City Manager Austin clarified that there has been discussion with Code Enforcement and if a vehicle is licensed, registered and operable no one will be given a warning or a ticket. The Code Officer in this case thought there was of a license plate missing on this vehicle and that is why the warning was issued. Mayor Suarez requested that the City Staff investigate.

Motion by Councilman McGillivray,
Supported by Councilman Clark,

WHEREAS, a Special Approval Board application has been received from Lawrence Holman, 1317 Elliott requesting to use the property at 31227 Dequindre Road for a medical therapy clinic, said property is zoned B-1, Local Business and

WHEREAS, a public hearing was advertised in the Daily Tribune on November 26, 1997, and 16 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that this proposal is to locate a medical therapy and counseling clinic on the west side of Dequindre north of Thirteen Mile Road, immediately north of Cambridge Nursing Home. The proposed tenant for this new building (Michigan Counseling Services) is presently located at 1400 E. Twelve Mile Road here in Madison Heights. They are planning to move to the Dequindre location because of a lack of space in their present building. The new building will contain approximately 8,000 square feet (4,000 square feet in their existing building) and be situated on a site that is 125 feet wide by 350 feet deep. The clinic will operate Monday through Friday from 5:30 a.m. to 9:00 p.m. and on Saturday from 6:00 a.m. to 11:00 a.m. The staff will consist of approximately twenty (20) employees. The proposed site plan compiles with all Zoning Ordinance requirements. The zoning on the property is B-1 Local Business, which permits medical office uses after Special Approval from City Council.

WHEREAS, a public hearing was held on December 8, 1997 and the City Council postponed the request until this meeting for a report from the Police Department, dated December 15, 1997 stating that…"In summary there have not been excessive calls to the clinic itself. Which situations, occurring at nearby businesses, were generated by clients from this clinic are impossible to ascertain. It would seem with this type of clinic there is bound to be some impact on nearby locations. Whether the City can hold the clinic accountable for the "possible" actions of their patients, once they have left the premises, is a question for the City Attorney. In understand that no one wants this type of business in their neighborhood because of the types of clients they serve. I think that the relocation of this business onto Dequindre, North of 13 Mile, might be a better location as it would greatly reduce or eliminate the potential impact of clinic clients on all the restaurants on 12 Mile, where it is currently located. Reports regarding the clinic are available for review.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10-319 Of the Code of Ordinances, hereby approves the request.

ORDINANCE 964

AN ORDINANCE TO AMEND ORDINANCE NUMBER 571, BEING AN ORDINANCE CODIFYING AND ADOPTING A NEW CODE OF ORDINANCES FOR THE CITY OF MADISON HEIGHTS BY AMENDING THE ZONING MAP IN CONNECTION THEREWITH.

7. Special Approval – 27301 Dequindre Road.

A public hearing was held to hear comments, if any, to permitting the use of sit-down and carry out Coney Island restaurant at 27301 Dequindre Road. Norman Fill, 27302 Dequindre Suite 301, Madison Heights, Michigan 48071, Manager and part owner of the Fill Building was present and gave a brief history of the building and occupants/ former restaurant operations. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Stema,
Supported by Councilman Mac Lean,

WHEREAS, a Special Approval Board application has been received from Pasko Berishaj, Imperial Coney Island, 5573 Bryan Drive, Sterling Heights, Michigan, 48310 applicant and Norman Fill, Manager, Fill Building, 27301 Dequindre Road, Suite 302, Madison Heights, Michigan 48071, owner, requesting to use the property at 27301 Dequindre for a sit-down and carry-out restaurant; and

WHEREAS, a public hearing was advertised in the Daily Tribune on December 26, 1997, and 53 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that this proposal is to utilize the front portion of the ground floor in the Fill Building as a Coney Island restaurant. This is the same space that was previously occupied for many years by a Big Boy restaurant. The Fill Building is located immediately south of the main entrance to the Oakland General Hospital. The proposed Coney island restaurant will occupy 3,630 square feet and have seating for approximately seventy-five (75) customers. This is a reduction from the 120 seats previously contained within the Big Boy restaurant. The restaurant will operate from 6 a.m. to 10 p.m. seven days a week and be staffed by approximately 10 employees. The Fill Medical Office Building is situated on property that is 230 feet wide by 275 feet deep and is zoned B-3 General Business. Restaurants are permitted in this zoning category after Special Approval by City Council. Because the Big Boy restaurant opened for business before the City initiated the Special Approval process for restaurants in 1976, Special Use Approval has never been granted for a restaurant in this portion of the Fill Building. In order for the Coney Island to utilize this space, Special Approval by City Council is required.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.326 of the Code of Ordinances, hereby approves the request.

WHEREAS, the increasing use of cellular telephones has created a significant increase in the number of applications for special use permits for communication facilities, including cellular towers, and

WHEREAS, advances in technology have made it possible for the City to impose additional requirements upon cellular communication companies and installers of cellular towers without creating an undue burden upon such entities, and

WHEREAS, incentives or regulations appear to be necessary in order to encourage applicants for special use permits to share the limited number of available sites, and

WHEREAS, Special Counsel, Neil Lehto, has already been selected and consulted regarding a redraft of the Zoning Ordinance to regulate placement of cellular facilities including cellular towers within the City, and that an informal moratorium has been imposed during discussions with Special Counsel concerning the above issues and the adoption of a redraft of the Zoning Ordinance which would regulate cellular facilities including cellular towers, and

WHEREAS, a Resolution imposing a Moratorium upon the issuance of special use permits for communications facilities was adopted by City Council on October 27, 1997 (Motion #367) based upon the recommendation of the City Attorney and Special Counsel that it is in the best interest of the public health, safety and welfare to declare a moratorium in accordance with Federal law to consider the issues stated herein and to complete a redraft of the Zoning Ordinance.

Supported by Councilman Mac Lean,

WHEREAS, Oakland County has advised the City that it is in the process of preparing a new Solid Waste Management Plan Update,

WHEREAS, the June 9, 1994, Amendments to the County's 1990 Solid Waste Management Plan Update designated SOCRRA's facility at 29470 John R Road in the City as a "disposal area as defined by Act 641 except that the site may not be used for a sanitary landfill, an incinerator or as a waste-to energy plant,"

79. Ordinance 968 – First Reading.

A public hearing was held to hear comments, if any, to consider revising the boundaries of a downtown district of the Downtown Development Authority to include seven (7), already commercially zoned properties, which abut the existing District, pursuant to Act 197 of the Public Acts of Michigan of 1975, as amended. Brian Hoy, 27042 Brush inquired if this would affect his property and increase his taxes. Mayor Suarez explained that by including these parcels the D.D.A. will be able to capture additional commercial taxes and it will not affect his taxes. There being no further comments the public hearing was closed.

ORDINANCE 968

80. Special Approvals at 650 West 12 Mile Road.

A public hearing was held to hear comments, if any, to permit a Home Depot store to be located at 550 & 650 West 12 Mile Road, said property is zoned M-1, Light Industrial. Timothy Platt, Real Estate Manager for Home Depot, 233 Washington Street, Grand Haven, Michigan 49417 gave a presentation on the operations and the proposed site plan of Home Depot. Mike Labadie, Vice President and Director of Transportation for McNamee, Porter, & Seeley, Inc. for Home Depot who performed the traffic impact study for the site, outlined the findings and recommendations generated with the input of the Road Commission for Oakland County and the City's Traffic Safety Committee.

Motion by Councilwoman Scott,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from Robert D. Parisi, Greenberg Farrow Architecture, 1101 Perimeter Drive, Suite 290, Schaumburg, Illinois 60173, representing Home Depot U.S.A., Inc., 233 Washington Street, Suite 216, Grand Haven, Michigan 49417, requesting to use the property at 550 and 650 West 12 Mile Road for a home improvement store, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on February 27, 1998, and 37 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that Home Depot is proposing to locate one of their home improvement stores on the north side of Twelve Mile Road immediately adjacent to I-75. The subject property contains approximately 13.6 acres and is presently occupied by Acme Manufacturing and United Automotive. Plans call for the removal of these two buildings and the construction of a 130,000 square feet Home Depot facility on the northerly portion of the site. The building would be served by 722 parking places with the primary point of access being from Dartmouth Avenue north of Twelve Mile Road, with secondary access from a single drive on Twelve Mile Road. A small outlot (approximately .9 acres) has been reserved in the southeast corner of the property for future development. In considering this request, most people would agree that the single biggest issue related to this development is that of access and traffic flow on this portion of Twelve Mile Road. Twelve Mile between Stephenson Highway and John R is a very heavily traveled roadway. The area is already congested with the possibility that the construction of a Home Depot could make travel through the area more difficult at times. Because of the traffic issue, staff met with the Home Depot officials and requested that an in depth traffic analysis be done for Twelve Mile Road between Stephenson Highway and John R. Staff analyzed the report and requested that the Traffic Safety Committee also analyze the report and the physical circumstances along this portion of Twelve Mile Road. The Traffic Safety Committee has developed several recommendations, which are included in their report. In addition to staff and Traffic Safety analysis, two meetings were held with the Oakland County Road Commission officials to obtain their assistance in analyzing this situation. Twelve Mile Road in Madison Heights is a County road; therefore, Road Commission input and approval for projects of this type is necessary. A copy of the Road Commission's report was also submitted for Council's information. In summary, the traffic report, staff analysis, the Traffic Safety Committee and the Road Commission all agree that the traffic flow and turning movements in this area can be improved through the implementation of the following measures:

1. The installation of new Fast-Trac computer controlled and interconnected traffic signs where Twelve Mile Road intersects with Stephenson Highway, the Northbound I-75 off ramp and at Dartmouth. The cost estimate for these improvements is $100,000 per intersection with 80% being paid through a Federal grant and 20% local share. Please note that the Road Commission is considering the

installation of a similar signal at Twelve Mile Road and John R as a demonstration project. As a demonstration project, there would be no cost to the City for this intersection. This new signal would be interconnected with three (3) signals discussed above to assure better progression of traffic through the area.

2. Construction of a new westbound right turn lane at the Twelve Mile Road/Dartmouth intersection. This would reduce delay at the intersection and improve traffic by removing turning vehicles from the through traffic stream.

3. Construction of a deceleration lane for westbound Twelve Mile Road traffic approaching the entrance drive to Home Depot. This also would improve traffic by removing turning vehicles from the through traffic stream.

4. Modification of the Twelve Mile Road median in the area of the Home Depot and Marinelli's entrance drives to channel traffic and preclude certain turning movements.

In the letters from Home Depot, they have agreed to pay for the above improvements should the project go forward. If Council approves the use, the approval should be conditioned upon Home Depots payment for items 1 through 4 above. In an effort to better understand the operation of Home Depot facilities, several members of the staff visited five (5) different Home Depot locations in the metro area, including the newest facilities in Southfield and Northville. These visits helped staff to develop a series of changes and improvements, which have been incorporated into the plans that have been submitted to City Council. The zoning on this property is M-1 Light Industrial with uses of this type being permitted after Special Approval by Council. If approved, it would be an attractive addition to our inventory of commercial buildings.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329 of the Code of Ordinances, hereby approves the request subject to the following:

1. The installation of new Fast-Trac computer controlled and interconnected traffic signs where Twelve Mile Road intersects with Stephenson Highway, the Northbound I-75 off ramp and at Dartmouth. The cost estimate for these improvements is $100,000 per intersection with 80% being paid through a Federal grant and 20% local share. Please note that the Road Commission is considering the installation of a similar signal at Twelve Mile Road and John R as a demonstration project. As a demonstration project, there would be no cost to the City for this intersection. This new signal would be interconnected with three (3) signals discussed above to assure better progression of traffic through the area.

2. Construction of a new westbound right turn lane at the Twelve Mile Road/Dartmouth intersection. This would reduce delay at the intersection and improve traffic by removing turning vehicles from the through traffic stream.

3. Construction of a deceleration lane for westbound Twelve Mile Road traffic approaching the entrance drive to Home Depot. This also would improve traffic by removing turning vehicles from the through traffic stream.

4. Modification of the Twelve Mile Road median in the area of the Home Depot and Marinelli's entrance drives to channel traffic and preclude certain turning movements.

and that Home Depot will pay for the City's portion of the traffic improvements recommended by the City's Traffic Safety Committee and the Road Commission for Oakland County. Further, an analysis of all traffic improvements and/or additional traffic issues shall be evaluated on an annual basis. Timothy Platt, Real Estate Manager for Home Depot represented to the City Council that in the event that there are any future traffic improvements necessitated by the Home Depot Development, Home Depot will pay for the City's portion of the future traffic improvements.

Motion by Councilwoman Stema,
Supported by Councilwoman Scott,

WHEREAS, the 43rd District Court is a three-judge District Court of the third class which serves the cities of Ferndale, Hazel Park and Madison Heights of Oakland County. The jurisdiction of the District Court includes all felonies; misdemeanors; civil infractions; and civil and small claims cases. The District Court employees are supervised by the District Court Judges who are employees of the State of Michigan elected by local voters.

WHEREAS, the boundaries of the 43rd District Court include the three aforementioned communities covering approximately 13.75 square miles with maximum east-west boundaries of three miles and north-south boundaries of five miles.

WHEREAS, on November 13, 1997, the State Court Administrator's Office issued a Management Assistance Report based on their extensive review of the district's facilities and caseload. The study indicated that the merger of the three divisions into a combined facility could achieve a number of benefits and operational efficiency:

1. Enhance utilization of judicial resources and docket management.

2. Lower term cost benefits achieved by not maintaining duplicate operation/functional units and facilities.

3. The ability to cost effectively build a "state of the art" facility to address building deficiencies found at all current facilities of the division.

4. Achieve standardization and integration of operations and systems among all functional units of the Court.

5. The elimination of duplicate administrative and management resources. Elimination in redundant positions.

6. The ability to foster specialization by support staff where needed.

7. Increased efficiency in jury management. Improved accommodations for jurors.

8. Enhanced efficiency and utilization of security resources.

WHEREAS, Chief Judge Turner has recommended that the current Madison Heights Division facility be expanded by 9,550 square feet and that the existing Ferndale and Hazel Park Courts and their Probation Departments be relocated to the Madison Heights Civic Center.

WHEREAS, the Madison Heights City Council wishes to explore the possibility of a inter-local agreement between the cities of Ferndale, Hazel Park and Madison Heights where:

1. Madison Heights would finance and oversee the construction of this addition;

2. The cities of Ferndale and Hazel Park would pay for all debt service and related costs for the expansion of the

existing Madison Heights facility; and the cities of Ferndale, Hazel Park and Madison Heights would share equally in both the internal and external operation and the maintenance of the new consolidated facility for all direct, indirect and overhead costs.

3. The Court consolidation will at no time increase the demands on the host community's (Madison Heights) Police Department.

NOW, THEREFORE, BE IT HEREBY RESOLVED:

1. That the City Councils of the cities of Ferndale and Hazel Park be requested to show their interest in this project by passing resolutions similar to this one.

2. That upon the resolutions of support being passed by the cities of Ferndale and Hazel Park that the City Manager, City Attorney and City Administration be authorized to enter into discussions with the 43rd District Court regarding this proposed consolidation in an effort to bring back to the Madison Heights City Council a detailed proposal for their further consideration.

WHEREAS, the Court Equity Fund receives a substantial portion of its revenue from all district courts through the mandatory assessment of costs in connection with each conviction or civil infraction determination, and each guilty plea or civil infraction admission, but the proceeds of the Court Equity Fund are only distributed to the eighty-three counties (83) and the City of Detroit based on a statutory formula.

WHEREAS, Oakland County which funds second-class district courts within the County has to date utilized the revenue it has received from the Court Equity Fund for the sole benefit of those courts while third-class district courts within the County, which are funded by municipalities, have received no Court Equity Fund revenues from the County.

Motion by Councilman McGillivray,
Supported by Councilman Clark,

WHEREAS, the unease over the continuing strike/lock-out at the Detroit Free Press and Detroit News now 33 months old, pervades the Detroit metropolitan area; and

WHEREAS, the divisive lockout between the newspapers and their employees has prevented the delivery of full and objective coverage of news and commentary essential to the citizens of Michigan; and

WHEREAS, many progressive leaders refuse to be interviewed and hundreds of thousands of former readers refuse to buy or read the newspapers because of the dispute; and

WHEREAS, the newspaper's management has publicly vowed to prolong indefinitely the appeal of the unfair labor practices of which it has been found guilty so as to postpone having to settle with their workers; and

WHEREAS, the lockout has caused an unseemly and divisive confrontation in our community; and

WHEREAS, the lives of individuals and families of locked-out workers continue to be adversely affected by the lockout; and

WHEREAS, the regional economy has also been adversely affected by the lockout as many retail and service companies have declined to advertise in the Detroit newspapers, thus reducing their profitability and costing local, state and federal governments tax revenue.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council request the National Labor Relations Board to take expedited action to resolve the current issues before them involving the Detroit Newspaper Agency employee strike.

249. North-Arm Relief Drain Inter-local Agreement.

Motion by Councilwomen Russell,
Supported by Councilman Mac Lean,

WHEREAS, acting upon a petition from the Cities of Royal Oak and Birmingham, the statutory Drainage Board for the County of Oakland (the "Drainage Board") has created the North Arm Relief Drain Drainage District (the "Drainage District") for the purpose of making storm drain improvements benefiting the Village of Beverly Hills and the Cities of Birmingham, Clawson, Madison Heights, Royal Oak, Southfield and Troy; the County of Oakland on account of benefit to county roads; and the State of Michigan on account of benefit to state highway (the "Benefited Public Corporations"); and

WHEREAS, on February 17, 1998, the Drainage Board approved a Revised Final Order of Apportionment apportioning the cost of the North Arm Relief Drain (the "Drain") to the Benefited Public Corporations at an estimated cost of approximately $17,920,000; and

WHEREAS, the Drain is urgently needed to prevent continued flooding in a number of cities, especially Royal Oak and Birmingham which flooding is a serious health hazard; and

WHEREAS, the Drainage District had intended to proceed to take construction bids for the Drain and to authorize the issuance of up to $17,920,000 in bonds to be sold to the State of Michigan in connection with the State's Clean Water Construction Program which bonds will be subsidized by state and federal moneys so that the interest rate will be only 2.25% per annum which is far below regular market rates which are 5.25% per annum or more; and

WHEREAS, the City of Clawson has challenged the necessity of the Drain and its apportionment of 18.34% and $3,286,530.00 (its apportioned cost) in the courts which case is pending in both the Oakland County Circuit Court and the Michigan Court of Appeals thereby preventing the Drainage District from proceeding to bid the Drain and sell the bonds to construct the Drain until the litigation is concluded which could take two or more years; and

WHEREAS, the City of Royal Oak has offered to issue its own bonds to advance to the Drainage District the money to pay all of the costs apportioned to all of the Benefited Public Corporations except the City of Clawson to permit the Drainage District to proceed immediately with the Drain construction; and

WHEREAS, the County of Oakland may also advance a sum equal to the apportioned cost to the City of Clawson to the Drainage District pursuant to Section 479 of the Drain Code of 1956, as amended, such amount to be reimbursed to the County with interest as soon as the pending litigation is resolved and the City of Clawson receives its final assessment, such amount to be repaid either from the money paid as cash by the City of Clawson to the Drainage District or from the proceeds of Drain Bonds issued by the Drainage District for such purpose.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MADISON HEIGHTS, as follows:

1. The Agreement as submitted as Appendix A is hereby approved for execution.

2. Motion by Councilman Clark, supported by Councilwoman Stema to approve the resolution, as submitted by Assistant City Attorney Lancaster, which corrects the clerical error and deletes the Planning Commission review from Cellular Tower Ordinance Number 973, as follows:

RESOLUTION CORRECTING CLERICAL ERROR IN
TELECOMMUNICATION/CELLULAR TOWER ORDINANCE 973

WHEREAS, on July 28, 1998, City Council approved by second reading Ordinance No. 973 setting out regulations and procedures for construction of telecommunications and/or cellular towers and proving a penalty for the violation thereof; and

WHEREAS, Ordinance 973 became effective on August 6, 1998; and

WHEREAS, a subsequent review of that Ordinance revealed that there was a clerical error in that a phrase which had been removed from earlier drafts of that Ordinance has been incorrectly placed in the draft of the Ordinance for second reading; and.

WHEREAS, the nature of the inclusion of that phrase, which reads "after review and recommendation by the Planning Commission based on site plan review" was a clerical error in that the print out from the computer disc failed to exclude that phrase;

336. Special Approval – 1484 E. Lincoln - DENIED

A public hearing was held to hear comments, if any, to permit the use of a monopole cellular tower at 1484 E. Lincoln. Christopher Cesulski, speaking for his father at 25800 Miracle Drive, presented petitions from 60 residents in the area objecting to the cellular tower based upon health concerns and aesthetics, and failure to comply with the Zoning Ordinance's 500 foot setback from residences. Edna Gottis, 26605 Northeastern objected because it would add blight to the area. Donald Boden, owner of the property at 1484 E. Lincoln stated he was assured that the building and tower would be kept clean and orderly; that there are already towers nearby, that a 75 foot tower would still be seen even at 500 feet in distance and that this is an ideal location for the needs of Air Touch Cellular. David Koelsch and David Antonelli, attorneys for Air Touch Cellular were present and stated that to provide adequate coverage towers must be located certain distances from each other. Moreover, this is the best location for the tower. They indicated they were unable to obtain permission to locate the tower at another property within this area. They stated the tower would be buffered on three sides by buildings, concrete walls and a storage trailer and on the east side is Commerce Drive and industrial areas. They further stated that they are well under FCC regulations and their tower emits levels of energy comparative to a 100 watt light bulb. They have encountered residents in every community who have valid concerns when faced with new technology concerning health; however, the 1996 Federal Telecommunications Act prohibits communities from basing decisions on health effects for wireless communications systems such as this. Mr. Koelsch stated that they are requesting that Council approve this application because it was submitted in compliance with all the requirements of the ordinance, with the exception of the 500 foot distance to residences and the 75 foot height, which are hardships and are within the province of the Zoning Board of Appeals to decide. Margery Edwards, 8456 Decatur, Centerline, speaking for her sister who is a Madison Heights resident, was opposed to the cellular tower. Tony Bliss, 29056 Tawas, objected to the tower because, had Mr. Boden had not given permission for the tower, the petitioners would have had to find a location that fit the City requirements. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Stema,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from David Koelsch, New Par d/b/a/ Air Touch Cellular, 26935 Northwestern Highway, Ste. 100, Southfield, MI, 48034, requesting to use the property behind 1454/1458 E. Lincoln, to locate a monopole cellular tower at 1484 E. Lincoln; said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on September 3, 1998, and 73 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that Air Touch Cellular is proposing to locate a monopole cellular antenna behind the light industrial building at 1454/1458 E. Lincoln. Specifically it would be situated in the southeast corner of the site adjacent to two other light industrial buildings, approximately 150 feet from the residential properties to the west. The antenna would be 100 feet high and be similar in appearance to the three existing towers located on Stephenson Highway. As with the other cellular towers, a small equipment building (11' x 26') is proposed at its base.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.601 (10)(a)(1) of the Code of Ordinances, hereby denies the request to allow a cellular monopole tower to be erected at 1454/1458 East Lincoln because it would be injurious to the health and safety of people in the surrounding area.

337. Amendment to Motion 336.

City Attorney Sherman stated that he is in agreement with the attorneys of the Petitioner, Air Touch Cellular, that the telecommunications tower regulations which require that a cellular tower over 75 feet in height or located within 500 feet of residential uses, are Zoning Board of Appeals matters. The issue before the City Council is whether or not the proposed use would be injurious to the m-1 Light Industrial District and surrounding uses.

Motion by Mrs. Stema, supported by Mrs. Russell, to amend the motion to read:

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.601 (10)(a)(1) of the Code of Ordinances, hereby denies the request to allow a cellular monopole tower to be erected at 1454/1458 East Lincoln, because it is injurious with surrounding uses and not compatible with the M-1 Light Industrial Distict, applying the standards as set forth in Sections 10.329 and 10.805 of the Zoning Ordinance..

Yeas: Mac Lean, McGillivray, Russell, Scott, Stema, Suarez and Clark.
Nays: None.

WHEREAS, a Special Approval Board application has been received from Karen Hintz, 29350 John R Road, Madison Heights, requesting to use the property at 29350 John R Road, for a travel agency, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on September 18, 1998, and 26 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that National Ladder and Contractors Clothing are located in the new industrial building on the east side of John R immediately south of the Senior Center. Council granted Special Approval for these two businesses to sell retail within an M-1 Light Industrial area on January 13, 1997. The owner of National Ladder and Contractors Clothing (Mr. Leo Corradi) now wishes to place the offices of his travel agency within this same building. The travel agency will be staffed by 4 employees and be open from 8:00 a.m. – 5:00 p.m. Monday – Friday and 9:00 a.m. – 12:00 p.m. on Saturday. Leo Corradi, 162 Endicott, Bloomfield Hills, Michigan 48304 owner of the building and previous occupant stated that he has tried to improve the building over the 20 years he has been there but the business outgrew the building. He agreed that the trucks did block traffic but that he had not heard of these complaints. Kaeis Suwais, 1020 Reding, Hillsdale, Michigan 49242 stated that the business is more wholesale than retail and the building is unique with a small parking lot. She also stated that the employees would asked to park across the street in the excess parking lot which is owned by Mr. Corradi. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman McGillivray,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from Kaeis Suwais, 1020 Reding, Hillsdale, Michigan 49242, requesting to use the property at 25914 John R Road for a wholesale and retail sales of close-out merchandise store, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on September 18, 1998, and 186 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

retail sales of closeout merchandise such as groceries, health & beauty aides, toys, greeting cards, flowers, etc. The building contains approximately 24,000 square feet with 13,898 square feet being located on the main floor. The petitioner plans to use approximately 1/3 of the main floor (4,800 square feet) for retail sales, with the remainder of the building to be used for the storage and wholesale aspects of the business. The business would be known as Bi-Rite Wholesale. It would be staffed by 5 employees and operate from 9:00 a.m. – 7:00 p.m., 7 days a week. The amount of available parking for this site is limited (13 spaces), however, the owner of the property has indicated his willingness to grant a permanent parking easement over excess parking lot area for the industrial building located on the southwest corner of this same intersection. Should Council decide to approve this request, such action should be conditional upon the execution of the required parking easement.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10-332 A, of the Code of Ordinances, hereby postpones the request until the October 12, 1998 Council meeting for a report from the Community Development Department addressing the problems of water drainage and overflow parking at the site and a report from the Police Chief on the number of tickets issued and calls in the area.

ORDINANCE 980

AN ORDINANCE TO AMEND ORDINANCE 571, BEING AN ORDINANCE CODIFYING AND ADOPTING A NEW CODE OF ORDINANCES FOR THE CITY OF MADISON HEIGHTS BY REPEALING CHARTER 3 IN ITS ENTIRETY; TO AMEND ORDINANCE 874, BEING AN ORDINANCE ADOPTING A NEW CHAPTER 3, BY REPEALING CHAPTER 3 AS SO ADOPTED IN ITS ENTIRETY; TO AMEND ORDINANCE 884, BEING AN ORDINANCE ADOPTING AMENDMENTS TO CHAPTER 3, BY REPEALING THE AMENDMENTS AS SO ADOPTED IN THEIR ENTIRETY; AND BY ADOPTING A NEW CHAPTER 3, SECTIONS 3-1 THROUGH 3-12 TO PROVIDE FOR CERTAIN STANDARDS, RULES OR REQUIREMENTS WHICH ARE EQUAL TO OR GREATER THAN THE REQUIREMENTS IMPOSED BY OR UNDER THE LAWS OF THE STATE OF MICHIGAN AND WHICH ARE NECESSARY AND IMPORTANT IN THE PREVENTION OF POTENTIAL RISKS TO PUBLIC HEALTH AND THE ENVIRONMENT AND TO PROVIDE FOR A PENALTY FOR VIOLATION THEREOF.

THE CITY OF MADISON HEIGHTS ORDAINS:

Section 1.

That Chapter 3 of the Code of Ordinances of the City of Madison Heights is repealed in its entirety and a new Chapter 3 which reads as follows is hereby adopted:

CHAPTER 3. AIR POLLUTION PREVENTION

Sec. 3-1. Short Title.

This Chapter shall be known as and may be cited as the "Madison Heights Air Pollution Prevention Ordinance."

Sec. 3-2. Findings and Purposes.

The City of Madison Heights notes that the U.S. Congress in the Clean Air Act has encouraged local governments to take actions to prevent air pollution; that the State of Michigan Natural Resources and Environmental Protection Act provides that the State statutory and regulatory air emission requirements are to be considered minimum standards; and that the Clean Air Act and the Natural Resources and Environmental Protection Act establish that the City, as a political subdivision of the State, may adopt ordinances and otherwise exercise its right to control, abate, prevent and/or limit air emissions provided the requirements so established are equal to or more stringent than the applicable United States or State standards or limitations, and the City of Madison Heights has determined that certain of the air pollution prevention requirements established by the United States and the State of Michigan are insufficient in the opinion of the City to adequately prevent air pollution and to preserve, protect and improve the public health and the environment within the boundaries of the City.

It is the responsibility of the City to preserve, protect and improve the air resources of the City of Madison Heights, so as to promote the health, safety, and welfare of its residents; to prevent injury to human health, plant and animal life and property; and to foster the comfortable enjoyment of life and property by its residents and since air pollution is well recognized to constitute a direct threat to the public health, safety and welfare, the City adopts this Ordinance.

Sec. 3-3. Definitions.

In this Chapter, the following words and phrases shall have the meanings respectively ascribed to them:

(1) "Air Cleaning Device" means any method, process or equipment which removes, reduces or renders less noxious air contaminants discharged into the atmosphere.

(2) "Air Contaminant" means a dust, fume, gas, mist, odor, smoke, vapor, chemical or any combination thereof, and includes, but is not limited to, the following substances as defined in the State of Michigan Natural Resources and Environmental Protection Act and the rules and regulations adopted thereunder or as commonly defined in the scientific community: organic compounds, metals, carbon monoxide, particulate matter,

volatile organic compounds, dioxin, furans, acid gases and mists, oxides of nitrogen, sulfur dioxide and hydrogen chloride.

(3) "Air Emission Source" means any part of a building or facility (including all related structures and operating areas) where any air contaminant(s) are or may be emitted to the outdoor atmosphere.

(4) "Air Pollution" means the presence in the outdoor atmosphere of air contaminants in quantities, of characteristics and under conditions and circumstances and of a duration which are or can become injurious to human health or welfare, to animal life, to plant life or to property, or which interferes with the enjoyment of life and property.

(5) "Existing Major Emission Source" means a major emission source which was issued by the State of Michigan a permit to operate or a permit to install for installation, construction, modification, alteration, or retrofit prior to the effective date of this Ordinance.

(6) "Existing Solid Waste Incinerator" means a solid waste incinerator which:

(a) was issued by the State of Michigan a permit to operate or a permit to install for installation, construction, modification, alteration, or retrofit prior to June 15, 1993, unless it was denied by the State of Michigan a permit to operate prior to June 15, 1993, or

(b) is located at a geographical site at which one or more incinerator units incinerated waste during the six months prior to June 15, 1993.

(7) "Major Emission Source" means all equipment and processes or accumulation of equipment and processes at a geographical site owned or operated by the same person or entity which emits or could emit at its maximum possible production and/or processing capacity a total of 250 or more tons per year of air contaminants. It includes the building(s) which house such equipment and processes and all related structures and operating areas. It does not include solid waste incinerators.

(8) "Modify an Existing Major Emission Source" means to add any air contaminant producing or emitting equipment or

process or emission cleaning or controlling device to an existing major emission source or to modify or replace any such equipment, process or device, if such modification, replacement or addition will result in an increase in the yearly emissions of any one or more air contaminant(s) or in the emission of a new or different air contaminant. It includes all such modifications, replacements or additions even if they will result in a decrease in the yearly emissions of other air contaminants unless the total emissions of all air contaminants from the emission source will be less than 250 tons per year after such modifications, replacements or additions. It does not include routine repair or maintenance of existing equipment or devices. To determine if there will be an increase or decrease in the yearly emissions of an air contaminant following such a modification, replacement or addition, the maximum potential yearly emissions of the contaminant following the modification, replacement or addition shall be calculated and compared to the actual yearly emissions of such contaminant during the last full year of operation of the source prior to the proposed modification, replacement or addition. In calculating the maximum potential yearly emissions following the modification, replacement or addition, the source's maximum possible production and/or processing capacity shall be used. If the actual yearly emissions prior to the proposed modification, replacement or addition is unknown, such emissions shall be calculated based upon the average production and/or processing rates experienced during the last full year of operation of the major emission source.

(9) "New Major Emission Source" means a major emission source which is not an existing major emission source.

(10) "New Solid Waste Incinerator" means a solid waste incinerator which is not an existing solid waste incinerator.

(11) "Open Burning" means a fire from which the products of combustion are emitted directly into the outdoor atmosphere without passing through a stack or chimney.

(12) "Smoke" means small gas and airborne particles consisting essentially of carbonaceous materials.

(13) "Solid Waste" means any material, including liquids, which is abandoned or discarded for disposal, recycling or

composting. It includes, but is not limited to, bulky waste, compostables, garbage, recyclables and rubbish as such terms are defined in Chapter 14 of the Code of Ordinances of the City.

(14) "Solid Waste Incinerator" means a facility which combusts any solid waste material from commercial, industrial and/or general public facilities (including single and multiple residences, hotels and motels). It includes but is not limited to, facilities which combust any such solid waste for the primary purpose of producing electricity, steam, heat or any other form of useful energy or for the recovery of metals.

Sec. 3-4. Adoption by Reference.

Except to the extent that greater or equal requirements are set forth herein, the air emission provisions and requirements of the State of Michigan Natural Resources and Environmental Protection Act and the rules and regulations adopted thereunder, all as amended from time to time, are incorporated herein by reference. It shall be unlawful for any person or entity to construct or operate any source of air contaminants which violates or does not comply with the requirements and limitations established from time to time by such statute, rules and regulations or, to the extent that such requirements or limitations are less restrictive, in violation of the requirements and limitations set forth herein. Copies of the State of Michigan statute, rules and regulations shall be kept on file in the office of the City Clerk where they shall be available for inspection and use by the public.

Sec. 3-6. Major Emission Sources and Solid Waste Incinerators.

After the effective date of this Ordinance, it shall be unlawful to build a new solid waste incinerator or build a new or modify an existing major emission source unless it is located at least 1,000 feet from residential dwellings, public and private elementary and secondary schools, preschool facilities for infants or children, hospitals and nursing homes. Nothing in this Section is intended to exclude major emission sources or solid waste incinerators from the requirements or provisions of any other Section of this Chapter 3, as amended, and any violation hereof shall be subject to the Enforcement and Penalties provisions thereof.

Sec. 3-7. Odors.

It shall be unlawful for any person or entity to cause, suffer or allow to be emitted into the outdoor atmosphere odors that can be detected at any residence, public or private school facility, health care facility or recreational property.

Sec. 3-10. Enforcement.

The Building Inspection Administrator and/or the Fire Chief, or their designates, of the City shall be responsible for the enforcement of the requirements of this Chapter and their duties shall include:

(1) To investigate complaints;

(2) To examine the plans, specifications and any permit applications to the State of Michigan for all new buildings and operations or repairs or modifications to existing buildings or operations to determine that such buildings or operations when erected, repaired or modified will not violate the requirements of this Chapter; and,

(3) To take the necessary actions to prevent any violations of this Chapter, to require compliance with the requirements of this Chapter or to prosecute violations.

The City Council reserves for itself authority concurrent with the authority of the Building Inspection Administrator and the Fire Chief to institute on its own motion or upon information supplied by the Building Inspection Administrator or the Fire Chief legal proceedings to prevent or prosecute violations of this Chapter or to require compliance with its requirements.

445. Revenue Sharing Resolution.

Motion by Councilwoman Scott,
Supported by Councilwoman Russell,

WHEREAS, the Michigan Legislature is currently debating major changes in the formula used for the last 25 years to distribute state tax revenues to counties, cities, villages and townships; and

WHEREAS, currently, by statute, Michigan cities, villages and townships receive statutory sales tax revenue according to a formula based largely on a community's relative tax effort; and

WHEREAS, both Senate Bill 1181 introduced by Senator Glenn Steil of Grand Rapids and House Bill 5989 introduced by Representative Nick Ciaramitaro of Roseville, propose to eliminate the method of distributing the portion of revenue sharing based on relative tax effort; and

WHEREAS, the fiscal effects of eliminating the relative-tax-effort formula would shift funding away from cities with the highest service demands and existing infrastructure needs and

create a revenue windfall for rural townships providing few, if any, public services who instead rely upon neighboring city and county governments for police, fire, road maintenance and snow removal, parks and recreation; and

WHEREAS, the City of Madison Heights incorporated since 1955, provides a full range of services which include: police; fire; emergency rescue; senior services; building inspections; maintenance of approximately 140 acres of parks and public properties and recreational facilities; and

WHEREAS, the City of Madison Heights hosts various special event activities; including but not limited to Memorial Day Parade, Festivals in the Park, TGIF Lunchtime Concerts and Tree Lighting Ceremony; and

WHEREAS, the City of Madison Heights provides support for social service agencies such as Gateway Counseling Center, South Oakland County Boys and Girls Club, Friends of Madison Heights Youth, Oakland County Youth Assistance, Haven, and Common Ground; and

WHEREAS, the City of Madison Heights constructs and maintains city streets, including sewer and water supply distribution systems; and

WHEREAS, suburban township residents utilize Madison Heights recreational and social services and facilities, while providing few if any of the same services in their jurisdictions, thus holding down their tax rates; and

WHEREAS, cities have long been the provider of cultural, recreational and social services while townships take great pride in their non-service orientation, and instead continue to utilize the services of the urban core as they desire, only to retire to their suburban wall-to-wall subdivisions with occasional strip malls in urban townships or the fragmented-acreage parcels of the rural townships; and

WHEREAS, the proposed formula will reward those governmental agencies who have chosen to provide fewer services even though their constituents continue to demand and use the services of the urban core; and

WHEREAS, the proposed formula will punish those communities which have provided the services that benefit areas beyond the municipal boundaries; and

WHEREAS, the proposed formulas will direct funding away from our urban centers, creating a void in the most vulnerable of municipal services, social, recreational and cultural services, which will destroy the sense of community that our municipal centers are struggling to preserve; and

WHEREAS, a shift to a taxable-value-per-capita distribution formula is projected to shift approximately $420,000 over the next five years from Madison Heights compared to the current relative-tax-effort formula, placing greater burden on an already overburdened tax base; and

WHEREAS, the Steil and Ciaramitaro proposals run contrary to a state urban policy to limit further urban sprawl, and we urgently remind the Legislature that they must remain steadfast in their stewardship of Michigan’s quickly disappearing undeveloped lands,

NOW THEREFORE, BE IT RESOLVED, that the City of Madison Heights strongly opposes any change in the State Revenue Sharing formula that will divert significant funding from

major urban cities to rural, low-tax-effort areas, regardless of need for state financial assistance.

BE IT FURTHER RESOLVED, that a copy of this Resolution be forwarded to Governor John Engler, Speaker of the House Curtis Hertel, Senate Majority Leader Richard Posthumus, Senator Michael Bouchard, Representative John Freeman, the Michigan Municipal League, the Southeast Michigan Council of Governments and Oakland County Executive L. Brooks Patterson.

454. Additions to Agenda.

City Manager Austin requested that a report from Special Legal Counsel Lehto regarding the SBC Franchise Transfer; and business license applications for a resale children clothes store at 307 East 11 Mile Road and a travel agency at 30949 Dequindre Road be added to the agenda. There being no objections Mayor McGillivray added the items to the agenda for Council's consideration.

455. Special Approval – 456 East 14 Mile Road.

A public hearing was held to hear comments, if any, to permit the use of a retail mattress sales business at 456 East 14 Mile Road, said property is zoned M-1, Light Industrial. Gary Cicerone, Troy, Michigan owner of the property for 23 years stated that he has operated a business at this address and wants to put a low usage business in the building with approximately 2 or 3 employees. He also stated that he may construct another adjacent building and would have 21 parking spaces available between the two buildings. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Russell,
Supported by Councilwoman Stema,

WHEREAS, a Special Approval Board application has been received from Ernest Kreger, 7290 Big Hand Road, St. Clair, Michigan 48079, requesting to use the property at 456 East 14 Mile Road for a retail mattress sales store, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on December 2, 1998, and 30 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that the Petitioner is requesting approval to place a retail mattress sales business within this existing Light Industrial building (M-1 Zoning on the south side of 14 Mile Road between Townley and Edward). This building has previously housed various car repair businesses but is now vacant. The business would contain approximately 2,800 square feet and have hours of operation of 10:00 a.m. – 8:00 p.m. Monday – Saturday and 10:00 a.m. – 5:00 p.m. on Sunday. The staff consists of only 1 employee per shift. The sketch, as submitted, shows the existing structure as well as a proposed 1,600 square foot building. The available parking on site is adequate with the existing building but a parking variance may be requested if and when the second building is constructed.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329 of the Code of Ordinances, hereby approves the request.

Yeas: Russell, Scott, Stema, Clark, Fisher, Mac Lean and McGillivray.
Nays: None.

456. Special Approval – 30921 Dequindre Road.

A public hearing was held to hear comments, if any, to permit an expansion of seating for the existing sit down and carry out Vietnamese and Chinese restaurant at 30921 Dequindre Road. Albert Santia, 17477 Iris Circle, Clinton Township, Michigan 48036, owner of the shopping center stated that the restaurant wants to expand the seating capacity and there is parking available in the rear of the facilities. Community Development Director Moore stated the number of parking spaces reflect what is actually lined out at the property. The area that Mr. Santia is referring to is in the rear of the building where dumpsters are randomly placed. The deficiency could possibly be reduced with reconfiguration of the site plan. This would have to be accomplished by enclosing the dumpsters and striping new parking spaces. City Attorney L. Sherman clarified that the parking variance issue, as to the number of spaces, is an issue for the Zoning Board of Appeals. The request before Council relates to Section 10.319 (4),(a),(b),(c) of the Zoning Ordinance for expanding the seating capacity in the restaurant. Council should consider whether or not the proposed increased size of the restaurant would not adversely effect the health, safety and welfare of the community and that the operation of the restaurant would not create traffic congestion, including pedestrian traffic, so as to impair the flow of traffic in a safe manner. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Russell,
Supported by Councilman Mac Lean,

WHEREAS, a Special Approval Board application has been received from Hanh Van Mai, 13188 Bimini Court, Sterling Heights, Michigan 48312, requesting to use the property at 30921 Dequindre Road, for an expansion of seating for the existing sit down and carry out Vietnamese and Chinese restaurant at 30921 Dequindre Road, said property is zoned B-1, Local Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on December 2, 1998, and 87 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that the existing Asia Market and Pho Hang Restaurant are owned by the same person and are located in the shopping center on the southwest corner of 13 Mile and Dequindre. The owner is proposing to expand the restaurant into space previously occupied by the market. The restaurant's existing 960 square feet will expand to 1,760 square feet, while the market's existing 3,985 square feet will decrease to 3,185 square feet. The application indicates that the restaurant would be open Monday – Thursday from 10:00 a.m. to 10:00 p.m., Saturday from 10:00 a.m. to 12:00 a.m. and Sunday 10:00 a.m. to 9:00 p.m. The staff will consist of 3 employees. Our review of this request indicates that there will be a significant shortage of parking within this strip center. With the restaurant as requested in place, 106 parking places would be required for the center while only 75 spaces would be available. Should Council approve this request, a variance from the Zoning Board of Appeals would be required.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.319(H) of the Code of Ordinances, hereby denies the request because of ingress and egress, pedestrian traffic and traffic problems.

Yeas: Scott, Stema, Clark, Fisher, Mac Lean, McGillivray and Russell.
Nays: None.

Supported by Councilman Mac Lean,

CITY OF MADISON HEIGHTS
INVESTMENT POLICY

I. Policy

It is the policy of The City of Madison Heights (City) to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the entity and conforming to all State statutes and local ordinances governing the investment of public funds.

II. Scope

This investment policy applies to all financial assets held by the City other than pension fund assets. These assets are accounted for in the City's annual financial report and include:

- General fund
- Special revenue funds
- Debt service funds
- Capital project funds
- Internal service funds
- Enterprise funds
- Trust and agency funds
- Any new non-pension or similar fund created by the local unit, unless specifically exempted by the legislative body.

This investment policy applies to all transactions involving the financial assets and related activity of all the foregoing funds.

III. Investment Objectives

The following investment objectives, in priority order, will be applied in the management of the City's funds:

Safety
The primary objective of the City's investment activities is the preservation of capital in the overall portfolio and the protection of investment principal. The authorized investment staff will employ mechanisms to control risks and diversify investments regarding specific security types or individual financial institutions.

Liquidity
The investment portfolio will remain sufficiently liquid to enable the City to meet operating requirements that might be reasonably anticipated.

Return on Investment
Subject to the foregoing constraints, the City will strive to maximize the return on the portfolio and to preserve the purchasing power but will avoid assuming unreasonable investment risk. The investment portfolio shall be maintained with the objective of regularly exceeding the average return of three-month U.S. Treasury Bills. The investment program shall seek to augment returns above this benchmark, consistent with risk limitations identified herein and prudent investment principles.

IV. Diversification

The investments shall be reasonably diversified by specific maturity dates, and/or individual financial institution(s) or a specific class of securities.

V. Prudence

In managing its investment portfolio, The Finance Director/Treasurer or his/her designee should avoid transactions that might impair public confidence. Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

The above standard is established as the standard for professional responsibility and shall be applied in the context of managing the overall portfolio. Investment officers of Madison Heights, acting in accordance with State statute, this Investment Policy, written procedures as may be established, and exercising due diligence, shall be relieved of personal responsibility for an individual security's

credit risk or market price changes, provided that deviations from expectations are reported in a timely fashion, and appropriate action is taken to control adverse developments.

VI. Delegation of Authority

Authority to manage the City's investment program is derived from State statutes.

Daily management responsibility for the investment program is hereby delegated to the Finance Director/Treasurer, who shall adhere to this policy for the operation of the investment program. The Finance Director/Treasurer shall be responsible for all transactions undertaken, and shall establish a system of controls to regulate the activities of subordinate officials.

VII. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair or create the appearance of an impairment on their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Manager any material financial interests in financial institutions that conduct business with the unit, and they shall further disclose any large personal financial investment positions that could be related to the performance of the City's portfolio. Employees and officers shall subordinate their personal investment transactions to those of the City, particularly with regard to the time of purchases and sales.

VIII. Authorized Financial Dealers and Institutions

The Finance Director/Treasurer shall select financial institutions to provide investment and depository services. No public deposit shall be made except in a qualified public depository as established by State law.

Commercial Paper held in the portfolio that subsequently receives a reduced rating shall be closely monitored and sold immediately if the principal invested may otherwise be jeopardized.

d. Certificates of Deposit shall be purchased only from financial institutions that qualify under Michigan law and are consistent with Opinion No. 6168, Opinions of the Attorney General (1982).

e. To the extent possible, the investing officer will attempt to match investments with anticipated cash flow requirements. Madison Heights, Michigan
January 11, 1999

A Regular Meeting of the Madison Heights City Council was held on Monday, at 7:30 p.m. in the Municipal Building at 300 West Thirteen Mile Road, Madison Heights, Michigan.

Present: Mayor McGillivray, Mayor Pro Tem Stema, Councilmen Clark, Fisher and Mac Lean and Councilwoman Scott. City Manager Austin, City Attorney L. Sherman, and City Clerk Flack.

Absent: Councilwoman Russell (excused).

The invocation was offered by Councilman Clark with a moment of silence in memory of former Councilman and retired Detective Sergeant Russell Pearce and retired City Treasurer Margaret Birach, and was followed by the Pledge of Allegiance to the Flag.

1. Councilmember Excused.

Motion by Councilman Mac Lean, supported by Councilwoman Stema, to excuse Councilwoman Russell from tonight's meeting because of illness.

Yeas: Clark, Fisher, Mac Lean, McGillivray, Scott and Stema.
Nays: None.

2. Presentation – Certificate of Appreciation.

Mayor McGillivray presented a Certificate of Appreciation to Eugene Kaczmar for his services as the City's Oakland County Commissioner from January 1993 through December 1998.

3. Addition to Agenda.

City Manager Austin requested that the initial business license application for a restaurant at 31805 John R Road be added to the agenda. There being no objections, Mayor McGillivray added the item to the agenda for Council's consideration.

4. Special Approval – 30550 Stephenson Highway.

A public hearing was held to hear comments, if any, to permit the use of a gasoline facility at Costco, 30550 Stephenson Highway, said property is zoned M-1, Light Industrial. Attorney Jeff Howard, representing Costco emphasized that the only gas would be sold at this site and no other products. The proposed site would be located at the northeast corner of the 15 1/2 acre Costco site located on Stephenson between Twelve and Thirteen Mile Roads, which minimizes the visibility from Stephenson Highway and virtually eliminates interference with store parking and vehicular access. Robert Maten, 31512 Kenwood inquired as to the use of credit cards at the pump. David Jones of Costco stated that the Costco Credit Card or other major credit cards would be used. There being no further comments, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilman Fisher,

WHEREAS, a Special Approval Board application has been received from David Baumhardt, PE, Professional Engineering Associates, Inc., 2430 Rochester Court Suite, Troy, Mi 48083-1872 representing Costco Wholesale, Inc., 999 Lake Drive, Issaquah, Washington 98027, requesting to use the property at 30550 Stephenson Highway, for a gasoline facility at Costco Warehouse, said property is zoned M-1, Light Industrial; and

WHEREAS, a public hearing was advertised in the Daily Tribune on December 31, 1998, and 37 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that the owners of Costco Wholesale are proposing to locate a gasoline dispensing facility in the northeast corner of their parking lot. The facility will consist of a small 6′ x 12′ controller enclosure and 6 double-sided gasoline pumps providing a total of 12 vehicle fueling positions. The pumps and small enclosure will be covered by a 32′ x 88′ canopy. The proposed gasoline facility will be for members only and operate from 6:00 a.m. – 10:00 p.m. daily. The petitioners indicate that the gasoline pumps will be activated with a Costco membership card and will accept debit or credit card payments only. No cash will be accepted at this facility. The fuel pricing will be posted on the pumps and inside the warehouse only. There would be no publicly advertised fuel price signage associated with his facility. This facility will be fully automated and is designed to operate without an attendant; however, the station will only be open when there are employees on duty at the Costco Warehouse who are responsible for the safe operation and monitoring of this facility. A video monitoring system, telephone line, and alarm system will connect the gas facility to the main warehouse for safety purposes. Additionally, Costco typically provides employees at the canopy to assist customers, especially during the first few months of operation, and always during startup, shut down and during the peak hours of sales. Our review of this proposal indicates that it complies with setback, parking and other Zoning Ordinances requirements. The property is zoned M-1 Light Industrial which permits service uses of this type after Special Approval by City Council.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329(5) of the Code of Ordinances, hereby approves the request.

Yeas: Fisher, Mac Lean, McGillivray, Scott, Stema and Clark.
Nays: None.

Yeas: Stema, Clark, Fisher, Mac Lean, McGillivray and Scott.
Nays: None.

Fire Chief Martin explained that by law and in order to meet all the insurance guidelines initial billing is issued to everyone that is served, no one is ever refused service due to a lack of medical insurance or an inability to pay and that the ambulance fee charging protocols provide that the Fire Chief or his designated representative will be responsible for determining what fees are waived.

1. The City of Madison Heights (the “City”) shall make and cause to be filed a petition in form substantially as follows:

PETITION

TO THE DRAINAGE BOARD FOR THE
HEREINAFTER-MENTIONED OAKLAND
COUNTY, MICHIGAN, DRAIN PROJECT

The undersigned public corporation hereby petitions for the location, establishment and construction of an intra-county drain project to enlarge, improve, supplement and relieve the existing Southeastern Oakland County Sewage Disposal System and the existing Twelve Towns Relief Drains. The drain project shall consist of:

(A) the following improvements and enlargements of the existing Southeastern Oakland County Sewage Disposal System, Twelve Towns Retention Treatment Facility (the "RTF") located in the City of Madison Heights, Oakland County, Michigan, necessary to comply with NPDES Permit No. MI0026115 issued and dated October 22, 1998:

1. Construct new approximate 2,000 linear foot inlet weir structure to existing RTF to eliminate Broome gates;

2. Increase the firm storage in the 12 Towns Relief Drains and headworks to approximately 64 million gallons by the addition of approximately 30 million gallons system storage capacity;

3. Install a new, more effective disinfection system with high energy chlorination system;

4. Install additional hypochlorite storage capacity;

5. Install new pneumatic system for operating the RTF flushing system;

6. Install a new electrical/computer control system for RTF operation;

7. Install a new system for screening of floatable materials;

8. Eliminate Madison Heights separate storm sewer inputs from the RTF by constructing new parallel storm sewers to convey Madison Heights storm water to the Red Run Drain;

9. Eliminate the Madison Heights CSO inputs from the RTF by rerouting them upstream of the new inlet weir structure;

10. Construct a new dewatering pump station and gravity sewer or force main to take flow from the 12 Towns System during the early stages of storm events and discharge it to the 12 Mile Road Interceptor as the system is filling from storm events. This will enable the system to achieve its Detroit Water and Sewerage Department contractual limit of 260 CFS early in a storm event, thus increasing the effectiveness of the 12 Towns System storage; and

11. Equipment Storage Building;

182. Special Approval – 30921 Dequindre Road.

A public hearing was held to hear comments, if any, to permit the use of a sit down and carry out restaurant at 30921 Dequindre Road. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Scott,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from Hanh Van Mai, 13188 Bimini Court, Sterling Heights, Michigan 48312, requesting to use the property at 30921 Dequindre Road for a sit down and carry out restaurant; said property is zoned B-1, Local Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on June 2, 1999, and 94 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating the following:

1. Applicant proposes to expand existing 5 table seating area (960 sq. ft) to 9 tables (1,760 sq. ft). Existing grocery sales area will be converted to added restaurant seating.

2. Council originally granted Special Approval on 12/16/96 for the existing restaurant.

3. The Zoning Board of Appeals granted a variance from the required 1,500 feet restaurant separation standard on 3/6/97. If Special Approval is granted by Council, the Zoning Board of Appeals must grant a variance from the 1,500 feet separation requirement due to the expansion (change in conditions of original variance request).

4. Council denied a recent request for Special Approval to expand this restaurant on December 14, 1998, citing ingress/egress, pedestrian and traffic problems.

5. This new request is the same in terms of square footage, but has been revised as follows:

    a. Parking – The parking lot would be re-stripped to increase the number of parking spaces from 74 to 102.
    b. Dumpsters – Existing dumpsters will be relocated to a single location in the south west corner of the site.
    c. Number of tables – The previous request called for 11 additional tables. This request is limited to 4 additional tables.

6. The proposed parking plan does not meet required parking. With the restaurant as proposed, a total of 106 spaces are required. While 102 spaces are proposed, at least 5 spaces are within public road right-of-way and cannot be included in required parking calculations. Therefore, the plan as presented would need a variance from the Zoning Board of Appeals for at least 9 parking spaces.

7. In addition to the right-of-way issue with parking, the proposed parking lot design does not include landscaped islands separating parking from driveways. Such islands would provide added safety for ingress/egress and on-site traffic flow.

8. Should Council consider this expansion an appropriate use, staff recommends that a final decision be postponed until the applicant revises and re-submits the plans to address the above parking lot design issues, and to allow a specific determination of necessary Zoning Board of Appeals parking variance(s) based on revised plans.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.319(4) of the Code of Ordinances, hereby concurs with the recommendation of Community Development Director Schafer that the applicant revises and re-submits the plans for Special Approval for a sit down and carry out restaurant at 30921 Dequindre Road to address the above parking lot design issues, and to allow a specific determination of necessary Zoning Board of Appeals parking variance(s) based on revised plans.

Madison Heights, Michigan
June 22, 1999

A Special Meeting of the Madison Heights City Council was held on Tuesday, June 22, 1999 at 7:00 p.m. in the Municipal Building at 300 West Thirteen Mile Road, Madison Heights, Michigan.

Present: Mayor McGillivray, Mayor Pro Tem Scott, Councilmen Clark, Fisher, Mac Lean, Councilwoman Russell and Councilman Turchin.

Absent: None.

Others Present: Community Recreation Center Task Force members: Walter Bezz, Phyllis Fathers, Robert Maten, Patricia Mier, Toni Shad, Earl Stone and Verna Warren. (Mayor McGillivray serves as Council representative and staff members include City Manager Austin, Deputy City Manager Connors, Senior and Recreation Supervisor Martin, Community Development Director Schafer and Recreation Coordinator Gettings) Assistant City Manager Myers and Deputy City Clerk Corbett were also present.

203. Community Recreation Center – Public Information Meeting

Mayor McGillivray stated that the tonight's meeting is a special, informal Council meeting, with the Community Recreation Task Force, for an informational presentation about the proposed Center and to seek public comments.

City Manager Austin introduced the Mayor and City Council and the Community Recreation Task Force and welcomed everyone; and thanked those who responded to the survey for their input and agreed to be part of the focus group meeting this evening.

City Manager Austin stated that no final decision has been made. The City wants to hear comments to get direction so that the project meets the needs of the citizens of Madison Heights. He introduced the architects that were retained for the first phase of the project, TMP Architecture of Bloomfield Hills, Tim Casai, Principal in Charge and Dave Larson, Principal Designer.

City Manager Austin reviewed the project history timetable of events. He stated that the intent to build a Community Center is to enhance the public's health, quality of life and family by meeting the needs of all ages. The facility would be an asset to the community, would appeal to a broad base of users from youth to senior citizens, and is intended to increase, not replace, current facilities now available to residents.

Deputy City Manager Connors spoke of the work done by the Community Recreation Task Force in viewing other community centers for ideas. In addition, every household in Madison Heights received a survey and 2,055 households, representing 5,225 people, responded. In addition, 371 people asked to be part of a task force and were sent letters about this meeting. Mr. Connors reviewed the results of the survey as to what the community wanted at the Center: 1) 45% want an Aquatic Center, 2) 17% wanted additional gyms/multi-purpose rooms, 3) 39% wanted a fitness center, 4-5-6) Senior center, teen center and indoor track also scored high. Further, 59% of respondents said they would support a millage to fund the construction, 8% said maybe and 33% said no. Asked about a user fee to support some of the operation, 74% said yes, 6% said maybe and 20% said no. And lastly, asked how important a Center was, 77% said very important or important and 16% - not important. Mr. Connors then read 25 comments, both positive and negative, submitted with the survey.

Deputy City Manager Connors introduced Tim Casai, Project Architect, who gave an overview and then introduced Dave Larson, Project Architect who narrated the video presentation as to what type of features would be found in the Center, the five potential sites, and the site evaluation process.

City Manager Austin explained that the estimated cost of the project will be $19 million dollars and will be financed, after voter approval, by a combination of existing City revenue and millage, including funds generated by John R/Whitcomb commercial development and the debt service millage that has been used to support debt payment on the construction of the Police Station, Court Renovation and County Drain

projects. Since the debt for these projects will be paid off in the next two years, the Center construction can be funded within the current millage totals for the City, in the amount of $26 per year for an average residential taxpayer.

Any additional revenues received as a result of state grants and/or partnership agreements with local health institutions or reduction in the estimated cost would reduce the debt requirement.

Further, Mr. Austin explained, the center will be divided into two general areas: health, recreation and fitness programming and community programming. Access to health, recreation and fitness portions of the Center will be on an admission basis in the form of a daily rate, programming fee, and/or annual membership. Access to the community programming areas will be free to the general public, except for fee based programs. The community programming areas will be staffed and funded through the current Senior Center Millage and other General Fund Revenues.

Mayor McGillivray called for a recess prior to the conclusion of the presentation and the public question and answer portion of the meeting.

The meeting was recessed at 8:17 and reconvened at 8:25 p.m.

City Manager Austin presented the following time line to explain what will happen next:

June-July, 1999	City establishes initial partnership commitment with local health institution(s).
On or before Aug.9,1999	City Council consideration of ballot proposal.
Fall 1999 to Spring 2000	Architect develops final design and specification, and bids project construction
Spring / Summer 2000	Debt issued and construction contract awarded
Summer to Winter 2001	Construction Phase (18 to 24 months)
Winter 2002	Center Opens

City Manager Austin explained the ground rules for questions, as established by the City Council and informed the audience that questions or comments would be taken for approximately one hour at which time the meeting would be closed with staff staying for further answers.

The following persons spoke with comments and questions about the proposed Center:

Cherrie Mudloff, 27062 Couzens, stated she lives on the dirt road on the east side of Madison Height School and had heard that her property would be condemned for this project if it were located on the Madison High School site. (City Manager Austin stated that is not planned as the recommended site is the Civic Center). She also commented that it should be known that Rosie's Park, as a proposed site, is built on a landfill.

Peggy Rachubinski, 29604 Howard, asked how the idea of a community center originated, the costs of construction and operating costs, and joint usage of school facilities.

John Pulice, 30869 Avondale, was in favor of the project as a place for teen dances and activities, and recommended that Council put the question on the ballot.

Cheryl Charpentier, 1706 E. Greig, had questions concerning the funding and the cost to the public for using the center.

Lee Hasho, 907 E. Farnum, asked questions about the proposed millage, user's fees and her perception of duplication of services.

John Tomassi, 27044 Lenox, spoke in favor of a Center because he is a soccer coach and he would rather pay fees for his team, and his son, to play in Madison Heights rather than give the money to Troy Sports Center.

Tony Bliss, 29056 Tawas, complimented the presentation and was in favor of the Center as an asset for the community. He also commented that the location of the Center should be located according to the demographics of the City to serve all the citizens.

Marvin Henderson, Madison Athletic Center, 2 Ajax Drive, questioned the costs of operating the facility and usage by non-residents.

Steven Jacob, 1 Ajax Drive, owner of Madison Athletic Center, objected to the fitness and health portion of the Center as being competitive to his business and argued the proposed operating cost estimates are too low.

Neil Hoffrichter, 276 E. 13 Mile Road, questioned the location sites and the environmental impact from construction. He also had questions concerning user fees and what further information will be sent to residents.

Mary Wakefield, 1728 Millard, asked if residents would be able to buy the municipal bonds for this project, before they go on open market.

Deborah Henderson, Madison Athletic Club, 2 Ajax Drive, asked what fees teens would have to pay for programs, the security provisions for allowing non-residents in and questioned the proposed operating costs.

Pat Shields, 29328 Spoon, asked how cost overruns would be handled for construction of the Center, and commented on the effects of Proposal A State property tax reform on home values and taxes.

Eugene Kaczmar, 31431 Meadows, commented that he agreed with Mr. Bliss's comment that the location of the Center should be centrally located. He asked what effect the reconstruction of the Twelve Towns Drain would have and what would happen to the existing Senior Citizen Center.

Steve Nilsen, 27107 Osmun, stated that the Center project is focused too heavily on families with young children and seniors, and recommended the Center be open late at night for athletic activities to keep kids off the streets.

Dan Lopez, 28239 Edward, spoke in favor of the project and urged that the Center be built.

Jamie Mullins, 1535 E. Greig, stated she has used facilities in Fraser, Troy and Huntington Woods and is in favor of a Center in Madison Heights.

Mike O'Neil, 1820 Greenbrier, commended the Council and the Task Force for moving forward with the project. He is in favor of the Center and urged that the location be an area that can be expanded to support team

sports. He stated he is an Exercise Physiologist at St. John Oakland Hospital and they are looking forward to the possible opportunities of working with the City in providing more services to the community.

Olivia Gorial, 29820 Milton, speaking as a resident, and who is employed at the Madison Athletic Club, asked questions concerning the funding of the Center, the amount of taxes that go to the School Districts for education, and the costs of operating the Center.

Lisa Schwabguest, 26795 Lorenz, spoke in favor of the Center but was concerned that the inclusion of non-residents would make the Center as crowded as the Red Oaks Water Park.

Marge Manoogian, 28748 Edward, spoke in favor of the center and stated the number one priority should be keeping the children active, occupied and off the streets.

Beverly Pulice, 1426 Diana, spoke in favor of the Center and the concept of taking everyone into consideration, teens, families and seniors, and urged that the hours be flexible and available very early in the morning or late in the evening.

Mike Scarchelli, 1110 Wright, stated they had used recreational facilities when raising their four sons, and that it is up to parents to be responsible for the raising of children not Federal, State and local government.

The questions posed by the speakers were all answered by City Manager Austin, with some assistance from Deputy Manager Connors, the Mayor and Council.

265. Meeting Open to the Public

Liria Hasho, 907 East Farnum urged Council to reconsider postponing the placing of the Community Recreation Center ballot proposal on the November ballot.

Mike Scarchelli, 1110 Wright, stated that there should be more discussion on the proposed Community Recreation Center.

Karen Mouradgian, 27432 Townley stated that she was offended by the invocation for the people of Turkey, inasmuch the United States has never held Turkey accountable for the Armenian genocide. She along with Tom Ness, Editor and Publisher of JAM RAG Publications presented Council with a resolution regarding the pending release by the FCC to give the general public access to public airways. There being no objection by Council, a resolution will be submitted for Council's consideration at the next Council meeting.

Councilwoman Russell apologized regarding the invocation and stated that it could have been rephrased to include all people living in Turkey who have been affected by the earthquake.

266. Community Recreation Center Project Ballot Proposal.

Richard LePage, 30980 Plum Lane stated that the local Schools have pool facilities and that there are other facilities that could be utilized. He also stated that the $19,000,000 figure was in excess of what is needed.

Peggy Rachubinski, 29604 Howard commented that the survey should have been done by an independent agency. She also stated that the City has spent $40,000 for architects and studies regarding this Center and that this is causing cuts in the Recreation programs. City Manager Austin stated that there have not been any cuts in the Recreation Budget and the City stands by the survey and the results. Ms. Rachubinski asked the Assistant City Attorney his opinion on the legality of the City taking the survey. Assistant City Attorney J. Sherman stated that the best survey is an election and presenting the CRC Proposal to the people to vote on it. City Manager Austin also stated he would recommend to Council that there will be no reduction in existing services as a result of the Community Center. He also noted that on Page 6 of the Council agenda packet there is a detailed explanation of the requirements and resources that could be modified if the budget had to be reduced. The City has no claim that annual memberships and daily admissions will cover the facility. The Senior Center millage will cover 25% of the operation. Mayor McGillivray stated that Ms. Rachubinski's three minutes have expired. Ms. Rachubinski asked the membership fees for residents and non-residents. She also stated that according to the Open Meetings Act she could ask the Council for an additional three minutes. City Manager Austin reviewed the membership fee and stated that this is part of the written report which is available to the public. Councilwoman Russell stated that the Council has not made up their minds and Council did not receive the report until last Friday.

Lisa Czjakowski, 307309 Woodmont stated that as the focus of a center was to be a teen center, the proposed Community Center should be centrally located with access for everyone. Programs should be focused on our teens and to accommodate the residents who could not afford the membership. Mayor McGillivray stated that the Community Center would have a teen center that would be free. The Civic Center Complex site location was chosen because the Center proposed would need 8 to 10 acres and if land would need to be purchased for other sites it would drive up the project cost. Further, the City is reviewing transportation option for the teens.

Tony Bliss, 29056 Tawas felt that another survey with all the information would have different results, that the center should be smaller and placed in a central location and be a teen center. He also suggested that a multi tier proposal be presented to the voters.

Bob Gettings, 27837 Lenox, favored the ballot proposal for the November Election.

Toni Shad, 31520 Meadows, Chairman of Friends of Madison Heights Youth, thanked the Police, Police Reserves, Explorers, Fire, DPS, the Lions Club, businesses and Recreation for the successful "Afterglow Car Show" event. She also stated that she was opposed to the Community Center Ballot Proposal.

City Manager Austin gave a brief history of how the Community Center was developed with a teen lounge being incorporated.

Dave Hasho, 907 E. Farnum stated that the seniors already have a center and that the City will be using their budget for the Community Center and that the proposed site should utilize less than 10 acres. City Manager Austin stated that the construction will be funded with the current millage and explained that the operating budget is going to be supported through a combination of existing funding and additional fees that will be raised through the Center. He stated that the architect recommended the 8 to 10 acres site requirement. He also stated that he would propose the City put in writing the operating expenses needed for the Community Center and make this available to the voters.

Verna Warren, 26661 Tawas favored the Community Center and the ballot proposal.

Olivia Gorial, 29820 Milton inquired if the Task Force obtained information regarding operational costs of other facilities and that a more specific survey should be conducted that includes the membership fees.

Marie Bessler, 27327 Alger a member of the Task Force indicated her support for the Center and stated that the proposed Community Center would be a proud part of the City.

Patty Mier, 30328 Yorkshire, member of the Task Force favors the ballot proposal.

Robert Maten, 31512 Kenwood, member of the Task Force stated that separate units for seniors and teens would negate one of the basic concepts of the Community Center. He also stated the school pools are lap only and read a list of items of features that would be included in the proposed Center.

Mike O'Neil, 1820 Greenbrier stated that he favored the Community Center proposal.

Steven Jacob, One Ajax Drive and owner of Madison Athletic Club stated that he was opposed to the Community Center proposal. He inquired as to the financial situation of the other 25 community centers that the Task force looked at. City Manager Austin reiterated the proposed financial plan. He also stated that the City is negotiating with the two area hospitals.

Motion by Councilwoman Scott,
Supported by Councilman Clark,

WHEREAS, the City Council (the "Council") of the City of Madison Heights, County of Oakland, State of Michigan (the "City"), has determined that it is in the best interest of the residents and property owners of the City that the City acquire, construct, furnish and equip a community recreation facility and the site therefore for use by the City's residents (the "Improvements"); and

(a) Forfeiture of the vehicle if the defendant owns the vehicle in whole or in part.

(b) Return of the vehicle to the lessor if the defendant leases the vehicle.

* * *

(4) Within fourteen (14) days after the defendant's conviction for a violation described in subsection (1), the prosecuting attorney may file a petition with the court for the forfeiture of the vehicle or to have the court order return of a leased vehicle to the lessor. The prosecuting attorney shall give notice by first class mail or other process to the defendant and his or her attorney, to all owners of the vehicle and to any person holding a security interest in the vehicle that the court may require forfeiture or return of the vehicle.

(5) If a vehicle is seized before disposition of the criminal proceedings, a defendant who is an owner or lessee of the vehicle may move the court having jurisdiction over the proceedings to require the seizing agency to file a lien against the vehicle and to

return the vehicle to the owner or lessee pending disposition of the criminal proceedings. The court shall hear the motion within seven (7) days after the motion is filed. If the defendant establishes at the hearing that he or she holds the legal title of the vehicle or that he or she has a leasehold interest and that it is necessary for him or her or a member of his or her family to use the vehicle pending the outcome of the forfeiture action, the court may order the seizing agency to return the vehicle to the owner or lessee. If the court orders the return of the vehicle to the owner or lessee, the court shall order the defendant to post a bond in an amount equal to the retail value of the vehicle, and shall also order the seizing agency to file a lien against the vehicle.

(6) Within fourteen (14) days after notice by the prosecuting attorney is given under subsection (4), the defendant, an owner, lessee, or holder of a security interest may file a claim of interest in the vehicle with the court. Within twenty-one (21) days after the expiration of the period for filing claims, but before, or at, sentencing, the court shall hold a hearing to determine the legitimacy of any claim, the extent of any co-owners' equity interest, the liability of the defendant to any co-lessee, and whether to order the vehicle forfeited or returned to the lessor. In considering whether to order forfeiture, the court shall review the defendant's driving record to determine whether the defendant has multiple convictions under Section 5.15, MCL 257.625 or a local ordinance substantially corresponding to MCL 257.625, or multiple suspensions, restrictions or denials under Section 5.62a or MCL 257.904 or both. If the defendant has multiple convictions under Section 5.15, MCL 257.625, or multiple suspensions, restrictions or denials under 5.62a or MCL 257.904, or both, that factor shall weigh heavily in favor of forfeiture.

* * *

(7)(g) The balance remaining after the payment of items (a) through (f) shall be distributed by the court having jurisdiction over the forfeiture proceedings to the city. Seventy-five (75) percent of the money received by the city under this subsection shall be used to enhance enforcement of the criminal laws and twenty-five (25) percent of the money shall be used to implement the crime victim's rights act, 1985 PA 87, being MCL 780.751 to MCL 780.834. The city shall report annually to the State of Michigan department of management and budget and amount of money received under this subsection that was used to enhance enforcement of the criminal laws and the amount that was used to implement the crime victim's right act, 1985 PA 87, MCL 780.751 to 780.834.

* * *

(10) A person who knowingly conceals, sells, gives away, or otherwise transfers or disposes of a vehicle with the intent to avoid forfeiture or return of the vehicle to the lessor under this section is guilty of a misdemeanor punishable by imprisonment for not more than ninety-three (93) days or a fine of not more than five hundred dollars ($500.00), or both.

(11) The failure of the court or prosecutor to comply with any time limit specified in this section does not preclude the court from ordering forfeiture of a vehicle or its return to a lessor, unless the court finds that the owner or claimant suffered substantial prejudice as a result of that failure.

(12) The forfeiture provisions of this section do not preclude the prosecuting attorney from pursuing a forfeiture proceeding under any other law of this state or a local ordinance substantially corresponding to this section.

321. Community Recreation Center Status Report.

City Manager Austin presented the public information video to educate residents on the ballot proposal for a Community Recreation Center. He also noted that a newsletter has been prepared and that this media has been used in the past by the City for proposals R and V and ALS with a portion of the newsletter discussing senior millage and police station; as well as videos that have been produced for these proposals plus the City's annual neighborhood road information meetings. The following answers were to the questions that were brought up during Meeting Open to the Public, as follows: The City's official role and presentations made are to inform and not take a position. The City has been invited by the Senior Citizen Advisory Commission to make a presentation to the general membership. Others wishing to address the seniors should approach the Senior Citizen Advisory Committee. He also stated that any Boards or Commissions would be advised that before they allow one side to present a position that they may want to seek out the proponents as well. The FOIA requests made by Ms. Rachubinski (written response) which has just been reviewed by the City Attorney and will be sent out and that they are the same questions raised by her tonight, as follows: 1) the Lapeer Community Center is scheduled for October 9th and the free bus transportation will be provided and funds have been budgeted by the City Council at their meeting of June 28, 1999 as part of the budget amendment to the 1998-99 Budget and included within the Department of Public Service Recreation Division is an allocation of $45,000 for architectural fees and other Community Center Project related cost; 2) monies for the video is included as part of the Annual City Budget; $10,000 was budgeted for contractual services and/or expert assistance for the purpose of establishing a Community Recreation Center, part of which will be going to the video contractor; 3) the budget for mailing of newsletter is 11 cents per copy and is budgeted in General Administration Budget 010-0923-7300; 4) the budget for the architectural work is part of the $45,000 budgeted in the Department of Public Services Recreation Division. The Lapeer Community Center was picked because 1) the City was looking for a facility that was in reasonable driving distance from Madison Heights. 2) The older style community centers did not replicate what the proposed community center would offer and that is why an open house in a modern facility was chosen. 3) It was designed by the City's architect. 4) It was viewed by the Task Force and Council members. 5) Lapeer is smaller community , and 6) it has most of the major components discussion in the City's proposed facility.

Peggy Rachubinski, 29604 Howard inquired to the actual cost of the video and the printing of the newsletter. She also stated that she felt the City was promoting and not educating the voters. City Manager Austin stated that the video was $3,000 and the newsletter was approximately $5,000.

Patty Mier, 30328 Yorkshire, Co-Chairperson for CCRC (Citizens for Community Recreation Center) urged all residents to attend the Open House at the Lapeer Community Center, and to review the operating budget and the newsletter that was put together by the Citizen Community Recreation Center Task Force

Jackie Bonk, 27327 Alger stated that she agreed that access to any information concerning the ballot proposal is vital to the voters, but did not think that the trip to Lapeer was in the best interest of the City.

Steven Gralka, 27786 Brush asked who would pay for a membership for a family or senior citizens who could not afford it. Mayor McGillivray stated that different rates will be provided for teens and seniors, as well as a portion of the building which will be without charge.

Councilwoman Russell stated that any programs through the City that a family or senior could not afford would be taken care of to meet their needs, either through the City and/or other organizations. She also commented that FOIA requests do involve the cost of duplicating the pages and charges are not made if it's a few copies. She also recognized many people who served on the Task Force and gave input on the Community Center.

City Attorney L. Sherman stated that the City has a FOIA Coordinator as required by law, the City Clerk, to process the many requests. A protocol is in place to process the information and it is not unusual to refer matters to the City Attorney. If requests cannot be answered within the 5 business days required by the statute, the law allows a 10 business day extension. The City takes FOIA requests seriously and they are channeled through the appropriate department and the City Attorney's Office before a response is sent out. The City is entitled to be compensated for duplicating the documents and to charge the costs of labor for the person capable of processing the requests.

322. Mayor and Council Requests/Comments.

Councilman Turchin thanked the Lions Club for their help in the Community. He also announced, as Representative on the Youth Assistance, that they, in cooperation with the City Library, will provide a program for systematic training for effective parenting for teens to be held on October 14 through December 16, 1999. He will also be attending the Oakland County Youth Assistance Coordinating Council's 32nd Annual meeting.

Mayor Pro Tem Scott announced her grandson's lst Birthday, Dylan Kraig Johnston, son of Kraig and Jill Johnston. Mayor Pro Tem Scott thanked everyone who attended the Rotary Spaghetti dinner and gave special thanks to Robert Maten and his family for volunteering. She thanked Jackie Bonk for all her years of assistance in helping families. She announced the Nature Center is celebrating their 3rd Open House on Sunday, October 3, from Noon to 3 p.m. She requested a Certificate of Recognition be presented to the custodial staff for their restoration efforts at the Edison Elementary School, the oldest functional school in the City. She also stated that tonight is the Detroit Tigers last game at Tiger Stadium.

326. Meeting Open to the Public.

Tony Bliss, 29056 Tawas clarified his statement that appeared in the Daily Tribune relative to the Jaycees Mutilation Mansion and the proposed Community Recreation Center.

Teresa Gralka, 27786 Brush, thanked the Police for monitoring the traffic on her street and hopes that it would continue. She thought that there are children in her neighborhood who would not be able to afford admission to the health recreation and wellness portion of the proposed Community Recreation Center, and that improvements should be made to the existing library and school swimming pools.

Olivia Gorial, 29820 Milton inquired as to how a budget can be allocated to promote the proposed Community Recreation Center which uses taxpayers dollars for funding promotional literature and presentations and field trips. She asked how would moneys be retrieved if the Community

Recreation Center ballot proposal fails? City Manager Austin stated that he would answer these questions later in the agenda during the Community Recreation Center Status Report.

Mary Wayfield, 1728 Millard stated that she was concerned that the opposing side was only to speak against the Community Recreation Center Proposal at the Senior Citizen Center.

Lee Hasho, 907 East Farnum, stated that she wanted to clarify that the seniors portion for health and fitness at the Community Recreation Center will be paid through a yearly membership and/or these services will be billed to their health care provider. She also inquired as to the brochure, page 3, and the floor plan as to what portion of the senior social area will be for rent and game rooms for seniors and teens. City Manager Austin stated that he would address all the questions later in the agenda.

Bob Gettings, 27837 Lenox stated that he attended the Open House at the Lapeer Recreation Center and asked what the exact price of the Community Recreation Center will be and the contingency fund that is set aside for parking.

Robert Brunk, 30604 Winthrop stated that he opposed the Community Recreation Center proposal.

Gary George, 1734 Castlewood inquired as to the status of the sled hill, the existing jogging track; the fireworks display, softball diamond relocation and parking. He stated that a property tax break would help the residents because the Twelve Towns Drain Retention Facility Project cost could increase cost. He stated that pools at the schools are high maintenance; exercise rooms are already provided at existing gyms and the Community Recreation Center could impact their businesses. Therapy and rehab should not be the responsibility of a City because of the number of hospitals and rehab centers in the area and he was opposed to the current proposed Community Recreation Center.

Peggy Rachubinski, 29604 Howard commented about a Daily Tribune article dated October 10, 1999 that quoted the City Manager, as follows: 'that the cost of the Twelve Town Drain Project is fixed at $144 million' and according to the plan the estimated cost would be $144 million and cost overruns could be over $200 million and that the residents would be responsible for 10.2862%. She also inquired if the CRC operated on a shortfall, would the City ask the voters to make up the difference from the General Fund; and how many residents took the bus trip to the Open House at Lapeer.

Robert Maten, 31512 Kenwood stated that the Community Recreation Center Bond Proposal will be paid by non-homestead and homestead properties and if it were to be defeated the homestead property owners will receive a tax reduction of 50 cents per week. He stated that the operating budget is explained within the City's Special Edition Newsletter; that the Task Force looked into several locations; that the failure of the City of Novi's ice arena was because the private contractor took a profit and the limited venue of the center was strictly ice skating; the Twelve Town Drain Retention Project will be paid through water bills, not a ballot issue; one

new full time employee will be added and the majority will be part-time lifeguards; sale proceeds from the existing senior complex will not be used to fund the Center; private clubs youth costs are in excess of the proposed CRC memberships; daily resident fees will be $3.50 and $4.00, and that non-residents participation will be welcomed, but monitored.

Tony Bliss, 29056 Tawas stated that residents will vote on the issue on November 2, 1999 but if the proposal is defeated the City will still need something like a youth center.

Marvin Henderson, General Manager of Madison Health Club, 2 Ajax Drive, stated that he is opposed to the Ballot Proposal and feels that the opposition to the proposal is being surpressed.

Verna Warren, 26661 Tawas stated that she favored the ballot proposal and the facility will offer safe activities and recreation for children and seniors.

Lee Bennett, 242606 Kipling, Oak Park, consultant to the "Citizens for Fiscal Responsibility" stated that in his opinion the proposed Community Recreation Center, if offered only for the residents, would be a truly community recreation center, but the proposal being offered now, which allows non-residents is the same as profit-making or break-even type businesses which specialize in health, fitness and recreation sports.

331. Resolution – Opposing HB 4804.

Motion by Councilman Clark,
Supported by Councilman Mac Lean,

A resolution of the City of Madison Heights objecting to various provisions of HB 4804 rewriting Michigan Telecommunications Act of 1955 introduced by State Representative Marc Shulman (R.-West Bloomfield).

RECITALS

1. The Michigan Telecommunications Act of 1995 sunsets January 1, 2001. State Representative Marc Shulman (R.-West Bloomfield) has introduced a 59-page bill rewriting the Act, which was referred to the Committee on Energy and Technology for hearing.

2. The bill addresses none of the problems identified by municipal officials over the last four years, adds new problems and further limits the ability of local government to manage the public rights of way.

3. The bill fails to address any of the state constitutional arguments made by municipal officials in expensive litigation pending between TCG-Detroit and City of Dearborn and adds new constitutional objections, assuring continued legal battles between telecommunications companies and local governments in the years to come.

4. The bill reduces from 90 to 30 days the deadline for municipalities to act on an application for a new telecommunications permit. This imposes significant administrative burdens on the City's staff.

5. It makes no change to the circular language of Section 307 authorizing school districts to build fiber optic networks and to sell up to 25 percent of their capacity to commercial telecommunications companies.

6. Subsection 202(e) of the bill would allow telecommunications companies to drag their disputes with municipalities up before the Public Service Commission in Lansing, which has neither the expertise nor staff to handle local matters. This will be expensive and time-consuming for both telecommunications companies and, especially, municipal officials.

7. The bill proposes amendments to Subsection 251(2) which are counterproductive and confuse the relationship between telecommunications providers and local government. Section 251(2) uses the phrase “health, safety and welfare” the so-called “police power” authority of local government, i.e., preserving the ability to ticket a telecommunications company installers who block a street, fail to obtain underground construction permits, operate jack hammers in a residential neighborhood late into the night. The bill eliminates the words “health” and “welfare” confusing the matter and unreasonably hamstringing local officials.

8. An amendment to Section 251(3) seriously limits the ability of local government to require telecommunications providers to restore streets, sidewalks, alleys and other public places damaged by their work crews during the term of a permit. The original language allowing local officials to require telecommunications companies to post a bond guaranteeing repair work has not results in any gripes from the industry. The amendment is a step backwards in terms of recognizing the state constitutional role of local government in the reasonable control of their streets.

9. Subsection (4) of Section 251 is amended by the bill to prohibit local government from regulating telecommunications companies operating on state or county roads. This is unconstitutional. Michigan Courts have long recognized that section 29 of article 7 of the State Constitution requires municipal consent for any use of the highways, streets, alleys or other public place regardless of whether they are state, county, or local roads. Section 254 of the Act uses this constitutional language for that very reason. Under this state constitutional provision, some cities and villages have chosen to set fees charged to telecommunications providers based on a calculation of the actual costs of maintaining the rights-of-way used by a particular telecommunications provider and assessed on the lineal feet of wires installed in the public rights-of-way without regard to whether they were installed on state, county or local roads but within the constraints of the Act.

10. Telecommunications companies which engage in “cream skimming” or “cherry picking” of nothing but big, commercial customers, should be required to pay franchise fees for the use of public rights-of-way negotiated at arms length with local government without being limited by state law to the “fixed and variable costs” under the existing law or the “actual costs” incurred by the City as set forth in the bill. Not only does this shortchange taxpayers who are being denied fair and reasonable compensation for using public property but calculating actual costs is an unnecessary administrative

burden. Other means of assessing fees should be explored. For example, Florida and Illinois allow cities to charge up to one (1) percent of gross revenues. The State of Michigan charges telecommunications companies $1,000 per mile to make installations of wires and facilities in state freeways.

11. The bill proposes adding language to Section 253(2) which is very confusing and self-contradictory. The language appears intended to clarify that a telecommunications provider which does not use the public rights-of-way to deliver service to customers, a wireless provider, for example, does not need a permit. However, it goes way too far in doing so. There are many circumstances where a telecommunications company uses space in the public right-of-way owned or controlled by another company. The bill arguably would preempt local regulation in all such situations. For example, MCI and Detroit Edison went into a joint venture whereby the ground wire atop high-tension towers was replaced with a fiber optic ground wire -- carrying telecommunications signals. MCI is "using" the rights-of-way and, under the state constitution, is required to obtain municipal consent for the installation.

12. The bill could be interpreted to exempt cable operators offering telephone service from permit requirements. Legislation is needed clarifying and protecting the important role of local government in situations where cable operators and other telecommunications companies "piggyback" on another company's wires. The language added to Section 253(2) does not fit the bill.

NOW, THEREFORE, BE IT RESOLVED, that the City of Madison Heights opposes HB 4804 in its present form and urges the Committee of Energy and Technology of the Michigan House of Representatives to invite testimony on rewriting the Telecommunications Act from representatives of the Michigan Municipal League, Michigan Townships Association, Michigan Chapter of the National Association of Telecommunications Officers and Advisors (NATOA) and the Michigan Coalition to Protect the Public Rights-of-Way from Telecommunications Encroachment (PROTEC).

333. Community Recreation Center Status Report.

City Manager Austin gave a status report on the proposed Community Recreation Center including: a Special Edition Newsletter has been mailed to all residents; the schedule of times the video presentation will be aired on Cable; announced that the CRC Information Center display is in the lobby of City Hall and the third Focus Group meeting will be held on Wednesday, October 20, 1999 at 7:00 p.m.

He also stated that 76 residents attended the Open House at the Lapeer Community Center. He emphasized that the Community programming aspect of the building will be provided free of charge and will include a Teen Center and a Senior Center. He stated that the City would pursue working with community groups to be able to secure entrance fees and to cover some expenses for daily admissions for families that would not be able to afford it. Daily admissions are proposed to be $3.50 for youths and seniors and $4.50 for adults. The Newsletter is considered to be informational not promotional or marketing. Marketing memberships for both residents and businesses would take place if the ballot proposal were to be approved. He also clarified that the Senior Advisory Board makes the decision to schedule speakers at the Senior Center and anyone making this request would have to appear before the Senior Advisory Commission. The City would not assume the responsibilities of rehab or therapy but would be conducted by a health partnership who would provide free educational programs within the multi-purpose room, club room and classrooms on a regular basis, which would be leased to them, and would generate revenue to support the center as well as providing their expertise in our fitness programming and the layout of the fitness room. The area for rental is marked on the floor plan as club room, which will be available along with the classrooms and warming kitchen and is located off the senior entrance to the building. Location of the game room for seniors is marked billiards or BILL on the drawing and shows rectangular tables. To Mr. Gettings question he answered that the cost of the building itself is proposed between $15 and $16 million, the project cost incudes $100,000 an acre for land improvements. In addition there are parking lots and hiring of all the professionals, engineers, mechanical engineers, the civil engineers and the architects. There is a ten-percent planning contingency and a construction contingency included in the $19 million total project cost. The model that is being provided by the architect will show the sled hill in relationship to the proposed Community Recreation Center and that a fourth to a third of the sled hill would have to be excavated. The building will not set on top of the sled hill but would start at ground level and go up. Its tallest point will be approximately the height of the hill itself. Activities on the hill, such as sledding, will continue and the plan is the fireworks with the assistance of the Lamphere Schools in terms of safe zones and seeding areas. The ballfield diamond will not be removed based on the current design. The City of Wayne's pool, which was used in comparison to our proposed Community Recreation Center, is not significantly in that their facility is 127,000 square feet and includes a full ice arena. They do not have extensive senior programming and the only new portion of the building is their aquatic center. Operating the proposed Community Recreation Center will not be exclusively through daily admissions, memberships, programming and rental fees, but will make use of the senior millage, which would support the Senior Center portion of the building, along with moving the Recreation Budget and the hospital partnership lease to support operation costs. Any lawn signs for voting yes on the proposal are not provided by the City but through the proponent group the Citizens for A Community

Recreation Center. A report was provided to Council in August, 1999 that indicated the estimated cost of the Twelve Towns improvement would be a 4% to 6% increase in the water and sewer bill. Neither this Council, nor the other 14 Communities have discussed using property taxes to support the Twelve Towns Retention Facility improvements. He clarified that the quote attributed to him using the word "fixed" regarding the Twelve Towns improvements should have been the "best estimated".

Mayor McGillivray answered Ms. Hasho's question as to why her information pamphlets were not allowed at the Senior Center by stating that it is a long standing policy that political candidates and political issues are not allowed in the Senior Citizen Building.

Peggy Rachubinski, 29604 Howard asked where the City would get the money if the projected building costs exceed the $19 million and will the City come back and ask the voters to make up the difference should the facility lose money.

City Manager Austin replied that the Bond Proposal is a legal obligation of the City. The City will monitor the budget, just like our City Budget, and if there was a problem the City would implement efficiency measures, productivity improvements and program adjustments to bring expenses in line with available revenues.

334. Mayor and Council Requests and Comments.

Mayor Pro Tem Scott requested a Certificate of Recognition be prepared for the Masters Restaurant for their charitable work for the Community.

City Manager Austin stated that the City wants to answer all questions related to the CRC proposal and announced the third Focus Group meeting will be held at City Council in the Council Chambers, on October 20, 1999 at 7:00 p.m.

He stated that he visited the Lapeer Community Center and reminded everyone to vote on November 2, 1999.

344. City Manager – Community Recreation Center Status Report.

City Manager Austin gave a verbal report on the presentations received from potential health care partners, St. John's Health Systems Oakland Hospital and Beaumont Hospitals from Troy and Royal Oak and who both agreed to consider long term leases for 2700 to 3000 square feet of the Community Recreation Center. Both also agreed to move in their staff of from 10 to 12 employees, including physical therapists, occupational therapists, their assistants and exercise physiologist personnel. Who will serve their patients, Monday through Friday, from 40 to 50 hours and be available for both special events and community programming for both nights and weekends. Proposed services would include physical and occupational therapy, level three cardiac rehabilitation programs, therapeutic pool programs, fitness screening programs, blood pressure, nutrition review, body fat evaluation and health risk assessment. Programs for local businesses would include occupational health education, preventive services along with fitness evaluation and fitness prescriptions. Outreach programs would offer individuals rehabilitation programs for stroke, Parkinson's and multiple sclerosis, educational lectures on nutrition, cardiac care, respiratory problems, back and hand injury's, parental programs for developmental screening for children and childproofing the homes, children oriented programs such as the Explorer Scouts, babysitting classes, sports physicals, teacher workshops, smoking prevention and safety related programs. Senior programs on aging process, bone density, working with pharmacists, Alzheimer's, strokes, assistance devices and dementia. would also be available. Prevention programs for the general public would include: health fairs, health risks assessments, hearing screening and fitness evaluations, life style programming on smoking cessation, blood pressure control, body fat and nutrition and cholesterol control. Safety related programs such as infancy CPR and CPR and bike safety would be scheduled. Senior programming on geriatric fitness, flu shots, balance fall analysis, diabetes control and senior driving would be available.

The City would gain greatly from this partnership through advice provided by the hospitals from a Medical Advisory Board staffed by physicians and health professionals and they would offer to bring their state of the art patient care into our facility with the possibility of even research studies in our facility. In addition the City would gain through increased exposure to the patients, over a thousand patients per year estimated by each of the hospitals. Other benefits would include joint marketing and exposure through the physicians and medical staff of these institutions and related referrals. The Task Force anxiously awaits the outcome of the November 2nd election and desires to continue to work with the staff and the Council in establishing this innovative hospital partnership arrangement.

He also addressed the questions, brought up to him by City Council, regarding the Senior Center property and the property tax and the relationship to funding the bond program. As approved by the Senior Citizen Advisory Board the project calls for the Senior Center function to be moved into the CRC. The City does not need to sell the Senior Center and the property in order to fund either the $19 million bond issue or the ongoing operational costs, in fact, the City Council has directed the staff not to commit to any options regarding the disposal of the Senior Center building and property. The staff is recommending that we would involve the public, assuming a positive approval on November 2nd, a yes vote that is. The City would involve the public extensively with any decision regarding what to be done with the existing Senior Center site. Because all the options will be left open regarding the existing site, the seniors can continue to use that Center during the construction of the new CRC, estimated to be an 18-month to 2-year period. As explained throughout our project planning process and the many presentations that we have held there are debt millages for the current Police Station and the District Court and also some drain projects, which are expiring over the next two to three years. In addition the revenue which will be used for the project in addition to revenues captured from the northend tax increment development, this being the Target/Mervyn's Development at Whitcomb and John R, this money would be used by the City to be used toward the debt service on the $19 million bond issue. Using these revenues the City will be able to fund the $19 million construction cost with no increase to the current milleage level. Of course these revenues will be subject to refund to the residents or in terms of reduce milleage if the CRC is not approved. For the average home value, which in Madison Heights now has a market value of $110,000, the potential reduction in the milleage if no bonds are approved and the ballot proposal fails, would be $27 per household per year or between $540 and $675 over the term of the bond, which is expected to be between 20 and 25 years.

Patty Mier, 30328 Yorkshire stated that voting for the Mayoral candidate of the voter's choice will not affect the outcome of the Proposal CRC if it passes or fails.

Jacqueline Bonk, 27372 Alger inquired as to how many of the surveys were sent out and the responses. City Manager Austin stated that 13,000 were sent out; 16% response rate that is about 2,000 people.

Steven Jacob, 2 Ajax Drive, owners of Madison Athletic Club, stated that he opposes the CRC because it does not benefit all the citizens. He also suggested that the $1800 should be given back to the 10,500 homeowners.

City Manager Austin clarified that the $19 million is the principal for the bond issue which would be funded through property taxes and currently the city's property tax breakdown is 60% non-residential, 40% residential and that the City has 13,000 household.

Donald Bessler, 27327 Alger stated that he favored the CRC Bond Proposal and that the school pools could not offer programs of the same time and schedule as the CRC.

John Pulice, 30869 Avondale objected to the campaign literature that states it would cost a household $1800 when in fact it would not and that the individual fees would be $3.50 to $4.50 not $8.00 as promoted by the opposition.

Gary George, 1735 Castlewood stated that he favored a Community Center but opposed the proposed CRC because of the high existing taxes. He also stated that the current location is not what he feels the people want because they want no change to the existing sled hill and a central location for a community center.

Olivia Gorial, 29820 Milton, Co-Chair of Citizens for Fiscal Responsibility inquired about the marketing budget and what was the estimate that has been allocated to inform the citizens. She also objected to the proponents who are accusing them of using propaganda or slandering and profanity in their literature. She also inquired how are the moneys going to be retrieved if the ballot proposal fails.

City Manager Austin stated that the City has a responsibility to inform the 33,000 citizens and 2,000 businesses about the ballot proposal. The City has spent $5,000 to produce the newsletter that was sent to every home, 32 presentations and $3,000 for the video on cable TV. These funds are from the General Fund and designated for this use. The City has a two-part contract with the architect TMP Architecture; one runs through the election and than after the election the city is not obligated to pay them if the ballot proposal does not pass; if it passes the City would continue with the firm for the design of the facility.

Amy Bessler, 27327 Alger stated that she has been unable to contact anyone from the Citizens for Fiscal Responsibility and the proposed Community Recreation Center would not compete with the gyms in the area and that the CRC would provide a pool, jogging track, senior accessibility and children activities. She also inquired to Councilman Turchin how he would propose to fund the location of a Youth Center. Councilman Turchin declined to answer that question but would answer it at the proper forum at Meet the Candidates tomorrow night.

Lee Hasho, 907 East Farnum, member of the Citizens for Fiscal Responsibility stated that her phone is unlisted but that anyone can contact here as she attends all the City Council meetings. She also urged that the antagonism between the two groups stop and to let the citizens decide on Election Day.

Caresse Kuhlmann, 27766 Rialto stated that she that she will vote No.

Robert Maten, 31512 Kenwood stated that the pools at the schools are strictly lap pools and does not offer children an area to play, as well as no water aerobics. He noted that the survey was valid measurement tool.. He also stated that viewing your tax bills you should look at the City, the School and the County portions.

Steven Gralka, 27786 Brush stated that he was opposed to the CRC because of the needed work on our library, roads, fire equipment, police cars and city cars as well as the Twelve Town Drainage Project. He also requested that the Council members tell the audience if they are in favor of the CRC or opposed to it.

Lorraine Hardy, 68 West Brockton stated that she was opposed to the CRC because she feels the City would not be able to afford it. She stated that there should be a center for children.

Marvin Henderson, General Manager of Madison Athletic Club, 2 Ajax Drive stated that both sides of the issue should be given to the voters.

Dan Bryant, 675 Lloyd thanked City Manager Jon Austin for putting together the staff to work for CRC proposal and that he did an outstanding job.

346. Mayor/Council Comments and Requests.

Councilman Turchin thanked Nick Andreopoulos, owner of the Masters Restaurant for their generosity to the community. He thanked the Fire Fighters Association for their sponsorship of the prizes for the working smoke detector program and congratulated the winners of the bicycles. He announced that he was recently elected as Treasurer of the Oakland County Youth Coordinating Council. He thanked the residents for their input on the CRC proposal and stated his decision was based on the information he received after careful study and his opinion that City could not afford this type of program and urged everyone to vote on November 2nd.

Councilman Mac Lean thanked the Fire Fighters Association for the bike awards and Masters Restaurant for their participation in fundraisers for the community. He also stated he went on record as a no vote on proposal CRC because in his opinion the City will not be able to afford it and he is looking toward funding for library, future development of the Fire Department and equipment.

Councilwoman Russell apologized to Mrs. Bonk for the harsh from someone in the audience at the last Council meeting. She stated that City Manager Jon Austin is honest and has a fine character and that the City Manager does not work without a majority vote of Council and has done nothing that he was not instructed to do.

Councilman Clark announced the League of Women Voters with the Jaycees will host a Meet the Candidates night in the Council Chambers on Tuesday, October 26, 1999. He requested a Certificate of Recognition be prepared and presented at the Tree Lighting Ceremony on November 22, 1999 to Dick and Mary Sliwoski, who play Mr. and Mrs. Santa Claus. He also stated that he was in favor of the CRC.

Mayor Pro Tem Scott requested a Certificate of Appreciation be prepared for Marsha Morgan a member of the Chamber of Commerce Board. She announced that the Madison Heights Rotary Club would host the Fire Fighter of the Year Award on Thursday, November 4, 1999. She stated that this Community Center will be able to serve everyone in the community and urged everyone to vote on November 2, 1999.

Councilman Fisher stated that City Manager Jon Austin is doing a good job and that the $30 a year per household will allow the seniors a lot more than they have as well as the children of this community.

Councilwoman Russell requested a Certificate of Appreciation be presented to former Lamphere School Board member Donald Nagel.

Mayor McGillivray reviewed the process of how the Community Center and the ballot proposal were developed; through a Goals Meeting of City Council, a Task Force created by residents and a survey was sent to all residents and now it is in the hands of the voters to decide. He stated that the City Manager, Council and the members of the Task Force were doing their jobs. If this proposal fails he would hope that everyone in attendance would be willing to work on an alternative to the CRC.

347. Reappointments – CIP Review Committee/Compensation Commission and Crime Commission.

WHEREAS by administrative fiat, the State Tax Commission has adopted special composite multipliers that must be used in calculating the ad valorem tax assessment of gas and electrical utility transmission and distribution systems throughout the State of Michigan; and

WHEREAS in violation of constitutional equal protection and uniformity in taxation requirements, the adopted multipliers greatly undervalue the taxable property of utility companies; and

WHEREAS the special utility tax breaks reduce by over one hundred million dollars the local revenues necessary to support essential services provided by schools, community colleges, parks, public safety and other units of local government; and

WHEREAS the special utility tax breaks unfairly shift significant tax burdens from utilities to other Michigan businesses and citizens, forcing either increases in local taxes and/or severe reductions in educational, recreational, public safety or other local governmental services; and

WHEREAS it is estimated that application of the special utility multipliers will cost the City of Madison Heights, for cases presently pending before the Michigan Tax Tribunal over two hundred thousand dollars ($200,000) plus interest in refunds and annually over sixty four thousand four hundred and twenty dollars ($64,420) thereafter; and

85. Jaycees – 2000 Fair Location.

Mr. Tony Bliss, Jaycee President and David Little, Past President, stated that due to the current location of the Fair on the north of the District Court Building the Jaycees have lost money on the event because it is not visible to 13 Mile, John R or I-75 and the related reduction in the number of large carnival rides. Because of lost revenue they are unable to fund many of their programs. Mr. Bliss stated that only tents and small kiddie rides will be located on the Civic Center soccer fields closest to 13 Mile and that the heavier carnival rides and concession stands would be located off the fields to minimize damage to the soccer fields.

Motion by Councilwoman Scott, supported by Councilwoman Shad, to grant the request from the Jaycees to relocate the Jaycees Fair, to be held from May 24 to May 29, 2000, to the soccer field area of Civic Center Park.

He also asked for citizen volunteers to consider applying for the Library Advisory Board which will be activated in a few months, and wished everyone a happy St. Patrick's Day.

Councilwoman Shad congratulated DiAnne Leitermann and Donald Nagel for receiving the National School Boards Association Award. She further encouraged citizens to fill out their Census 2000 forms, which are being received in households this week, because the results of the Census directly affects the share of Federal and State funding received by the City.

Councilwoman Russell asked that the Police Chief, City Attorney and City Manager report back on the feasibility of an ordinance similar to an Ohio Ordinance, that prohibits drivers from using their cell phone at the same time they operate their car. She also asked for a brief overview by the City Manager about the I-696 and 11 Mile Road closings for road repairs and the timing of traffic lights on 12 Mile; and wished everyone a happy St. Patrick's Day.

City Manager Austin stated that the Oakland County Road Commission and the City's Traffic Safety Committee have been asked for a review of traffic exiting southbound I-75 onto 12 Mile, that the water main project on Dartmouth has started, in addition to the I-696 and 11 Mile Road closings have increased traffic and Oakland County has been requested to speed up the installation of the SCATS system on 12 Mile.

Councilwoman Russell requested that the City Manager provide monthly updates on the 11 Mile Road closure for the public.

Councilman Clark asked about the status on the repair of the house on 1515 Elliott that exploded. City Manager Austin stated that Fire Chief Martin informed him that the site portion of the investigations have been completed and that the insurance company, Allstate, will be moving ahead on clean-up and repairs.

Councilman Clark further stated that the Council and the City are more than willing to help the Jaycees with the problem of where to locate the Fair, but that Council must also consider the three or four other cities that use the soccer fields.

Councilwoman Scott concurred with Mr. Clark that a new location needs to be found for the Jaycees and recognized, as the persons who make Madison Heights a better place to live, the volunteers that are participating in the "Drop Everything to Read" program which will be held at 1:00 p.m. this Friday (March 17th) and encouraged all citizens to support the Library. She further asked what could be done to assist the businesses on 11 Mile near I-75 while the 11 Mile bridge work is being done. City Manager Austin stated that the State has been contacted and that the highway ramps are scheduled to be opened the first week in May. He encouraged citizens to go a little out of their way to frequent those businesses near 11 Mile and I-75 to help minimize the impact.

Councilman Fisher thanked the Madison Heights Jaycees for the Mardi Gras party they sponsored for the senior citizens on March 3rd.

Mayor Swanson welcomed the new businesses that have located in the City.

Tony Bliss, 29056 Tawas, President of the Jaycees, welcomed the students and thanked the City for participating. He also commented that the City Council should be publicly united in their position on issues.

Edsel Parker, 30151 Alger requested if the City could investigate the repairs the City made to his property during a watermain break and enforce repairs on the homeowner. City Manager Austin stated that the City would investigate.

Gary George, 1735 Castlewood requested that the proposed cellular phone ordinance consider the use of other options such as the higher tech hands-free phones that prohibiting cellular phone use would restrict the way people do businesses. Councilwoman Russell stated that the City Attorney, City Manager and Police Chief have been directed to gather information on cellular phones. She also stated that within the next 2 weeks a Web Page will be available to display the data gathered, e.g. the San Diego Study and it will ask questions and comments of the citizens.

Eugene Kaczmar, 31430 Meadows, stated that the construction of the North Arm Relief Drain has created a safety hazard, the roads are being damaged and that the City, as the host community, is not being reimbursed enough from this project, as well as future projects such as the George W. Kuhn Drain.

Sue Herrst, 881 East Harwood stated the construction of an adjacent house has created drainage problems in her yard and she is opposed to the installation of a drain in her yard. A new concrete sidewalk replacement was damaged by a watermain break and the sod was not replaced which caused her driveway to crack. Councilwoman Russell requested a report from the City Manager for the next Council meeting.

97. <u>Kendall School.</u>

Robert Maten, 31512 Kenwood, representing Reverend Patricia Green and the parishioners of the United Methodist Church, 246 East 11 Mile Road, requested that Council only consider, in the City Manager's report, the first two options for the Kendall School: to formally accept the donation and select a location; or refer the matter to the City's Historical Commission and request the Church to grant additional time. He also stated his concerns that the newspapers were informed about this item being on tonight's Council agenda before the parishioners. City Manager Austin clarified that Councilman Corbett requested options be given to Council for consideration and the options were not as offered by Councilman Corbett. Tony Bliss, 29056 Tawas favored the Kendall School purchase and locating at the Nature Center. Reverend Patricia Green, 31711 Kenwood stated that the City should reconsider the original proposal to move the building along with the steeple and the bell. Gary McGillivray, 926 Tanglewood, favored moving the Kendall School to the Nature Center and to construct a basement for storage. Stuart Dibley, 29485 Tawas stated that the Kendall School is in good shape and perhaps the Church would let the City keep it on the church's property and move it at a later date. He also stated that the Church would be opposed to the removal of just the steeple and the bell. DiAnne Cagle Leitermann, 27399 Brettonwoods, requested the City keep the Kendall School. John Pulice, 30869 Avondale stated that businesses would probably take an interest in the school and that he would offer a donation. C.A.R.E.) regarding their opposition to an auto race track being constructed at the State Fairgrounds on the corner of 8 Mile Road and Woodward in the City of Detroit, due to its close proximity to primarily residential communities. They are also contacting the cities of Southfield, Royal Oak and Hazel Park for their support. He requested that Council adopt a resolution like the ones by Detroit, Ferndale and Pleasant Ridge.

RESOLUTION

WHEREAS, The City of Madison Heights, like its neighboring cities in southeast Oakland County, is empowered to enact and enforce policies, ordinances and contracts to maintain and enhance the health, safety and welfare of local residents; and

WHEREAS, public and private entities announced plans to develop and construct an automobile racetrack and entertainment venue at the Michigan State Fairgrounds; and

WHEREAS, the City of Madison Heights has several concerns about the proposed development, namely the impact of excessive noise, traffic and crowds on the quality of life and property values in the surrounding neighborhoods as well as the increased cost of public safety;

WHEREAS, by supporting construction of this racetrack, the State Legislature restricts, preempts and overrides municipal policies, ordinances and sharply erodes municipal home rule authority;

NOW, THEREFORE, BE IT RESOLVED, that the City of Madison Heights opposes any development in the Michigan State Fairgrounds that fails to adequately address and resolve the quality of life concerns of the surrounding residents of the City of Detroit and affected communities; and opposes preemption of local home rule by the State of Michigan in all matters that affect the health, safety and welfare of local residents;

BE IT FURTHER RESOLVED, that a copy of this resolution be forwarded to Mr. Joseph Nederlander, Governor John Engler, John Hertel - General Manager of the State Fairgrounds, Mr. Dan Wyant - Director of Department of Agriculture, State Representative David Woodward, State Senator Shirley Johnson and our neighboring communities.

ORDINANCE 994

AN ORDINANCE GRANTING AN ELECTRIC FRANCHISE TO QUEST ENERGY, L.L.C.

THE CITY OF MADISON HEIGHTS ORDAINS:

Section 1. GRANT OF FRANCHISE.

The City of Madison Heights, 300 W. 13 Mile Road, Madison Heights, MI 48071 ("City"), grants to Quest Energy, L.L.C., a Michigan Corporation, 2075 West Stadium, PO Box 3830, Ann Arbor, MI 48106-3830,

("Grantee"), its successors and assigns, a limited non-exclusive franchise to supply electricity over electrical lines operated by another authorized public utility in the City for a period of three (3) years and to continue thereafter unless and until this franchise is revoked in accordance with Section 9 below.

Section 2. CONDITIONS.

(A) As an electric power marketer and third-party supplier of electricity, Grantee may not directly transmit or distribute electricity, to any customer in the City, nor impair or attempt to control or occupy any streets, alleys, or public places, nor engage in any construction in any public street, alley, or other public place or right-of-way.

(B) Grantee will indemnify and hold harmless the City from any and all judgments, damages, decrees, losses, costs and expenses, including attorney fees, which the City may incur or which may be legally obtained against the City resulting from the negligent or wrongful exercise by the Grantee of any of these privileges.

(C) The City may establish reasonable standards of service, prevent unjust discrimination in service, products or rates, and impose any other regulations as may be determined by the City Council to be conducive to the safety, welfare and accommodation of the public. Grantee shall be and remain subject to all ordinances, rules and regulations of the City now in effect, or which might be adopted. In the event Grantee declines to remain subject to ordinances, rules and regulations of the City which might be adopted, it shall so notify the City and this franchise will immediately be revoked.

(D) Grantee will endeavor to provide continuous and uninterrupted service to its customers throughout the entire period of the Franchise, provided that its customers faithfully perform all of their duties and obligations under any contracts with Grantee. In the event any of Grantee's customers breaches its contract with Grantee, with respect to that customer Grantee will be relieved of its continuous and uninterrupted service obligation under this section. It is understood that Grantee cannot guarantee continuous and uninterrupted service in the event of force majeure outside of its control or interruptions due to transmission or distribution constraints caused by or resulting from the authorized public utility through and over which electricity is being supplied to customers.

Section 3. RATES.

Grantee may charge its customer(s) for electricity and electrical services at rates that are mutually agreeable to Grantee and its customers, subject to the parties' agreement that they will abide by all applicable federal and state laws and Michigan Public Service Commission Regulations.

Section 4. INSURANCE.

(A) The Grantee and any contractor hired by the Grantee may not commence marketing electricity, as permitted by this Ordinance, until it has obtained the insurance required by this Section. All insurance coverage shall be with insurance carriers reasonably acceptable to the City. If any insurance is written with a deductible or self-insured retention, the Grantee or its contractor shall be solely responsible for said deductible or self-insured retention. The purchase of insurance and the furnishing of a certificate of insurance shall not be a satisfaction of the Grantee's duty to indemnify the City. The Grantee and any contractor shall procure and maintain during the term of the Franchise the following coverage:

(1) Workers Compensation Insurance in accordance with all applicable statutes of the State of Michigan. Coverage shall include Employers Liability Coverage.

(2) Commercial General Liability Insurance on an “occurrence” basis with limits of liability not less than $1,000,000 per occurrence for bodily injury and Personal injury, and $1,000,000 per occurrence for Property Damage. Coverage shall include the following extensions:

1. Contractual Liability
2. Products and Completed Operations
3. Independent Contractors Coverage

He also advised the Church members that the City has made a grant application from the State's Arts, Cultural, and Quality of Life Grant Program in the amount of $327,900 to fund both the moving of the Kendall School and the acquisition of land to located the school on. The State received an overwhelming response of 500 application to this grant request and their tentative timetable is to have the grant award recipient selected by early September with the funding made available after October 1, 2000.
Councilwoman Russell noted that the Madison School District is not interested in assisting the City with the location of the Kendall School because of objections of using tax money. She stated that she is willing to

help the Church take the school down but is opposed to relocating it in the Lamphere School District and/or at the Nature Center and the City could build a replica cheaper than the existing one, with the cost of relocating, buying land and renovations.

After a lengthy discussion, Council decided that the Council should consider establishing a Liaison Committee sometime in the near future to continue discussions with the Church.

226. Cellular Phone - Resolution Urging Federal and State Action.

Motion by Councilwoman Russell,
Supported by Councilman Corbett,

RESOLUTION URGING FEDERAL AND/OR STATE GOVERNMENT TO CONDUCT STUDIES TO QUANTIFY THE RISKS ASSOCIATED WITH THE USE OF CELLULAR TELEPHONES WHILE DRIVING AND CONSIDER ADOPTION OF APPROPRIATE FEDERAL AND/OR STATE LEGISLATION

WHEREAS, at the March 13, 2000 Madison Heights City Council Meeting, Council Member Marilyn R. Russell requested that the City Staff investigate the feasibility of adopting a City Ordinance regulating the use of cellular telephones while driving in motor vehicles; and,

WHEREAS, a Cell Phone Legislative Research Subcommittee was formed consisting of City Manager Jon Austin, Assistant City Manager Ben Myers, Police Chief Robert Blickensdorf, Deputy Police Chief Kevin Sagan, Special Telecommunications Counsel Neil Lehto, Esq., and City Attorney Larry Sherman, Esq., to investigate the feasibility of adopting a City Ordinance regulating the use of cellular telephones while driving in motor vehicles; and,

WHEREAS**,** a Cell Phone Usage Survey was prepared and posted on the World Wide Web, the results of which indicated that of the 67% of respondents who supported a law that would restrict cell phone usage, 50% favored State Legislation, 31% favored Federal Legislation, and 19% favored City Legislation; and,

WHEREAS**,** a National Highway Traffic Safety Administration Study estimates that there are over 80 million cellular telephone users in the United States, 85% of whom use cellular telephones while driving in motor vehicles; and,

WHEREAS, a *New England Journal of Medicine* Study dated February 13, 1997 found that the use of cellular telephones in motor vehicles quadruples the risk of a collision during the making of a cellular telephone call, and that this risk is similar to that associated with driving a motor vehicle with a blood alcohol level at the legal limit; and,

WHEREAS, the *New England Journal of Medicine* Study indicates that there is no safety advantage to hands-free cellular telephones as compared to hand-held cellular telephones, since the research suggests that the general distraction of being engaged in a cell phone conversation while driving is far more often to blame than whether the cell phone is hand-held or hands free; and,

WHEREAS**,** notwithstanding the foregoing, the *New England Journal of Medicine* Study cautioned against "interpreting our data as showing that cellular phones are harmful and that their use should be restricted;" and,

WHEREAS**,** there is a need to quantify the risk, based upon a compilation of past and current statistical information associated with the use of a cellular telephone while driving a motor vehicle; and,

WHEREAS**,** as of January 1, 2000, the Michigan State Police (MSP) has begun to compile statistics covering accidents where cellular telephone use is considered a factor, and the MSP has changed its UD-10 Traffic Accident Report Forms to include a section which indicates, "Driver Using Cell Phone;" and,

WHEREAS, the goal of reducing the number of distraction-induced motor vehicle accidents related to use of a cellular telephone, must be weighed against the benefits of using a cellular telephone while driving in a motor vehicle such as: reporting emergencies, car trouble, criminal activity, drunk drivers, accidents, and/or the conveniences associated with the

ability to conduct business while driving and telephone communication with family members; and,

WHEREAS, at least four (4) municipalities across the country have adopted local ordinances which prohibit the use of hand-held cellular telephones while driving a motor vehicle; and,

WHEREAS, the authority and advisability to adopt a local ordinance regulating the use of cellular telephones while driving a motor vehicle may be questioned due to the lack of sufficient statistical data; and,

WHEREAS, there could be a legal challenge to such an ordinance based upon a claim that State and Federal Law might preempt a Local Ordinance regulating the use of a cellular telephone while driving; and,

WHEREAS, a patchwork of local ordinances regulating the use of cellular telephones while driving would not provide for uniform regulation and would not be a viable means of solving any increased risk of a motor vehicle accident; and

WHEREAS, certain restrictions on cell phone usage have been adopted in the States of California, Florida and Massachusetts; and,

WHEREAS, State of Michigan Senate Bill No. 1015 provides for the issuance of a citation for the use of a hand-held cellular phone when the driver has been stopped and ticketed for another violation; and

WHEREAS, State of Michigan House Bill No. 5567 provides for the addition of one (1) point to each moving violation where the citation indicates that the use of a cellular telephone contributed to the cause of the violation.

NOW, THEREFORE, BE IT RESOLVED, that the City of Madison Heights strongly urges the U.S. Congress, the Michigan Legislature and Cell Phone Providers to: 1) allocate funds necessary to conduct comprehensive studies; 2) begin a campaign to educate the public to use cellular telephones while driving in a responsible manner and make safety of the public the first priority; and 3) to consider the adoption of appropriate Federal and/or State Legislation regulating the use of cellular telephones while driving in a motor vehicle.

BE IT FURTHER RESOLVED, that copies of this Resolution shall be sent to: U.S. Senator Carl Levin, U.S. Senator Spencer Abraham, U.S. Representative Sander Levin, Governor John Engler, State Senator Shirley Johnson, State Representative David Woodward, Cellular Telephone

Industry Association, Michigan Municipal League, and surrounding communities.

Yeas: Russell, Scott, Clark, Corbett and Fisher.

276. Public Hearing - Special Approval at 30569 Dequindre Road.

A public hearing was held to hear comments, if any, to permit the use of a Vietnamese restaurant at 30569 Dequindre Road. Robert Volenski, 30600 Manor inquired as to the location of the dumpsters. Community Development Director Schafer stated that the previous location of the dumpster was an ongoing problem and recommendation would be to locate the new dumpster immediately adjacent to the proposed restaurant location and/or a compactor, which would eliminate the problem. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Shad,

WHEREAS, a Special Approval Board application has been received from Dung The Le, 26193 Merideth, Warren, Michigan 48091, requesting to use the property at 30569 Dequindre Road for a Vietnamese style restaurant, said property is zoned B-1, Local Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on August 11, 2000, and 61 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: West Side of Dequindre between 13 Mile and Oakland.

REQUEST: Special Approval for a Vietnamese Restaurant, under Section 10.319(4) of the Zoning Ordinance.

EXISTING ZONING: B-1 Local Business

EXISTING USE: Vacant tenant space in existing commercial retail center

STAFF ANALYSIS:

1. Eating and drinking establishments (restaurants) require Special Approval by City Council in the B-1 Local Business District.

2. A 1,500' separation is required between restaurants unless Special Approval is granted by City Council and the Zoning Board of Appeals grants a variance. This site does not meet the 1,500' separation requirement and, accordingly, a variance is required. Please note that Council must act on the Special Approval prior to consideration by the Zoning Board of Appeals.

3. Hours of operation:

Present: Mayor Swanson, Mayor Pro Tem Clark, Councilmen Corbett and Fisher, Councilwomen Russell, Shad and Scott. City Manager Austin, City Attorney L. Sherman, and City Clerk Flack.

Absent: None.

The invocation was offered by Councilman Fisher, and was followed by the Pledge of Allegiance to the Flag.

320. Presentation - Bear Creek Display.

Jeanna Paluzzi, Executive Director of the Clinton River Watershed Council (CRWC) made a presentation on the Bear Creek Drain and donated two displays to the City to help provide public environmental awareness.

321. Ordinance 998 - Public Hearing - DENIED.

City Manager Austin read the Staff Analysis report from Community Development Director Schafer and the resolution adopted by the Plan Commission at its regular meeting held on August 15, 2000, as follows:

Staff Analysis:

1. The existing land use patterns north of the existing mobile home park are single family platted lots, zoned R-3, Single Family and planned for Single Family residential uses.

2. The existing R-3 zoning classification permits single family residential developments on 50' wide lots with a minimum lot size of 5,500 square feet. All four lots that are the subject of this request exceed these standards. The proposed H-M classification would permit 3,000 square foot lots, with 10% of those lots permitted to be reduced to 2,700 square feet.

3. The applicant has submitted a site plan that reflects a ten-unit expansion on "lots" which range in size from 5507.97 square feet to 8255.43 square feet. At the zoning stage, site plans are demonstrative only. The H-M zoning classification would allow the full range of Principal Uses Permitted in the district. Therefore, mobile home units on 3,000 square foot and 2,700 square foot "lots" would be permitted. At the rezoning stage, there is no method of requiring compliance with site plans.

4. State law establishes statewide regulations for the design and construction of mobile home parks. Therefore, the City substantially will not have control over the design and density of the proposed addition.

5. The proposed rezoning would be compatible with the adjacent mobile home park to the south. However, a northerly expansion of the park would extend higher density residential uses into a single-family residential area that is planned, zoned, used and platted for single-family residential uses. The current northerly property line of the existing H-M District serves as a logical and consistent delineation between the existing zoning classifications. This proposed rezoning would not be compatible with the existing single family residential areas to the north.

6. The subject parcel could be developed with single-family homes under the current zoning in conformance with the R-3 standards. The existing zoning does not prevent a reasonable use of the subject property.

Recommendation:

Staff recommends denial of this request. The subject parcel can be used reasonably under the current zoning classification for single family residential. This proposed rezoning would not be compatible with the existing single family residential areas to the north which are planned, zoned and used for single family residential purposes. The current northerly property line of the existing H-M District serves as a logical and consistent delineation between the existing zoning classifications and uses in the area.

RESOLUTION – MADISON HEIGHTS PLAN COMMISSION

Motion by Commissioner Austin,
Supported by Commissioner Pulice,

Whereas, a request has been received from the Madison Heights Limited Partnership to rezone Lots 100 through 103 of Dequindre Woods Subdivision from R-3 Single Family Residential to H-M Mobile Homes, and

Whereas, the Community Development Department submitted a report to the Commission giving the staff's analysis of the site and recommending denial of the request, and

Whereas, a duly advertised public hearing was held by the Commission at which time there were two persons who spoke in favor of the request and fourteen residents opposing the rezoning,

Now, therefore, be it resolved, that the Madison Heights Planning Commission hereby recommends to City Council that the following described property not be rezoned in that

1. The existing land use patterns north of the existing mobile home park are single family platted lots, zoned R-3 Single Family and planned for Single Family residential uses.

2. A northerly expansion of the park would extend higher density residential uses into a single-family residential area that is planned, zoned, used and platted for single-family residential uses. The current northerly property line of the existing H-M District serves as a logical and consistent delineation between the existing zoning classifications. This proposed rezoning would not be compatible with the existing single family residential areas to the north.

3. The subject parcel could be developed with single-family homes under the current zoning in conformance with the R-3 standards.

The existing zoning does not prevent a reasonable use of the subject property.

That Lots 100 through 103 of Dequindre Woods Subdivision not be rezoned from R-3 Single Family Residential to H-M Mobile Homes.

Motion carried by unanimous vote of the Plan Commission.

A public hearing was held to hear comments, if any, for the rezoning of Lots 100 through 103 of the Dequindre Woods Subdivision from R-3 single Family Residential to H-M Mobile Homes. Alan Green, 1577 North Woodward Avenue, Bloomfield Hills, Michigan, representing the applicant, John Rogosich, Madison Heights Limited Partnership, 875 N. Michigan Avenue, Suite 3800, Chicago, Illinois 60611 made a presentation regarding the proposed rezoning. A letter was received from Gerald and Nancy Skidmore, 1824 E. Greig, dated September 18, 2000 objecting to the rezoning. John Jacobs, 1624 Middlesex, objected to the request because the City would have no control of the site plans, as stated in the Community Development Report, another exit would be needed for emergency services and it would increase traffic inter, 26421 Nanton opposed the rezoning because of the increase in activity along Dequindre Road and the trees that act as a noise barrier would be eliminated. David Larkin, 1634 Middlesex opposed the rezoning because of the increase in traffic. Jose Acquino, 26401 Nanton, opposed the rezoning because it would depreciate the values of the homes and does not benefit the community. Alex Matzkvich, 1645 Middlesex, inquired if the new tenants of the park would park on Nanton and walk into the trailer park. Michele Becking, 1624 Greig, opposed to the rezoning because the possible depreciation of her home's value and the trailer park is not kept up. There being no further comments, the public hearing was closed.

Councilwoman Russell stated that a review of the site plan provided by the Community Development Department indicates that the parcel is behind our current business and commercial frontage on Dequindre. Therefore, this request abuts into the residential area. The area is currently zoned R-3 Residential and there is no reason to change it. The Master Plan shows that it has already been planned, zoned, used and platted for residential, and the proposed re-zoning would not be compatible with existing single family residential area.

Councilman Corbett indicated that Council had received the letter offered by the Petitioner from the contractor, and asked since the Petitioner had asserted that the ten units were appropriate in an R-1 or R-3 zoning use, why was it necessary for this area to be re-zoned to an H-M District. The Petitioner responded that, based upon City Ordinances, he felt this was the

best approach. Councilman Corbett further stated that Petitioner presented quite a bit of information explaining stick-built versus manufactured housing. Councilman Corbett stated he had no opinion one way or another regarding that issue, but that existing R-3 zoning classifications allow for the development and use of manufactured homes. Petitioner did not establish the inadequacy of the established zoning to accommodate this type of development. Further, Councilman Corbett stated that Petitioner had indicated that entry to his development would be by way of Dequindre and not Nanton. Councilman Corbett stated that this fact would identify the development with the mobile home park, and not with the residential area.

Councilwoman Scott indicated that although these were larger homes and the City could not ignore the need for affordable housing, and she could not ignore the concerns of the residents as presented to City Council.

Motion by Councilwoman Russell, supported by Councilwoman Shad, that Ordinance 998, rezoning of Lots 100 through 103 of Dequindre Woods Subdivision from R-3 Single Family Residential to H-M Mobile Homes, be denied.

Yeas: Clark, Corbett, Fisher, Russell, Scott, Shad and Swanson.
Nays: None.

322. Special Approval – 30071 Dequindre Road - DENIED.

A public hearing was held to hear comments, if any, to permit the use of a church and associative parking at 30071 Dequindre Road. Bill Moustakeas, representing Precis Incorporated, 5093 Williams Lake Road, Waterford, Michigan 48329 designers and contractors, representing Liberty Christian Church, 236 East 13 Mile Road, Royal Oak, presented a concept drawing of the proposed church and parking. Pastor Terry Frasier was present and stated that the proposed building would double in size from the present building. He also stated that expansion goals would not be necessarily on the same site but be a goal to be located on adjacent property or off site. Bill Huffman, 30151 Dequindre stated that he represents 5 of 9 acres on Dequindre Road and is opposed to any spot development and it would not benefit the interest of the City or the property owners. He also requested if Council would consider an ordinance if a house is abandoned for three years and can not meet the codes that it be demolished. Charles Maloney, 713 Eastlawn, and Jim Morrison, 30585 Manor, representing the Knights of Columbus, 30171 Dequindre, objected to the request because it would have a negative impact on their property. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Russell,
Supported by Councilwoman Shad,

WHEREAS, a Special Approval Board application has been received from Terry Frazier, 236 E. 13 Mile Road, Royal Oak, Michigan 48073, requesting to use the property at 30071 Dequindre Road for a church and associated parking, said property is zoned R-2, One-Family Residential, and

WHEREAS, a public hearing was advertised in the Daily Tribune on September 12, 2000, and 93 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: West side of Dequindre between Oakland and Moulin.

REQUEST: Special Approval for a Church, under Section 10.307(5) of the Zoning Ordinance.

EXISTING ZONING: R-2, One-Family Residential

EXISTING USE: One Single-Family home and vacant adjacent lot

STAFF ANALYSIS:

1. The applicant proposes to demolish the existing single-family home and accessory buildings to construct a church and associated parking.

2. Churches require Special Approval by City Council in the R-2, One-Family Residential District.

3. The preliminary site plan calls for a 12,000 square foot building fronting on Dequindre, with associated parking to the north and west. A 45' wide greenbelt is shown between the westerly property line, between the adjacent residential area and the proposed parking lot. While not shown on the preliminary site plan, an 8' masonry screen wall is required where the proposed parking lot is adjacent to residential zoned property. Therefore, under the current zoning, a screen wall is required on the north, south and west property lines adjacent to the proposed parking lot.

4. The letter accompanying the application discusses the range of ancillary uses proposed for the facility. These include a 400 seat auditorium for church services and presentations, classrooms for youth programs, counseling, education and the like, a food and clothing storage area, and a small kitchen for food distribution. Future goals include a gymnasium and recreational center that would also serve as a banquet facility, and a full sized kitchen / storage area for food storage and distribution.

5. This office has had several inquiries over the last 1-2 years regarding development options for this site and the adjacent parcels north and south. Those inquiries have all centered on either residential (single family, multiple family condominium) or office uses, with the goal being accumulation of the parcels for a single development proposal. Private efforts to accumulate the parcels for a unified development have not been successful to date.

6. Should Council consider approval of this request, the following conditions are recommended:

   - ❑ Site Plan review and approval by the Planning Commission
   - ❑ Submittal of a detailed landscape plan and floor plan for site plan review
   - ❑ Installation of 8' screen wall on west, north and south property line adjacent to parking lot
   - ❑ Rear yard 35' setback area limited to landscaping / open space.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.307(5) of the Code of Ordinances hereby denies the request because this parcel would be better suited for single family and/or condo development and it would not be harmonious to the surrounding area.

Yeas: Corbett, Fisher, Russell, Scott, Shad, Swanson and Clark.
Nays: None.

323. Meeting Open to the Public.

WHEREAS, the City of Madison Heights is a Michigan Municipal Corporation, duly and legally incorporated under the provisions of 1909 Public Act 279; and

WHEREAS, in 1956 the City of Madison Heights became a part of the Southeastern Oakland County Resource Recovery Authority (SOCRRA) under Section 7 of 1947 Public Act 179; and

WHEREAS, until July, 1997 the City of Madison Heights delivered all of its municipal solid waste and other waste materials to SOCRRA for processing and/or disposal; and

WHEREAS, in July, 1995 the Madison Heights' City Council determined that it could achieve meaningful cost savings by delivering and disposing of its municipal solid waste elsewhere; and

WHEREAS, since 1997 the City of Madison Heights has disposed of its municipal solid waste and other materials elsewhere and has in fact experienced meaningful cost savings as compared to what SOCRRA charges; and

WHEREAS, from 1955 to 1988 the City of Madison Heights was a host community for SOCRRA's solid waste incinerator and from 1988 to the present has been a host community for a SOCRRA solid waste transfer station; and

WHEREAS, SOCRRA's facility in the City of Madison Heights has been and continues to be a constant odor, noise and traffic nuisance and a threat to the health, safety and welfare of the residents of the City; and

WHEREAS, the City of Madison Heights believes that it was an oversight of the State legislature in 1947 to fail to provide for a mechanism whereby SOCRRA may be dissolved if it ceases to effectively serve the purposes for which it was created; and

Councilwoman Shad reminded everyone that Halloween is October 31st and that the St. John Oakland Hospital Radiology Department will be screening candy from 5:30 p.m. to 10 p.m.

Day because of the many businesses who could participate but are busy this time of the year with the Holiday Season. She also extended her congratulations to Tom Williard, reporter from The Daily Tribune who won second place in a State of Michigan Journalism contest.

He explained the Statute that was enacted 53 years ago provided that two or more municipalities could get together for collection and disposal of garbage. This new legislation would close the gap that has existed in that law that will allow two or more communities to dissolve such an authority when it is no longer serves the purpose for which it was incorporated, the efficient disposal and collection of trash. He encouraged residents that have been living with the problems and nuisances of SOCRRA when it was an incinerator and now as a transfer station in terms of odor, smell, traffic, dust, noise, etc. to appear at the public hearing to be heard by the Senate Committee, so that the members have a sense of the conditions that citizens of Madison Heights, as the host community of the former SOCCRA incinerator and current SOCRRA transfer station, have been living with.

Motion by Councilman Clark,
Supported by Councilman Fisher,

WHEREAS, a Special Approval Board application has been received from David Kanners, 1205 Spartan, Madison Heights, requesting to use the property at 1205 Spartan to permit the use of an auto repair facility for employee vehicles at 1205 Spartan; said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on October 25, 2000, and 91 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

REQUEST: Special Approval for a motor vehicle maintenance service facility, under Section 10.329(6) and 10.319(2) of the Zoning Ordinance.

EXISTING ZONING: M-1 Light Industrial

EXISTING USE: Catering Facility. Existing vehicle service area was installed without Special Approval and was brought to light by code enforcement.

STAFF ANALYSIS:

1. Motor vehicle maintenance service facilities require Special Approval by City Council in the M-1 Light Industrial District.

2. Motor vehicle maintenance service facilities conduct "*routine motor vehicle maintenance consisting of oil changes, tire replacement, battery replacement, brake and exhaust system work and other routine services which require short periods of time to start and complete the maintenance service*." All repair work of any nature must be done within an enclosed building. Vehicles awaiting service cannot be parked longer than 72 hours and must be stored inside overnight.

3. Hours of operation: M-Sat. 9:00 am –6:00 pm
   Number of employees: 3

4. The applicant proposes to continue operating the motor vehicle maintenance service facility to service catering truck fleet and employees' vehicles. The service operation is a separate business from the catering operation (leased space). Parking exceeds ordinance requirements for the site.

5. The Site Plan Review Committee has reviewed the site plan. Submittal of detailed floor & building plans for the service area will be required to address any necessary building code requirements.

6. Should Council consider approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to Monday – Saturday, 9:00 a.m. – 6:00 p.m.
   B. All repair work of any nature must be done within building.

   D. Vehicles shall be parked in designated parking spaces only.
   E. Submittal of floor & building plans for service area to address applicable building code requirements.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 329(6) and 10.319(2) of the Code of Ordinances, hereby postpones the request until the next Regular City Council Meeting, to investigate the many vehicles that are parked on the property without license plates, a truck on blocks, vehicles with expired plates, the installation of a stop sign onto Wolverine and adherence to the no right turn sign.

377. Substitute Motion.

Motion by Councilwoman Russell, supported by Councilman Fisher, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 329(6) and 10.319(2) of the Code of Ordinances,

Nays: Clark.

378. Meeting Open to the Public

Ken Natale, 26366 Wolverine thanked the Council for denying special approval use for the auto repair facility at 1205 Spartan and stated that Wolverine Street is deteriorating because of the semi trucks, the catering business and the increased traffic. He asked if there are any plans for paving Wolverine. City Manager Austin advised the audience that Wolverine north of Spartan and Greig from John R to Dequindre is scheduled as part of the Ten Year Neighborhood Road Improvements.

Ron Harris, 26259 Wolverine, stated that the pavement is terrible and the trucks are making an illegal right hand turn and are tearing up the streets.

414. Consent Judgment - Stuart Frankel, ET AL. V City of Madison Heights and Stuart Frankel V City of Madison Heights and Madison Heights Zoning Board of Appeals - Tabled

Special Legal Counsel Gerald Fisher presented an overview of the proposed Consent Judgment, discussed the ramifications, and his recommendations to approve.

Michael Ellis, Director of Claims, Michigan Municipal Risk Management Association recommended to the City Council to accept the settlement. He also stated in MMRMA's letter, dated November 17, 2000, which explained their position in this matter, that the City should approve the proposed Consent Judgment, otherwise MMRMA will no longer cover any damage claim or the cost of the litigation.

The following residents spoke: Jackie Bonk, 27372 Alger, stated that Council should accept the Consent Judgment. She also presented letters from residents that support the settlement.

John Tata, 30704 Blairmoor stated that he was concerned about the increase traffic in the area and another 24 hour retail store in addition to the Super K Mart at 12 Mile and John R Road. Douglas Sturtz, 30716 Osmun stated that a traffic light should be installed to allow easier access for the subdivision and that the proposed 6' berms in his opinion are inadequate. He also stated that Council should consider adopting an ordinance increasing property taxes to all 24 hour stores and that delivery's should only be made before 8 p.m. Alice Heinrich, 30812 Blairmoor stated that she is opposed to the development because of the increase traffic and crime which has resulted from the 24 hour Super K Mart located at 12 Mile and John R Road. Trudy Fornaresio, 30429 Winthrop stated that she was opposed to the development. Robert Scheere, 1244 Fontaine presented a petition opposing the development. Mike Kiris, 30819 Woodmont stated that the same issues exists today with the project as did in 1998, such as increase in crime and traffic, the location of the Hiller School, cars avoiding the traffic light at 13 Mile and John R Road cutting though the subdivision, the seniors who live at the Senior Apartments on Edward who are concerned about the traffic. He inquired if any developer who is turned down can they litigate and sue the City. City Attorney L. Sherman stated yes and explained that city's are constantly facing issues such as the one before Council tonight, as to whether the City's denial of rezoning is unreasonable and Judge Langford Morris presented a preview in the Zoning Board of Appeals case in terms of her opinion on whether the current zoning on the site, which is R-1, is reasonable and she felt it was not. She indicated the Zoning Board did not have the authority to adopt a special use variance to permit a more dense residential community with single family residential and multiple. The City Briefs that were filed in the Court of Appeals indicated that the City felt she was wrong as a matter of law on that issue and a recent Supreme Court case that authorized precisely what the Zoning Board of Appeals did. But there is no question that the Judge thinks that commercial zoning is reasonable at that location. He also stated that the recent case in Novi where the City attempted to prevent a developer from developing a residential subdivision and went to great extremes another Circuit Court

Judge rendered a judgment for $40 million, that case is on appeal and the judgement now with interest running each day is approximately $65 million and the two insurance companies, one which is MMRMA, which represents our City, is involved with the other insurance company pointing fingers as to what company is going to cover the City and if it the case is not reversed on appeals the taxpayers will be paying the $65 million, plus interest, plus costs, plus attorney fees. Mr. Kairis inquired if the City lost the case what would be the average cost to each homeowner. City Manager Austin stated that because we do not know the exact figure, it was calculated for a $10 million settlement, but based on the Bond Attorney's advise, the City's would borrow the money, finance the judgment through bonds issued for 15 years with the average homeowners cost estimate at $40 a year; depending on your projected damages to the City the figure could be prorated. Mr. Kiris stated that he would encourage the citizens to pay this, what in his view is a insignificant amount and the quality of life is being benefited by a shopping center which would increase traffic and crime in our neighborhoods. Tony Bliss, 29056 Tawas objected to the rezoning and favored the appeal. Robert Maten, 31512 Kenwood stated that the residents of Frank Lloyd Wright Subdivision have never paid sewage or water charges and could have hooked into services; and the 6 years that Stuart Frankel has the land tied up has discouraged other developers. He also inquired why the retention basin does not have a fence, regarding the John R And Thirteen Mile two right turn lanes, why is there a difference in price and the relocation of Meijer's at 16 Mile and Dequindre will also bring the crime. He also reiterated that this was a short notice for the residents and that the amount of money for the judgment is not much to pay for the refusal to meet the community's wishes. Jim Lang, 30444 Westmore, stated that the value of the homes would be diminished. Elaine Krause, 30655 Westwood stated that the making a left hand turn onto Thirteen Mile from Elmhurst is difficult and is opposed to the development. Gary McGillivray, 926 Tanglewood stated that he is opposed to the development. Gary George, 1735 Castlewood stated that he is opposed to the construction of a Meijer's store and that the previous Councils should have found an amicable solution to the residents of the Frank Lloyd Wright Subdivision and should have taken responsibility for the homes and property.

Therese Dreyer, 31200 Tawas stated that she as a resident in the Frank Lloyd Wright Subdivision that they have needed help for ten years from the City, she has invested in her house, that the financial damages of loosing the lawsuit could be great and she supports the settlement. Steve Kokotivich, 725 Wright stated that he is one of the residents that would be affected and it would provide relief if the City Council approved the consent judgment.

Matthew Zalewski, 1628 Dulong stated that he is opposed to the development and was concerned about the computer traffic signals that would be used for this development and he feels that they create an unpredictable traffic signal cycle such as the one at Edward and Twelve Mile Road. Councilwoman Russell also stated her concerns regarding the functioning of the traffic light at Twelve Mile and Edward. Ken Krause, 30655 Westwood stated that he was opposed to the development and settlement. Christine Shad, 832 Canterbury stated that the development would be harmful to small businesses and is not necessary because of the Super K-Mart and Farmer Jacks in the area and the parking lot at Meijer's would have access to the residential which would attract more traffic and safety would be hampered. State Representative Dave Woodward, 1718 West Farnum, Royal Oak stated that the City is being boxed into a corner and hopes that the Council will look to other than the financial elements. Robert Brunk, 30604 Winthrop stated that he is opposed to the development.

Norma Carline, 403 West Barrrett stated that the City should accept the best offer and would resolve this problem since 1994 and help the residents of the Frank Lloyd Wright Subdivision, gaining commercial and residential which would help the City's tax base. She also stated that she is a member of the Board of Review and that there are a lot of Senior Citizens who have a difficult time paying their taxes and would not be able to pay additional moneys toward a judgment.

John Pulice, 30869 Avondale urged Council to let their conscious be there guide and asked why the land was not good enough for the homes that are there now then why is it good for new homes that will be built there and that he would favor the extra payment toward a judgment.

Brenda Cournoyer, 26684 Tawas stated that she favored the Consent Judgment because after circulating petitions she became aware of seniors, single parent families and families who could not afford added taxes. She also presented petitions to Council in favor of approving the Consent Judgment.

Peggy Rachubinski, 29604 Howard stated that the Consent Judgment should not be approved and the City should continue to pursue the litigation and additionally, place this issue on a Special Election. Robert Brunk, 30604 Winthrop stated that he opposed the Consent Judgment because single family home development and or condominiums would be beneficial to the school district and not the proposed commercial development. He also stated that the City could not raise taxes unless the property owners would vote for the increase. Laurie Piper, 30268

Winthrop stated that this should have been taken care of years ago and was upset about the issue being tabled. She also stated that Winthrop Drive, as well as Milton, experienced increase traffic because they are cut through streets to get from 12 Mile Road to 13 Mile Road. John Tata, 30704 Blairmoor stated that he would continue to pursue the litigation. He also inquired as to the possibility of having "no through" traffic signs implemented in his subdivision because of Hiller School and as well as there is already too many retail stores in the area.

City Attorney L. Sherman stated that the possibility of an adverse judgment is so substantial that Michigan Municipal Risk Management, our insurance carrier, put the City on notice that they felt if the City Council did not accept the Consent Judgment they would not provide any insurance coverage at all and that the Judge sent a strong message that the Court strongly recommends that the parties settle.

Amy McDonald, 30755 Woodmont objected to the Meijer's. Jim Lang, 30444 Westmore stated that that he was opposed to the development. John Pulice, 30869 Avondale gave a brief history of the proposed development, in that the Zoning Board of Appeals as well as previous Councils turned it down. Chris Makaroff, 30792 Woodmont urged Council to continue to pursue the litigation. Gary George, 1734 Castlewood stated that he was opposed to the development and asked if residents were represented in negotiations. City Attorney L. Sherman stated that the only persons represented were those that were parties to the lawsuit. Mr. George stated that he was concerned about the quality of life issue for the citizens that will live near the Meijer's. He also inquired if tax abatement was given to Mr. Frankel. City Manager Austin stated that there is currently tax abatement for industrial but not commercial property in the City. James Norris, 30742 Woodmont objected to the Meijer's development.

Mike Kokotovich, 675 Wright, stated that prior to Mr. Frankel, the owners in the Frank Lloyd Wright Subdivision talked to 3 different home developers and each prospective developer turned them down. Bernard Michrina, 29305 Edward, stated that he favored the Meijer's because he does not want to risk a lawsuit and/or damages.

Robert Maten, 31512 Kenwood, inquired as to any previous tax abatements that Mr. Frankel had, such as the Target shopping area. City Manager Austin stated that there was a special tax increment district set up to where the monies from the increase in taxes went for improvements in that area. Mr. Maten stated that low-income persons could go to the

Board of Review for tax relief and that an election would have to be held to raise taxes.

Jackie Bonk, 27372 Alger, favored the Consent Judgment and presented petitions to the City Council.

Steve Connor, 30809 Palmer, opposed the Meijer's and favored a ballot proposal. Stuart Dibley, 29485 Tawas stated that there is too much traffic on John R Road and would be in favor of a via duct on Dequindre and John R for 13 Mile Road and a median on 13 Mile Road.

Yvonne Schilla, 735 Lloyd, thanked the residents who supported the homeowners in the Frank Lloyd Wright Subdivision and urged Council to support the development. Steven Glazek, Counsel for Stuart Frankel and the 22 residents of the Frank Lloyd Wright Subdivision, gave a brief history of Mr. Frankel's developments in the City as well as the homeowners' plight.

William Deyo, 31305 Tawas stated that the area is no longer viable for the residences in the Frank Lloyd Wright Subdivision because of the industrial development that has taken place in the area. John Little, 873 E. Lincoln, stated that he favored the development because of the alternative of tax increase or reduction in services. James Babiarz, 550 Frank, favored the Consent Judgment which if not approved could leave the City to seek other ways of financing a possible judgment.

Trudy Fornaresio, 30429 Winthrop stated that the Meijer's store would impact the area with increase traffic from the surrounding cities. She also inquired why the property could be rezoned with residential and commercial. City Attorney L. Sherman stated that the proposal that was before the Zoning Board was for all commercial, with no residential component, and if Mr. Frankel were to win the case in the Court of Appeals he would win the right to build all commercial at that site. The damage claim would still exist in the Circuit Court. The rezoning case involved a mix of commercial and residential uses, so that the Zoning Case that is in Circuit Court is different than the one in the Court of Appeals. In the Zoning Case the proposed use that came before City Council in May of 1998 had a commercial and residential component. Without a negotiated solution to re-institute the residential development the City, in the Court of Appeals case could, if they lost, be subject to all commercial use without any control over the development. He also stated that the Judge has the authority in the Zoning case to award damages if she was to rule in favor of the plaintiff, Mr. Frankel and the individual co-plaintiffs in that case. Ms. Fornesario inquired what would stop Mr. Frankel from developing the whole site as commercial. City Attorney L.

Sherman stated that a portion of the Church property relates to the Consent Judgment and that there is an agreement by the parties in the Consent Judgment that would provide that neither Mr. Frankel nor through any third party would be able to develop the entire church property in a commercial use. The reason why that provision was placed in the Consent Judgment is that the City does not want that piece of property developed as a commercial use. He also explained that the reason Mr. Frankel could not build just commercial is that the Consent Judgment is a Court Order that is based on promises and assurances by the parties in the document. She also inquired as to prevents the church from selling their property for commercial development. City Attorney L. Sherman stated that the property is zoned residential but the church could sell it to a third party other than Mr. Frankel.

Mayor Swanson recessed the meeting at 9:15 p.m. Mayor Swanson reconvened at 9:27 p.m.

City Attorney L. Sherman clarified that this issue could not go before the vote of the people because lawsuits were filed and there have been cases in which judges have overridden votes on Advisory issues.

Vincent Bianchini, 30469 Winthrop favored that the City continue to pursue litigation. Mike Fletcher, 755 West Parker objected to the Consent Judgement and stated where he lives the cars are using it as a cut street from 12 Mile to 11 Mile Road. Chris Sobochinski, 1674 Beaupre stated that she would urge Council to fight the developer through litigation.

George Dreyer, 31200 Tawas urged Council to vote for the Consent Judgment.

Tony Rondo, 330 East 13 Mile Road inquired as to what point of law overrules the majority of the citizens and the judge will supersede the will of the people. He also requested that the City have a referendum election and in his opinion Meijer's would be serving 3 communities and would not help the citizens of this community.

Laura Varga, 31450 John R Road stated that she recently purchased a condominium on 30950 Plum Lane and instead of opposing the Meijer's and burdening the citizens with legal fees unknown costs, the Council should commit to resolve the traffic problems and keeping crime under control.

Deborah Thomson, 27122 Dartmouth stated that the increased traffic could not be handled and objected to the Consent Judgment. John Ferries, 28727 Edward stated that Council should continue to fight the

litigation and have a vote of the people. He also inquired how the judgment would be paid. City Manager Austin stated that the Judge could order specially-assessed taxes to be paid without a vote of the people.

Therese Dreyer, 31200 Tawas stated that the City should follow the advice of the City's Attorneys, the Judge and MMRMA. She also inquired as to the loss of insurance and could the City look into a new insurance carrier. City Attorney L. Sherman stated that when the City joined MMRMA in the 1980's it was one of two risk pools that existed for governmental entities which are the least expensive with the most coverage. Although a recent comparative analysis has not been done, it is his opinion that the premium costs would be more for conventional insurance coverage than with MMRMA. A new insurance carrier would not cover these claims, which occurred several years ago.

Michael Kiris, 30819 Woodmont stated that no one wants to see the residents in the Frank Lloyd Wright Subdivision suffer with their water and sewer problems as well as the children's safety with the increase traffic in the subdivisions and the schools in the area. It was his opinion that the lawsuit should be looked at as a $40 or $80 per resident per year and is a very insignificant sum to pay. Gary Gemmell, 30526 Woodmont stated that the quality of life is an issue with the Meijer's and favored an increase in taxes to pay a judgment. Gail Stevens, 1250 Parliament stated that she objected to the development and it was her opinion that there are too many shopping centers and businesses in the community. Ray Sobocinski, 1674 Beaupre objected to the Meijer's development.

Councilman Clark stated that he has supported the citizens south of 13 Mile Road for the last three years who are against the increased traffic and potential problems created by a Meijer Store, but that due to the Court decisions he must represent the entire City.

Councilwoman Russell restated and commented on the history and the facts as presented regarding the Frank Lloyd Wright Subdivision. She stated that she feels that voting in favor of the Consent Judgment is the best decision for the entire City.

Councilwoman Corbett stated that he has received 18 hours of information on this issue from both the Zoning Board of Appeals and City Council meetings and believes that if Council aggressively pursues the lawsuits the long term interest of the City would be served.

Councilwoman Scott stated she feels that approving the Consent Judgment is in the best interests of the entire City and furthermore,

requested that Meijer's reach out to support the Communities that they serve and that she encourages Meijer's to join the Madison Heights /Hazel Park Chamber of Commerce as well as the Madison Heights Community Roundtable, in addition to establish a Meijer's Development Community Relations Board that will consist of representatives from Meijer's, local residents, especially those that are out there that feel so strongly against this, especially those that are directly affected, local businesses, members of the Crime Commission and the Civic Groups that exists, this will be a proactive discussion group, that meets regularly to iron out anticipated and current problems and be a voice for all entities that this development will affect.

Councilwoman Shad thanked all the residents for their comments and stated she understood the concerns for increased traffic, crime, empty stores and lower home values.

After Council's discussion, the Mayor called for a roll call vote on the Motion to approve the Consent Judgment in the case of Frankel, et al, vs. Madison Heights.

B. All design standards or criteria imposed on specific Special Approval uses elsewhere in this ordinance shall be met.

C. The use shall be designed and located so that it is compatible with the surrounding properties, neighborhood and vicinity. At a minimum, this shall include:

1. Location of use(s) on site;

2. Height of all improvements and structures;

3. Adjacent conforming land uses;

4. Need for proposed use in specified areas of the City;

5. Conformance with future land use plans for the area as adopted by the Planning Commission.

6. Compatibility with the permitted principal uses allowed in the zoning district where the Special Approval use is requested.

D. Ingress/Egress to the use shall be controlled to assure maximum vehicular and pedestrian safety, convenience and minimum traffic impact on adjacent roads, drives and uses including, but not limited to:

I. The proposed use shall be designed as to location, size, intensity, site layout, and periods of operation to eliminate any possible nuisances which might be noxious to the occupants of any other nearby properties. The use shall not involve uses, activities, processes, materials, equipment and conditions of operation that will be detrimental to any persons, property, or the general welfare by reason of excessive smoke, fumes, glare, noise, vibration, odors, and adverse environmental impacts.

J. The proposed use does not impose an unreasonable burden upon public services and utilities in relation to the burden imposed by permitted principal uses in the same zoning district.

K. The City Council may impose conditions in granting Special Approval that it deems necessary to fulfill the spirit and purpose of this Ordinance. The conditions may include those necessary to ensure that public services and facilities affected by a proposed land use or activity will be capable of accommodating increased service and facility loads caused by the land use or activity, to protect the natural environment and conserve natural resources and energy, to ensure compatibility with adjacent uses of land, and to promote the use of land in a socially and economically desirable manner. Conditions imposed shall:

The breach of any condition, safeguard or requirement, and the failure to correct such breach within thirty (30) days after an order to correct is issued by the City shall be reason for immediate revocation of the Special Approval. Conditions and requirements stated as a part of special use permit authorizations shall be continuing obligations of the holders of such permits and are binding upon their heirs and assigns and upon any persons taking title to the affected property while such special use permit is in effect.

L. The discontinuance of a special use after a specified time may be a condition to the issuance of the permit. Renewal of a special use permit may be granted after a review and determination by the City Council that continuing private need and public benefit will be served by such renewal. Renewal applications shall be in accord with standards and requirements in effect at the time that the renewal is requested.

G. No reapplication, reconsideration and/or rehearing for a special use permit which has been denied by the City Council shall be resubmitted until the expiration of one (1) year from the date of such denial, except on grounds of newly discovered evidence or proof of materially changed conditions, sufficient to justify reconsideration by the City Council. Each re-application will be treated as a new application.

H. The conditions imposed with respect to the approval of a special land use shall be recorded in the record of the approval action and shall remain unchanged except upon the mutual consent of the approving authority and the landowner. SECTION 2. **The following section(s) of the Zoning Ordinance are amended as follows:**

Section 10.503 Nonconforming lots, uses and structures

All nonconforming lots, uses, structures, or combination of nonconforming uses of land or structures shall conform with the provisions of this Section.

1. Intent

A. It is the intent of this Ordinance to permit legal nonconforming lots, uses, or structures to continue until they are removed but not to encourage their survival.

B. It is recognized that there exists within the districts established by this Ordinance and subsequent amendments, lots, structures, and uses of land and structures which were lawful before this Ordinance was passed or amended which would be prohibited, regulated, or restricted under the terms of this Ordinance or future amendments.

C. Such uses are declared by this Ordinance to be incompatible with permitted uses in the districts involved. It is further the intent of this Ordinance that nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

D. A nonconforming use of a structure, land, or of a structure and land shall not be extended or enlarged after passage of this Ordinance by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be prohibited generally in the district involved.

2. Nonconformities under Construction

Nothing in this Ordinance shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this ordinance and upon which actual building construction has been diligently continued. Actual construction is hereby defined to include the placing of construction materials in permanent manner, except that where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that work shall be diligently carried on until the completion of the building involved.

3. Nonconforming Lots of Record

A. In any Zoning District in which a single family dwelling is permitted, a single family dwelling may be erected on any substandard lot of record if the lot is in single ownership at the effective date of this Ordinance and is not in single ownership with other lots having continuous frontage. However, if two or more contiguous lots under the same ownership exist, a single family home may be erected on any single lot of record provided that such lot meets the following criteria:

1. The lot is a legal lot of record.

2. The Building Official or his designee shall determine that the lot is the same size or larger than the majority (more than 50%) of developed lots in the area. For purposes of this section, the Building Official shall base determinations on the width, depth and area of the lot when determining conformance with the developed lots in the area. For purposes of this section, "area" shall mean at a minimum the lots on both sides of the street on the same block as the subject lot.

3. All other Ordinance requirements are met, including but not limited to, setbacks, minimum dwelling size, and height. A detailed plot plan shall be provided to determine compliance with this sub-section.

If these three criteria are not met, such lot(s) shall not be developed, divided, utilized or sold in any manner that diminishes compliance with lot width and/or area requirements of this Ordinance.

B. Any variance request to the Zoning Board of Appeals for any provision of this section shall include a detailed plot plan for a proposed structure(s) that clearly indicates conformance or non-conformance with all Ordinance requirements including, but not limited to, yards, minimum dwelling size, maximum lot coverage and height.

C. In addition to the criteria outlined in section 10.805, the Zoning Board of Appeals, in hearing any appeals and/or variance requests from this section, shall consider the following in their decision:

1. The width, size and general character of the lots in the neighborhood and area.

2. The design of the proposed structure(s) is appropriate for the area, width and shape of the lot.

3. The extent to which other developed lots in the neighborhood and/or area have maintained required setbacks, lot area and width.

4. The extent to which the proposed structure(s) is in harmony with the character of the neighborhood and/or area

D. In all non-residential zoning districts, structures may be erected on any single lot of record, provided that such lot meets the criteria outlined in subsection C.1 above and all restrictions outlined in the zoning district in which the lot or parcel is located.

4. Nonconforming Uses of Land

When, at the effective date of adoption or amendment of this Ordinance, lawful use of land exists that is made no longer permissible under the terms of this Ordinance, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

A. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance.

B. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this Ordinance.

C. If such nonconforming use of land ceases for any reason for a period of more than six (6) months, any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located.

5. Nonconforming Structures

Where a lawful structure exists at the effective date of adoption or amendment of this Ordinance that could not be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the
structure or its location on the lot, such structure may be continued so long as it remains otherwise lawful, subject to the following:

A. No such structure may be expanded in a way that increases its nonconformity. A nonconforming structure may be expanded if the addition(s) conform(s) with all zoning ordinance requirements for the district in which the structure is located.

B. Should such structure be destroyed by any means to an extent of more than fifty (50) percent of its replacement value, it shall not be reconstructed except in conformity with the provisions of this Ordinance.

C. Should such structure be moved for any reason, it shall thereafter conform to the regulations for the district in which it is located after it is moved

D. A nonconforming structure may be altered to decrease its nonconformity, subject to issuance of necessary permits.

If a lawful use of a structure, or of structures and land in combination, exists at the effective date of adoption or amendment of this Ordinance that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

A. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except to accommodate a change in the use of the structure to a use permitted in the district in which it is located.

B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use, and which existed at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.

C. If no structural expansion is made, any nonconforming use of a structure or structures and premises, may be changed to another nonconforming use provided that the Board of Appeals, by making findings in the specific case, shall find that the proposed use is a legal nonconforming use, reduces the level of nonconformity on the site, and is more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Appeals may require appropriate conditions and safeguards in accord with the purpose and intent of this Ordinance.

D. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use for any period of time, shall thereafter conform to the regulations for the district in which such structure is located, and the nonconforming use may not be resumed.

E. When a nonconforming use of a structure, or structure and premises in combination, is discontinued or ceases to exist for six (6) consecutive months, the structure, or structure and premises in combination, shall not thereafter be used except in conformance with the regulations of the district in which it is located.

F. Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

7. Repairs and Maintenance

A. On any legal nonconforming structure or building, or on any building or structure devoted in whole or in part to any nonconforming use, ordinary repairs, or repair or replacement of non-bearing walls, fixtures, wiring or plumbing may be permitted, provided that the permitted maintenance or repair shall not increase the nonconformity.

B. Nothing in this Ordinance shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

8. Special Land Uses Not Nonconforming

Special Approval uses that are approved by the City Council as provided in this Ordinance shall not be deemed a nonconforming use.

Motion by Councilwoman Russell, supported by Councilman Clark, to concur with the recommendation of the City Manager and The Policy Committee and approve the Sidewalk Gap and Special Assessment District Policy; as follows:

City of Madison Heights

Sidewalk Gap and Special Assessment District Policy

Section 22-2.1 of the Code of Ordinances provides that City Council shall, from time to time as the need may require, adopt or change by resolution the uniform policies or procedures of the City with reference to special assessments within the City. This policy supercedes and takes the place of all prior policies of the City of Madison Heights in regard to sidewalk gaps and special assessments to cover the costs thereof.

Definition of Terms

New Development – All projects that require site plan review, plat (subdivision review), or a building permit.

Sidewalk – Any sidewalk adjoining any public street, not including any cross-walk or any portion of any driveway between the street and the proposed or existing sidewalk.

Sidewalk Gap – Any portion of any site where there is no sidewalk adjacent to an existing public street right of way that is currently developed and used as a public road.

Sidewalk Gap Connection Construction Criteria

The following criteria were used as the basis for determining sidewalk gap construction and funding contributions:

- ❑ Pedestrian Safety
- ❑ Current / Projected Use / Demand
- ❑ Physical / Right of way constraints ("Constructibility")
- ❑ Proximity / Links to Schools, Parks, Employment Centers
- ❑ Coordination with other public/private projects
- ❑ Funding Resources
- ❑ Maintenance – Public / Private
- ❑ Property Ownership–Public, Schools, Private
- ❑ Provision of sidewalks on both sides of Major Roads

Determining Sidewalk Gap Projects and Funding Contributions

General: All sidewalks shall comply with Sections 23-31 through 23-38 of the Code of Ordinances, except as specified below.

Gap Map Created: There is hereby established as a part of this policy a "Sidewalk Program and Gap Map" (attached). This map establishes sidewalk gap locations throughout the City as of November 2000 and denotes those gaps that are "to remain" and those that are "to be installed".

New Development: All new developments occurring within the City that are located on a parcel or parcels that have a sidewalk gap shown as "to be installed" on the Gap Map shall install said sidewalk. Provision for such sidewalk construction shall be included as a part of site plan review, subdivision approval, or building permit application. Cost of sidewalk gap construction shall be the entire responsibility of the property owner or developer.

Public Road / Utility

Projects: All Public road and utility projects occurring within the City that are located on or adjacent to a parcel or parcels that have a sidewalk gap shown as "to be installed" on the Gap Map shall include installation of said sidewalk as a part of the scope of project. Cost of sidewalk gap construction shall be allocated between the City and the property owners in accordance with the percentage allocations in the City's Special Assessment District Policy for Road Improvements (July 12, 1999, as amended) through a special assessment district.

All Other Gaps "To Be Installed": All other sidewalk gaps that have a sidewalk gap shown as "To Be Installed" on the Gap Map shall be installed during the City's scheduled annual sidewalk program in accordance with the "*Sidewalk Program*" years on the Gap Map. Cost of sidewalk gap construction shall be the entire responsibility of the property owner either directly or through a special assessment district in conjunction with the City's annual sidewalk program.

Gaps to Remain: Construction of sidewalks shown on the Gap Map as "*Sidewalk Gaps to Remain*" shall not be required. However, nothing in this policy should be construed as preventing installation of said sidewalks where the property owner and / or City voluntarily seek such installation.

Estimation of Sidewalk Gap Project Costs

The City Engineer in accordance with Section 22-4 of the Code of Ordinances shall determine estimated costs of all sidewalk gap construction.

80. Charter Amendment Proposal – 2nd December Meeting

James Smith, a member of the Charter Amendment and Ordinance Revision Committee, stated that the Charter Amendment and Ordinance Revision Committee recommended adoption of a ballot proposal to eliminate the Charter requirement (Chapter 6, Section 6.1) because it was in the best interests of the City and residents to eliminate the second Council meeting in the month of December because business is slow and it would save money.

Motion by Councilman Clark, supported by Councilwoman Russell, to approve the resolution and to submit to the Governor and Attorney General, in accordance with the statutes pertaining to Charter Amendments, and place on the November 6, 2001 Election; as follows,

RESOLUTION PROPOSING AMENDMENT TO
CHAPTER 6, SECTION 6.1 OF THE CHARTER OF THE
CITY OF MADISON HEIGHTS TO PROVIDE
FOR ONE REQUIRED REGULAR MEETING OF
THE CITY COUNCIL IN THE MONTH OF DECEMBER

WITNESSETH:

WHEREAS, the City of Madison Heights is a Michigan Municipal Corporation, duly and legally incorporated as a Home-Rule City under the provisions of 1909 P.A. 279, being specifically Michigan Compiled Laws (MCL) 117.1, *et seq.*; and,

WHEREAS, the Charter of the City of Madison Heights was adopted by vote of the Electors on December 6, 1955; and,

WHEREAS, Chapter 6, Section 6.1 presently reads as follows:

> Section 6.1. Regular Meetings.
>
> The council shall provide by resolution for the time and place of its regular meetings and shall hold at least two (2) regular meetings each month. An organizational meeting shall be held on the Monday following each regular city election.

WHEREAS, the City Council has established the second (2nd) and fourth (4th) Monday of each month, at 7:30 p.m. eastern time, at City Hall, as the date, time and place of its required regular Council meetings; and,

WHEREAS, on the fourth (4th) Monday of each December, there is a very small turnout of members of the public at the City Council meeting due to the holiday season; and,

WHEREAS, on the fourth (4th) Monday of each December, there is a minimal amount of work to be transacted by the City Council due to the holiday season; and,

WHEREAS, an example of the foregoing is the fact that Christmas Eve falls on the fourth (4th) Monday of December, 2001; and,

WHEREAS, although the City Council has the power and right (and will still have the power and right) to reschedule the meeting on the fourth (4th) Monday to the third (3rd) Monday of December, 2001, there will only be one (1) week between the first (1st) and second (2nd) meetings in December, and therefore a minimal amount of work to do, if any; and,

WHEREAS, despite the minimal amount of work to do, a meeting necessitates the opening of City Hall and the expenditure of tax dollars for such things as utilities, janitorial services, staff time, *et cetera*; and,

WHEREAS, the City Council shall still retain the power and right to schedule a second (2nd) meeting in December, as provided for in Chapter 6, Section 6.2 of the City Charter, in order to conduct any necessary City business;

NOW, THEREFORE, BE IT RESOLVED, that Section 6.1 of the City Charter should be amended in the following manner:

> Section 6.1. Regular Meetings.
>
> The council shall provide by resolution for the time and place of its regular meetings and shall hold at least two (2) regular meetings each month, except during the month of December when at least one (1) meeting shall be required. An organizational meeting shall be held on the Monday following each regular city election. Nothing herein prohibits or prevents the calling of a special meeting pursuant to the terms of Chapter 6, Section 6.2 of this Charter.

BE IT FURTHER RESOLVED that the form in which said Charter proposition shall be submitted to the voters for approval shall be as follows:

Statement of Purpose

If Section 6.1. of the Charter is amended, the City Council shall hold at least two (2) regular meetings each month, except during the month of December when at least one (1) meeting shall be required. A special meeting may still be called pursuant to the terms of Section 6.2 of the Charter.

Ballot Question.

"Shall Chapter 6, Section 6.1. be amended to require the council to hold at least two (2) regular meetings each month, except during the month of December when at least one (1) meeting shall be required?

BE IT FURTHER RESOLVED, that this amendment shall be submitted to the Governor of the State of Michigan for approval in accordance with the statutes pertaining to Charter Amendments; and,

BE IT FURTHER RESOLVED, that said Charter Amendment be submitted to the electors of the City of Madison Heights for a vote of approval at the election to be held on November 6, 2001; and,

BE IT FURTHER RESOLVED, the Clerk of the City of Madison Heights is hereby authorized and directed to cause the notice of submission of said Charter Amendment proposition to be posted and published as a part of the notice of said election in the manner required by law.
