escrow with the City to acquire right of way and construct the RAMCO Ring Road. Initially, there is a 2-year time frame for City to complete road, with provision for 18 month extension.

v. **Paragraph D – Combined Drive with RAMCO / Esshaki** – Lowe's agrees to negotiate an agreement with adjacent property owners (RAMCO and Esshaki) to relocate and combine the existing driveway along the westerly side of the RAMCO and Esshaki properties (immediately adjacent to the easterly property line of the current Saturn site). Lowe's has not secured these agreements and is seeking to have City Council approve an alternate (Sheet SP-04A) that would eliminate this combined drive.

vi. **Paragraph E** – Lowe's agrees to convey to the Oakland County Road Commission an additional 27' of right of way for 12 Mile Road adjacent to the subject property upon issuance of a certificate of occupancy.

5. Staff requested and Lowe's representatives have provided copies of letters from the Oakland County Drain Commissioner, RAMCO – Gershenson and Esshaki that explain the status of their respective reviews / approvals of the combined drive relocation (RAMCO and Esshaki) and the ring road (Drain District and RAMCO). As you can

see from the letters, all parties have been involved in ongoing conversations and negotiations regarding this development, however, none have entered into any agreements to accomplish the proposed ring road or combined drive relocation at this time.

6. While not a part of the development agreement, the City is also going to pursue extension of the existing right turn lane from WB 12 Mile to NB John R as a part of the City's Right Turn Lane Goal project.

7. Should City Council grant approval of this request, the Site Plan Review and Traffic Safety Committees have the following recommended conditions:

    a. Road Commission approval of the proposed dedication of right of way on 12 Mile.

    b. Approval of the proposed Development Agreement with the deletion of Paragraph D, the associated Sheet SP-04A "No Easement Alternative" and Exhibit "D".

    c. Planning Commission review and approval of the proposed land banked parking and site plan.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(5) of the Code of Ordinances, hereby approves the request, with the following conditions.

1. Road Commission approval of the proposed dedication of right-of-way on Twelve Mile Road;

2. Approval of the proposed Development Agreement with the deletion of Paragraph D, the associated Sheet SP-04A "No Easement Alternative" and Exhibit "D"; and

3. Planning Commission review and approval of the proposed land banked parking and site plan.

331. FY 2006-2007 Goal Plan

City Manager Austin reviewed a PowerPoint presentation entitled "Financial Forecast Presentation", explaining the City's current financial position in terms of revenues and expenditures, the financial forecast gap and strategies to address this shortfall.

City Manager Austin led a discussion of the Goal Proposals for 2006-2007. The following Goal Proposals were discussed, as ranked by Council:

NEW PROPOSALS - REVENUE

Group I

a. New 10-Year "V-2" Vehicle Replacement Program
l. Sale of City Lot at 29375 Edward
BBB Boys and Girls Club of South Oakland County Grant
d. Medicare Part D Prescription Program
e. Expand Fire Inspections

Discussion Group I - Revenue:

(a). Discussion was held concerning a ballot proposal for renewal of the 10 year vehicle millage being prepared for the August, 2006 election. The renewed millage would provide $6.6 million for the purchase of approximately 160 City vehicles, of which 80% would be for Police, Fire and Street Maintenance Departments. Councilman McGillivray questioned whether a dedicated millage should be on the ballot. City Manager Austin stated that the City has financial need in that 10 years ago it was not envisioned that the State would make such deep revenue sharing cuts or that medical costs would triple and that cities would be required to prefund retiree medical costs. In regards to the 10 year term, an open ended millage would be more difficult to have approved by the voters. General consensus was to continue preparing a 10-year vehicle maintenance ballot proposal, including broadening the plan to include the balance of the general operating funded departments.

(l). Discussion was held on the advantages and disadvantages of constructing a road from the Edwards property for an access through the Senior Center to John R Road, for the John Page Middle School traffic. It was decided to proceed with the sale of the lot.

(BBB). The Boys and Girls Club of South Oakland County is proposing to locate a program in Madison Heights with with a one year grant from their national organization. It would be run from the Little House on Hales. The availability of this Grant may not be known at budget preparation time. The City Council wishes to include this item on the Goals List.

(d). Finance Director Marsh explained that this program will allow the City to get a subsidy for Medicare eligible employees each year to partially offset retiree health prescriptions costs.

(e) Fire Chief Donahue explained that this program would be to have on-duty personnel help with routine inspections.

Group II

AAA Recreational Vehicle Storage Lot Rental Fee
n. Sale of Wildwood Park
c. Recodification of City Code of Ordinances
b. Web Access to Enhanced Appraisal Records
i. Youth Sports Cost Sharing
f. Recreation Fees
g. Youth Center Membership Fee
h. Nature Center Group Charge
j. Pool Table Fee
k. Advertising in the Monthly Senior Scoop Newsletter
m. Library Service Fees

Discussion Group II - Revenue:

(AAA) Councilmembers Scott, McGillivray, Clark and Corbett voiced concerns over establishing a market based monthly fee for the recreation vehicle lot, but did not oppose a modest submarket fee. Council authorized Staff to proceed (outside the formal goal plan) to implement a fee for residents' use of the recreational vehicle lot and to report on additional costs such as insurance and maintenance to change to the new system, and a possible rotation system so that more residents can take advantage of this service.

Staff was asked to pursue, the balance of the Group II Proposals in the upcoming Proposed Budget.

NEW PROPOSALS - EXPENDITURES

Group I

C. Fire Service Regionalization
I. Community Development Position Consolidation
D. In-House Development of 9-1-1 Mapping Project

Discussion Group I - Expenditures:

(CCC) City Manager Austin provided a status report on the one year effort to review consolidation options. Council concurred that Staff continue with efforts to share resources and services up to a creation of a regional authority.

(I) Council authorized Staff to continue with the consolidation of the Geographic Information System (GIS) and Community Development Department Technician positions.

(D) Fire Chief Donahue stated that the current 1980's computer mapping system is out of date and neither software or hardware parts are available. Council authorized Staff to proceed with development of an In-House GIS based 9-1-1 Mapping Project.

Group II

A. New Police Vehicles Strategy
N. Upgrade of Audio System in the Council Chambers
E. National Incident Management System Training and Adoption
F. Study Modification of Department of Public Service Work Schedules
J. Review Utilization of Motor Pool Fleet Equipment/Vehicles
M. Replacement of Network Attached Storage
EEE. Establish Cultural Arts Program
B. Personnel Scheduling Software

FFF. Madison School District Property Development
CCC. Upgrade City Hall North Entrance
DDD. City Gateway Sign Enhancements
G. Eliminate Summer Youth Center Bus Service
H. Nature Center Closing on Sundays in January and February
K. Economic Development Emergency Business Support Program
L. Re-Establish an Employee Assistance Program

Discussion on Group II - Expenditures:

(A) Council authorized Staff to evaluate different police package offerings for police vehicle purchases with V-6 engines, to compare, test and rate the different offerings and determine the value of gasoline savings versus the durability, maintenance costs and daily police usage, and determine a strategy for the future Vehicle Replacement Plan. The use of hybrid cars was discussed and determined that they may be reviewed for possible use as administrative or light duty vehicles but not for 24-hour use by patrol vehicles given that costs of maintenance may outweigh initial savings.

(M) The proposal is to replace the existing network attached storage with newer and cheaper technology to improve the audio sound within the Council Chambers. Money from the Franchise renewal, not from the General Fund, would fund this project.

ONGOING PROPOSALS

Group I

cc. New 10-Year "R-2" Residential Road Improvement Plan
dd. Library Improvements

Discussion Group I - Ongoing:

(cc). Council authorized development of a new *"Proposal R-2"* Ballot question for consideration by voters in August, 2006. In regard to the Parker District Subdivision the general consensus of Council was to increase the City's contribution from 50% to 75% of the total project cost and funding 100% of the storm water separation. Discussion was held concerning the benefits of concrete paving (longevity of road) or asphalt paving (to maintain 'country' setting and cost savings). A suggestion was offered to survey the Parker District property owners on their preference.

City Manager Austin, Mayor Swanson and Councilwoman Russell left the meeting at 10:45 a.m. Assistant City Manager Myers continued the discussion of the goal proposals.

Group II

GGG. Employee Benefit Cost Containment
bb. Modify 10-Year Residential Road Improvement Plan
gg. Sale of Gravel Park
aa. Animal Control and Code Enforcement Services
HHH. Support Southside Housing Stock
ee. Sale of 27403 Hales House
ff. Wildwood Park - Remove and Seed Parking Lot

Discussion of Group II - Ongoing Proposals

(gg) The Parks & Recreation Advisory Board approved the new Parks and Recreation Master Plan to allow sale of Gravel Park. Council will will consider the new Master Plan in January and the property should be available for sale by August, 2006. Councilman McGillivray stated that the Parks & Recreation Advisory Board has passed a resolution that all money from the sale of Gravel Park and/or Wildwood Park be put back into recreation and parks programs.

(HHH) Councilman Corbett recommended that the City again approach local lending institutions regarding offering a low-interest loan rehabilitation program to Madison Heights residents.

(ff) The Wildwood Park parking lot is primarily used by residents for additional parking, not the public using the Park. Removal would not affect residents' parking as they would be allowed to park curbside. Councilman Clark and Councilwoman Scott objected to the sale of the Park, but agreed to removal of the parking lot.

332. Miscellaneous Discussion

Councilwoman Scott asked if the former Branch Library could be used for conferences, Cub Scout training or leased. Councilman McGillivray suggested use by the Madison School District as a Board Office. Deputy City Manager Connors stated that due to the use of Community Development Block Grant (CDBG) funds to purchase the property it cannot be leased out or sold for less than fair market value.

Councilman McGillivray and Councilwoman Scott thanked the Staff for the Goals packet but expressed their opinion that some proposals, for example items (g) Youth Center Membership Fee and (h) Nature Center Group Charge could be included as part of the Budget.

337. Adjournment.

There being no further business, Mayor Pro Tem Shad adjourned the meeting at 11:13 p.m.

340. Mayor's Annual Report for 2005

At the request of Mayor Swanson, City Manager Austin read the Mayor 's Annual Report giving the accomplishments of the City during this past Golden Anniversary year of 2005 and the plans for 2006, as follows:

PUBLIC SAFETY:

In 2005, the Police Department continued their training commitment for the challenges of police service and homeland security and by purchasing an evidence and property room management system and a digital interview recording system, both funded with drug forfeiture seizures. For 2006, the Department will implement three major equipment changes including a new 800-megahertz radio system, a county wide video arraignment system and a new records management system.

The Fire Department has completed training in high angle, confined space, trench, and structural collapse rescue and, as in partnership with OAKWAY, are working to become a part of Oakland County's technical rescue response team. The Department has put a new rescue vehicle into service, replacing a 1995 rescue truck.

SERVICES:

Road maintenance continues to be a high priority item. Road reconstruction projects in 2005 included Bellaire, Winthrop, Delton, Beaupre, Browning, Dorchester, Donna, the right turn lane into the Senior Center, and several Stephenson Highway turnarounds. Road maintenance projects included sectional repair on south John R and portions of Park Court, Hales, University, and Farnum. Another 2005 project saw the elimination of the Beaupre Sanitary Pump Station. In 2006 reconstruction is planned for more Stephenson Highway turnarounds, for Battelle, Alger, Guthrie, Concord, and the north John R overlap project from 14 Mile to the Red Run Drain. Next year will also be Year 4 of the annual sidewalk program, including an area bounded by John R, 11 Mile, Dequindre, and 12 Mile.

The Water Division installed a total of 5,000 linear feet of new pipe by way of water main replacement, on Beaupre, Delton, Browning, Dorchester, Donna, and 11 Mile.

The City remains in the forefront of technological innovation with its award-winning website, www.madison-heights.org, and its designation as one of the seven pilot communities for the Wireless Oakland initiative. New online services include direct payment for water bills, a property tax

estimator, interactive mapping, and streaming web video of City Council Meetings.

DEVELOPMENT

In 2005, the City was very pleased to see completion of the following significant private sector projects: Sam's Club, Big Boy Restaurant, Chinese Community Center, Office Depot, Stone Cold Creamery, Henkel Technologies, Washpointe Car Wash, Magic Lube, the GK Mini Mart, and the new office buildings on east 12 Mile and south John R. In 2006 we also look forward to welcoming Steak and Shake, Lowe's, and all of the many new businesses in town and the new Harvard Village 41 home Subdivision.

PARKS AND LIBRARY

The Parks Division applied for and received a grant for tree replanting from the State of Michigan to assist City residents who had ash trees removed, and to reforest the City. Madison Heights is the first municipality, starting in August, to remove infected ash trees utilizing a new state program.

The Nature Center continues to be a popular place with close to 29,000 visitors in 2005, assisted by thirty-five active volunteers who put in 4,500 hours. The Wednesday Garden Club, Saturday morning birthday parties, and school visits are ongoing activities, and a well-attended fall open house was held in early October.

The Recreation Division was instrumental in coordinating the City's 50th anniversary celebrations in 2005. The events were kicked off in January with an old-fashioned sock hop. The Avenue of the Mayors (trees and monuments) was dedicated, honoring past and present leaders of Madison Heights and fireworks were enjoyed at both of the City's festivals. Another successful summer TGIF Lunchtime Concert Series and winter Wednesday evening coffee concerts were held.

In 2005, the City Library continued to introduce new features of the always-available iBistro, the shared Internet catalog. Close to 106,000 patrons visited the Library in 2005, and public Internet access continues to grow in popularity, with close to 22,000 sessions logged. Word processing is now offered on all public Internet workstations.

Mayor Swanson wished all a happy holiday season and a New Year filled with peace, joy, and wellness.

16. Five-Year Parks & Recreation Master Plan

A public hearing was held to hear comments approving the Five-Year Parks and Recreation Master Plan to target the needs of park users and bring the parks into greater compliance with the Americans with Disabilities Act. Dean Cinader, 30190 Northeastern and Robert Fuerneisen, 30500 Barrington were concerned about the impact of speeding traffic on the neighborhood if Gravel Park is sold for residential development and Barrington Street was made a through street from Woodside to Horace Brown Drive. There being no further comments from the audience, the public hearing was closed.

Councilman Corbett acknowledged Councilwoman Scott for her dedication to Random Acts of Kindness Week. He asked if there has been an application for Project Director for the Memorial Day Parade submitted and could a non-resident be considered. 80. SAD 272 – Repaving Bellaire, Parker, Hampden and Dartmouth Resolution 3

A public hearing was held to hear comments, if any, on the necessity for the proposed reconstruction of existing road surface, ditches to be removed and replaced with a concrete roadway, storm sewers, curbs, gutters, approaches and new or, where necessary, replaced sidewalks and landscape restoration for Bellaire from Dartmouth to Hampden, Dartmouth from Bellaire to Gardenia, Hampden from Gardenia to Dead End; and Parker from east of Dartmouth to Westerly Dead End at I-75.

Mr. Harold Novak, 620 W. Parker inquired as to why the yearly amounts of his assessment multiplied by 15 years is more than the total assessment figure, and if his property taxes will increase. City Manager Austin stated that the total assessment amount does not include the 6% per year interest which is calculated on the unpaid balance, and that the property taxes will not increase because of the improvements but only due to increased home sales, which is still capped by Proposal A and the Headley amendment. Mr. Novak asked if the assessment would affect selling his house. Assistant City Attorney Sherman stated that the unpaid assessment balance may be required by a lender to be paid off before the deed can be transferred.

Carol Fletcher, 755 W. Parker, spoke against the project, asked how long it would take and that she had not received an estimate letter. Alex Nicolaescu, engineer, stated that the project is very involved due to the new storm sewer construction and will take approximately 4 to 6 months to complete, but there will not be disruption the entire time. City Manager Austin provided her assessment and referred her to Community Development Director Schafer to get a copy of her letter outling the estimate.

John Freeman, 28342 Dartmouth, spoke in favor of the project due to the potential hazard of standing water in the ditches to children.

Bill Brown, 28103 Dartmouth asked if the project would include the Red Run Drain that runs next to his house. City Manager Austin stated that the City will look into how to improve this sideyard storm drainage situation, but it is not part of the overall project.

Kevin Seiter, 516 W. Parker, stated he was in favor of the project and asked if new sidewalk will be constructed. Alex Nicolaescu stated that new sidewalks will be constructed where there are none, and existing sidewalks will be evaluated and replaced, if needed, based on City standards.

City Manager Austin stated that the project is not scheduled until 2007 and that the City will hold meetings beginning in March, 2007 if the project is approved.

There being no comments from the audience, the public hearing was closed.

Councilman Corbett requested a Certificate of Recognition for the Bishop Foley Basketball team for winning the regional championship, and invited the public to attend the Jaycees Easter Egg Hunt on April 8th at 10:30 a.m. at John Page Middle School.

Councilwoman Russell thanked all the residents who spoke tonight.

Assistant City Attorney J. Sherman clarified his statement regarding special assessment districts, stating that a seller and buyer of a home can negotiate who pays the costs of special assessment, transfer taxes, recording costs, etc.

City Manager Austin reminded residents to set their clocks ahead for Daylight Savings time on Sunday, April 2nd and, on behalf of the Fire Department, to change the batteries in smoke detectors.

Councilwoman Scott spoke regarding HB 5895 and SB 1157 which would take cable franchising revenues and control away from local governments and under State control. Responding to a complaint from a resident at New Horizons Senior Tower on Edward Street, she requested Staff research a disruptive noise from loading and unloading of trucks at Sam's Club on 13 Mile. Community Development Director Schafer stated that last January he received a call from the same person regarding those noise complaints and it was investigated. Although it is legal to load during the evening and early morning hours, Code Enforcement has contacted the Sam's Club manager who will have the trucks turned off while loading and unloading to lower noise levels. Mr. Schafer suggested that anyone with a complaint call the Police Department who will investigate if any noise is over the legal level.

Councilman McGillivray discussed the AT&T legislation which, if passed, would eliminate the money from franchising fees derived from Comcast and WOW and the City's ability to negotiate for local and school channels. He stated that the single business tax, scheduled to be eliminated in 2009, is being discussed in the State Legislature to be moved up to 2007, without any alternatives in place for replacing the lost tax revenues. He urged residents to contact State Representative Donigan and State Senator Johnson with their concerns. He requested City Manager Austin to invite State Senator Johnson to Madison Heights to inform her of the City's concerns.

Mayor Swanson noted that Police Officer Kirk Walker is deploying for a second tour in Iraq and asked for everyone's best wishes for him.

103. Public Hearing – Recreational Vehicle (RV) Lot Storage Fee

A public hearing was held to hear comments regarding the proposed rental fees on the City's RV Lot at 801 Ajax Drive. The following persons spoke:

Ronald Ploskonka, 1008 Moulin, objected to Plan A - a flat fee of $5 per month ($60 per year) because the lot users already pay taxes.

Michael Higgins, 1770 Castlewood , stated that the average person must wait 4-5 years to get a spot, that the recreational vehicle lot is paid for by taxes, and objects to a fee.

James Singer, 31612 Kenwood, has a vehicle in the lot and if a fee is imposed he wants extra services such as a dump station and 24-hour security.

Therese Collom, 416 W. Dallas, leader of Boy School Troop 1592 from Schoenhals Elementary School, stated that they have a storage trailer for scout supplies, that a fee would be a hardship to the Troop and asked for special consideration.

Bob Fuerneisen, 30500 Barrington, stated he waited 3 years for a spot and does not mind a small fee. He asked about why there are the five semi-trailers parked there. City Manager Austin stated that three belong to the City and are used for storing Holiday decorations, and two belong to the Jaycees.

Steve Potter, 27815 Alger had no objection to a yearly fee of $35.00.

John Pulice, 30869 Avondale, stated he does not have a trailer but that rental fees in other cities are so high that no one should object to a fee up to $100.

Bill Wren, 29369 Shacket, did not object to a fee but opposed Plan D which would provide for a rotation of the spaces because he does not want to lose his spot.

Lynette Templeton, 30416 Westmore, objected to paying $35 per year and objected to the monies being used as additional revenue for the City.

Kerry Eason, 30319 Westmore, stated that anything over $35 per year is unreasonable and he objects to Plan D - rotation of the vehicles.

Willie Bays, 30782 Palmer, had no objection to a reasonable fee.

Marge Price, 27137 Alger, asked about the lot on Dequindre that was previously used as the City's RV lot. City Manager Austin stated that the property belongs to Oakland County George W. Kuhn Drainage and that per an agreement with the City the property was used as a temporary RV lot while the Drainage Project was being done and the new lot was being built.

Douglas Gilliland, 270 East 13 Mile, objected to Plan B - a fee based on trailer size, as being too expensive.

Ed Clendennin, 672 W. Woodside, objected to snow plowing the lot because it plows in the vehicles and is a waste of money.

James Singer, 31612 Kenwood, spoke again, stating that some fee is acceptable and that an RV lot is a good option for the residents of the City.

Gena Barber, 1831 Oakland, had no objection to a small user fee of $35.00 or less, and asked what happens to the monies in excess of maintenance costs. Mayor Swanson stated that some options that it could be used for is to offset the fees paid by seniors on the senior bus, for computers in the library, to keep Park Rangers employed and to repair and replace playground equipment. Ms. Barber objected to the recreational lot users fees paying for other services.

There being no further comments, the public hearing was closed.

Motion by Councilman Clark, supported by Councilman McGillivray, to approve Plan A, a flat fee of $5.00 per month ($60.00 per year) for storage of a recreational vehicle (RV) on the City's new and improved lot, and to approve the following conditions:

1. RV lot users will be required to sign a release holding the City harmless for all issues regarding their RV storage on the City's lot. No proof of insurance will be required;
2. The lot will remain unlocked;
3. If a fee were established, the current $25 deposit requirement would be discontinued. The $25 deposit already paid by RV lot users will be used toward offsetting the initial fee amount; and,
4. The entire annual rental amount shall be prepaid in one lump sum in order for the renter to be issued their new annual permit stickers.

Carol Fletcher, 755 W. Parker, objected to paying more for a corner lot and asked that the costs be spread out over the whole district.

Larry Feld, 536 Bellaire asked if the special assessment costs would be billed to his mortgage company like his taxes and if water mains were included in the project. City Manager Austin stated that a special assessment is a separate billing and that water mains are part of the project but that the costs are not being assessed to the property owners.

Carol Fletcher asked if the property owners were being assessed 25% or 50%? City Manager Austin stated that $475,000 for watermains were being funded by water and sewer customers City-wide, that Proposal "R" funds were paying for the $703,416 cost for drains and property owners were paying 25% of the remaining $1,947,554 cost, or $486,888. He stated that all front footage was being assessed equally and that side yard footage on corner lots was being discounted by one-half.

There being no further comments, the public hearing was closed.

109. Meeting Open to the Public

Richard LePage, 30980 Plum Lane, questioned why Plum Lane Condominiums did not get a street light on the corner of 13 Mile and Plum Lane, as previously requested. Mayor Swanson stated that Plum Lane is a private lane and suggested lights be added on the brick wall next to the driveway.

Gary George, 1735 Castlewood Drive, commended the Police Department on the Commendations and Awards presentations for 2005. He objected to a possible cut of the Crime Prevention Bureau because it is needed for public safety; and objected to possible cuts in the Fire Department personnel, which, he believes could affect the City's fire safety rating. City Manager Austin suggested Mr. George meet with Fire Chief Donahue and himself to answer his concerns.

214. Public Hearing – S.A.D. 273 – 2006 Sidewalk Program, Res. 3

A public hearing was held to hear comments, if any, on the necessity to repair or construct concrete sidewalks in the right of way of the public streets in the area bounded by Twelve Mile Road, Eleven Mile Road, Dequindre, and John R. and at several individual parcels in the City of Madison Heights. City Manager Austin gave a brief review of the background of the systematic sidewalk repair program that the City first started in 1987 and then a nine-minute informational video detailing the sidewalk repair process was played. City Manager Austin stated that the video and road program video are running consecutively on the City's cable access channels, Comcast Channel 15 and WideOpenWest Channel 10, Saturdays at 10:00 a.m. and Wednesdays at 10:00 a.m. and 7:00 p.m. through August, or if residents have high speed Internet service, it may be viewed online anytime at www.madison-heights.org.

The following persons spoke concerning the sidewalk program:

Joe Martin, 872 Parliament asked if driveway approaches are also to be replaced with the sidewalks. Community Development Director Schafer stated that they are not; however, residents may make separate business transactions with the contractor for extra work, which is not covered by the City.

Carl Patterson, 735 E. Farnum stated that one slab marked for replacement only has a small hole in it and he does not feel that it warrants replacement. Mayor Swanson stated that there is a list at the back of the Council Chambers for any resident requesting re-inspection of their sidewalk to put their name and address on and the Community Development Department will review their property.

Patricia Mack, 1607 Beverly stated that the tree between the sidewalk and street is causing the damage to her sidewalk and objects to paying for the damaged sidewalk. City Manager Austin stated that the City does remove dead trees and that the Department of Public Services will contact her with the details.

Jeffrey Nickel, 27757 Delton, stated that he is concerned about the timing of removal of an ash tree between the sidewalk and street because he would not want the new sidewalk cracked during a tree replacement. Community Development Director Schafer stated that the two programs are being coordinated to remove the ash trees before the new sidewalks are put in.

There being no further comments, the public hearing was closed.

216 . Meeting Open to the Public

Gary George, 1735 Castlewood, commented that it is his opinion that the Fire Station Task Force discussed several ideas for the sled hill modifications behind the new Fire Station with the architect, including the fencing, and it was not, as Mayor Swanson stated at the June 26th meeting, a savings of $250,000 by City Manager Austin. He further stated that he thinks that Council allocated money for the renovation of the front

of City Hall and the sled hill fencing after the Bond was approved and after the Fire Station Task Force was dissolved.

Richard LePage, 30980 Plum Lane, objected to the Proposal R millage because it is levied on all properties including those residents on private streets who own condominiums who, in his opinion, do not directly benefit from City neighborhood road reconstruction, and asked if Council would consider a policy of refunding the tax money to those residents to repair their own private drives.

Robert Scheere, 27785 Brush, asked about the cost of the redevelopment of the Thirteen Mile Road property. City Manager Austin stated that the landscaping portion of the project was approximately $200,000 dollars. Other cost items included demolition of the old Fire Station on 13 Mile, the removal of the driveway, removal and reconstruction of the walks and parking lots. All this information is a public record available in the Council Minutes. Mr. Scheere also stated that he intends to file a third recall petition.

Rick Staples, 1629 Donna, asked about how much Proposal R will pay for the new streets. City Manager Austin stated that the City's Roads program will be held tomorrow, July 11th,to answer questions and that the newsletter explains the costs of the program. Mr. Staples asked, when special assessments are used to fund construction, why do property owners have to pay the full assessment when selling the home? City Attorney Sherman stated that typically lenders require that all liens have to be paid when a house is sold and that the purchase price and value of his home would be higher because of the new streets. Mr. Staples asked who is responsible for removing a tree that is dying between the sidewalk and street. City Manager Austin stated that the Department of Public Services will check to see if the tree is eligible for the tree removal program.

Larry Feld, 536 Bellaire, requested more than the three minutes to read his reply to the report from Deputy City Manager Myers regarding the information submitted after the June 12, 2006 Council Meeting regarding the Ash Tree Removal program in Madison Heights.

Councilwoman Russell objected to the waiver of the three minute limit and made the following motion:

Motion by Councilwoman Russell, supported by Councilwoman Scott, to deny the request from Mr. Feld, and to limit his comments to three minutes.

Yeas: Swanson, McGillivray, Russell, Scott
Nays: Clark and Shad.

Mr. Feld asked to be placed on the next Council Meeting agenda so that he could discuss his report. City Manager Austin informed him that items placed on the agenda must require some action by Council, items are not for general speaking purposes and asked Mr. Feld to submit copies of his reply to Mr. Myers report to the Council for review prior to the next Council Meeting. Mr. Feld agreed to submit copies of his reply to be distributed to Council.

John Pulice, 30869 Avondale, congratulated his daughter and son-in-law on their 23rd Wedding Anniversary. He stated that he voted for the 1996 Proposal R for roads because it is needed by people in Madison Heights whose roads need repair. He addressed Mr. Scheere stating that he has spoken to members of Mr. Scheere's committee and they state they are against the recall. Mr. Scheere stated that he has quite a few people in favor of the recall.

Richard LePage asked Deputy City Manager Myers to discuss the West Nile Virus program in effect this year. Deputy City Manager Myers stated an aggressive program is again being pursued this year by larvaciding thousands of catch-basins. Additionally there has been quite a bit of standing water this year in the Parks and particularly in Friendship Woods and they have been in there multiple times to larvicide.

City Attorney Sherman requested that Deputy City Manager Myers meet with Mr. Feld directly after Mr. Feld's report is provided to the Council. Mr. Feld agreed to meet with Mr. Myers at any time.

217. American Islamic Community Center – Park Fee Waiver

Councilwoman Russell commented that a report from the Department of Public Services stated that there was extensive cleanup and asked Deputy City Manager Myers as to the extent of the cleanup. Mr. Myers stated that it required approximately one hour of the Park Ranger's time and several DPS employees had to bring in extra trash containers. He stated that the cost of cleanup exceeded the $50.00 damage and clean-up deposit.

Motion by Councilman Clark, supported by Councilwoman Scott, to approve the request from the American Islamic Community Center and waive the $50.00 fee only, for use of Civic Center Park Pavilion C held on Saturday, July 8, 2006, for a barbeque event, and to retain the $50.00 damage and clean-up deposit, as recommended by Staff.

227. Meeting Open to the Public

Richard LePage, 30980 Plum Lane, read a letter from Gary Epperson, 27433 Park Court, urging the City to purchase three 12-lead EKG monitors for the Fire Department, which would have benefited him during his heart attack on July 1, 2006. Councilwoman Russell requested a report from Police Chief Donahue concerning the cost of the units.

Douglas MacLean, 27432 Park Court, urged residents to vote to reinstate Proposals R & V.

Bernadine Karas, 29050 Edward, asked why the amount of the millage for the R & V Proposals is related to the property tax. City Manager Austin stated that all millages are based on an ad valorum basis, which is the value of the property. Assistant City Attorney Sherman stated that according to State Statutes the proposals have to be levied uniformly on all property within the City, even if there is no direct benefit to a particular property owner. Ms. Karas also asked why touch-tone or computer voting is not in place so that people would not have to go to the polls. City Manager Austin stated that the technology is not yet available in the State of Michigan. Councilwoman Scott suggested that she contact Secretary of State Terri Lynn Land who is involved with upgrading the State's voting system.

Peggy Bennett, 29604 Howard, referenced a Detroit Free Press article dated June 24, 2006 concerning the decline of home values and in her opinion stated that taxes should also be declining and that in bad economic times it is inappropriate to ask for more taxes.

John Pulice, 30869 Avondale, stated that he is in favor of Proposal R which will continue making necessary repairs and reconstruction of needed streets, as a benefit to people who live on those streets and to the City as a whole.

237. Mayor and Council - Comments and Requests

Councilman Corbett requested a report on the costs and feasibility of using reflective stop signs, particularly those in obscured areas, similar to those used in Oak Park.

Councilwoman Shad advised residents that the 2006 Summer Tax Bill has been increased to include part of the Oakland County taxes that were previously collected in the winter. The switch began when last year's summer bill was increased by adding one-third of the Oakland County tax. The second third is being collected in the 2006 summer taxes and the last third will be next year. Director of Administrative Services Marsh stated that residents will see an increase in summer taxes, but the winter taxes will decrease because of by the shift of the Oakland County tax. Councilwoman Shad stated she supports the continuation of Proposal R and Proposal V because they are needed for the continued maintenance of the roads and for the replacement of city vehicles.

Councilman Clark spoke in support of Proposals R & V. He read a statement in rebuttal of the letter put in the Daily Tribune by the Citizens for Fiscal Responsibility Committee. He addressed their concern of shortages of equipment and personnel by stating that it is in direct contradiction to their opposing Proposal V, which, if not passed, would greatly affect the purchase of emergency equipment, hiring personnel and training. He refuted the statement that taxes limit businesses from coming in to the City by quoting statistics that Madison Heights vacancies are no higher, and in some instances lower, than the rest of the State.

Councilwoman Scott requested a Certificate of Commendation to volunteers in the Little Baseball League.

Councilman McGillivray commented that if Proposal R is not passed it would be more expensive for those residents whose streets need repaving because they would have to pay 100% of the cost by special assessment district. Roads have to be repaired and it would be more equitable to those residents. He stated he supports Proposal R for one more ten year period, but not for longer. He stated he is not convinced as to the necessity for Proposal V for vehicles.

Mayor Swanson stated that, in his opinion, Madison Heights is the finest, most efficient and financially stable city in Oakland County.

242. Special Approval – Restaurant at 29022 Stephenson Highway

A public hearing was held to hear comments, if any, to permit the use of a restaurant at 29022 Stephenson Highway. There being no comments from the audience, the public hearing was closed**.**

Motion by Councilman McGillivray,
Supported by Councilwoman Scott,

WHEREAS, a Special Approval Board application has been received from Margarita Nikollbiby for Violeta's Kitchen, requesting to use the property at 29022 Stephenson Highway for a restaurant; said property is zoned Light Industrial (M-1); and

WHEREAS, a public hearing was advertised in the Daily Tribune on July 28, 2006 and 33 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

SUBJECT: Special Approval Request No. 06-06 – Violeta's Kitchen

LOCATION: 29022 Stephenson Hwy – Northeast corner of 12 Mile / Stephenson Hwy.

REQUEST: Special Approval for a restaurant under Section 10.329(5) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial

EXISTING USE: Vacant – Former Denny's Restaurant

STAFF ANALYSIS**:**

1. Special Approval is required for restaurants in the M-1 District. Applicant proposes to reuse the former Denny's restaurant. No special approval was granted for that facility and accordingly, special approval is required for the proposed facility.

2. The previous restaurant use was granted additional parking for the site via a lease of adjacent right of way from the City. That lease was originally approved in 1974 and expired on October 8, 2004. The applicant for this special approval has requested a new lease from the City for the same ROW parking area under a separate request before Council on August 14, 2006. The details of that proposed lease are outlined in the report for the associated Council agenda item.

3. The applicant proposes to reuse the site essentially as designed, with remodeling of the building, while maintaining the basic site design and parking configuration. Minimum parking requirements are met with the proposed lease. However, if City Council does not approve the lease, the applicant would need to construct new parking elsewhere on-site. Adequate land area is available for additional parking on-site.

4. Hours of Operation: 6 a.m. to 10 p.m. 7 Days per week

5. The Site Plan Review Committee has reviewed the site plan and has no site plan comments to address.

6. Should City Council grant special approval, the following condition is recommended:

City Council approval of the proposed parking lease with the City or, in the alternative, provision of required paved parking on-site, prior to issuance of a certificate of occupancy, in accordance with an approved site plan for said parking.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with 10.329(5) of the Code of Ordinances, hereby approves the use of a restaurant at 29022 Stephenson Highway, on the condition of City Council's approval of the proposed parking lease with the City or, in the alternative, provision of required paved parking on-site, prior to issuance of a certificate of occupancy, in accordance with an approved site plan for said parking.

There being no comments from the audience, the public hearing was closed. Motion by Councilman Clark,
Supported by Councilwoman Scott,

WHEREAS, a Special Approval Board application has been received from Jose Mari, 428 E. Parker, Madison Heights, requesting to use the property at 27770 John R for a sit-down restaurant with drive-through service; said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on August 25, 2006 and 135 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating as follows:

LOCATION: 27770 John R

REQUEST: Special Approval for a restaurant under Section 10.326(10) of the Zoning Ordinance.

EXISTING ZONING: B-3, General Business

EXISTING USE: Vacant – Former Carry-out /Drive-through facility

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-3 District. Previous historical use of the site for carry-out/drive-through food service did not receive special approval, and as the new proposed use includes seating, special approval is now required.

2. The applicant proposes to reuse the site essentially as designed, with remodeling of the building, including a 10' x 20' addition to the rear, while maintaining the basic site design (including drive-through window) and parking configuration. No exterior remote speaker system is proposed for the drive-through window.

3. The facility is within 1500 feet of 4 other restaurants and, accordingly, will require a 1500 foot separation waiver from the Zoning Board of Appeals.

4. Minimum parking requirements are met.

5. Proposed Hours of Operation: 24 hours - 7 Days per week

6. The Site Plan Review Committee has reviewed the site plan and has no additional site plan comments to address.

7. Should City Council grant special approval, the following conditions are recommended:

    a. Zoning Board of Appeals approval of a 1500 foot separation waiver.
    b. No remote speaker ordering system for the drive-through

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.326(10) of the Code of Ordinances, hereby approves the request for a 24 hour sit-down restaurant with drive-thru window at 27770 John R; upon the following conditions:

    a. Zoning Board of Appeals approval of a 1500 foot separation waiver.
    b. No remote speaker ordering system for the drive-through

Councilwoman Russell congratulated all the persons recognized in the Presentations.

Deputy City Manager Myers commended the Fire Department for the ceremony held this morning at Fire Headquarters in remembrance of the tragedy of September 11, 2001.

Councilman Clark commented on phone complaints made by Mr. Lee Bennett who stated the police are stepping up garbage day ticket enforcement because the city is in poor financial shape; and that it is inconvenient to pull the cars into the driveway and move them around when the residents have to leave. Mr. Clark stated that cars parked on the street could block emergency vehicles from passing through when the garbage trucks are present; they cause the garbage trucks to take more time for pick-up when they have to drive around a parked car and they inhibit street cleaning, leaf pick-up and snow removal in front of homes.

Councilwoman Scott commented that, through the actions of the Michigan Municipal League, the State Board of Canvassers last week voted unanimously to accept the Bureau of Elections staff recommendation to not certify the SOS (Stop Over Spending) Initiative, proposed to be placed on the November 7, 2006 State General Election, due to insufficient petitions that contained less than the required 317,757 signatures. She recommended that citizens use the non-partisan Citizens Research Council of Michigan website for pros and cons of the five Ballot Proposals that will be on the November Election. 285. Bid Award – Purchase of former Branch Library Building

City Manager Austin reviewed the report submitted by City Assessor McLachlan and Community Development Director Schafer regarding the acquisition of the building from the Madison School District and it's renovation to the Branch Library using both General Fund revenues and Community Development Block Grant funds. Because CDBG funds were used in the original development of the property, leasing the property for a private or non-CDBG use is prohibited. Therefore a sale remained the only viable option. After the property is sold, the funds will be returned to Oakland County for future allocation to the City of Madison Heights for CDBG eligible projects. It is recommended by Staff to accept the bid from Parajan Investments, L.L.C. in the amount of $318,001, contingent upon the acceptance of a purchase agreement by the City Attorney's Office.

Mr. Edward Nahhat, Attorney, stated he was representing the Ukrainian American Archives and Museum and Svitlana Leheta, President and Chrystyna Nykorak, Executive Director were present in the audience. He stated that their bid of $320,001 was, in his opinion, the highest bid, but was rejected because they had also included a Purchase Agreement with unacceptable contingencies within the bid. He stated they are willing to strike any objectionable provisions in their purchase agreement. He further stated that in his opinion the Parajan Investments bid also had deficiencies and they are requesting that Council not accept the Staff recommendation to award the bid at this meeting.

City Attorney Sherman Stated that upon opening the bids the Ukrainian American Archives and Museum bid was expressly contingent upon a very detailed purchase agreement with terms that were unacceptable to the City and the bid was rejected, as was the bid from the third bidder, Transforming Love Community Church that had unacceptable

contingencies. Mr. Sherman further stated that in a formal bid process the City receives sealed bids, the bids are approved for technical compliance and reviewed by committee and submitted to Council. At that time Council is not in a position to negotiate the terms and conditions of what is contained in a bid. Further, because CDBG money was used to purchase and renovate the branch library the City must process the bid at the directions required by Oakland County.

Motion by Councilwoman Russell, supported by Councilman Clark, to concur with the recommendation of City Assessor McLachlan and Community Development Director Schafer to award the bid for the purchase of the former Branch Library Building at 26550 John R in the amount of $318,001, contingent upon the development of an acceptable Purchase Agreement by the City Attorney's Office.

328. Special Approval –Light Motor Vehicle Repair Facility At 26001-26011 Dequindre

A public hearing was held to hear comments, if any, to permit the use of a light motor vehicle repair facility at 26001-26011 Dequindre. Bradley Scobel, attorney, stated he is representing Fred LaRose the owner, and was present to answer questions regarding the request for special approval use of both buildings for light automotive repair and the related internal parking issues. There being no further comments from the audience, the public hearing was closed**.**

Motion by Councilman Clark,
Supported by Councilman Corbett,

WHEREAS, a Special Approval Board application has been received from Fred LaRose, 59185 Elm Ct, Washington, MI, 48094 requesting to use the property at 26001-26011 Dequindre for a light motor vehicle repair facility: said property is zoned M-1, Light Industrial; and

WHEREAS, a public hearing was advertised in the Daily Tribune on October 26, 2006 and 32 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 26001 – 26011 Dequindre

REQUEST: Special Approval for a light motor vehicle repair facility in the M-1 District under Section 10.329(6) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial

EXISTING USE: Vacant – Former motor vehicle repair facility

STAFF ANALYSIS:

1. Special Approval is required for light motor vehicle repair in the M-1 District. The applicant is seeking approval for a light motor vehicle repair facility at both 26001 and 26011 Dequindre. Both portions of the building were previously used as vehicle maintenance facilities. However, as special approval was never granted for those historical uses, special approval is now required. Applicant now seeks to establish both portions of the existing building as light motor vehicle repair facilities.

2. Parking on the site is existing nonconforming for motor vehicle repair. The site was built and utilized for automotive repair prior to current parking standards. Applicant proposes additional internal parking / storage for vehicles to offset minimum ordinance parking requirements for off street parking.

3. The applicant proposes to have no outside storage of vehicles overnight or awaiting service. The plan shows internal storage for such vehicles. This is in compliance with the ordinance requirement that exterior screening be provided when vehicles are stored / parked outside awaiting service.

4. Hours of Operation: Mon – Fri: 8:00 am – 6:00 pm
   Saturday 10:00 am – 3:00 pm

5. The Site Plan Review Committee has reviewed the site plan and has no additional comments to address. Should Council approve the request, the Committee recommends the following conditions for City Council's consideration:

   a. Repair of vehicles shall be limited to mechanical repairs – no bump & paint / body repair.

   b. No outside storage of customer vehicles overnight or awaiting repair.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(6) of the Code of Ordinances, hereby approves the request for a light motor vehicle repair facility at both 26001 and 26011 Dequindre, with the following conditions.

   a. Repair of vehicles shall be limited to mechanical repairs – no bump & paint / body repair.

   b. No outside storage of customer vehicles overnight or awaiting repair.

Present: Mayor Swanson, Mayor Pro Tem Shad, Councilmen Clark, Corbett, McGillivray, Councilwomen Russell, Scott.

Sherman and City Clerk Corbett.

Absent: None

Mayor Swanson read a letter from the wife of Mark Lenart, a DPS employee who suffered from esophageal cancer, that complimented the help received from Deputy City Manager Ben Myers and everyone affiliated with the City.

340. FY 2007-2008 Goal Plan

City Manager Austin opened the meeting and with the assistance of Finance Director Moreno and Director of Administrative Services Marsh provided the new Future Funding Presentation for Fall 2006, highlighting the City's financial status and the challenges facing the City.

City Manager Austin led a discussion of the Goal Proposals for 2007-2008. The following Goal Proposals were discussed, as ranked by Council:

NEW PROPOSALS – OVER $20,000

Group I

C. Establish a Building Repair Sinking Account
H. Extend Nextel Coverage to Department of Public Service Facility

Discussion:

(C) Councilman Corbett and McGillivray supported staffs' efforts to build up the Building Repair Sinking Fund Account each year.

(H) Deputy City Manager Myers discussed the problem that the Nextel system does not work at the DPS building. He and MIS Administrator Fiscus stated that they are researching a process that may fix the problem at a reduced cost.

Group II

B. Develop and Implement a Periodic Road Rating System
A. 12-Lead Electro-Cardiograph Monitor/Defibrillator Upgrade
G. Recodification of City Code of Ordinances
D. Playscape Replacement Plan
E. Nature Center Habitat Trail Reconstruction
F. Delaying the Water & Sewer Rate Implementation

Discussion:

B. Community Development Director Schafer stated that a technological advance survey system was used to evaluate City road surfaces and provides a rating system of every inch of the road network, which is used by the GIS system to determine which roads are deteriorating and at what rate. This goal proposal will enable the City to target the limited road funding resources to the appropriate road project.

NEW PROPOSALS – UNDER $20,000

Group I

b. Improved Alcohol Related Blood Draw Procedure
c. Geographic Position Service Field Collection of Critical Data Features for Serious Police Incidences.
i. Senior Center Front Door Upgrade

Discussion:

b. Police Chief Sagan described the new procedure to develop and implement a blood draw policy by using Fire Department Emergency Medical Technician's to draw blood from arrested subjects in an ambulance at the police station, instead of using two officers to transport the person to the hospital, thereby saving personnel time and improving the methods of securing evidence against drivers under the influence.

c. Community Development Director Schafer stated that the Police Department currently uses basic measuring tools and procedures to record accident details, which are imperfect and may result in inaccurate measurements. The Geographic Information System's Trimble Global Positioning System will enable the measurements to be accurate within 1 centimeter.

i. Deputy City Manager Myers stated that the front door of the Senior Center is difficult to open and heavy. With one-third of the patrons entering through this door it needs to be updated by installing an automatic door as currently used at the rear door, to be user friendly.

Group II

MMM. Madison Heights "History Rooms"
d. Effective Citizens' Feedback
k. English as a Second Language Collection Development
l. Awards for Employee Excellence
j. Lock Box Service for Tax and Water & Sewer Bills
f. Nature Center "Adopt the Pond" Program
a. Healthy Communities
e. Establish Consistent Uniforms for Department of Public Service Personnel
g. Nature Center Volunteer Training
h. Junior Golf Program
NNN. Investigate Skate Park Staffing and Admission Fee
OOO. Family Oriented Recreation Programs

Discussion:

MMM. Council agreed to move this item into Group I and directed City Attorney Sherman to start drafting an agreement with the Madison School District for use of the rooms at Schoenhals Elementary School.

Councilman McGillivray noted that many of the Group II items were low cost and asked at what point would they be implemented? City Manager Austin stated that they will be pursued subject to budget constraints and staff resources, unless Council designates otherwise.

NEW PROPOSALS – BUDGET MEASURES

Group I

CC. Utility Company Standby Cost Recovery
DD. Inventory and Disposition of City-owned Property
AA. Internet Criminal History Access Tool Checks for License Applicants

Discussion:

CC. Fire Chief Donahue stated that the Fire Department responds to reports of downed power lines or natural gas leaks. If there is a citizen safety concern, they must stand-by until the utility company arrives, which ties up firefighters and delays response time to other calls. The ordinance requested will allow the City to bill the utility company for time spent after the first hour. Deputy City Manager Myers stated that they are also having a slow response and lack of cooperation from DTE for replacing street lights. Councilman McGillivray suggested taking a regional approach by contacting surrounding cities and State Representatives and State Senators to put pressure on the utility companies to provide better service.

DD. Community Development Director Schafer stated that the proposal is to conduct a comprehensive survey of all City-owned properties within the City to determine if they are of continued value or may be put up for sale or transfer.

AA. Police Chief Sagan stated that the Police Department has been prohibited since 2002, by State law, to check the criminal histories of business license applicants through the State's Law Enforcement Information Network (LEIN) and has been required to use the Internet Criminal History Access Tool (ICHAT) at a cost of $10 per applicant. The change would allow the City to charge the business license applicant a fee to cover the ICHAT costs.

Group II

BB. False Alarm Ordinance Revision and New Fee Schedule for False Alarms
LL. Cell Telephone Carrier Review
HH. Library Fines Collection Software
II. Library Fines Increase
EE. Dental Insurance Evaluation
GG. Annual Blanket Waiver Process for School Districts
FF. Civic Center Park Shelter Rental
MM. Library Fundraising Promotion Items
JJ. Library Monetary Donations
KK. Bestseller Rental Books

Discussion:

GG. Councilman McGillivray recommended, and Council concurred, to proceed asking the School Districts to submit an annual request, with one insurance certificate, to Council for use of parks for school-related functions.

KK. Councilman Corbett stated he has objections to charging rental fees for bestsellers. Library Director Yerman stated that it was suggested as a supplementary means. City Manager Austin clarified that this was not a means to raise funds, but as a means to have additional books available.

City Manager Austin stated that staff will continue to work with Group II Goal Saving Measures, with the exception of Goal KK: Bestseller Rental Books, and to implement where possible.

Mayor Swanson left at 10:00 a.m. Mayor Pro Tem Shad chaired the rest of the meeting.

ONGOING PROPOSALS

GROUP I

bb. Fire Service Regionalization
gg. Library Improvements

Discussion:

bb. City Manager Austin discussed the progress, and lack of progress that has occurred since this project began. Problems have been with the Royal Oak Fire Union and Oakland County consultant Plante and Moran. Mr. Austin reiterated his opinion that full regionalization does not have to be reached in order to pursue cost savings shared services such as consolidated public safety dispatch, automatic mutual aid, and joint vehicle maintenance. Fire Chief Donahue stated that the Madison Heights Fire Fighters Association was the first to adopt the Automatic Aid Agreement. Councilwoman Russell and Councilman McGillivray were in favor of pressing Plante and Moran for improved service.

gg. City Manager Austin reminded the Council that the Library will be closed down for 6 months beginning December 18, 2006. Library patrons will be able to receive service through ordering books from IBISTRO for pick-up at other area libraries that will be working with us, such as Royal Oak, Hazel Park and Clawson. Councilwoman Russell asked how the asbestos removal is being handled. City Manager Austin stated that it is a small percentage of the project cost and involves some floor tile and utility room removal. Deputy City Manager Myers stated that how it is handled will be determined if the asbestos becomes airborne.

GROUP I

ee. Joint Senior Citizens Center/SOCRRA Access Drive
ff. Red Oaks Soccer Complex
III. Rodent Abstement
dd. Develop New Proposal "R-2" Ten Year Residential Road Improvement Policy
aa. Environmental Protection Agency Water Testing
hh. Detroit Water and Sewerage Model Water Service Contract
cc. Modify Proposal "R" Ten Year Residential Road Improvement Policy

Discussion:

III. City Manager Austin stated that there has been a cooperative effort with some surrounding eight southwest Oakland County communities to jointly bid for rodent abatement services in order to have a preferred contractor to offer to residents. Community Development Director Schafer stated that the Oakland County Health Department is preparing a DVD on rodent abatement to be shown on our cable networks and website.

hh. Councilwoman Russell asked if there will be a clause in the Detroit Water and Sewerage Model Water Service Contract giving the formula as to how the rates are itemized and requested a summary of the City of Warren vs. Detroit Water and Sewage from City Attorney Sherman. The Deputy City Manager explained that the rates will be based on the new model contracts, which are being worked on by a joint committee of DWSD and the customers.

aa. Mayor Pro Tem Shad stated she supported water testing. City Manager Austin said that this is a federally mandated test and Deputy City Manager Myers stated this is a compliance effort that each City will be doing beginning October, 2007.

341. Miscellaneous Discussion

City Manager Austin stated that the top ten items will be drafted for Council's consideration at a future Council meeting. Councilman McGillivray requested that the MMM. Madison Heights "History Rooms" be added as Item 11 on the list.

Councilman Corbett asked for the staff to analyze the playscapes (D. Playscape Replacement Plan) to determine which are dangerous versus only in need of updating and proposed funding, where needed, through the Budget. He also requested a separate fee schedule attached to the budget of any proposed increases. City Manager Austin stated that a comprehensive study fee schedule was completed last year and an updated inventory will be provided to Council prior to the Budget Review.

Councilwoman Russell requested that staff work on a procedure to keep down vandalism at the Skate Park (NNN. Investigate Skate Park Staffing and Admission Fee) and stated that she would like to avoid closing the Park if possible. Councilman Corbett and Councilman McGillivray stated that they were not in favor of an admission fee and would like to avoid closing the Skate Park. Councilman McGillivray also requested that Council be notified immediately of a closing so that they are aware of what to tell residents who call them.

342. Adjournment.

There being no further business, Mayor Pro Tem Shad adjourned the meeting at 10:55 p.m.

A public hearing was held to hear comments, if any, to permit the use of a retail sales and showroom in an M-1 Light Industrial area, for The Shelving Store at 1444 E. 11 Mile Road. Joseph Schodowski, owner of the business, was present with his two partners in the audience. He stated the business has been in operation for 47 years and their primary business has been commercial and industrial shelving. They are expanding their business with a new product line from Sweden that is aimed at residential sales and requires a showroom. Their primary business will continue to be conducted over the internet, with customer sales at the location to be only 1 to 2%. They are requesting the special use approval to help them diversify, which is necessary due to the down Michigan economy. There being no further comments from the audience, the public hearing was closed**.**

Motion by Councilman Clark,
Supported by Councilwoman Shad,

WHEREAS, a Special Approval Board application has been received from Joseph Schodowski, owner, requesting to use the property at 1444 E. 11 Mile Road for a showroom and retail sales for The Shelving Store; said property is zoned M-1 Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on November 27, 2006 and 149 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

SUBJECT: SPECIAL APPROVAL REQUEST NO. 06-10
1444 E. 11 Mile Road - The Shelving Store, Inc. – Retail Showroom in M-1 District

REQUEST: Special Approval for retail sales in the M-1 District under Section 10.329(5) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial

PROPOSED USE: Shelving display unit showroom and sales

STAFF ANALYSIS:

1. Special Approval is required for retail sales in the M-1 District. The applicant is seeking approval for retail display and sales for shelving and related supplies at this address. The warehousing function does not require special approval. The previous operation was wholesale sales, and included customer access to the area now proposed for showroom.

2. Parking on the site is non-conforming, however the applicant has improved both the parking lot and right-of-way approach area as part of the warehouse operations on the site.

3. Hours of Operation: Mon – Fri: 8:00 am – 6:00 pm
   Saturday: 10:00 am – 2:00 pm

James Capizzo, 863 Venoy, asked if Council had any thoughts on a newspaper article he read about the Cable Bill before the Legislature concerning allowing telephone companies to get into the cable market without negotiating local franchise agreements. City Manager Austin stated the Senate is scheduled to vote on The Cable Franchise Bill HB 6456 on December 12, 2006 and that the City has opposed this legislation for the following reasons: the most damaging element of this bill is the immediate termination of curent cable franchise agreements, which would affect the revenue the City receives from the two current cable providers, Comcast and WideOpenWest. AT&T who supports the bill would be allowed to pick and choose their customers and not be required to provide service to all residents. There would be a significant loss of right-of-way controls, the eventual loss of public education and local government access stations, and reduces consumer and local resident protections. He stated that the Michigan Municipal League has offered six amendments to improve the bill, which the City supports, and stated the Mayor has sent a letter to Governor Granholm in opposition to the Bill and urged residents to call State Senator Shirley Johnson before the vote tomorrow, to state their opposition.

Evan Madazinski approached the podium at the request of Mayor Swanson and stated that he is from Wilkinson"s Boy Scout Troop 1592 and is at tonight's meeting to help earn his 1st Class Rank.

26. Oakland County Drain Commissioner John McCulloch Presentation

City Manager Austin introduced Oakland County Drain Commissioner John McCulloch who was present at Council's request to provide details regarding a lawsuit brought by Drain Commissioner McCulloch against the City of Detroit and Detroit Water and Sewerage Department (DWSD). Drain Commissioner McCulloch presented City Attorney Sherman with a written summation. He stated the lawsuit concerns the upgrading of the Detroit Radio Communication System Project, to be used primarily for law enforcement, Home Land security and Fire protection, as well as ancillary uses by other departments such as the DWSD. To accomplish this upgrade Detroit communication towers within and outside the City. DWSD was charged 60% of the project costs, or approximately 138 million dollars. Detroit entered into a mutual agreement with the State of Michigan whereby the State could utilize the Detroit towers and Detroit could utilize State towers outside the City to support their ancillary departments, thereby creating a substantial savings to the City of Detroit. However Detroit did not reduce the 60% allocation to the DWSD. Mayor Kilpatrick, using his powers as special administrator granted to him by Federal District Judge Feikens, signed the State of Michigan contract without the approvals of the Detroit City Council, the Water Board or input from the communities that would ultimately pay 70% of the project. At this time Drain Commission McCulloch stated he filed suit against the City of Detroit and DWSD that questioned the Mayor's authority to enter into the Communications Agreement using the administrative powers that were granted to him to keep the System in compliance with the Clean Water Act, and questioning the allocation of the costs to the DWSD, which would add to suburban water rate increases. Judge Feikens removed

Mayor Kilpatrick as special administrator and appointed a Special Master, Tom Lewand to 1) look at the overall project and its necessity to DWSD and 2) once deemed its necessity determine an appropriate allocation.. Mr. Lewand asked both sides to submit what they felt was the appropriate allocation based on the information presented. At this point approximately 38 million dollars was allocated to the DWSD with the balance allocated to other City of Detroit departments. Of this 38 million dollars, 70% would be paid by suburban customers as part of their rates. The County of Wayne and County of Macomb also filed briefs supporting Oakland County's position. In December, 2006 Judge Feikens determined that the 38 million dollar allocation was incorrect and that all sides were to issue briefs by January 4, 2007 indicating their positions on the appropriate allocation amount. The City of Detroit postion remained at 38 million, each of the three Counties determined the correct amount should be between 1.8 to just under 12 million dollars. The parties are now awaiting Judge Feikens decision as to the appropriate allocation. Additionally the brief also asked for the investment revenue lost by DWSD for funds used by the City of Detroit's portion of the Communications Project, which have not been reimbursed for two years; for clarification on how the costs of operation and maintenance are to be allocated going forward; that any proposals and contracts be provided to the public; and that the financial and legal costs expended by Macomb, Wayne and Oakland Counties be reimbursed.

City Manager Austin thanked Mr. McCulloch for the overview and stated that it is through his efforts that, at no additional cost to the City of Madison Heights, the Red Run Golf Course was rebuilt, a new recreational vehicle storage lot was completed, that the GWK Drainage Project property will be used for soccer fields available to the City and surrounding communities, and for the ongoing construction of a confined space training site for the Police, Fire and Public Works Departments.

Mr. Gunn stated that he has contacted every owner of electronic signs in the City and they are support a change to a 5 or 10 second rotation. He stated they are not requesting that the signs be scrolling or flashing, just a reduction in the change time. He noted that the State of Michigan permits 10-second intervals, which is used by Lamphere High School's electronic message sign. He discussed the safety aspects of a 10-second message change and its impacts on traffic traveling at 35 mph. Mr. Gunn introduced other business owners in the audience who have electronic message signs and who are in favor of the ordinance change. Mr. Al Trombley of People's State Bank and Mr. Les Chambers of Bob & Robs Restaurant stated they are in favor of permitting a 10 second message change.

Gap Map Created: There is hereby established as a part of this policy a "Sidewalk Program and Gap Map". This map **shall be located in the City's annual Capital Improvement Plan and** establishes sidewalk gap locations throughout the City and denotes those gaps that are "to remain" and those that are "to be installed".

New Development: All new developments occurring within the City that are located on a parcel or parcels that have a sidewalk gap shown as "to be installed" on the Gap Map shall install said sidewalk at the time of construction. Provision for such sidewalk construction shall be included as a part of site plan review, subdivision approval, or building permit application. Cost of sidewalk gap construction shall be the sole responsibility of the property owner or developer.

Public Road / Utility Projects:

All Public road and utility projects occurring within the City that are located on or adjacent to a parcel or parcels that have a sidewalk gap shown as "to be installed" on the Gap Map shall include installation of said sidewalk as a part of the scope of project. Cost of sidewalk gap construction shall be allocated between the City and the property owners in accordance with the percentage allocations in the City's Special Assessment District Policy for Road Improvements (July 12, 1999, as amended) through a special assessment district, if applicable. All sidewalks repaired, replaced or installed as part of public road or utility projects shall be in compliance with City Code.

All Other Gaps "

To Be Installed": All other sidewalk gaps shown as "To Be Installed" on the Gap Map shall be installed during the City's scheduled annual sidewalk program in accordance with the "*Sidewalk Program*" years on the Gap Map. Cost of sidewalk gap construction shall be the entire responsibility of the property owner either directly or through a special assessment district in conjunction with the City's annual sidewalk program.

Gaps to Remain: Construction of sidewalks shown on the Gap Map as "Sidewalk Gaps to Remain" shall not be required. However, nothing in this policy should be construed as preventing installation of said sidewalks where the property owner and / or City voluntarily seek such installation.

Existing Substandard 4' Wide Sidewalk: Substandard 4' wide sidewalk that is damaged shall be replaced with standard 5' wide sidewalk, included in the annual sidewalk repair program and paid for by the property owner through the SAD. The City shall replace substandard existing 4' wide sidewalk that is otherwise undamaged with standard 5' wide sidewalk during the annual sidewalk repair program.

Hardship Claims: Qualifying senior property owners can make application to the State's Special Assessment Deferment Plan as the means to address claims for hardship. Where a non-senior property owner has made successful application to the Board of Review for a reduction in property taxes based on financial hardship, that finding shall entitle the property owner to an automatic reduction to $300 in total sidewalk special assessment.

Estimation of Sidewalk Gap Project Costs

The City Engineer, in accordance with Section 22-4 of the Code of Ordinances, shall determine estimated costs of all sidewalk gap construction.

The standards for Home Occupations (10.508(4) (see below), criteria for Special Approvals (Section 10.201.1) and general standards for all City Council zoning-related decisions (Section 10.805) are a basis for any conditions of approval City Council may wish to apply.

Section 10.508. Uses not otherwise included within a specific use district

Because the uses hereinafter referred to possess unique characteristics making it impractical to include them in a specific use district classification, they shall be permitted by the City Council under the conditions specified, and after public hearing. In every case, the uses hereinafter referred to shall be specifically prohibited from any R-1, R-2, R-3, R-T, or R-M District. These uses require special consideration since they service an area larger than the City and require sizeable land areas, creating problems of control with reference to abutting use districts. Reference to those uses falling specifically within the intent of this section is as follows:

(4) Home offices & home occupations

Home occupations: Home occupations that are clearly incidental to the principal residential use shall be a special approval use in any single-family residential district. A home occupation is traditionally and customarily carried on in the home by permanent residents of the home, and is clearly incidental and secondary to the principal residential use. Typical home occupations normally involve services such as hairdressing, clothing alterations and voice or music instruction, excluding all regulated uses as defined in Section 10.502(A). The following conditions shall apply to home occupations:

(1) That such home occupation shall be conducted wholly within the dwelling.

(2) That no article or service shall be sold or offered for sale on the premises except such as is produced within the dwelling or is provided incidental to the service or profession conducted within the dwelling.

(3) That there shall be no exterior storage or parking of materials or equipment.

(4) That no nuisance shall be generated by any heat, glare, noise, smoke, vibration, noxious fumes, odors, vapors, gases or matters at any time and that no mechanical, electrical, or similar machinery or equipment, other than that used for normal domestic purposes, will be utilized in the home occupation.

(5) That no hazard of fire, explosion or radioactivity shall exist at any time.

(6) There shall be no external evidence of such home occupation. No signage shall be permitted.

(7) No home occupation shall be injurious to the general character of the residential district or create a congested or otherwise hazardous traffic or parking condition.

(8) As part of the Special Approval, City Council may regulate all aspects of the Home Occupation without limitation, including the hours of operation and the maximum area of the dwelling utilized for the Home Occupation.

(9) The required site plan shall include a detailed floor plan of the residence showing all existing and proposed use areas.

(10) "Home Occupation" shall not include "Home Offices" as defined above.

122. Special Approval – Animal Welfare Society Daycare and Sales

A public hearing was held to hear comments, if any, to permit the use of the property at 27796 John R by the Animal Welfare Society for administrative offices, an animal showroom, grooming, animal daycare and retail sales of pet supplies; said property is zoned B-3 General Business District. Jose Mari, owner of a proposed restaurant at 27770 John R, objected to an animal facility next door to his restaurant. Yvonne Appenzeller, 5244 Streetkerk, Warren, MI stated she is a member of the Animal Welfare Society but objects to the new location, the internal structure of the building, the low number of employees, the lack of covered dog runs accessible from the inside and the new Board of Directors against whom she has filed a lawsuit. She stated that they have a responsibility to not expose the public, or the animals to risk and she requested that Council defer their decision for further study. Susan Edwards, President and Jessica Sarcone, Vice President, stated that they had to wait to proceed with interior construction until they received special approval by Council for the use. Further, due to the proposed restaurant they will move the dog runs from the south side of the building. City Attorney Sherman questioned Ms. Appenzeller on her complaints and it was determined that this is an internal problem within the organization. Abdul Hi, Architect, stated that he prepared the plans and strongly supports the Animal Rescue Society, noting there is a vacant lot separating this facility from the proposed restaurant. Kenneth Latour, 21320 Dexter, Warren, stated he fosters the animals and is in favor of the new location. Chris Messen, 27375 Groveland, Madison Heights stated he is a member of the Animal Welfare Society and is requesting a postponement because he has concerns about the cleanliness and ventilation system. Ms. Edwards also commented that their lease on the current building on Dequindre expires May 1, 2007. City Attorney Sherman asked Ms. Edwards what her current title is and is she a corporate officer. Ms. Edwards stated that she has been with the organization for seven years and the Treasurer for three years. She was voted Vice-President in January, 2007 and recently became President upon the resignation of the former President. All paperwork, articles and by-laws have been filed with the State. In answer to City Attorney Sherman's question about kennels, Ms. Edwards stated that there will be two outdoor kennels on the north side of the building, away from the restaurant. Community Development Director Schafer commented that resubmittal of the site plans was made to move the outdoor kennels to the

north side of the building. A detailed building plan review of the site plans is made after special approval is granted to ensure compliance with the building codes. There being no further comments from the audience, the public hearing was closed**.**

128. Resolution Regarding the Michigan Uniform Video Service Local Franchise Act

Special Telecommunications Legal Counsel Neil Lehto stated that this resolution prepares the City of Madison Heights for applications to be filed by AT&T, Comcast and WideOpenWest and possibly others, seeking the new franchises under the State of Michigan's Uniform Video Service Local Franchise Act, effective January 1, 2007. The new legislation affects many provisions of local municipal franchises and ordinances regarding companies offering cable television services over lines and other facilities located in the public right-of-way.

Motion by Councilman Clark, supported by Councilman Corbett, to approve the resolution regarding the Michigan Uniform Video Service Local Franchise Act which outlines the City's understanding of the Act, the processing of applications under the new law, the treatment of Public, Educational and Government (PEG) channels and the payment of franchise and PEG support fees; as follows:

RESOLUTION
City of Madison Heights

A. Effective January 1, 2007, the Michigan Uniform Video Service Local Franchise Act, Act. No. 480 of the Public Acts of 2006 ("Uniform Act") preempted as unreasonable and unenforceable many provisions of municipal franchises and ordinances regarding companies offering cable television services over lines and other facilities located in the public right-of-way.

B. The Uniform Act required the Michigan Public Service Commission ("MPSC") to issue an order establishing the standardized form for a uniform local franchise agreement to be used by each municipality in this state. On January 30, 2007, the MPSC issued an order doing so along with a standardized application form.

C. Section 5 of the Uniform Act renders all provisions of existing franchises that are inconsistent with or in addition to the provisions of the uniform video service local franchise agreement unreasonable and unenforceable. Among other provisions of existing franchises changed by section 5 of the Uniform Act is the definition of gross revenues set forth in subsections 6(4)-(7) of the Uniform Act upon which companies pay annual video service provider fees and fees for the support of public, educational and governmental ("PEG") access channels.

D. Subsection 6(8) of the Uniform Act requires that such companies pay to the municipality as support for the cost of PEG access facilities and services a fee equal to the fee paid by the incumbent video provider with the largest number of cable service subscribers in the municipality.

E. Subsection 4(14) of the Uniform Act provides that if municipalities seek to utilize capacity designated on a cable system to provide access for video programming over 1 or more PEG channels that the municipality shall give the provider a written request specifying the number of actual channels in actual use in the municipality.

F. Subsection 6(1)(b) of the Uniform Act provides that at the expiration of an existing franchise agreement or if there is no existing franchise agreement, the video service provider shall pay an annual video service provider fee in an amount equal to the percentage of gross revenues as established by the municipality not to exceed 5 percent and which shall be applicable to all providers unless otherwise agreed under section 13 of the Uniform Act.

NOW THEREFORE BE IT RESOLVED that:

1. Effective January 1, 2007, the Uniform Act required companies paying franchise fees and fees for the support of PEG channels based on a percentage of gross revenues to do so based upon the definition of gross revenues set forth in subsections 6(4)-(7) of the Uniform Act.

2. Effective January 1, 2007, the Uniform Act required companies offering cable television services to pay to the municipality as support for the cost of PEG access facilities and services a fee equal to the fee paid by the incumbent video provider with the largest number of cable service subscribers in the municipality.

3. The following PEG channels in actual use on January 1, 2007, shall be provided as required by subsection 4(14) of the Uniform Act.

Comcast	WOW!
City of Madison Heights Government Access	City of Madison Heights Government Access
Lamphere Schools Access (split channel)	Lamphere Schools Access (split channel)
Madison Schools Access (split channel)	Madison Schools Access (split channel)
Public Access	Public Access

4. All applications and any other correspondence for a uniform video service local franchise agreement or to terminate or amend an existing franchise agreement shall be sent by mail (certified, registered or first-class return receipt requested or by nationally recognized overnight delivery service) to the City Clerk and to Cable Television Attorney, Neil J. Lehto, Six North Elk Street, Sandusky, Michigan 48471.

5. At the expiration of an existing franchise agreement or if there is no existing franchise agreement, all video service providers shall pay an annual video service provider fee in an amount equal to 5 percent of gross revenues, which shall be applicable to all providers unless otherwise agreed under section 13 of the Uniform Act.

6. The City Clerk is directed to send a copy of this Resolution to Comcast and WOW! by first-class mail, return receipt requested.

Special Meeting
Madison Heights City Council
Madison Heights, Michigan
April 28, 2007

A Special Meeting of the Madison Heights City Council was held on Saturday, April 28, 2007, at 8:30 a.m. in the Municipal Building at 300 West Thirteen Mile Road, Madison Heights, Michigan.

Present: Mayor Swanson, Mayor Pro Tem Shad, Councilmen Clark, Corbett and McGillivray, Councilwomen Russell and Scott. City Manager Austin, Director of Administrative Services Marsh, Finance Director Moreno and City Clerk Corbett.

Absent: None.

146. FY 2007-2008 Budget Review

Mayor Swanson welcomed everyone to the Special Budget Workshop Meeting.

City Manager Austin presented a handout of the slides for the presentation for the FY 2007-08 Proposed Budget and supplemental report on the proposed water and sewer rates. He stated that in order to present a balanced budget in the face of increased costs and shrinking revenues reductions measures were unfortunately needed. The presentation addressed these challenges, key revenue and expenditures, comments on the General and Water and Sewer Funds and the City's future funding strategy.

Director of Administrative Services Melissa Marsh stated that in light of the growing financial pressures resulting from continued reductions in funding from the State, limits on property tax revenue growth, the commitment to meet personnel-related labor agreements and rising health insurance premiums, the City has been forced to respond with new approaches to sustain existing services. About 68% of the General Fund expenditures are programmed to support employees' wages and fringe benefits, including prefunding for retiree health care. Madison Heights, as well as other Michigan local governments, continue to absorb the substantial cutbacks in State Revenue Sharing exceeding $1.2 million annually. Indecision by State officials on the Governor's Proposed FY 2007-08 Budget has made State Revenue Sharing difficult to project. The General Fund Proposed Budget was balanced by revising revenue estimates, reducing expenditures and programming $460,000 of Designated General Fund Fund Balance.

Finance Director Suzanne Moreno stated that to meet the City's mission to provide high-quality services to residents and businesses, City staff sought out and identified significant new measures to improve effectiveness, efficiency and productivity. The Budget provides funding that maintains high-priority basic services and supports the Council's FY 2007-08 Goal Plan. Workforce reductions were used to balance the FY 2007-08 budget. City staff is scheduled to be reduced by two full-time positions and two part-time positions. These positions consist of the consolidation of the DPS Parks and Streets Supervisor positions, the transfer of a Police Detective Bureau position to the Road Patrol resulting in an increased number of officers on the street, the consolidation of one-full time Fiscal Assistant in finance and a part-time Office Assistant in the Fire Department, the retirement of the Deputy Assessor/Personal Property Tax auditor and the elimination of the part-time office staff for the Housing Commission. These positions are currently vacant or are scheduled retirements, and no layoffs will be required. The budget assumes the continuation of the hiring review/freeze for full-time positions.

City Manager Austin stated that this Proposed Budget includes capital outlay funding for the protection of community assets both for building improvements and deferred parks maintenance which are funded through designated fund balance. This year a different approach is planned that links fund balance to specific projects of a one-time nature. The building projects which total $184,000 in the FY 2007-08 Budget include:

- The replacement of the elevator cylinder for the District Court and other handicap accessible and safety upgrades to City Hall.

- The replacement of carpeting in the Police Station.

- The addition of a Fire Suppression System at the Senior Center and Replacement of screening fence around the HVAC tower at City Hall.

A sum of $272,000 for parks projects are also being funded through dedicated General Fund Fund Balance. These park improvement projects have been on hold for four or more years and represent top priorities based on the Parks and Recreation Master Plan and staff identified maintenance needs. The projects are scattered across a number of parks and include

- Playground Equipment replacement at Huffman Park and Civic Center Park's parking lot replacement Phases II and III

- Rosie's Park shelter building furnace replacement and Farnum parking lot resurfacing and expansion.

- GWK Trailway engineering and Suarez Woods path overlay repairs.

A total of $326,000 in capital outlay is being funded through dedicated millage sources including Proposal "V" and the Solid Waste Millage. In light of the reduction in the Proposal "V" millage to one-quarter mill, the budget focus is on:

- the Fire Department, replacing one ambulance/rescue and a vehicle

- Planned purchases also include a new pick-up for DPS, a mower and one senior handicap transportation cart for the Parks Division.

The budget also provides funding of $130,000 for other capital outlay including the replacement of other vehicles, modifications to existing vehicles and technology to improve service delivery, and basic Library materials. The budget for library books and materials has been increased by 50% to $29,900 to partially restore prior year reductions.

Some of most vital community assets include major and local streets, sidewalks, and water and sewer systems. The staff has planned $4.6 million for road construction.

- Major road improvements planned for next year will include seven construction projects: Phase VII of the reconstruction of Stephenson Highway turnaround lanes, installation of a right-turn lane eastbound Twelve Mile at John R, Progress and Heights drive overlay, joint and crack sealing on Eleven Mile Road from John R to Dequindre, Stephenson Highway resurfacing Twelve to Thirteen Mile, contribution to the I-696/I-75 bridge rehabilitation and a contribution to the Dequindre corridor traffic signal upgrade.

- The neighborhood road improvement projects include the reconstruction of Middlesex from Alden to Nanton and the Parker District, crack and joint sealing in an area bound by Thirteen Mile, Dequindre, Moulin and John R; and sectional concrete replacement.

FY 2007-08 marks the fifth year of the Sidewalk Replacement and Gap Program, with $270,000 programmed in the budget.

The Capital Improvement plan calls for upgrades to both the water distribution and sewage collection systems. A total of $664,000 in watermain replacements are scheduled including watermains that support roads being constructed under the Neighborhood Improvement Program.

- Phase II will continue on the project to eliminate the sewer lift station located on Wolverine south of Eleven Mile and reroute the sewer to work on a gravity feed basis.

City Manager Austin thanked and recognized the extra effort and support from the Executive Assistant Marilyn Haley, the Director of Administrative Services Melissa Marsh, and Finance Director Suzanne Moreno in preparing this year's Budget.

Mayor Swanson and Council reviewed each page of the Line Item Budget.

Mayor Pro Tem Shad suggested in the future, byond the FY 2007-08 Budget, that Council combine funding for the Madison Heights Youth Assistance, Friends of Madison Heights Youth and the Madison Heights Community Family Coalition to avoid duplication of services. Councilwoman Russell stated that the majority of Coalition funds are from a grant for substance abuse and cannot be combined with other youth programs. Councilman McGillivray concurred with Mayor Pro Tem Shad and requested that a goal proposal be prepared for the next fall and that the Outside Agencies be asked to detail the services of the organizations for Council's consideration at the next Goals Meeting.

Councilwoman Scott asked what types of materials will be purchased from the budget increase for library books and materials. Library Director Yerman stated that they plan to increase the books and the audio visual areas such as videos, DVDs and audio books on tape. They will also update where information is lacking and where they have received requests. City Manager Austin stated that the increase of 50% is to partially restore prior year reductions and the $29,000 is less than half of what the funding was five years ago.

City Manager Austin reviewed the handout concerning the FY 2007-08 water and sewer rate increase. He stated it was originally proposed at 2.88%, however due to the 2007/2008 Sewage and Storm Water Disposal Rates information just received from the Oakland County Drain Commissioner the City's increase will need to be 4.7%. This will result in an average quarterly residential water and sewer bill of $105.04 instead of the current $100.46. The new rates will be effective July 1, 2007.

- Mayor Pro Tem Shad asked that resident Bob Brunk be contacted regarding the February 14, 2007 report on the impact of delaying the water & sewer rate increases, that he requested last year.

- Councilman Corbett requested a report outlining the pros and cons of the proposed 1.8% difference between the original 2.88% and revised 4.7% proposals.

Mayor Pro Tem Shad addressed the report, prepared at her request, on the feasibility of returning to renting the Senior Citizen Center to residents to bring in extra revenue. Councilman McGillivray concurred and requested it be added to Council's Goals agenda in the Fall.

Mayor Swanson thanked City Manager Austin, Director of Administrative Services Marsh and Finance Director Moreno for the presentation.

156. Oakland County Drain Commissioner – Detroit Model Water Contract Resolution

City Manager Austin stated that the Detroit Water and Sewerage Department (DWSD) has requested input on the draft long-term Model Water Contract. Drain Commissioner John McCulloch has sent a resolution to assist municipalities in responding to DWSD regarding the general principles, which should be covered in the contract. Staff estimates another year before DWSD is ready to negotiate individual contracts.

Motion by McGillivray, supported by Councilwoman Scott, to approve the non-binding Detroit Model Water Contract Resolution from Oakland County Drain Commissioner John McCulloch, as follows:

DETROIT MODEL WATER
RESOLUTION

WHEREAS, the City of Detroit owns and operates a public water supply system supplying water to numerous communities throughout southeastern Michigan; and,

WHEREAS, the City contracts with the City of Detroit to supply potable water to its residents; and,

WHEREAS, the City's current contract with the City of Detroit has or will expire on October 2, 2026; and,

WHEREAS, in anticipation of the expiration of water service contracts with numerous governmental entities in southeastern Michigan, over the last three years, the City of Detroit has developed a Model Water Contract and is seeking the City's approval of the terms of this Model Water Contract; and,

WHEREAS, the cooperative efforts to date between the City of Detroit and Technical Advisory Contract Group in the drafting of the Model Water Contract have been admirable but there remain issues and concerns to be addressed; and,

WHEREAS, it is in the public interest that the proposed Model Water Contract provide all customers a long-term supply of potable water that meets or exceeds Michigan and federal regulatory requirements for drinking water quality, without discrimination and at the lowest reasonable rates; and,

WHEREAS, the City of Detroit and Technical Advisory Contract Group have requested the City to provide input within the next sixty (60) days; and,

NOW THEREFORE BE IT RESOLVED by the City Council requests that the terms of the Model Water Contract with the City of Detroit define and include a process to address the following:

a. The Contract should provide a process for meaningful customer participation, a "greater voice" to provide input concerning major capital or maintenance projects or other factors impacting the rates developed by the Detroit Board of Water Commissioners.

b. The Contract should define and provide full and timely disclosure of information, and in a format that will allow the City to assist in the rate-making process and its long-term planning.

c. The City of Detroit or the Detroit Water and Sewerage Department (DWSD) should provide a reasonable policy for early withdrawal or termination prior to the expiration of the contract term along with actual costs associated with such withdrawal or termination.

BE IT FURTHER RESOLVED that the Mayor and the City Clerk are authorized and directed to forward this Resolution on behalf of the City to the City of Detroit.

157. Red Oaks Soccer Complex License, Use And Maintenance Agreement

City Manager Austin stated that he has worked with Oakland County Drain Commissioner McCulloch to develop a concept for a soccer complex and an adjacent confined space training facility at the George W. Kuhn drainage District on John R. The ten-acre soccer complex will include nine irrigated soccer fields, a concession park shelter building with an attached picnic pavilion, playground and appropriate parking. Over the last two years, the GWKDD, the Oakland County Parks and Recreation Commission and the City have negotiated a 25-year license, use and maintenance agreement, which lays out the responsibility for each of the parties and provides the City with $850,000 to offset the future maintenance and operations costs. Oakland County Parks and Recreation is making a separate $250,000 contribution for improvements on the site and in turn, the facility will be named the Red Oaks Soccer Complex to link the facility to the nine-hole golf course and water park also located in the City.

Motion by Councilwoman Russell, supported by Councilman Clark, to concur with the recommendation of City Manager Austin and approve the 25-year Red Oaks Soccer Complex Licenses, Use and Maintenance Agreement with the Oakland County Parks and Recreation Commission and the George W. Kuhn Drain District.

161. Resolution – State Budget Crisis

Motion by Councilman Clark, supported by Councilwoman Scott, to approve the resolution urging lawmakers to address the State's budget crisis and forward copies to our State Representative, State Senator, Governor Granholm and the Michigan Municipal League, as follows:

RESOLUTION
THE STATE BUDGET CRISIS

WHEREAS, after seven straight years of state budget deficits and four years of budget cuts, we are facing yet another $3 billion shortfall in state revenue for the current and 2007-08 fiscal years; and

WHEREAS, $3.6 billion has been cut from the state's budget over the past four years, and the state is operating with fewer state employees than in the 1970s; and

WHEREAS, funding for local governments has been cut by $2 billion the last five years resulting in a loss of over 1,600 police officers and 2,000 fire fighters statewide, compromising the safety of our local communities; and

WHEREAS, Michigan's major taxes have been cut over 32 times in the past decade, our unemployment rate remains one of the highest in the country, and our auto industry continues to struggle; and

WHEREAS, the Single Business Tax (SBT), the primary tax paid by businesses in Michigan, will be entirely phased out by the end of the year with no replacement approved for the $1.9 billion in revenue generated from this tax; and

WHEREAS, higher education in Michigan has already been cut by $250 million which has resulted in college students and their families having to pay double digit tuition increases and a college education moving further out of reach for the state's middle class; and

WHEREAS, further cuts to state safety net programs for food assistance, childcare and health care will only result in a shift of demand to already overburdened county and municipal programs.

WHEREAS, the City of Madison Heights, over the past 5 years, has faced annually a $1.2 million reduction in statutory revenue sharing; $2 million due to Proposal "A" and $1.4 million due to the Headlee Amendment; and with the potential elimination of the personal property tax would face an additional loss in revenue of $2.6 million per year.

WHEREAS, the City of Madison Heights, is facing the responsibility of funding $59.2 million in post-retirement health care expenses.

WHEREAS, the City of Madison Heights, has taken every measure possible to control costs while attempting to maintain essential services, such as a 28 percent reduction in the City's total workforce, closing of our Branch Library, privatizing services, changing medical plans, raising employee co-pays and reductions in City programs.

WHEREAS, the City of Madison Heights taxpayers have done their part in approving new and increased millages to help support and maintain vital City services.

THEREFORE BE IT RESOLVED, that the City of Madison Heights cannot sustain further cuts in essential services and that further funding cuts will result in a loss of quality of life for the citizens of our community and this state and an inability to retain and attract new business; and

BE IT FURTHER RESOLVED, that the Michigan Legislature must demonstrate bipartisan leadership by 1) identifying a full replacement for the SBT 2) protecting the revenue sharing commitment to cities and, 3) affirming its commitment to finding funding solutions to address the budget deficit in a manner that will move Michigan into a sound economic future and ensure a high quality of life for our residents.

AND FURTHER**,** that a copy of this resolution be sent to State Representative Marie Donigan, State Senator John Pappageorge, Governor Granholm and the Michigan Municipal League.

174. Southeast Oakland County Fire Consolidation Feasibility Study

Mayor Swanson welcomed everyone to the Special Council Meeting.

City Manager Austin presented a handout of the slides for the presentation of the Fire Consolidation Feasibility Study. He explained the purpose of the meeting is for the staff to provide the City Council with a summary of the study as well as the Madison Heights perspective. This overview will also explain the preliminary efforts to prepare a Madison Heights proposal to host a consolidated dispatch center and for Council to have the opportunity to review the study, the dispatch proposal and ask questions. He further explained that no decisions are required at this time.

The conclusion of Plante & Moran's Study was that the creation of a Regional Fire Authority was feasible and could result in both improved service and some reduced costs in the long run. The report's findings and recommendations are outlined in six sections including: Governance, Financing, Operations, Cost Model, Other Resource Sharing and Implementation Plan. Two principal legal options available under State statute to create these types of Authorities, the Urban Cooperation Act and Emergency Services Act, were reviewed. The Study recommends that the communities:

- establish an authority under the Emergency Services Act (Public Act 57 of 1988);
- create a governance structure, which includes five members, with the first four members appointed by each of the four principal communities and the fifth member, a citizen-at-large, selected by the other four members;
- establish that the authority members, who represent the individual communities, would serve at their Council's discretion;
- determine that the members would serve four year terms, and the terms would be staggered such that only half of the communities' representatives would be appointed at any given time;

- allow the four authority members 60 days after the start of each two year term to select a citizen-at-large who would serve for the balance of the two years; and,
- appoint an authority chair and a vice-chair every two years.

The second section of the study covers Financing. The majority of the current Fire Departments' operations for each of the four principal communities are funded through the municipalities' General Fund. In Ferndale and Hazel Park, the Fire Departments are supported only through general operating millage. In Royal Oak, in addition to the general operating millage, they also have a separate debt millage to support prior fire station construction projects and major vehicle purchases. Madison Heights is unique in that our Fire Department is supported through five separate millages including the General Operating Millage, the Police and Fire Pension Millage (we are the only community out of the four with a Public Act 345 millage), the Fire Stations Bond Millage, the Vehicle Replacement Millage, which also includes other departments, and the Advanced Life Support Millage.

The Study recommends that the communities use a two-phase funding approach. Under phase one, we have trial period for the first three to five years the communities would share in the Authority's total net cost based on their individual municipality's net costs, based on the latest audited fiscal year report prior to the formulation of the Authority. During the trial period, the Authority would lease assets (buildings and equipment) from each of the participating municipalities. Under phase two, the Authority would move to create a permanent funding mechanism, which could include any of the options or other method deemed appropriate by the municipalities. In the event that a permanent funding mechanism cannot be negotiated within the required timeframe, a default funding formula would become effective, based on the taxable property value of each of the communities and the run volume. Many other authorities simply use taxable value.

One key feature of the phase two funding is that the participating municipalities would transfer their fire department's assets including buildings, vehicles and related equipment at a transfer price.

In addition, individual participating communities would continue to be responsible for all liabilities incurred prior to the date of incorporation of the new authority and through the course of the phase one trial period. These liabilities would include employee pension obligations, retiree pension and medical benefit obligations, and any debt for equipment or facilities. This is a big issue because some communities have been setting aside money to fund these liabilities and some communities have not. The Authority would only be responsible for any debt obligations incurred following the effective date of the creation of the new Authority.

Plante Moran worked with the International Association of Firefighters; a geographic information system (GIS) model was used to review different station layout options. Currently, there are three stations in Royal Oak, two in Madison Heights, two in Ferndale and one in Hazel Park. As a result of the new consolidation, the most eastern fire station in Ferndale would be closed and serviced by other stations.

In terms of staffing, the study recommends a Union supported plan operations structure, with the staffing of 158.5 positions. This assumes that Royal Oak will add three additional positions as part of their FY 2007-08 Budget. It is our understanding that Royal Oak has not been able to add these positions, so the study recommendation drops to 155.5.

The positions would be distributed as follows:

Administration	
Fire Chief	1.0
Deputy Chief	1.0
Captain/Madison Heights Lieutenant (training)	1.0
Captain/Madison Heights Lieutenant (EMS)	1.0
Clerical	2.5
Fire Prevention	
Fire Marshal	1.0
Fire Inspectors	7.0
Platoon Response	
Battalion Chiefs	3.0
Captains/Madison Heights Lieutenants	7.0
Lieutenants/Madison Heights Sergeants	20.0
Firefighters	114.0
Total Positions	158.5

Each of these station response platoons would include 1 Battalion Chief, 9 Officers (Captains/Lieutenants) and 38 Firefighters (including at least 14 paramedics).

In addition, the communities would be able to reduce the amount of frontline equipment used in the departments. Active pumpers between the four departments would be reduced from nine to seven and ladders from five to two. The number of rescues would remain the same at seven. The net result is that each station would have one pumper and one rescue, and that the headquarters stations in Royal Oak and Madison Heights would house the two active ladders.

Some of the key results of the new operations model include the enhanced ability to deploy 14 firefighters minimum for a full alarm fire; the ability to achieve greater National Fire Protection Association compliance on staff deployment and response time; improved firefighter safety; an increase in advancement opportunities; an increase in the number of personnel dedicated to fire prevention; improved economy of scales for joint equipment purchases and training; the reduction of overtime hours due to the pooling of resources; and, cost savings associated with one fewer building and fewer pieces of apparatus.

The consultant has provided five-year cost projections for both the current staffing and the new proposed seven-station model. The result of these calculations estimate a net cost to be supported through millage of $20.7 million in year one, which is a 2.5%

savings compared to combined departmental current costs and ranging to $28.2 million in year five or a savings of 1.3%.

It is important when reviewing these results to note the assumptions that were used in the calculations. The consultant assumes in the first year the authority would spend no more than $515,000 or 2.3% of the budget to support administrative overhead charges (legislative, legal, personnel, finance, purchasing, insurance and other overhead costs). Second, the post retirement medical expenses are included only where budgeted by the individual communities. Third, the Authority will buy the assets from the communities with a 20-year note at a five percent interest rate, based on the book values. Finally, the cost of dispatch operations has not been included in the calculations.

As part of the communities' original plan, the consultant was asked to review less complex, but still beneficial forms of resource sharing. As noted in the Study, the communities wanted to explore a central dispatch concept in more detail than what was provided in the Plante & Moran report. With the help of Oakland County, a dispatch expert was brought in to assist the communities in developing a RFP for a consolidated fire and police dispatch service for these six communities. The RFP was issued in late March with proposal due on June 29th. We are recommending to Council that we put in a bid to handle the central dispatch at Madison Heights. Police Chief Sagan will discuss this in detail later.

The concept of automatic mutual aid was discussed as a good first step for the communities and a means to work more closely together in efforts to move toward a regional authority. It would provide opportunities for the departments to work together in advance of a full operational merger. The Fire Chiefs created a draft memorandum of understanding and an agreement, with consultation by the Unions. All communities, with the exception of Royal Oak, were willing to move to automatic mutual aid on a trial basis. This effort was placed on hold to allow the Royal Oak representatives to evaluate the full consultant's recommendations before committing to this program.

The concept of centralized apparatus maintenance was discussed within the context of sharing services. Under this model, the fire authority or the individual communities would contract with one of its members on a five-year basis to manage apparatus maintenance.

The community provider would be required to obtain a Motor Vehicle Repair Facility License and asked to move toward certified Emergency Vehicle Technicians to perform the work. Both Royal Oak and Madison Heights voiced an interest in providing apparatus maintenance. A panel of two fire chiefs reviewed both facilities and determined that either facility would be capable of handling the maintenance responsibilities for the Authority.

Finally, the communities are interested in the possibility of consolidating Fire Codes across the departments. Some key recommendations included adoption of the 2006 Edition of the International Fire Code, adoption of a No Burn Ordinance for the region,

instituting the Madison Heights' "Fireworks Sales" and "Lockbox on Building" Ordinances, revising all individual ordinances to specify the Authority, if created, to enforce the ordinances, standardization to all 5-inch fire connections and implementation of one consistent records management system.

As the City Council undertakes review of this Study and the upcoming efforts to increase resource sharing with the neighboring communities, the Fire Chief and City Manager felt it would be helpful to provide Council with our perspective on the work done to date. In terms of Governance, we support the recommendation to use Public Act 57 of 1988 Emergency Service Act, if an Authority is created. The proposed five-member governance structure appears to be both fair to all and a workable form of governance. A key advantage is that the fire service could have a dedicated source of funding through an Authority millage that would no longer be part of the City's overall tax levy.

Please note one of the key drawbacks under State statute in creating an Authority is that there is a requirement that the employees cannot be disadvantaged because of the creation of the Authority. This requirement results in an increase in compensation of all positions to the highest level of the individual communities creating additional costs for the Authority. Secondly, the Authority would be bound by the existing labor agreements for the reminder of the current terms and would have to work closely with the Unions to create a new agreement to meet the needs of very diverse Union groups. We have had very good positive constructive input from the Madison Heights Fire fighters Union. Finally, even though an individual member could withdraw from an Authority created under this Act, the community would continue to retain its financial obligation to the Authority.

Financing options the phase two funding independence formula, which would come at the end of the three to five year trial period, has not been resolved and has been left open to discussion, only with a default formula based on taxable value and run volume. In terms of the cost model, a transfer of the assets to the Authority has both advantages and disadvantages. The sale of the assets to the Authority would generate in excess of $7.3 million for the City, but the City would be selling these assets and ultimately making a commitment that would make it nearly impossible to re-establish our own fire service operation in the future.

Madison Heights faces the unique challenge due to the use of multiple millages for funding. A legal opinion was obtained from Miller Canfield, which indicated: the City has the option of levying the full millages, reducing millages or discontinuing millages as part of the move to the Authority during authorized millage periods, and the City may from year to year choose any of these options. Concerning the Fire Stations Bond, which was approved by the voters, the legal opinion indicated that the City has the authority to levy the debt millage sufficient to make the payments of the bonds. Regardless of the future form of fire service in the City, the debt service payments on the bonds must be paid. One thing to consider is that we could use the asset transfer payment to eliminate the bond debt and have money left over.

From an operations standpoint, the Study's proposal would provide the region with substantial enhancements in service delivery by increasing the availability of both rescue vehicles and manpower for fire suppression while reducing some duplication of apparatus. Ultimately, fire prevention inspection, training and fire response services are greatly enhanced. In addition, based on the operations model, the minimum staffing of the Madison Heights Station #1 would increase from minimum staffing of 5 to 7 positions and Station #2 would increase from minimum staffing of 4 to 5 positions.

The consultant's report has provided a basis for looking ahead at expenditures and revenues as part of a new joint Authority. Our caution is that these calculations do not reflect all the costs associated to support a fire operation, in particular, the dispatch center's costs are not reflected. Secondly, as a result of the Union's staffing model, statutory compensation requirements and the resistance to further reduce the number of stations, the projected financial savings as a result of moving to the Authority are not significant.

The Study does indicate the potential to add surrounding communities to the Authority to further improve the economies of scale. The City Manager does not agree with this assessment given our neighboring communities appear not to be good candidates for joining the new Authority. The best candidate is probably Birmingham, who has started consolidation conversations with Bloomfield Township. The City Manager recommends that the City make sure any decisions going forward are based on the currently interested communities because there is no guarantee that there will ever be any additional communities join.

The four areas of possible resource sharing were proposals that have been brought forward by Madison Heights to the committee. The staff supports efforts to move forward in these areas and each represents an opportunity to save costs and further strengthen our collaborations with these other communities and help to better assess the feasibility of the creation of a full Authority.

In regard to the consolidated dispatch, the Police Chief has prepared a preliminary report regarding a Madison Heights' proposal to host a consolidated dispatch center. In reviewing the consultant's Study, please keep in mind that the Oakland County Sheriff's pricing on dispatch is for fire calls only. In addition, the Police Chief has suggested that under a full Authority, the Dispatch Supervisor function might be combined with one of the proposed Fire Authority positions.

The consultant's implementation plan starts with the development of the temporary agreement. It is staff's recommendation that Council take some time to both review the analysis and consider the options, and carefully weigh this decision before proceeding. Over the next three to six months, each of the respective City Councils should have had an opportunity to prepare for such a decision, so that the process could commence by the end of 2007.

Fire Chief Donahue added that he is a proponent of regionalization that in this day and age this makes the most sense. He gave examples of how an Authority would benefit citizens through better operations and faster response based on who is closest instead of which city you live in. Long term, possibility 20 years down the road you will have the options to save even more money, as new fire stations are built.

Councilman McGillivray clarified that the Fire Chief would report to the Authority Board.

Councilman Corbett expressed concern that the consolidation is based on 158.5 and it appears that the study just added what each currently community together for a total. The 158.5 included Royal Oak adding 3 additional personnel. Without much savings in personnel cost this appears to be a long walk for not much.

Fire Chief Donahue explained that the cost are high due to current labor agreements and the "no one will be harmed" state statue provision. The Authority will have to negotiate a new labor agreement for the authority. At some point when that happens the cost are not known. The 158.5 does not need to remain constant.

Mayor Pro Tem Shad expressed her support however; she feels this will be a hard sell to the Unions, resident and taxpayers to get the millage passed in all cities. If the authority were to start, would it be in stages? City Manager Austin explained that it is planned in different stages over the next 3 to 5 years. It will take at least one year to set it up. There may be less complicated service sharing options that would be easier to complete first such as dispatch, prisoner lock-up and/or Court.

Gary McGillvery asked if there was any consideration for reduction of workforce. He agrees that regionalization is what has to be done to improve service and reduce cost. Both he and Councilman Corbett expressed concern over not knowing what the state holds for Madison Heights and the need to have cost containment.

Christine Andrysiak from Plante Moran stated that the plan is a long-term cost containment strategy and service preservation plan. The Authority board could reduce staffing. This staff reduction would not be possible right from the get go. She also explained that the General Fund millage in each community could be reduced by the amount of Fire service if the Authority millage was approved.

Councilman Corbett asked if the residents would still be paying Madison Heights the Public Act 345 Police and Fire Pension millage. City Manager Austin indicated it would continue at a reduced rate and eventually eliminated.

I75 Consolidated Dispatch Proposal

Police Chief Sagan discussed the request for proposal for the consolidated dispatch for the Fire Authority Study. Consolidated Dispatch has been discussed starting in 2000 and through an Oakland County funded 2003 Study from Plante & Moran that involved 17

communities including the 4-Cities of Madison Heights, Ferndale, Hazel Park and Royal Oak.

In 2003, the study was not well received because it did not address the issue of prisoners in local jails who are often monitored by Dispatchers. Like Madison Heights, many local police departments use Dispatchers to monitor, feed, attend to and sometimes search prisoners. If you remove Dispatchers from each station, other personnel or police officers will have to monitor prisoners while in custody.

The staff has revisited consolidated dispatch because of this Fire Regionalization Study for the following reasons:

- Enhanced service and continuity of dispatch for regionalized operations
- Costs for Personnel, Training, Equipment Updates and continued maintenance
- New training mandates, NIMS, EMD, EFD, ICS and quality assurance programs

To determine a staffing number for the Consolidated Dispatch for the 4-City PSAP, two strategies were viewed. First chief took the 17-City 2003 Study and pulled the 4-City numbers out which resulted in about 19% of calls and dispatches. Using 19% of the 2003 Study numbers of 129 (FTEs) gave us a 24.5 FTE for the 4-City proposal. Second, we compared numbers with our neighbors. Staff compared the 4-cities (Ferndale, Madison Heights, Hazel Park and Royal Oak) combined call volume, population and area in square mile to other cities in the area of an equalavant size. The 2006 calls volume for the four communities was 119,667, as compared to Warren with 90,900. Sterling Heights 60,274 and Troy 49,313. The Population and square miles for the four cities is also comparable with Warren, Sterling Heights and Troy.

Chief is considering a proposal with 27 FTE Dispatch Personnel, which includes a Dispatch Supervisor. Warren currently has 23 FTE, Sterling Heights has 23 FTE and Troy has 21.

The Madison Heights formulation is underway to submit a proposal. The preliminary report has been submitted to the City Manager and was passed along to Council. The Proposal model calls for 27 FTE including 1 Dispatch Director, 4 shift leaders and 22 dispathcers/call takers. These employees would work 12 hour shifts with 6 work stations and be divided between call takers, police dispatchers, fire dispatchers and dispatcher/LEIN operators.

Oakland County contract employee Pat Coates helped develop a Request for Proposal (RFP) to assist the 4-City effort in examining the Public Safety Answering Points (PSAP) Consolidation. She understands what the command center looks like. The Madison Heights Police Department and Oakland County Sherriff Department are expected to response to the RFP for PSAP Consolidation. There is no interest in Hazel Park, Royal Oak and Ferndale. Oakland County cannot address prisoner lock up.

Chief expressed his belief that Madison Heights could host the dispatch center. The biggest hurtles are programming shift in personnel and deciding who is going to take over prisoner watch in the other communities. Maybe someday Madison Heights should house all the prisoners here but it may be difficult convincing the other communities that there is a benefit in having a professional dispatch operating from one location with implementation happening in stages.

Mayor Pro Tem Shad asked if there was Home Land Security Money available for consolidation. Both Chief's responded yes but only if you were in the process or already consolidated.

Police chief Sagan explained that prisoners are housed until they are arranged. If the arrest happens on a Friday, they could sit in the Madison Heights Police Department cell all weekend. If we could offer prisoner lock up for the other communities, the City has the ability to have video arrangement all over the County

200. S.A.D. 275 – 2007 Sidewalk Program, Resolution 5

A public hearing was held to hear comments, if any, to confirm Special Assessment District Roll 275, a special assessment roll to defray the private property's portion of the cost to repair or construct concrete sidewalks in the right of way of the public streets in the area bounded by Twelve Mile Road, Eleven Mile Road, I-75 and John R and at several individual parcels in the City of Madison Heights. The following persons spoke about the project:

Robert Sell, 28028 Diesing stated he was in Florida and did not have enough time to have the work done himself. Community Development Director Schafer stated that, as the sidewalks are being installed, any new work done by the homeowner will be deducted from the assessment.

Craig Humphries, 1031 W. 12 Mile Road, stated that his business, J&H Hydraulics, is in the project area and he is concerned that his business will have to close if customers and delivery trucks cannot get into his driveway. Community Development Director Schafer stated that half the driveways are paved at a time to accommodate businesses.

Doina Balcalean, 808 W. Parker complained about the cost of paving the road and that her sidewalks do not need repair. Community Development Director Schafer stated that her address is in the Parker District road repair project begun earlier this year and is not part of the SAD 275 repair program. He informed her that she is not paying separately for the sidewalks, that they are already included in the cost of the road program.

There being no further comments from the audience, the public hearing was closed.

202. Special Approval – Outside seating at 29028 Campbell DENIED

A public hearing was held to hear comments, if any, to permit the use of outdoor seating at the DB Coopers restaurant at 29028 Campbell. The following persons spoke against the proposed use because of the potential for increased noise to the Madison Heights residential neighbors and complaints by Royal Oak residents about drunk drivers:

Lynette Sudo, 29058 Spoon
Daniel Most, 29015 Spoon
Mike Van Hyfte, 29045 Spoon
Barbara Repke, 29025 Spoon
Louise Vickey, 1823 Parkdale
Judy Pate, 1910 N. Wilson, Royal Oak
John Burr, 1917 N. Vermont, – Suggested 10:00 p.m. curfew
Royal Oak

Speaking in favor of the outside seating:

Ted Petri, 1600 N. Connecticut, Royal Oak -
Approved of the variance. He is a patron and stated owners run a clean and safe business and deal with problems as they come up.

Michael Elias and Alexi Georges, owners of the bar, were present. Mr. Elias stated that he objects to the accusation that all drunk driving in the neighborhood is from patrons of DB Coopers and that they will have security monitoring the outside seating. Mr. Georges stated that they have been owners for two years and he has not received one complaint from the neighbors about anything until this meeting, and he is willing to meet with them to correct the problems.

There being no further comments from the audience, the public hearing was closed**.**

Motion by Councilman Clark,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from Alexi Georges, of DB Coopers Restaurant requesting to use the property at 29028 Campbell to add outdoor seating for 16 at 4 tables; said property is zoned B-2, Planned Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on May 25, 2007 and 828 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: 29028 Campbell Road

REQUEST: Special Approval for a restaurant under Section 10.322(2) of the Zoning Ordinance.

EXISTING ZONING: B-2, Planned Business

EXISTING USE: Existing DB Coopers restaurant proposes to add outdoor seating for 16.

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-2 District. This facility pre-dates the special approval requirement. The applicant seeks to provide outdoor seating for 16 patrons at 4 tables. The application for special approval is for the outdoor seating area only.

2. The facility is within 1500 feet of several other restaurants and, accordingly, would require a 1500 feet separation waiver from the Zoning board of Appeals. However, the Planning Commission has recommended elimination of this requirement and City Council is scheduled to conduct the second reading and public hearing on this Zoning Text Amendment at their June 11, 2007 meeting. Accordingly, should City Council approve the proposed amendment, this requirement would be a moot point. If Council does not approve the amendment, then the applicant would need to seek said ZBA waiver.

3. Minimum parking requirements are exceeded.

4. Proposed Hours of Operation: SUN 12:00 pm – 10:00 pm; MON-SAT 11:00 am – 2:00 am.

5. The Site Plan Review Committee has reviewed the site plan and has no additional site plan comments to address.

6. Should City Council grant special approval, the following condition is recommended:

    a. Zoning Board of Appeals approval of a 1500 feet separation waiver (Only if requirement is not eliminated by Council action of Zoning Ordinance text amendment on June 11, 2007).

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.322(2) of the Code of Ordinances, hereby denies the request for outdoor seating at 29028 Campbell.

203. Substitute Motion

Motion by Councilwoman Shad, to postpone the decision on the Special Approval request to allow outdoor seating at 29028 Campbell so that an agreement can be worked out between the business and the neighbors.

204. Special Approval – Pizza Buffet Restaurant at 32399 John R

A public hearing was held to hear comments, if any, to permit the use of a sit-down pizza buffet restaurant (CICI's) at 32399 John R. There being no comments from the audience, the public hearing was closed**.**

Motion by Councilwoman Russell,
Supported by Councilman Corbett,

WHEREAS, a Special Approval Board application has been received from Tracy Tucker representing CICI's Pizza, requesting to use a portion of former Mervyn's building for the operation of a pizza, salad, dessert buffet restaurant at 32399 John R; said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on May 25, 2007 and 671 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: 32399 John R

REQUEST: Special Approval for a restaurant under Section 10.326(10) of the Zoning Ordinance.

EXISTING ZONING: B-3, General Business

EXISTING USE: Vacant – Portion of former Mervyn's building

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-3 District. The applicant proposes to reuse a portion of the former Mervyns building for a restaurant with seating (5,115 square feet). Note: The plans also note several other proposed tenants for the Mervyns building. These are not the subject of this application and do not require any City Council action at this time.

2. The facility is within 1500 feet of several other restaurants and, accordingly, would require a 1500 foot separation waiver from the Zoning board of Appeals. However, the Planning Commission has recommended elimination of this requirement and City Council is scheduled to conduct the second reading and public hearing on this Zoning Text Amendment at their June 11, 2007 meeting. Accordingly, should City Council approve the proposed amendment, this requirement would be a moot point. If Council does not approve the amendment, then the applicant would need to seek said ZBA waiver.

She presented pictures to show the differences and stated that it devalues her property to have two different designs of walls at two different heights. City Attorney L. Sherman stated that unfortunately the City does not have any authority to compel commercial property owners to match their masonry walls. Councilman Corbett requested that the City contact the building owners to try and find a solution. Councilman McGillivray requested the City Attorney and staff to research a proposed ordinance to require businesses to erect matching fences along residential properties.

Ken and Lynn Tinkham, 734 Pine Ridge – Their young son has been approached by strangers walking through the neighborhoods.

Dianne Demata, 31185 Cedar Ridge – They spent $8,000 to erect a fence and locked gate for privacy, but recently had a police officer chasing a shoplifter through and open gate into their back yard. She is fearful for her young child who could have been in the yard and is requesting that the access walkway be blocked and the wall between the subdivision and Meijer's be extended to 13 Mile Road.

Larry Benton, 31088 Cedar Ridge – stated that the rear of his property faces 13 Mile and that the elevated berms do not keep people from walking over them to cut through the subdivision.

City Manager Austin stated that he, Police Chief Sagan, Deputy City Manager Myers, Deputy Community Development Director Williams and City Attorney L. Sherman met with Meijers last week and that Meijer's will be submitting recommendations to the City within 30 days. City Attorney Sherman stated that the City must work within the requirements of the Consent Judgment, which currently requires the access sidewalk to the Meijer's shopping center.

294. Senior Meal Program

City Manager Austin stated that the reason for this special meeting is because on September 7th, the Area Agency on Aging 1-B ("Area Agency") gave notice that their current program provider, Community Services Outreach Corporation (also known as Southeast Oakland Meals on Wheels /Paragon Management, Inc.), will discontinue providing senior citizen meals beginning Monday, October 1, 2007. The Area Agency will now go through a re-bidding process which will take approximately two to three months. Council is requested to review the two interim proposals submitted by Area Agency on Aging and from Oakland County Mobile Meals, Inc.

Deputy City Manager Myers stated that the two plans differ mainly in the number of meals provided, the method of delivery and the cost of each meal. The Area Agency has an extended contract with UPS to deliver ten (10) frozen homebound meals twice a month and has a caterer to serve one to two congregate meals per week during this interim period. They encourage cities to take over the costs to cover the remaining weekdays. The City does not have funding to support these extra meals. The Proposal

from Oakland County Mobile Meals, Inc. is to provide congregate meals at the Senior Center, as well as to the homebound, five (5) days per week during the interim basis, requesting the seniors to pay the cost of $3.00 for a meal of decent quality, prepared from scratch at the Senior Center. At a Special Meeting the Senior Citizen Advisory Board voted unanimously to recommend that City Council approve the Proposal from Oakland County Mobile Meals, Inc. to provide meals at the Senior Center, as well as to the homebound, five (5) days per week on an interim basis. There was also a consensus that seniors would be willing to pay the increased cost of $3.00 for a meal of decent quality.

Tina Abbate Marzolf, Chief Executive Officer for the Area Agency on Aging 1-B was present and stated that they propose to re-bid the Senior Dining Program and that they have submitted an interim plan during the transition, which will begin on Monday, October 1, 2007 until a new provider takes over sometime between Monday, December 3, 2007 and Tuesday, January 2, 2008. Currently meals are delivered to an average of 400 older homebound seniors in Southeast Oakland County, Monday to Friday by community volunteers, and congregate meals are served to an average of 150 seniors at area senior centers and one local senior congregate living site. During the interim period, 10 frozen dinners will be delivered twice a month to homebound seniors and the congregate meals will be scaled back to no more than twice a week. The reduction is necessary to save money toward start-up costs of the new program.

Councilwoman Russell and Mayor Pro Tem Shad stated that they have received complaints about the poor quality of food and the delivery of the meals since Paragon Foods took over the program last year.

Dean Eggart, former City Councilman and President of the Kiwanis Club, speaking for Ben Moore, President and Chairman of the Board for Oakland County Mobile Meals stated that OCMM provided meals to residents for 36 years until they lost their bid last year. He stated that a survey taken of Madison Heights seniors by Deputy City Manager Myers revealed that seniors felt that the meals from Paragon were not of good quality and were often delivered late. Further, part of the OCMM's program is personal contact for the safety of homebound seniors. They are willing and able to take over the program again.

Patricia Davis, Director of the OCMM program, stated she has received numerous calls over the last year from Madison Heights seniors and the volunteers delivering meals about the quality of the food. She stated that a budget has been prepared and reviewed by the OCMM Board. Funds will come from fundraisers, donations and private pay, with an assistance plan for those who cannot afford the $3.00 donation per

meal. She stated that although they only have 1½ weeks until the deadline, they already have volunteers and drivers ready to go, should they get Council's approval. Their pledge is to have quality, scratch made meals delivered hot and on time.

Councilman McGillivray asked for clarification on the $3.00 per meal charge. Ms. Davis stated that meal fees are critical to continue the program but that seniors will be asked for a 'suggested' donation of $3.00 She presented a draft of a letter to Council that will be sent out to Madison Heights seniors by OCMM.

Comments and Recommendation

Following is a comparison of the major terms the Service Continuation Plan offered by the Area Agency and the OCMM Interim Proposal:

Provision	**Area Agency on Aging 1-B Continuation Plan**	**Oakland County Mobile Meals Interim Proposal**
Food Preparation	Off-Site Pre-Packaged	On-Site "Scratch" Cooking
Congregate Meals Per Week	1 – 2	5
Site Hostess Provided	No	Yes
"Call Ahead" System	Yes	Yes, but no one refused
Cost of Meals to Participants	Suggested Donation of $2.25/meal	In the area of $3.00/meal private pay, but assistance provided to needy
Homebound Delivery – Frequency	2 times a month (10 meals per delivery)	Daily, with optional additional cold lunch
Homebound Delivery – Mechanism	UPS through special contract	Volunteers
Homebound Delivery – Deadline Time	None	1:00 pm
Homebound – Other	Microwave Ovens and Personal Emergency Response Service Monitoring Equipment offered at discounted prices	No Microwave Ovens required

Staff recommends, in view of the fact that our seniors will stop receiving meals in two weeks, that Council waive the formal bidding requirements

and approve the Oakland County Mobile Meals, Inc. Proposal and authorize the Mayor and City Clerk to sign a Site Agreement approved by the City Attorney's Office.

Motion by Councilwoman Russell, supported by Mayor Pro Tem Shad, that, pursuant to City Charter Sections 12.1 (a) (professional service) and (b) (emergency), Council waive the formal bidding requirements and (1) approve the Proposal submitted by Oakland County Mobile Meals, Inc. for Interim Senior Citizen Congregate and Homebound Meal Services and (2) authorize the Mayor and City Clerk to sign a Site Agreement (incorporating the terms of the proposal) to be prepared by staff, and approved by the City Attorney's Office.

Alice McKeage, 612 W. Girard – (In Favor) The road is in bad shape and will cost more money if done later.

Mitchell Namie, 627 W. Girard – (In Favor) Wants a new road and to get rid of the ditches.

Ernest and Sharon Farin, 635 W. Girard – (Against sidewalks) Mr. Farin presented a petition of 25 property owners on W. Girard from Northeastern to I-75 who do not want the sidewalk portion of the project because it's an unnecessary expense for a deadend street with very little traffic and would detract from the country setting. Mrs. Sharon Farin stated that a good quality asphalt would be good enough.

Terry Ledbetter, 790 W. Girard – (In Favor) Has lived there 20 years. The street is in bad shape and is a safety hazard to children walking and biking on it for lack of sidewalks.

Dino Pezzato, 700 W. Girard - (In Favor) Has an autistic child and wants a concrete street with sidewalks for the safety of his and neighborhood children.

Judith Goode, 30180 Northeastern – (Against) Stated that the street is in bad shape because it has not been resurfaced for 10 years and wants a resurfacing with asphalt.

City Attorney Sherman explained that the Council will continue the public hearing on November 26, 2007 (Resolution 3) and set the second public hearing for December 17, 2007 (Resolution 4).

Motion by Councilmember Corbett, supported by Councilmember Scott, to adopt the revised Resolution 2 and continue the public hearing for November 26, 2007.

Mayor Swanson opened the public hearing to hear comments, if any, to permit the use of a Jimmy Johns Gourmet Sandwich Shop restaurant,

zoned B-1, Local Business, at 1535 E. 12 Mile Road. The Site Plan Review Committee reviewed the site plan and had three comments that were not addressed by the applicant on revised site plans:

a. Recommend facing the proposed drive-through speaker and menu board to the west to reduce noise impact on adjacent residential area to the north.

b. Rear door elevation and floor plan as drawn conflict with the proposed menu board location.

c. Recommend placing a curbed concrete island around the menu and speaker board in lieu of the pipe bollards proposed

Cliff Linney, representing Jimmy Johns restaurant was present and stated that he has no objection to complying with 'b.' and 'c.' Concerning 'a', he stated that he would lose one parking space due to the alley and lose the car stacking lane. Because it is more than 44 feet to the back 6-foot wall, the speaker decibel level at the wall would be 62 decibels, which is the same as a normal speaking level. He stated that he has research that he can give to Council. City Manager Austin suggested that he contact Community Development Director Schafer to present any additional information he has to the Site Plan Review Committee.

Motion by Councilmember Hartwell, supported by Councilmember Scott, to continue the public hearing to permit a Jimmy Johns Restaurant at 1535 E. 12 Mile Road to the next Council Meeting to be held on November 26, 2007.

377. FY 2008-2009 Goal Plan

City Manager Austin opened the meeting and, with the assistance of Director of Administrative Services Marsh and City Assessor McLachlan, presented the City's financial status and the challenges facing the City by reviewing the financial team's future funding presentation focusing on issue analysis, financial trends, financial forecast and some possible strategies to meet these challenges.

City Assessor McLachlan reported that despite the steady economic growth nationally, Michigan has not yet pulled out of the recession that began in 2000. Michigan's economy continues to decline, particularly as measured in terms of jobs lost. Since the start of the recession, Michigan has a net loss of over 210,000 jobs in all sectors, in particular the

manufacturing sector, which has experienced a loss of over 269,000 jobs. With the loss of jobs in the area, foreclosure rates have increased across the state as more and more homes are placed for sale, creating a downward pressure on overall real estate values, undermining significant growth in property tax revenues for the foreseeable future. It is projected that property tax revenue on existing properties for the City will increase less than 1% for 2008**.** These revenue projections may limit funding to support City expenditures for the next several years as individual expenditure items may increase due to inflation.

City Manager Austin stated that in Madison Heights, property taxes currently make up 71% of the City's General Fund revenues with the second largest revenue source being the State Shared Revenues currently at 10%. The $1.2 million reduction in State shared revenues over the last seven years has resulted in support from this funding dropping from 16% in FY 2001-02 to 10% today.

Director of Administrative Services Melissa Marsh discussed personnel related costs, stating that the work-force full-time positions have been reduced by 13 percent since 2004, which is in addition to previous reductions of 12 percent from 1994 to 2004. Medical costs for active employee and retiree hospitalization, dental and optical premiums more than doubled between 1999 and 2005. This costly trend was temporarily reversed with a reduction in workforce and the change in medical provider to MERS Premier Health. The City's full-time workforce has two pension groups, the Police and Fire sworn employees who are members of the Police and Fire Pension Fund established pursuant to Michigan Public Act 345, with the remainder of the full-time employee workforce covered by MERS. The city's contribution rate has increased each year despite the continued reduction of the workforce. This annual increase is attributable to the higher ratio of retired employees receiving benefits to active employees and the longevity of the retirees.

City Manager Austin led a discussion of the Goal Proposals for 2008-2009. The following Goal Proposals were discussed, as ranked by Council:

NEW PROPOSALS – OVER $20,000

Group I

C. Fire Dispatch Alerting System

A. Emergency 911 Telephone System

B. Patrol Car Video System

Discussion

(C) Councilman McGillivray asked if monies from the ALS fund could be used for the Fire Dispatch Alerting System. City Manager Austin stated that ALS funds are part of the General Fund and it would be better to use the remaining savings from the Fire Station's Bond project.

(A) Police Chief Sagan stated that Oakland County CLEMIS has begun research into the replacement costs for E-911 equipment that each City will have to pay to replace the existing Positron E-911 phone systems. City Manager Austin recommended waiting for the Fire Regionalization Committee makes a recommendation regarding consolidated dispatch service. Council had no objections to remove the goal to another time.

(B) Police Chief Sagan stated that the mechanical functionality is declining because the video system are used 24 hours a day, every day. Councilman McGillivray suggested a computer based system in each car as opposed to the DVD. MIS Director Fiscus stated that there is no backup for a computer based system, that a DVD can be removed from the car to make a backup file. Councilman Hartwell stated that it is vitally important to have these type of recordings to support prosecutions.

City Manager Austin stated that this proposal could have been redrafted to be a Budget Measure given transferring ownership of alleys would save the City in current costs..

NEW PROPOSALS – UNDER $20,000

Group I

a. Outdoor Warning Siren Replacement

c. Increased Physical Security Measures

Discussion

(a) Fire Chief Scheid stated that the system is antiquated and needs to be replaced. City Manager Austin stated that Madison Heights owns the siren on the roof of the SOCRRA building and it should be located on City property to maintain access and control.

(c) MIS Director Fiscus stated that there is $200,000 worth of computer equipment in the basement behind two doors with glass windows and recommended steel doors for safety due to the numerous people in the basement who come in for classes and club meetings. Staff also recommended that the City explore locks and buzzers on the swinging doors in City Hall departments and bullet proof glass in outer windows for the Police and Court.

The fee charged would be used for an attendant and cleanup. Councilman Clark stated that Meals on Wheels has agreed to pay for half of the kitchen equipment so there would have to be restrictions on kitchen use. Councilman Corbett requested a copy of the latest report done by Deputy City Manager Myers on renting the Senior Center. City Manager Austin stated that if a majority of Council want to pursue rental of the Senior Center, after reviewing the information, a report on the feasibility would be prepared.

(QQQ) Deputy City Manager Myers stated that there has been a problem with banners falling down and causing damage, and that he has concerns about the costs in personnel time.

(SSS) Mayor Pro Tem Scott proposed that the City create a new brochure to put in the City Hall Information area, on the website and in the newsletter as to how water and sewer rates are calculated.

(RRR) Deputy City Manager Myers stated that the cost to install reflective vertical traffic strips is $20 per sign, which for 786 stop signs and 40 yield signs City-wide, equates to a total of $16,520 for all signs, not including labor. Council discussed a 5-year goal plan, possibly targeting starting school and park areas first, and in conjunction with normal maintenance. Councilman McGillivray suggested asking residents or neighborhood associations to pay for the signs to be upgraded

NEW PROPOSALS – BUDGET MEASURES

Group I

AA. Ambulance Transportation Rate Increase

KK. Employee Suggestion Cost-Savings Program

MM. Establish an Endowment Fund

Discussion:

(JJ) City Manager Austin stated that this would be a community walk/run event and showed a possible "Healthy Heights" route for 5K and 10K run/walks for an April 19, 2008 event. Councilman Corbett suggested that Staff explore moving the date to April 20, 2008 to coordinate with the Chamber of Commerce's Community Open House event.

(CC) Councilman McGillivray asked if there would be a cost savings to using a hybrid vehicle since all the driving is City driving. Deputy City Manager Myers stated that they have identified some vehicle usage that would be cost effective.

(EE) Councilman McGillivray stated he would support the Lions Club Park to continue based on acceptable terms. City Manager Austin stated that the Lions Club agreement was for 10 years @ $2,000 per year, and expired in 2005. The Lions Club have offered a new agreement for 5 years at $1,000 per year. Council discussed offering the park to the Rotary Club and Community Roundtable who could get member organizations to split a proposed $5,000 per year naming rights fee.

(FF,GG,HH,II) Mayor Pro Tem Scott stated that all four Library projects should be implemented.

ONGOING PROPOSALS

Group I

dd. Union Contract Negotiations

aa. Joint Senior Citizens Center/SOCRRA Access Drive

bb. Detroit Water and Sewerage Department Model Water Service Contract

ee. C & I Road Policy Amendment

Group II

cc. Environmental Protection Agency Water Testing

Discussion

(dd) Councilman Hartwell requested copies of the history of the ongoing proposals. City Manager Austin stated that all the information will be supplied for Council's closed sessions before Union Contract Negotiations and that all the Labor Contracts can be found on the public website.

(aa) Deputy City Manager Myers provided an update on the status of the joint Senior Center/SOCRRA Access Drive. The easement agreements have been stalled by a traffic study engaged by SOCRRA that should be done in three weeks, by easement agreements for watermains , and the issue of maintenance of the fence.

(bb) Deputy City Manager Myers stated that the DWSD's model contract, which is proposed to be used by all the cities, is approximately 90% complete. He stated that the City has some issues with water pressure and would like to have more voice in how rates are set. He added that it is a difficult process because each community has there own issues separate from the whole. City Manager Austin pinted out that the Madison Heighs DWSD Water Contract runs to 2026 and it would be better to let other communities lead the process.

(ee) City Manager Austin stated that the City is unable to fund reconstruction of the commercial and industrial streets. CDBG and grant monies have been funding the current major road projects. He suggested a overlay road program that would last approximately 10 years instead of the complete reconstruction which would last 20-30 years. Community Development Director Schafer indicated that the program would be less costly and it doesn't take as long to complete, which is important to business owners who need the roads for deliveries.

378. Miscellaneous Discussion

City Manager Austin stated that the top twelve items will be drafted for Council's consideration at a future Council meeting. Mayor Pro Tem Scott requested that a list of the Goals be on display in the City Hall lobby.

City Manager Austin stated that the Site Plan Review Committee has reviewed the revised site plans submitted by the applicant following the November 13, 2007 Council Meeting. All comments have been addressed on revised site plans and the Committee has no additional comments to address.

The previous restaurant uses on the site pre-dated current requirements and were never granted special approval. When the Bagel Time facility closed, it remained vacant for more than 6 months and thus lost its nonconforming status, triggering the need for special approval.

2. Minimum parking requirements are met.

3. Proposed Hours of Operation: 11:00 am – 10:00 pm.

4. The Site Plan Review Committee has reviewed revised site plans submitted by the applicant following the November 13, 2007 Council meeting. All comments have been addressed on revised site plans and the Committee has no additional comments to address.

5. This case was initially scheduled for November 13, 2007. Due to a notification error, the public hearing was opened on November 13, 2007 and then adjourned to November 26, 2007.

1. Special Approval for this facility is required to accommodate office as the primary use of a portion of an industrial building in the M-1 District. The applicant leased a portion of the existing facility to a tenant for administrative bookkeeping/ tax offices. Councilman Corbett acknowledged the Department of Public Services for their hard work putting up the lights for the Tree Lighting Ceremony, and the John Page Choir who performed Christmas Carols. He announced that the Rotary Club's 'Spaghetti with Santa' dinner will be held on November 29th at the Club Venetian. He stated that he will include absent voter applications to seniors on his annual holiday greetings mailing because a recent Michigan Supreme Court ruling prohibits Michigan City Clerks' Offices from mailing out unsolicited applications to persons over 60 years of age.

Councilman Hartwell thanked the students and adults who attended the Youth Dialog Day and invited citizens to join the Kiwanis Club on December 6th at 7:00 p.m. for caroling at the Cambridge Nursing Home.

Assistant City Attorney Grochowski wished everyone a Happy Holiday Season and thanked the City Staff for their collaborative efforts to amend the Amusement Device and Arcade Ordinance 1053.

City Manager Austin commended all those who participated in the annual Tree Lighting ceremony and thanked Council for their leadership in compiling the 2008-09 Goals.

Councilman Clark announced the Chamber of Commerce Holiday Party will be held at the Stephenson Haus in Hazel Park on December 6th. Grants in the amount of $500 each will be presented to Madison, Lamphere, Bishop Foley and Hazel Park Schools.

Councilwoman Scott extended condolences to Library Director Yerman on the passing of her father, whose funeral will be held at Kaufman Funeral Home on Tuesday, November 27th. She thanked all who brought canned goods to the Library during the Gleaners Food Bank drive. She commended the Madison Heights Housing Commission for receiving a 100 score on the Section 8 Management Assessment Program. This is the highest designation a Housing Commission can receive. She read an excerpt from the Oakland Press concerning the recent ruling that unsolicited absent voter applications cannot be mailed to persons over 60 years of age beginning with the January 15, 2008 election. She stated that this could possibly disenfranchise seniors who are accustomed to receiving applications and ballots in the mail. She requested a communication be sent to State Senator Pappageorge urging passage of HB 4553 that would allow City Clerks to mail applications to persons on a permanent absent voter list and to everyone over 60 years of age, and

requested that Senator Pappageorge's contact information be put on the City's website.

Mayor Swanson read a letter complimenting the City for including a manger scene among the Holiday decorations. He commended the Department of Public Services for the Holiday decorations in the City, and again commended Director of Administrative Services Marsh and City Manager Austin for receiving the GFOA award. He also noted that a City Project Director for the Memorial Day Parade is needed and asked for volunteers.

402. Public Comments/Requests

Mayor Swanson asked if there were any further comments from the audience. Mr. Ernie Farin, 635 W. Girard asked if his petition submitted at the November 13th Council meeting to remove the sidewalk portion of the SAD 276 project for Girard street has been considered. City Manager Austin stated that the petition had been considered and Council adopted Resolution 3, regarding the necessity of the project with all sidewalks included, and that the installation of sidewalks have been part of the City plan since 1999 to improve the safety of pedestrians. He stated he is willing to meet with Mr. Farin or any other interested parties at any time, and noted that the residents will be invited to a meeting in the spring to review and discuss the site construction plans. Mitchell Szpanelewski, 1640 Nottingham, asked if DTE could pass on cost recovery charges (Ordinance 1054) to residents. City Manager Austin stated that DTE rates are regulated by the State of Michigan's Public Service Commission and they would not be allowed to pass on the individual charges to Madison Heights residents.

408. SAD 276–Paving Girard, Barrington & Northeastern, Resolution 5

A public hearing was held to hear comments, if any, to confirm Special Assessment District Roll 276, a special assessment roll to defray the private property's portion of the cost to remove the existing road surface and ditches and construct concrete pavement, storm sewers, curbs, gutters, approaches and new, or where necessary, replaced sidewalks and landscape restoration and miscellaneous related improvements on Girard west of Northeastern, Northeastern from Barrington to Girard, and Barrington south of Woodside. The following persons spoke concerning the project:

Alice McKeage, 612 W. Girard – Asked if the amount of the assessment could change. City Manager Austin stated that the City's past practice is to not charge residents if the engineer's estimates are exceeded.

Terry Ledbetter, 790 Girard – Requested that the City's access street between Ajax and Girard be left unlocked for the duration of the construction for use by the residents. City Manager Austin stated that the matter would be taken under consideration and discussed at the spring meeting with the residents, if approved, which will be held prior to the project start-up. Deputy City Manager Myers stated that he has concerns considering theft of City property if the access road is left open.

Billie Walter, 30124 Northeastern, stated that new sidewalks on here street were put in 3 or 4 years ago and would the residents be charged for sidewalks again. City Manager Austin stated that, where sidewalks need to be replaced, the cost is part of the project and there is not additional assessment.

Glen Maynard, 650 W. Girard – Asked why the street needs to be concrete instead of asphalt. He stated he would like to keep the rural country setting on the dead-end street by having the sidewalks set closer to the street. City Manager Austin stated that when a street is first constructed there is not much difference in the basic road costs between asphalt and concrete, but the concrete has a longer life and is more economical in the long run. The City Engineer will review the project and make recommendations regarding the location of the sidewalks at the spring meeting to be held before construction. Mr. Maynard also stated that he has problems with standing water and his property is low due to new homes recently built higher. City Manager Austin stated that storm sewers should help with this problem and that the City will work with him and all residents who have drainage issues.

City Attorney Sherman noted for the record that a letter has been received from Color Coat Plating Co, 355-365 W. Girard, objecting to the special assessment.

There being no further comments from the audience, the public hearing was closed.

He stated that WOW cable has no plans to change from the current channel 10 for public access.

REQUEST:	Special Approval for an indoor skate park under Section 10.329(5) of the Zoning Ordinance.
EXISTING ZONING:	M-1, Light Industrial
EXISTING USE:	Vacant – Former L & L Wine World

STAFF ANALYSIS:

1. Special Approval is required for the proposed use of this facility as a skate park in the M-1 District. This building and site is unique in that it is split between Royal Oak and Madison Heights. The easterly warehouse portion is in Madison Heights, while the westerly office portion and parking lot is in Royal Oak. (The site plan has been noted in red with jurisdiction lines).

2. The applicant proposes to redevelop the former L&L Wine World facility into a mixed-use facility including an indoor skate park (Madison Heights), restaurant (Royal Oak), retail sales (Royal Oak), and office (Royal Oak).

3. We have been in contact with the Royal Oak Planning Department to coordinate our reviews and to determine if there are any overlapping design issues caused by the split municipal jurisdiction. Royal Oak is reviewing the site plan and is processing the applicant through their special approval process as well. None of the comments impacts the design of Madison Heights portion of the site. Should City Council approve the special approval request, we will coordinate our final approvals with Royal Oak accordingly.

018. Appeal Hearing for Demolition Order at 26033 Brettonwoods

City Manager Austin stated that this hearing is being held regarding an appeal that was filed against a Demolition Order that was issued for the house located at 26033 Brettonwoods. This Order highlights many problems including that the house is vacant and uninhabitable; property taxes have not been paid since 2001; major problems exist such as failure of roof; an electrical system that is not operating; and extensive water damage. The owners have not presented any type of repair or rehabilitation plan or indicated they would be paying unpaid taxes. Assistant City Attorney Jeffrey Sherman presented the staff's case, as follows:

On December 14, 2007, a demolition hearing was held in regard to the above-referenced property. On December 26, 2007, an Order was issued for demolition. On January 13, 2008, an appeal was filed by Mary Ann Stephenson and James Hein, co-owners of the property. The following are highlights of some of the findings:

1. The property is vacant and uninhabitable.

2. The property taxes for 2002, 2003, 2004 and 2005 are unpaid in the amount of $9,500 and if not paid by March 31, 2008 the property will be forfeited and the owners will lose the property.

3. Complaints from neighbors brought the condition of this house to the City's attention.

4. The major problems are as follows: failure of the roof; collapse of the ceilings; kitchen cabinets sitting on the floor; WATER SATURATION AND DAMAGE EVERYWHERE; trash containers placed inside the house in order to catch leaking water (and showing that the owner's had knowledge of these substandard conditions); moldy or musty odors throughout; mold, mildew or fungi growing in the bathroom; an electrical system that is on but not operating.

5. DEBRIS EVERYWHERE.

6. The property is a single-family residence, which is part of a neighborhood and its condition (not surprisingly) reduces property values; constitutes an attractive nuisance to children; and is an open invitation to transients.

7. The owners have not presented any type of repair or rehabilitation plan. Moreover, they have not indicated any intention of redeeming the property for unpaid taxes.

On June 16, 2003 the City demolished another house owned by Mr. Hein located at 724 W. Lincoln.

The detached garage is not in bad condition and the Order does not include its demolition.

Deputy Community Development Director Jack Williams provided a PowerPoint presentation of the photographs taken pursuant to his inspection on October 29, 2007, showing that the entire building is water-logged because half of the roof is rotted away and that interior cabinets, flooring and walls are collapsing. In the basement the furnace is rusted and the electrical panel is rotted. The major issues are that water has soaked the entire contents of the interior causing the rear half of the house and rear addition to collapse. To repair the structure would require the removal and replacement of most of the rear half of the house and rear addition as well as the electrical, plumbing and heating system and all the mold would have to be treated. The owner has indicated that he does not have the means or any plans to repair the house.

Assistant City Attorney Sherman stated that the property owners have 21 days for appeal and also that a letter will be sent for removal of personal items prior to the demolition.

Mayor Swanson opened the public hearing for comments. Jim Capizzo, 863 Venoy inquired as to the cost of the demolition. Deputy Community Development Director Williams stated that is $7,300. There being no comments the public hearing was closed.

Motion by Councilmember Clark, supported by Councilmember McGillivray to approve the demolition of the structure at 26033 Brettonwoods.
