300. Legislative Issue - Proposed Repeal of Personal Property Tax Resolution.

Motion by Councilman Clark, seconded by Councilwoman Scott, to adopt the resolution urging the Legislature and the Governor to replace the Michigan Personal Property Tax, if eliminated, to local units of government; and to authorize the Mayor to forward letters to our legislative representatives requesting support of the City's position as follows:

FULL REPLACEMENT OF MICHIGAN'S PERSONAL PROPERTY TAX

Whereas, the City of Madison Heights has experienced a significant decline in revenue sharing and property tax values, which has caused unprecedented fiscal constraints; and,

Whereas, this property value decline has resulted in a reduction of $2.5 million in property tax revenue this year alone; and,

Whereas, at the same time Madison Heights has confronted consistent reductions in State Shared Revenue of $2.1 million per year, as part of the $4 billion in cuts to State Shared Revenue state-wide; and,

Whereas, due to this unrelenting fiscal pressure, Madison Heights has been compelled to reduce the level of municipal services provided to the residents, businesses and visitors to our community; and,

Whereas, these municipal services protect the health, safety and welfare of our citizens, and are an essential component of building a strong local economy and maintaining a vibrant community; and,

Whereas, it is proposed by some that the Michigan Personal Property Tax be erased; and,

Whereas, an additional loss of municipal revenue will compound and exacerbate the financial hardship this community, and its residents and its businesses, are currently experiencing; and,

Whereas, the Personal Property Tax is relied upon by Madison Heights, comprising 15% of our taxable value and as much as 50% of the taxable value in some other communities; and,

Whereas, the importance of the Personal Property Tax to local communities is underscored by the fact that it is a particularly stable source of needed revenue, facilitating efficient management by the Madison Heights Mayor and Council and City Manager; and,

Whereas, the elimination of the Personal Property Tax would result in an additional $1.2 billion loss to local governments state-wide and would result in a loss of $2.6 million every year to Madison Heights; and,

Whereas, even further cuts in vital local services would be unprecedented, unwarranted and destructive to the fabric of our community.

Now, Therefore, Be It Resolved, that the City of Madison Heights urges the Legislature and the Governor to specifically condition any change in the Michigan Personal Property Tax that would result in a reduction in revenue from this tax to local governments, to a full – not partial – amount of replacement revenue.

Be It Further Resolved, that the City of Madison Heights urges the Legislature and the Governor to condition any reduction in revenue to local units of government from the Michigan Personal Property Tax to the passage of an amendment of the Michigan Constitution to protect the full amount of replacement revenue.

Be It Finally Resolved, that on behalf of our citizens, businesses and visitors, and in recognition of the vital importance substantial and stable revenue derived from Michigan's Personal Property Tax will have on our future economic success, the City of Madison Heights urges the Legislature and the Governor to Replace, not Erase, the Michigan Personal Property Tax.

Motion by Mayor Pro Tem Corbett, seconded by Councilwoman Scott, to concur with the recommendation of Oakland County Commissioner McGillivray and approve the Resolution Opposing House Bill 5187 as follows:

WHEREAS, Oakland County has a long-standing and well-established protocol for redistricting its county commission seats each decade that strives for bi-partisanship and is made up of elected officials including the county clerk, the county treasurer, and the county prosecutor, along with the chairs of both the Republican and Democratic parties; and,

WHEREAS, Oakland County redistricting process has been completed, vetted, and ruled proper by Michigan courts and was done in a timely, transparent and legal manner, and the process itself ensures local control and includes Oakland County voters input through elections of three of the five members of that redistricting committee; and,

WHEREAS, Oakland County commission elections are just months away with new districts and maps that ensure representation of all residents of Oakland County including minority residents; and,

WHEREAS, last minute partisan political maneuvers by Lansing State House of Representative Republicans threaten local control and voters intent through House Bill 5187 that would eliminate four commission seats and would negate the legally adopted apportionment plan now in place with a new system that allows current County Commissioners to redraw their own districts in 2012 for the elections in 2012; and,

WHEREAS, the author of House Bill 5187, Brad Jacobsen, has admitted on public radio that part of his reasoning and goal of this bill would be to prevent

any possible election of additional Democratic County Commissioners in 2012 because he does not agree with some Democratic policies and proposals; and,

WHEREAS, House Bill 5187 violates the spirit of Home Rule and local control as well as using blatant political power to unfairly impose a partisan system to favor one party over the other; and,

WHEREAS, House Bill 5187 could be used to violate rules designed to protect minorities from being marginalized in a political boundary setting; and,

WHEREAS, House Bill 5187 would allow current sitting majority County Commissioners to redraw their own districts just prior to their elections in 2012.

THEREFORE, BE IT RESOLVED, that this Madison Heights City Council in the strongest terms vigorously opposes this last minute partisan attempt to impose new state rules on our County that removes local control, negates the actions of county voters, forces a new system of redistricting without our consent and places the ability of drawing new County Commission lines in the very hands of the current sitting majority County Commissioners which is unfair, unethical, and possibly illegal, and we call on the Michigan Senate and the Governor of the State of Michigan to oppose this Bill.

The erection and maintenance of said signs shall be the responsibility of the property owner. Any owner who, upon notification that a fire lane has been established on his property and within 30 days thereof, fails to erect uniform fire lane signs shall be in violation of this article and subject to punishment as provided herein. Further, when said signs are not erected within 30 days of notification, the Fire Chief or his duly authorized representative may direct that said signs are to be erected and the cost thereof assessed against the property and collected as prescribed in the Charter for the collection of special assessments. When such fire lanes are adjacent to a parking lot, such fire lanes shall be clearly outlined with curbing, posts or other markings raised above the grade sufficiently so they will not be obscured by snow or other materials.
Exception:

The Fire Chief or his duly authorized representative may grant permission for parking of certain vehicles, objects or trailers in designated fire lanes for limited periods where such parking will not interfere with the usage of the fire lane by emergency vehicles. (b) If any vehicle, trailer or other object is located within a fire lane at the time the Fire Department is responding to an alarm for reason which necessitates the use of such a lane, then any member or members of the police department or Fire Department may move, or cause the same to be moved, by any means possible, without liability for any damage being incurred by the City or any officer, agent or employee thereof.

511.5 Appeal.

123. Meeting Open to the Public.

Anna Kourtesis, 29431 Mark, expressed concerns about a house on her street that needs yard maintenance and has a vehicle with expired license plates in the driveway. City Manager Austin indicated that the City is currently responding to a similar complaint on Mark Street, which could be the same address Ms. Kourtesis is referring to. Mr. Austin asked that Ms. Kourtesis provide the address to Police Chief Roberts who was seated in the audience for follow-up by the City.

Chester Grabowski, 26355 Wolverine, asked Council to consider an increase of the penalty/fines to violators of the City's noise ordinance, given Council has increased fines for other City violations. Mr. Grabowski suggested that higher fines may deter the vehicles that play their music extremely loud that frequent his neighborhood.

City Attorney Sherman confirmed that the Council recently voted to increase the fines/penalties imposed on super drunk driving violators, as referred to by Mr. Grabowski. However, Mr. Sherman stated that this increase was possible as a result of a change in the State law for this specific violation. Mr. Sherman further stated that the State law mandates the penalties and/or fine limits which may be imposed at the local enforcement level. Mr. Sherman closed his comments by confirming that the City's Noise Ordinance already allows a fine up to $500 as allowed by the State law.

Gloria Moore, 27368 Dartmouth, informed residents that vacancies exist on the Madison Heights Senior Citizens Advisory Board and elections will be held at the Senior Center beginning May 17th – May 31, 2012.

James Capizzo, 963 Vanoy, expressed a comment regarding Mr. Grabowski's fine increase request. Mr. Capizzo inquired if the Council or City Administration calculated the affect on the City as a result of the Governor's Proposed Personal Property Tax (PPT) Legislation.

City Manager Austin replied to Mr. Capizzo's inquiry indicating early projections reflect a possible loss of $1.4 million in FY 2014 for Madison Heights, with further analysis on the recent amendment scheduled for this week. Mr. Austin indicated that Senator Pappageore has been influenced toward amendments that would lessen the burden on the City, given the City's communications with the Senator.

SECTION 9. MICHIGAN PUBLIC SERVICE COMMISSION, JURISDICTION. Grantee shall, as to all other conditions and elements of service, be and remain subject to the reasonable rules and regulations of the Michigan Public Service Commission or its successors, applicable to gas service in the City.

SECTION 10. REPEALER. This ordinance, when accepted and published, shall repeal the provisions of a gas ordinance adopted by the City Council on October 8, 1973 entitled:

347. Michigan Liquor Control Commission – License Application Process Resolution.

Motion by Mayor Pro Tem Corbett, seconded by Councilman Clark, to adopt the following resolution:

RESOLUTION OF THE CITY COUNCIL
CITY OF MADISON HEIGHTS

The City Council of the City of Madison Heights, a Michigan Municipal Corporation (the "City"), having met at a meeting open to the public on Monday, December 17, 2012, at City Hall located at 300 W. Thirteen Mile Road, Madison Heights, Michigan, 48071, does hereby adopt the following Resolution.

WHEREAS, the City of Madison Heights currently regulates the transfer of liquor licenses into the City of Madison Heights at new locations, as well as the transfer of licenses among licensees.

WHEREAS, the general purpose of such regulation is to provide for the appropriate distribution and location of premises licensed for the sale of alcohol; to establish that the applicant has the character, experience, and financial ability to meet the obligations and business undertakings for which the license is to be issued; to confirm that they will fit within the City's Code of Ordinances; to avoid an overabundance of such licensed establishments; and to ensure that the kind and nature of the licensed establishments are consistent with the character of the community.

WHEREAS, while the State, through its Liquor Control Commission (LCC), is the body with jurisdiction over the issuance of liquor licenses, it has traditionally read its enabling and/or governing statutory authority as requiring local legislative approval of the issuance of liquor licenses. This reading included all new applications for on premises licenses and transfers of licenses from person to person, or other jurisdictions into the community.

WHEREAS, against this longstanding practice, on June 21, 2012, the LCC issued Bulletin 2012-12, detailing various changes to the license application process for transfer of existing on premises liquor licenses. This bulletin was issued without changes in any corresponding state statutory enabling or governing authority related to the LCC. In Bulletin 2012-12, the LCC asserts that applications for the transfer of ownership, transfer of interest, or transfer of location of existing licenses do not require approval by the local unit of government. The bulletin states:

II. Application for transfer of ownership, transfer of interest, or transfer of location of existing licenses

An application for transfer of ownership of an existing license, transfer of interest in an existing license, or transfer of location of an existing license does not require approval of the local unit of government.

No explanation or analysis of the relevant provisions of the Liquor Code is provided in the bulletin to support the change in the process.

WHEREAS, Bulletin 2012-12 does not take into consideration, for example, the language of Section 501(2) of the Liquor Control Code, which on its face appears to require local legislative review and approval for both new and transferred license applications:

> An application for a license to sell alcoholic liquor for consumption on the premises, except in a city having a population of 600,000 or more, shall be approved by the local legislative body in which the applicant's place of business is located before the license is granted by the commission, except that in the case of an application for renewal of an existing license, if an objection to a renewal has not been filed with the commission by the local legislative body not less than 30 days before the date of expiration of the license, the approval of the local legislative body is not required. The commission shall provide the local legislative body and the local chief of police with the name, home and business addresses, and home and business phone numbers to accomplish the local legislative reviews of new and transferred license applications required by this subsection.

Nothing in the Liquor Control Code implies, nor does public policy support, allowing a transferee applicant to avoid local legislative review of the applicant's character, experience, and financial ability to meet the obligations and business undertakings for which the license is to be issued in the same manner as an applicant for a new license.

WHEREAS, because Bulletin 2012-12 provides no legal explanation for its conclusion, a closer look at the basis for that conclusion is merited. The appropriate agency to do so would be the State's Attorney General, which can advise state entities, such as the Liquor Control Commission, on the proper interpretation of an enabling or governing statute.

NOW, THEREFORE, BE IT RESOLVED, the Madison Heights City Council requests its State Legislative Representative Jim Townsend and State Senator John Pappageorge to pose an appropriate question to the Attorney General to the effect of: "Does the transfer of an on-premises liquor license require the approval of the local unit of government?" The Madison Heights City Council

directs the City Manager and City Attorney to forward the request to these governmental representatives as soon as possible.

Yeas: Geralds, Gettings, Hartwell, Scott, Swanson, Clark, Corbett
Nays: None

Mayor Pro Tem Corbett inquired as to the need for the written Resolution, as opposed to a telephone contact to Representative Townsend and Senator Pappageorge. City Manager Austin indicated that the resolution was prepared as a result of discussion at the South Oakland County Mayor's Association November meeting. Mr. Austin indicated that the Mayors/Managers from the cities of Novi and Farmington Hills were in attendance and requested support from surrounding cities that may be affected by the State's decision to eliminate local municipality input from the licensing application process.

Motion by Councilman Hartwell, seconded by Councilman Geralds, to concur with the recommendation of Special Labor Counsel Shifman to adopt the 80%/20% (Employer/Employee) Cost Sharing Model Resolution for healthcare costs as follows:

RESOLUTION TO ADOPT THE 80%/20%
COST SHARING MODEL AS SET FORTH IN PUBLIC ACT 152

WHEREAS, Public Act 152 (PA 152), passed by the State Legislature, was designed to lessen the burden of employee healthcare costs on public employers; and,

WHEREAS, Communities are given three options for complying with the requirements of the Bill; and,

WHEREAS, those three options are as follows:

1) Apply the Hard Cap (capped dollar amount each government employer may pay towards an employee's healthcare costs), which for 2013 are as follows:

Single	$ 5,692
Couple	$11,385
Family	$15,525

2) Adopt by majority vote the 80%/20% (employer/employee) cost-sharing model;

3) Opt-out of the cost-sharing model by a super majority vote of five as set forth in the bill and revisit it prior to the next year.

WHEREAS, the City of Madison Heights has determined to adopt the 80%/20% (employer/employee) cost sharing model as its choice of compliance under PA 152.

NOW, THERFORE, BE IT RESOLVED, that the Madison Heights City Council elects to comply with the requirements of the Publicly Funded Health Insurance Contribution Act by adopting the 80%/20% (employer/employee) cost sharing model set forth in PA 152.

112. Presentation and Review of Proposed FY 2014 Budget.

Mayor Pro Tem Corbett welcomed everyone to the Special Council Meeting to review the Proposed Fiscal Year (FY) 2014 Budget.

City Manager Myers opened his presentation by commending the Department Heads and staff for their work in preparing a proposed budget that maintains existing services with limited revenues. Mr. Myers acknowledged former City Manager Austin who assisted in the preparation of the Proposed Budget prior to his retirement on February 28, 2013. City Manager Myers thanked the City Council for their feedback and direction in preparing the Proposed FY 2014 Budget.

City Manager Myers and Deputy City Manager Marsh provided the Council with an overview presentation of the Proposed FY 2014 Budget.

Mr. Myers commented that staff estimated another year of reduced property tax revenue, which is decreasing by $1.1 million or 6.3% due to continued decline in taxable value falling across all classes by a combined 8.7%. He also noted the high vacancy rate in southeast Michigan and large Michigan Tax Tribunal reductions as other negative factors impacting tax revenues.

Ms. Marsh indicated that the total budget for all funds equates to $43.3 million and represents a decrease of $7.1 million or 14.1% from the FY 2013 Amended Budget. The City has budgeted for the Fund Balance to be $3.1 million, or 13% of proposed FY 2014 expenditures. The Proposed Budget plans for the use of $152,900 in fund balance reserved for Proposal "L" Library expenditures, and will result in an ending fund balance of 12.1% of expenditures at FY 2014 yearend. She also commented that staff plans to increase the General Fund Target fund Balance from 8% to 10% of budgeted expenditures to be reflected in the financial polices adopted as part of the budget.

Ms. Marsh also noted the Proposed Budget reflects a slight increase in the City portion of the tax rate, up by five-tenths of a mill to 22.9250, or 2.2%, due to an increase in Police & Fire Pension Millages and the Senior Center Millage. The average homeowner, however, will still see a $42 reduction in their tax bill due to declining taxable value.

The presentation included three gap reduction categories:

1. Maintaining Current Staffing Levels:
    a. Senior management restructuring including promotion of a new City Manager and hiring of an Assistant City Manager for Public Services for a minimum annual total savings of $45,000 depending on benefit levels;
    b. Closing the Housing Commission and transferring the two employees to other openings in the organization. This includes the upgrade of the position in the City Clerk's office from Office Assistant II to an Election and Information Coordinator, which increases the budget by a total of $48,250 as a consequence of reallocating the position from Housing to the General Fund; and,
    c. A Funding shift of Part-Time Staff shared between the Clerk's office and the Department of Public Services at a cost of $8,500.
2. Restructuring of Retiree Health Care Premium Payments.

3. Staffing and Labor Savings through negotiated concessions from Union contracts.

City Manager Myers continued the presentation reviewing the Other Funds stating that the Major Street Fund is projected to be down $1.5 million, or 44.8%; the Local Street Fund decreased by $376,000; and, the Water and Sewer Fund Budget increased by $276,000, or 2.4% over last year. He indicated that the Budget includes a water and sewer rate increase of 4.47%, effective July 1, 2013, recommended to keep the Water and Sewer Fund financially sound.

City Manager Myers stated that the Proposed Budget would need to be rebalanced following today's presentation, as a result of following items not included in the Proposed FY 2014 Budget due to the late notice to the City:

1. A Federal Assistance to Firefighters Grant ($166,000) for replacement of the self contained breathing apparatus (SCBA) at the Fire Department. The City will be responsible for the 10% match or approximately $16,600 and an additional $10,000 for the replacement of rapid intervention team packs and masks that were not covered by the grant; and,
2. A State Justice Assistance Grant of $24,000 to fund replacement of seven (7) of the fourteen (14) budgeted patrol car laptops scheduled under the Drug Forfeiture Fund.

Mayor Pro Tem Corbett reviewed the Proposed FY 2014 Line-Item Budget document page-by-page. During the review of the document, the City Manager and the Department Heads addressed Council's questions on a department-by-department basis.

Mayor Pro Tem Corbett inquired regarding the placement of defibrillators at the Police Department. Following discussion with the Fire and Police Chiefs, City Manager Myers confirmed that three (3) defibrillators would be installed at the Police Department. One defibrillator no longer needed at the Nature Center (Oakland County provided their own) will be reassigned to the Police Department. A local business has also indicated a willingness to assist with the funding.

Councilman Gettings raised concern for the Proposed Budget's reduced level of support for recreation programming and expressed his desire to restore a full-time recreation coordinator position.

Councilwoman Scott indicated her support for the Fire Department to reapply for a Staffing for Adequate Fire and Emergency Response (SAFER) grant in October 2013 when the City becomes eligible.

Councilman Geralds expressed comments regarding the proposed water and sewer rate increase beginning July 1, 2013 included in the Proposed FY 2014 Budget.

Deputy City Manager Marsh stated that the FY 2014 Budget and Tax Levy is scheduled for the Council's adoption at the May 13, 2013 Council Meeting, following the public hearing also schedule on that date.

113. Meeting Open to the Public.

152. Mayor and Council - Comments.

Councilman Hartwell expressed sympathy to Ms. Price who spoke at tonight's Meeting Open to the Public regarding the loss of her family pet. Mr. Hartwell indicated his desire for the staff to report back to Council on rodent activity at this address.

Councilman Geralds stated that rodent activity occurs each year, and while it is unfortunate and tragic, it is often a direct result of homeowners who neglect to be diligent in the keeping of their yards. Mr. Geralds recommended that residents securely seal garbage cans to eliminate a food source and elevate fire woodpiles in their yards to eliminate shelter for rodents. He also recommended that residents visit the City's website to obtain additional information on rodents.

City Manager Myers welcomed Mayor Swanson's return at tonight's meeting. He concurred with Councilman Geralds and recommended that residents use the City's website as a resource for rodent information.

City Clerk Haley welcomed Mayor Swanson's return at tonight's meeting.

Councilman Clark inquired, and City Manager Myers confirmed, that the City received County grant funding for mosquito larvaciding and that the Red Oaks Nature Center would be larvacided this year. Councilman Clark advised residents not to ground feed squirrels or birds, as this backyard food source will attract rodents. As a preventative measure, Mr. Clark encouraged pet owners to promptly eliminate animal waste from their backyards.

Councilwoman Scott sympathized with Ms. Price and her family on the loss of their family pet. She stated that rodents have been an ongoing community problem dating back to the reconstruction of the Red Run Drain and is not unique to the City of Madison Heights. Mrs. Scott asked that rodent information, in addition to the City's website, be made available to the public at the City Clerk's Office and the Red Oaks Nature Center. She welcomed Mayor Swanson's return at tonight's Council meeting. Mrs. Scott thanked the Memorial Day Parade Committee for their work in coordinating this year's Parade; invited everyone to attend; and to take time on Saturday to honor the veterans who have served in the armed forces. Given the construction on John R, Councilwoman Scott asked City Manager Myers to provide Parade entrants with easiest directions to access the staging area. City Manager Myers suggested that arriving early be a priority, and that John R access from any of the northern major roads, such as Thirteen Mile, is advisable, until 9:30 a.m. when the parade route is closed to vehicular traffic.

Councilman Gettings welcomed Mayor Swanson's return at tonight's meeting. He announced Madison Heights Little League Baseball's Opening Day at the Paige Middle School Complex on Saturday, 10:00 a.m. Councilman Gettings requested the City place signage at the John R and Katherine intersection to encourage drivers not to block the intersection when traveling north and south on John R.

Mayor Swanson thanked everyone who sent him cards and prayers during his recovery from surgery. He indicated that he was glad to return to his Mayoral duties.

203. Meeting Open to the Public.

James Olivier, 29031 Tawas, reiterated concerns regarding a drug and alcohol testing business, JAMS Enterprises, LLC, at 739 E. 12 Mile Road. Mr. Olivier provided handouts to the City Clerk for distribution to Council and City

Administration regarding traffic congestion and pedestrian safety issues occurring on Tawas as related to the business operating at 739 E. 12 Mile Road. He asked that Council review the handouts and give further consideration to this issue.

Jenna Chomakov, 29027 Tawas, thanked the City Council for their willingness to listen to the residents' concerns regarding the business located at 739 E. 12 Mile Road. She also expressed her appreciation for the increased Police presence on Tawas to address parking violations. Ms. Chomakov expressed concerns for her pet's safety when walking on Tawas.

Councilmembers, Legal Counsel and the City Manager expressed comments regarding the business located at 739 E. 12 Mile, indicating that the business has met all the City's requirements to operate in the City. City Attorney Sherman noted that City administration is in the process of coordinating a meeting with the business's Regional Manager and the property owner.

Oakland County Commissioner Gary McGillivray announced the 2013 Oakland County Fair on July 3rd through July 14th at the Springfield Oaks County Park in Davisburg, with details available at www.destinationoakland.com. Commissioner McGillivray reminded everyone that Oakland County residents are eligible to participate in a discount prescription program, Coast2CoastRx. Applications to apply for the program are available at the City Clerk's Office, with benefit details available online at www.coast2coastrx.com. In closing, he stated that he received two complaints from business owners, located in the John R reconstruction zone, as to the reason for slow progress of the project. Community Development Director Schafer responded to the inquiry by stating that the project's scheduled completion date is the 1st week of August, as provided by the Michigan Department of Transportation. Mr. Schafer clarified that the contractor of the John R reconstruction project is under the authority of the State not the City and that all inquiries for the John R project should be directed accordingly. Mr. Schafer noted that the City's Twelve Mile Road reconstruction and the County's signalization projects are scheduled to begin on July 15th.

204. Library Internet Safety Policy and Safety Rules for Children.

Motion by Councilman Clark, seconded by Gettings, to approve the proposed Library Internet Safety Policy and Safety Rules for Children to comply with the Children's Internet Protection Act, and that rebates dependant on the e-rate discounts be applied to the Library's computer services and related expenses.

Councilmembers discussed with Library Technician Rebecca Williamsen the Library's filtering process, as it will be applied to adult and youth patrons, and

the staff's ability to remove the filtering for adults, if requested. Councilman Geralds indicated that while he favors the filtering of inappropriate material for youth patrons and does not want to see the City lose the e-rate discount, he does not favor limiting a patron's activity on the Internet. Following Council's brief discussion of censuring, Mayor Swanson called for the vote.

Motion by Councilman Clark, seconded by Mayor Pro Tem Corbett,

WHEREAS, a Special Approval application has been received from Stuart Frankel, representing Madison Place LLC, requesting to permit a regulated use, the resale of goods, said property is zoned B-3 General Business; and,

WHEREAS, a public hearing was advertised in the Madison Park News on October 9, 2013 and 536 notices were mailed to property owners within 500 feet of the aforementioned property; and,

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 32115 John R Road

REQUEST: Special Approval to allow a used goods sales facility (Regulated Use) in the B-3 District under Section 10.502A(3) of the Zoning Ordinance

EXISTING ZONING: B-3 General Business District

EXISTING USE: Vacant retail space in existing multi-tenant commercial retail building

STAFF ANALYSIS:

1. Special Approval is required to allow a used goods facility in the B-3 District. Applicant proposes to use 5,200 square feet of the existing building.

2. Used goods uses are a regulated use under the Zoning Ordinance. As such, there are specific separation requirements from any proposed regulated use and other uses. The proposed location of this used goods use is only a few doors north of the existing Plato's Closet, an existing regulated use. The minimum separation distance between regulated uses is 1,000 feet, as measured from property line to property line. Accordingly, should City Council wish to grant Special Approval for this use, a variance would be required from the Zoning Board of Appeals (ZBA) to waive the required 1,000 feet separation distance. The applicant has been advised of this and is aware that subsequent ZBA action would be required should City Council conditionally approve the request.

3. Existing parking meets minimum ordinance requirements.

4. Hours of Operation: Monday – Friday: 10:00 a.m. – 9:00 p.m.
   Saturday: 10:00 a.m. – 6:00 p.m.
   Sunday: 12:00 p.m. – 6:00 p.m.

5. The Site Plan Review Committee has reviewed the plan and all plan review comments have been addressed. Should City Council wish to approve the Special Approval request, the Committee recommends that the approval be conditioned upon ZBA approval of a variance from the required 1,000 feet separation distance between regulated uses.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.201.1 of the Code of Ordinances, hereby approves the request to permit a Regulated Use in a B-3 General Business District at 32115 John R Road; conditioned upon the following:

1. No used or new adult pornographic or X-rated material of any kind will be sold or displayed; and,
2. The ZBA grants a waiver of the 1,000 feet separation distance between Regulated Uses; and,
3. The Special Approval be granted to the tenant, Playtime Partners, Inc. d/b/a Disc Replay, and will terminate when the business

vacates the premises at 32115 John R Road, or if the lease is sublet or assigned.

Quinn Verniers, Store Manager representing Diamond Jim's, a pawn and jewelry store located at 934 W Eleven Mile Road, inquired if businesses could receive quarterly billings for the transaction costs referenced in the Pawn Broker Amendment Ordinance. Mr. Verniers stated that the new system will add approximately 2/3rds of the cost of the new system to his business and asked that City Council reconsider a fairer distribution of the costs. He acknowledged that the new LeadsOnline system will assist the City's Police Department with the workload and increase efficiency in tracking stolen goods; however, to transfer the majority of the cost for the new system to the businesses is unfair and excessive. He suggested the City consider assessing new gold dealers coming into Madison Heights an additional licensing fee to help cover the cost of the new system.

Mayor Pro Tem Hartwell acknowledged the concerns of Mr. Verniers and stated that the City is not attempting to create a financial hardship for the businesses with the new LeadsOnline system. Mr. Hartwell inquired of Legal Counsel if after the City has met the County's cost, if it would be possible to assess an annual fee to the business at the end of the year, based on their transaction usage.

Assistant City Attorney Grochowski indicated that he and Police Chief Roberts coordinated their efforts to establish an Ordinance that is fair and consistent for all businesses and to provide an equitable means to cover the cost of the new system.

Melany Verniers, owner of Diamond Jim's, also requested that Council consider a fairer distribution of the cost between the City and the businesses.

Mr. Grochowski stated that the fee was negotiated with Oakland County and was determined by taking an average of the City's past three year's transaction fees. Police Chief Roberts stated that surrounding communities currently using the new system are charging based on the per transaction fee, which is consistent and equitable to all businesses.

Councilman Bliss inquired if it would be possible to carryover any savings from one year to the next and provide businesses with a transaction fee credit.

City Manager Myers stated that the revenue from the system is appropriated annually and is tied to the fiscal year.

Police Chief Roberts confirmed that the annual Oakland County fee for the LeadsOnline system is subject to change/increase annually.

Councilman Corbett indicated support for the capping the per transaction fee, either per vendor or another mechanism, but is not in favor of increasing the initial business licensing fee for new gold dealers.

Mr. Grochowski indicated that the Ordinance was designed as presented to cover the Police Department's costs for the system.

Mr. Bliss indicated that other similar size (approx. 30,000 residents) communities across the United States have utilized IT committees. Councilman Bliss asked that the Manager provide a response, in a month or two. He indicated that the Committee could help the community understand the City's strategic plan, assist leverage from the experts in our community and allow residents an opportunity for input toward future IT decisions.

Mayor Pro Tem Hartwell concurred with Councilman Bliss's request for information on the formation of an IT Committee, stating that citizen committees should come and go as the needs of the City are identified and change over time. Councilwoman Scott thanked the City staff for the beautiful decorations at tonight's Tree Lighting Ceremony. She also thanked Santa and Mrs. Claus for finding the time to attend tonight's Ceremony. She acknowledged the integral contribution that the Wolverine Football Organization makes in Madison Heights and congratulated all the students and coaches involved in the organization. Mayor Pro Tem Hartwell commented that he appreciated City vendors and contractors who understand and work within the City's financial constraints. He also expressed concern with the supplier storing the pipe if there is a potential for the supplier to go out of business. City Manager Myers replied that HD Supply Waterworks has been a very stable vendor that has remained in business for many years. He also stated that because plastic pipe requires the use of a wrap or cover to protect the pipe from UV damage, having HD Supply store the pipe would save the City money in shrink wrapping cots.

400. Ordinance 1098 – Amendment to Snow Emergency Parking Violations, Second Reading

Motion by Councilwoman Scott, seconded by Councilman Corbett, to adopt Ordinance 1098 – amendment to Snow Emergency Parking Violation Ordinance on the second and final reading, as follows:

ORDINANCE NO. 1098

An Ordinance to amend Ordinance No. 571, being an Ordinance codifying and adopting a new Code of Ordinances for the City of Madison Heights by Amending Chapter 26, Article I, Section 26-7, of the Code of Ordinances, City of Madison Heights, Michigan, to establish that the fine for a violation of a snow emergency parking offense be established by resolution of city council.

The City of Madison Heights Ordains:

Section 1. Amendment.

That Chapter 26, Article I, Section 26-7, of the Code of Ordinances, City of Madison Heights, Michigan, is hereby amended in its entirety to read as follows:

Sec. 26-7. Emergency snow removal.

(a) Purpose and intent.

(1) Inclement winter weather impedes the movement of vehicular and pedestrian traffic and creates public safety concerns. To address these concerns, the city engages in various efforts to reduce or eliminate the accumulation of snow and ice upon public roadways. The primary method by which the city engages in such efforts is through the use of roadway snow plowing and salting equipment.

(2) In order for the city's snow plowing efforts to be effective, the public roadways must be clear of parked vehicles, which constitute an obstruction of the city's efforts and contribute to the public safety concerns caused by inclement winter weather when such vehicles cause portions of the public roadways to remain unplowed. This article is intended to ensure increased public awareness of the problem and to require motor vehicle owners and operators to remove their vehicles from public roadways when a snow emergency occurs, thereby furthering public safety and welfare, and reducing the undue roadway safety risks caused by the accumulation of snow and ice around parked vehicles.

(b) Definitions. The following definitions shall apply in the interpretation and enforcement of this article:

(1) The city manager is the city manager or, in his absence, his duly designated and acting representative.

(2) The chief of police is the chief of police or, in his absence, his duly designated and acting representative.

(3) Street or highway means the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel. Streets or highways that are not owned, maintained or snow plowed by the city or other governmental entity shall be excluded from this definition.

(4) Snow emergency. A parking prohibition on some or all streets and highways, or parts thereof, declared by the city manager or his designee upon the occurrence of any one or more of the following conditions:

a. Four inches or more of snow accumulation;

b. A National Weather Service forecast predicting a snowfall of four or more inches within a 12-hour period;

c. Occurrences of snow, ice, or freezing rain, or any combination thereof, that result in a total accumulation of four or more inches of snow and/or ice within a 36-hour period.

(c) Prohibited parking. No person shall park or allow to remain parked any vehicle on any portion of any street or highway within the city during a snow emergency, or park or allow to remain parked any vehicle in violation of any parking restriction instituted as part of a declared snow emergency as provided in this article. The registered owner or lessee of any such vehicle shall be responsible for a municipal civil infraction and the cost of removal.

(d) Notice of snow emergency declaration. The city manager or his designee shall cause each declaration made by him pursuant to this section to be publicly announced by means of a news media release to local television and/or radio within a normal operating range covering the city. Each declaration may also include other available city media such as message boards, municipal cable television channel, and the city's website.

(e) Termination of prohibition, civil penalty. Once in effect, the prohibition under this section shall remain in effect until terminated by announcement of the city manager or his designee, in accordance with this section, except in any street area which has become substantially clear of snow and ice from curb to curb for the length of the entire block shall be automatically excluded there from. Any person, firm, partnership, or corporation that violates any provision of this section shall be deemed responsible for a civil infraction and shall pay a civil fine established by resolution of city council. To allow sufficient time for persons to remove their parked cars from the street, the parking prohibitions

triggered by the declaration of a snow emergency shall become effective six hours after the declaration has been announced in accordance with this article.

(f) Enforcement.

(1) Members of the police department are hereby authorized to remove or cause the removal and impoundment of any vehicle that is found parked on any street in the city during a snow emergency. Such vehicle may be removed and conveyed by or under the direction of a member of the police department by means of towing to a vehicle impound lot. The chief of police is authorized to engage the services of the city's primary vehicle towing company to remove vehicles under the direction of a member of the police department where the same are found in violation of this article or other traffic ordinances and regulations of the city, except that if such company is not available or unable to tow the vehicle(s), the chief of police may utilize any other licensed and reputable towing company to assist with clearing the streets to ensure snow plow accessibility.

(2) Whenever this article is alleged to have been violated, and regardless of whether the offending vehicle is impounded, police officers shall have the authority to issue and serve a municipal civil infraction citation upon the registered owner of a vehicle found parked in violation of this article. Such citation shall be in the form prescribed by state law, and may be either mailed to the registered owner via first class mail, or conspicuously affixed to the offending vehicle. A municipal civil infraction citation may be issued for each 24-hour period during which a vehicle is parked in violation of this article.

(3) The registered owner or lessee of a vehicle is presumed, for purposes of this article, to be responsible for the operation and parking of that vehicle. In any prosecution with regard to a vehicle parked or left in a place or in a condition in violation of any provision of this article, proof that the particular vehicle described in the complaint was parked or left in violation of a provision of this article, together with proof that the defendant named in the complaint was at the time the registered owner or lessee of such vehicle, shall constitute prima facie evidence that the defendant is responsible for violating this article.

(4) This article shall be supplemental to any other provisions of law granting members of the police department the authority to impound vehicles. The rules and regulations governing abandoned automobiles and the impoundment of vehicles, adopted by reference in chapter 20, shall be followed when impounding a vehicle under this article, except that no advance notice prior to impoundment shall be required other than the public notice specifically required section 26-7(c).

(g) Disabled vehicles. Whenever a vehicle becomes disabled for any reason, whether or not in violation of this article, on any roadway within the city, the person operating such vehicle shall take immediate action to have the vehicle removed from the roadway. No person shall abandon or leave a vehicle on a street or highway, regardless of whether the person indicates that the vehicle is disabled, except for the purpose of securing assistance during the actual time necessary to obtain assistance and return without delay.

(h) Special parking permits. A special parking permit may be issued by the chief of police for any person, partnership or corporation or joint-stock company without driveways or for hardship cases as determined by the chief of police in his sole discretion. Owners of vehicles granted special parking permits will be issued identifying stickers or placards by the police department which shall be displayed during the snow emergency in the rear side window on the driver's side of the vehicle.

(i) Relationship to other laws. Any provision of this article which becomes effective by declaration of the city manager or his designee shall, while temporarily in effect, take precedence over other conflicting provisions of law normally in effect, except that it shall not take precedence over provisions of law relating to traffic accidents, emergency travel of authorized emergency vehicles, or emergency traffic directions by a police officer. However, nothing in this article shall be construed to permit parking at any time or place where it is forbidden by any other provision of law.

Section 2. Repealer.
All ordinances, or parts of ordinances, in conflict with this ordinance are repealed only to the extent necessary to give this ordinance full force and effect.

Section 3. Severability.
Should any section, subdivision, clause, or phrase of this ordinance be declared by the courts to be invalid, the validity of the ordinance as a whole, or in part, shall not be affected other than the part invalidated.

Section 4. Savings.
All proceedings pending and all rights and liabilities existing, acquired or incurred at the time this ordinance takes effect, are saved and may be consummated according to the law in force when they were commenced.

Section 5. Effective Date.
This ordinance as ordered shall take effect Ten (10) days after its adoption and upon publication.

Section 6. Inspection.
A copy of this ordinance may be inspected or purchased at the City Clerk's office between the hours of 8:00 a.m. and 4:30 p.m. on regular business days.

Mayor Pro Tem Hartwell asked about the I-75 expansion plan. City Manager Myers stated that the Capital Improvement Plan includes a detailed historical

discussion of the project which has been accelerated by the Michigan Department of Transportation (MDOT). He stated that the cost has not yet been finalized, and the initial amount that was presented to the City may be lowered. He also stated that the City of Madison Heights has historically been supportive as expressed through the City's adopted budgets, but has expressed concerns about various aspects of the project. He will keep the Council updated on the changes.

Councilmember Bliss stated that he has concerns with the cost of the project, a similar prior study referred in the Plante & Moran proposal, and the omission of a Social Media evaluation in the proposal. He was under the impression that Social Media was supposed to be a priority in the study.

City Manager Myers responded by saying that Plante & Moran did do a study 10 years ago but it did not include an Information Technology assessment and that this study does include future strategic projects which includes Social Media.

Mr. Dale Vanderford, Manager Government Consulting Services – Plante & Moran, PLLC stated that he will be the Project Manager on this project. During the study he will interview all staff and IT employees. Part of this engagement is looking at future trends, which includes Social Media and the website.

Councilmember Bliss asked that given Social Media is a priority, whether Council could consider delaying approval and consider other options.

City Manager Myers explained that this study includes much more than Social Media and that the entire city IT system needs to be studied. This project will look at security, network, core services for customers and residents and staffing in the IT department, as examples.

Councilmember Bliss stated that the only thing left out of the proposal is Social Media and does not feel that this has to be acted on at this time because the pricing is good for 90 days.

Councilmember Scott agreed with Councilmember Bliss and stated that she would also like to see more emphasis on Social Media.

City Manager Myers suggested that in light of the need to move forward with the study, and with Council's concurrence, staff and Plante & Moran would negotiate to also include an additional analysis of Social Media to be incorporated within the overall assessment and strategic plan. Council concurred with this approach. Mr. Vanderford on behalf of Plante & Moran also agreed with the approach.

There was further discussion to address, Mayor Pro Tem Hartwell's question regarding the four factors that were used to choose Plante & Moran and how overall pricing was considered.

RESOLUTION

FULL REINSTATMENT OF THE FEDERAL EMERGENCY UNEMPLOYMENT COMPENSATION (EUC) PROGRAM EXTENSION

WHEREAS, According to the Michigan Department of Technology, Management & Budget's Labor Market Information the City of Madison Heights had an unemployment rate of 9.1% with almost 1400 people unemployment average for the year of 2013 while the overall unemployment rate of Oakland County was 8.1% and the National Average was much lower at 7.4%.

WHEREAS, 1.3 million people including 44,000 in Michigan did immediately lose benefits. Without an extension, the Obama Administration says next year another 145,000 in Michigan would lose benefits.

WHEREAS, 3.6 million Americans are still long term unemployed (27 weeks or longer) and account for 35.8 percent of total unemployed and the number of 'involuntary part time' workers is 7.3 million according to Bureau of Labor Statistics released February 2014.

WHEREAS, in order to accurately observe the inclusive representation of the enormous magnitude of total unemployed Americans currently, you have to consider 'potential workers' – those who want to work but became frustrated over long periods without work or other various reasons and stop searching. This is estimated at aggregate of 5.2 million according to Bureau of Labor Statistics released February 2014.

WHEREAS, The Center on Budget and Policy Priorities expects some 4.9 million unemployed people will become ineligible of EUC benefits before they find a job by the end of the current year 2014.

WHEREAS, chronic unemployment notably hinders our economy. Long term joblessness significantly reduces consumer expenditures, stagnates worker productivity and consequently lessens personal credit rating thus reducing overall collective purchasing power.

WHEREAS, According to a study by the Government Accountability Office, since December 2007 Americans age 55 and older have experienced a considerable rise in long term unemployment. The average length Seniors have experienced consistently longer periods of unemployment is three times as long. Over half of the long term unemployed Americans are age 55 and older.

WHEREAS, The Great Recession starting in 2008, which had lasting affects even to this day with a tremendous impact on Madison Heights Household Incomes as evidenced by the U.S. Census Bureau, 2008-2012 statistics that 16.4% of married couples with children under 18 years live in poverty in Madison Heights as compared to 8.1% in Michigan, and 28.9% of married couples with children under 5 live in poverty in the City as compared to 7.9% in the State of Michigan.

WHEREAS, Long-term unemployment takes an extreme toll on an individual's health and well-being especially a longer duration without accumulating any source of income.

NOW, THEREFORE, BE IT RESOLVED, that the City of Madison Heights urgently requests that the Michigan Governor, Michigan Legislature and the U.S. Congress needs to do more to help the long-term unemployed find work. All parties needs to focus on long term solutions to create new good paying jobs, including additional job training necessary for the prevalent market of older unemployed workers (55 years or older).

BE IT FURTHER RESOLVED, that on behalf of our unemployed and employed citizens and families and children, our businesses and in recognition of the vital importance to have a fully employed citizenry we urge the Michigan State Government to assist in a manner effectively equalizing the monetary consequences of long term unemployment on the local economy as well as the physical and mental health of the unemployed completely reinstate the Emergency Unemployment Compensation (EUC) program extension at minimum 36 weeks allotted by the State of Michigan.

BE IT FINALLY RESOLVED, that a copy of this Resolution be provided to U.S. Senators Carl Levin and Debbie Stabenow, U.S. Representative Sander Levin, Governor Rick Snyder, State Representative Jim Townsend, and State Senator John Pappageorge.

He also explained that the traffic signal on John R and Whitcomb is controlled by the Road Commission for Oakland County, and stated staff will put in a request for the timing to be checked.

85. Millennial Mayor Congress Resolution regarding Millennial Representation on Eligible City Boards and Committees

Motion by Mayor Pro Tem Hartwell, seconded by Councilman Bliss, to approve the following resolution stating that the City of Madison Heights has attained the Millennial representation goals for eligible boards, commissions, and committees as set forth by the Millennial Mayors Congress.

WHEREAS, the City of Madison Heights (the "City") is one of 23 local governments participating in the Millennial Mayors Congress (the "Congress"), a voluntary regional coalition of local elected officials and young residents; and,

WHEREAS, Mayor Pro Tem Brian Hartwell and Andy Wakeland are the City's appointed representatives to the Congress; and,

WHEREAS, the Congress unanimously adopted the Millennial Representation Protocol on June 22, 2013 in order to increase the number of Millennials on boards, committees and commissions in the Congress's member cities; and,

WHEREAS, the Madison Heights City Council has determined that it is in the interest of the City to incorporate Millennial perspectives and ideas into public problem solving in order to stay forward-thinking; and,

WHEREAS, in order to accurately reflect the region's population of Millennials, the Congress has set the regional goals of having 8% of boards and commissions comprised of Millennials by 2014, with an increase to 10% Millennial composition by 2016; and,

WHEREAS, in order to reach the aforementioned regional goals for Millennial board representation, the Congress has determined that the City should establish a goal to increase its Millennial representation to 9.0% of City boards, committees, and commissions by the end of 2014 and to 11.0% by the end of 2016; and,

WHEREAS, as of March 24, 2014, the Millennial representation on eligible City boards, committees, and commissions is 12.1%, which exceeds the Congress's goals for Madison Heights in 2014 and 2016.

NOW, THEREFORE BE IT RESOLVED, that the City of Madison Heights has attained the Millennial representation goals for eligible boards, commissions, and committees as set forth by the Millennial Mayors Congress.

FURTHER, BE IT RESOLVED, that the City Council indicates its desire to implement the Congress's Best Practices for Millennnial Engagement, taking into account the specific conditions and priorities of the City of Madison Heights.

86. Resolution concerning Unmet In-Home Service Needs of the Underserved and Most Vulnerable Seniors: Making Michigan a 'No Wait' List for Seniors

Motion by Councilman Soltis, seconded by Councilman Corbett, to approve the following resolution supporting the unmet In-Home Service needs of the underserved and most vulnerable seniors: Making Michigan a 'No Wait' list for seniors; and direct the City Clerk to send a copy of the resolution to U.S. Senator Carl Levin, U.S. Senator Debbie Stabenow, U.S. Representative Sander

Levin, Governor Rick Synder, State Representative Jim Townsend, and State Senator John Pappageorge.

WHEREAS, many seniors want to continue remaining in their own homes and community throughout their lifetime, as evidenced by a December 2011 AARP study showing that almost 90 percent of seniors 65 years and older expect and desire to remain in their home for as long as possible; and,

WHEREAS, Madison Heights Seniors deserve to exercise their right of independence and stay in their homes for which they have worked a lifetime; and,

WHEREAS, there is a moral and ethical obligation to support every effort to empower Seniors' longevity, comfort and safety, especially for those who don't qualify for Medicaid benefits or cannot afford private home care; and,

WHEREAS, representing an increase of 20% from the prior fiscal year, the Madison Heights Meals-on-Wheels program delivered almost 21,000 once-a-day hot lunches to homebound seniors in FY 2012-13, averaging 87 meals per day and over 1,700 meals per month; and,

WHEREAS, according to the U.S. Census Bureau, 14.2% of the 65 and older population who live in Madison Heights are poverty stricken as compared to 8.2% in Michigan; and,

WHEREAS, the Michigan Office of Services to the Aging (OSA) provides programs such as Community for a Lifetime which assists seniors to 'age in place' at home and Meals-on-Wheels which facilitates basic nutritional value for homebound seniors; and,

WHEREAS, in reality, the demand for OSA services such as Community for a Lifetime and Meals-on-Wheels is significantly greater than the supply, as evidenced by a permanent seniors' waiting list for these basic necessities; and,

WHEREAS, the minimal one daily meal for only five days per week is tragically insufficient to sustain proper health and well-being. The OSA's home and community based services currently provide care to vulnerable homebound seniors but have greater potential to enable all seniors to remain living a healthier and more satisfying life in their own home; and,

WHEREAS, according to research from the Area Agency on Aging I-B (AAA-1B), of those seniors on waiting lists, 43% have died, 21% have moved to a nursing home and 36% have continued to wait. In dramatic contrast, of those who

received services, 80% were maintained in their homes, 20% have died and none were moved to a nursing home; and,

WHEREAS, in 2014 alone, almost 4,500 seniors remain on wait lists for basic services through the OSA and 50% have been on the wait list for more than 180 days, according to a white paper presented by the Michigan Silver Key Coalition, a group of individuals and organizations committed to supporting older adults to remain living independently in their own home; and,

WHEREAS, the Area Agency on Aging I-B states that within just the last couple of years from FY 2012 to FY 2014, there has been a $1.7 million reduction of OSA Federal Funding Allocations, and OSA State General Funds were reduced by $4.4 million between FY 2008 and FY 2014; and,

WHEREAS, the reduction in funding also directly affects caregivers of homebound seniors. Those selfless many caring for their loved ones in times of need have an enormous responsibility and according to AAA-1B, they are "three times more likely to interfere with their work as well as five times more likely to have suffered a financial loss due to their caregiving responsibilities"; and,

WHEREAS, The Silver Key Coalition projects that a $5 million investment will yield many collateral benefits to taxpayers, businesses and the state, including the creation of approximately 200 new jobs, and return of approximately $350,000 in state tax revenue and 75% of food purchased from Michigan-based sources.

NOW, THEREFORE BE IT RESOLVED, that the City Council of Madison Heights strongly believes that significantly more State and Federal funding is necessary to address the drastic needs of impoverished and underserved home bound seniors in Madison Heights as well as throughout southeastern Michigan.

FURTHER BE IT RESOLVED, that the City Council of Madison Heights applauds the efforts of the Silver Key Coalition to help Madison Heights Seniors stay in their homes and reduce the number of underserved seniors by eliminating wait lists for basic services such as home-delivered meals, home care and other basic necessities. In addition, through this public statement, Council wishes to create a sense of urgency of this issue as well as heighten awareness of those individuals who have been on these wait lists for extended periods of time and who are more likely to experience dire consequences.

FURTHER BE IT RESOLVED, that the City supports the effort to make Michigan a "no wait" state for senior in-home services, advocating a $5 million increase in state funding for the Fiscal Year 2015 from the Governor's office and the Michigan legislature, and a $10 million multi-year increase in state supported in-home services through the Michigan Office of Services to the Aging by Fiscal Year 2018.

FINALLY BE IT RESOLVED, that a copy of this Resolution be provided to U.S. Senators Carl Levin and Debbie Stabenow, U.S. Representative Sander Levin, Governor Rick Snyder, State Representative Jim Townsend, and State Senator John Pappageorge.

Councilman Bliss commented that while he is supportive of the resolution, he is concerned that the requested state funding may result in reductions to other worthwhile programs. He stated he could not vote in favor of the resolution unless the working was changed to reflect that funding would come from the State's budget surplus.

- Employees will benefit through reduced out-of-pocket costs, longer same-day appointments, shorter wait times, coordination of electronic health

records, and an active wellness and behavioral management health management program.

- The City is projected to save money even if a smaller participating city such as Hazel Park does not participate.

Ms. Marsh commented staff estimates a net increase of 1.3% or $204,000 in City property taxes. This increase is a result of a decrease in property tax refunds, and increase in real property tax return of 2.25%, combined with a decrease in personal property tax revenue of 2.08%. She also noted the personal property tax, or "PPT", is declining as a direct result of the package of bills signed by Governor Snyder in December 2012 which phased out the personal property tax by providing exemptions for small parcels with taxable value of $40,000 starting in the upcoming fiscal year. In addition to these exemptions, the bills also provide exemptions for eligible new and existing manufacturing personal property starting in 2016. Overall, this would affect 97% of all personal property in the City.

Ms. Marsh noted that the 2012 legislation provided local units of government with two potential sources of funding to partially replace lost PPT revenue. First, the new law allowed for the local levy of an "'Essential Services Assessment" to replace 100% of the lost PPT revenue that would have funded police, fire and ambulance services. Second, the law created a new Metropolitan Area Metropolitan Authority (MAMA) that would receive a portion of the Michigan Use Tax and would reimburse eligible local units for 80% of the lost PPT revenue used to support non-essential services. This law and the reimbursement were tied to voter-approval during the August 2014 Primary Election, after the first set of small parcel exemptions go into effect.

Ms. Marsh also commented that as a result of the extensive work by the Michigan Municipal League, the State legislature approved bills in early 2014 to replace the Local Essential Services Assessment with a State assessment. Like the former local assessment, the State assessment also requires voter approval in August, and would establish a portion of the State Use Tax as Local Community Stabilization revenues to be used to reimburse communities for 100% of all lost PPT revenues. Equally important, these replacement revenues would not be subject to annual State appropriation. The initial reimbursement will only be for debt losses. Reimbursement for non-debt losses will not begin until FY 2016, after the City has had two years of losses under these new exemptions.

Mr. Myers indicated that the total budget equates to $42.7 million and includes funding of operating and capital purposes for 11 appropriated funds. This amount represents a $2.5 million or 5.5% decrease from the prior year amended budget. The operating budget is projected to decrease by $363,000 or 1.0%, while the capital budget decreases by $2.1 million or 28.4%.

He also noted the most significant changes in the operational budget are related to personal services. The budget includes no reduction in the number of positions or full-time equivalents in FY 2015; however, because of cost savings achieved through continuation of previous concessions gained in the last round of negotiations, implementation of PA 152 and reduced benefits for new hires, all funds personnel services accounts are down $724,000 when compared to FY 2014 amended budget.

Mr. Myers also stated that, when compared to the amended FY 2014 Budget, total revenues are down in the overall budget by $2.5 million after interfund transfers. Property taxes continue to be the largest City revenue source representing 43% of the total FY 2015 budgeted revenues. Other major revenue sources include user charges, intergovernmental revenues, court fees, and other miscellaneous revenues. Compared to the FY 2014 Amended Budget, General Fund spending is down by $600,000 or 2.5%. This decrease is related primarily to the planned use of $965,000 of fund balance in FY 2014. Factoring out the use of fund balance, the FY 2015 General Fund Budget increases by $360,000 or 1.5% from the current year.

City Manager Myers stated the preparation of the FY 2015 budget included five internal budget priorities:

1. Maintain fiscal responsibility to provide Madison Heights with a stable future;
2. Advance technology in our daily operations in order to improve communication between City government, residents and businesses;
3. Invest in people to attract and retain talented employees and assure the organization has a quality workforce to do the public's business, especially as the City's workforce is being asked to do more with fewer resources;
4. Reinvest in the City's infrastructure and equipment in a sustainable manner to protect our existing investment, avoid higher costs in the future, and provide greater budgetary flexibility in subsequent years; and
5. Engage residents to foster a positive image of Madison Heights.

He also gave several examples of departmental objectives that relate to these budget priorities.

Ms. Marsh noted the proposed budget includes funding to complete the necessary renovations to the lower level of City Hall to accommodate the new Employer-Sponsored Health and Wellness Center. The renovation

costs will be partially offset by contributions from the other participating cities. Keeping in mind the high cost of heating for City Hall and the City's energy reduction goals, the budget also includes the first of two funding phases to improve the City Hall HVAC system in accordance with an energy efficiency plan to be developed in FY 2015.

Ms. Marsh stated that, other General Fund capital outlay items include the purchase of two patrol vehicles, a Parks Division Pick-up Truck, and Community Development Department Sedan from the Proposal "V" millage, a replacement and upgrade of the current "Jaws of Life" apparatus in the Fire Department, and a Detective Bureau vehicle and replacement of the Police Department's interior and exterior building video recording system, to be purchased with Drug Forfeiture funds. The Department will also submit for a grant to cover a portion of the Police video system cost from the City insurance's Risk Avoidance Program. The Budget also includes an update of the Courtroom video system which is now obsolete.

She also noted the Proposed 2015 Budget also includes funding for several park improvements, including trail resurfacing at Civic Center and Ambassador Parks, repairs to the cracked parking lot surface north of City Hall, and the City's share of several joint projects with Oakland County Parks and Recreation at the Red Oaks Nature Center and Friendship Woods.

Ms. Marsh stated that, as of June 30, 2013, the General Fund unreserved fund balance was $3.8 million, or 12.1% of General Fund FY 2014 expenditures. In FY 2014, the City has budgeted for fund balance to be reduced by $965,000 to $2.8 million to 11.6% of FY 2015 expenditures, by June 30, 2014, which meets the Council's policy for minimum fund balance levels. She also stated the City will be at 6.2% of the debt limit of $76 million, and reviewed the City's outstanding bonds for the Fire Station construction and George W. Kuhn Drain Project.

City Manager Myers reviewed other funds stating that stated the Major Street Fund is projected to be down $1.4 million, or 53.8% in FY 2015. The Local Street Budget increases by $594,000 in 2015 to $3.6 million, which includes the 2015 Proposal "R-2" reconstruction project of Palmer from 13 Mile Road to the north dead end, which was inadvertently, omitted from the proposed policy and line item documents. The Budget incorporates a drawdown of reserve funds of $1.6 million for scheduled "R-2" projects.

Mr. Myers also stated that due primarily to lower consumption, the Water and Sewer Fund Budget has decreased by $573,000, or 4.7% from last

year, and includes a pass-through rate increase of 6.175% recommended to keep the fund financially sound.

Councilman Corbett inquired as to how property values are increasing by 7.3%, yet it is only resulting in a 2.1% increase in taxable value. Mr. Myers commented that the overall change in property tax revenue reflects the decrease in personal property tax revenue and Michigan Tax Tribunal refunds. Also, the 7.3% figure relates to assessed value for residential property only.

Mayor Swanson reviewed the Proposed FY 2015 Line-Item Budget document page-by-page. During the review of the document, the City Manager and Department Heads addressed Council's questions on a department-by-department basis.

Councilman Soltis inquired about the District Court contractual services, and the line item for court legal fees. Also, he inquired about the legal fees associated with city attorney and labor counsel, contractual services for police, a description of the education account for the Fire Department and contributions to youth assistance. Additionally, he asked about allocations for youth assistance.

Mayor Pro Tem Hartwell asked if there is a financial benefit to the city and its residents to increase recycling. He also asked for a description of what the process is followed when expenses exceed the budgeted amount. Mr. Myers reviewed the City Manager's authority to transfer funds within activities and the budget amendment process.

Councilman Bliss inquired about the evaluation to upgrade the copiers at the Library. He also inquired about the amount of the overtime budget in winter maintenance to which Mr. Myers commented that there were additional funds in the Major Street Fund to cover the shortage, in addition to the expected $107,000 coming from the State for roads.

Councilman Corbett inquired about the lighting at the local parks. Mr. Myers reviewed the energy-related lighting improvements that have been made at Rosie's and Huffman Parks.

114. Meeting Open to the Public.

Allan Budelman, 34 E. Thirteen Mile Road, Madison Heights, stated that he wanted to put together a proposal for funding for youth assistance.

115. Council Comments.

Councilman Soltis asked the Council to consider future funding options for Outside Agencies specifically Madison Heights Youth Assistance.

Mayor Pro Tem Hartwell suggested that the council come up with specific ideas to fund outside agencies. Councilmembers Scott and Soltis support the idea.

Councilman Clark suggested council review their voluntary donations as a way to fund Outside Agencies.

116. Adjournment.

120. Meeting Open to the Public.

Mayor Swanson opened the meeting to the public.

Joel Gumbetter, 26577 Dartmouth, spoke to problems that he has been having with his neighbor to the south of his property at 26561 Dartmouth. Problems include activity in his garage in the late evening and early morning, the possibility of a business being run from this location, and a non-resident using the garage. He stated that he has spoken to the Police Chief regarding these issues and has gone to court several times. He continued that the all night long activity is very stressful, causing him to lose sleep, and he asked for assistance in resolving the matter.

City Manager Myers responded that staff will look into the matter and report back.

121. Animal Care Service and Disposal Agreement

Motion by Councilmember Corbett, seconded by Councilmember Scott to approve the Animal Care Service and Disposal Agreement between the City of Madison Heights and Oakland County.

Dawn Clayton, 27327 Dartmouth, stated she was an animal control volunteer and activist for animal welfare and she was concerned with the proposed contract before Council. She reviewed the statistics of animals sent to the County shelter, noting that the percentages of animals sent from Madison Heights rose from 17% in 2012 to 23% in 2013. Once the animals are there, there is no option for them to be adopted. She stressed that while she believes the Madison Heights Animal Control Officer does a great job, all the animals can't be rescued. She is concerned with the increase and asked that alternatives to the County shelter be considered. She noted that while some animals are returned to owner and pulled by rescues, if the animal is not deemed adoptable they are sent to the county. She asked that a policy decision be made on this matter and added that she envisions the Madison Heights shelter as a resource for the community.

Chief Roberts responded that Animal Control Officer Gysel's report indicates that the animals sent to the county are typically sick or aggressive. He continued that the Madison Heights Animal Shelter is doing a great job and will continue to work with several adoption agencies for the placing of animals.

City Council questioned: what happens to the animals once sent to the Oakland County shelter, what the contract means, finding out what adoption centers the County uses, evaluating the current City policy pertaining to the animal shelter and determining what the future policy should

be, the cost of warehousing and liability issues, budgetary concerns, exploring other relationships with other animal welfare organizations such as Pet Finders, and using creative thinking when examining this issue.

City Manager Myers noted that the City would make the links to City's pet adoption partners available on the City's website and Facebook page, and staff will research issues raised and report back to Council.

125. Mayor and Council - Comments.

Councilmember Corbett expressed that he regretted not being able to attend the ground breaking at Madison school. He offered congratulations, noting this is a fine looking project and a real credit to the educational system and community. He welcomed the new City Clerk. He announced that the former Mayor Monte Geralds passed away on the 23rd of April, and noted that his mark is all over the community. For example, the Gateway Counseling Center is a direct result of his work, and to this day it is still helping thousands of young people. He was a good man, a good family man and his contributions to the community are appreciated.

Councilmember Bliss echoed Councilmember Corbett's comments about Monte Geralds; he stated that he was fortunate to have grown up with him and counts himself as lucky to be around his family. He was thrilled to be at the ground breaking today; to see this type of investment is exciting. He continued that the Superintendent and School Board have worked phenomenally together and this is great for the community.

Mayor Pro Tem Hartwell expressed his condolences to the Geralds' family commenting that he is always so impressed by his legacy. He was an amazing spirit and great role model.

City Attorney Sherman advised that there was a mistake on the agenda in the terms of Parks and Recreation Advisory Board appointments. The term should be a 2-year term and advised that the motion should be corrected. He stated that looking back on the history of Madison Heights and Monte Geralds, there are three generations of the Geralds family in public service. This is remarkable and a testament to Monte being the patriarch of his family and of this community. He expressed his condolences to the family.

City Manager Myers echoed the previous comments and expressed condolence to the Geralds' family. He recalled that Monte took charge of the City's Pub Crawl and made the event practically flawless. He welcomed City Clerk Printz.

City Clerk Printz expressed that she was excited to work for the City of Madison Heights and looking forward to serving the citizens of the community.

Councilmember Clark welcomed City Clerk Printz. He stated that he thought enough of Monte to work on some of his campaigns, going door-to-door on his behalf. He spoke on protecting

your identity, continuing his comments from the previous Council meeting. He advised that you should keep personal information at home and at work in a safe place. Do not carry your social security number in a wallet or purse unless absolutely necessary. Be sure to create unique passwords and pins and avoid using info easily available such as your mother's maiden name, date of birth, or the last digits of your social security number.

Councilmember Scott welcomed City Clerk Printz and announced that this Thursday, from 5 p.m. -7 p.m., there will be a Spaghetti Dinner fundraiser for the Save the Parade Committee. The dinner will be at the VFW on 11 Mile Road near Lorenz. The cost of the all you can eat event is $10 adult, $8 seniors, $6 for ages 5-12, under 5 free. It will be a great meal and a lot of fun and she encouraged all to attend the event. She stated that Monte was a wonderful friend, who was the first person who taught her how to campaign. She continued that if you hung around him long enough, you got to know everyone. She mentioned that there are actually five generations in public service from the Geralds' family if you include his mother and great grandchildren. She informed the audience that the visitation for Monte Geralds is this Friday from 2:30 p.m. - 8 p.m. at the Swanson Funeral Home and a memorial service will be on Saturday, May 3rd at 9 a.m. at the First Presbyterian Church of Royal Oak. She expressed that she is going to miss him as her partner in the Memorial Day parade. She concluded her comments by giving thanks to Mr. Pietraszewski for his contributions and support to heritage of the City of Madison Heights.

Councilmember Soltis expressed his condolences as well, stating that he was extremely grateful that Mr. Geralds reached out to him during the campaign as a new comer. He thanked City Manager Myers and Deputy City Manager Marsh for their work on the budget, stating they do a wonderful job providing efficient and effective city services and we appreciate all their efforts. He commented that he is hoping, however, that there still might be an opportunity to help out the Madison Heights Youth Assistance this fiscal year. He noted that he was glad to be part of the Madison school ground breaking; everyone involved is doing a wonderful job. He commended the Police Department for the fine job they did on the bowling fundraiser. He also commented that Michael Peitraszewski brought an article on alternative ideas for fixing potholes and he submitted it for consideration by staff.

Mayor Swanson thanked Commissioner Gary McGillivray for the cleanup this past Sunday at the Nature Center. He announced a 5k Run/Walk this Saturday at 8 a.m. and encouraged participation. Mayor Swanson concluded his comments by echoing the sentiments of Council on the passing of Monte Geralds and expressed his condolences to the whole Geralds' family

Cortney Protz Sanders, 102 W. Guthrie Ave., spoke to the Animal Services contract considered this evening. She stated that a few years ago, any animals sent to the County were evaluated on an individual basis. Those that were deemed unadoptable were euthanized and those that were deemed adoptable were put up for adoption and given a chance. Recently, this contract has changed and she clarified that any animal sent to the County will be euthanized, regardless of the situation. It is now up to City of Madison Heights to negotiate this further and give each animal a chance. Another option would be for the City to allow the shelter to conduct adoptions. She provided her background with running *Paws for Life*, where they use volunteers to foster and adopt out animals and she participates in disaster animal response as well. She stated that she has been doing this a long time and there has been a lot of progress in animal welfare. She stated

that there are lots of programs that are available for the City to utilize and she referenced a manual called *Dollar and Sense* for consideration. There are some programs that City may be able to utilize that they are unaware of. Working with our Animal Control Officer and volunteer programs, the City shelter has the potential to be more than it is.

139. People Powered Transportation And Sidewalk Repair Program.

Community Development Director Schafer gave a presentation on the People Powered Transportation and Sidewalk Repair Program, noting that during the last 5-year review of the Master Plan, the Planning Commission discussed non-motorized transportation as a possible area for further consideration. In addition, the current 12-Year Sidewalk Gap and Repair Program will be completed in 2014. Accordingly, the Planning Commission decided to consider both the annual sidewalk repair program as well as incorporate non-motorized transportation elements into a new recommended policy for City Council

consideration. He also explained the concept and history of the plan, adding that after this year, if the program is approved, sidewalk improvement projects would no longer be funded through Special Assessment Districts.

Motion by Councilman Clark, seconded by Mayor Pro Tem Hartwell, to approve the People Powered Transportation and Sidewalk Repair Program.

145. Mayor and Council - Comments.

Councilman Corbett expressed regret that he will not be able to host the *Meet Your Councilperson* at the library this Friday. He added that library office hours for Council will commence again after Labor Day. He stated that in regard to the discussion on the expansion of I-75, he would like to see a resolution which has City Council on record opposing any further work on the project at this time. This project is something we need to think about since the initial estimates require an approximate five million dollar local contribution. At this time, he doesn't see the benefit to the community.

Councilman Bliss wished all the mothers a belated Happy Mother's Day. He announced that the first ITAC meeting will be Monday, May 19th at 5:30 p.m. If anyone has any question, concerns or recommendations, please email him. This is a great step forward, and he is looking forward to being a part of it.

Mayor Pro Tem Hartwell thanked Ms. Clayton for her participation at the shelter. This Sunday, along with Commissioner Gary McGillivray, he will be at the Civic Center Park cleanup event and encouraged all to participate.

City Attorney Sherman had no comments this evening.

City Manager Myers noted that with City Council's concurrence, staff will analyze and report back on the I-75 project once the revised contribution amounts are announced by MDOT.

Councilman Clark stated that this past Saturday was the Rosie's Park Annual Memorial Walk for Cristy Berger. Amy Lange was the Master of Ceremonies, and Ed Swanson was Grand Marshal. Councilman Clark gave a special thanks to Superintendent Randy Speck for his work putting the event together. He commented that next Saturday, in addition to the cleanup, is also Opening Day for Little League.

Councilwoman Scott recognized all the youth who will be receiving accolades at the annual Youth Assistance Breakfast. Youth Assistance gives awards for things that may not normally be recognized. It is a nice event, and distinguishes those children who otherwise may not be recognized. The event is this Wednesday, at 7:00 a.m., at Club Venetian. She wished a Happy Birthday to Mayor Swanson.

Councilman Soltis expressed that the Community Development Director did a great job on the items before Council this evening. He spoke to the current economic state of the economy, and noted it terms of the budget; he would be remiss not to mention that there has been a tsunami of economic injustices. He continued that people have lost homes at no fault of their own, corporate and Wall Street greed is rampant, and deregulation has compounded the problem. Poverty is widespread and economic disparity continues to widen. He spoke to the discrepancy in pay between CEOs and minimum wage earners, and court ruling regarding corporate contribution to candidates, and concluded that this has been man-made economic injustice.

Mayor Swanson echoed the sentiments of other Council members and thanked Superintended Randy Speck for organizing the Cristy Berger event. He thanked the audience for attending and offered his congratulations to the newly sworn-in Reserve Officers.

151. Personal Property Tax Reform Resolution

City Manager Myers advised that the Michigan Municipal League has asked their member communities to support a resolution for the personal property tax reform proposal scheduled on the ballot of the August 5, 2014 Primary Election.

RESOLUTION SUPPORTING LOCAL COMMUNITY STABILIZATION AND PERSONAL PROPERTY TAX REFORM WITHOUT RAISING TAXES

Motion by Councilwoman Scott, seconded by Councilman Bliss:

WHEREAS, for years, local governments in Michigan have struggled with unstable funding needed to provide services and Michigan businesses have struggled with an uncompetitive tax on business; and,

WHEREAS, small businesses and manufacturers power our economy and are the largest contributor to job growth in Michigan; and,

WHEREAS, no other state in our region taxes business equipment the way Michigan does – and most of those states don't tax it at all, which makes Michigan significantly less competitive when it comes to job creation and business investment; and,

WHEREAS, Michigan communities have struggled for years to pay for essential services like police, fire, ambulances, schools and jails; and,

WHEREAS, Michigan communities have relied on the shrinking source of Personal Property Tax revenue to provide other community services as well, including roads, transportation and libraries; and,

WHEREAS, with bipartisan support, the Michigan Legislature has voted to reform the antiquated personal property tax to help increase Michigan's competitiveness with other states and remove an onerous tax that will allow more business investment and create more jobs while providing a stable revenue source for local communities; and,

WHEREAS, while the proposed reform of personal property tax is not a constitutional amendment, the state constitution requires Michigan voters to approve certain changes in local taxes; and,

WHEREAS, the proposal will make Michigan more competitive, which will help local communities to attract more businesses and talent and create local jobs; and,

WHEREAS, the proposal is supported by the Michigan Municipal League, the Michigan Townships Association, Michigan Association of Chiefs of Police, Michigan Association of Police Organizations, Michigan Community College Association, Michigan Farm Bureau, the Small Business Association of Michigan, Michigan Sheriffs Association, Michigan Chamber of Commerce, National Association of Independent Businesses and the Michigan Manufacturers Association, among others.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Madison Heights hereby expresses its strong support for the proposal to eliminate the unfair double tax and strengthen our communities. City Council urges our residents to vote YES on this proposal on August 5, 2014.

BE IT FURTHER RESOLVED that a certified copy of this Resolution be sent to State Representative Jim Townsend, State Senator John Pappageorge, and the Michigan Municipal League.

Mayor Pro Tem Hartwell asked what the replacement mechanism is.

City Manager Myers responded that the proposed legislation calls for replacing 100% of lost personal property tax revenue with a portion of the current Use Tax, and that the replacement revenue will not be subject to annual State appropriation.

Councilmember Bliss added that this is not a new tax; credits are expiring and the State is reallocating 1% of the 6% Use Tax. He continued that this is a bipartisan solution that the majority of cities and organizations are getting behind.

159. Mayor and Council - Comments.

Councilman Corbett congratulated everyone involved on the job well done with the Memorial Day Parade. It was a worthy compliment to all veterans of our community. He gave a special thank you to Martha Kehoe and everyone on the team, and noted that a good time was had by all. He continued that he has already received a complaint pertaining to fireworks. The City has taken steps to adopt ordinances that are as tough as the law allows; however, please continue to convey your thoughts to Governor and State Legislature on the law as it exists. If you have a particular problem with fireworks in the City, please contact the Police Department so that they may follow-up.

Chief Roberts reminded the audience that fireworks are prohibited in the City of Madison Heights except for on the day before, day of, and the day after the ten national holidays, which include Memorial Day and the Fourth of July, and that fireworks are also prohibited between midnight and 8:00 a.m. on the allowed days and between 1:00 a.m. and 8:00 a.m. on New Year's Day. He encouraged any resident who is experiencing a problem to please call the Police Department.

Councilman Bliss announced that the first Informational Technology Advisory Committee (ITAC) meeting was held and was a great success. There were many great ideas, noting that staff has a long list of things to look into. He echoed Councilman Corbett's comments on the parade; we could not have asked for a better day, and it honored our veterans as it should. He stated that he had the honor of walking in the parade with Superintendent Randy Speck, noting the great strides the District has taken. Madison Schools is an emerging district and is a positive attribute for the community. He reminded residents that any time we have public gatherings, please remember that there are a lot of children with food allergies. He cautioned residents to keep that in mind, and if you notice any children having difficulty, please contact 911 immediately.

Mayor Pro Tem Hartwell stated that he appreciates the hard work of Parade Committee, honoring those that have served in our Armed Forces. May has been a busy month, with lots of activities, including park cleanups. In total, about 80 hours of work was donated to cleanup Civic Center Park. The Animal Shelter also had a cleanup, and they did a fantastic job. He spoke about his encounter with pit bull puppies and how it transformed to his attitude about the breed. He reminded residents to consider microchipping their pets and sought volunteers for the Animal Shelter for dog walking. He explained that due to the lack of an enclosed dog run at the shelter, animals staying there need to be walked every day.

City Attorney Sherman hopes everyone had a great Memorial Day. He commented that Ismail Aijazuddin is a superstar in every sense of the word and a leader. Duke is looking for leader like him. He not only makes his family proud, but his community as well.

City Manager Myers clarified an earlier discussion on Use Tax by providing examples. He stated that Use Tax includes certain classes of lodging expenses that are based on commercial or business enterprises, it is applied to certain telecommunication services, out of state businesses and purchases, personal property taxes where there is no sales tax applied, and also some rentals and leases.

Councilman Clark thanked the Parade Committee for all of their efforts, noting that even after losing one of the key organizers, they continued on and put on a great event.

Councilwoman Scott shared and concurred with her grandson's opinion that despite all of the things that Ismail has accomplished, he is one of the most humble people her grandson has met. He is always giving to others, including Kayla Kincannon. Councilwoman Scott wished Kayla and her family Godspeed, as her battle with cancer is concluding, and she expressed that our hearts go out to the family. She announced that Mr. Pietraszewski brought the City a large file used for horses hooves, found in his backyard on Darlene. She reminded everyone that they need to clean out their catch basins to prevent flooding and to allow the water to flow evenly. She congratulated the recipients of the Madison Heights Community Family Coalition Round Table and noted that the City Council gave a Lifetime Achievement award to Monte Geralds. She expressed her gratitude to all of the people and business that made the event a success and thanked Gary McGillivray, who helped with the commentary this year. She concluded her comments by thanking the VFW hall for the lunch for the parade volunteers and Save-A-Lot for their food donation.

Councilman Soltis thanked his son, Robert, for being present at this evening's Council meeting. He encouraged residents to keep an eye on Senate Bill 934, which raises the minimum wage to $9.20 an hour. This rate, however, would still keep a family in poverty. Opponents believe that this legislation is a way to circumvent the democratic process and the initiative which proposes raising the minimum wage $10.10 an hour. He announced that on June 3rd he is taking senior delegation up to Lansing for Older Michiganians Day. If there are any seniors that would like to go, there is still room, please contact him. He congratulated the Fire Department for saving an infant earlier this month. Along with the assistance of the Police Department, the infant was transferred to hospital in less than 11 minutes and he thanked them for their quick response. Lastly, parade was fantastic and he thanked all those that helped make the event happen.

Mayor Swanson thanked Roslyn Yerman for setting up Memorial Day service as well as the Police Department, Police Explorers, Parade Committee, and participants for the Memorial Day Parade.

165. Special Approval (#14-01) – Allow a Light Motor Vehicle Repair Facility in the B-3 General Business District at 32350 John R.

A public hearing was held to hear comments, if any, to permit the use of a light motor vehicle repair facility in a B-3 General Business District at 32350 John R. There being no comments from the audience, the public hearing was closed at 7:48 p.m.

Motion by Councilman Clark, Seconded by Councilwoman Scott:

WHEREAS, a Special Approval Board application has been received from Christi Calmer requesting to use the property at 32350 John R for a light motor vehicle repair facility, said property is zoned B-3 Light Industrial; and,

WHEREAS, a public hearing was published in the Madison Park News on May 21, 2014 and 84 notices were mailed to property owners within 500 feet of the aforementioned property; and,

WHEREAS, a report has been received from the Community Development Department stating:

LOCATION: 32350 John R

REQUEST: Special Approval to allow a Light Motor Vehicle Repair Facility in the B-3 District under Section 10.326(11) of the Zoning Ordinance.

EXISTING ZONING: B-3 – General Business

EXISTING USE: Car Wash and Oil Change Facility

STAFF ANALYSIS:

1. Special Approval is required to allow a Light Motor Vehicle Repair Facility in the B-3 District. In February 2014 the property owner was notified that they were operating such a facility without the necessary City Council approval. The existing car wash and Oil Change facility have been in operation for many years. The oil change operates as a legal non-conforming use and may continue to do so regardless of whether City Council approves this request. Should City Council approve this request, it would eliminate the nonconforming status of the oil change; as such an operation is allowed under the light Motor Vehicle Repair designation requested.

2. The main difference between the proposed light motor vehicle repair facility and the existing nonconforming oil change operation is that engine repair, exclusive of bump & paint, would be permitted if the special approval is granted.

3. No outside storage of vehicles awaiting repairs is permitted and the site plan has been noted accordingly.

4. Parking exceeds minimum ordinance requirements.

5. Hours of Operation: Mon – Fri: 8:00 am – 5:00 pm

6. The Site Plan Review Committee has reviewed the plan and all plan review comments have been addressed. Should City Council approve this request, the following conditions are recommended:

    a. No outdoor storage of vehicles awaiting repairs
    b. No collision, bump & paint or vehicle body repair is permitted.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(5) of the Code of Ordinances, hereby approves to permit the use of a Light Motor Vehicle Repair facility in a B-3 General Business District at 32350 John R with the above conditions 6(a) and 6(b).

Councilman Corbett noted that the business did begin light engine repair operating without having first obtained the necessary approvals, but that he would be inclined to grant the Special Approval with the hope and expectation that the business would comply with the City's rules and regulations in the future.

Cristi Calmer, applicant, was present. She apologized for operating in this capacity prior to having the necessary approvals. She had misunderstood that as long as she was in the process of obtaining permission, she could do so. As soon as she realized her mistake, she took corrective action.

166 . Meeting Open to the Public.

Chester Grabowski, 26355 Wolverine, commented on the proposed I-75 project. He believes the City needs to work toward getting this project stopped. The City could lose forty-seven (47) tax revenue producing parcels and the costs are too expensive. He urged City Council to fight the project. He also noted that lately he has seen vehicles, without license plates, at small businesses and party stores. He believes that these businesses are conducting vehicle repairs that they are not zoned for, nor do they have the proper equipment for this type of work. He would like the City to investigate further.

Community Development Director Schafer provided the departmental telephone number, 583-0831, for residents to call with concerns. All the City needs is an address and description of what is occurring so that we can look into the matter further.

167. 2015-2017 Community Development Block Grant Cooperative Agreement and Resolution.

Motion by Councilman Corbett, seconded by Councilwoman Scott, to approve the following Community Development Block Grant (CDBG) Program Resolution, authorize the Mayor to sign the Cooperative Agreement, and have the City Clerk sign and certify the resolution to participate in the Oakland County CDBG Program for program years 2015-2017:

Community Development Block Grant (CDBG) Program
Oakland County, Michigan
Urban County Qualification 2015-2017

We resolve to opt into Oakland County's urban county Community Development Block Grant (CDBG) programs for the years 2015, 2016 and 2017. Furthermore, we resolve to remain in Oakland County's urban county Community Development programs, which shall be automatically renewed in successive three-year qualification periods of time, or until such time that it is in the best interest of the local Community to terminate the Cooperative Agreement.

168. Madison Heights Police Officers Union Tentative Agreement.

Motion by Councilman Clark, seconded by Councilman Soltis, to ratify the Tentative Agreement between the City of Madison Heights and the Madison Heights Police Officers Union (MHPOU), for a three-year period beginning July 1, 2013 through June 30, 2016.

169. Award of Bid - Senior Center Fire Suppression.

Motion by Councilwoman Scott, seconded by Councilman Clark, to concur with the recommendation of Assistant City Manager Mueller and award the bid for the Senior Center Fire Suppression System to the overall lowest responsible bidder, Conti Fire Suppression LLC, in the total amount of $75,075 for Options 1A,1B, and 2.

Discussion followed on why the City chose the second lowest bidder. City Manager Myers and Mr. Mueller explained that the apparent low bidder did not include Option 2 as part of the project and that to ensure a fully functional system, simplify future maintenance and inspections, and eliminate the possibility of "finger-pointing" in the event of any future issues, it would be

staff's recommendation that one contractor complete the whole job rather than contract out portions of the building fire suppressions to different vendors. Staff also noted that significant budgetary savings will occur with the staff recommendations.

172. Mayor and Council - Comments.

Councilman Corbett acknowledged and thanked the Madison Heights police officers and the negotiators for the City for their hard work in reaching a tentative labor agreement. This is a three-year contract; it works for everyone, and provides us a template to use for the other unions within the City. He also stated that he received a copy of the request for a resolution for the Sierra Club and stated that he would like for it to move forward.

Councilman Bliss wished his wife Allison a Happy 7th Anniversary.

Mayor Pro Tem Hartwell thanked Councilman Soltis and Assistant City Manager Mueller for organizing a delegation of seniors to Lansing so that they could give State Legislators and the Governor a resolution that City Council passed supporting Michigan as a 'no wait' state for seniors. He also asked for guidance for any residents that may be experiencing problems with fireworks in their neighborhood.

City Manager Myers urged residents that are experiencing problems with fireworks during the regulated quiet hours to call the Police Department for enforcement. As for a broader solution, he noted that residents should continue to contact their State Legislators to have the current State law amended.

City Manager Myers thanked the City and Union bargaining teams for their work on the tentative contract. He reminded the audience that July 29th is the Festival in the Park, noting this is a great family event.

City Clerk Printz noted that the Clerk's Office has sent out Absentee Voter applications to all those on the permanent list. She encouraged anyone who is qualified to receive an Absentee Ballot, and is not on the permanent list, to please contact the Clerk's Office and an application will be sent.

Councilman Clark announced that the After-Glow Car Show will be held on June 22nd in front of Lamphere High School. This is a fun event and he stated that if anyone is interested in participating to get an application or call him and he will forward an application. He further commented and offered a suggestion that a progressive type fine be considered for parking violations on Garbage Day.

Councilwoman Scott stated that all children between the ages of 0-18 are qualified to receive free breakfast and lunch and breakfast at Lamphere High School during the summer. In addition, adult meals are available for breakfast at a cost of $2 and $3 for lunch. The Library has announced that they will be participating in the Michigan Activity Pass. More information is available on www.madisonheights.org/departments/library. In addition, discounts are also available for the Zoo, as well as prepaid vouchers for parking and dining. Councilwoman Scott stated that about week and half ago she had the honor of attending the funeral of Kayla Kincannon. Kayla was an angel sent to us and she changed so many people's lives with her courage and faith. She continued that Kayla passed away seven days prior to graduating, and Lamphere High School will be awarding her diploma posthumously. She stated that on behalf of the City Council, she would like a condolence resolution for all that she contributed to the community. She concluded her comments by thanking Lyla Richards and her late husband Jim, for introducing her to her husband 20 years ago.

Councilman Soltis thanked Mayor Pro Tem Hartwell for his kind words, City Manager Myers and Clerk Printz for their assistance with the resolution brought to Lansing, Jennifer Cowan from the Senior Center, Jeff Mueller for his assistance coordinating the transportation, the Area Agency on Aging 1B for setting us up with great ambassadors, and State Representative Townsend for announcing the delegation on the House floor. He stated that he was glad to see the City and the police are getting back on track, noting the police have always come through for the citizens of the community.

Mayor Swanson commented that following the Memorial Day Parade he received a correspondence from the Music Director of the Guardians of Harmony chorus stating that they were not permitted to sing the Battle Hymn of the Republic. He expressed his disappointment in this decision and stated that he was personally insulted that this was song was omitted from the event. He continued that he will work to see that it is included in next year's event.

Councilwoman Scott responded that on behalf of the Parade Committee, they are sorry that anyone was insulted and that was not the intent of the Committee members, who wish to honor our veterans.

A public hearing was held at 7:45 p.m. to hear comments, if any, to permit a Used Car Dealership in the M-1 District at 456 E. 14 Mile Road.

Chester Grabowski, 26355 Wolverine Street, asked who will be monitoring the business for compliance with the terms and conditions of the approval. He stated that there is another automotive dealership that has the same rules, and he believes they are not compliant with their approval.

William Nalu, 526 E. 14 Mile, President, Interstate Auto Care, expressed a concern that the previous tenant located at this address had very limited parking spaces. On a daily basis, they had to ask the customers of this business to park at their location. He asked if he could see what the site was going to look like.

Community Development Director Schafer explained the plan is to expand the parking area into the grassy area between the proposed facility and the tire facility and he proceeded to show the site plan to Mr. Nalu.

There being no further comments from the audience, the public hearing was closed at 7:48 p.m.

178. Resolution in Opposition to Solid Waste Management Plan Amendment.

At the request of Dennis Cowan, representing Rizzo Environmental Services, LLC, and absent any objection by Council, Mayor Swanson moved Item D-2 under Reports, *Resolution in Opposition to the Solid Waste Management Plan Amendment*, forward on the agenda to Agenda Item No. 178.

Motion by Councilman Corbett, seconded by Councilman Soltis:

Resolution of the City of Madison Heights Opposing the Solid Waste Management Plan Amendment

WHEREAS, Oakland County ("County") has a Solid Waste Management Plan ("Plan") that was prepared in accordance with Public Act 451, as amended, 1994, Part 115; Solid Waste Management; and,

WHEREAS, the law requires that the Plan identify all solid waste landfills, Type A Transfer Stations, and Waste Processing Facilities within the County and that the Plan must be amended if the County desires to include new facilities or sites; and,

WHEREAS, the Oakland County Executive received a request to amend the County Solid Waste Management Plan for the inclusion of a proposed Type A Transfer Station and a Waste Processing Facility to be located on the same piece of property in Pontiac at 900 Baldwin Avenue from Pontiac Baldwin, LLC and Rizzo Properties LLC ("Requested Amendment"); and,

WHEREAS, The Oakland County Solid Waste Planning Committee ("SWPC"), along with the staff of the Oakland County Economic Development & Community Affairs Department, which is the Designed Planning Agency ("DPA") for Oakland County have met and discussed this requested amendment to the Plan; and,

WHEREAS, the Oakland County Solid Waste Planning Committee authorized by resolution that the requested amendment be released for the required 90-day public comment period which was held from December 14, 2013-March 17, 2014 and was widely publicized to all Oakland County municipalities, adjacent counties, the Board of Commissioners, the MI Department of Environmental Quality, SEMCOG and other interested parties; and,

WHEREAS, notice of the public comment period and date of a public hearing was published in The Oakland Press on December 13, 2013 and all corresponding documents were available for public review in the Oakland County One Stop Shop, as well as on the Oakland County website; and,

WHEREAS, the applicants, Baldwin Pontiac, LLC and Rizzo Properties LLC have entered into a host community agreement with the City of Pontiac to provide the City of Pontiac additional benefits; and,

WHEREAS, a public hearing was held on February 26, 2014 at the Oakland County Executive Office Building; and,

WHEREAS, the SWPC met after the end of the 90-day public comment period and reviewed the transcript of the public hearing and considered all written and verbal public comments received during the meetings and public comment period. The SWPC approved the requested amendment and recommended that it be forwarded to the Oakland County Board of Commissioners for consideration; and,

WHEREAS the Oakland County Board of Commissioners approved the requested amendment at its April 17, 2014 meeting; and,

WHEREAS, per Public Act 451, Part 115, Solid Waste Management, Section 11536, it is a requirement that a solid waste plan amendment must receive support via resolution by no less than 67% of the local units of government (41 local units of government) within the respective county before being sent to the Michigan Department of Environmental Quality for approval; and,

WHEREAS, the City of Madison Heights has had many decades of experience being the host community of an Incinerator and a Transfer Station and is justifiably concerned about the needs of nearby sensitive receptors such as residential homes, schools and a senior center to steam, incinerator ash, odor, noise and dirt; and,

WHEREAS, the City of Madison Heights recognizes that there is a material difference between what is an appropriate and reasonable setback for a Transfer Station as opposed to a Solid Waste Processing Facility; and,

NOW, THEREFORE BE IT RESOLVED, that the

City Council (Board/Council) of the City of Madison Heights (Municipality name)

does hereby oppose the requested amendment to the Oakland County Solid Waste Plan for the inclusion of a Type A Transfer Station and Solid Waste Processing Facility to be located at 900 Baldwin Avenue in Pontiac, Michigan, for the following reasons:

1. The proposed new Transfer Station and Solid Waste Processing Facility and the north entrance gate are located immediately adjacent to residential homes and the facility itself would be located approximately 250 feet from residential homes. There is a need to

adopt a more appropriate and reasonable setback from the proposed use (which Madison Heights recommends to be a minimum of 900 feet) so as to prevent exposure to unacceptable levels of noise, odor, dust, and the disruption of the quiet use and enjoyment by the adjacent residents.

2. The hours of operation starting at 6:00 a.m. and continuing to 6:00 p.m., six days per week is excessive and would cause a violation of noise ordinances in many communities.

3. The request to permit 1,750 tons per day is more than double the expected number of daily tons, which the waste hauler anticipates bringing to the site and the related truck traffic would generate significant disruption to the adjacent residents and the overall traffic in the area, and an inordinate amount of wear and premature destruction of the adjacent road where trucks turn into and out of the facility.

4. The proposed single stream recycling operation would be implemented in an existing building that is approximately only 250 feet of residential homes.

5. The proposed use would allow for unspecified "Special Wastes" which includes sludge, auto fluff (recycling of most vehicle parts) and non-friable asbestos. The additional noise and health risks that would be generated by the handling of such materials would be unreasonable.

6. While the waste hauler may not be legally permitted to haul sludge to the proposed new Transfer Station and Solid Waste Processing Facility, other waste haulers could do so.

City Manager Myers commented that the staff-recommended resolution in opposition to the requested Solid Waste Plan Amendment is in no way related to or reflective of Rizzo Services' work as the City's solid waste collection and disposal contractor since 2010. He noted that Rizzo has done a good job as the City's refuse collector.

Dennis Cowan, representing Rizzo Environmental Services, asked Council to approve the Oakland County resolution as opposed to the SOCRRA resolution. Alternatively, he suggested that Council is under no obligation to take any action this evening. He continued that there has been a lot of time spent on this matter with the City and residents of Pontiac who are supportive of the proposed facility. There are going to be between 100 and 200 trucks operating per day, and what they are proposing is significantly less than what the residents had to live with from the former automotive plant. He stated that they will not be allowed to go below the grade, and they cannot disturb the property. He continued that they have worked very closely with the City of

Pontiac and their Council has voted affirmatively for the project. In addition, they have worked with Oakland County and the Solid Waste Planning Commission. Of all the meetings they have participated in, they have had only one negative comment related to the proposal, and no complaints from competitors or surrounding communities. The Oakland County Board of Commissioners had a unanimous vote approving the proposal, and they have the support of 51 surrounding communities. He noted that the Solid Waste Planning Commission was not supportive of SOCRRA's request to update the Oakland County Master Plan, and stated that this would require a costly investment by Oakland County. Some communities have voted on the County's resolution and some on the SOCRRA resolution. He requested that if the concerns are on the plan itself, then oppose the update and review of the plan, and approve the Oakland County resolution.

Joe Munem, Director of Government Affairs, Rizzo Environmental Services, stated they appreciated the City Manager's comments on the good job that Rizzo Services is doing in the City of Madison Heights. He stated that the City of Pontiac is taken back by the site plan comments from the staff report. He noted that they have not had a single community oppose this resolution, including those with the most immediate impact. Everything proposed is in compliance with the Department of Environmental Quality. He stated that if the City of Madison Heights does not support the resolution, they would appreciate it if Council would take no action this evening. He concluded by adding the proposal will allow Rizzo Services to become more competitive.

Councilman Corbett stated that the City has no disrespect toward Rizzo Services as they have been an excellent provider of services for the community. However, unlike the other communities, we have a 50-year experience with a transfer facility. It would be inconsistent for Council to say this is okay based on our history. As recently as four or five years ago, we found ourselves litigating the matter. To be supportive would be in contrast to our experience.

Oakland County Commissioner McGillivray stated while he did vote in favor of the resolution, there was a healthy debate preceding the vote, and he did voice objection at the meeting. He stated that the Pontiac residents who were present voiced their support.

James Capizzo, 863 Venoy, stated that he drives by a waste facility in Detroit, and asked if there was going to be any incineration at the transfer facility.

Councilman Clark concurred with Councilman Corbett's comments, stating Council is looking out for the residents of this community.

Councilwoman Scott asked if the vote on this matter could be postponed.

City Manager Myers responded that the Oakland County Economic Development Office has requested that all comments be received by June 30, 2014.

Mr. Cowan stated that the June 30th date was created by the Oakland County Economic Development Office at their discretion in order to set a timeline, but it is not set in stone. He added that the following communities with transfer stations, Southfield, Troy, and Pontiac, have all voted in favor of the resolution.

Motion by Councilwoman Scott to postpone the vote until the next regular City Council meeting.

Since there was no second, the motion was not considered.

Councilman Soltis stated that he is fully supportive and trusts our staff and the Ad-hoc Committee's report. We speak for the residents and need to keep them in mind. He concurred with Councilmen Corbett and Clark's comments.

Councilman Corbett added that regardless of tonight's vote, the project is going forward, and the City of Pontiac is supportive. His concern is for the 29,000 residents of Madison Heights. Council has to take a position on behalf of our residents. He hopes it works out for Pontiac and expressed best wishes to Rizzo Services for success.

Councilwoman Scott stated that she is ready to take a vote; however, she clarified that she does not support incinerators in any way. She commented that she does not believe she should be voting on policy for another city.

Paul Sanders, 26433 Rialto Street, stated that he works for one of the Big Three. He asked what is going to be stored, how long it will be there, what will be going out, and how the quality of our environment will be affected.

Mayor Pro Tem Hartwell clarified that the Solid Waste Management Plan Amendment issue has been worked on and studied for months by staff and the Ad Hoc Committee.

City Manager Myers advised the audience that the issue tonight is solely for the waste transfer facility plans for Pontiac and does not pertain to the SOCRRA-owned facility in Madison Heights.

Mr. Cowan responded that no garbage can stay at the facility overnight. The garbage comes into an enclosed building, they separate the recyclables, consolidated it into larger trucks, and then it goes to the landfill. The landfill that will be used for this facility is in Genesee County. No garbage is stored overnight and nothing can go underground. They will be vigilant in following the rules.

Councilman Soltis stated that it would be beneficial to respond back to the six points of concern in the report by the City.

Mr. Cowan answered that these concerns are really site plan issues to be considered by the Pontiac Planning Commission. This is an identifiable industrial area. The District Councilwoman and the residents of Pontiac have been supportive. This will not be a sludge area and is basically residential garbage coming in. He added that in the future, a recycling processing plant is proposed as well. This is a comprehensive site plan with a variety of moving parts; however, the only thing we are asking your vote on is for the transfer facility.

Mr. Munem added that they have no intention of taking sludge. He stated that there is a vast difference between the transfer facility located here in the City of Madison Heights and the one that is being considered in Pontiac. As for the Pontiac location, we can't have one scrap of garbage on the floor at the end of the day. He stated that they are not licensed to haul hazardous waste and there will be no hazardous waste at this facility. The hours of operation have been concurred to by the City of Pontiac. While they are opening at 6:00 a.m., truck traffic will be closer to starting at 7:00 a.m. The vast majority of fleet services Oakland County, with the exception of Madison Heights and Rochester Hills which have a different transfer facility. He stated that he appreciates that Council are stewards of their community and serve the residents of the City. He does not want to do anything that would be adverse to the residents of Madison Heights.

Mayor Pro Hartwell called the question.

179 . Meeting Open to the Public.

Paul Sanders, 26433 Rialto, stated he has lived at this location since Vietnam. In 1977, asphalt was installed and it has mostly been good; the concrete on Greig, on the other hand, has been crumbling. There are a couple small potholes, and asked that they'd be filled with asphalt rather than the street replaced with concrete. Mr. Myers stated the repair work will be referred to the Department of Public Services.

Chester Grabowski, 26355 Wolverine Street, reminded Council of the loud radios being played in his neighborhood. It is time that people get together and come up with a plan to fight this.

County Commissioner McGillivray stated that there will be an open house for all Red Oaks facilities, possibly in the fall. He will provide information once it is available. He stated that the incinerator building has doors that are open, and kids are hanging out and going into the building. He requested that the City have SOCRRA check the facility. Mr. Myers state he would direct staff to follow-up with the SOCRRA General Manager.

187. Mayor and Council - Comments.

Councilman Corbett announced that the Fireworks are at the Festival in the Park this Sunday and he encouraged all to come out and enjoy.

Mayor Pro Tem Hartwell stated that the Madison Heights Crime Commission will be represented at the fireworks where they will be passing out child identification kits. He requested staff prepare an ordinance on non-discrimination, commenting that one of the most vibrant debates that students had in law school were on non-discrimination laws. Currently, he feels that there is a gaping hole for protecting those with different gender identities or sexual orientation in our local ordinances. He continued by noting that the City of Sterling Heights passed a non-discrimination ordinance with a 7-0 affirmative vote. He stated that the debate pertaining to the ordinance was very lively in Sterling Heights, and additionally, approximately 30-40 cities that

have passed similar ordinances. The City of Sterling Heights compiled different ordinances that have been adopted by other communities and did a great job in drafting one that fit them. It is time for the City of Madison Heights to have this debate as well. He also stated that the Friends of Madison Heights Youth hosted the Afterglow Car Show at Lamphere High School and they did a great job with the event.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

City Clerk Printz had no comments this evening.

Councilman Clark noted that the car show was very successful, the most popular to date. He complimented the Superintendent and staff noting they had everything cleaned up 20 minutes after the event concluded.

Councilwoman Scott requested condolence resolutions for Board of Review member John Lamerato and former Lamphere teacher Brian Ramaut, as well as a Certificate of Recognition for the Premiere Music and Dance Studio.

Councilman Soltis stated that he is saddened to say that Laser Quest is closing. He expressed his appreciation to the City Manager and staff for analyzing the situation with transfer facility, noting their diligence and insight. He concurred with Mayor Pro Tem Hartwell comments pertaining to considering a non-discrimination ordinance.

Mayor Swanson echo sentiments of the Council and invited anyone interested in the audience to speak before Council.

Chester Grabowski, 26355 Wolverine, stated his concerns on the non-discrimination ordinance, requesting that proper notification and ample opportunity for debate be given.

Paul Sanders, 26433 Rialto, also expressed concerns regarding a non-discrimination ordinance.

Councilman Soltis added that a non-discrimination ordinance is not a Mayor Pro Tem Hartwell or Councilman Soltis issue, but rather the beginning of debate in the City of Madison Heights.

Dawn Clayton, 27327 Dartmouth, thanked Detroit Dog Rescue for donating an SUV full of high grade dog food to the shelter. Kong chew toys will be coming as well. She also thanked Bingo Pet Salon in Royal Oak for donating a large package of food along with dog and cat items.

195. Mayor and Council - Comments.

Councilman Corbett was sad to announce that former Hazel Park Judge Joseph Agnello passed away in late June. He noted that Judge Agnello served the 43rd District Court with distinction. He addressed the proposed I-75 project, stating last year the emphasis was on I-94 construction. His concern is over the local contribution that communities must provide for the portion of the expressway that is within their boundaries. Madison Heights obligation is estimated to be $1.5 to $3 million. Last year, despite a substantial portion of I-94 being within the City of Detroit's borders, their obligation was waived due to their financial difficulties. The City of Madison Heights technically does not have the money either, and it would require the City to bond for the money. He finds it an odd paradox that if you run your house badly, you do not have to pay some of your obligations. The City of Madison Heights runs our house efficiently but we will have to create debt to pay the bill. He stated that he is trying to keep an open mind on the matter, but his main concern is the impact and the significant burden that will be laid upon our residents.

Councilman Bliss stated that at the last Parks and Recreation Advisory meeting, the committee had a hard time getting a quorum. He requested consideration of removing student representative's attendance from the quorum requirement. The Parks and Recreation survey is available on the City's website. You can also access it directly at www.surveymonkey.com/s/MHRecSurvey2014. The committee is looking for citizen input to our Parks and Recreation Master Plan. One of our ITAC committee members, Tony Bottrell, performed an audit of our City website, and he was pleased to announce there were no major problems, just a few minor things to work on, such as fixing or removing broken links. He stated that he was out of town on business for the last Council meeting and he missed the discussion on the potential drafting of a human rights ordinance. He stated that the Madison Heights City Council has never muddied itself with partisan based fights in the past, and he believes it should not do so now. To take up this matter would be telling the state and the federal government how to do their jobs. The City Council should focus on the matters of the City. He added that the State Senator Randy Richardville is considering proposing an amendment to the Elliot-Larsen Civil Rights Act which may make the matter of adopting a human rights ordinance mute in the near future. The City has a lot of pressing issues, such as the potential I-75 project, and we need to be focus on these.

Mayor Pro Tem Hartwell gave a tip of his hat to Department of Public Services who prepared Civic Center Park for the Fourth of July festival. He also expressed his appreciation to the Police Department for patrolling and keeping the event safe, and added that the new uniforms are very professional and portray a great image for the City. He offered a suggestion that Councilman Bliss might wish to author a resolution in support of Representative Richardville's amendment to Elliot-Larsen Civil Rights Act on behalf of the

Madison Heights City Council. He continued that the City does have control over business licenses. One individual right is to keep your job despite other's fears or misconceptions. The City of Madison Heights wants to have businesses that are welcoming. He concluded by noting that regardless of the outcome of the discussion on a human rights ordinance, no Council member's personal opinions are more important than the opinion of the Council as a whole.

City Attorney Sherman stated that while Judge Agnello has been off the bench for many years, those who had the opportunity to appear before him saw a terrific judge. He was the epitome of judicial temperament and he expressed his condolences to his family.

City Manager Myers echoed the prior comments regarding the Festival in the Park and expressed his gratitude to the Department of Public Services, Parks and Recreation, and the Police Department for their work on the event, as well as the Fire Department for their support. Everyone did a terrific job.

City Clerk Printz announced that the Primary Election is on Tuesday, August 5th and polls are open from 7 a.m. until 8 p.m. The City's website has applications for an absentee ballot and you can find sample ballots for viewing on the website as well.

Councilman Clark echoed the remarks pertaining to Judge Agnello and the proposed I-75 project. He commented that he would not be in support of any such project unless he could see some positive benefits for our City.

Councilwoman Scott reminded residents 50 years and older that on Monday, July 28th, from 1 p.m. until 2:30 p.m., there will be a free Ice Cream Social at the Senior Center.

Councilman Soltis echoed Councilman Hartwell's remarks on the fireworks and Festival in the Park. All of the employees did a great job. On behalf of an employee, he requested consideration of providing a security fence behind the Police Department. City Manager Myers replied he will report back on the suggestion.

Mayor Swanson thanked Assistant City Manager Mueller, Recreation Coordinator Rochester, and Economic Development Coordinator Williams for their efforts in raising money for the fireworks. The City would not have been able to hold this wonderful event without those funds.

Paul Sanders, 26433 Rialto, doesn't believe the City should consider a human rights ordinance and he appreciated the comments by Councilman Bliss on the subject.

County Commissioner McGillivray requested that the "Welcome to Madison Heights" sign area at the south end of the city, on John R, be looked at. He stated that the weeds have taken over and it looks bad. City Manager Myers replied that he will have staff look into the matter.

199. Public Hearing - Special Approval # 13-08 - 31675 Stephenson Hwy - Expansion of Exterior Used Car Sales Area

A public hearing was held at 7:33 p.m. to hear comments, if any, to allow for an increase of permitted used car display spaces from (9) nine to (41) forty-one in a M-1 Light Industrial District at 31675 Stephenson Hwy. Community Development Director Schafer reviewed the proposed Special Approval. There being no comments from the audience, the public hearing was closed at 7:36 p.m.

Motion by Councilman Corbett, Seconded by Councilman Clark:

WHEREAS, a Special Approval Board application has been received from Waeil Fandakly requesting an increase in the permitted use car display spaces from (9) nice to (41) at 31675 Stephenson, said property is zoned M-1 Light Industrial; and,

WHEREAS, a public hearing was published in the Madison Park News on July 2, 2014 and 88 notices were mailed to property owners within 500 feet of the aforementioned property; and,

WHEREAS, a report has been received from the Community Development Department stating:

LOCATION: 31675 Stephenson Highway

REQUEST: Special Approval to expand existing exterior display area for used auto sales in the M-1 District under 10.329(5) of the Zoning Ordinance.

EXISTING ZONING: M-1, Light Industrial

EXISTING USE: Indoor / Exterior Automobile Sales and Motor Vehicle Heavy Repairs (with Collision and painting) – Previous Special Approval #10-05.

STAFF ANALYSIS:

1. City Council previously granted Special Approval at this address for motor vehicle heavy repair (with collision repair and painting) and for interior and exterior display of used automobiles for sale in the M-1 District. The applicant is now seeking special approval to expand the exterior used vehicle display area from 9 spaces to 41. This will be accomplished by proposed expansion of the rear paved area to

accommodate additional paved parking areas. This special approval would not impact previous approvals for vehicle repair operations.

2. This request is in response to code enforcement action to address non-compliance with the Special Approval for exterior used car sales. Specifically, consistent exterior display of more than 9 used vehicles for sale, some in front of the building. As of the date of this report, the site was not in compliance with the special approval, with 17 vehicles displayed outside.

3. Parking exceeds minimum ordinance requirements.

4. Hours of Operation: 9:00 a.m. – 6:00 p.m. Mon – Fri. 9:00 a.m. – 3:00 p.m. Sat.

5. Should City Council grant special approval for this proposed use, the Site Plan Review Committee recommends the following conditions:

    a. All vehicle repairs shall be conducted entirely within the building.
    b. All vehicles waiting for repair shall be stored in designated spaces as noted on the site plan.
    c. All vehicles for sale shall be displayed within the building or in one of the 41 designated outdoor display spaces on the site plan.
    d. The proposed relocated dumpster pad and enclosure shall be a minimum 10' from any building.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(5) of the Code of Ordinances, hereby approves an increase of permitted use car display spaces from (9) nine to (41) forty-one in a M-1 Light Industrial District at 31675 Stephenson with the above conditions 5(a) - 5(d).

Motion by Councilman Bliss, seconded by Councilwoman Scott, to adopt Ordinance 2106 on first reading by number and title only, as follows:

ORDINANCE 2106

> An Ordinance to amend Ordinance No. 571, being an Ordinance codifying and adopting a new Code of Ordinances for the City of Madison Heights by amending Chapter 19, Article III, Section 19-28 of the Code of Ordinances, City of Madison Heights, Michigan, to provide for the creation of a parks and recreation advisory board and to establish the composition of the parks and recreation advisory board.

Councilman Bliss provided the background behind the requested ordinance amendment, explaining that obtaining a meeting quorum has been a problem. He added that the proposed ordinance amendment will create a mechanism to remove inactive members, and still preserve the voting rights of students.

Councilman Corbett sought verification that if a person is a board member, they maintain voting rights, and asked if an at-large member can fill in for any regular board member. City Manager Myers responded that both statements are correct.

Councilman Corbett asked if there was any thought of expanding the student base, since alternates can fill in for voting members. Councilman Bliss responded that he is comfortable that alternates will fill any absences that occur and this will help resolve the quorum issue. He stated that recruiting should be expanded such that freshman and sophomores are included when a high school senior member graduates.

City Engineer Tim Germain, Nowak and Fraus, gave a background on the storm and sewer system. While most is separated, it all goes into the 12-Towns Drain. The night of the storm, the entire system surcharged and began backing up throughout the entire system and went to the lowest points. Almost 4 billion gallons of rain fell and it is unprecedented. The system is designed for a 10-year storm and this was a 300-year storm. The backup was caused by the sheer volume of water that fell, and no system is designed for a 300-year storm.

Mayor Swanson invited the public to address the City Council.

Wayne Maynard, 27789 Osmun, thanked Rizzo for doing a fine job and stated that a storm on July 7, 1998 was only 2/10th of an inch less than the storm on August 11, 2014, and our basements didn't flood then. He suspects City pumps failed.

City Manager Myers noted the City does not have any pump or lift stations. It was simply a 300-year storm.

Matis Lopez, 1463 Fontaine, stated one of the things he has realized since talking with his neighbor was that some sections without new sewers did not have flooding. Rose and Fontaine, westbound is a specific problem. The homes with the six (6) drain-hole cover were flooded; however, homes with the old 30 inch drain-hole cover were not effected as badly.

Tim Germain stated the differences in the catch basins are that they are designed to prevent flooding. The design is to have the street hold the water rather than cause it to go into basements.

Bernd Hoedl, 30553 Garry, questioned whether the information provided is accurate. He has not had a street, sidewalk or lawn since November of last year. Why did the City come out and lift those basin covers then?

Tim Germain responded that they were removing silt sacks, which were on to prevent debris from entering the system.

Bernd Hoedl, 30553 Garry, ask if the City Attorney was present, then stated the City has let us down. He didn't see a police car or fire truck in the area.

Martin Gilbert, 28705 Diesing, stated he never had a flood before. How did this happen, and why didn't they release water and let it flow downstream?

Tim Germain replied that they did release the system, and it was released by the George W. Kuhn (GWK) Drain. Everything flows through the Red Run Drain. The system took on 30 to 40 times the volume it was made to hold.

City Manager Myers reminded the audience that there are no pumps in the City of Madison Heights.

Jeff Hillard, 29091 Sherry, stated that he is interested in a time study on how quickly the water went away. It disappeared in 2-3 hours. How did it catch itself up so quickly? He thought public safety did a great job on the main streets. From a communication standpoint, he is sort of at a loss. Is there a benefit to having a drain in our community?

City Manager Myers stated he is meeting with water resource officials on September 11, 2014 to get more information.

Bernadette Turchin, 29721 Sherry, was present on behalf of her mother, Helen Piana, 30379 Garry. Her mother had almost 4 feet of water. How does it go away that fast? She thanked Rizzo for the job they have done and asked if there is any help for the residents who need it?

Tim Germain stated as the system comes and cleans itself out, a sort of a rapid syphoning takes effect. As far as the flooding, it is a matter of elevation, what's connected, whether you are on a trunk line system or have a greater diameter. Water seeks its lowest level. The difference between getting water or not could be as little as one foot of elevation.

Clifford Martin, 28698 Couzens, stated that depending on where you are located, certain areas flood. The amount of flooding varied amongst his neighbors and there should be an investigation. The thing that was most disturbing is throwing out brand new stuff and having people loot through it. What is the policy regarding trash? Mr. Martin stated that when something like this happens, the residents don't need to be taken advantage of twice.

City Manager Myers stated we do have an anti-scavenging ordinance for recyclables; however, we do not have a general anti-scavenging one. The City is looking into such an ordinance. City Manager Myers informed the Council and the audience that State law dictates when material goes to the curb, its public property; however, we are looking at an ordinance to address this issue.

Tim Germain stated that to possibly lessen the impact due to heavy rain, residents should be sure to repair any broken downspouts and gutters or

plugged ones, which would cause greater flooding, and may cause damage to footings. Also make sure you have extensions on the downspout of approximately 10 feet.

Matthew Fredericks, 1221 Beaupre, applauded Rizzo; however, it had been 18 days since our garbage has been picked up from the storm. What took so long for the City to help out? Once the City workers came, it went so much faster. Mr. Fredericks stated he was disappointed at the spin control on the website, using a disclaimer for the insurance form.

City Manager Myers stated that it had to do with allocation of DPS resources, but City crews were out since Thursday, and the City moved 125 tons of refuse, where Rizzo moved the majority, 96% of the total.

Charles Rizzo, Jr., stated that Rizzo Environmental Services picked up 1,100 tons on the first Saturday after the flood. There were 20 trucks in the area when we started, and ended with close to 35 trucks in the City. In addition, Rizzo had trucks out both days, this past Saturday and Sunday, along with City crews.

James Restuccia, 28816 Alger, concurred with previous comment regarding the disclaimer on the form. Mr. Restuccia would like to know what is in the DEQ order, and he would like to see it published as it relates to the dumping at SOCRRA. Rizzo did a good job, but if we don't get assistance from FEMA, how is the City going to pay for these extra services received?

City Manager Myers stated that Public Act 222 requires us to make the form available, as there is a process for claims. Relating to defects in the system, the website language regarding the form is not for “spin control” but so that residents understand how the law works concerning liability and so that the City does not distribute the form under false pretenses or to have the effect of raising expectations. The form is also important for reporting damage information to the state and federal governments. He continued that all the numbers that we are giving out tonight are preliminary and are just estimates in terms of the damage. We are only two (2) weeks out from the event.

Alfonzo Millet, 28138 Alger, stated he sustained a large loss like many other people here. What help are we going to be getting from the City? If we have to repair our basements, do we have to pay for the repairs? He further stated he has an estimated loss of $40,000. Some people in our City have no or limited income and need help.

Andrew Binienda, 324 W Hudson, is mainly concerned with the SOCRRA dumping. Why did we come to a point where they could only dump trash here? Are they in violation of any laws and are there any health concerns? Did it

have to be dumped here as opposed to staying on their own community's lawns? Were there any other options?

Charles Rizzo, Jr., President of Rizzo Services commented none of the garbage from Madison Heights went to the Madison Heights SOCRRA site. We were taking the trash to Warren transfer station and the Detroit Center Area.

Hugh Thomas, Special Environmental Counsel for the City, stated that we had no choice and were ordered by the State of Michigan. We had the police preventing it, until ordered by the State to open. The best we could do is to get the intent to have it removed by September 1, 2014. The state has worked to get landfills to stay open longer, and we expressed that moving it from one sensitive area to another does not solve the problem. SOCRRA was using the Troy facility and it was full. The problem was with the large volume of waste being collected, SOCRRA contractors couldn't get trash to a landfill.

Bob Seeman, 30237 Longfellow, suggested the City should pay for permits for repairs. We should not have to pay for those. Mr. Seeman stated that because of the construction, the drains were shut. If there were drainage, there wouldn't have been such a large flow. This water drained south when the normal flow is to the north.

Tim Germain stated there were silt sacks in the catch basins in the vicinity of the construction. 13 Mile Road was flooded, so that is why the water flowed that way. The silt sacks did not have an effect on the flooding. The construction had no effect at all on the flooding situation on the street.

Karen Settle, 30514 Garry, works for the City of Warren Fire Department. Certain areas were hit harder than others. Over the past couple of years, we have had a lot of flooding. It was a running stream coming across Longfellow. It was horrifying to watch the water come in from the both drains and toilet. The water was coming in the back door and water was running down the stairs. The water came up 4½ feet up in the basement and flipped over the bar. She is just looking for answers. The City of Warren is waiving permit fees. What would FEMA do for us? She questioned that a few neighbors haven't put anything out to the curb on two vacant houses, despite reporting them. Are we going to get tickets for trash? She would like to see why their homes flooded prior to this flood event.

City Manager Myers stated that the City has temporarily suspended code enforcement for trash at the curb.

Carmen Rodriguez, 31430 John R Road, stated that, as far as insurance claims go, they do not cover floods. She recommends that if anyone files a claim, file it under sewage backup and not under flood damage. In regard to SOCRRA,

when is the clean up going to take place? Garbage can become airborne, causing respiratory illness. Also there is an annex for challenged students at the school. What will happen if school doesn't open? Ms. Rodriguez stated she attended Troy Community Center and the nurse recommended a Hepatitis A and tetanus shot for anyone who had contact with the water.

City Manager Myers stated the State authorization expires September 1, 2014. We continued to monitor daily, and as of today, it has been closed for new deliveries and is currently only taking refuse out. The City has contacted officials at John Page Middle School, and offered alternative City sites if they choose to use them for any outdoor activities they have scheduled, assuming that other Lamphere District sites are unavailable.

Robin Seeman, 30237 Longfellow, has a concern with a neighbor that has done nothing with his house in 22 years. The occupant harbors cats to begin with, the stench is atrocious. Everyone in the neighborhood had taken debris to the curb; however, this person has not removed anything. Who or what do they do when the odor becomes unbearable? She wants to turn the issue in now.

City Manager Myers stated that there appears to have been a pre-existing condition and he suggested that Ms. Seeman give the address to Code Enforcement for further investigation.

Carol Heck, 29379 Milton, stated that never ever have we seen such a phenomenal disaster with no help, especially for our seniors. We went to the county for help and Warren's Mayor was out and immediately got help for their residents. What is wrong with this City all of a sudden? What is going to happen with taxes that are due at the end of this month? We have put out $50,000 worth of damage. Our whole basement was destroyed and our whole life went out to the garbage. On the first two blocks of Elliott, they had tons of stuff and it is loaded again. Where were the City trucks, why weren't they out sooner? What is Council doing?

Mr. Soltis stated his basement was flooded; Ms. Scott stated that she was trying to save the historical items here, and Mr. Clark stated that he was still trying to clean up from the storm two weeks prior where a tree had damaged his garage.

City Manager Myers reiterated that the City trucks were out prior to this Saturday. The City crews were able to move 125 tons while Rizzo did 3,900 tons of trash. Additionally, there were issues with the hours that the landfills were open. He also shared contact information for Samaritan's Purse International Relief, which is helping homeowners affected by the floods. People needing assistance to should call 248-547-8646.

Martin Gilbert, 28705 Diesing, stated that storm water is supposed to be divided from the sewer, so what does the storm water have to do with the sewage coming up our drains? Mr. Gilbert expressed some concern about a noise coming from a manhole cover at the 12 Mile Road and John R Road area.

Tim Germain commented that the system is primarily separated in Madison Heights; however, there are some areas that are still combined and every time we reconstruct a street in a combined sewer area we separate the systems. For all the other cities that flow into the 12-Towns Drain, the primary purpose of that facility is pre-treatment. Madison Heights is downstream, so the water that is already in the system is pressing down on the system, and raises the levels. The system itself is 60-80 years old. The facility has been expanded, but the original system is old, and as we add neighborhoods and connect more homes to the system, it taxes the system. Changes to the road are to redistribute the water, not to decrease the water.

Mr. Gilbert questioned the sewer line on the north side of 12 Mile Road near John R Road. City Manager Myers stated that we have observed dry weather surcharges in that line; it is a non-pressurized Water System Resource Commission sewer line that interconnects with Detroit.

Mr. Lopez asked that under the assumption that there is no FEMA help, what kind of financial help can we expect from the City to compensate the residents?

Mayor Swanson stated right now, nothing. It goes from City to County to State to Federal. According to Congressman Sander Levin, FEMA has never worked with a flood. They have worked with hurricanes and tornadoes, but have never given assistance to a flood. City Manager Myers stated we are working hard to get FEMA assistance. Currently, however, a Presidential Declaration has not been made.

248. Mayor and Council - Comments.

Councilman Corbett stated his basement was totaled and he lost a car. We took a hit. If it weren't for my two sons, I would be in worse shape. He requested for staff to review and recommend a temporary waiver for permit fees for those homeowners that have a loss in their basement. City Manager Myers will talk to staff and report back. He also asked if we could have tonight's meeting run a few additional times due to the good information provided. We've been talking with local lenders to see if they might be able to assist with loan programs for residents. Not aid or assistance, but just some help. As for how are we going to pay for this? We do have some funds; call it a rainy day fund. He stated he doesn't foresee a tax increase. We were successful with some social media and put out reports. Where were the City trucks? There

were a number of ongoing projects that the employees could not just walk away from, and he also noted the limited utility of DPS actually picking up garbage.

Councilman Bliss finds it incredibly interesting that two weeks ago we were talking about the rain and congratulating him on the birth of his son. He has suffered thousands of dollars' worth of damage. We've been in the community trying to help out in any way that we can. The reality is we cannot do this without aid. This was a massive tragedy, without state or federal help, our residents will be left holding the bag. He requested staff write a resolution requesting aid. He stated we need to put a mechanism in place to waive building permit fees. He wants residents to do their repairs the right way with licensed contractors. If there were any tickets for cars in the street, he requested that they are also waived or reimbursed, and asked for staff to look at extending tax due dates and waiving late fees. He encouraged everyone to be involved and welcome any new ideas. He thanked all of the officials and candidates that have been here, including Congressman Sander Levin, County Commissioner Gary McGillivray, and State Representative candidate Greg Didillion. Finally, our City is blessed to a degree; we had no fatalities or serious injuries. He thanked those in our community that stepped up and helped. We have a community that will stand together in the face of diversity. There will be a lot of rebuilding efforts in the next couple of years. If you can help, please continue to do so.

Mayor Pro Tem Hartwell thanked Mayor Swanson for chairing and having a dialogue with our citizens and professionals. Tonight we obtained a lot of great information. The City Council, Mayor, our residents, and business owners all suffered loss. We are all struggling, we are not all insured and we aren't all rich; we weren't ignoring you and we are feeling the same pain as you. The State of Michigan is beautiful and we protect it with the MDEQ. In his opinion, SOCRRA illegally dumped for four days prior to getting State authorization to do so. The City of Madison Heights was never going to give permission to illegal dumping. He asked the City to penalize those involved and to investigate the illegal dumping over the four day period. The State Attorney General has picked sides and he will defend SOCRRA, so Mayor Pro Tem Hartwell would like to go above the Attorney General if possible. The day after they clean up the site, he would like action. He was disappointed by the surrounding communities and only had return phone calls from a handful when he reached out to discuss the matter. We were able to figure out what to do with our trash and they should do the same. He noted Oakland County's request, and asked surrounding communities to find a 5-acre site to take their trash back to.

Assistant City Attorney Sherman thanked Hugh Thomas for the assistance in shutting down the incinerator. When the illegal dumping occurred, Mr. Thomas was able to work with MDEQ, Homeland Security and the State to mitigate the issue.

City Manager Myers thanked legal counsel, department heads, front line staff, and Rizzo services for doing an admirable job. He stated he is proud of the staff. Regarding extending the tax payment due date, we will check with Oakland County, but the deadlines may be State mandated by the General Property Tax Act.

Councilman Clark stated we know we have a problem, we are working at it.

Councilwoman Scott thanked everyone who came out and talked with us. So many of you are devastated and we want you to share and try to help when we can. It is our responsibility to try to help. She thanked City Clerk Printz for trying to save our records on the night of the flooding. She would like the report given tonight on the website as well as on television and for it to be repeated often. She thanked Ben and Jeff and all DPS employees who assisted with our historical records and recovery effort. Photographs are so important, and she stated that if you have a photo that is 30-40 years old, you may be able to save them. If you soak that photo in clear tepid water, hang it to drain without touching it, they may be salvaged. She offered to help anyone needing assistance with saving photos.

Councilman Soltis appreciated everyone coming out to speak tonight. He said he understands that you are angry, hurt and need relief. We are here and want to help. He lost his car and his basement was flooded. Everything that he treasured is gone and he understands what the residents are going through. He agrees that the President needs to declare an emergency. He agrees with ordinance regarding garbage pickers and he is dedicated to getting permits waived as well. Call anytime, we are here to help.

Mayor Swanson congratulated City and DPS staff for the fantastic job, and said he is proud to be the Mayor. If people want to contact him, please leave a phone number and I will return your call, and he concurred with Council's comments from tonight's meeting.

264. Mayor and Council - Comments.

Councilman Corbett stated that he was pleased with the promptness of staff in putting together a program to waive permit fees for flood victims. He commented that he mentioned at the last meeting a potential loan program through a local institution, and he noted that they will be meeting later this week. He will keep everyone updated as information becomes available.

Councilman Bliss stated that the flood reminded him about safety and how at a time like this, it may be difficult to get help to those in need. We were fortunate; no one was injured in Madison Heights. He continued that there are a number of locations throughout the City where there are defibrillators; however, it may be difficult for the public to know where they are. These are lifesaving devices, and he has asked ITAC to look into how this information may become available to the public so that they can act in an emergency environment. He suggested that the information be kept on the City's website, or perhaps a mobile app designed for Madison Heights, and he asked staff to look into these ideas. City Manager Myers responded that staff along with the City Attorney will review the request and report back. He concluded by wishing Councilwoman Scott and her husband, Jack, a happy 18th wedding anniversary.

Mayor Pro Tem Hartwell wished Councilman Bliss a happy birthday. He asked City Engineer Germain to review for the audience how the restricted catch basin covers are designed to work.

Tim Germain, City Engineer, Nowak and Fraus, stated that the restricted covers are smaller than a regular catch basin cover. The goal of the covers is to slow the water infiltration to the sewer/storm system. Whenever we do a new road, we slow the rate of infiltration and improve the ability for water to be captured. Once water gets into the ground, it could come up through the drains and into basements. As for the August 11th flood event, in the 12-Towns Drainage District, 2.5 - 4 billon gallons of rain fell; the capacity of the drain is 124 million gallons and it was not designed to handle this large capacity of rain water. City Manager Myers added that the Community

Development Department's informational brochure on restricted catch basins and how they work will be available for Council.

City Manager Myers gave an overview of the GoFundMe program and the fundraising effort to help elderly, moderate to low income seniors and disabled persons with flood related repairs. To date, approximately $3,000 has been raised and some monies have already been disbursed for water heater and furnace replacements. He announced the 30 Day Pass the Bucket Challenge, noting local businesses are getting behind the fundraising by donating a portion of their proceeds to the GoFundMe efforts. The participating businesses and dates are available on the City's webpage, and he encouraged new participants to fill any open dates and everyone to patronize the participating establishments.

Councilman Clark thanked City Engineer Germain for the explanation tonight as well as at the meeting of August 25th. He stated that his street and two others have been without power since last Friday; however, today a Cass City tree company completed the required tree removal in about 4 hours. The neighborhood is now waiting on DTE to fix the wires and restore the power.

Councilwoman Scott announced the Walk a Mile in Her Shoes fundraiser at Civic Center Park this Saturday, September 13th. Registration begins at 9 a.m. and information on the event can be found at www.madisonheightswalkamile.com. She requested information regarding the event also be put on the City's website. She read a letter she received from Beth Pollatz, whose son Bruce was attending Movie Night at the library the night of the flood. She expressed gratitude to Tanja Roy for looking out for her son while they made several attempts to pick him up during the flood. She read the letter, and asked that a Certificate of Appreciation or Council thank you letter be given to Tanja and the employees of the library for their efforts on August 11th. She wished a happy birthday to Councilman Bliss and Mayor Pro Tem Brian Hartwell, and thanked her husband for his support and wished him a happy 18th anniversary.

Councilman Soltis stated that he is glad we can get together as a City and help those in need. We are one of three municipalities that are waiving permit fees to help residents. He firmly endorses the resolution requesting flood assistance and cannot stress how much the City needs the help. He encouraged all to participate in the Pass the Bucket Challenge. He welcomed the new businesses approved tonight and thanked them for making the Madison Heights their home. He concluded by expressing congratulations to Councilwoman Scott on her anniversary.

Mayor Swanson concurred with the previous Council comments and acknowledged SOCRRA for removing the trash in a timely manner. He

congratulated Councilwoman Scott on her anniversary, and wished a happy birthday to Councilman Bliss.

Jim Cappizzo, 863 Venoy, stated that the shelving store on 11 Mile has 25% discount on shelving until the end of the month.

268. Public Hearing to consider a Resolution Approving the Comcast Uniform Video Service Local Franchise.

A public hearing was held at 7:35 p.m. to hear comments, if any, to consider a Resolution Approving the Comcast Uniform Video Service Local Franchise. There being no comments from the audience, the public hearing was closed at 7:36 p.m.

Motion by Councilman Corbett, seconded by Mayor Pro Tem Hartwell:

A RESOLUTION REGARDING COMCAST UNIFORM VIDEO FRANCHISE

WHEREAS, the City of Madison Heights is the local franchise authority under the Uniform Video Services Local Franchise Act ("Uniform Act"), Act No. 480 of the Public Acts of 2006, as amended; and,

WHEREAS, on September 5, 2014, Comcast of Colorado/Florida/Michigan/New Mexico/Pennsylvania/Washington D.C., LLC ("Comcast") submitted a Uniform Video Service Local Franchise Agreement ("Uniform Franchise") to the Madison Heights City Manager; and,

WHEREAS, Comcast has agreed to pay to the City an annual video service provider fee of five (5) percent of gross revenues and to pay to the City for the cost of public, education, and government ("PEG") access facilities and services an annual fee of one (1) percent of gross revenues.

NOW, THEREFORE, BE IT RESOLVED that:

1. The Uniform Franchise submitted to the City by Comcast is complete for purposes of Section 3 of the Uniform Act.

2. The blank on Page 4, Section VI(A)(ii) of the Uniform Franchise shall be completed by inserting "five (5)" as set forth in the attached Exhibit 1 so that Comcast is required to pay to the City an annual video service provider fee of five (5) percent of gross revenues.

3. The blanks on page 6, Section VIII(A) shall be completed as set in the attached Exhibit 2 so that Comcast is required to pay to the City for the cost of PEG access facilities and services an annual fee of one (1) percent of gross revenues.

4. The Mayor is authorized and directed to execute the Uniform Franchise on behalf of the City and the Clerk shall deliver a certified copy of this resolution and an executed copy of the Uniform Franchise to Comcast.

269. Meeting Open to the Public.

There were no comments from the public.

270. Resolution Consenting to Assignment and Change of Control of Cable Television Franchise.

Special Telecommunications Counsel Lehto stated that the proposed resolution is Comcast's request for the City to consent to a change of control in their franchise. Although approval for the Change of Control is not required by State law, Comcast has also requested a renewal of their franchise agreement with the City of Madison Heights and they submitted both requests at the same time. Comcast is spinning off a portion of their customers to the new entity, Midwest Cable/GreatLand Connection. He explained that only after the merger takes place, the new entity will absorb Comcast's subscribers.

Mr. Gerald Smith, Senior Manager for Government and Regulatory Affairs for Comcast, gave an overview of the request. He noted that Midwest Cable/GreatLand will have 2.5 million legacy customers in the Midwest and south, half of them from Michigan. After the spinoff, Midwest Cable/GreatLand will be the 5th largest cable provider and will retain both Comcast employees and their assets. Comcast will have no ownership or management interest in the new company and there will be a transitional service agreement to assure a smooth transition between the two companies. He noted that the new President and CEO will be Michael Wilner, who has vast experience in the cable industry.

Motion by Mayor Pro Tem Hartwell, seconded by Councilman Clark:

RESOLUTION OF CONSENT TO ASSIGNMENT AND CHANGE OF CONTROL

WHEREAS, Franchisee has filed an FCC Form 394 with the Franchise Authority with respect thereto; and,

WHEREAS, the Franchise Authority has considered and approves of the Transaction.

NOW, THEREFORE, BE IT RESOLVED BY THE FRANCHISE AUTHORITY AS FOLLOWS:

The foregoing recitals are approved and incorporated herein by reference.

1. The Franchise Authority consents to the Transaction.

2. The Franchise Authority confirms that the Franchise is valid and outstanding and in full force and effect and there are no defaults under the Franchise. Subject to compliance with the terms of this Resolution, all action necessary to approve the pro forma assignment of the Franchisee and change of control of the New Franchisee to Midwest Cable has been duly and validly taken.

3. Midwest Cable or New Franchisee may (a) assign or transfer its assets, including the Franchise, provided that such assignment or transfer is to an entity directly or indirectly controlling, controlled by or under common control with Midwest Cable; (b) restructure debt or change the ownership interests among existing equity participants in Midwest Cable; (c) pledge or grant a security interest to any lender(s) of Midwest Cable's assets, including, but not limited to, the Franchise, or of interest in Midwest Cable, for purposes of securing any indebtedness; and (d) sell equity interests in Midwest Cable or any of Midwest Cable's affiliates.

4. Upon closing of the Transaction, New Franchisee shall remain bound by the lawful terms and conditions of the Franchise.

5. This Resolution shall be deemed effective upon adoption.

6. This Resolution shall have the force of a continuing agreement with New Franchisee, and the Franchise Authority shall not amend or otherwise alter this Resolution without the consent of New Franchisee and Midwest Cable.

Loans for real property can be as large as $200,000 and for personal property $40,000 for both homeowners and renters. Businesses may qualify for loans up to $2 million, including economic injury loans due to lost revenue, and working capital loans. All loans can have a term of up to 30 years. She added that there is help for non-profits as well, which would include churches. 294. Mayor and Council - Comments.

Councilman Bliss stated that he has personally gone through the FEMA/SBA process, and it is very easy. FEMA staff has been accommodating and helpful and he has received similar feedback from others going through the process. If you haven't called yet, make sure to do so. In addition, there are three sites set up for assisting those with questions. Grants as well as loans are available, so if you have a furnace or water heater that were submerged but are still operating, they could still fail, so make sure you get the assistance that you need. Make sure things are looked at now. He thanked Clerk Printz for working to recruit student workers and noted that this was a great opportunity for students to have exposure to civic duty. With Halloween coming up, anyone who may have concerns for children with food allergies, there is the Teal Pumpkin Project. This is a project to promote distribution of non-food

alternatives on Halloween, such as bubbles. If you'd like to participate, place a teal pumpkin on your porch, and those looking for alternative households will be able to identify you.

Mayor Pro Tem Hartwell congratulated Mayor Swanson on the Open House at the Red Oaks Nature Center and Suarez Friendship Woods.

City Attorney Sherman stated that as a member of the Election Commission, he too thanked Clerk Printz for adding more student inspectors; with their technical knowledge, it can only help at polls. He applauded Suzette Geisel for her efforts at the animal shelter and obtaining a grant for improvements.

City Manager Myers thanked Suzette Geisel for her work at animal shelter. He provided the contact number for FEMA: 1-800-621-3362, and noted that FEMA representatives are available from 7 a.m. – 11 p.m., seven days per week.

City Clerk Printz encouraged anyone needing an absentee ballot for the November 4th General Election to contact the City Clerk's office for an application.

Councilman Clark had no comments this evening.

Councilwoman Scott stated that she was impressed with all of the homecoming festivities from each of the City's high schools. At Lamphere High School, both the Chief and Deputy Police Chief were present. They had a captive audience and gave a proposal to make a video presenting the dangers of drunk driving. She acknowledged all the students who participated and applauded them for working with the police and the Family Youth Coalition to create the videos. She announced the Youth Assistance Spaghetti Dinner is scheduled for November 20th at Wilkinson Middle School, with all proceeds going toward Youth Assistance projects.

Councilman Soltis stated he was glad to see more businesses coming to Madison Heights, noting our Economic Development staff is doing a great job recruiting new businesses. He also filed an application with FEMA, and encouraged others to call as soon as possible. There are 600 FEMA representatives in our area currently. He advised that while they are asking for picture identification, they are not asking for any confidential information such as social security numbers. He continued his comments by stating that under the current Governor, a retiree pension tax of 4.25% was implemented and was projected to raise $330 million dollars in additional tax revenues from those born after 1952. In addition, Homestead Property Tax changes were also put into place, making it more restrictive to receive a credit. He commented that it is a shame that hardworking seniors were affected by both of these changes at the state level, and it is his opinion that the pension tax is unjust. He

requested that City Council adopt resolution in support of repealing the retiree pension tax.

Mayor Swanson noted that 63 years ago this Thursday, he had his first date with his wife and, fortunately for him, she is still with him.

County Commissioner Gary McGillivray questioned that with all the flooding, whether valves (or backflow preventers) are required as part of our ordinances. Community Development Director Schafer replied that the City adopts and follows State codes. Residents can put in backflow preventers; however, it is not required.

Alex Winkler, owner of Bread Basket Deli, extended an invitation to City Council to attend a ribbon cutting for the new Madison Heights Bread Basket. He stated that he has owned Bread Basket Delis for 47 years and has locations in 12 different cities.

Mayor Swanson announced that to date, 733 applications have been filed with FEMA from Madison Heights residents.

Councilman Bliss added that FEMA money can be used for preventive measures as well, such as installing backflow preventers.

356. Mayor and Council - Comments.

Councilman Corbett expressed his condolences to the VanSice family, and remarked that Jerry was a terrific lady and spark plug in the community. He stated that he was proud to have known her and their father, Richard. He noted that the City has lost other great community activists this year, including former Mayor Monte Geralds, among others. The August 11th rain storm tested our resources and humanity, and he stated that he is proud of how our community reacted in a time of crisis. He reminded residents that flood-related permit fee waivers are in effect until December 31, 2014. On behalf of his wife, Linda, their new four-legged family member, Judy, and himself, he wished everyone Happy Holidays.

Councilman Bliss wished everyone a Merry Christmas and Happy New Year. Please take time to enjoy the moment with your family; it is easy to get lost in the shuffle during this busy time of year.

Mayor Pro Tem Hartwell thanked the VanSice family for coming this evening to receive the Condolence Resolution. He stated that Jerry VanSice was an amazing woman and helped in making Madison Heights a great community to live in. She had a deep impact on our City, children, city politics, and she had a lot of interests and great ideas. The City has suffered a big loss and Jerry VanSice is an inspiration to us all, and he stated that he is proud to have known her. He continued his comments by noting that this past year has been busy. A few examples include City Council introducing and training two new members, a successful Memorial Day Parade, and experiencing an historic flood. He commented that he is proud of our Council for digging in during the flood and becoming environmental stewards for our residents in that time of crisis. Next year there will be challenges and opportunities, and City Council will be examining how we manage our city, including changes in the Department of Public Services and Information Technology. He hopes that City Council can recommit itself to public safety, which has obviously been trimmed due to budget constraints, and possibly restore some budget gap measures.

Assistant City Attorney Sherman expressed Season's Greetings, and wished all residents a Merry Christmas and Happy New Year. He thanked our first responders for their continued hard work in the community.

City Manager Myers expressed his condolences to the VanSice family and wished everyone Happy Holidays.

Councilman Clark stated that he has known the VanSice family for many years, and the memory of Jerry and Richard will last forever in the City. He stated that he and his lovely wife, Lois, recently celebrated their 56th wedding anniversary, and he wished everyone Happy Holidays.

Councilwoman Scott commented that since City Council will not meet until after December 26th, she wished a Happy Birthday to Lois Clark. She stated that Jerry VanSice is someone who will never be forgotten. She also noted that she has the honor of sitting in former Councilman Richard VanSice's Council seat. She continued by stating Jerry did countless good for our City and was well loved. She noted that representatives from the Madison Heights Intermediate Women's Club were present this evening in support of the VanSice family and she expressed her appreciation for their attendance. She thanked the Madison Heights Intermediate Women's Club for all of their work they have done this past year for the City. She announced that the Madison Heights Historical Commission received a check or $150 from the Madison Heights Intermediate Women's Club to help with Heritage Room expenses and she expressed her gratitude for the donation. Councilwoman Scott commented on the passing of other great community activists Monte Geralds and Jim Richards, noting they are missed. To all of you that have lost someone

important, please think of your loved ones that surround you and makes sure to let them know how much you love them this holiday season.

Mayor Swanson read his 2014 Annual Report on the accomplishments of the City Council, City Manager and City Departments during the year. He expressed thanks to his wife and family for their donations toward the City's Christmas lights and to the Department of Public Services for a job well done in putting them up. He concluded his comments by stating that both Jerry and Richard VanSice were terrific people, and he wished everyone a Merry Christmas and a happy, healthy, and prosperous New Year.

CM-15-4. Presentation – Proclamation in Honor of the City of Madison Height's 60th Anniversary.

City Manager Myers read the following Proclamation honoring the City's 60th Anniversary into the record:

CITY OF MADISON HEIGHTS
60th ANNIVERSARY

WHEREAS, this year marks the 60th Anniversary of the City of Madison Heights, which was incorporated on January 24, 1955; and,

WHEREAS, approximately 30,000 people call Madison Heights their home; and,

WHEREAS, many individuals, volunteer organizations, and elected officials have made significant contributions to the development of Madison Heights over the past 60 years, overcoming adversity, and making Madison Heights a better place to live and conduct business. Together, we have worked hard to maintain a full service and forward thinking community.

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and City Council of the City of Madison Heights do hereby proclaim that the Year 2015 be dedicated to the

60TH ANNIVERSARY OF THE CITY OF MADISON HEIGHTS

and, on this memorable occasion, extend praise to all the members of community who have dedicated their time and talent so generously through the years to make Madison Heights their home and the City of Progress.

City Manager Myers highlighted some of the upcoming events and activities celebrating the anniversary including: a 60th Anniversary logo and letterhead; 60th theme for 4th of July festivities and other city events; publication of 60 little known Madison Heights facts; promotion of 60 geocaching locations in the city; solicitation of people with 60th birthdays; 60th wedding or business anniversaries and special recognition at a future Council meeting; label pins, shirts and sweatshirts available for purchase; and a planting of a 60th anniversary tree in the City.

CM-15-6. Meeting Open to the Public.

Randy Speck, Superintendent of Madison District Public Schools, 3903 Nutcracker Court, Oxford, announced that after several months of delay, the rocket transporting the Wilkinson Middle School experiment and flight patch was launched successfully on Saturday. The rocket docked with the International Space Station today and the experiment is scheduled to take place next week. He also announced the opening of Madison Elementary which will take place in a few weeks. He also expressed his disappointment that some disparaging comments by a City employee were made on a personal social media outlet and stated that the school district believes in what they are doing. He requested City Council support of their efforts and stated that he is looking forward to future partnering opportunities with the school district and the city.

Albert Morrison, Madison District Public Schools Board President, 26685 Townley, stated that while he appreciates the Fire and Police Departments' hard work to keep our city a safe place every day, he is upset with some disparaging comments made about the school district by a firefighter on social media. He highlighted positive examples of the things the school district was doing, outstanding graduates, and notable alumni. While he encourages free speech, he wished this person would have chosen to not exercise it the way that he did and believes an apology is in order.

Bill Pittman, 27768 Delton, expressed that the remarks made about the district angered and disappointed him. He stated that he would appreciate

support from Council, the Mayor, and the City Manager and stated an apology should be made.

Councilman Clark thanked the school representatives for their comments, and noted that programs such as the Madison District partnering with GM and the United Way to help address the need for skilled labor is an example of one of the many fine things the district is doing.

Mayor Swanson stated that he and Council support the Madison District Schools 100%, and he thanked everyone for their comments.

Councilwoman Scott stated that she was incensed by the comments made and noted that we would never be the city we are without the Madison District. The people who attend the district and alumni are instrumental to the City. The school district did not deserve any of this. She continued that she is embarrassed that an employee of the City made these comments, and supports the request for an apology. She said that the district has every reason to be proud of the progress that has been made, and she thanked everyone for being here this evening.

Mayor Pro Tem Hartwell stated that he is a proud graduate of Madison District Public Schools. He noted that the Mayor speaks for all of us and added that Council was embarrassed by the comments. We know the positive impact that the district has on the City, and we appreciate all that they do. He asked if Superintendent Speck would like to highlight any other things happening in the district. Superintendent Speck responded that a few of the exciting things happening in the district include: the Middle School just finished and the High School is starting up their robotic season; the Construction Trades program is participating in an opportunity to build and develop housing. The housing project is going to be a catalyst of economic growth. In addition, a Robotics certification program is about to begin. Only five other schools in the State are doing this program.

Councilman Corbett stated that no employee speaks for this Council or the community. The posting was uncalled for, and it is an opinion that does not represent our community. While free speech is free speech, we unfortunately cannot legislate manners.

Councilman Bliss stated that the comments offended him. Innovation tied to success is what he finds important. The City Council cares about the school district, and with so many great successes, don't let one person on social media get you down. He also commented that whatever the City can do to help people understand the great things the district is doing, let us know, we are on the district's side. One single employee does not speak for the Council or this City, and he looks forward to partnerships and opportunities to work together.

Councilman Soltis appreciates tonight's comments and recognized the district's anger and pain. He reiterated that no one on Council condones this

behavior. The list of successes and programs provided this evening shows that it is an incredible district and they have his and Council's full support.

CM-15-30. Industrial Facilities Tax Exemption Certificate Request - H&L Tool, located at 32701 Dequindre.

A public hearing was held at 7:37 p.m. to hear comments, if any, on an Industrial Facilities Tax Exemption Certificate for H&L Tool, located at 32701 Dequindre.

Steven Gertz, Controller for H&L Tool, 32701 Dequindre, thanked City Council for reviewing the abatement request. He stated that H&L Tool has been in business approximately 70 years, and has been located in Madison Heights for the past 50 years. The business started in a basement, and has grown to over 100 employees. They are a 2nd and 3rd Tier automotive supplier and supply other industries as well, providing tooling all over the world. They have received many quality awards, and perfection is imperative in their trade. They need to expand their operation, and without the expansion, they will not be able to provide a quality product to their customers.

Councilman Clark noted that he recently toured the facility. They are proposing to add an additional 26,000 square feet, and added that they currently have an abatement for new machinery. Because of the abatement, they were able to retain their employees. He stated that they employ approximately 112 people, and the location can facilitate the expansion.

Councilwoman Scott asked where on the property the expansion would take place. Mr. Gertz replied that they are expanding 15,000 square feet to the west (back of building) and 11,000 square feet to the northwest. In addition, part of the building will be redone; they are relocating the shipping and receiving area. He noted that the building was built in the 1960s when trucks and trailers

were not as long as they are now. The whole production flow will be improved and become more efficient.

Seeing no one else wishing to speak, Mayor Swanson closed the public hearing at 7:47 p.m.

Councilman Corbett announced that he has office hours at the library from 1-2 p.m. on Fridays, for anyone wishing to meet with him. He also noted that he is looking into the parking question presented by a constituent, and will report back.

Councilman Bliss congratulated the Madison District Public Schools, Superintendent Speck, and the School Board on their new building.

Mayor Pro Tem Hartwell expressed congratulations to the Madison District Public Schools on their beautiful new building, noting that it is a great sanctuary for learning. He announced the Fire Department fundraiser benefiting the American Lung Association on Monday, February 16th. The Fire Department has partnered with Culvers, and 10% of proceeds will go to this great cause. He inquired about the maintenance of bus stops, commenting that he was worried about people not being able to wait safely. City Manager Myers stated SMART is responsible for the maintenance of the bus stops, and he will notify SMART of the situation.

City Attorney Sherman had no comments this evening.

City Manager Myers invited everyone to visit the City's Facebook page for information on the City's *"Caught Being Kind"* initiative. We are asking for people to post comments for on any acts of kindness witnessed in the City of Madison Heights. We are hoping to receive 60 comments to correlate with our 60th Anniversary.

Councilman Clark stated that he was quite impressed with the Madison District Public Schools and a job well done with their new building.

Councilwoman Scott announced the Guardian for Animals fundraiser benefiting the Madison Heights Animal Shelter at Mark Ridley's Comedy Castle this Wednesday, February 11th at 8 p.m. The cost is $20 for dinner and dessert. Please be careful driving this winter, the snow is piled up very high in the corners, making it difficult to see pedestrians who may be walking in the street due to blocked sidewalks. In commemoration of the City's 60th Anniversary, she will be rewriting the trivia challenge and providing 2 questions at each Council meeting. The questions will also be on the website, and the answers will be posted. Tonight's questions are:

- Madison Heights was incorporated as a city in _____.
  a. 1956
  b. 1955
  c. 1958
  d. 1905

- The former name of the area now known as Madison Heights is _____.

  a. Royal Oak Township
  b. North Detroit Village
  c. Ferndale Corners
  d. Hazel Park Township

Councilman Soltis stated that he had a few items he wanted to discuss that are important to him politically and personally. First, he commented on a report from the Children Defense Fund. He believes it is a national moral disgrace that there are 14.7 million poor children and 6.5 million extremely poor children in the United States of America – the world's largest economy. It is also unnecessary, costly and the greatest threat to our future national, economic and military security. According to the report, there are a few ways we could fund the $77 billion (2 percent of our national budget) to make a huge down payment on ending preventable, costly, and immoral child poverty in our wealthy nation including: closing tax loopholes that let U.S. corporations avoid $90 billion in federal income taxes each year by shifting profits to subsidiaries in tax havens; or eliminating tax breaks for the wealthy by taxing capital gains and dividends at the same rates as wages saving more than $84 billion a year. Second, he stated that the Michigan League for Public Policy's, *Kids Count in Michigan Data Book,* will be released February 19th. The report ranks counties by overall child well-being and provides in-depth local information on 15 indicators in the areas of economic security, health, family, community, and education. It looks at trends over time, where data is available, and recommends policies to improve the lives of kids. He plans on giving a report on that study at a future Council meeting. Third, he stated that according to the Economic Policy Institute's studies on economic inequality, and based on the most recent data available, the richest 5 percent of U.S. households had an average income 13 times higher than the poorest 20 percent of households. Here in Michigan, the top 1% average income is 25 times greater than the average income of the bottom 99%. He fully believes it has to do with the recently Republican championed legislation to bust unions in this state where unions were started and helped develop our middle class of hard working families. Last, he recognized and congratulated the City of Southfield for passing human rights legislation in support of the LGBT community and anti-discrimination, noting that he admired that they acted on their convictions. As Martin Luther King, Jr. stated, "Injustice anywhere is a threat to justice everywhere."

Mayor Swanson congratulated Mayor Pro Tem Hartwell for being recognized as one of the Oakland County Executive's *Elite 40 under 40*. He congratulated the Madison District Public Schools for taking the Schoenhals School and making it what it is today, noting that Superintendent Speck is a spark plug for the school district.

In response to Councilman Soltis's question, Commissioner McGillivray stated the *Walk for Warmth* was held last weekend at the Great Lakes Crossing and had over 1,000 participants.

CM-15-41. 2015-2019 Parks and Recreation Master Plan

A public hearing was held at 7:35 p.m. to hear comments on the 2015-2019 Parks and Recreation Master Plan.

Gloria Moore, 27368 Dartmouth, stated that when she looked at the draft organizational flow chart, the citizens were not included as in the previous plan.

City Manager Myers responded that the City does have to make some changes to the organizational information to reflect current staff structuring, so citizens will be included in the flow chart when it is updated.

Seeing no one else wishing to speak, Mayor Pro Tem Hartwell closed the public hearing at 7:37p.m.

Councilman Bliss stated that the Master Plan was very focused on citizen input, and noted that the City received over 180 responses to our recreational survey. This helped guide the plan priorities.

David Birchler, the City's Recreation Plan consultant with Clearzoning, stated that his firm has a history of working with the City, and this is the 4th Recreational Plan update they have participated in. He continued by noting that the plan is important so that the City can be effective in providing parks and recreation facilities and programs, and to receive grant funding. Grant funders want to see that you have a plan for using their money wisely. This particular plan has been in development for the past 10 months, spearheaded by the Park and Recreation Advisory Board, and assisted by the Recreation Coordinator and the staff of the Public Services Department. There were four opportunities for public input including: an online and hard copy survey, a public brainstorming workshop at City Hall, a solicitation of comments period by positing the full draft of plan on the City's website for 30 days as well as at the Clerk's Office and Library, and tonight's public hearing. After analysis of inventory, public input, and considering the wishes of advisory board and staff, the Parks and Recreation Advisory Board recommends the following actions in the plan: 33 individual projects, over $1 million in enhancements, and seeking grant funding for property and a bike trail. The plan positions the City for future grant funding. He added that the City has a history of obtaining grants and using them wisely, and this plan will continue that legacy, along with a substantive effort to continue providing Madison Heights with a robust system of parks and recreational programing.

In response to Mayor Pro Tem Hartwell, Mr. Birchler stated that the Master Plan helps Madison Heights continue to be attractive to people of all ages; parks and recreation are quality of life issues, which along with job opportunities, are the things that bring young people to a community. Parks and recreational opportunities help keep Madison Heights attractive to future generations.

Councilmember Bliss added that the plan is consistent with the survey findings and include a splash pad and better bathroom facilities, and he noted that a large number of younger families responded to the survey.

City Manager Myers stated that there are four amendments to draft plan including adding a Recreation Deficiency Table to the appendix, updating the administrative structure changes, adding citizens to the administrative flow chart, and increasing the font size where necessary.

Councilman Corbett congratulated Clearzoning on the terrific job that was done; the Recreation Master Plan is a repository of our values and our commitment to the community.

Motion by Councilman Clark, seconded by Councilman Bliss:

RESOLUTION TO ADOPT RECREATION PLAN

WHEREAS, The Madison Heights Parks and Recreation Advisory Board was established by the City Council to review the City's recreation needs and develop a Recreation Plan to meet those needs, and

WHEREAS, The Parks and Recreation Advisory Board has held several meetings on the proposed Recreation Plan to obtain comments and suggestions on the proposed improvements for the years 2015 through 2019; and

WHEREAS, The Parks and Recreation Advisory Board hosted a Stakeholder Workshop, to gather public input regarding the City's parks and recreation facilities and needs, and

WHEREAS, The Parks and Recreation Advisory Board has completed development of the draft Recreation Plan including a five (5) year plan for the improvement and continued development of recreation facilities for the benefit of City residents, and

WHEREAS, The Parks and Recreation Advisory Board has recommended that the City Council adopt the proposed Recreation Plan for the years 2015 through 2019, and

WHEREAS, The City Council held a public hearing on the proposed Recreation Plan to obtain public comments and suggestions on the proposed improvements for the years 2015 through 2019,

NOW THEREFORE BE IT RESOLVED:

That The Madison Heights City Council hereby adopts the proposed Recreation Plan, as amended, for the years 2015 through 2019.

CM-15-42. Meeting Open to the Public.

Gloria Moore, 27368 Dartmouth, apologized for the error she made at the last meeting, and she clarified that the Friends of Madison Heights Area Senior Citizens is an independent, not a private group. They have a meeting and event on Tuesday, March 17th starting at the Madison Heights Public Library,

all are invited. She wished everyone a Happy St. Patrick's Day, and noted that her Great Granddaughter Lydia Grace will be born later this week.

CM-15-43. DTE Energy Efficiency Program - Streetlight Conversion.

Motion by Councilman Corbett, seconded by Councilman Soltis, to approve the Master Agreement and Purchase Agreement with the Detroit Edison Company to furnish, install, operate, and maintain 376 LED streetlights to be converted from existing mercury vapor streetlights throughout the City.

Reggie Brown, Thomas Komjanthy, and Michael Palchesko were all present representing DTE Energy.

In response to Councilwoman Scott's question, Mr. Brown stated the lights that will be installed are 65-130 watts, providing additional illumination and improved aesthetics.

Mayor Pro Tem Hartwell noted that the City has been converting lighting for the past several years, not only to reduce our carbon footprint, but for cost savings as well. He stated that with the proposed rate increase before the Michigan Public Service Commission (MPSC), these savings may be diminished and he is concerned about the City's return on our investment. Are our rates guaranteed in the proposed contract? What is the DTE proposal before the MPSC and how will that affect our numbers?

Thomas Komjanthy, Manager of Community Lighting, stated that DTE did file a general rate case on December 19, 2014 with the MPSC. It is their first request in four years. The tariff as it exists today is experimental; however, DTE currently has over 15,000 LED lights in the service area across this tariff. The primary objectives of DTE are to become more transparent and have permanent and accurate rates that better reflect the actual LED tariff. Rates include costs of distribution, and while he was not able to respond directly to the cost of service for the City of Ann Arbor as was referenced by the Mayor Pro Tem, he offered to answer the question once he had further information. He stated that there seems to be some misunderstandings of what we are proposing and what it will look like if implemented. The conversion from mercury vapor to LED, will still be very cost effective, with quick payback times of less than two years. With high pressure sodium vapor costs conversions are closer together, and the savings not as large. With the proposal before the MPSC, the result will be that the most cost effective technology proposals will come forward.

In response to Mayor Pro Tem Hartwell's question regarding why energy costs are not decreasing by the same factor as energy consumption (30%), Mr. Komjanthy answered that energy cost is only one component of the cost; that is why there isn't a one to one correlation.

Mayor Pro Tem Hartwell stated that with the rates as they exist today, there are projected savings; however with the proposed rate increase before the MPSC, the City may not save anything.

Mr. Komjanthy stated that the proposal before City Council tonight is based on the rates that DTE is proposing before the MPSC; the projected savings include any rate changes being considered by the MPSC resulting from their December 19, 2014 rate case.

CM-15-46. Mayor and Council - Comments.

Councilman Corbett commented that every Friday City Council has office hours at the Library from 1 p.m. – 2 p.m. City Council members are also available by appointment by calling City Hall.

Councilman Bliss on behalf of the residents and City Council, commended Mayor Pro Tem Hartwell for coalescing a half dozen community service groups to help clear the snow near the SMART bus stops. He suggested that the City should have an annual report from all the boards and commissions and post them online. In addition, he suggested that the City recognize our unsung heroes during the 60th Anniversary and offer congratulatory certificates to those families.

City Attorney Sherman wished Mayor Swanson a speedy recovery.

City Manager Myers gave his thanks to Dave Birchler of Clearzoning, DPS Director Vitali, DPS staff, and the Parks and Recreation Advisory Board for their work on the Parks and Recreation Master Plan.

City Clerk Printz announced that absentee ballot applications were now available in the City Clerk's Office.

Councilman Clark thanked Mayor Pro Tem Hartwell for his words at the St. Vincent DePaul grand opening, noting that he mentioned the poverty levels of adults and children in the southeast section of Oakland County, and how St. Vincent DePaul's store and services are welcomed in Madison Heights.

Councilwoman Scott presented the following trivia answers and questions for the 60th Anniversary challenge:

Last week's answers are: 1955 is the year Madison Heights became a city, and Madison Heights was formerly known as Royal Oak Township.

Tonight's question is:

1. Who was the first mayor of Madison Heights:

    a. Virginia Solberg

b. George Suarez
c. Lloyd Ferguson
d. Bill S. Huffman

She concluded her comments by noting that Random Acts of Kindness Week was last week, and thanked those who participated. She reminded everyone that Acts of Kindness are welcome all year round. The City is looking for 60 Acts of Kindness in Madison Heights. If you witness one, please be sure to post and share it on the City's Facebook page.

Councilman Soltis reported an incident that happened in our neighboring city, Hazel Park, on 1st of February. Senior citizen and Vietnam veteran, John Skelley, 69, was found dead in a home on West Pearl Street. According to the Hazel Park police, this senior died of hypothermia and Councilman Soltis stated that he is worried that this could happen here in Madison Heights. According to Consumers Energy, service was disconnected at the home on the afternoon of January 19th. Utility companies are prohibited from shutting off heat in homes that have residents age 65 and older from Nov. 1 to March 31, according to Michigan Public Service Commission. It is an atrocity that this can happened in 2015. How could a veteran who fought for this country and survived war, come back and years later lose his life because he couldn't afford to pay his heating bill? Let's put this in perspective, in the first six months of 2013, CMS Utility Company's – the official company of Consumer Energy - revenues were $3.39 billion. He requested that information for seniors needing assistance with their heating bills be put on the website and be posted at the Senior Center.

Mayor Pro Tem Hartwell stated that the City of Madison Heights has approximately 30,000 residents, with 4,200 over the age of 65; 5,300 foreign born; and 6,100 under the age of 18. This population is less likely to have driver licenses and more reliant on public transportation. For weeks the City has been battling with SMART to clean their bus routes. SMART has done nothing about it. Finally, they came out and shoveled about 1% of our 200 bus stops. The John R route is one of the busiest, so last weekend, some charity groups did about 60 hours combined of shoveling and salting. He encouraged residents to complain to SMART about the conditions of the bus stops.

CM-15-6. Meeting Open to the Public.

Randy Speck, Superintendent of Madison District Public Schools, 3903 Nutcracker Court, Oxford, announced that after several months of delay, the rocket transporting the Wilkinson Middle School experiment and flight patch was launched successfully on Saturday. The rocket docked with the International Space Station today and the experiment is scheduled to take place next week. He also announced the opening of Madison Elementary which will take place in a few weeks. He also expressed his disappointment that some disparaging comments by a City employee were made on a personal social media outlet and stated that the school district believes in what they are doing. He requested City Council support of their efforts and stated that he is looking forward to future partnering opportunities with the school district and the city.

Albert Morrison, Madison District Public Schools Board President, 26685 Townley, stated that while he appreciates the Fire and Police Departments' hard work to keep our city a safe place every day, he is upset with some disparaging comments made about the school district by a firefighter on social media. He highlighted positive examples of the things the school district was doing, outstanding graduates, and notable alumni. While he encourages free speech, he wished this person would have chosen to not exercise it the way that he did and believes an apology is in order.

Bill Pittman, 27768 Delton, expressed that the remarks made about the district angered and disappointed him. He stated that he would appreciate

support from Council, the Mayor, and the City Manager and stated an apology should be made.

Councilman Clark thanked the school representatives for their comments, and noted that programs such as the Madison District partnering with GM and the United Way to help address the need for skilled labor is an example of one of the many fine things the district is doing.

Mayor Swanson stated that he and Council support the Madison District Schools 100%, and he thanked everyone for their comments.

Councilwoman Scott stated that she was incensed by the comments made and noted that we would never be the city we are without the Madison District. The people who attend the district and alumni are instrumental to the City. The school district did not deserve any of this. She continued that she is embarrassed that an employee of the City made these comments, and supports the request for an apology. She said that the district has every reason to be proud of the progress that has been made, and she thanked everyone for being here this evening.

Mayor Pro Tem Hartwell stated that he is a proud graduate of Madison District Public Schools. He noted that the Mayor speaks for all of us and added that Council was embarrassed by the comments. We know the positive impact that the district has on the City, and we appreciate all that they do. He asked if Superintendent Speck would like to highlight any other things happening in the district. Superintendent Speck responded that a few of the exciting things happening in the district include: the Middle School just finished and the High School is starting up their robotic season; the Construction Trades program is participating in an opportunity to build and develop housing. The housing project is going to be a catalyst of economic growth. In addition, a Robotics certification program is about to begin. Only five other schools in the State are doing this program.

Councilman Corbett stated that no employee speaks for this Council or the community. The posting was uncalled for, and it is an opinion that does not represent our community. While free speech is free speech, we unfortunately cannot legislate manners.

Councilman Bliss stated that the comments offended him. Innovation tied to success is what he finds important. The City Council cares about the school district, and with so many great successes, don't let one person on social media get you down. He also commented that whatever the City can do to help people understand the great things the district is doing, let us know, we are on the district's side. One single employee does not speak for the Council or this City, and he looks forward to partnerships and opportunities to work together.

Councilman Soltis appreciates tonight's comments and recognized the district's anger and pain. He reiterated that no one on Council condones this

behavior. The list of successes and programs provided this evening shows that it is an incredible district and they have his and Council's full support.

CM-15-30. Industrial Facilities Tax Exemption Certificate Request - H&L Tool, located at 32701 Dequindre.

A public hearing was held at 7:37 p.m. to hear comments, if any, on an Industrial Facilities Tax Exemption Certificate for H&L Tool, located at 32701 Dequindre.

Steven Gertz, Controller for H&L Tool, 32701 Dequindre, thanked City Council for reviewing the abatement request. He stated that H&L Tool has been in business approximately 70 years, and has been located in Madison Heights for the past 50 years. The business started in a basement, and has grown to over 100 employees. They are a 2nd and 3rd Tier automotive supplier and supply other industries as well, providing tooling all over the world. They have received many quality awards, and perfection is imperative in their trade. They need to expand their operation, and without the expansion, they will not be able to provide a quality product to their customers.

Councilman Clark noted that he recently toured the facility. They are proposing to add an additional 26,000 square feet, and added that they currently have an abatement for new machinery. Because of the abatement, they were able to retain their employees. He stated that they employ approximately 112 people, and the location can facilitate the expansion.

Councilwoman Scott asked where on the property the expansion would take place. Mr. Gertz replied that they are expanding 15,000 square feet to the west (back of building) and 11,000 square feet to the northwest. In addition, part of the building will be redone; they are relocating the shipping and receiving area. He noted that the building was built in the 1960s when trucks and trailers

were not as long as they are now. The whole production flow will be improved and become more efficient.

Seeing no one else wishing to speak, Mayor Swanson closed the public hearing at 7:47 p.m.

Councilman Corbett announced that he has office hours at the library from 1-2 p.m. on Fridays, for anyone wishing to meet with him. He also noted that he is looking into the parking question presented by a constituent, and will report back.

Councilman Bliss congratulated the Madison District Public Schools, Superintendent Speck, and the School Board on their new building.

Mayor Pro Tem Hartwell expressed congratulations to the Madison District Public Schools on their beautiful new building, noting that it is a great sanctuary for learning. He announced the Fire Department fundraiser benefiting the American Lung Association on Monday, February 16th. The Fire Department has partnered with Culvers, and 10% of proceeds will go to this great cause. He inquired about the maintenance of bus stops, commenting that he was worried about people not being able to wait safely. City Manager Myers stated SMART is responsible for the maintenance of the bus stops, and he will notify SMART of the situation.

City Attorney Sherman had no comments this evening.

City Manager Myers invited everyone to visit the City's Facebook page for information on the City's *"Caught Being Kind"* initiative. We are asking for people to post comments for on any acts of kindness witnessed in the City of Madison Heights. We are hoping to receive 60 comments to correlate with our 60th Anniversary.

Councilman Clark stated that he was quite impressed with the Madison District Public Schools and a job well done with their new building.

Councilwoman Scott announced the Guardian for Animals fundraiser benefiting the Madison Heights Animal Shelter at Mark Ridley's Comedy Castle this Wednesday, February 11th at 8 p.m. The cost is $20 for dinner and dessert. Please be careful driving this winter, the snow is piled up very high in the corners, making it difficult to see pedestrians who may be walking in the street due to blocked sidewalks. In commemoration of the City's 60th Anniversary, she will be rewriting the trivia challenge and providing 2 questions at each Council meeting. The questions will also be on the website, and the answers will be posted. Tonight's questions are:

- Madison Heights was incorporated as a city in _____.
  a. 1956
  b. 1955
  c. 1958
  d. 1905

- The former name of the area now known as Madison Heights is _____.

  a. Royal Oak Township
  b. North Detroit Village
  c. Ferndale Corners
  d. Hazel Park Township

Councilman Soltis stated that he had a few items he wanted to discuss that are important to him politically and personally. First, he commented on a report from the Children Defense Fund. He believes it is a national moral disgrace that there are 14.7 million poor children and 6.5 million extremely poor children in the United States of America – the world's largest economy. It is also unnecessary, costly and the greatest threat to our future national, economic and military security. According to the report, there are a few ways we could fund the $77 billion (2 percent of our national budget) to make a huge down payment on ending preventable, costly, and immoral child poverty in our wealthy nation including: closing tax loopholes that let U.S. corporations avoid $90 billion in federal income taxes each year by shifting profits to subsidiaries in tax havens; or eliminating tax breaks for the wealthy by taxing capital gains and dividends at the same rates as wages saving more than $84 billion a year. Second, he stated that the Michigan League for Public Policy's, *Kids Count in Michigan Data Book,* will be released February 19th. The report ranks counties by overall child well-being and provides in-depth local information on 15 indicators in the areas of economic security, health, family, community, and education. It looks at trends over time, where data is available, and recommends policies to improve the lives of kids. He plans on giving a report on that study at a future Council meeting. Third, he stated that according to the Economic Policy Institute's studies on economic inequality, and based on the most recent data available, the richest 5 percent of U.S. households had an average income 13 times higher than the poorest 20 percent of households. Here in Michigan, the top 1% average income is 25 times greater than the average income of the bottom 99%. He fully believes it has to do with the recently Republican championed legislation to bust unions in this state where unions were started and helped develop our middle class of hard working families. Last, he recognized and congratulated the City of Southfield for passing human rights legislation in support of the LGBT community and anti-discrimination, noting that he admired that they acted on their convictions. As Martin Luther King, Jr. stated, "Injustice anywhere is a threat to justice everywhere."

Mayor Swanson congratulated Mayor Pro Tem Hartwell for being recognized as one of the Oakland County Executive's *Elite 40 under 40*. He congratulated the Madison District Public Schools for taking the Schoenhals School and making it what it is today, noting that Superintendent Speck is a spark plug for the school district.

In response to Councilman Soltis's question, Commissioner McGillivray stated the *Walk for Warmth* was held last weekend at the Great Lakes Crossing and had over 1,000 participants.

CM-15-41. 2015-2019 Parks and Recreation Master Plan

A public hearing was held at 7:35 p.m. to hear comments on the 2015-2019 Parks and Recreation Master Plan.

Gloria Moore, 27368 Dartmouth, stated that when she looked at the draft organizational flow chart, the citizens were not included as in the previous plan.

City Manager Myers responded that the City does have to make some changes to the organizational information to reflect current staff structuring, so citizens will be included in the flow chart when it is updated.

Seeing no one else wishing to speak, Mayor Pro Tem Hartwell closed the public hearing at 7:37p.m.

Councilman Bliss stated that the Master Plan was very focused on citizen input, and noted that the City received over 180 responses to our recreational survey. This helped guide the plan priorities.

David Birchler, the City's Recreation Plan consultant with Clearzoning, stated that his firm has a history of working with the City, and this is the 4th Recreational Plan update they have participated in. He continued by noting that the plan is important so that the City can be effective in providing parks and recreation facilities and programs, and to receive grant funding. Grant funders want to see that you have a plan for using their money wisely. This particular plan has been in development for the past 10 months, spearheaded by the Park and Recreation Advisory Board, and assisted by the Recreation Coordinator and the staff of the Public Services Department. There were four opportunities for public input including: an online and hard copy survey, a public brainstorming workshop at City Hall, a solicitation of comments period by positing the full draft of plan on the City's website for 30 days as well as at the Clerk's Office and Library, and tonight's public hearing. After analysis of inventory, public input, and considering the wishes of advisory board and staff, the Parks and Recreation Advisory Board recommends the following actions in the plan: 33 individual projects, over $1 million in enhancements, and seeking grant funding for property and a bike trail. The plan positions the City for future grant funding. He added that the City has a history of obtaining grants and using them wisely, and this plan will continue that legacy, along with a substantive effort to continue providing Madison Heights with a robust system of parks and recreational programing.

In response to Mayor Pro Tem Hartwell, Mr. Birchler stated that the Master Plan helps Madison Heights continue to be attractive to people of all ages; parks and recreation are quality of life issues, which along with job opportunities, are the things that bring young people to a community. Parks and recreational opportunities help keep Madison Heights attractive to future generations.

Councilmember Bliss added that the plan is consistent with the survey findings and include a splash pad and better bathroom facilities, and he noted that a large number of younger families responded to the survey.

City Manager Myers stated that there are four amendments to draft plan including adding a Recreation Deficiency Table to the appendix, updating the administrative structure changes, adding citizens to the administrative flow chart, and increasing the font size where necessary.

Councilman Corbett congratulated Clearzoning on the terrific job that was done; the Recreation Master Plan is a repository of our values and our commitment to the community.

Motion by Councilman Clark, seconded by Councilman Bliss:

RESOLUTION TO ADOPT RECREATION PLAN

WHEREAS, The Madison Heights Parks and Recreation Advisory Board was established by the City Council to review the City's recreation needs and develop a Recreation Plan to meet those needs, and

WHEREAS, The Parks and Recreation Advisory Board has held several meetings on the proposed Recreation Plan to obtain comments and suggestions on the proposed improvements for the years 2015 through 2019; and

Gloria Moore, 27368 Dartmouth, apologized for the error she made at the last meeting, and she clarified that the Friends of Madison Heights Area Senior Citizens is an independent, not a private group. They have a meeting and event on Tuesday, March 17th starting at the Madison Heights Public Library,

all are invited. She wished everyone a Happy St. Patrick's Day, and noted that her Great Granddaughter Lydia Grace will be born later this week.

CM-15-43. DTE Energy Efficiency Program - Streetlight Conversion.

Motion by Councilman Corbett, seconded by Councilman Soltis, to approve the Master Agreement and Purchase Agreement with the Detroit Edison Company to furnish, install, operate, and maintain 376 LED streetlights to be converted from existing mercury vapor streetlights throughout the City.

Reggie Brown, Thomas Komjanthy, and Michael Palchesko were all present representing DTE Energy.

In response to Councilwoman Scott's question, Mr. Brown stated the lights that will be installed are 65-130 watts, providing additional illumination and improved aesthetics.

Mayor Pro Tem Hartwell noted that the City has been converting lighting for the past several years, not only to reduce our carbon footprint, but for cost savings as well. He stated that with the proposed rate increase before the Michigan Public Service Commission (MPSC), these savings may be diminished and he is concerned about the City's return on our investment. Are our rates guaranteed in the proposed contract? What is the DTE proposal before the MPSC and how will that affect our numbers?

Thomas Komjanthy, Manager of Community Lighting, stated that DTE did file a general rate case on December 19, 2014 with the MPSC. It is their first request in four years. The tariff as it exists today is experimental; however, DTE currently has over 15,000 LED lights in the service area across this tariff. The primary objectives of DTE are to become more transparent and have permanent and accurate rates that better reflect the actual LED tariff. Rates include costs of distribution, and while he was not able to respond directly to the cost of service for the City of Ann Arbor as was referenced by the Mayor Pro Tem, he offered to answer the question once he had further information. He stated that there seems to be some misunderstandings of what we are proposing and what it will look like if implemented. The conversion from mercury vapor to LED, will still be very cost effective, with quick payback times of less than two years. With high pressure sodium vapor costs conversions are closer together, and the savings not as large. With the proposal before the MPSC, the result will be that the most cost effective technology proposals will come forward.

In response to Mayor Pro Tem Hartwell's question regarding why energy costs are not decreasing by the same factor as energy consumption (30%), Mr. Komjanthy answered that energy cost is only one component of the cost; that is why there isn't a one to one correlation.

Mayor Pro Tem Hartwell stated that with the rates as they exist today, there are projected savings; however with the proposed rate increase before the MPSC, the City may not save anything.

Mr. Komjanthy stated that the proposal before City Council tonight is based on the rates that DTE is proposing before the MPSC; the projected savings include any rate changes being considered by the MPSC resulting from their December 19, 2014 rate case.

Councilman Corbett commented that every Friday City Council has office hours at the Library from 1 p.m. – 2 p.m. City Council members are also available by appointment by calling City Hall.

Councilman Bliss on behalf of the residents and City Council, commended Mayor Pro Tem Hartwell for coalescing a half dozen community service groups to help clear the snow near the SMART bus stops. He suggested that the City should have an annual report from all the boards and commissions and post them online. In addition, he suggested that the City recognize our unsung heroes during the 60th Anniversary and offer congratulatory certificates to those families.

City Attorney Sherman wished Mayor Swanson a speedy recovery.

City Manager Myers gave his thanks to Dave Birchler of Clearzoning, DPS Director Vitali, DPS staff, and the Parks and Recreation Advisory Board for their work on the Parks and Recreation Master Plan.

City Clerk Printz announced that absentee ballot applications were now available in the City Clerk's Office.

Councilman Clark thanked Mayor Pro Tem Hartwell for his words at the St. Vincent DePaul grand opening, noting that he mentioned the poverty levels of adults and children in the southeast section of Oakland County, and how St. Vincent DePaul's store and services are welcomed in Madison Heights.

Councilwoman Scott presented the following trivia answers and questions for the 60th Anniversary challenge:

Last week's answers are: 1955 is the year Madison Heights became a city, and Madison Heights was formerly known as Royal Oak Township.

Tonight's question is:

1. Who was the first mayor of Madison Heights:

    a. Virginia Solberg

b. George Suarez
c. Lloyd Ferguson
d. Bill S. Huffman

She concluded her comments by noting that Random Acts of Kindness Week was last week, and thanked those who participated. She reminded everyone that Acts of Kindness are welcome all year round. The City is looking for 60 Acts of Kindness in Madison Heights. If you witness one, please be sure to post and share it on the City's Facebook page.

Councilman Soltis reported an incident that happened in our neighboring city, Hazel Park, on 1st of February. Senior citizen and Vietnam veteran, John Skelley, 69, was found dead in a home on West Pearl Street. According to the Hazel Park police, this senior died of hypothermia and Councilman Soltis stated that he is worried that this could happen here in Madison Heights. According to Consumers Energy, service was disconnected at the home on the afternoon of January 19th. Utility companies are prohibited from shutting off heat in homes that have residents age 65 and older from Nov. 1 to March 31, according to Michigan Public Service Commission. It is an atrocity that this can happened in 2015. How could a veteran who fought for this country and survived war, come back and years later lose his life because he couldn't afford to pay his heating bill? Let's put this in perspective, in the first six months of 2013, CMS Utility Company's – the official company of Consumer Energy - revenues were $3.39 billion. He requested that information for seniors needing assistance with their heating bills be put on the website and be posted at the Senior Center.

Mayor Pro Tem Hartwell stated that the City of Madison Heights has approximately 30,000 residents, with 4,200 over the age of 65; 5,300 foreign born; and 6,100 under the age of 18. This population is less likely to have driver licenses and more reliant on public transportation. For weeks the City has been battling with SMART to clean their bus routes. SMART has done nothing about it. Finally, they came out and shoveled about 1% of our 200 bus stops. The John R route is one of the busiest, so last weekend, some charity groups did about 60 hours combined of shoveling and salting. He encouraged residents to complain to SMART about the conditions of the bus stops.

He suggested that Mr. Grabowski forward his suggestions to him and he will get them to the Traffic Safety Committee. Mr. Grabowski also stated that Greig Street between Dequindre and John R is deteriorating quickly and needs repair. CM-15-67. Mayor and Council - Comments.

Councilman Corbett expressed his thanks to the Coalition of Churches of Madison Heights for recognizing the men and women of DPS and the hard work that they do. He congratulated the honorees of the Police Department Annual Departmental Commendations. He stated that the Police Reserves perform many duties and take the burden off the full-time officers. He reminded the audience that on Fridays, from 1 p.m. to 2 p.m. at the Library, City Council holds office hours. He wished everyone a Happy St. Patrick's Day.

Councilman Bliss echoed the sentiments of Councilman Corbett and thanked the Coalition of Churches for honoring the DPS. He congratulated the fine men and women honored today. He noted that there are a lot of amazing people in the City, and for all those who were not honored, thank you for your hard work.

Mayor Pro Tem Hartwell welcomed Mayor Swanson back. He thanked Mr. Swanson for recognizing DPS and expressed his congratulations to all the others recognized tonight.

City Attorney Sherman echoed Council's comments.

City Manager Myers congratulated all the honorees this evening and the DPS, and thanked the churches for their recognition.

City Clerk Printz stated that Absentee Ballot applications are available in the City Clerk's office. Precinct 5 will be moved back to its permanent location, Madison Elementary, for the May 5, 2015 Special Election, and if anyone is interested, applications are available for the position of Election Inspector.

Councilman Clark stated that Governor Snyder and Oakland County Executive Patterson have declared April 12-18, 2015 as *Severe Weather Awareness Week*. In 2014, 112 storm-based warnings were issued for southeast Michigan. There were three recorded tornadoes, and there is an average of six per season. The lead time averages 26 minutes to head for shelter, and he noted that a shelter is available in the City Hall basement; access is from the west entrance. He announced there would be a special test of the outdoor warning system on Wednesday, April 15th. He noted that for $2 a copy, residents can obtain the Senior Scoop. This paper is loaded with useful information and lists classes available, including: Estate Planning on Tuesday, April 14th and the Assured Home Nursing Services Seminar on April 28th. It also provides information about the SHARP program, which is an organization that takes care of seniors, handicapped, and service families, by helping with minor repairs. The only expense to the homeowner is materials.

Councilman Soltis stated that he was grateful for the audience tonight. He thanked the dedicated and brave police department especially in light of that ridiculous display of gun ownership rights next to a school full of kids. Our officers handled it perfectly. It just goes to show how these officers put their lives at risk every day they suit up. He advocates that we should have a law to prevent an armed man getting too close to our children. It's a shame this hasn't happened so far. He stated that normally, during the Council Comments portion of the agenda, he talks about issues that are important to him and are larger in scope, but can affect us on the local level. Councilman Soltis stated that he wanted to dedicate the invocation tonight for the civil rights activists in Selma, Alabama because he wanted to bring awareness duly earned from the hundreds that were affected by that "Bloody Sunday." He believes limitations to civil rights are a real problem, especially since a few years ago the Supreme Court struck down the Section 4 of the Voting Rights Act of 1965. He hopes to keep advocating for the reinstatement of this section. He also thanked Lamphere schools for the invitation at Hiller Elementary for *Super Leaders are Super Heroes* program. Both school districts are doing a great job.

Mayor Swanson stated that last week he attended a Chinese New Year event and it is the Year of the Dragon, and noted that it was a very enjoyable event. He thanked Mayor Pro Tem Hartwell for spearheading the shoveling of the SMART bus stops, stating that he appreciates his efforts. He recognized the City's Crossing Guards, who stand in the cold with no shelter, and stated that he appreciates their service.

WHEREAS, National Work Zone Awareness Week was established in 1999 by the American Traffic Safety Services Association (ATSSA), the American Association of State Highway and Transportation Officials (AASHTO) and the Federal Highway Administration (FHWA); and,

WHEREAS, the purpose is to raise public awareness of the hazards that exist for workers – and motorists – in roadway work zones; and,

WHEREAS, the goal is to reduce accidents, injuries and deaths in roadway work zones; and,

WHEREAS, the City of Madison Heights conducts numerous road and utility construction projects within or along our public roads that impact pedestrian and vehicular traffic; and,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Madison Heights declares the week of March 23-27, 2015 to be National Work Zone Awareness Week in Madison Heights, to raise awareness of the hazards that exist in roadway work zones and to keep everyone working or driving through those work zones safe.

CM-15-75. Special Approval No 15-01 - 1087 E. Gardenia – New Parish Hall and Administrative Building – MOTION TABLED.

Mayor Swanson opened a public hearing at 7:40 p.m. to hear comments regarding the request to allow St. Vincent Ferrer to build a new parish hall and administrative building at 1087 E. Gardenia.

Loretta Hayes, 635 Hecht, stated her home was directly behind the proposed location. She is concerned about lighting and traffic. The Parish is in the

middle of the subdivision, and she would like to keep it the way it currently exists and is not in favor of further development.

Daniel Kostecke, 733 Hecht, stated that he had lighting, noise, and privacy concerns. Additional traffic to the area could be hazardous.

Jaclynne Morgan, 878 Venoy, stated she was opposed to the proposal. She has small children, and she is concerned with additional people accessing the site. Kids have come into their yards from the school. She is concerned about housing values, and noted that she bought her home because of the park-like setting. There is a lot of room next to the convent to build, and she doesn't want the new building in the tree area. She is also concerned for her children's safety with the proposed ditch on the property.

Olivia Pierce, 888 Venoy, stated that she is living right next to where they are planning to build. She stated that she has multiple issues with the school, including parking, and doesn't understand where the additional parking will come from when they are already double parked during their busy time periods. The addition will depreciate their home values, and space is available elsewhere on their property, near Gardenia. This is not the right plan, it should not be built in the middle of this beautiful area.

Kurt Neiswender, project architect, was present to answer questions or concerns. He stated he met with City staff, and the building does meet zoning and setback requirements. The proposed building is over 100 feet from the neighbors, and any trees that will be taken out, will be transplanted on the property. The building is for the church alone, and will not be used by the Montessori school. There will be no additional impact; it does not have additional staffing, but is designed to meet the needs of the existing staff. It is a modest building that meets all ordinances requirements.

Thomas Griffin, 581 Hecht, asked whether the Special Approval remains in effect if the property ever changes owners. Community Development Director Schafer responded that if Special Approval is granted, and the property ownership changes, they would have to use the building for the use granted by the Special Approval. Mr. Griffin stated that he has concerns on the building size and commented that another area would be more peaceful for the neighborhood.

Victoria LeBarre, 838 Venoy, stated her property also backs up to the church property. She chose this home because of the park-like setting behind it. The school does cause additional traffic, and now we are considering a building. There is a nuisance hazard in the parking lot in the summer; the kids are loud,

tires get squealed, and there is has been an increase in people cutting through their properties. She doesn't want to see their neighborhood changed.

Loretta Hayes, 635 Hecht, stated that when they moved 4 years ago, they looked at many areas. The park-like setting is why they bought their house. St. Vincent's parish has grown; parking is an issue with both the school and the parish. All the current issues with be exacerbated with the additional building.

Daniel Kostecke, 733 Hecht, asked if the parish isn't growing, why do they need new building?

Jaclynne Morgan, 878 Venoy, stated that she believes that the exact location of the proposed building should have been included in the public notice posting. There will be more traffic in their neighborhood simply due to the location of the proposed building. Mr. Myers responded that the address used in the legal notice is the legal address of the property.

There being no further comments from the audience, Mayor Swanson closed the Public Hearing at 7:55 p.m.

Motion by Councilman Bliss, seconded by Mayor Pro Tem Hartwell:

WHEREAS, a Special Approval Board application has been received from Kurt Neiswender, the architect and applicant, to allow St. Vincent Ferrer Catholic Church to construct a new administrative building in the R-3 One-family Residential District at 1087 E. Gardenia, and

WHEREAS, a public hearing was advertised in Madison Park News on March 4, 2015 and 331 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION:	1087 E. Gardenia
REQUEST:	Special Approval to allow a parish hall and administrative office building in the R-3 District under Section 10.307(5) of the Zoning Ordinance.
EXISTING ZONING:	R-3 – Residential

EXISTING USE: Existing church, parsonage, convent and elementary school

STAFF ANALYSIS:

1. Special Approval is required for churches and related facilities in the R-3 District. The proposed Parish Hall and Administrative Building (5,919 sf) is the subject of this review. The existing church, parsonage, convent and elementary school are all previously approved uses at this location and are not the subject of this special approval request.

2. Applicant proposes administrative offices, meeting facilities and funeral luncheons in the new building. No rental of the facility for weddings or social events is proposed.

3. Proposed parking meets minimum ordinance requirements. Applicant is proposing banked parking, citing alternate hour use parking for the new building and worship facilities. Proposed banked parking meets all requirements and the Site Plan Review Committee has approved the proposed parking design should City Council grant special approval for the proposed use. The banked parking shown on the plan is not proposed to be constructed. In accordance with the ordinance, it is shown to demonstrate that the site could accommodate the full number of required parking spaces.

4. Hours of Operation: 9:00 am – 5:00 pm Mon – Fri. (with periodic evening meetings – 6:00 pm – 8:00 pm.)

5. The Site Plan Review Committee has reviewed the plan and all plan review comments have been addressed.

Councilman Corbett stated that while he is not unsympathetic to the residents, the owners have the right to use their property. He suggested the applicants return to the administrative process and look at alternative locations on the property.

CM-15-76 . SUBSTITUTE MOTION – MOTION CARRIED.

Councilman Corbett, seconded by Councilman Soltis, to table the March 23, 2015 Regular Meeting Council's consideration of Special Approval for 1087 E. Gardenia to allow a parish hall and administrative office building in the R-3 District.

Mayor Pro Tem Hartwell agreed that there are concerns and the owners do have the right to use their property, but Council has to consider the neighborhood as well.

Councilman Clark stated that the rights to privacy and lighting also have to be considered. In response to Councilman Clark's question, Community Development Director Schafer answered that the proposed building is single story.

In response to Mayor Pro Tem Hartwell's question, Mr. Schafer stated banked parking spaces are shown on the site plan, but are not required at the time of development. Should a problem arise with parking in the future; they will have to be installed. The applicant is proposing alternating uses between the other buildings on the property, so when this building it is in use, others on the property will not be.

Father Esper stated that there are currently 10 people on staff at the parish. Five are located in the rectory. At the recommendation of the Archdiocese, they were encouraged to make sure the building was of sufficient size. He stated that he is concerned about children jumping fences, and that he was not previously aware of that issue. He understands the traffic issues, but only the current staffing would be using the prosed building's adjacent parking and 2-4 additional cars per day conducting parish business. Many of the concerns expressed this evening are pre-existing and will not be exacerbated by a new building. The parishioners are concerned with the wooded area and sensitive to our neighbors. We are sensitive to the lighting, and as we planned the building, we are being attentive to these concerns. We are also sensitive to the tree concerns and are trying to plan for a building that is attentive to maintaining a park-like space. The parish hasn't grown. The Charter school is successful, and the Montessori school does increase some traffic congestion during peak periods of the day. He offered to give any other insight that may be helpful.

In response to Councilman Clark's question, Father Espar stated there are two entrances to the property, one off Gardenia and the other from Herbert.

In response to Councilwoman Scott's question, Father Espar stated they were hoping to begin construction June 1st and complete the project by Christmas. He stated that they looked at three other areas for the proposed building, including where the convent is located, but it proved too costly due to having to take down the existing building. The new building is designed to serve a long time need.

Mr. Neiswender continued that the first idea was to look at the convent location; they considered the current proposal site, as well as attaching a structure to the existing church building. The Archdiocese approval was for the new building, which will create a campus like setting. He stated that they will re-examine their submission, but they have already explored alternatives, have the Archdiocese support; as well as the office design, and the current site is the consensus choice for the project.

In response to Mayor Swanson's question, Father Esper stated that the building will be used from 9 a.m. to 5 p.m. for parish business, 2-5 nights a week for meetings, and for luncheons 1-2 times a month. It is not designed for a large flow of people through the building and we don't see the current flow of traffic changing.

In response to Councilman Bliss's question, Father Esper stated that the new building will not be used by the school.

Councilman Soltis commented that the plan does not appear to be ideal to the residents.

CM-15-77. Meeting Open to the Public.

Gloria Moore, 27368 Dartmouth, stated that on behalf of the Friends of the Madison Heights Area Senior Citizens, she wished everyone a Happy Easter.

Kenneth Thweatt, 27700 Brush, stated his opposition to the ballot proposal on the May 5th Election. He commented that it would be detrimental to the seniors, who don't drive, and his preference would be for a gas tax. In addition, many things are attached to the law other than just the sales tax. He acknowledged that the roads do need to be repaired, but if the proposal passes, Michigan will be the state with the second highest sales tax. The State should have a plan B, rather than putting the pressure on the people to make the decision. He also stated that he has met Mr. Clark, whom he believes is a true benefit to the City. He suggested that the City name a day for him. He concluded his comments by praising the Fire Department, noting that they have assisted him with his wife, who has lost the use of her legs, in a very professional and helpful manner. Residents know that when you need the Fire Department they are here for you.

Erica Tank, 2931 Inman St., Ferndale, stated she is the owner of the Green Garden Child Development Center which was approved for a business license this evening. She stated that this is their second center in Madison Heights and they are excited to grow in the City. They are Earth friendly, offer organic food, use green products, and they are trying to limit their footprint on Earth. They are hoping to open in early April, and she invited all to an Open House this Saturday from 10 a.m. - 2 p.m. In addition, she stated they are currently hiring for their team. She thanked Council for their time and for helping her business grow.

Fran Zick, 38216 Bedville, Sterling Heights, stated that twice annually she rents a building on Horace Drive and she asked for a sign to be erected at the 711 W. 13 Mile to advertise. She spoke to the owner and he agreed to let her do so. She was told that the City would not allow it and she is requesting permission to. Community Development Director Schafer stated that temporary signs are not permitted in the right-of-way; however, the owner of the business she approached can come in and fill out an application for a temporary sign if they have not exceeded their annual allotment.

CM-15-85. Mayor and Council - Comments.

Councilman Corbett talked about the open carry issue and stated that he found it shocking that there is some kind of doubt that schools do not have the right to keep someone out of their buildings. He stated that he is concerned that anyone can walk in the school "just because" and he commented that he has a problem with that. He believes schools have the right to maintain secure buildings, and hopes that schools can be empowered to make these decisions. He suggested that the notices for public hearings include a website link so that those being notified can view the plan in question, similar to the link for the agenda packet. He stated that a couple of weeks ago, he had an opportunity meet with State Representative Jim Townsend and City staff regarding the

proposed I-75 expansion. One of the principal portions of the project involves the 1-696 and I-75 intersection. The work is to help traffic flow to the west and north; however, those residents living in those areas will receive the benefit of a better traffic flow without having to contribute toward the expansion, while Madison Heights will have to pay for the "privilege" of hosting the intersection in our community.

Councilman Bliss suggested that a QR code be also considered in public notices, and mentioned that the Parks and Recreation survey used one successfully. He thanked Senator Gregory for the tribute and for attending the meeting this evening.

Mayor Pro Tem Hartwell provided an update on the Crime Commission, and noted that a new application to serve was received because the applicant was excited for the changes on the commission.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

City Clerk Printz stated that absentee ballot applications for the May 5, 2015 Special Election are available in the City Clerk's office and the Close of Registration for this election is Monday, April 6, 2015.

Councilman Clark noted that Lamphere has a plan in place should they be faced with an open carry situation at the high school. He announced the following: the Memorial Day Parade Committee Spaghetti Dinner fundraiser at the Masonic Lodge is on March 27th; seniors can obtain tax assistance at the Senior Center on April 7 and April 14th, call to make an appointment; and senior men and women's golf leagues start on May 5th. He stated that his son and daughter threw him a birthday party yesterday and it was the best day, every member of his family was there, and it was a great time.

Councilwoman Scott acknowledged Councilman Clark's birthday which was on March 21st. She encouraged residents and others to attend the Spaghetti Dinner, and then go to the Lamphere Drama Club's Princess and the Pea fundraiser at the High School from 7:00 p.m. - 8:30 p.m. More information is available on the Lamphere School District website. She announced that Congressman Levin was seeking high school students to participate in an art competition; prizes include two round trip tickets to Washington DC and the winning art work will remain on display in the Capitol building for a year. She asked that information be placed on the City's website.

Councilwoman Scott answered the last trivia question by stating Lloyd H. Ferguson was the City's first Mayor. Tonight's trivia questions are:

1. What "cover up" began in January of 1962 and ended on January 11, 1973?
    a. The covering of the Red Run Drain
    b. "Madisongate" break-in
    c. The capping of the incinerator stacks
    d. The Rosie Parker scandal

2. What two civic buildings were completed and began operation in 1964?
    a. Lamphere High School and Simonds Elementary School
    b. City Hall and the Library
    c. The Library and the Oakland County Incinerator
    d. The old fire station and the jail

Councilman Soltis stated that the gentleman tonight did bring up a valid point in regard to seniors paying an unfair share of the Proposal 1 tax. He read briefly from Article in Detroit News regarding proposal 1 and strongly encouraged all of us to really take good look at this tax increase. He quoted Tom McMillin, chairman of Concerned Taxpayers of Michigan, that "state government needs to do more to repair roads and bridges without increasing taxes on an already tax-weary populace. We could fix those problems without taking money out of other people's pockets. There's no argument that we need more money for road funding. The Legislature needs to do their job and prioritize the money they have now. They don't need to be taking more." Mr. McMillin also cited MDOT's failure to hold contractors accountable for poor workmanship on roads by invoking warranties to repair problems. Macomb County Executive Mark Hackel said Monday "I can't say no to it, because it's sorely needed, but I don't think it was the right way of going about it." He noted Macomb County Executive Hackel stated he doesn't like how lawmakers are asking voters to solve the state's chronic underfunding of road and bridge repairs, instead of doing it themselves; and Oakland County Executive L. Brooks Patterson recently told The Detroit News that he is "not advocating a 'no' vote, but I'm sure as hell not leading the parade seeking its passage." He concluded his comments by thanking our Fire Chief and his department for all they do for community. Soon his son will finish his tenure at the fire academy and he is very proud of him.

Mayor Swanson announced that he and his wife recently celebrated their 63rd wedding anniversary. Two weeks ago he had the pleasure to give the State of City address, noting that it was upbeat, positive, and informative. The City has had great accomplishments over the past year, despite setbacks from the flood and harsh storms. He stated that the Department of Public Services does a great job and works hard. If you are walking dogs, please remember to bring and use a bag.

He reported that he had an inquiry regarding making the Police Department front parking lot available for Craigslist transactions, and he confirmed that the parking lot is available for such use.

Councilman Bliss concurred with Councilman Corbett's comments regarding the Police Department being a safe zone for Craigslist deals and suggested a resolution. He thanked Lamphere students for their efforts in making positive changes and being part of the community. He stated he read a report on NerdWallet that ranks cities in Michigan for how good they are for young families and the City of Madison Heights placed 108th on the list. He requested staff input on how to improve our ranking. In addition, he also reported that Police Departments in Lansing and Grand Rapids are currently testing body cameras and stated that the City may want to look at this as well.

Mayor Pro Tem Hartwell invited the public and anyone who wants to be more involved and improve their knowledge on the city budget, to attend the City's Budget Workshop on April 25th.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

City Clerk Printz stated that absentee voter applications are available at the City Clerk's office. The last day to request an absentee ballot by mail is 2 p.m., Saturday, May 2, 2015. She reminded Precinct 5 voters that the voting location has returned to the former site of Schoenhals School which is now Madison Elementary School.

Councilman Clark had no comments this evening.

Councilwoman Scott thanked staff and students of the Lamphere School District for their April 1st event at Hiller Elementary which showcased the students' training in leadership. She stated that the attendees were all impressed with their skills. She announced the Lamphere High School Drama Club's production of Willy Wonka on April 23rd, 24th, 25th and a matinee performance at 2 p.m. on the 26th. This year, there will be 75 young elementary children playing the Oompa Loompas. She stated that 60th Anniversary shirts are now available for purchase at City Hall. The newly renovated Animal Shelter Open House is on June 13th from 12 p.m. to 3 p.m. This meeting's 60th Anniversary trivia question is:

What were the two former stores that occupied the K-Mart space on 12 Mile Road and John R Road?

a. Village Inn and Kresge's
b. John R Lumber and Frank's Nursery
c. Sanders and Baskin-Robbins
d. Hudson's Budget Store and E.J. Korvettes

She provided the answers to the trivia question from the last meeting:

1. What "cover up" began in January of 1962 and ended on January 11, 1973?

    a. The covering of the Red Run Drain

2. What two civic buildings were completed and began operation in 1964?

    b. City Hall and the Library

She added that the Historical Commission hosted the great-great granddaughter of the Kendal family; her 3 great grandfathers started the farms on John R and 11 Mile Roads and she thanked her for visiting the Heritage Room.

Councilman Soltis stated that after the end of official Council business, he likes to be transparent of his opinions and convictions. He stated that he is glad big business recently stepped up to raise awareness of the anti-gay legislation. Quite the unlikely ally, but nonetheless he thinks they deserve recognition for going against the wave of discrimination and instead encouraging civil and human rights for all consumers. He stated that he thinks this should be a spring board for discussion on local ordinances that protect LGBT rights. He also agrees with President Obama's condemnation of the use of gay adjustment therapy or "conversion" therapies that promise to cure gay and transgender people. He believes that this type of therapy or mind set is a form of torture and should be banned immediately on all levels of government. Lastly, although he has always supported public safety officers and noted that our Madison Heights officers do a superior job, he believes the murder of African American Walter Scott by a South Carolina officer was a blatant disregard of the law, betrays all foundations of basic human rights, and unmistakably shines light on the systemic racism that still exists.

Mayor Swanson expressed his thanks to the Wyland Foundation for presenting him with a Certificate of Appreciation for leadership in conservation.

CM-15-106. Presentation and Review of Proposed FY 2015-16 Budget.

Mayor Swanson welcomed everyone to the Special Council Meeting to review the Proposed Fiscal Year (FY) 2015-2016 Budget.

City Manager Myers and Deputy City Manager Marsh provided the Council with an overview presentation of the Proposed FY 2015-2016 Budget.

City Manager Myers began the presentation by commending the Deputy City Manager, Department Heads, and staff for their work in preparing a proposed budget that maintains existing services with limited revenues. He thanked the City Council for their feedback and direction as part of the Financial Outlook and Capital Improvement plan which are important parts of the budget development process.

Mr. Myers stated that the Proposed Budget is presented in accordance with a detailed calendar that is contained in the Policy Document. Last

Fall, the annual budget process for 2016 formally began with the development of the Long Range Financial Outlook presented to Council in November. Major capital items over $30,000 are included in the City's Five Year Capital Improvement Plan, or CIP, which was presented to Council in January. Following the CIP, the City Manager, Deputy City Manager, and staff began development of the proposed budget which was submitted to Council on April 9th. The remaining highlights of the budget calendar include today's Council Budget Presentation and Workshop, and the adoption of the Budget and Tax Levy scheduled to take place on the second Monday in May, which is May 11th.

He summarized the budget presentation today stating that it will include: the guiding principles used in developing the budget, the financial challenges we continue to face, the overall Proposed FY 2016 Budget, and the internal priorities that were taken into account in balancing the General Fund budget, and discussion of other funds including the proposed water and sewer rates for 2016.

Mr. Myers continued by stating that in preparing the budget, five major goals guided our process. First, staff has conservatively estimated revenues and expenditures, including a thorough review of each department with the respective department head, and a careful and updated analysis of projected revenues. Second, we balanced each special millage with the applicable expenses, focusing on millage reserves and prioritized, needed projects. Third, the budget avoids the use of one-time revenues for ongoing expenditures such as salaries. Fourth, the budget only uses fund balance for planned one-time expenditures and maintains Council's target fund balance. And fifth, Madison Heights residents and businesses are not being asked for any significant new taxes or fees.

Deputy City Manager Marsh indicated the City's greatest financial challenge has been the reduction in taxable values and related refunds. The City's taxable value peaked in 2009 at $1.2 billion before starting a steep decline for the next six years, bottoming out in FY 2015 at $780 million. This 35.2% reduction in taxable value, combined with reduced investment earnings, lower court revenues and reduced revenue sharing, has been the greatest financial challenge the City of Madison Heights has ever faced. FY 2016 will be the first time since 2009 that property values are projected to rise, with approximately a 1.7% increase. State laws such as Headlee Amendment and Proposal "A" limit increases in property taxable values to 5% or the rate of inflation, whichever is less. Not surprisingly, therefore, the City is not expected to return to 2009 levels until FY 2035.

Ms. Marsh stated that the City millage is proposed to decrease slightly in FY 2016. Three of the ten millages have changing rates for FY 2016. The fire station bond millage is being decreased to utilize accumulated fund

balance and state reimbursements for personal property reductions related to past legislation. The Senior Citizen millage is being raised to the Headlee limit in order to fund senior services and the Police and Fire Pension millage is increasing to cover budgeted City contributions. Overall, the millage is decreasing by 6 thousandths of a mill (0.0062) in FY 2016.

Ms. Marsh stated there are 10,082 single-family homes and condominiums in Madison Heights. For Fiscal Year 2016, the average home market value is $76,720 with a taxable value of $32,210 and an average tax bill of $740 for City services.

Human Resources Director Misczak stated throughout the economic downturn, City Council and staff responded to this challenge by reducing expenditures and enhancing revenues to close a gap of over $13.4 million as the City successfully controlled the impact of the financial crisis. The most significant changes during this period were the decreases in full-time staff of over 27% and a case-by-case review of vacant positions that continues into FY 2016.

Ms. Misczak then commented that Personnel services comprise of almost 18 million or 69% of the General Fund Budget. The FY 2016 Budget includes a net reduction of 3.6 full-time equivalencies. The changes include the elimination of three vacant full-time positions as a result of the City's outsourcing of the Information Technology and Building Inspection functions, and one vacant part-time DPS laborer.

On the expenditure side, Ms. Misczak commented the most significant financial challenges facing the City are the defined benefit plans for pension and retiree health care. Together, the liability for these two benefits average over 150% of base salary for employees or $6.9 million across all funds.

Ms. Misczak continued stating the largest budgeted fringe benefit cost is the employer's contribution to the employee pension funds, budgeted at $3.2 million in FY 2016. The budget for the employer contribution to the Police and Fire Pension fund is $1.6 million, or 28% of total wages. In regard to the MERS plan the pension contribution is budgeted by union group, averaging $24,000 per year per general employees.

With regard to retiree health care, Ms. Misczak noted the most recent actuarial study is as of June 30, 2012. At that time, the unfunded liability was calculated to be $67 million over the next 28 years. Based on two studies of these projected liabilities, the actuary has set contribution rates of 77% of Police and Fire payroll and from 6% to 136% for General employees. Due to budget constraints, the City is unable to fund the total annual required contribution. Instead, the Budget includes $3.7 million

funding or 39% of payroll for Police and Fire and between 6% and 54% of payroll for General Employees.

City Manager Myers noted the City's other funds face two major challenges. The first challenge, and perhaps the most serious, is the condition of the road system throughout the area and how to fund the major repairs and ongoing maintenance that are needed. Last December, the Governor and Legislature approved a package of bills an effort to address the deteriorating road and bridge network state-wide. Specifically, the legislation approved a May 5th state-wide ballot proposal to amend the State Constitution by increasing the general sales/use tax from 6% to 7%, eliminating the retail sales tax on gasoline and diesel fuel, removing higher education from the School Aid Fund, and amending the use tax distribution. Related statutory changes will result in an October 1, 2015 state-wide wholesale tax on motor fuel, amendments to vehicle registration fees, and restoration of the Earned Income Tax Credit in Tax Year 2016. Current estimates show that if the bill passes, Madison Heights would expect to receive additional annual funds of $1.2 million in Act 51 distributed road funding by FY 2018 and $265,000 in constitutional revenue sharing by FY 2016.

Mr. Myers added that the second major challenge continues to be the stabilization of the Detroit Water and Sewerage Department through the creation and operation of the Great Lakes Water Authority also known as the GLWA. This past October, the legislative bodies of the City of Detroit, Macomb County, Oakland County, and Wayne County approved the creation of the GLWA. The GLWA operating agreement signed by the participating counties and the City of Detroit caps the wholesale revenue requirement from suburban customers like Madison Heights to 4% annually for the next ten (10) years; however, the GLWA does not become effective until July 1, 2016, meaning that the water rate charged to Madison Heights for the FY 2016 is set by the DWSD. The rate increase charged by the DWSD to Madison Heights for FY 2016 will be over 11%.

Mr. Myers indicated the City's customers will see, and the FY 2016 Budget reflects, a combined 7% water and sewer increase reflecting a pass-through of the DWSD's over 11% increase for water along with a 3% increase by Oakland County for sewage treatment.

City Manager Myers stated the total budget equates to $47.3 million and includes funding of operating and capital purposes for 11 appropriated funds. This amount represents a $3.5 million or 8% increase from the prior year amended budget. The operating budget is projected to increase by $2.2 million or 6%, while the capital budget increases by $1.3 million or 20%.

Mr. Myers continued by commenting that the most significant changes in the operating budget are related to Personnel Services. Although the budget includes a reduction of 3.6 full-time equivalencies (FTEs) in FY 2016, personal services are still proposed to increase by $1.1 million related to funding employee benefits such as pension, retiree health care and medical insurance well as increases in Other Services and Charges.

Mr. Myers stated that when compared to the amended FY 2015 Budget, total revenues are up in the overall budget by $2.3 million after factoring out use of fund balance and interfund transfers. Property taxes continue to be the largest City revenue source representing 43% of the total FY 2016 budgeted revenues. Other major revenue sources include water and sewer sales, intergovernmental revenues, court fees, and other miscellaneous revenues.

As mentioned earlier regarding water and sewer revenues, Mr. Myers informed Council that the Detroit Water and Sewerage Department has announced over an 11% combined increase to Madison Heights for water usage in FY 2016. Oakland County's sewage disposal increase has been estimated at 3%. This contributed to a proposed combined rate increase to Madison Heights Water and Sewer customers of 7% in FY 2016.

Mr. Myers noted that in FY 2016, staff continues to focus on several internal budget priorities identified in FY 2015. These internal budget priorities were considered by department heads when formulating their goals and objectives for next year. There are five major budget priorities:

- Maintain fiscal responsibility to provide Madison Heights with a stable future;
- Advance technology in our daily operations in order to improve communication between City government, residents and businesses;
- Invest in people to attract and retain talented employees and assure the organization has a quality workforce to do the public's business, especially as the City's workforce is being asked to do more with fewer resources;
- Reinvest in the City's infrastructure and equipment in a sustainable manner to protect our existing investment, avoid higher costs in the future, and provide greater budgetary flexibility in subsequent years; and
- Engage residents to foster a positive image of Madison Heights.

He also gave several examples of departmental objectives that relate to these budget priorities, including the evaluation and continued growth of the MiLife Employer-Sponsored Health and Wellness Center, an analysis of our roads, infrastructure and service fleet toward a recommendation for potential Proposal "R-3" Road Improvement Program and/or "V-3" Vehicle

Replacement Program, and public safety training from the Police Department including senior citizen safety, and gun safety education.

Deputy City Manager Marsh noted Capital Outlay purchases total $7.6 million for all funds and $1.2 million for the General Fund. The majority of purchases are funded through dedicated millages such as Proposals "V", "R-2" and "L"). The General Fund purchases that are not being funded through a dedicated millage include improvements to City-owned property, such as replacement of the 43rd District Court rooftop HVAC units, carpet for the City Hall Council Chamber and Executive Conference Room and blinds for Council Chamber and Senior Center, Red Oaks Friendship Woods/Nature Center parking lot and Civic Center Park walking path improvements. Technology improvements include software updates to business and animal license software, a new city-wide phone system, and exchange email server.

She also noted that other purchases not funded through dedicated millages are Fire Department equipment including fire hoses, two automated external defibrillators, Fire Engine-mounted V-TAC communications equipment, Police equipment including 15 in-car video cameras and a detective vehicle, and the first of three phases of funding for the replacement and/or decommissioning of the City's underground gasoline and diesel fuel storage tanks.

Ms. Marsh stated that other funds include a capital outlay of $6.4 million. Most of this amount, $6.1 million, is budgeted for road rehabilitation and reconstruction projects funded by the Proposal "R-2" Neighborhood Roads Program, Major Road sectional work, sidewalk repair, and watermain replacements related to the R-2 projects. The remaining planned purchases include one water and sewer van, resurfacing of the Department of Public Services parking lot, Phase One funding for a replacement salt containment structure, an auto-lift for the Motorpool, and an updated meter reading collector from the Water and Sewer Fund.

Ms. Marsh indicated that the City's successful management of our financial constraints has presented us with both new challenges and opportunities. As of June 30, 2014, the General Fund unreserved fund balance was $5.7 million. Based on the budgeted use of fund balance, the City projects this fund balance will be $4.7 million at the end of FY 2016, or 18% of FY 2016 projected expenditures. City Council policy directs staff to keep fund balance equal to or above a minimum of 10% of budgeted expenditures. Staff was mindful of this policy as we worked to propose the FY 2016 budget for Council's consideration.

She then reviewed the City's debt situation by commenting that the City is allowed by statute to issue debt to provide for the acquisition and construction of major capital facilities.

She stated as of June 30, 2015, the City will be at 5.3% of the City's debt limit of $81.7 million, which is based on 10% of assessed valuation. The City has general obligation bonds outstanding in the amount of $3.2 million of an original $5.9 million Fire Station Bond issue, and $1.1 million of the original $1.5 million water and sewer bonds. The City is also responsible for our share of eight bonds related to the GWK Drain Project for a total of $7.0 million.

She noted the City's Bond ratings were reevaluated in December 2013 when S&P upgraded the City's rating from A+/Stable to AA- due to continued strong financial management.

City Manager Myers continued the presentation by noting the Major Street Fund is projected to be up by $760,000, or 60% in FY 2016. A total of $820,000 is allotted for much needed sectional repairs, in addition to joint and crack sealing, all in an effort to extend the useful service life of the identified roads until additional funding is available for full rehabilitation. The Budget meets this increased funding need through a use of fund balance of $430,000. Mr. Myers next identified the roads scheduled for next year including Whitcomb from Barrington to Townley, East Lincoln from Wolverine to Dequindre, Couzens from 10 Mile to Eastbound Service Drive, Campbell from 12 to 13 Mile, Southbound Stephenson Highway and turnarounds, Edward from Mandoline to Whitcomb, 11 Mile from 1-75 to Dequindre, and Industrial.

He stated the Local Street Budget decreases by $322,000 in 2016 to $3.3 million, which includes the 2016 Proposal "R-2" reconstruction projects of East Harwood from Couzens to Dei, Fourner and Mark, and East Lincoln east of John R. The Budget incorporates a drawdown of reserve funds of $962,000 for scheduled "R-2" projects. This year's work also includes sectional concrete repairs on Harlo from non R-2 road funding.

Regarding the Water and Sewer Fund, Mr. Myers noted the City continues to do an excellent job of reducing our internal cost and rebuilding cash reserves. The Budget includes $1.25 million for the replacement of Proposal "R-2" road-related watermains and $945,000 for non-R2 watermain projects which are funded from a planned use of reserves. The budget also includes phase one of a salt containment structure replacement, removal and replacement of the parking lot at the Department of Public Services Ajax location, a portion of phase one of three for our underground fuel tanks, a motorpool auto lift, phase one of two funding for a replacement box van, and twenty-five percent of the cost of information technology upgrades outlined earlier in the presentation. All of these projects were programmed in the Capital Improvement Program for FY 2016-17.

Mr. Myers stated the past year has brought about significant changes for Water with the bankruptcy of Detroit and the subsequent Great Lakes Water Authority which was formulated in the fall of 2014. Until this authority has been in place for a few years and rates stabilize, staff believes the need remains to maintain a healthy cash balance, which was at $7.8 million as of June 30, 2014. As stated above, $945,000 of this amount is being programmed to fund much needed non-R2 watermain replacements.

Mr. Myers concluded the presentation by stating that for the balance of today's meeting, the Deputy City Manager and he would like to answer any questions on the presentation, and make use of the line item budget to walk through the General Fund Revenues and Expenditures and Other Funds. Please keep in mind that if expenditures are increased or revenues decreased, staff will need Council's direction to rebalance the Proposed Budget to compensate for those Council-requested changes. After today's Budget Workshop, the plan would be to move forward with the May 11th Public Hearing and the Adoption of the Budget.

In response to Councilman Corbett and Mayor Pro Tem Hartwell's questions, Deputy City Manager Marsh answered that there are seven different bonds in the GWK, of which, $13.5 million is our share. The bonds are all of various terms, the longest goes to approximately 2029. Mr. Myers added that the bonds incorporate a series of projects to expand and modernize the retention treatment facility.

In response to Councilman Corbett's question, Ms. Marsh answered that the bonds are controlled by Oakland County and they have refinanced in the past and the rates currently are very favorable.

In response to Councilman Hartwell's question, Ms. Marsh stated it is State Law that municipalities cannot exceed a 10% debt limit. She continued that the City has never reached that limit, and the debt limit does not affect the City's bond rating.

In response to Councilman Soltis's question regarding the Senior Citizen Millage rate, City Manager Myers stated that this millage rate is looked at on an annual basis and raised or lowered according to need.

Councilman Soltis asked for clarification on the new water authority rate increases. City Manager Myers answered that there is an 11% increase in the wholesale rate charged to the City for water. In addition, there is an expected 3% increase in the sewer rate by Oakland County. He added that there are other components of water and sewer other than wholesale charges that are figured into rates; however, those are the largest factors.

Mayor Swanson reviewed the Proposed FY 2015-2016 Line-Item Budget document page-by-page. During the review of the document, the City Manager and Department Heads addressed Council's questions on a department-by-department basis.

CM-15-107. Council Comments.

Councilman Corbett noted he would like to move forward on a proposal for officer body cameras and perhaps include the item in the 2016-2017 budget.

Councilman Bliss concurred with Councilman Corbett and added the State of Michigan has several bills in motion to identify issues that may arise due to their use. Once issues are flushed out and our due diligence is complete, he would like us to be ready to move forward.

Mayor Pro Tem Hartwell expressed that he is more interested in capital projects than body cameras. In regard to the cameras, he believes there is a need to slow down and review policies as they develop. He also suggested that the Crime Commission may be of assistance in helping with the analysis.

In response to Councilman Soltis' question about body cameras, Chief Roberts responded that the Department is currently researching the topic and there are several pros and cons to the issue. He added that he is in the process of composing a detailed report for City Council and the City Attorney is also investigating the proposal.

Councilwoman Scott commented that she believes the proposal deserves study, but the City also will have to consider the liability that comes with adding the cameras.

Councilman Clark commented that he thinks a decision on the use of cameras should be made administratively by the Police Chief and Deputy Police Chief.

Mayor Swanson expressed his concern that if the Council requires the use of body cameras it may be interpreted that we don't trust our police officers. Councilman Corbett strongly disagreed with Mayor Swanson's concern.

Councilman Soltis expressed his interest in additional funding for getting the word out about meals for the homebound and asked if the City could reach out or do anything to assist the VFW in light of their announced closing. City Manager Myers responded that the City could include information about Meals on Wheels and feature it prominently in the City newsletter.

CM-15-117. _ Special Approval 15-01- 1087 E. Gardenia – New Parish Hall and Administrative Building

Mayor Swanson opened a public hearing at 7:43 p.m. to hear comments regarding the request to allow St. Vincent Ferrer to build a new parish hall and administrative building at 1087 E. Gardenia.

Kurt Neiswender, project architect, gave a presentation on the Special Approval request by St. Vincent for a new parish hall and administrative building. The presentation included information on the proposed setbacks, building site plan, building location, façade, and renderings of the site from various viewpoints. He also addressed areas of concern raised by those commenting at the March 23, 2015 Public Hearing.

Olivia Pierce, 888 Venoy, stated that she attended the first Council meeting when this was considered, and while the architect's letter did address some of the issues, there are some issues that she still has questions about. It is her belief that the building will be used for a lot more than just office space and she read a list of possible uses that were found on St. Vincent's website. She stated that based on this, the building could be used up to seven days a week and at the minimum, three days per week. She asked for consideration of alternative sites for the proposed building, such as the convent site and stated that alternatives should be considered.

Martin Smith, 28933 Hales, stated that the proposed building will be a benefit not only for the parish but for the community. It will help the spiritual growth of the church as well as the community's.

Anthony Bliss, 750 Pine Ridge Lane, commented that he loves his view of the church behind his property, but the property in question does not belong to the homeowners. Growth of a church is a good thing, and it should be celebrated. With all the churches closing these days, the need to grow is a good thing. Eventually, there may be a time that his view no longer exists, but he believes that the church should be allowed to grow.

Raymond Boyd, 605 Hecht, stated that he appreciates everyone's opinion on the matter. In the winter time, after it snows, the area does flood. Neighbors have elevated their property to alleviate the flooding into their yards. He commented that the church did not send any notices to neighbors to come discuss the new building proposal. He believes the building should be moved closer to the main building and he asked about the use of the convent area. He also stated that he was concerned with decreasing property values.

Kathleen Boyd, 605 Hecht, asked why the expansion was necessary. There are multiple properties within a close distance that could be rehabilitated, and the church should consider this option. Other churches have been closing and merging with this parish. She stated that there is a potential for loss of property values, and she is concerned about water management, increase of traffic, noise and lighting. She stated that the project is ill-advised and unwelcomed.

Kurt Neiswender responded that while a detention pond has a negative connotation; it is not as bad as it sounds. In reality, it is a very shallow area that will be fully seeded. Only in the event of a major storm will it fill up, and within 24 hours it will fully drain. This is how it is designed to manage water.

Ronald Ploskonka, 1008 Moulin, commented that this is a beautiful piece of property. All of the activities are already taking place at the church and now there will be room for them. He supports the expansion.

John Turchin, 29721 Sherry, stated that he belongs to the parish and has been a member since the 1950's. Right now the church is in conflict with the school for some activities, and they need more space. It is necessary and needed. He added that activities are normally during the day and early evening.

Peter Miles, 945 E Gardenia, stated that although some residents have said they feel disrespected, he believes it is the opposite. The church's growth is testament that they do care about their neighbors and the community. They offer various services including jail ministry, collection of school supplies for the poor, and St. Vincent De Paul donations. The new space is very necessary and asked that the approval move forward.

Victoria Lebarre, 838 Venoy, stated one of her concerns is the activity level, specifically in the evening. The neighbors do not want to hear all the traffic generated from the building. Also, what is going to keep the church from leasing it out in the future?

Leonard Kwapis, 29495 Herbert, stated he has been a member of the parish since its beginning, and he believes that the church has been a good neighbor. There have never been any problems, and if there were, the church would work to correct it. The church adds to the community not degrades it. People have a right to complain, and need to be heard, but overall the benefits to the community and the parish out way any negatives. The church is not changing the basic environment of the site at all.

Daniel Kostecke, 733 Hecht, stated he has the same concerns as all the other neighbors. He is in favor of growth within the spiritual community, but feels that the church did not consider all the alternatives, some that may even cost

less than the new proposed building. He presented Council with a petition opposing the project signed by 33 neighbors.

Loretta Hayes, 635 Hecht, commented that although she does not object to the growth of the spiritual community, she does not agree with the area where they are proposing to build. She would prefer an addition to the convent or existing fellowship area. She added that if the school is interfering with the needs of the parish, perhaps the church should consider taking it back. She questioned whether the Zoning Ordinance was being followed and stated that she believes this should be considered an accessory building. Community Development Director Schafer responded that the proposed building is not an accessory building. An accessory building is a garage or a shed. He continued that the proposed plan meets all of the City's Zoning Ordinances and requirements.

Gerald Gutowski, 1776 Dulong, noted that his parish moved to St. Vincent and there is no meeting space available. The proposed building is just big enough for what is needed. There will be no more meetings than what they currently have; they are just creating a bigger space to hold their activities.

Jesse Morgan, 878 Venoy, commented that all the voices in support are not directly impacted by the placement of the building. He noted that there was confusion over the address, and suggested that the convent area would be better placement. City Manager Myers responded that the City uses the legal address of record for all public notices. He also noted that a letter from Mr. and Mrs. Morgan was received by the City stating their opposition to the project which he distributed to the City Council, and requested the letter become part of the Public Hearing record.

Jennifer Hamel, 744 Hecht, stated that both the Madison District Public Schools and the City were holding meetings this evening. She stated that she is excited about the growth in the school district, but not for the church's project. The plans for this project were not shared during the planning stages, and noted that the convent space is vacant and should be utilized. She also stated that she believes the slides presented this evening are not accurate since they did not show the neighboring houses. The other project is bigger and affects us more, yet she is excited about the school project. She added that she was not happy with letter from the architect, and referenced comments that stated it was not the neighbor's property. It felt unwelcoming.

Matt Hauer, 858 Venoy, stated that he has a direct line of site to the proposed building. He shares the same concerns regarding property values and drainage, and hopefully the drainage will be addressed. He asked about repurposing the convent. Father John Esper responded that the initial intent was to repurpose the convent, but it was built as convent with 5 floors and has many small rooms. In addition, it was discovered that there would be extensive

costs due to asbestos, the need to put in an elevator, and the costs of actual renovating. He added that the church is currently in negotiation to lease the convent area, and the parish will solicit a new tenant if this lease falls through, or the convent may be taken down. He thanked the City Council for holding the hearing this evening, and stated that he is grateful for neighbors' concerns. The proposed building is well within the City Zoning Ordinance and building codes, and he appreciates City Council's consideration.

Anthony Vader, 28440 Herbert, stated that he has been a resident for the past 3 years and he likes having the church in the area and that they have been good neighbors. He is concerned about property values, but what about the impact on the neighborhood if the church doesn't grow or withers and dies? Let the church grow. He addressed a flyer distributed in the neighborhood and noted the inaccuracies in it, including a correlation between anticipated increase of crime with the growth of the church. He urged the neighbors to look at themselves to see how they could be better neighbors and what they could do to improve their housing values.

Joshua Pierce, 888 Venoy, stated that he works for a company that builds shopping centers and communities. He is concerned about vacant property in the area and commented that society is constantly talking about building new. While sometimes it does cost more to renovate or build where it may be less of a burden to neighbors, it doesn't eliminate this choice. He understands that the church does have a budget, but the church is not broke and the convent location should be considered. In addition, who is to say that they are not going to eventually rent out the space they are building.

Jaclynne Morgan, 878 Venoy, stated that she was the one who sent the letter to City Council. She stated her main concerned is for privacy. There will be more people in this area due to the location of the building. Less than half of the building is designated for office, the rest is multipurpose.

Darren Gray, 1267 Cynthia, commented that he is member of parish and not directly affected by the location of the building. He keeps hearing concerns of more traffic and more people. He does not believe there will be any more traffic then already exists. In addition, only two trees are being transplanted, all the rest of the trees and grass will remain. There just isn't room currently for meetings and the building is needed.

Lucas Acha, 843 Venoy, noted he has been a resident of the City for 25 years. He recently became a parishioner, and he has heard a lot of comments concerning kids and safety. As a parent of three children, he is not concerned about safety at a church. He continued that he has never felt unwelcomed on the property, in fact, he taught his daughter how to ride her bike in the parking

lot and many people use the property as a cut through to Rosie's Park. He voiced his support for the church.

Amy Roy, 868 Venoy, said her house will be directly impacted. While she is glad the church is growing, she is more concerned about foot traffic than safety issues. She has already spoken to the school about existing problems and she would like the convent area looked at as an alternative since they are considering taking it down. In addition, she suggested a privacy fence and noted that the residents already have a water issues.

Raymond Boyd, 605 Hecht, stated that he has lived in neighborhood for six years and sees a beautiful church. People in the community do enjoy the property, and this building will take some of the beauty away. He would like to see it moved closer to existing buildings.

Loretta Hayes, 635 Hecht, stated if the convent is not leased by August, it will be bull dozed. She added that nobody has addressed garbage dumpsters and if they will be behind the building. The school erected a shed on the property without a rat wall and they currently have rodent problems.

Jennifer Hamel, 744 Hecht, commented once this building goes up, there will be increased activity due to increased opportunities to hold events. She also believes there is a safety issue in regard to parking lot traffic and children.

Olivia Pierce, 888 Venoy, stated there are people on both sides of the issue. She believes there is an issue with transparency. With the Madison District Schools' project, there was a plethora of information. The parish is not growing, but rather adding other parishes. It is not neighborly to not be transparent.

Gerald Gutowksi, 1776 DuLong, stated both St. Vincent and St. Louis are very vibrant churches. The church has not violated anyone's rights and they have been good neighbors. The church did not build their property so that others can utilize it for other purposes. As for the possibility of leasing the proposed building in the future, he stated that it is not big enough to lease.

Joshua Pierce, 888 Venoy, countered that the building is approximately 6,000 square feet, and completely leasable. In addition, it has a social hall and meeting spaces. He also stated he believes using the school is a viable option.

Mr. Neiswender addressed the transparency concerns and noted that it is the policy and procedure of the City to go through this public hearing process. This building is purposely designed for St. Vincent Ferrer Church and its uses. If it were to be leased out for another purpose, it would have to go through a use change and be approved by the City prior to any alternative use.

Martin Smith, 28933 Hales, commented the parish is growing, and although he has been away from church for 40 years, he believes it is growing because of the people.

Seeing no one further wishing to speak, Mayor Swanson closed the public hearing at 8:48 p.m.

Motion by Councilman Bliss, seconded by Councilman Clark:

WHEREAS, a Special Approval Board application has been received from Kurt Neiswender, the architect and applicant, to allow St. Vincent Ferrer Catholic Church to construct a new administrative building in the R-3 One-family Residential District at 1087 E. Gardenia, and

WHEREAS, a public hearing was advertised in Madison Park News on March 4, 2015 and 331 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION:	1087 E. Gardenia
REQUEST:	Special Approval to allow a parish hall and administrative office building in the R-3 District under Section 10.307(5) of the Zoning Ordinance.
EXISTING ZONING:	R-3 – Residential
EXISTING USE:	Existing church, parsonage, convent and elementary school

STAFF ANALYSIS:

1. This case was tabled by City Council at the March 23, 2015 meeting following public hearing. Due to an error in the public notifications for that meeting (discovered after the hearing) the public hearing has been re-noticed and will be opened again at the April 27, 2015 City Council Meeting to insure timely and adequate public hearing.

2. The applicant has submitted a letter in response to the public and City Council comments at the March 23, 2015 hearing. The applicant has not made any changes to the submitted plans, which remain in compliance with the City's requirements for site plan approval. The applicant has

also requested that the overhead projector be available during the meeting so they can reference their plans when they address City Council at the meeting.

3. Special Approval is required for churches and related facilities in the R-3 District. The proposed Parish Hall and Administrative Building (5,919 sf) is the subject of this review. The existing church, parsonage, convent and elementary school are all previously approved uses at this location and are not the subject of this special approval request.

4. Applicant proposes administrative offices, meeting facilities and funeral luncheons in the new building. No rental of the facility for weddings or social events is proposed.

5. Proposed parking meets minimum ordinance requirements. Applicant is proposing banked parking, citing alternate hour use parking for the new building and worship facilities. Proposed banked parking meets all requirements and the Site Plan Review Committee has approved the proposed parking design should City Council grant special approval for the proposed use. The banked parking shown on the plan is not proposed to be constructed. In accordance with the ordinance, it is shown to demonstrate that the site could accommodate the full number of required parking spaces.

6. Hours of Operation: 9:00 am – 5:00 pm Mon – Fri. (with periodic evening meetings – 6:00 pm – 8:00 pm.)

7. The Site Plan Review Committee has reviewed the plan and all plan review comments have been addressed.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(5) of the Code of Ordinances, hereby approves St. Vincent Ferrer Catholic Church to construct a new administrative building in the R-3 One-family Residential District at 1087 E. Gardenia.

Mayor Pro Tem Hartwell thanked everyone for coming to the meeting this evening and for being respectful. This is a sensitive issue, and concerns for property values and safety are understandable. He stated that City Council is limited on what they can do in regard to private land owners and use of their property. Here we have a church next to a neighborhood and the discussion is understandable. Council does have the ability to impose conditions under certain circumstances, and most concerns seem to be with the compatibility of adjacent uses. He agrees with the expert report on lighting; however, he suggested there may be conditions on lighting times. Other conditions may be

appropriate such as limits on operating hours and prohibiting some types of alcohol use. In addition, he suggested a review after a year to gauge the traffic impact. He believes that the residents have fair concerns, but it is private property and they have a right to use it.

Councilman Bliss echoed Mayor Pro Tem Hartwell's sentiments of thanking everyone who came out for the debate. He stated that he is open to fair conditions, but he does not want to back the church into a corner with a litany of conditions. This parish has been here for 50 years and has already proven they are a good neighbor. In addition, this is not an increase in traffic, but rather a repositioning. The campus layout is important, and the building will be an enhancement to the quality of programs offered. He commented that the parish has been there longer than some of the houses, and 20 years ago, traffic was much higher. Again, he could back fair conditions, but he does not want to impose a litany of conditions on already good neighbors.

Councilman Clark noted that a berm cannot be used for screening because it increases drainage onto properties and that the detention area is better for absorption. All the trees will still be there, and he suggested enhanced landscaping for screening purposes.

Councilman Corbett noted that in the 1960s and 1970s, the church held five masses and had a full school. He recalls a large amount of traffic coming out on Herbert. What has happened is the traffic has declined. For the size of that property and what was originally anticipated, the property is vastly underutilized. There are significant limits to what Council can do with an individual property. It is not a commercial property and can't be used as such. He stated that he has concerns about the suggested limitations. If it is a lawful use and if Council doesn't grant it, the courts will. He added that he is concerned about limits on lighting due to safety issues.

Councilman Soltis stated that he understands everyone's concerns expressed this evening. At the previous meeting, the issue was tabled due to these concerns. He stated that he met with Father Esper and walked the property. There simply is no office space available. The building site is much smaller than it appears and is approximately the size of the existing basketball court. He believes in the church's activities and the need for spiritual growth in the City. They are trying to build their mission and do good for the City. He concurred that Council has limited power over private property owner's rights.

Councilwoman Scott thanked everyone for coming out of their homes and attending the meeting. It is enlightening when people talk to us about what is important to them. We listen and try to do the things that are good for our City. For anyone who lives next to the property, she understands why you are here. Your property is probably your single most important investment in your

life and your concerns are totally justified. She noted, however, that sometimes we perceive things in one way and those perceptions do not always pan out. She does not feel that the church is going to cause harm to the community, but rather it will bring good to the community, and they will respect their neighbors. Council has listened, and there is no reason you can't come back and tell us if you experience problems in the future. Seeing the actual building rendering gives us a much clearer picture on the proposal, and based on these comments, and she has faith that the church will respect their neighbors and be a benefit to the community.

CM-15-118. _ Special Approval 15-01- 1087 E. Gardenia – New Parish Hall and Administrative Building – SUBSTITUTE MOTION.

Motion by Mayor Pro Tem Hartwell, seconded by Councilman Clark, to approve St. Vincent Ferrer Catholic Church to construct a new administrative building in the R-3 One-family Residential District at 1087 E. Gardenia with the following condition:

1. A row of hedges shall be planted around the building on the north and west side masking the view from the neighboring properties.

Councilman Corbett stated that the condition is not practical to enforce.

Councilman Clark noted that if neighbors have a problem with their view, the church will need to address it, but not as a Special Approval condition.

Councilman Soltis stated he was not comfortable with motion.

Councilman Bliss added that all of the parish leadership is in attendance tonight listening to concerns. If anything needs to be addressed they will be open, and he believes there will be open communication with their neighbors.

CM-15-123. Mayor and Council - Comments.

Councilman Corbett announced Council office hours are on Fridays, from 1 p.m. – 2 p.m. at the library through the end of May.

Councilman Bliss commented that a lot of times there are many opinions that our citizens hold and we try to adopt their visions, but one of the best ways to have an impact and a say on the direction of the City is to get involved and serve on a board or commission.

Mayor Pro Tem Hartwell had no comments this evening.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

City Clerk Printz stated that the State Special Election is on May 5, 2015 and the polls will be open from 7 a.m. – 8 p.m. Voters in Precinct 5 who voted at the Madison High School are now back in their permanent location, the site of the former Schoenhals Elementary, now Madison Elementary. If you need an absentee ballot, please call the City Clerk's office. The last day to request an absentee ballot by mail is 2:00 p.m., Saturday, May 2, 2015.

Councilman Clark announced that he and his wife Lois have been blessed with another great granddaughter, Reagan.

Councilwoman Scott requested a Certificate of Appreciation for Rick and Judy Lewis and the Lamphere Drama Club for their community outreach as part of the recent Lamphere High School production of Willy Wonka and the Chocolate Factory. She provided the answers to the trivia question from the last meeting:

What were the two former stores that occupied the K-Mart space on 12 Mile Road and John R Road?

d. Hudson's Budget Store and E.J. Korvettes - she noted in 1961 Hudson's Budget Store opened, in 1969 it changed to E.J. Korvettes, and changed to KMart in 2000.

This meeting's 60th Anniversary trivia question is:

What was proposed to be built in 1952 on the northeast area of John R and 12 Mile Road and what was built there instead?

a. Northeast Airport then the Oakland County Incinerator
b. Oakland County Landfill then the Oakland County Incinerator
c. Oakland Mall then the Madison Heights Post Office
d. Oakland County Landfill then the Abbey Movie Theater

Councilman Soltis stated that June 2nd is Older Michiganians Day. Last year, a delegation of 25 seniors went to Lansing where we met all our legislators and many senior advocates. The group sat in the State House gallery and Senator Townsend announced our attendance. He invited all interested seniors to join him for this year's event. This is a free event, with the Area Agency on Aging donating our box lunch. Please call him at 248-219-6381to attend. As for the Meals on Wheels program, he stated that he would like to see more outreach, so if you know anyone in need, please give the City a call and we will put them on the list to receive a free meal. He concluded his comments by stating that over the weekend, the Civic Center parking area was full due to an event in the park. He advocated for a fence in the Police Department parking area so that Police Department spaces are not taken by visitors.

Mayor Swanson congratulated County Commissioner McGillivray for his efforts on the Nature Center Clean-Up Day. He thanked everyone for coming this evening, and he thanked Council for their hard work.

City Manager Myers read the following proclamation into the record:

WHEREAS, the public works services provided in our community are an essential part of our citizens' everyday lives; and,

WHEREAS, the support of an understanding and informed citizenry is vital to the efficient operation of public works systems and programs such as water distribution, sewer maintenance, storm water management, streets and highways, public buildings, fleet maintenance, parks, recreation and solid waste collection; and,

WHEREAS, the health, safety and comfort of our community greatly depends on these facilities and services; and,

and calls upon all citizens and civic organizations to acquaint themselves with the issues involved in providing our public works and to recognize the contributions that our public services employees make every day to our health, safety, comfort, and quality of life.

Mayor Swanson presented DPS Director Vitali with the proclamation.

CM-15-126. Approval of the Agenda.

Motion by Councilman Soltis, seconded by Mayor Pro Tem Hartwell, to approve the agenda with the addition of Presentation #2 - Madison District Public Schools Superintendent Randy Speck.

Motion Carried

CM-15-127. Presentation - Madison District Public Schools Superintendent Randy Speck.

Madison District Public Schools Superintendent Randy Speck, 3903 Nutcracker Court, Oxford, stated that present with him this evening are School Board members, administrative staff, teachers, and Habitat for Humanity representatives. He presented to City Council a PowerPoint presentation highlighting the Madison District Public Schools mission and vision, which includes the building of a new middle school in the northwest part of the Madison High School property. He stated that education is a competitive industry, and all school districts are trying to attract families. In the Madison District, their theme is Madison Kids Matter and they treat their students like family. He stated that the school district is proposing a partnership with the City to develop affordable housing, noting that this is their plan to grow and remain viable. The site of the proposal is the area next to Halfman Elementary, sometimes referred to as Sunset Park. He presented a concept of homes, green space and a neighborhood vision, noting that they have been working over the past several months with Lawrence Tech and Habitat for Humanity on the concept. He stated Lawrence Tech is a leader in architectural design, and they are looking for new ways to build, save money, and create energy efficiencies. He continued that when these types of partnership are formed, you know some of the outcomes, but you become aware of other benefits as the partnership progresses, citing grant writing opportunities through Habitat for Humanity. We become the beneficiaries of our partners work and practice. He stated that the proposal is a good development, and it uses the community's assets leading

to positive outcomes for both the School District and the City. He referenced the City's Parks and Recreation Master Plan, which noted a need for careful analysis of Halfman Elementary park space. He stated that they are proposing an area that people could walk through and have good, affordable housing, with green space and tot play areas. He presented a conceptual idea of housing and park space all in one. He stated that Madison Public Schools acknowledges the City has a green space problem in this area, but they are coming to the City to have an open conversation and he extended an invitation to the City to be part of the partnership. He believes this plan is innovative, and he would like the City to take a look at it. He appreciates the opportunity to give the presentation this evening, and looks forward to having more conversations. In addition, he requested that the proposal be studied by Parks and Recreation Board and a recommendation be given to the City Council.

Mayor Swanson invited any interested parties to speak on this matter.

Cindy Holder, 901 E. Lincoln, stated that Mr. Speck's presentation was great; however, she is concerned about building $105,000 homes in a $55,000 home neighborhood. In addition, she stated that she is concerned with public giving away an asset. She is not sure if the residents living in the south-end of the City are in support of this project. While there is a big push to move forward, more information is still needed. She stated that she knows the steps that City went through to deed the property to school district, and it seems that those steps would have to be revisited. She stated that she hasn't seen enough information to tell whether the concept is a great, positive thing. Perhaps we need to keep our focus on educating our kids and she asked that City Council please proceed carefully. Assets once they are given away are hard to get back. She concluded by noting that building homes does not guarantee that children who live there will attend the local schools. Let's be friendly and work together, but do not rush to make a decision.

Madison District School Board President Al Morrison, 24880 Delton, informed City Council that there were three speakers at the school district's Town Hall meeting, and not at any point in time was a Council member named or bashed. The idea that we are not developing the south-end of the City in an appropriate manner is a matter of opinion. He is confident in the public's support. The fiscal numbers are not clear yet, but the school district is looking for a starting point so that they can get a firmer handle on the financial picture. He stated that the Madison District has struggled with eight superintendents in a 7 year period. The district has been out of a deficit for the past 5 years, and the only way to keep moving forward is to rely on the schools and have local government support.

Director of Student Services/Special Education Menhem Aouad, 592 Glen Arbor Ln, Grosse Pointe Woods, stated that we need to reflect on what we wish to accomplish here. We are hearing different perspectives. This is long term

planning and forward thinking that will take us where we need to be. He asked that Council remember Universal Mall, Downtown Royal Oak, and Hazel Park prior to their revitalization. These are all examples of creating a renaissance and refurbishing these communities. We need to look at these areas and see the gems they have become. He encouraged City Council to receive input and conduct due diligence, but please keep an open mind. Where you invest in community transformation, you will reap the benefits.

Facilities and Athletic Director Jimmy Brown, 30509 Ohmer, Warren, stated he has either lived or worked in Madison Heights for over 40 years. He has never seen this type of progress from the Madison District Public Schools. He stated he is proud to say he is from Madison Heights, noting he worked for the City's Parks and Recreation department, coached in the city, and he is proud of where he is from. There is a change coming, it has already started, and it is not going to stop. He asked when the last time City Council had a presentation from a superintendent. They are just asking for a discussion to see what can happen. The school district is trying to make fiscally responsible decisions by consolidating our schools. If we do that, there is no reason to hold on to the five properties that the school district owns. Even if we only develop it from our side of the property, something will still need to be done. He thanked Mayor Pro Tem Hartwell for visiting the school and giving this matter his time and attention. We all have an opportunity to be part of the change, and the time to start is now.

Union President and teacher Angel Abdulahd, 238 Streamview Dr., Troy, commented that the conceptual plan calls for 30 new homes, and he is willing to buy the first home. New homes raise taxable value by 10-15% in the area where they are located. New homes attract families, and affordable homes can meet a family's needs for moderately priced housing. Currently, there are twelve teachers looking for homes around the $100,000 price range. Wouldn't it be awesome to have teachers that work and live here? He encouraged Council to look at it in a fiduciary way, from a neutral perspective, and decide what is best for the City.

Bill Pittman, 27768 Delton, stated that he was not sure if Mr. Abdulahd would be eligible under the proposed program; however, he does believe Habitat will have buyers for these homes lined up. Madison Schools are shooting for the moon; our students went past the moon and all the way to the space station.

Paul Sanders, 26433 Rialto, stated that he believes the $105,000 price mark is attainable based on the houses sold in his neighborhood. He asked that Greig Street be fixed; there is paved concrete that is falling apart after 5 years. Mr. Myers responded that the City is in the process of a city-wide paving analysis and Greig Street is part of that process and will require a long-term solution.

Oakland County CEO of Habitat for Humanity, Tim Ruggles, 3330 N. Hickory Ridge, Highland, stated there is a long history of working together with Madison Heights and it has been a productive relationship. This conceptual plan serves the City, neighborhoods, and families. Habitat brings people together to build homes and communities and the school district wants to be nucleus of this development. Let's not think of it in terms of giving away property, because that insinuates that the property has no value. This will raise home values. He asked that the City think of it as a redeployment of assets that has the possibility of meeting the goals of the City's Parks and Recreation Master Plan.

School Board member Alexander Marr, 27129 Alger, thinks the district is trying to be responsible. When he joined the School Board, he walked into a million dollar deficit, and now the deficit is wiped out, and the district has a good vision. We are trying to progress our district and better our town.

CM 15-128. Halfman School/Sunset Park Proposal.

Motion by Councilman Bliss, seconded by Mayor Pro Tem Hartwell, to refer the Halfman Development Concept from the Madison District Public Schools to the Parks and Recreation Advisory Board for a formal review with an initial meeting to occur at the first available date.

Councilman Bliss stated that the Parks and Recreation Advisory Board is the best place to iron out the details. This is an incredibly big investment and a very important decision. The topic will need to come back to Council for further dialogue and a decision.

Councilwoman Scott thanked all residents and Madison people for attending the meeting this evening. She stated that she senses their enthusiasm, and sees your vision. City Council's job is to listen. We need to do this in a logical fashion and studying the proposal by the Parks and Recreation Advisory Board is the appropriate first step. She thanked Schoenhals School for hosting the history museum. Your history is important to the whole city. She stated that Randy Speck is a great superintendent and a shining example of what we need to begin this discussion. The school district is interested in progress, and the City is too. We hear your opinions and we value them, and Council will work very hard to move the process.

Councilman Soltis thanked Superintendent Speck for presenting the school district's vision. He thanked all who spoke, noting it takes courage to speak in front of a large group. The school district has impressive partnerships with this venture, and he is all for affordable housing. He sees value in the project and hopes to continue the open dialogue and he is ready for a discussion.

Mayor Pro Tem Hartwell stated that he knows the neighborhood and he lives and grew up in the south-end of the City. He stated that he never approaches his Council member job as a resident in the Madison District, but rather as a City representative, with a fiduciary responsibility. The number one mission of the City is for the health and safety of community, while working with a limited budget. Public Safety is first priority, and he finds this project interesting. The City is a professional organization, and he will be interested in seeing more information on the project.

Motion Carried

CM 15-130. Meeting Open to the Public.

Nancy Katynski, 391 Hecht, stated that she has a problem with her large water bill. She is asking that the City consider allowing separate meters for sprinkling so that residents aren't charged for sewage on that portion of the bill. She stated that other communities, such as Sterling Heights, give discounts to residents on their summer water bills. City Manager Myers responded that this issue has come up in the past, and the topic has been studied. He explained that the City has a system that is mostly fixed-cost driven, and if separate meters were permitted, it would result in other customers subsidizing sewer charges. He stated that he and staff would be happy to sit down with Ms. Katynski and explain the policy in greater detail. He stated that one of the good things about the Great Lakes Water Authority is that for the first time, the City of Detroit will be treated as a customer separate and apart from the wholesale suburban customers, and be responsible for issues related to Detroit. He also added that additional meters would still have to be serviced, replaced, and budgeted for, driving up City costs, and asked Ms. Katynski to provide her contact information to DPS Director Vitali.

Gloria Moore, 27368 Dartmouth, invited everyone to come to the Friends of the Madison Heights Area Senior Citizens meeting on May 19th at 7:00 p.m.

Paul Sanders, 26433 Rialto Street, agreed that fixed income seniors should be granted a break on their water bills, and that it would not be detrimental to others.

CM-15-131. First Amendment to Interlocal Agreement for On-Site Health & Wellness Center.

Motion by Councilman Clark, seconded by Councilwoman Scott, to approve the First Amendment to the Health and Wellness Center Interlocal Agreement and authorize the City Manager to sign on behalf of the City.

Councilman Bliss stated that he is in favor of adding agencies, but would like to see it limited to public agencies.

CM-15-132. First Amendment to Interlocal Agreement for On-Site Health & Wellness Center - SUBSTITUTE MOTION – FAILED.

Motion by Councilman Bliss, supported by Councilman Corbett, to approve the First Amendment to the Health and Wellness Center Interlocal Agreement with the following substitution:

Section 7 (a) Entry Fee. In the event that an outside ***public*** agency (hereinafter "additional Employer") wishes to utilize the services of the Center,…

City Manager Myers stated that the cities in large part modeled the Health & Wellness Center from the CareHere center on the west side of the state, which was a partnership between Calhoun County, Toyota, and the City of Battle Creek. We are not targeting private sector per se, but wanted to give ourselves flexibility.

In response to Councilman Corbett's question, Mr. Myers stated that it is possible that a private business could participate in the agreement. Deputy City Manager Marsh added that the founding members are not targeting or marketing to private industry, but rather wanted to have some flexibility. If it is not amended to remove the word "public" it would prevent those private businesses that are already using CareHere to use the center reciprocally. It is not the intention to solicit private companies, but rather increase the utilization.

In response to Mayor Pro Tem Hartwell's question, Ms. Marsh stated that any organization that wishes to join would have to be approved by the controlling authority, which is a committee comprised of the founding member communities.

Mayor Pro Tem Hartwell stated that he did not believe that private industry is going to line up to join the center and that the Wellness Center is not going to become the main healthcare provider of the area. Councilman Bliss disagreed and stated he does not want the city to be seen as competition to other healthcare providers.

Deputy City Manager Marsh summarized the reasons the amendment is being requested are: the center has had other public employers asking about participating, it will allow the ability to offer reciprocity, and an increase in utilization may allow for increased hours of operations.

Mayor and Council - Comments.

Councilman Corbett had no comments this evening.

Councilman Bliss thanked everyone that came out tonight, stating there was a lot of great feedback and he is looking forward to the upcoming dialogue.

Mayor Pro Tem Hartwell thought this evening's conversation was positive. Sometimes it is much easier to be negative, and he applauded the City Council and public for their dialogue.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

Councilman Clark wished Mayor Swanson a Happy Birthday. He commented that recently he received two phone calls pertaining to water bills that exceed $900. After investigating, it was determined that the cause was a leaky toilet. He informed the audience that if you are a senior, you can go to the Senior Center and pick up a testing kit to see if you may have a leak. If you think

your water bill is high, you can also pick the testing kit up at City Hall. City Manager Myers added that if you suspect a leak, please call DPS to schedule a service appointment to take a look and identify the source.

Councilwoman Scott stated that 60th Anniversary commemorative shirts are now available. Place your order at City Hall, and order forms can also be found on the city's website. She reminded the public that the Animal Shelter's Open House is June 13th.

She provided the answers to the trivia question from the last meeting:

What was proposed to be built in 1952 on the northeast area of John R and 12 Mile Road and what was built there instead?

a. Northeast Airport then the Oakland County Incinerator

This week's trivia question is:

What building was constructed on its original location on John R in 1924 that later became Wilkinson Middle School?

a. Madison High School
b. Kendall School – one-room schoolhouse
c. Lamphere High School
d. Madison Heights Library

She concluded her comments by wishing Mayor Swanson a Happy Birthday.

Councilman Soltis stated that he grew up in a second generation union family and he is all for union jobs. Although the City is not laying off anyone for the lawn contract approved this evening, he would rather see the City hire a union person. The Michigan Republican Senate is attempting to outlaw working people's rights to earn a decent wage. It's a shame that they tried to break apart union membership, taxed public pensions and now wants to unemploy local contractors and construction workers. According to the International Brotherhood of Electrical Workers Local 58, Prevailing Wage laws and policies have been enacted at the federal level (Davis-Bacon), the state level, and by several Michigan municipalities. The goal of the Prevailing Wage is to protect local contractors and construction workers from non-local contractors (often from out of state) who bring in lower-cost workers to give them a competitive advantage when bidding on public works projects. While proponents of repealing Michigan's Prevailing Wage Act claim that doing so would reduce public construction costs by $250 million, several peer-reviewed academic studies over the past two decades have demonstrated that although bids may come in lower on non-Prevailing Wage jobs, there is no statistically significant difference in the final construction cost between projects done with Prevailing

Wage and those done without. He stated that he wants to present a resolution at the next Council meeting to protest against such legislation. On June 2nd there will be a bus trip to Lansing for Older Michiganian Day. The day is free for seniors, and includes the bus trip, t-shirt, and lunch which is sponsored by the Area Agency on Aging. The group will be departing the Senior Center at 8:30 a.m. It was a great time last year and we had 25 residents participate. This year, we are hoping to double that number. If you would like to participate, please contact the Senior Center for details.

Mayor Swanson had no comments this evening.

City Council had a brief discussion on Council Policy #106, Adding Items to an Agenda, to address Councilmember-initiated policy resolutions. It was the Council's consensus that the policy be analyzed and options identified by staff and brought back to City Council for future consideration.

CM-15-158. Mayor and Council - Comments.

Councilman Bliss congratulated the Lamphere Drama Club on their play and he noted he is pleased to see the club thriving. He also stated he concurs with a previous comment made by Mayor Pro Tem Hartwell regarding administrative approval of outdoor sales rather than the current practice of obtaining Council approval. He suggested an ordinance to prohibit fireworks after 11:00 p.m. and require that all firework displays obtain Council approval.

Mayor Pro Tem Hartwell commented that State law places limits on how municipalities can regulate fireworks, however, he would like to revisit the issue to see if there is anything the City can do to enhance the regulations and penalties, or, in the alternative, send a letter to our state legislators to express

the City's concerns. He stated that the City is blessed to have a private organization sponsor our Memorial Day Parade and he thanked the many wonderful volunteers who helped with the event.

City Attorney Sherman had no comments this evening.

City Manager Myers had no comments this evening.

Councilman Clark thanked the Police Reserves and the Explorer Scouts for donating their time working the parade.

Councilwoman Scott commented that behind the scenes there is a lot of work that goes into the Parade. She continued by noting Andy McGillivray works year round to organize it with the help of Martha Kehoe, and they both do an incredible job. She thanked the VanSice family, who were the Grand Marshals of this year's parade, and thanked the parade's new commentator, Jeff Geralds. Councilwoman Scott announced that Laurie Geralds is organizing a new event in the City, called MAD (Making a Difference) Mondays. On one Monday a month, beginning on June 1, 2015, volunteers can help with park clean-up. The first event is at Rosie's Park, from 6:30 p.m. to 8:00 p.m. The event will be Co-Sponsored by GFWC/MHIWC.

She provided the answers to the trivia question from the last meeting:

What building was constructed on its original location on John R Road in 1924 that later became Wilkinson Middle School?

a. Madison High School

This week's trivia question is:

Who in the early 1900s, laid a trail from Detroit to Square Lake Road, which became a road that led to the growth of the Madison Heights area?

a. John R. Williams
b. Oswald Dequindre
c. Augustus Woodward
d. Burnett Frechet Stephenson

Councilman Soltis stated the parade was an excellent time. The closing ceremony was spectacular, and this can be an emotional time, honoring all who have given their life for their country. He also wanted to remind people that June 2nd is Older Michiganian Day. All interested seniors can join him for this year's event. The event is free and will include a box lunch and bus ride to Lansing. Lastly, he went see a gentleman speak who started an organization called Zero Day, which is dedicated to helping veterans re-acclimate into

society by providing services such as job training and housing assistance. He would like to see Madison Heights involved in the program, possibly with Habitat for Humanity, and suggested a home be built in the City that would be suitable for a veterans needs.

Mayor Swanson reiterated his thanks to the Parade Committee, stating the parade was a fantastic event.

Councilman Corbett expressed his congratulations to the Macomb Schools & Government Credit Union for their 60th Anniversary, noting it is a tribute to the success of the Credit Union and their philosophy. He noted that the administration and public has worked together in a concrete way, and as a result, the City is adding a part-time Code Enforcement Officer to the staff. He

suggested that the City incorporate an enhanced enforcement policy that would focus attention on three areas: debris removal, high grass and weeds, and abandoned/unlicensed/inoperable vehicles. He noted Warren does an enhanced enforcement procedure that wasn't punitive, but rather was positive in scope. It was educational and established a line of communication between the City department and residents. City Manager Myers confirmed that the part-time Code Enforcement Officer position will be beginning in early July and also stated the staff has discussed the concept of enhanced enforcement and is looking to implement a program in the near future.

Councilman Bliss concurred with Councilman Corbett's comments. He thanked the audience for watching the new high quality video of tonight's meeting. He thanked staff and ITAC for their work on the project. He expressed his congratulations to Jaylin Golson for his hard work and for defending his back-to-back 400 Meter-Race State Title. He commended staff on looking at the Nerdwallet survey and for providing suggestions of promoting the City's great family events, including school and community group events. He asked staff to look into creating a "For Families" page on the City's website that will link to other organizations and community related upcoming events.

Mayor Pro Tem Hartwell stated that we all agree that our police have a very difficult job, and yet they show us time and time again that they can make split second decisions. He congratulated the Police Department for sponsoring the Bike Rodeo for our young citizens in town. These types of events show police officers have positive relationships with the community. He announced the Animal Shelter Open House this Saturday, June 13 from 12 p.m. to 3 p.m. He encouraged the public to come out, sign up, and volunteer.

Assistant City Attorney Sherman noted that his daughter graduated from the University of Michigan Medical School and his youngest son was the commencement speaker and graduated from Washington University in St. Louis, both on the same day. Thanks to technology, he was able to attend one event and watch the other. In addition, his older son announced his engagement that week as well.

City Manager Myers stated that today he received notification that City Clerk Cheryl Printz received her Certified Michigan Municipal Clerk's designation and congratulated her on the accomplishment. He congratulated Ricky and Cynthia Dong on the opening of 168 Asian Mart and commented that he believes it will be very successful. He extended congratulations to Executive Assistant Kathy Vesprini and Deputy City Manager Melissa Marsh as well as all of our employees, for the City receiving for the first time the Platinum Level of the *Fit Friendly Award* from the American Heart Association. The City has been getting the Gold Level since 2009, but was given a higher honor this year for program improvements, namely our Wellness Market for employees. In addition to the video improvements this evening, the City is also in the process

Jason Chaput, 20465 Starina, Clinton Township, spoke to the City Council regarding his personnel issues with the City. He requested to speak to staff regarding his questions. City Manager Myers noted that he will provide a report to Council on the matter.

Merri Busch, 1117 E. Hudson, thanked the City for being transparent in Sunset Park/Halfman discussion and stated that she appreciates the efforts made by Council to listen to the residents on their desires for the space. She requested that the Parks and Recreation Advisory Board minutes be updated online. She stated that the decisions we make, while they may be small in scope, have impact on generations into the future. She requested that the City find a way to buy the property, or get it back from the school district, so that the City retains green space.

Ron Goatley, 320 E Farnum, stated that he has lived in City all of his life, and the City has always prided itself on their parks. Sunset Park/Halfman is the only park in south end and we need to keep that park. The children south of Lincoln won't have a park if this is turned into houses, and he doesn't want to see that happen. He urged Council to save the park space.

Wayne Reif, 950 E. Lincoln, stated that he is not sure why the public comments are addressing the Sunset Park/Halfman issue at this time, since the City has no control over the land unless the school district closes the building. If the City does retain the land, he would like to see it returned to a park. He noted that the City's Parks and Recreation Master Plan identifies a deficiency of park space in this area. He stated that he is upset that the City has a history of closing parks in south end, and complained that there are no areas for children to play basketball in area.

Jeremy Haggard, 1116 E Brockton, echoed the previous comments made regarding Sunset Park/Halfman, adding that it is very important to keep parks open. He requested that the City perform code enforcement on businesses south of 11 Mile, noting that he believes Code Enforcement is doing their job, but could use some additional help.

CM-15-282. Mayor and Council - Comments.

Mayor Pro Tem Corbett commented that no one on Council or the City Manager could answer the Mr. Chaput's questions tonight due to union policy, contract

stipulations, and federal law, and that is why there was no response when he spoke during public comments.

Councilman Bliss noted that the public forum was held on the Sunset Park/Halfman discussion, and the Parks and Recreation Advisory Board will be meeting the first week of October to formalize their recommendations to City Council. He noted that great suggestions and feedback have been received. He thanked the almost 80 residents that attended the public forum, the over 200 respondents that participated in survey, Parks and Recreation Advisory Board members for holding their meetings and hosting the public forum so that the issue could be well vetted, City staff for administrative support, Halfman staff for assistance with the forum, and City Council. He noted that there are two alternate seats open on the Parks and Recreation Advisory Board, and he encouraged those who spoke on this matter to apply. There are also three student representative spots open on the board as well, and he asked any students who may be interested to apply. He stated that the City is working on a Mock Student Council/Internship program which will give high school students a chance to sit in a council seat and understand the workings of city government as a whole. Mayor Swanson echoed the sentiments of City Council. She announced the Festival in the Park is Sunday, June 28th, please come by and see some great fireworks and socialize with your neighbors.

Councilman Soltis thanked police officers for all that they do. He mentioned a police incident from out of state, and commented that it appears the officer is being persecuted for doing his job. It seems simple to him - if a police officer tells you to do something, you should do it. We need to have respect for authority. He stated that the senior trip to Lansing went well, there were 30 seniors along with Mayor Pro Tem Hartwell and himself that participated. It was a great trip; they met their legislators, took a tour of the Capitol, and sat in the House Gallery where their presence was announced. A good time was had by all.

Sergeant Barrett, Officer Spangler, and Officer Koehler taught bicycle safety, and our K9 Unit, consisting of Officer Lewis and canine Grim, were there for the kids to meet and for demonstrations. Representatives of D&D Bicycles donated their time, providing safety inspections and making minor adjustments to the kids bikes. Magic Steve performed balloon twisting, making various things like hats, swords, and animals. Also helping us out were Crime Commissioners Margaret Marentette, Crossing Guards Catherine Ruzycki, John Maisel, and Donald Pawlowicz; Connie Koehler and her son, and Police Department Chaplains Craig Brundage, Don DesNoyer, and Dennis Jones. A drawing for a chance to win a new bicycle was held and tonight, Chief Roberts presented the girls winner, Elyce Debro, and the boys winner, Princeton Phillips, with their bicycles. Chief Roberts thanked Youth Officer Tim Hirst for planning the event and coordinating all of the activities, Deputy Chief Haines and Administrative Assistant Carolyn Howard, who helped Officer Hirst along the way, and Rick Lewis and the Madison Heights Family Coalition for providing shirts for the volunteers, bicycle safety brochures, and the Octoballs activity for the kids.

CM-15-172. 60th Anniversary Congratulations for Green Lantern Pizzeria and Lounge.

City Manager Myers read the following resolution into the record:

60th ANNIVERSARY CONGRATULATIONS

WHEREAS, this year marks the 60th Diamond Anniversary of the Green Lantern Pizzeria and Lounge where folks have enjoyed their delicious pizza, the friendly environment, and most patrons are known by their first name; and,

WHEREAS, in the early spring of 1955, Thomas and Irene Vettraino purchased a white farm house called the Green Lantern Lounge and shortly afterward offered pizza that would later become a staple of the metro Detroit area; and,

WHEREAS, in approximately 1959-1960 the original two-story white framed house caught fire and the restaurant you see today was built around the old farm house; and,

WHEREAS, the business has grown over the years and in addition to the original location, now has three carry out locations in both Oakland and Macomb Counties; and,

WHEREAS, the Green Lantern has been recognized as "the best pizza in Detroit" by Channel 4 News, "best pizza" by the Daily Tribune for over 25 years and has received the Reader's Choice Award from the Metro Times; and,

WHEREAS, this 3rd generation family-owned business was passed from the original owners to their daughter Marlene and her late husband John Spreitzer. After the untimely death of her husband, Marlene was left to keep the business afloat with three young children along with the help of their trustworthy family friend and manager of 42 years, Joyce Bogan. Currently, the restaurant is run by the Spreitzer's sons, John Jr. and TJ, along with the help of their daughter Nicole, and it is the family's hope that a 4th generation will take an interest in the business and keep the Green Lantern in their family for years to come.

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and City Council of the City of Madison Heights are proud to have a business of this caliber in our City and, on behalf of its citizens, do hereby extend sincerest congratulations to

THE GREEN LANTERN PIZZERIA AND LOUNGE

on their 60TH Anniversary and extend best wishes for many more years of continued success.

Mayor Swanson presented the resolution to The Green Lantern and Pizzeria and Lounge owner, Marlene Spreitzer along with her family, and wished them many more years of success.

Merri Busch, 1117 E Hudson, stated that the City and School District will need to work together to find a resolution to the Halfman Elementary proposal. She continued that she believes Mr. Speck's agenda favors the Madison School District, not necessarily the residents of Madison Heights as a whole. She noted that there is no other public park or green space south of Lincoln and east of John R, and she requested transparency in the process, expressing the need for residents in the area to have a say in what happens with the space.

Superintendent Randy Speck, 3903 Nutcracker Ct., Oxford, promoted the United Way's Meet Up and Eat Up Block Party scheduled from 3 p.m. to 6 p.m. on Tuesday, June 23, 2015 at Madison Elementary near Rosie's Park. CM-15-179. Resolution in Opposition to House Bill 4052 and Senate Bill 337.

Motion by Councilman Soltis, seconded by Councilman Corbett, to approve the following resolution in opposition to House Bill 4052 and Senate Bill 337:

WHEREAS, Michigan House Bill 4052 and Senate Bill 337 will forbid the City of Madison Heights from improving upon state standards; and,

WHEREAS, this legislation will invalidate existing ordinances supported by Madison Heights residents, such as those that prohibit certain employment discrimination, and interfere with city leaders' ability to pass future, ordinances that best meet the needs of the community; and,

WHEREAS, the needs of people living in suburban communities are not always the same as the needs of people in rural areas, small towns or large cities and a one-size-fits-all approach to lawmaking does not adequately consider those differences; and,

WHEREAS, the purpose of local government is to make laws and policies that meet the needs and values of the people who live there; and,

WHEREAS, local government should be empowered to build upon state standards to address the needs and priorities of their community; and,

WHEREAS, Large corporations and their lobbyists naturally often put their profit-margin and bottom-line ahead of the best interests of local citizens; and,

WHEREAS, it has been well-documented that special interest lobbies already have too much influence over national and state policy making and are now using that influence to maximize their profits by limiting the ability of locally elected leaders to represent the best interest of residents; and,

WHEREAS, corporate interests and their lobbyists must not be allowed to overturn decisions made by local governments in the name of maximizing shareholder returns; and,

WHEREAS, House Bill 4052 and Senate Bill 337 were adopted by the Michigan Legislature, and presented to the Governor on June 22, 2015.

NOW, THEREFORE BE IT RESOLVED that the Madison Heights City Council hereby opposes all state intrusion laws that take away our local ability to improve the lives of the people of Madison Heights.

BE IT FURTHER RESOLVED that the Madison Heights City Council requests Governor Rick Snyder to OPPOSE House Bill 4052 and SB 337.

BE IT FURTHER RESOLVED that a copy of this resolution is sent to all elected officials in Oakland County cities, villages, and townships, all state and county officials representing Madison Heights.

BE IT FURTHER RESOLVED that a copy of this resolution is sent to the Michigan Municipal League.

Councilman Soltis stated that the purpose of local government is to make laws and policies that meet the needs and values of their residents and not delegate this role to the State. It appears the State is now over-extending its boundaries in this matter by limiting the power of cities to regulate matters such as minimum wage standards, fringe benefits, unpaid time, apprenticeships, and overall this legislation appears to be an anti-worker law. He noted that Sections 7 and 8 of the proposed law particularly appear to be anti-labor and anti-working families. He believes it is important to support local control, and this legislation will have a directly impact on the working families of Madison Heights.

Councilman Bliss stated that while he is in favor of local control, at any point in time the State can adopt a law that trumps local laws. He believes this is an attempt to simplify and apply rules equally at the state level, to prevent confusion and to simplify these types of matters across municipal boundaries. He does not believe this is a matter the Council should consider.

Mayor Pro Tem Hartwell stated he disagreed with Councilman Bliss on the premise of this law. As a business owner, he believes that he should follow the customs of their locality, and not have a blanket policy state-wide. He also thinks it is important for local government to say how their businesses are operated, just as it is important for us to have a say in how our local government agencies are run. He stated he believes in the value of maintaining local control.

Councilman Corbett stated that portions of this bill are straight union bashing. By practice and by the Governor's own agreement, it is not impermissible to use prevailing wages in local contracts. It has been a practice that goes back decades and has worked satisfactorily. He supports the resolution presented.

Mayor and Council - Comments.

Councilman Corbett wished everyone a happy and safe Fourth of July. He stated that the Festival is the Park is this Sunday and noted that the City will be celebrating our 60th Anniversary.

Councilman Bliss announced the Parks and Recreation Advisory meeting at 5:30 p.m. on Wednesday at City Hall. He stated that there will be an in-depth discussion on the Halfman proposal. He also stated there has been discussion on having an additional meeting at the Halfman site. He wished a happy belated Father's Day to all, and especially to Madison School Board Member Don Brecht and his family, who celebrated the birth of their daughter, Everly, over Father's Day weekend.

Mayor Pro Tem Hartwell expressed congratulations to the Police Department for doing a fine job and for leading by example. The Police Department is the true definition of public service. Our officers actually are going out to the community and are approachable. He noted that recently the City Council reformed the Crime Commission to be a study group, and currently they are studying rates and frequency of crime in the City. The Crime Commission has found that the Police Department goes out on 25,000 runs per year. The types of crime fluctuate; however, recently there seems to be an uptick in identity theft along with credit card and gift card cloning. The Commission recommends that the City provide education to the public, especially to those segments of the population who are more susceptible to fraud, along with form collaborations with the business community to help identify fraud. He noted that there is a vacancy for the Crime Commission and encouraged those interested to apply. The Crime Commission's next meeting is in September. He noted that he is at the Senior Center once a month, offering free legal advice to seniors. He is noticing reoccurring themes, including identity theft and issues of mobility. He believes it is important to reach out to seniors and make sure our services are reaching those in need.

Councilman Bliss suggested that the ITAC Committee and the Crime Commission may want to work together on an Identity Theft program.

City Attorney Sherman congratulated the Police Department on the Bicycle Rodeo, noting escrowed funds from the *Say No to Drugs Rally* were used to purchase the raffled bikes. He congratulated Green Lantern for being a real staple in town, and noted that it was impressive that there were two meeting in a row where Council honored businesses that are celebrating their 60th anniversaries.

City Manager Myers also congratulated the Police Department on the Bike Rodeo, and in addition to the raffled bikes, the whole event was sponsored by the escrow funds from the *Say No to Drugs Rally* escrow funds. He provided more information on the Festival in the Park, stating from there will be live entertainment from 7 p.m. – 10 p.m. including classic hits from the 60's from the Cadillacs, along with Toppermost: Beatles Tribute Band. In addition, there wil be off stage entertainment starting at 6 p.m. until 9 p.m., including an art zone, face painting and inflatables for children.

City Clerk Printz stated the Close of Registration for the Madison District Public School Election on August 4, 2015 is Monday, July 6th.

Councilman Clark thanked the Police Department for the Bicycle Rodeo, noting the event has a positive influence on the youth in the community.

Councilwoman Scott provided the answer to the trivia question from the last meeting:

What technological change came to Madison Heights in 1981 that was a first for Oakland County?

d. Cable-TV

She stated this week's trivia question is:

Who served the longest term as Mayor?

a. Edward Swanson
b. Gary McGillivray
c. George Suarez
d. Pete Connors

Councilman Soltis expressed his sympathies to the families of the South Carolina Church tragedy. He stated that he appreciated Ms. Busch coming to the meeting and expressing her opinion on the Halfman proposal, noting he is looking forward to the discussion ahead. He wished the audience a Happy belated Father's Day and Happy Fourth of July.

Mayor Swanson congratulated Suzette Gysel for her work renovating the Animal Shelter as well as the successful Open House, and he congratulated the recipients of the bicycle raffle. He announced his candidacy for the Mayor of the City of Madison Heights in the upcoming November 3rd election.

CM-15-185. Adjournment.

There being no further business, the meeting was adjourned at 8:22 p.m.
