(i) Electrical fences.
Electrical and electrified fences shall be strictly prohibited.

(j) Industrial or business zoned property; maximum height; location; ornamental fences

Except as otherwise provided in this article, a conforming fence not to exceed ten (10) feet in height may be erected around an area zoned for industrial or business uses, which fence may be located on the partition or property lines. Said fences shall not occupy any required front setback. Ornamental fences shall be permitted only as shown on the approved site plan.

(k) Heights along school yards and public playfields.

Where a partition fence is constructed along a school yard or public playfield, fences up to eight (8) feet in height as specified in this article may be permitted if the lines along which such fences are to run have been determined in accordance with the provisions of this article and the details of construction as to public safety have been approved by the Building Official.

(l) Encroachment.

The property owner who is erecting the fence (or having it erected) shall be responsible for determining the location of property lines.

(m) Compliance with other ordinances and state law.

All fences shall comply with the relevant sections of the zoning ordinance, all other ordinances of the City of Madison Heights and all applicable state law.

(n) Denial of responsibility of city.

The City of Madison Heights shall not be responsible for the enforcement of any agreement relative to mutual or separate payment for the cost of construction or maintenance of fences, nor shall the city be responsible for the determination of the location of any fence to be erected, built or constructed on a lot line.

(o) Maintenance and repair.

(1) Any person who erects, builds or constructs, or contracts with another or causes another to erect, build or construct, any fence or privacy screen upon property which such person owns or leases shall be responsible for the repair, upkeep and maintenance of the fence or privacy screen, and any area adjacent thereto.

(2) Any person who owns property upon which a fence or privacy screen has been constructed by a previous owner shall be responsible for the care, upkeep and maintenance of the fence or privacy screen. If a previously constructed fence is located upon a lot line, each successive owner of the fence shall be responsible for its care, upkeep and maintenance. If ownership of the fence located upon a lot line is joint or cannot be determined, then each party owning property adjacent to the fence shall be responsible for the care, upkeep and maintenance of the fence facing his property. For purposes of this paragraph, the owner of a fence shall be deemed to be any person, persons or their successors who purchase or otherwise acquire the property from the person who originally erected or caused a fence to be erected thereon.

(3) The Building Official or his designee shall have the sole discretion to determine whether or not the fence is properly maintained, structurally sound or creates a potential safety hazard. Upon a finding by the Building Official that the fence is not maintained or not

structurally sound or creates a potential safety hazard, he shall notify the owner to make necessary repairs to maintain the fence or to make it structurally sound and safe. The owner shall have thirty (30) days from the date of notice by the Building Official to bring the fence in compliance with this Section. Should the owner fail to comply with the directive of the inspector, the owner will be held to be in violation of this Section and the fence shall be removed immediately.

(p) Visibility at intersections.

No fence, wall, hedge, screen, structure, vegetation or planting shall be higher than three (3) feet on any corner lot or parcel in any zoning district requiring front and side yards within the triangular area formed by the intersecting street right-of-way lines and a straight line joining the two street lines at points which are twenty-five (25) feet distant from the point of intersection, measured along the street right-of-way lines. Trees may be planted in this triangular area, provided that the lowest foliage is six (6) feet or higher from the ground.

(q) Non-conforming fences.

Where a lawful fence exists at the effective date of adoption or amendment of this Ordinance that could not be built under the terms of this Ordinance by reason of restrictions on height, materials, required yards or other characteristics of the fence, or its location on the lot, such fence may be continued so long as it remains otherwise lawful, subject to the following provisions:

(1) No such fence may be enlarged or altered in a way which increases its nonconformity.
(2) Should such fence be destroyed by any means to an extent of more than fifty (50) per cent of its replacement cost at time of destruction it shall not be reconstructed except in conformity with the provisions of this Ordinance;
(3) No such fence may be structurally altered or improved so as to prolong the life of the fence or so as to change the shape, size, type or design of the fence.

(r) Administration and enforcement.

The provisions of this chapter shall be administered and enforced by the Building Official or his designee.

WHEREAS, a Special Approval Board application has been received from Artil Leo, 28592 Orchard Lake Road, #360, Farmington Hills, Michigan 48334, requesting to use the property at 31049 Dequindre Road for a wine manufacturing, bottling and sales store, said property is zoned B-1, Local Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on June 29, 2001 and 20 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating the following:

LOCATION:	31049 Dequindre – Vacant tenant space in new Flagstar Bank building.
REQUEST:	Special Approval for a wine making, bottling, supplies and gift shop.
EXISTING ZONING:	B-1 Local Business
EXISTING USE:	Vacant 970 square feet tenant space in existing bank building.

STAFF ANALYSIS:

1. This request is to establish a facility to make, bottle and sell wine made on site, and for retail sale of winemaking supplies, gifts and accessories. Limited tasting of wine is planned.

2. The applicant has provided a letter and supplemental information that outlines the proposed operational characteristics of the facility. Essentially, five activities are planned:

   A. Bottling of individual bottles of wine with custom labels (customer made or store produced wine)
   B. Assembly and fermentation of bulk wine in 6 gallon glass bottles by the customer and the store on-site.
   C. Retail sale of all components necessary to create wine at home.
   D. Retail sale of gifts, cards and winemaking accessories.
   E. Wine tasting of samples of both customer and store-produced wine by the customer.

3. The applicant has applied for a Small Winery License from the State. This license authorizes retail sale of wine manufactured from the premises only, directly to consumers for consumption off premises. Free samples of wine produced at the facility are permitted (no other alcoholic beverages may be sampled). The

license would also allow sale of wines manufactured on-site, for consumption on the premises, in a restaurant at the premises. Please note that the special approval application is not for a restaurant and would not permit serving of food or consumption of alcoholic beverages on premises if granted by City Council.

4. The parking lot was designed for a bank and therefore exceeds parking requirements for this facility.

5. Should Council consider approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to Monday – Saturday, 10:00 a.m. – 10:00 p.m.
   B. Wine tasting shall be limited to customer's tasting of their own wine or wine produced on-site. Samples shall not exceed 2 ounces and shall be limited to 3 taste tests.
   C. No serving of food or beverage and no customer seating.
   D. No sale of any alcoholic beverage by the glass or for consumption on the premises.
   E. This Special Approval specifically exempts all activities that are permitted through a Michigan Micro Brewer or Brewpub license.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10-200(67)(a) and 10-201 of the Zoning Ordinance of the Code of Ordinances, hereby approves the request subject to the following:

   A. Hours of operation shall be limited to Monday – Saturday, 10:00 a.m. – 10:00 p.m.

248. Presentation - Thirteen Mile and John R Traffic Issues and Oakland County SCATS Agreement

Roger Walther, representing the consulting firm of Parsons Transportation Group of Michigan made a presentation regarding the traffic issues surrounding the development of Meijer Store on 13 Mile Road. Douglas Sturtz, 30716 Osmun stated that the current traffic conditions from his subdivision to make a left is impossible. He also inquired as to the possibility of moving the current pedestrian traffic light between LaSalle and Woodside to LaSalle and that the light would only be activated by cars approaching John R off of LaSalle or by the school children. Gary George, 1735 Castlewood Drive stated that the increase in traffic problems is probably due to the construction on I-75 but there also might be consideration for some type of entrances into and out of their subdivision. Paul Heinrich, 30812 Blairmoor stated that during the Christmas Season it is impossible to get out of the subdivision using LaSalle and traffic will increase when Meijer store is constructed, the "no left turn sign onto 13 Mile from the hours of 3 p.m. to 6 p.m." is not being adhered to and that the traffic light on 13 Mile and John should be modified because of cars backing up in the left turn lane does not allow any vehicles from the subdivision to exit out at Blairmoor safely. Alice Heinrich, 30812 Blairmoor inquired as to where the school children will cross coming from the new homes/condos. She stated a recent major accident on I-75 backed up at least 20 cars, who were cutting through on

Blairmoor. She also stated that there is an increase in speeding traffic on 13 Mile. Ron Eichhorn, 30852 Blairmoor inquired as to the length of the proposed right turn lane onto LaSalle and in his opinion the new turning lane will not stop the vehicles from cutting through. He also suggested that a "no right hand turn" sign be erected (north bound John R at LaSalle). Donna Diedrich, 30726 Woodmont stated that the speed limit is 35 from Royal Oak Beaumont until you past John R, then the speed increases.

Deputy City Manager Connors stated that the Traffic Safety Committee considered a light at Blairmoor and was part of the analysis of Edward, 13 and Blairmoor but did not meet the 11 warrants required by the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and would likely have an adverse impact on the residents on Blairmoor and LaSalle; the "No left turn on Edwards" not being adhered is a Police enforcement issue and will start tightening up on those things especially with the school year beginning; trying to turn left out of Blairmoor to westbound 13 Mile is hindered because the Dequindre light is not in sync and the SCATS system which is being considered tonight will eventually put all of those lights in sync; the children from the new residences will be crossing at 13 Mile and John R Road; the recent major accident on I-75 caused all the major roads in the City to back up and cars were cutting through all the subdivisions; installing a "No Right Turn" would prohibit anyone from turning into the subdivision; the drivers will eventually know that using the right-turn lane with a dedicated right-turn arrow at 12 Mile will get them through the traffic just as quick then cutting through. He also stated that this is the first phase of the analysis and the Traffic Safety Committee recommends that the improvements proceed on a timely basis and if the results are not what was expected they will reanalyze and confer on appropriate alternative solutions.

Motion by Councilman Clark, supported by Councilwoman Shad, to approve the resolution authorizing the Road Commission of Oakland County to proceed with the design and development of an agreement for the installation of SCATS Signals on 13 Mile Road but to hold off on any other work except the right-turn lane on north-bound John R to east-bound 13 Mile so a study can be made on what the impact will be when the Meijer Project and the new homes are completed.

252. Mayor and Council Comments and Requests.

Councilman Corbett stated that he has recommend a possible revision of the ordinances regarding garage sale signs to look at an amnesty basis or make it legal to post the signs on private property with permission of the property owners. He also received an e-mail from a resident on Woodmont regarding street lights and requested a needs assessment be done for street lights on Woodmont and report back to Council. City Manager Austin stated that a survey is available to residents asking their position for new and/or additional streetlights.

Councilwoman Shad requested that a needs survey of lights be done throughout the City. City Manager Austin stated that there has been a on going lighting program in the last 10 years and if there is a particular problem the City would address it. She stated that the city is addressing

She also announced the 4th Annual After Glow Car Show, Sunday, August 19, 2001 from 9:00 a.m. to 3 p.m. and following with the Oldies Festival-in-the Park.

He also stated that the traffic issues discussed tonight on the 13 Mile/John R could also be addressed by a community relations committee to be established with representatives from Meijers, the developer of the proposed residential, City Official and residents to address any and all concerns.

She congratulated Fire Chief Martin on his election as Vice President of the Southeastern Michigan Fire Chiefs. She noted that Meijer's is interested in a community relations committee and hopes that it will come into fruition very soon.

Motion by Councilman Clark, supported by Councilwoman Shad, that the request for a walk-a-thon from the Madison Heights Eagles be added to the agenda.

Yeas: Clark, Corbett, Fisher, Russell, Scott, Shad and Swanson.
Nays: None.

257. Public Hearing - Special Approval – 27080 John R Road.

A public hearing was held to hear comments, if any, to permit the use of a sit-down restaurant at 27080 John R Road. Arkan Jonna, 4036 Telegraph Road, Suite 201, Bloomfield Hills, Michigan 48302, the applicant was present. There being no comments from the audience, the public hearing was closed.

Motion by Councilwoman Scott,
Supported by Councilman Fisher,

WHEREAS, a Special Approval Board application has been received from Arkan Jonna, 4036 Telegraph Road, Suite 201, Bloomfield Hills, Michigan 48302, requesting to use the property at 27080 John R Road for a sit-down restaurant, said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on August 17, 2001 and 184 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating the following:

LOCATION: 27080 John R – Vacant building between Advance Auto and Rite Aid.

REQUEST: Special Approval for a sit down and carry out restaurant.

EXISTING ZONING: B-3 General Business

EXISTING USE: Vacant 3,400 square feet building.

STAFF ANALYSIS:

1. This request is to establish a chicken & rib restaurant in the B-3 District. Special Approval is required for all restaurants in the B-3 District.

2. The applicant proposes interior improvements to the building. No additional site improvements are proposed.

3. The facility is within 1,500 square feet of four restaurants. Restaurants proposed within 1,500 square feet of existing restaurants require Zoning Board of Appeals approval after City

Council's consideration and grant of Special Approval. Accordingly, should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request from the 1,500 square feet separation requirement.

4. The parking for this site is used jointly with Rite Aid and the Advance Auto facilities by easement and was designed for a retail center. As restaurants are calculated at a higher required parking ratio, the parking requirements for this use would exceed existing parking by 5 spaces. Accordingly, a variance for this 5 space deficiency is required. Should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request for the 5 parking spaces.

5. Should Council grant approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to 11:00 a.m. – 10:00 p.m.
   B. Zoning Board of Appeals approval of variances from the 1,500 square feet separation requirement and for 5 required parking spaces.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.201.4 of the Zoning Ordinance of the Code of Ordinances, hereby approves the request subject to the following: 1) Hours of operation shall be limited to 11:00 a.m. – 10:00 p.m., 2) Zoning Board of Appeals approval of variances from the 1,500 feet separation requirement and for 5 required parking spaces.

Yeas: Corbett, Fisher, Russell, Scott, Shad, Swanson and Clark.
Nays: None.

258. Meeting Open to the Public.

Richard LePage, 30980 Plum Lane stated that he was concerned about the Frank Lloyd Wright Development as it relates to the Consent Judgment and the construction of new homes and the Meijer's Store. He also inquired if the City would consider approaching the Macomb County Road Commission to request that the removal of the right-hand turn arrow on southbound Dequindre to westbound Thirteen Mile Road to create more gaps in the traffic flow for the residents south of Thirteen Mile Road between Dequindre and John R Road. City Manager Austin stated that he was approached by Mr. LePage and Mrs. Yvonne Lorenzi

with their concerns and forwarded to them a copy of a portion of the Frankel lawsuit Consent Judgment which indicates that the portion of the development that pertains to the subdivision have the subdivision development improvements put in place or no later than the opening of the Meijer's commercial store. If improvements are not in place the City Engineer will estimate the cost to construct the roads and utilities and require that a cash bond be delivered to pay for the improvements. In terms of Mr. LePage request regarding construction of the model homes prior to the opening of the Meijer's, it is not required as to part of the Consent Judgment. Mr. Austin stated that he has been in contact with Mr. Frankel, the developer, and he indicated that the residential development is still on track. The Plan Commission in June 2001 voted on the Preliminary Plan for the residential development, which shows the layout of the subdivision, the roads, the lots for 47 homes.

Trudy Fornaresio, 30429 Winthrop inquired if the City would be installing sidewalks and if the City would consider a right turn lane on north bound Hales to Thirteen Mile Road, a second combined left turn and through lane. City Manager Austin stated that the sidewalks along Hales to 13 Mile is part of the 10 year Sidewalk Program and that the Traffic Safety Committee would consider her request concerning the lanes on Hales.

279. Public Hearing – Special Approval at 29485 John R Road.

A public hearing was held to hear comments, if any, to permitting the use of a new restaurant (Texas Roadhouse) at 29485 John R Road, said property is zoned B-2, Planned Business. Keith Blum, Agent for Ramco-Gershenson, Inc., 27600 Northwestern Highway, Suite 200, Southfield, Michigan, 48034 and Michael Keaton, Director of Real Estate for Texas Roadhouse, 6040 Dutchman Lane, Louisville, Kentucky, 40205 were present and stated that they understand and are in agreement with the

Mr. Michael Keaton also stated that they have been pursing a liquor license to become a full service restaurant. Community Development Director Schafer stated that co-ordination with the property owners and the Road Commission of Oakland County may result in delays of the installation of the traffic signal and that the City would be agreeable to a Performance Bond. Since the signal will be a condition of Special Approval the signal will be installed. There being no further comments, the public hearing was closed.

Motion by Councilman Corbett,
Supported by Councilwoman Russell,

WHEREAS, a Special Approval Board application has been received from Keith Blum, Director of Architecture and Design, Ramco-Gershenson, Inc., 27600 Northwestern Highway, Suite 200, Southfield, Michigan 48034, requesting to use the property at 29485 John R Road for a restaurant, said property is zoned B-2, Planned Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on August 31, 2001 and 106 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, dated September 5, 2001, as follows:

LOCATION: Northeast area of existing Madison Center (Super K) Parking Lot

REQUEST: Special Approval for a Texas Roadhouse sit down restaurant.

EXISTING ZONING: B-2 Planned Business and B-3 General Business (Split zoning)

EXISTING USE: Parking lot for Madison Center (generally in area of former car wash)

STAFF ANALYSIS:

1. Special Approval is required for all restaurants in the B-2 and B-3 Districts. The site plan and building elevations are demonstrative only and are not before the City Council for final approval. Site plan review by the Planning Commission will be required if Council grants special approval.

2. The facility is within 1,500 square feet of 9 other restaurants. Restaurants proposed within 1,500 square feet of existing restaurants require Zoning Board of Appeals approval after City Council's consideration and grant of Special Approval. Accordingly, should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request from the 1,500 square feet separation requirement.

3. The parking for this site is used jointly by all Madison Center tenants and was designed for a retail center. The parking requirements for the proposed use would result in a 45 space parking deficiency for the entire center (1265 spaces required, 1220 provided). Accordingly, a 45-space parking variance is required. Should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request for 45 parking spaces. The Site Plan Review Committee has reviewed the requested parking proposal and has no objection to the proposed reduction in required parking.

4. The applicant's traffic consultants have determined that a traffic signal is warranted at the existing center or north drive. The Traffic Safety and Site Plan Review committees have reviewed both locations and are continuing dialogue with the applicant, landlord, traffic consultant and adjoining property owners to determine the most appropriate location for the signal. The applicant and the landlord have agreed to share the cost of installing the signal at the location determined most appropriate.

5. Should Council grant approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to 11:00 a.m. – 11:00 p.m.
   B. Zoning Board of Appeals approval of variances from the 1,500 square feet separation requirement and for 45 required parking spaces.
   C. Installation of a traffic signal at the north or center drive to the existing shopping center prior to issuance of a certificate of occupancy. Signal location to be determined by Traffic Safety Committee after additional input from traffic consultants. Cost of said signal to be the responsibility of the applicant and the landlord.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section

10-322 (2) of the Code of Ordinances, hereby approves the request subject to the following conditions:

A. Hours of operation shall be limited to 11:00 a.m. – 11:00 p.m.
B. Zoning Board of Appeals approval of variances from the 1,500 square feet separation requirement and for 45 required parking spaces.
C. Installation of a traffic signal at the north or center drive to the existing shopping center prior to issuance of a certificate of occupancy or submittal of an appropriate Performance Bond in an amount to be determined the City. Signal location to be determined by Traffic Safety Committee after additional input from traffic consultants. Cost of said signal to be the responsibility of the applicant and the landlord.

Councilwoman Shad stated that Madison Heights has Arabic and ethnic diversity and that the terrorist make up a small extreme fraction of the group. We should stick together and pray for those with missing families and the deceased. She requested a Certificate of Recognition be presented to Nick Andreopoulos, owner of the Masters Restaurant for the golf outing that benefited Friends of Madison Heights Youth.

Councilwoman Russell stated that because of the terrorist attacks on September 11, 2001, our City, like so many around the United States of America, held a candle vigil, with many nationalities, races and religions present. Ron Vannoy organized a fund-raiser at the V.F. W. Post and the International Fire Fighters and Local Union President Jon Joyce organized local businesses who allowed Fire Fighters to stand in front of their stores for a "Boot" collection, with proceeds to go to the families of the Fire Fighters who were killed or missing. She encouraged residents to contact Costco and Target who, because of corporate policy, would not allow the Fire Fighters to stand in front of their store at this time of giving and loving America. She announced that the Madison Heights Intermediate Women's Club will be sponsoring a "Meet the Candidates" night on Wednesday, October 17, 2001 in the Breckenridge Room of the Main Library at 7p.m. and that the Fire Department is having Open House on Saturday, October 13, 2001. She stated that Fire Fighter

Michael Brink went to New York with his rescue dog and was sent home but will be going back this week and that he was named Madison Heights Fire Fighter of the Year for 2001.

City Attorney L. Sherman stated September 11, 2001 will be the second day that will live in infamy and along with everyone in the City, wished to extend their sincere and heartfelt condolences to the families of the thousands of victims of this horrific terrorist attack on our country. The City Council and all staff must acknowledge the heroic efforts of the New York Police and Fire Department whose officers gave their lives in order to save thousands of others. He asked all residents of the community to remain alert and vigilant and report to the appropriate authorities anything of a suspicious nature, but not to take the law into their own hands and to respect the rights of others. Although our country has been bloodied we have not been knocked down and our Nation will rise in righteous indignation and obtain justice against those who perpetrated this heinous crime.

City Manager Austin stated that he supported the comments made. He announced that the coffee house night scheduled for the high school students for this week have been cancelled due to a school activity conflict but two more are scheduled for October 11th and 25th.

Mayor Pro Tem Clark extended his condolences on the passing of Edward Oates, a volunteer at the Senior Center. He also stated that he would like to see a list of all gas stations, published in the newspaper, who raised their prices and took advantage of the public. He also expressed his sympathy to the families of over 6000 people who lost their lives in the terrorist attacks on September 11, 2001.

Councilwoman Scott requested a Certificate of Recognition be prepared for Innovative Media, 501 E. Whitcomb, who showed their support of America by making and supplying banners for companies and donating the proceeds to the American Red Cross. She also stated that the City should draft a resolution encouraging all our residents to display the U.S. Flag. She announced that Kinko's is offering free printed flags. She encouraged citizens to link to the American Liberty websites for organizing and accepting donations for the September 11th terrorist attacks and for flag etiquette. She also suggested that we put God in our personal and political vocabulary. She extended her condolences to Frank McFall on the passing of his stepfather Edward Oates.

Councilman Fisher echoed the comments.

Councilwoman Russell stated that with Council's agreement the City banners that are used for the 4th of July could be erected until Christmas.

Mayor Swanson extended sympathy to Frank McFall on the passing of his stepfather Edward Oates. He also stated that the V.F.W. fund raiser for the New York victims and their families was spectacular with the Madison Heights Fire Ladder truck flying the American Flag and the "Boot" donations raising over $24,000, and the V.F.W. collected over $1,000.

308. Adjournment.

There being no further business, Mayor Swanson adjourned the meeting at 8:20 p.m.

[Sec. 56-3-59.1.] Discharge prohibitions.

(a) **General pollutant prohibitions.** No user shall discharge or cause to be discharged into the POTW, directly or indirectly, any pollutant or wastewater which will cause interference or pass through. These general discharge prohibitions shall apply to all users of the POTW whether or not the user is subject to national categorical pretreatment standards or to any other federal, State, or local pretreatment standards or requirements. In addition, it shall be unlawful for a user to discharge into the POTW:

(1) Any liquid, solid or gas, which by reason of its nature or quantity, is sufficient either alone or by interaction with other substances to create a fire or explosion hazard or to be injurious in any other way to persons, to the POTW, or to the operations of the POTW. Pollutants, which create a fire or explosion hazard in a POTW, include, but are not limited to, wastestreams with a closed cup flash point of less than 140 F or 60 C using the test methods specified in 40 C.F.R. 261.21; or

(2) Any solid or viscous substance in concentrations or quantities, which are sufficient to cause obstruction to the flow in a sewer or other encumbrances to the operation of the POTW, including, but not limited to, grease, animal guts or tissues, bones, hair, hides or fleshlings, entrails, whole blood, feathers, ashes, cinders, sand, cement, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, strings, fibers, spent grains, spent hops, wastepaper, wood, plastic, tar, asphalt residues, residues from refining or processing of fuel or lubrication oil, mud or glass grinding or polishing wastes, or tumbling and deburring stones; or

(4) Any wastewater containing petroleum oil, nonbiodegradable cutting oil, products of mineral oil origin, or toxic pollutants in sufficient concentration or quantity either singly or by interaction with other pollutants to cause interference, or pass through, or constitute a hazard to humans or animals; or

(5) Any liquid, gas, solid or form of energy, which either singly or by interaction with other waste is sufficient to create toxic gas, vapor, or fume within the POTW in quantities that may cause acute worker health and safety problems, or may cause a public nuisance or hazard to life, or are sufficient to prevent entry into the sewers for their maintenance and repair; or

(6) Any substance which is sufficient to cause the POTW's effluent or any other product of the POTW, such as residue, sludge, or scum to be unsuitable for reclamation processing where the POTW is pursuing a reuse and reclamation program. In no case shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria guidelines or regulations developed under 33 U.S.C. 1345, with any criteria, guidelines, or developed and promulgated regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Toxic Substances Control Act, or with State criteria applicable to the sludge management method being used; or

(7) Any substance which will cause the POTW to violate either the Consent Judgment in U.S. EPA v. City of Detroit et al., Federal District Court for the Eastern District of Michigan Case No. 77-1100, or the City of Detroit's National Pollutant Discharge Elimination System permit; or

(8) Any discharge having a color uncharacteristic of the wastewater being discharged; or

(9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into a public sewer which exceeds 150 F or which will cause the influent at the wastewater treatment plant to rise above 104ºF (40ºC); or

(10) Any pollutant discharge which constitutes a slug; or

(11) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may

exceed limits established in compliance with applicable federal or State regulations; or

(12) Any floating fats, oil or grease which are sufficient to cause interference with or pass through the POTW; or

(13) Any solid materials having a specific gravity greater than 1.2 or a cross section dimension of one-half (1/2) inch or greater which are sufficient to cause interference with the POTW.

(b) Specific pollutant prohibitions. No user shall discharge wastewater containing in excess of the following limitations:

(1) Compatible pollutants.

a. Any Fats, Oil or Grease (FOG) in concentrations greater than 2000 mg/l based on the average of all samples collected within a twenty four (24) hour period.

b. Any total suspended solids (TSS) in concentrations greater than 10,000 mg/l.

c. Any Biochemical Oxygen Demand (BOD) in concentrations greater than 10,000 mg/l.

d. Any phosphorus in concentrations greater than 500 mg/l.

Unless otherwise stated, all limitations are based upon samples collected over an operating period representative of a user's discharge, and in accordance with 40 C.F.R. part 136.

(2) Non-compatible pollutants. No user shall discharge wastewater containing in excess of:

Total Arsenic (As)	1.0	mg/l
Total Cadmium (Cd)	2.0	mg/l
Total Copper (Cu)	4.5	mg/l

All limitations are based on samples collected over an operating period representative of an industrial user's discharge, and in accordance with 40 C.F.R. part 136.

(c) **National categorical pretreatment standards**. All users shall comply with the applicable National Categorical Pretreatment Standards and requirements promulgated pursuant to the act as set forth in 40 C.F.R. Subchapter N, Effluent Guidelines and Standards, which are hereby incorporated by reference and with all other applicable standards and requirements, provided, however, that where a more stringent standard or requirement is applicable pursuant to State law or regulation, or to this division, then the more stringent standard or requirement shall be controlling. Affected dischargers shall comply with applicable reporting requirements under 40 C.F.R. part 403 and as established by the Department. The National Categorical Pretreatment Standards which have been promulgated as of the effective date of this section are delineated in Appendix A.

(1) **Intake water adjustment**. Industrial users seeking adjustment of National Categorical Pretreatment Standards to reflect the presence of pollutants in their intake water must comply with the requirements of 40 C.F.R. 403.15. Upon notification of approval by the Department, the adjustment shall be applied by modifying the permit accordingly. Intake water adjustments are not effective until incorporated into an industrial user's permit.

(2) **Modification of national categorical pretreatment standards**. The Department may apply to the U.S. Environmental Protection Agency, or to the Michigan Department of Environmental Quality, whichever is appropriate, for authorization to grant removal credits in accordance with the requirements and procedures in 40 C.F.R. 403.7. Such authorization may be granted only when the POTW treatment plant can achieve consistent removal for each pollutant for which a removal credit is being sought, provided, that any limitation of such pollutant(s) in the NPDES permit neither are being exceeded nor pose the prospect of being exceeded as a result of the removal credit being granted. Where such authorization is given to the Department, any industrial user desiring to obtain such credit shall make an application to the Department, consistent with the provisions of 40 C.F.R. 403.7 and of this division. Any credits which may be granted under this section may be subject to modification or revocation as specified in 40 C.F.R. 403.7, or as determined by the Department. A requisite to the granting of any removal credit may be that the industrial user pay a surcharge based upon the amounts of such pollutants removed by the POTW, such surcharge being based upon fees or rates which the board may establish and, when appropriate, revise from time to time. Permits shall reflect, or be modified to reflect, any credit granted pursuant to this section.

(3) **New sources**. Industrial users who meet the new sources criteria shall install, maintain in operating condition, and 'start-up' all pollution control equipment required to meet applicable pretreatment standards before beginning to discharge. Within the shortest feasible time and not to exceed ninety (90) days, new sources must meet all applicable pretreatment standards.

(4) **Concentration and mass limits**. When limits in a categorical pretreatment standard are expressed only in terms of mass of pollutant per unit of production, the Department may convert the limits to equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users. Equivalent limitations shall be

calculated in accordance with Sections 40 C.F.R. 403.6(c)(3) and/or 40 C.F.R. 403.6(c)(4) and shall be deemed pretreatment standards for the purposes of 33 U.S.C. 1317(d) and of this division. Industrial users will be required to comply with the equivalent limitations in lieu of the promulgated categorical standards from which the equivalent limitations were derived.

(5) **Reporting requirements for industrial users upon effective date of categorical pretreatment standards-baseline report**. Within one hundred eighty (180) days after the effective date of a categorical pretreatment standard, or one hundred eighty (180) days after the final administrative decision made upon a category determination submission under Section 40 C.F.R. 403.6(a)(4), whichever is later, existing industrial users subject to such categorical pretreatment standards and currently discharging into or scheduled to discharge into the Detroit POTW shall submit to the Department a report containing the information listed in 40 C.F.R. 403.12(b))(1-7). Where reports containing this information have already been submitted to the Director or regional administrator in compliance with the requirement of 40 C.F.R. 128.140(b), the industrial user will not be required to resubmit this information. At least ninety (90) days before commencement of any discharge, each new source and any existing sources that become industrial users after the promulgation of an applicable categorical pretreatment standard shall submit to the Department a report which contains the information listed in 40 C.F.R. 403.12(b)(1-5). In such report, new sources shall include information concerning the method of pretreatment the source intends to use to meet applicable pretreatment standards. New sources shall provide estimates of the information requested in 40 C.F.R. 403.12(b,)(4) and (5).

(D) Dilution prohibited. Except where expressly authorized to do so by an applicable pretreatment standard or requirement, no user shall increase the use of process water, or in any way dilute or attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the national categorical pretreatment standards, or in any other pollutant specific limitation or requirement imposed by the City of Madison Heights**,** the City of Detroit or by the State of Michigan.

(E) **Hauled in wastewater**. Any waste material or wastewater which is hauled into or within the service region for discharge to the POTW is subject to the requirements of this division including, but not limited to, permits, inspection, monitoring and enforcement. Unloading liquid or solid waste from hauling vehicles, directly or indirectly, into the POTW, with or without the benefit of pretreatment, is prohibited unless the person proposing to unload such waste has applied for and received a permit from the department for unloading such waste in accordance with the Board's rules pertaining thereto. The discharger shall be subject to applicable terms and conditions, surcharges, fees or rates as established by the Board. Hauled in wastewater shall only be discharged at points designated by the POTW after authorization or approval issued pursuant to the general permit requirements specified in section **[56-3-61.1]** of this Code. The Department may establish specific limitations for sludge from municipally owned or operated POTW treatment plants which are different than the specific limitations in this division.

(F) **Centralized waste treatment**. It is unlawful for a centralized waste treatment (CWT) facility to discharge any industrial waste or wastewater into the POTW without a wastewater discharge permit from the Department. Any authorization granted, or permit issued, by the Department to a centralized waste treatment (CWT) facility shall specify the type of wastewater for which treatment is provided, and discharge approval is sought, from the POTW. Unless such industrial waste or wastewater is determined by the Department to require further authorization, a centralized waste treatment (CWT) facility that has submitted an application to, and received previous approval from, the Department to discharge wastewater is not required to obtain further authorization from the Department before discharging such wastewater.

An industrial user, that provides centralized waste treatment services and files an application for the treatment and discharge of such types of wastewater to the POTW, shall provide the following minimum information in support thereof:

(1) The general nature, source and process(es) generating the type of wastewater. Any wastewater, which is generated from those processes and is subject to national categorical pretreatment standards as delineated in Appendix A, shall be so designated;
(2) The identity of the toxic pollutants known or suspected to be present in the wastewater;
(3) At least one (1) sample report showing the results of an analysis for the EPA priority pollutants for each type of

wastewater for which application is made in Subsection (f)(1) of this section;

(4) A statement, that is certified by a professional engineer, which addresses the treatability and compatibility of the wastewater, received or collected by the facility's treatment process(es);

(5) The identity of the materials and/or pollutants whose transport or treatment are regulated by the EPA , by the State, or by any other governmental agency. Upon request, the centralized waste treatment (CWT) facility shall provide a copy of its permit and/or license to the Department; and

(6) Other information requested by the Department including, but not limited to, information required by section **[56-3-61.1(c)(1) through (18) of this Code]**, or by rules adopted by the Board.

The discharge from a centralized waste treatment (CWT) facility will be deemed approved for those specific types of wastewater delineated in a permit and, upon issuance of such permit in accordance with the procedures contained in section **[56-3-61.1 of this Code]**, will be deemed approved for discharge into the POTW. The centralized waste treatment (CWT) facility shall comply with all applicable provisions contained in section **[56-3-61.1 of this Code]** regarding permits. In furtherance of its obligations as control authority, the Department may include in the permit a requirement to report at selected intervals the information mandated in Subsections (1) through (6) of this section.

All users granted a permit under this section shall maintain records which, at a minimum, identify the source, volume, character, and constituents of the wastewater accepted for treatment and disposal. These records may be reviewed at any time by the Department.

(G) **Groundwater discharges**. Unless authorization has been granted by the Department, the discharge of any groundwater into the POTW is prohibited.

The Department may authorize the discharge of groundwater resulting from maintenance and related activities of gas, steam, or electrical utilities through the use of general permits. Subject to appropriate reporting requirements, the general permit shall authorize discharge in accordance with the terms of the permit. Utilities shall comply with this provision within one hundred eighty (180) days after its enactment.

If a person, who proposes to discharge groundwater resulting from purge, response activity, or UST projects, has applied for and received a permit from the Department, the Department may authorize the discharge of such wastewater. Permits shall be issued in accordance with the procedures contained in section **[56-3-61.1 of this Code]**, or in accordance with any rules adopted by the Board.

(H) City of Madison Heights **right of revision.** The City of Detroit and the City of Madison Heights reserve the right to establish rules or regulations adopted by the Board, additional or more stringent limitations or requirements on discharges to the POTW. **[These rules and regulations shall be adopted in accordance with the rule-making procedures in the 1997 , if any.]** Ninety (90) days after adoption by the Board, industrial users shall comply with such rules and regulations.

(I) **Accidental discharges.**

(1) Each industrial user, which does not currently have an approved spill prevention plan or slug control plan, shall provide protection from accidental discharge of prohibited materials or other substances regulated by this division, and all significant industrial users shall submit to the Department detailed plans which show facilities and operating procedures to be implemented to provide protection against such accidental discharges. Facilities and measures to prevent and abate accidental discharges shall be implemented, provided, and maintained at the owner's or industrial user's cost or expense. Unless the significant industrial user has an approved spill prevention or slug control plan, all existing significant industrial users shall complete and submit such a plan within sixty (60) days of the effective date of this division **[November 19, 1986]**. New significant industrial users shall submit such a plan prior to the time they commence discharging.

For purposes of this section, the information provided shall include the approximate average and maximum quantities of such prohibited materials or substances kept on the premises in the form of raw materials, chemicals and/or waste therefrom and the containment capacity for each. Only substances that are in a form which could readily be carried into the POTW and constitute a concentration of five percent (5%) or greater in the raw material, chemical solution or waste material, are required to be reported. Volumes of less than fifty-five (55) gallons, or the equivalent thereof, need not be reported unless lesser quantities could cause pass through or cause interference with the POTW.
The industrial user shall promptly notify the Department of any significant changes or modifications to the plan including, but not limited to, a change in the contact person, or substance inventory.

(2) At least once every two (2) years, the Department shall evaluate whether a significant industrial user needs a plan to control slug discharges, as defined by 40 C.F.R. 403.8(f)(2)(v). Unless otherwise provided, all significant users shall complete, implement, and submit such a plan within thirty (30) days of notification by the Department.

(J) **Notification requirements**. Unless a different notice is provided by this division or applicable law, within one (1) hour of becoming aware of a discharge into the POTW which exceeds or does not conform with Federal, State or City of Madison Heights laws, rules, regulations or permit requirements, or which could cause problems to the POTW, or which has the potential to cause the industrial user to implement its plan prepared in accordance with Subsection (1) of this section, the industrial user shall telephone the Department at its control center and notify the Department of the discharge. The notification shall include the name of the caller, the location and time of discharge, the type of wastewater, the estimated concentration of excessive or prohibited pollutants and estimated volume, and the measures taken, or being taken, to abate the discharge into the POTW. Within five (5) calendar days after the discharge, the industrial user shall submit a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences and when required by the department, the industrial user's wastewater discharge permit may be modified to include additional measures to prevent such future occurrences. Such notification shall not relieve the industrial user of any expense, cost of treatment, loss, damages or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other environmental impairment or any other damage to person or property.

(K) **Notice to employees**. A notice shall be permanently posted on the industrial user's bulletin board, or other prominent place, advising employees whom to contact in the Department in the event of an actual or excessive or prohibited discharge.

(L) **Recovery of costs**. Any user discharging in violation of any of the provisions of this division, which produces a deposit or obstruction, or causes damage to or impairs the Department's POTW, or causes the Department to violate its NPDES permit, shall be liable to the Department for any expense, loss, damage, penalty or fine incurred by the Department because of said violation or discharge. Prior to assessing such costs, the Department shall notify the user of its determination that the user's discharge was the proximate cause of

such damage, obstruction, impairment, or violation of the City's NPDES permit and the Department's intent to assess such costs to the user. Any such notice shall include written documentation which substantiates the determination of proximate cause and a breakdown of cost estimates. Failure to pay the assessed costs shall constitute a violation of this division. Such charge shall be in addition to, and not in lieu of, any penalties or remedies provided under this division, or this Code, or other statutes and regulations, or at law or in equity.

(M) **Hazardous waste notification**. All industrial users, who discharge into the City of Madison Heights Collection System, shall notify the Department in writing of any discharge of a substance which, if otherwise disposed of, would be a hazardous waste as set forth in 40 C.F.R. Part 261. Such notification must comply with the requirements of 40 C.F.R. 403.12(p).

(N) **Authorized representative**. The authorized representative, as defined in Section **[56-3-58.1(a)(2) of this Code]**, may designate a duly authorized representative of the individual designated in **[Section 56-3-58. 1(a)(2)(i) or (ii)]** where:

(1) The authorization is made in writing by the individual defined in **[Section 56-3-58.1(a)(2)(i) or (ii)];**

(2) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility where the industrial discharge originates, such as the position of plant manager, operator of a well or well field superintendent, or a position of equivalent responsibility, or having overall responsibility for environmental matters for the company; and

(3) The written authorization is submitted to the Department.

(O) **Pollution prevention**. The Department shall encourage and support industrial users to develop and implement pollution prevention programs which eliminate or reduce pollutant contributions beyond the levels required by this division. The Department may require an industrial user to implement pollution prevention initiatives as part of an enforcement response, or as necessary to comply with its NPDES permit.

[Sec. 56-3-60.1.] Fees.

(a) The purpose of this section is to provide for the recovery of costs from users of the POTW. The applicable charges or fees established by the Board shall be sufficient to meet the costs of the operation, maintenance,

improvement or replacement of the system, or as provided by law or by Board action.

(b) The Board shall adopt charges and fees which shall include, but not be limited to:

(1) Fees for reimbursement of costs of establishing, operating, maintaining, or improving the Department's industrial waste control and pretreatment programs; and

(2) User fees based upon volume of waste and concentration or quantity of specific pollutants in the discharge, and treatment costs including sludge handling and disposal; and

(3) Reasonable fees for reimbursement of costs for hearings including, but not limited to, expenses regarding hearings officers, court reporters, and transcriptions; and

(4) Other fees, which the Board may deem necessary, to carry out the requirements contained herein, or as may be required by law.

[Sec. 56-3-61.1.] Wastewater discharge permits.

(A) **Required**. It shall be unlawful for users to discharge into the POTW any wastewater which will cause interference or pass through, or otherwise not comply with the discharge prohibitions of **[Section 56-3-59.1 of this Code]**. It shall be unlawful for a significant industrial user to discharge into the POTW without a wastewater discharge permit from the Detroit Water and Sewerage Department. Unless otherwise expressly authorized by the Department through permit, order, rule or regulation, any discharge must be in accordance with the provisions of this division.

(1) All significant industrial users, which are in existence on the effective date of this division, shall apply for a wastewater discharge permit within thirty (30) days of the effective date of this division. Significant industrial users who are currently operating with a valid wastewater discharge permit are not subject to this provision. These applications are to include all information specified in **[Section 56-3-61.1(c) of this Code]** and, where applicable, any additional information which may be needed to satisfy the federal baseline monitoring report requirements of 40 C.F.R. 403.12(b).

(2) All new significant users shall apply for a wastewater discharge permit at least ninety (90) days prior to commencement of discharge. The application must include all information specified in **[Section 56-3-61.1(c) of this Code]** and, where applicable, any additional information that may be

needed to satisfy the federal BMR requirements of 40 C.F.R. 403.12(b). Until a permit is issued and finalized by the Department, no discharge shall be made into the POTW.

(3) Any user, who proposes to discharge any wastewater other than sanitary or noncontact cooling water into the POTW, shall request approval from the Department for the discharge(s) at least thirty (30) days prior to the commencement of the discharge.

(b) **Permit application or reapplication.** The Department may require any user to complete a questionnaire and/or a permit application and to submit the same to the Department for determining whether the industrial user is a significant user, or to determine changes in the wastewater discharges from a user's facility. Within thirty (30) days of being so notified, a user shall comply with the Department's request in the manner and form prescribed by the Department. Failure of the Department to so notify a user shall not relieve the user of the duty to obtain a permit as required by this division.

(1) A user, which becomes subject to a new or revised National Categorical Pretreatment Standard, shall apply for a wastewater discharge permit within ninety (90) days after the promulgation of the applicable National Categorical Pretreatment Standard, unless an earlier date is specified or required by 40 C.F.R. 403.12(b). The existing user shall provide a permit application which includes all the information specified in **[Section 56-3-6 1.1(c) and (g) of this Code]**.

(2) A separate permit application shall be required for each separate facility.

(3) Existing permittees shall apply for permit reissuance a minimum of ninety (90) days prior to the expiration of existing permits on a form prescribed by the Department.

(c) **Application or reapplication information**. In support of an application or reapplication for a wastewater discharge permit, the industrial user shall submit, in units and terms appropriate for evaluation, the following information:

(1) Corporate or individual name, any assumed name(s), federal employer identification number, address, and location of the discharging facility;

(2) Name and title of the authorized representative of the industrial user who shall have the authority to bind the industrial user financially and legally;

(3) All SIC numbers of all processes at this location according to the Standard Industrial Classification manual, issued by the Executive Office of the President, Office of Management and Budget, 1987, as amended;

(4) Actual or proposed wastewater constituents and characteristics for each parameter listed in the permit application form. Such parameters shall include those applicable pollutants having numeric limitations as enumerated in **[Section 56-3-59.1(a) and (b) of this Code]**, those pollutants limited by national categorical pretreatment standards regulations for applicable industries and any toxic pollutants known or suspected to be present in the discharge, regulated in the previous permit, or specifically requested by the Detroit Water and Sewerage Department. For each parameter, the expected or experienced maximum and average concentrations during a one (1) year period shall be provided. For industries subject to national categorical pretreatment standards or requirements, the data requested herein shall be separately shown for each categorical process wastestream. Combined wastestreams proposed to be regulated by the combined wastestream formula shall also be identified. Sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to 33 U.S.C. 1314(g) and contained in 40 C.F.R. Part 136, as amended. Where 40 C.F.R. Part 136 does not include sampling or analytical techniques for the pollutants in question, sampling and analysis shall be performed using validated analytical methods approved by the administrator.

(5) A listing and description of activities, facilities and plant processes on the premises. Those processes, which are subject to national categorical pretreatment standards or requirements, shall be so designated. As pertains to Subsection (c)(4), of this section, identify which pollutants are associated with each process;

(6) Restricted to only those pollutants referred to in Subsection (c)(4), of this section, a listing of raw materials and chemicals which are either used in the

manufacturing process or could yield the pollutants referred to in Subsection (c)(4). Any user claiming immunity from having to provide such information for reasons of national security shall furnish acceptable proof of such immunity;

(7) A description of typical daily and weekly operating cycles for each process in terms of starting and ending times for each of the seven (7) days of the week:

(8) Denote (i) The average and maximum twenty-four (24) hour wastewater flow rates including, if any, daily, monthly and seasonal variations; (ii) each national categorical process wastestream flow rate and the cooling water, sanitary water and storm water flow rates separately for each connection to the POTW; and (iii) each combined wastestream;

(9) A drawing showing all sewer connections and sampling manholes by the size, location, elevation and points or places of discharges into the POTW; also a flow schematic showing which connections receive each national categorical process wastestream and which connections receive storm water, sanitary water or cooling water; also show which lines handle each combined wastestream. This schematic shall be cross-referenced to the information furnished in Subsection (c)(8) of this section;

(10) Each product produced by type, amount, process or processes and rate of production as pertains to processes subject to production based limits under the national categorical pretreatment standards or requirements only;

(11) A statement regarding whether or not the requirements of this division and of the national categorical pretreatment standards and requirements are being met on a consistent basis and, if not, what additional operation and maintenance work and/or additional construction is required for the industrial user to meet the applicable standards and requirements. This statement shall be reviewed and signed by the authorized representative and, as appropriate, certified by a qualified professional;

(12) Basic information on the program for the prevention of accidental discharges in accordance with the

requirements of **[Section 56-3-59. 1(i) of this Code]**;

(13) Proposed or actual hours of operation of each pretreatment system for each production process;

(14) A schematic and description of each pretreatment facility which identifies whether each pretreatment facility is of the batch type or continuous process type;

(15) If other than Detroit Water and Sewerage Department potable water, the industrial user's source of intake water together with the types of usage and disposal method of each water source, and the estimated wastewater volumes from each source;

(16) If additional construction and/or operation and maintenance procedures will be required to meet the requirements of this division and the national categorical pretreatment standards, the shortest schedule by which the user will provide such additional construction and/or implement the required operation and maintenance procedures;

(17) Identify whether the user has conducted a waste minimization assessment or audit of its operations in order to identify all feasible source reduction and recycling practices that may be employed to reduce or eliminate the generation of pollutants and other waste at the facility; and

(18) Any other information as may reasonably be required to prepare and process a wastewater discharge permit.

(D) **Permit issuance.** Upon receipt of an application, the Department shall review the application, determine, and so notify the industrial user in writing regarding any of the following:

(1) The industrial user does not meet the definition of a significant industrial user and is not required to have a wastewater discharge permit;

(2) The industrial user does meet the definition of a significant industrial user but is found by the Department to have no reasonable potential for adversely affecting the POTW operation or for violating any pretreatment standard or requirement, and is not required to have a wastewater discharge permit. The Department shall make such determination in accordance with the requirements of 40 C.F.R. 403.8(f)(6);

(3) The application is incomplete or the information only partially satisfies the information and data required by 40 C.F.R. 403.12 or by the Department, and that additional information and data are required which shall be promptly furnished. Where appropriate, the industrial user is notified regarding specific information that is missing, or that the application is unacceptable;
(4) The industrial user is required to have a wastewater discharge permit. The Department shall notify the industrial user of its determination and the basis of the determination.

The Department may withhold issuance of a permit to a significant user, which has not submitted an adequate or timely report, or permit application, to the Department as the control authority in accordance with the reporting requirements of 40 C.F.R. 403.12, or whose discharge is in violation of this division. If the Department determines that an industrial user is required to have a wastewater discharge permit and has evaluated and accepted the data furnished, the industrial user will be notified accordingly by certified mail. The notification shall contain a copy of the draft permit, so marked, for the industrial user's review. An industrial user has thirty (30) days from the date of mailing to file a response to the draft permit and, in accordance with the procedures contained in **[Section 56-3-67.1 of this Code]**, twenty (20) days from the date of mailing to file an appeal regarding a permit issued as final. Upon disposition by the Department of any contested terms or conditions, a permit shall be issued as final. Only one (1) facility location shall be included in each permit.

(E) **Permit conditions**. Wastewater discharge permits shall contain all requirements of 40 C.F.R. 403.8(f)(1)(iii) and shall be deemed to incorporate all provisions of this division, other applicable laws, rules, regulations, and user charges and fees established by the City of Detroit or **City of Madison Heights** without repetition therein. In addition, permits may contain the following:
(1) Limits on the average and maximum wastewater constituents or characteristics which are equivalent, more restrictive than, or supplemental to the numeric limits enumerated in **[Section 56-3-59.1 of this Code],** or the applicable national categorical pretreatment standards;
(2) Limits on average, and maximum rate and time of discharge or requirements for flow regulation and equalization;
(3) Requirements for installation, operation, and maintenance of discharge sampling manholes and monitoring facilities by the industrial user;

(4) Restrictions on which of the user's discharge wastestreams are to be allowed to be discharged at each point of connection to the POTW;

(5) Specifications for industrial user monitoring programs which may include sampling locations, frequency and type of sampling, number, types and standards for tests and reporting schedules;

(6) Requirements for the prevention of accidental discharges and the containment of spills or slug discharges;

(7) Restrictions based on the information furnished in the application;

(8) Additional reporting requirements:

a. All permittees shall submit a report on the form prescribed by the Department, or on an alternative form approved by the Department, indicating the status of compliance with all conditions enumerated or referred to in the wastewater discharge permit, or made applicable to the permit by this division. Unless required more frequently, the reports shall be submitted at six (6) month intervals on a schedule to be established by the Department. Analytical data generated by the Department may not be submitted in lieu of the facility's own monitoring data as required by the wastewater discharge permit.

b. Permittees not subject to national categorical pretreatment standards or requirements shall submit a report in accordance with the requirements of **[Section 56-3-61.1(e)(8)(d) and (e) of this Code].** The report shall show the concentration of each substance for which there is a specific limitation in the permit, or which may be identified by the Department in accordance with **[Section 56-3-61.l(e)(9) and (11) of this Code].**

c. Permittees subject to national categorical pretreatment standards or requirements shall submit compliance reports at the times and intervals specified by federal regulations and by the Department. A compliance report shall be submitted to the Department no later than ninety (90) days following the final compliance date for a standard, or in the case of a new source, no later than ninety (90) days, following commencement of the introduction of wastewater into the POTW, and in accordance with 40 C.F.R. 403.12(d). A report on continued compliance shall be submitted at six (6) month intervals thereafter on the schedule established by the Department and incorporated into the industrial users discharge permit and in accordance with **[Section 56-3-61.1(e)(8)(d) and (e) of this Code].** The reports shall be either on a form prescribed by

the Department or on an alternate form approved by the Department, and shall indicate the nature and concentration of all pollutants in the discharge from each regulated process which are limited by national categorical pretreatment standards, or which there is a specific limitation in the permit, or which may be identified by the Department in accordance with **[Section 56-3-61.1(e)(9) and (11) of this Code].** The report shall include a record of measured or estimated average and maximum daily flows for the reporting period for the discharges regulated by the permit. The combined wastestream formula may be used for reporting purposes after the initial information has been furnished to the Department, provided there have been no changes to the elements composing the combined wastestream.

d. Reports shall contain the results of representative sampling performed during the period covered by the report and of the discharge and analysis of pollutants contained therein, and, for significant industrial users subject to production based standards, shall be cross-referenced to the related flow or production and mass as required to determine compliance with the applicable pretreatment standards. The frequency of monitoring shall be as prescribed in the applicable general pretreatment regulations, being 40 C.F.R. Part 403, or by the Department, but no less than is necessary to assess and assure compliance by the industrial user with the most stringent applicable pretreatment standards and requirements. All sampling and analysis shall be performed in accordance with applicable regulations contained in 40 C.F.R. Part 136 and amendments thereto. Where 40 C.F.R. Part 136 does not include sampling or analytical techniques for the pollutants in question, sampling and analysis shall be performed using validated analytical methods approved by the administrator. If an industrial user monitors any pollutant more frequently than required by the Department using the procedures as prescribed in this section, the results of this monitoring shall be included in such report. The report shall state whether the applicable pretreatment standards are being met on a consistent basis and, if not, what additional operation and maintenance practices and/or pretreatment system improvements or changes are necessary to bring the industrial user into compliance with the applicable pretreatment standards.

e. This report, and those required under **[Sections 56-3-59. 1(c)(5) and 56-3-61. 1(e)(8)(b) and (c) of this Code],** shall

include the following certification statement: "I certify under penalty of law that this document and all attachments were prepared under my direction, or supervision, in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and/or imprisonment for knowing violations. Said certification shall be signed by the facility's authorized representative, as defined in **[Section 56-3-58.1(a)(2) of this Code].** If an authorization is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for environmental matters for the company, a new authorization satisfying the requirements of the authorized representative definition must be submitted to the Department prior to, or together with, any reports to be signed by an authorized representative.

f. If sampling performed by a permittee indicates a violation, the user shall notify the Department within twenty-four (24) hours of the time said user becomes, or should have become, aware of the violation. In addition, the user shall repeat the sampling and analysis, and submit the results of the repeat analysis to the Department within thirty (30) days after said user becomes, or should have become, aware of the violation.

(9) In the event the Director determines that an industrial user is discharging substances in quality, quantity or at locations which may cause problems to the POTW, or the receiving stream, the Department has the authority to develop and enforce effluent limits applicable to the user. To the extent the Department seeks to impose restrictions in a permit which are more restrictive than established in this division, the Department shall provide written documentation to explain the greater restriction for protection against pass through, interference, or violation of the NPDES permit;

(10) Requirement for pollution prevention initiatives; and

(11) Other requirements reasonably necessary to ensure compliance with this division.

(f) **Permit duration.** Permits shall be issued for a specified time period. Except as deemed necessary by the Department, or as otherwise provided for under this division, permits shall be issued for a specified

period of not more than five (5) years nor less than one (1) year. The existing permit for significant industrial users, who timely submit an application for permit reissuance to the Department, shall be automatically extended until a permit is issued as final.

(g) **Permit modification**. The terms and conditions of the permit may be subject to modification by the Department during the term of the permit as limitations or pretreatment standards and requirements identified in **[Section 56-3-59.1 of this Code]** are amended, or other just cause exists. Just cause for a permit modification includes, but shall not be limited to, the following:

(1) Material or substantial changes to an industrial user's facility or operation, or changes in the characteristics of the industrial user's effluent. It shall be the industrial user's duty to request an application form and apply for a modification of the permit within thirty (30) calendar days of the change;
(2) Change(s) in the Department's NPDES permit;
(3) Embodiment of the provisions of a legal settlement or of a court order;
(4) Any changes necessary to fulfill the Department's role as control authority;
(5) An industrial user's noncompliance with portions of an existing permit;
(6) A change of conditions within the POTW;
(7) A finding of interference or pass through attributable to the industrial user;
(8) Amendments to, or promulgation of, national categorical pretreatment standards or requirements including 40 C.F.R. Part 403 and those delineated in Appendix A of this division. Permittees shall request an application form and apply to the Department for a modified permit within ninety (90) days after the promulgation of a new or revised national categorical pretreatment standard to which the industrial user shall be subject. Information submitted pursuant to this subsection shall be confined to that information related to the newly promulgated or amended national categorical pretreatment standard or requirement. However, information previously submitted need not be duplicated, insofar as the previously submitted information continues to be current and applicable. In addition, the Department may initiate this action;
(9) Changes in the monitoring location. **[(See Section 56-3-62.1 of this Code)]**;
(10) Typographical errors or omissions in permits;
(11) The Department may modify the permit on its own initiative based on its findings or reasonable belief of the above; or

(12) The user may request a modification of the permit.
When initiated by the Department, the industrial user shall be informed of any proposed change in its permit. The Department will issue a draft permit and an industrial user has thirty (30) days to file a response to the draft modified permit. Thereafter, the Department will issue a final permit and, unless appealed in accordance with the procedures contained in **[Section 56-3-67.1 of this Code]**, the permit will become effective twenty (20) days after issuance.

(h) **Permit custody and transfer**. Wastewater discharge permits are issued to a specific person as defined herein for a specific discharge. A wastewater discharge permit shall not be reassigned or transferred or sold to a different person, new owner, new industrial user, different premises, or a new or changed operation without notice to and written approval of the Department, and providing a copy of the existing permit to the new owner or operator. It shall be the permit holder's duty to notify the Department of any such change at least thirty (30) days before the date of the change. Wastewater discharge permits, which do not receive the written approval of the Department prior to the change, shall be null and void regardless of reassignment, or transfer, or sale. If it has occurred, the Department may revoke a permit. If a change takes place, the Department may require the application for a new or modified permit. Any succeeding person shall comply with the terms and conditions of any existing permit which the Department allows to be retained.

(i) **Permit notification requirements**. All industrial users shall promptly notify the Department in advance of any substantial change in the volume or character of pollutants in their discharge, including the listed or characteristic hazardous waste for which initial notification under 40 C.F.R. 403.12(p) has been made, request a permit application form, and apply for a modification of the permit at least thirty (30) calendar days prior to the change. Failure of the industrial user to so apply shall be considered a violation of this division.

[Sec. 56-3-62.1] Monitoring facilities.

(a) Significant industrial users shall provide, operate and maintain at their own expense a sampling manhole or special structure to facilitate monitoring, inspection, sampling, and flow measurement of their discharge by the Department and the industrial user, and to enable the Department to conduct such other monitoring and sampling as required for determining compliance with discharge requirements, limits

and standards as provided for in this division. In the event the Department determines that the monitoring facility identified in the permit application is inadequate, a new monitoring facility must be identified, or provided, which shall allow for collection of a representative sample of the wastewater discharged from the facility. Unless otherwise determined at the discretion of the Department, said facility shall be provided within ninety (90) days of receipt of notification by the Department. The industrial user shall provide the Department with:

1) A drawing showing all sewer connections and sampling manholes by the size, location, elevation, and points or places of discharges into the POTW;
(2) A flow schematic showing: (i) which connections receive each national categorical process wastestream, (ii) which connections receive storm water, sanitary water or cooling water, and (iii) which lines handle each combined wastestream. This report shall be certified by a professional engineer. If a significant industrial user fails to install the monitoring facilities within the prescribed time limits, then the Department may install such structure or device and the significant user shall reimburse the Department for any costs incurred therein.

(b) The sampling manhole should be situated on the industrial user's premises in a location readily accessible to the Department. When such a location would be impractical or cause undue hardship to the industrial user, the Department may allow the facility to be constructed in the public street or sidewalk area when there is room and the location will not be obstructed by landscaping or parked vehicles. It shall be the responsibility of the industrial user to obtain any necessary approvals which may be required from other government agencies for the location and construction of monitoring facilities. There shall be ample room in or near such sampling or monitoring manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility and any permanently installed sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the industrial user. Whether constructed upon public or private property, the sampling and monitoring facilities shall be provided in accordance with the Department's requirements and all applicable local construction standards and specifications. **[(See Section 56-3-61.1(g).)]**

[Sec. 56-3-63.1] Inspection, sampling and record-keeping.

(a) For purposes of administering and enforcing this division, any other applicable provisions of this **[Code]** or applicable State or Federal laws and regulations, the Department may inspect the establishment, facility or other premises of the industrial user. The Department's employees or authorized representative shall have access to the industrial user's premises for purposes of inspection, sampling, compliance monitoring and/or metering activities.

(b) Each such inspection or sampling activity shall be commenced and completed at reasonable times, and in a reasonable manner. Upon arrival at the industrial user's premises, the Department shall inform the industrial user, or the industrial user's employees, that sampling and/or inspection is commencing, and that the facility's authorized representative has the right to observe the inspection and/or sampling. The Department shall neither refrain from, nor be prevented or delayed from, carrying-out its inspection or sampling duties due to the unavailability of the authorized representative of the facility to observe or participate in the inspection or sampling activity.

(c) While performing work on private property, employees or authorized representatives of the Department shall observe all reasonable safety, security and other reasonable rules applicable to the premises as established by the industrial user. Duly authorized employees or representatives of the Department shall bear proper credentials and identification, and at the industrial user's option may be accompanied by a duly authorized representative of the industrial user. Duly authorized Department representatives shall not be restricted from viewing any of the facility site. Department employees or representatives may take photographs of facilities subject to this division. Which shall be maintained by the Department as confidential in accordance with **[Section 56-3-64.l of this Code].**

(d) Where an industrial user has security measures in force, the industrial user shall make prompt and necessary arrangements with the security personnel so that, upon presentation of appropriate credentials, personnel from the Department will be permitted to enter for the purposes of performing their specific responsibilities.

(e) Significant industrial users shall sample and analyze their discharge in accordance with the provisions of their permit. The Department may require such samples to be split with the Department for the Department's independent analysis.

(f) Industrial users shall maintain records of all information from monitoring activities required by this division, or by 40 C.F.R. 403.12(n). Industrial users shall maintain the records for no less than three (3) years. This period of record retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the industrial user, or the operation of the City of Detroit's Industrial Waste Program, or when requested by the department, by the State, or by the EPA.

(g) Upon the request of the Department, industrial users shall furnish information and records relating to discharges into the POTW. Industrial users shall make such records readily accessible to the Department at all reasonable times, and allow the Department to copy such records.

(h) In the event the Department obtains samples, and analyses are made of such samples, a copy of the results of such analyses shall be promptly furnished upon written request by the industrial user's authorized representative. When requested by the industrial user, the Department employee or representative shall leave with the user, a portion of any sample of the user's discharge taken from any sampling point on or adjacent to the premises for the user's independent analysis. In cases of disputes arising over shared samples, the portion taken and analyzed by the Department shall be controlling unless proven invalid.

(i) In addition to any other violation caused by the discharge described herein, in the event a single grab sample of the industrial user's discharge is obtained by the Department, and then analyzed in accordance with 40 C.F.R. Part 136, and found to contain concentrations of pollutants which are two (2) or more times greater than the numeric limitations as listed in **[Section 56-3-59.1(b) of this Code]**, or as contained in the facility's wastewater discharge permit, the industrial user shall implement its slug control plan, and shall provide a written report to the Department within fourteen (14) days, which describes the cause of greater concentration and provides a description of the means by which future discharge concentrations will be held to values of less than two (2) times the limitation in the future.

[Sec. 56-3-64.1.] Confidential information.

(a) Information and data on an industrial user obtained from written reports, questionnaires, permit applications, permits and monitoring programs, and from inspections shall be available to the public or other governmental agencies without restriction unless the industrial user specifically requests and is able to demonstrate to the satisfaction of the Department that the release of such

information would divulge information, processes or methods of production entitled to protection as trade secrets of the industrial user.

When submitted to the Department, all information claimed to be confidential must be clearly marked 'confidential'. When requested by the person furnishing the report, the portions of a report determined by the Department to disclose trade secrets or trade secret processes, and which are clearly labeled as confidential, shall not be made available for inspection by the public, but shall be made available upon request to governmental agencies for uses related to this division, to the National Pollutant Discharge Elimination System (NPDES) permit, and to the State Disposal System permit and/or the pretreatment programs, provided, however that information shall be treated as confidential by the governmental agency, until such time as the information has been determined to be non-confidential by the governmental agency. Confidential information on industrial users, which the Department releases pursuant to a request of another governmental agency, should be handled by the other governmental agency pursuant to its own confidentiality procedures. The Department cannot control how another governmental agency handles such confidential information, and assumes no responsibility for the disposition of the information released to the governmental agency. The Department will use sufficient care to inform the other governmental agency of the existence of the industrial user's confidentiality claim.

The Department shall determine whether the information requested to be treated as confidential, in fact, satisfies the requirements of confidential information as defined herein. The decision of the Department shall be made in writing.

Wastewater constituents and characteristics will not be recognized as confidential information.

(b) Except as otherwise determined by the Department or provided for by applicable law, all information with respect to an industrial user on file with the City shall be made available upon request by such user or the user's authorized representative during normal business hours.

[Sec. 56-3-65.1.] Statutes, laws and regulations.

The National Categorical Pretreatment Standards defined in 40 C.F.R. Chapter I, Subchapter N, Parts 405-471, shall be and are incorporated by reference herein and made a part hereof. Unless otherwise provided, any

reference in this division to a code, standard, rule, regulation, or law enacted, adopted, established, or promulgated by any private organization, or by any element or organization of government other than the City of Madison Heights shall be construed to apply to such code, standard, rule, regulation, or law in effect or as amended or promulgated, from the date of enactment of this division.

[Sec. 56-3-66.1.] Enforcement.

(a) **Violations**. It shall be a violation of this division for any user to:

(1) Fail to completely and/or accurately report the wastewater constituents and/or characteristics of the industrial user's discharge;

(2) Fail to report significant changes in the industrial user's operations or wastewater constituents and/or characteristics within the time frames provided in **[Section 56-3-61.1(g)(1) of this Code];**

(3) Refuse reasonable access to the industrial user's premises, waste discharge, or sample location for the purpose of inspection or monitoring;

(4) Restrict, lockout or prevent, directly or indirectly, access to any monitoring facilities constructed on public or private property. The locking or securing of the monitoring facility shall not constitute a violation pursuant to this subsection, provided, that upon request reasonable access to the facility is promptly provided to the Department;

(5) Restrict, interfere, tamper with, or render inaccurate any of the Department's monitoring devices including, but not limited to, samplers;

(6) Fail to comply with any condition or requirement of the industrial user's wastewater discharge permit;

(7) Fail to comply with any limitation, prohibition, or requirement of this division including any rule, regulation, or order issued hereunder. Industrial users acting in full compliance with wastewater discharge permits issued prior to the effective date of this division shall be deemed to be in compliance with the requirements of this division, and such permits shall remain in effect and be enforceable under this division until a superseding permit is effective. Industrial users shall comply with applicable national categorical pretreatment standards and requirements on the date specified in the federal Regulations, regardless of compliance schedules.

(b) **Upsets**. An upset shall constitute an affirmative defense to an action brought for noncompliance with national categorical pretreatment

standards where the requirements of Subsection (1) of this section are met.

(1) An industrial user who wishes to establish the affirmative defense shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence, that:

a. An upset occurred and the industrial user can identify the cause(s) of the upset;

b. At the time, the facility was being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

c The industrial user has submitted the following information to the Department, orally or in writing, within twenty-four (24) hours of becoming aware of the upset and where this information is provided orally, a written submission must be provided within five (5) days:

(i) A description of the discharge and cause of noncompliance;

(ii) The period of noncompliance including exact dates and times or, if not corrected, the anticipated time the noncompliance is expected to continue; and

(iii) Steps being taken and/or planned to reduce, eliminate and prevent recurrence of the noncompliance.

(2) In any enforcement proceeding, the industrial user seeking to establish the occurrence of an upset shall have the burden of proof;

(3) The industrial user shall control production of all discharges to the extent necessary to maintain compliance with this division upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost or fails.

(c) **Bypass**. Bypasses are prohibited unless the bypass does not cause a violation of pretreatment standards or requirements, but only if it is for essential maintenance to ensure efficient operation of the treatment system. These bypasses are not subject to the provisions of Subsections (1) and (2) of this section.

(1) Notice of anticipated bypass. Industrial users anticipating a bypass shall submit notice to the Department at least ten (10) days in advance.

(2) Notice of unanticipated bypass. An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards within twenty-four (24) hours from the time the industrial user becomes or should have become aware of the bypass. A written submission shall be provided within five (5) days of the time the industrial user becomes or should have become aware of the bypass. The written submission shall contain a description of the bypass including exact dates and times, and if the bypass has not been corrected, the anticipated time it is expected to continue, and steps taken or planned to reduce, eliminate and prevent reoccurrence of the bypass.

(3) Prohibition of bypass and enforcement. Bypass is prohibited, and the Department may take enforcement action against a user for a bypass, unless:

a. The bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

b. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated waste, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventative maintenance; and

c. The industrial user properly notified the Department as described in Subsection (c)(2) of this section.

(4) Bypass approval. Where it meets all conditions in Subsection (c)(3) of this section, the Department may approve an anticipated bypass.

(d) **Emergency suspensions and orders**. The Department may order suspension of the sewer or wastewater treatment service and/or a wastewater discharge permit where, in the opinion of the Department, such suspension is necessary to stop any actual or threatened discharge which presents or may present an imminent or significant hazard to the

health or welfare of persons or to the environment, interferes or may interfere with the POTW, or causes or may cause the City of Detroit to violate any condition of its NPDES permit. Any person notified of a suspension of the sewer or wastewater treatment service and/or the wastewater discharge permit shall immediately stop or eliminate the contribution. In the event the Department provides informal notification under this section, written confirmation and an order shall be provided within twenty-four (24) hours. In the event of a failure of the person to comply voluntarily with any suspension or revocation order, the Department shall take such steps as deemed necessary, including immediate severance of the sewer connection or services, to prevent or minimize damage to the POTW system or danger to any individual or the environment. In the event such steps are taken, the Director shall notify the industrial user within twenty-four (24) hours in writing of such action and order, and the specific recourse available. In any event, the Department shall provide the industrial user with an opportunity for a hearing before the Director, or his designated representative, within ten (10) days of such action. The industrial user shall submit a detailed written statement to the Department within fifteen (15) days of the occurrence describing the causes of the harmful contribution and the measures taken to prevent any future occurrence. Upon proof of elimination of the noncomplying discharge, the Department shall reinstate the wastewater discharge permit and/or the sewer or wastewater treatment service.

(e) **Notice of violation**. Except in the case of an actual or threatened discharge as specified in Subsection (d) of this section, whenever the Department has reason to believe that any industrial user has violated or is violating this division, the Department shall serve a written notice stating the nature of the violation upon such industrial user. Where applicable, the Department shall pursue appropriate escalating enforcement action as defined within its approved enforcement response plan. The failure of the Department to issue a notice of violation shall not preclude the Department from escalating its enforcement response.

(f) **Administrative actions**. Whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, or a pretreatment standard or requirement or any prohibition of this division, the Department, except in the case of emergency or flagrant violation, may initiate appropriate administrative enforcement action in order to compel the industrial user to eliminate or to remedy such violation as soon as possible.

(1) a. **Conferences**. The Department may order any person, who violates this division, to attend a conference wherein the Department may endeavor to cause the user to eliminate or remedy the violation by establishing an enforceable compliance schedule. The notice of violation

shall be served at least ten (10) days before the scheduled conference and shall set forth the date, time, and place thereof. The conference shall be conducted by a representative of the Department. The industrial user shall present a plan and schedule for achieving compliance with this division. Nothing contained herein shall require the Department to accept or agree to any proposed plan or schedule, or to prevent the Department from proceeding with a show cause hearing as set forth in Subsection (2) of this section. If the attendees agree upon a compliance schedule, the user and the Department's duly authorized representative may enter, by consent, into a compliance agreement or an administrative order setting forth the terms of such agreement. An industrial user must exhibit good faith and expeditious efforts to comply with this division and any procedures, requirements, and agreements hereunder.

b. **Compliance schedules**. The user and the Department may agree upon a schedule which sets forth the terms and conditions, and time periods or schedules for completion of actions to remedy or to eliminate the causes of violation. These schedules may be developed as part of a compliance agreement, or an administrative consent order. Schedules developed under this subsection shall adhere to the following conditions:

(i) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of upgraded or additional pretreatment facilities, or to the implementation of additional operation and maintenance procedures required for the industrial user to meet the applicable pretreatment requirements and standards including, but not limited to, hiring an engineer, completing preliminary plans, completing final plans, executing contracts for major components, commencing construction, and completing construction;

(ii) No single increment referred to in Subsection (i) of this section shall exceed nine (9) months;

(iii) Not later than fourteen (14) days following each date in the schedule and the final date for compliance, the industrial user shall submit a progress report to the Department including, at a minimum, whether it complied with the increment of progress to be met on such date and, if not, the date which it expects to comply with this increment of progress, the reason(s) for delay, and the steps being taken by the industrial user to return to the established schedule; and (iv) Any deviations from the compliance schedule may result in the industrial user being found in violation of this division.

c. **Administrative orders**. The Department may order any industrial user, who violates or continues to violate this division or a duly issued permit, to install and to properly operate devices, treatment facilities, or

other related appurtenances. In addition, orders may contain such other requirements as might reasonably be necessary and appropriate to address the violation including the installation of pretreatment technology, additional self-monitoring and management practices, implementation of a waste minimization assessment to identify and implement feasible source reduction, and recycling practices to reduce the generation or release of pollutants at the facility. An order may be either an administrative consent order, which is the result of an agreement, or a unilateral administrative order.

(2) **Show cause hearing**. The Department may order any industrial user, who violates this division or allows such violation to occur, to show cause before the Department why a proposed enforcement action should not be taken. A notice shall be served upon the industrial user specifying the time and place of a hearing before the Department regarding the violation, the reason(s) why the action is to be taken, the proposed enforcement action, and directing the industrial user to show cause before the Department why any proposed enforcement action should not be taken. The notice of the hearing shall be served personally, or by registered or certified mail with return receipt requested, at least ten (10) days before the hearing. Service may be made upon any agent or officer of a corporation, or its authorized representative.

a. Hearing Proceeding. The hearing shall be conducted in accordance with the procedures adopted by the Board. A hearings officer shall conduct the show cause hearing and take the evidence, and may:

(i) In the name of the Board, issue notices of hearing requesting the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in such hearing;

(ii) Transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the Director for action thereon.

b. Transcript. At any show cause hearing held pursuant to this division, testimony shall be recorded by a court reporter.

(3) **Actions**. After a show cause hearing has been conducted, the hearings officer shall issue an order to the industrial user directing any of the following actions:

a. Immediate compliance with the industrial user's wastewater discharge permit or with any applicable limitation, condition,

restriction or requirement of this division, or applicable local, State or Federal law or regulation;

b. Pretreatment of waste by installation of adequate treatment equipment or proper operation and maintenance of existing treatment equipment be accomplished within a specified time period;

c. Submission of compliance reports on effluent quality and quantity as determined by self- monitoring and analysis during a specified time period;

d. Submission of periodic reports on effluent quality and quantity determined by self-monitoring analysis throughout the final period set by a compliance date;

e. Control of discharge quantities;

f. Payment of costs for reasonable and necessary inspection, monitoring, and administration of the industrial user's activities by the Department during compliance efforts; and/or

g. Any such other orders as are appropriate including, but not limited to, immediate termination of sewer or wastewater treatment services, or revocation of a wastewater discharge permit, or orders directing that following a specified time period sewer or wastewater treatment service will be discontinued unless adequate treatment facilities, devices, or operation and maintenance practices have been employed.

H. A finding the user has demonstrated by a preponderance of the evidence that a violation either of this division or of a duly issued permit did not occur.

(4) **Public notification of significant noncompliance**. The Department shall publish in the largest daily newspaper published in the City of Detroit and the City of Madison Heights a list of all industrial users which were in significant noncompliance with applicable pretreatment requirements at any time during the previous twelve (12) months. All industrial users identified in a proposed publication shall be provided with a copy of the proposed notice at least thirty (30) days before publication and allowed an opportunity to comment as to its accuracy.

(g) **Legal actions.**

(1) Criminal action: Any user, who violates any provision of this division including the failure to pay any fees, fines, charges or surcharges imposed hereby, or any condition or limitation of a permit issued pursuant thereto, or who knowingly makes any false statements, representations or certification in any application, record, report, plan or other document filed or

required to be maintained pursuant to this division or wastewater discharge permit, or who tampers with or knowingly renders inaccurate any monitoring device required under this division, is guilty of a misdemeanor and, upon conviction, shall be punished by a fine not to exceed five hundred dollars ($500.00) for each violation per day, or by imprisonment for not more than ninety (90) days, or by both. The Department, consistent with the terms and conditions of the Delegation Agreement entered into with City of Madison Heights, is hereby authorized, through its counsel, to seek prosecution of criminal charges against any person violating any provision of this division.

(2) Civil action: Whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, a pretreatment standard or requirement or any requirement of this division, the Director may commence a civil action to compel compliance in a court of competent jurisdiction to enjoin the user from discharging, and/or to obtain appropriate relief to remedy the violations. The Department or Board may also seek additional legal and/or equitable relief. The commencement of suit does not constitute an exclusive election of remedies and does not prohibit the Department, Director, Board, City of Detroit or the City of Madison Heights from commencing action in Federal Court for discharges believed to be in violation of this division, State and Federal requirements contained in the Clean Water Act, the City of Detroit's NPDES permit, or other applicable laws or requirements. In addition, the City of Detroit and/or the City of Madison Heights may recover the reasonable attorney fees, court costs, court reporters' fees, and other unusual expenses related to enforcement activities or litigation against the person found to have violated this division, or the orders, rules, regulations and permits issued hereunder.

(3) All fines, costs, and penalties which are imposed by any court of competent jurisdiction shall be payable to the City of Detroit Water and Sewerage Department and the City of Madsion Heights where applicable.

[Sec. 56-3-67.1.] Reconsideration and appeal.

Through the procedures of reconsideration and appeal, a user may contest actions, determinations, or decisions of the Department which result from its construction, application and enforcement of this division. The procedures contained within this section govern reconsideration and

appeal with respect to construction, application, and enforcement of this division.

(a) **Selection of reconsideration or of appeal**.

(1) Except for those actions, determinations, or decisions which are expressly identified as subject only to appeal, reconsideration may be requested by any permit applicant, permittee, authorized industrial wastewater discharger or other discharger, who is adversely affected by any action, determination, or decision that is made by, or on behalf of, the Department by the Director, or an authorized representative, and that interprets, implements or enforces the provisions of this division.

(2) An appeal may be requested by any permit applicant, permittee, authorized industrial wastewater discharger or other discharger, who is adversely affected (i) by a permit issued as final by the Department, or (ii) by an administrative order entered after a show cause order and hearing, or after a hearing for reconsideration.

(3) Unless otherwise expressly provided for by this division, a request for reconsideration or appeal must be signed by an authorized representative, and received at the Department's General Offices within twenty (20) days from the date of the occurrence of the action, determination, or decision in dispute. A request for reconsideration shall contain the requester's name and address, a brief statement of the reason(s), and the factual basis underlying the request.

(4) A request for reconsideration shall be filed in triplicate either by hand delivery or by certified mail to the General Offices of the Department. Where a request for reconsideration or appeal either is not filed within the time period provided for in this subsection or is improperly made, the action, determination or decision of the Director, or the Department's authorized representative, is final and any right to reconsideration or appeal may be deemed waived.

(b) **Reconsideration**. Within fifteen (15) days after receipt of a timely and proper request for reconsideration, the Department shall notify the applicant of the time and place for a hearing.

(1) A hearing for reconsideration shall be conducted by a hearings officer who is designated by the Director and may be an employee of the Department. The decision of the hearings officer shall be in the form of a recommendation to the Director and embodied in an administrative order. Except for an administrative consent order that was negotiated and

agreed to by both parties, an administrative order is appealable in accordance with Subsection (c) of this section.

(2) Where improperly or untimely submitted, the Department may reject a request for reconsideration. The Department shall notify the requester in writing that the request has been rejected.

(3) Unless the date is mutually extended by both parties, the hearing shall be conducted neither less than ten (10) days nor more than thirty (30) days after mailing of the notice. For cause and at the discretion of the hearings officer, the hearing may be continued for a reasonable time.

(4) The hearing for reconsideration shall be an informal consultation and conference where the requester in person, or by counsel, shall present their argument, evidence, data, and proof in connection with the issue(s) being reconsidered. The parties shall not be bound by the Michigan Rules of Evidence. The hearing shall be transcribed and the requester may obtain a copy of the hearing transcript, as appropriate, from the Department or from the court reporter.

(5) Within thirty (30) days after the close of the hearing, the hearings officer shall issue a final decision which shall contain a recommendation to the Director. The hearings officer shall send such decision to the requester by certified mail.

(6) Unless such action is necessary to prevent pass-through, interference or other harm to the POTW, to the public or to the waters of this State, the filing of a request for reconsideration in accordance with this section shall stay the action by the Department that is the subject of the hearing for reconsideration.

(c) **Appeal**. Within thirty (30) days after receipt of a timely and proper request for an appeal, the Department shall notify the applicant in writing regarding the time and place for a hearing. The hearing shall be conducted in accordance with procedures set by the Board until rules are promulgated pursuant to Section 2-111 of the 1997 Detroit City Charter. In addition:

(1) Any request for an appeal must be made within twenty (20) days of the Department's action, determination or decision regarding the request for reconsideration or any permit issued in accordance with this division.

(2) Where a request either is not filed within the time period contained in this subsection or is improperly made, the action, determination or decision of the Director, or the Department's authorized representative, is final and any right to appeal may be deemed waived. Where untimely or improperly submitted, the Department

may reject the request for an appeal, and shall notify the requester in writing that such request has been rejected.

(3) The Department shall appoint a hearings officer. The hearings officer shall review the evidence, and within fifteen (15) days after the close of the hearing shall issue a written recommendation to uphold, modify or reverse the action, determination, or decision of the Department.

(4) The written recommendation of the hearings officer shall be submitted to the Board which shall render a final decision within thirty (30) days of its next regularly scheduled meeting.

(5) In accordance with applicable law, the user or the Department may appeal any final decision of the Board to a court of competent jurisdiction.

(6) Unless such action is necessary to prevent pass through, interference, or other harm to the POTW, to the public or to the waters of this State, the filing of a request for appeal in accordance with this section shall stay the action by the Department that is the subject of the appeal.

40. Red Oaks Golf Course Preservation and Host Community Fee Agreements.

Motion by Councilman Clark, supported by Councilwoman Scott, to concur with the recommendation of City Manager Austin and to approve the two Host Community Fee Agreements with George W. Kuhn Drain District and Southeast Oakland County Resource recovery Authority, contingent on the sale of the property, granting of the easement, and entry of the Consent Judgment.

Yeas: Clark, Corbett, McGillivray, Scott, Shad and Swanson.
Nays: None.

Councilman Clark thanked City Manager Austin for his leadership and County Commissioner Suarez support for this project.

Councilwoman Shad inquired if the concerns of the residents who live along the golf course have been addressed. City Manager Austin stated that special attention and concerns were forwarded to the Architect who has designs that should not create problems for the abutting residents.

Mayor Pro Tem Corbett stated that this project was successful because of the determination and their efforts of City Manger Austin and support of County Commissioner Suarez.

Mayor Swanson read a statement from City Manager Austin, " I would like to publicly thank those who were very key to the resolution of this issued including Oakland Drain Commissioner John McCulloch, the GWK Drain

District Board, Oakland County Parks and Recreation Executive Director Ralph Richard and Chairman Pecky Lewis and the Commission, and Troy City Manager John Szerlag and his staff. In addition I would like to acknowledge support received from the cities of Berkley, Beverly Hills, Ferndale, Hazel Park, Huntington Woods, Oak Park, Royal Oak and Troy and the Oakland County Executive's Office, Oakland County Commissioners Suarez and McPherson and the Board of Commissioners. It was through the collective efforts of these organizations and individuals and the direction of the Madison Heights City Council that this difficult issue is finally resolved to the benefit of all parties." Mayor Swanson thanked City Manager Austin and County Commissioner Suarez for their hard work.

City Attorney L. Sherman stated that the when this issued started several years ago he thought that it would be an easy resolution, however, it was difficult task for the City to put the parties together to reach a tri-party resolution that will result in the golf course being saved, As a result of the tentative agreement negotiated by the City Manager, the golf course was saved and the City will receive including an annual inflationary adjustment. As it pertains to SOCRRA there are still many other issues that the City is involved with and these agreements are a positive first step.

53. Public Hearing – Financing of Proposed Fire Station Headquarters.

City Manager Austin gave an overview of the financial impact of funding the proposed Fire Station Headquarters on an average Madison Heights homeowner. A public hearing was held to hear comments on the financing of the proposed Fire Station. The following residents spoke:

Marge Manoogian, 28748 Edward asked if the training tower would be used by other communities, and would there be a cost to them and asked about the size and purpose of the auditorium. Fire Chief Martin stated that the cost of the training tower is approximately $300,000 and would be used by the Madison Heights Fire Department, however with the mutual aid pact with eight other communities, at least nine communities could be utilizing the training tower and they could be assessed a fee for its use, which would off-set Madison Heights training costs. He also stated that the auditorium is approximately 1,200 square feet and would be used for indoor training. The design allows use by the public without access to other sections of the Fire Station.

Mayor Pro Tem Corbett and Councilman McGillivray asked if the City is typically charged when using other facilities. Fire Chief Martin stated that it depends on the type of training. When working with OAKWAY Communities, the mutual aid communities, it's a shared cost. Training

classes at the Oakland Fire Training Institute or Macomb Fire Training Institute must be paid for.

Councilman McGillivray asked when was the last time they used a tower facility to train. Fire Chief Martin stated it has been a couple years since the high angle rescue team went to Ferndale; but they use other facilities in the City that have a high roof to simulate training maneuvers such as the DPS building.

Councilman Clark asked if Fire Chief Martin expected better training and more appropriate training with a fire tower. Fire Chief Martin stated that a great deal more can be done such as live fire training, confined space training and high angle rescue training.

Councilwoman Russell stated that during Fire Station Task Force discussions it was noted that when Fire Fighters go to Ferndale to train they are either drawing overtime or are away from the station while on duty. Training here would not incur overtime costs and they would be able to respond to a rescue run.

Councilman McGillivray asked about the cost of training at outside facilities. Fire Chief Martin stated that training all three units, assuming a three hour minimum of overtime, would cost approximately $3000, or $1000 per unit. He also stated that some training is also required at Michigan State Police training center, generally in Lansing, that requires overtime.

Councilwoman Shad inquired as to how many training towers there are in the surrounding communities. Fire Chief Martin stated that Ferndale has one, Birmingham is constructing one and the City of Troy just opened a training facility that includes an attached tower as an integral component of the building.
Galen Steck, 1841 Englewood asked if it would be financially advantageous for Madison Heights to have a training tower and would we realize revenue from it. He also stated that he favored the proposed facility. Fire Chief Martin stated it would help to off set our training costs.

Robert Maten, 31512 Kenwood asked what additional equipment is anticipated to be purchased for a 5th bay and would the City store vehicles for other departments or other cities. Fire Chief Martin stated that there is no intention to house equipment for other communities. Currently five pieces of front line apparatus - the engine, the ambulance, the tower, hazmat special response vehicle as well as our technical rescue trailer and tow vehicle, are stored at the north station.

Ronald Vannoy, 1572 Ann Terrace, stated that he was on the Fire Station Task Force and it is his opinion that there is a dire need for the training tower due to the senior citizen towers and apartment high rises. The Task Force studied closely other cities and looked ahead 20 years and determined that the proposed Fire Station size is not too big, but is planned so that it will not be necessary to ask the taxpayers for more money in the future for a 4th or 5th bay expansion, if not done now.

John Pulice, 20869 Avondale stated that he favored the proposed fire station and that the current fire station does not provide adequate facilities for the Fire Fighters.

Peggy Rachubinski, 29604 Howard stated that in her opinion there is a definite need to expand and renovate the fire station to house all the equipment but expressed concern for seniors living on fixed incomes who could not afford the $26.73 per year. She stated that the economy is in a recession, the state shared revenues have been decreased and questioned if other fire stations cost $6 million. She suggested that the City renovate and expand to accommodate only the absolute needs of the fire station without additional costs or only minimal costs to residents. She asked if options were considered to close off the street west of the existing fire station to expand the building. She asked about the number of signatures that are needed for a referendum petition as stated in Option 2 of the financial analysis? City Manager Austin stated 10% of the registered voters, approximately 2000 signatures, are needed for a referendum. Dennis Dundon, Architect, stated that the actual construction cost of the Fire Station is $4,191,000. Fire Stations in Delta Township, Clinton Township and the City of Wayne have comparable fire stations. He is currently working with 6 or 7 fire stations that are in various states of design and construction and this proposal is comparable in dollars and size. Mr. Dundon stated that changing the park access road changes the alignment of the traffic pattern and is expensive. Any addition to the existing station would need to be over 10,000 square feet. The needs analysis looked at attaching additions on the north, east and west sides of the existing station and could not develop any feasible floor plans, in addition the problems with the existing building which is deteriorating and cracking were also noted.

Tony Bliss, 29056 Tawas asked about the need for a training tower. Fire Chief Martin stated there is a great deal of indoor (classroom) and outdoor training mandated by the State of Michigan for fire fighters on an annual basis. The tower will allow a higher, more realistic, quality training and is a very important part of the project.

Mr. Bliss further asked about the Daily Tribune report of a proposed $9 million fire station and asked what amenities were given up. Fire Chief Martin stated that a $9 million fire station had never been discussed and nothing was given up. He expressed a concern that the $6 million dollar project could be perceived as expensive but that it was the unanimous recommendation of the Fire Station Task Force.

Councilman Clark noted that to renovate and add to the existing fire station would be well over $4 million.

Mayor Pro Tem Corbett stated that it would take $4.4 million and nothing would be gained to simply rehabilitate the existing facility.

Raymond Ellis, 1290 Jerry Avenue, stated that he toured the fire station at the last Open House and agreed that it needs renovation. After viewing the plans he questioned the amount of storage allocated and the need for a multi-purpose room with the availability of rooms in City Hall, the Library and Police Station. He was concerned about the location and its impact on the basketball courts, soccer and small children play area. Mayor Pro Tem Corbett stated that the design is angled to economize on that space and will not disrupt the hill.

Mr. Ellis further stated he tried to get information from the City web page and was unable to open all the files. Assistant City Manager Myers stated that the files are very large and take a long time to load but that he will recheck all the links. Mr. Ellis stated he supports the City but is concerned about finances and asked Chief Martin what he would cut to bring down the cost. Chief Martin stated that the 10-member Task Force reviewed several different alternatives in terms of apparatus layout, number of bays, the size of the building and that he is comfortable with their recommendation.

Gary George, 1735 Castlewood stated he originally had some of the same concerns about finances and that, as a member of the Fire Station Task Force, their recommendations were based on actual needs and getting the most from the dollar. The existing fire station does not have accommodations for female Fire Fighters, does not have a public lobby or adequate rooms for CPR or Red Cross classes. He stated that the cost of the training tower would be 5 cents per year per residential taxpayer and is needed because of concerns for public safety. The Task Force recommendation was based on real needs analysis and that money spent now will save costs in the future. He also asked about potential interest gains on the Bond funds prior to use on construction and the current Charter millage limit.

Mr. Dundon stated that if the City waits to put the issue on the November, 2002 ballot, construction work could not start until the spring of 2003. Because of economics, right now it is a great time, if you can go to bid today. Next year no one knows the dynamics and impact on the cost estimate, and it would behoove the City, given the current bidding market to take act sooner.

City Manager Austin stated that the City is currently earning 2½% on invested funds and that there are restrictions to issuing debt to make money as a city. The project must progress and the funds be used. The likely increase in the cost of the project would be greater than the interest income achieved. When the debt is issued, the City would receive the maximize interest rate available. Under our City Charter and with the subsequent approvals, the City millage for those charter voted millages are 16.25 mills and we are currently levying 14.3 mills so there is quite a bit of capacity available for issuing Limited Tax General Obligation Bonds. The millage could be as low as under 4/10th of a mill if we financed over 20 years.

Richard LePage, 30980 Plum Lane stated he favors a vote by the taxpayers on a $6 million project.

Tony Bliss, 29056 Tawas stated that he calculated that to renovate the old building would be $18.14 annually, or about $9.00 a year difference than constructing a brand new building.

Walter Bezz, 500 East Irving stated that he favored a new fire station.

Clifford Oglesby, 26136 Groveland, stated that he was a citizen member on the Fire Station Task Force. He stated that the building would be 90% full to capacity if it were built tomorrow. He viewed other stations and by reading and talking about what needs to be stored, found there is never enough storage space. This rule of thumb is to decide what is needed today and in the future and add 30%. More space is needed for supplies and equipment each time new duties are given to the Fire Department. He favors building large enough so that it will not be necessary to expand in 10 to 20 years.

Galen Steck, 1841 Englewood, stated that, as a journeyman and skilled tradesman he understands the value of continued training and supports spending the money for the new fire station.

Richard LePage, 30980 Plum Lane, reiterated that the residents should decide.

Peggy Rachubinski, 29604 Howard suggested that the City Council Chambers could be utilized for training and to keep the old fire station for storage of vehicles, which could reduce the size of the building and reduce the cost.

Mayor Pro Tem Corbett closed the public hearing and stated that any other comments could be made in writing or call to the City Manger or City Council.

Councilwoman Russell stated that taxes have gone up because school millages approved by the voters, and that market values on the homes have also increased. The City is aware of the bad economic times and although State revenue was cut last year and another cut is expected next year, City taxes were not raised and water rate increases were not passed down to citizens. Money has been set aside to buy green space for parks and for capital improvements. The Fire Station Task Force was fiscally responsible and that if the project was financed for 20 years citizens should be able to pay the approximate $1.50 per month per average household. She stated she is confident that the residents will support a new Fire Station for the firemen because of the handicap facility they are operating under now.

Councilwoman Shad requested that the winter and summer tax bills be put on the website showing what percentages of tax dollars go to the City, the County, the Colleges and the Schools Districts. She compared the sizes of the City Hall at 50,000 square feet, the Police Station at 40,000 square feet and the proposed Fire Headquarters at 19,000 square feet. She stated that a new fire station has been needed for more than ten years, especially now that cities have assumed the key role in national defense and are frontline in the war against domestic terrorism and local disasters.

Councilman McGillivray asked Fire Chief Martin if there will be mandatory training at the tower and how often? Fire Chief Martin stated that there is mandatory, state required training that firefighters have to have on an annual basis and much of that training would take place in the tower on a weekly basis. The Fire Station Task Force explored moving the training tower off the site of the proposed fire station location but felt the training tower was best situated at the station for convenience in conducting training.

Councilman McGillivray thanked the Task Force and agreed that a new station is needed but that this proposal is too large, that 4 Bays would be enough, and that an outside consulting firm should have been hired for the Needs Analysis instead of an architect. He stated the proposed

auditorium is not necessary because the Police Auditorium is not utilized enough and there is the Breckenridge Room at the Main Library. He is in favor of the public voting on the issue. He also requested that the Administration investigate use of the current fire station for parks and recreation programs, storage spaces and meeting rooms.

Fire Chief Martin thanked the residents for their support of the Fire Department over the years, for upgrading the Advanced Life Support, the purchase of the new tower and that the state-of-the-art technology that is used and is at their disposal, all of which, has made their job easier. He stated that this project has been in the development stages for a few years and is not a knee jerk reaction to 9-11-01. The project that is proposed in terms of the size is really more testament to how small the current building is as opposed to the size of the proposed new building.

Councilwoman Russell stated that the proposed auditorium would have access to the public, with removable seats to accommodate training and meetings. She reiterated that the Task Force was trying to anticipate the needs for enough space and storage for 20 to 30 years so that additions and remodeling won't need to be done.

Councilwoman Scott stated that 20 years ago we didn't have the chemicals that are being stored at the fire station and that buildings are taller and vastly different now. In another 20 years, when the population is older on average, we are going to need an adequate and well-trained Fire Department. Further, she disagreed with the use of the existing fire station for storage because it would cause a delay of essential emergency services if the Fire Department had to take the time to go get the equipment.

Mayor Pro Tem Corbett inquired as to what was the cost of the 1,200 square foot room and what would be the difference if we did not build the auditorium?

City Manager Austin stated that the cost, based on the architect assumes, would be $240,000, but the room could not be completely eliminated because some type of classroom is essential for training.

Dennis Dundon, Architect noted, for informational purposes, that Clinton Township has a special operations truck that is 57 feet long, to be used for bio-terrorism issues, with another special operations trailer and that this is the trend in future fire departments.

54. Meeting Open to the Public.

Peggy Rachubinski, 29604 Howard inquired as to how much money did the City receive in increased revenues, residential and commercial, using last year as an example, and if the city is taking in additional revenues why isn't some of that being saved for facilities that needed to be upgraded and what is the city doing with the increases. Mayor Pro Tem Corbett stated that residential is 3% because it is capped under Headlee. City Manager Austin stated that last year's property tax cap, as a result of Proposal A, was 3.2%, the year before that it was 1.9% and the year before that it was 1.6%. These are the increases that are allowed on existing real estate that the City is able to capture the maximum amount as a result of Headlee. Mayor Pro Tem Corbett stated that costs are also rising and the average salary increase for employees is 3%.

Councilwoman Russell also stated that the City has sustained contract increases and 25% increases in medical which the City has absorbed without charging it back.

City Manager Austin stated that the property tax represents 2/3 of what it takes to operate the City's General Fund, which goes to fund employees wages and benefit, utility increases, maintenance projects, commodities, contracts and a lot of these are increasing faster than revenues and the City is always looking for cheaper ways to operate and provide services.

Peggy Rachubinski asked what the percentages represented in dollar figures. City Manager Austin stated that all categories of property taxes both existing and addition to business and residential is about $800,000.

Jim Coulson a member of the Madison Heights Jaycees stated that they have won the State of Michigan Jaycees Governor's Cup for the fourth time in 8 years and thanked the City for their generous help. Marie Kelsey, 24551 Colin Kelly, Centerline, Jaycee member, announced that they are looking for sponsors for the Easter Egg Hunt.

68. Public Hearing – S. A. D. 260 – Resolution 3a

A public hearing was held to hear comments, if any, on the necessity to construct concrete pavement, approaches, sidewalks, landscaping, storm sewer connections and miscellaneous related improvements on Howard north of Whitcomb, Losee between Howard and Milton and Milton between Whitcomb and Mandoline. Mr. Mark Eisenberg, 32329 Milton stated that he was opposed to the installation of the sidewalks and in his opinion it would increase his liability insurance. He also stated that no one uses the sidewalks in an industrial area and he was opposed to an assessment due to the poor economy. David Nichols, President of Nichols Precision Tool, Inc., 32369 Milton stated that there is no foot traffic in the area to justify a sidewalk and the area is designed for industrial traffic. He also submitted a letter, dated February 21, 2002 stating that he was opposed to the sidewalks and objected to the assessment on the his property. City Attorney L. Sherman stated that the State Supreme Court decision states the ratio of 2.6 to 1 is excessive and the City Assessor's assessment of the cost to benefit analysis is way below 2 to 1 in contrast to Mr. Nichols appraiser's comments that it is 7.8 to 1. Mr. Frank Cancro, owner of

Allied Bindery Company, 32460 and 32470 Milton stated that Milton needs paving but inquired as to the immediate need for the sidewalks. City Manager Austin stated that the sidewalks proposed as part of this project is part of a comprehensive plan adopted by the City Council for installation of sidewalks where they do not exist and in this case the City would be funding 40% of the cost of the sidewalks, which is only $48,000 or less than 3% as compared to the $1.7 million project. The reasons that Council felt sidewalks were necessary is to enhance pedestrian safety, to accommodate projected future businesses, to link the employment centers with the bus routes, and to save money coordinating sidewalk projects with the road projects. There being no further comments, the public hearing was closed.

Supported by Councilman Corbett,

82. Public Hearing – SAD #260 , Resolution 5a

A public hearing was held to hear comments, if any, to confirming Special Assessment Roll 260 for the construction of paving, approaches sidewalks, landscaping, storm sewer, connections and miscellaneous related improvements on Howard north of Whitcomb, Losee between Howard and Milton and Milton between Whitcomb and Mandoline. City Manager Austin recapped the history of the project and the Special Assessment District Policy. He stated that after postponement of SAD 260 in the fall of 2001, there were several meetings with property owners, and changes were made to the project which required that the SAD process be started over. Letters objecting to the assessments were received from the following: Judith E. Laine, 32401 Howard and Mark Eisenbert, President, CTS, Inc. 32329 Milton. Frank Kerr, 32069 Milton, speaking for himself and also 32399 Milton (J.E. Myles, Inc) and 32345 Howard (W.I.T.T., Inc.). He thanked the Mayor and City Council for addressing the needs of the property owners but stated that they have questions concerning the standards used for the proposed assessments and the determinations of the City Assessor as to what side, front and rear yardage standards are. He gave examples of properties he believed were assessed incorrectly. City Assessor McLachlan explained the criteria for determining assessments and what they are based on. Scott Myles, 32399 Milton, stated there is an inequity of their assessment which is 6 times larger than the business at 1100 Mandoline, which is a larger building with three frontages. He is concerned that the street will be used to drain storm water and asked for a long-term performance guarantee on the construction of the road because he would not want to pay again. David Nichols, President of Nichols Precision Tool, Inc., 32369 Milton disagreed that Milton addresses should be assessed as rearages instead of frontages. He does not see the necessity for sidewalks and asked who would be liable if the sidewalks were cracked and damaged by over flooding from the street. Alex Nicolaescu, City Engineering Consultant stated Madison Heights is not on a flood plain, that the street is guaranteed for two years but is designed on a 30 year concrete pavement association professional standard. 128. Facilities Security Committee – Expansion of Pistol Free Zones Resolution.

Motion by Councilman Corbett,
Supported by Councilwoman Russell,

WHEREAS, the City of Madison Heights is a Michigan Municipal Corporation, organized under and existing by virtue of the Laws of the State of Michigan; and

WHEREAS, in pursuit of its governmental function, the City of Madison Heights operates and maintains numerous Municipal Buildings and Properties open to the members of the public; and

WHEREAS, these Buildings include a City Hall, two (2) Public Library Buildings, two (2) Fire Stations, a Police Station, the 43rd Judicial District Court, a building for the Department of Public Services, a Senior Center, a Nature Center, a Youth Center, numerous Parks and other Properties ("Municipal Facilities"); and

WHEREAS, on July 1, 2001, the new Concealed Pistol Statute, being specifically Michigan Complied Laws (MCL) 28.425 et seq., ("New Law"), took effect; and

WHEREAS, the New Law will dramatically increase the number of people carrying concealed pistols in the State of Michigan; and

WHEREAS, the New Law created some limited "Pistol Free Zones," such as schools or school property, public or private day care centers, sports arenas or stadiums, dining rooms licensed under the Liquor Control Act, places of worship, entertainment facilities with a seating capacity of greater than 2,500 people, hospitals, college dormitories and classrooms, and casinos; and

WHEREAS, the New Law omitted Municipal Facilities and Courthouses from its definition of "Pistol Free Zones;" and

WHEREAS, the Michigan Supreme Court issued its own Administrative Orders which held, in pertinent part, that notwithstanding the New Law, NO weapons would be permitted in any courtroom, office or other space used for official Court business or by Judicial employees unless the Chief Judge or other person designated by the Chief Judge has given prior approval consistent with the Court's written policy; and

WHEREAS, numerous members of the public, including senior citizens, children of all ages, residents, visitors, employees and vendors, frequent and use the City's Municipal Facilities; and

WHEREAS, two (2) local municipalities have directly challenged the State Statute by passing Ordinances prohibiting anyone (except sworn Law

Enforcement Officers on duty) from entering its municipal buildings with a concealed pistol, even it that person has a valid permit; and

WHEREAS, there is no legitimate or valid reason for people (except sworn Law Enforcement Officers and Reserve Police Officers on duty) to carry concealed pistols in Municipal Facilities.

NOW, THEREFORE, BE IT RESOLVED, as follows: The City of Madison Heights, a Michigan Municipal Corporation, requests that the definition of "Pistol Free Zones," contained in the new Concealed Pistol Statute, being specifically Michigan Complied Laws (MCL) 28.425 et seq., be expanded to include Municipal Facilities in order to protect the numerous men, women and children who utilize these Facilities.

BE IT FURTHER RESOLVED, that copies of this Resolution be forwarded to Governor John Engler, United States Senator Carl Levin, United States Senator Debbie Stabenow, United States Representative Sander Levin, Michigan State Senator Shirley Johnson, Michigan State Representative David Woodward, Oakland County Commissioner George W. 129. Fire Station Bond Resolution.

Eugene Kaczmar, 31430 Meadows inquired if the City investigated the financing of the bonds through the County. City's Bond Counsel Don Keim, of Miller, Canfield, Paddock and Stone stated that during the public hearing in February a comparison was made between a Limited Tax Obligation Bond Issue and a Voted General Obligation Bond Issue and the city would expect to receive a lower interest rate then going through the County's financing program. City Manager Austin stated that as part of the discussion the direction of Council was to put this issue to the voters to have the ability to voice their opinion on the millage. Mr. Kaczmar presented a copy of the County's plan and wanted to know if the City would consider this before they vote on the bond resolution. Mr. Keim explained that the County's process was a two step process which involves voting the project but if could also be delayed and would not receive the same interest rate. City Manger Austin stated that if the City went through the County the facilities would be owned by the Oakland County Building Authority and the City would be making the lease payments based on the debt service and the County would have the obligation of

having at least a portion of the building available for county utilization and would need to use the building to qualify for the program. Mayor Pro Tem Corbett stated the best case for the Madison Heights taxpayers is a vote approved bond. Mr. Keim stated that that was correct because the City has a good bond rating and we do not need the benefit of the County, as do some other communities.

Councilman McGillivray stated that he has been against the size and scope of the Fire Station project but does favor allowing the voters to decide.

Clifford Oglesby, 26136 Groveland, who served on the Fire Station Task Force urged Council to look at the best interest rate in the long term, and the cost to the public.

John Pulice, 30869 Avondale stated that it would be cost an average household about $1.15 per month.

Gary George, 1735 Castlewood inquired if this ballot proposal was not approved by the voters what would happen to the project and he urged expediting this project because the longer we wait every ¼ per cent increase in the interest rate would roughly increase the project by $90,000. Councilwoman Russell stated that the City would address this issue after the election, if needed. Mayor Pro Tem Corbett stated that he has complete respect of the Fire Station Task Force and whatever the voter says the City Council will work with; and the proposal put forth is sound and proactive.

Robert Maten, 31512 Kenwood stated that the taxable valuation goes up every three years and a new resident would be assessed much higher and should receive an explanation that this $15.60 is not a fixed cost per year. City Manager stated that it's the average costs and not the first year's cost and the Administration took into consideration the growth and tax base of 2 per cent per year and this information will be provided to the public. Don Keim, Bond Counsel clarified that once the bonds are sold you have a fixed dollar amount due each year and as the taxable value of properties goes up the required amount of millage to meet that same dollar amount goes down and the tax bill would not change significantly in 20 years.

Raymond Ellis, 1290 Jerry, stated that the proposed Fire Station is too much of a sprawl and other designs could have been used as well as existing structures. He also stated that the sample summer/winter tax bills for the proposed Fire Station on the web site do not reflect the 20 year bond issue. City Manager Austin stated that the web site contains the most conservative estimate based on options presented in February to

City council and the information will be updated if Council adopts the 20 year General Obligation Bond issue.

Councilwoman Shad stated that she as well has faith in the Community and that this proposal is for the safety and security of our residents as well as our Fire Fighters.

Motion by Councilman Clark,
Supported by Councilman Corbett,

REQUEST: Special Approval for a motor vehicle light repair facility under Section 10.326(11) of the Zoning Ordinance.

EXISTING USE: Vacant. Former Speedy Muffler Facility.

STAFF ANALYSIS:

Speedy Muffler was granted Special Approval for a motor vehicle maintenance service facility in 1988 with no conditions. The applicant's proposed expansion of services to include transmission and axle repair requires special approval as a motor vehicle light repair facility.

No expansion of the building is proposed. However, the parking lot will be expanded to meet required parking for the proposed use. Adequate space exists on the site to accommodate the parking expansion. The proposed

site plan reflects required parking as well as the required concrete screening wall around the expanded rear parking area for vehicles awaiting service.

Hours of operation:

Monday – Friday
8:00 am – 6:00 p.m.
Saturday
8:00 a.m. – 2:00 p.m.

Number of employees: 6

The Site Plan Review Committee has reviewed the site plan and has no additional comments to address.

Should Council consider approval of this request, the following conditions are recommended:

1. Hours of operation limited to:
   Monday –Friday
   8:00 a.m. – 6:00 p.m.
   Saturday
   8:00 a.m. – 2:00 p.m.

2. All vehicles awaiting service shall be located within the building or the enclosed screened parking area.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.326 (11) of the Code of Ordinances, hereby approves the request subject to the following conditions:

There being no comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Scott,

WHEREAS, Ari-El Enterprises, Inc. 29548 Southfield Road, Suite 200, Southfield, Michigan, has requested the City to vacate Midland Avenue adjacent to Lots 39 & 40 of Mally's Industrial Subdivision; and

WHEREAS, the Planning Commission held a public hearing on February 19, 2002 and there was one comment from the audience; and

WHEREAS, the Planning Commission recommends the vacation of the above described area, subject to the following conditions:

1. Retention of a 20' wide easement running north/south on the westerly 20' of Midland Avenue
2. Retention of any additional easement requirements from Detroit Edison pending their review

WHEREAS, the City Council held a public hearing this date and there were no objections from the audience;

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council determines that it is necessary for the health, welfare, comfort and safety of the people of the City to absolutely vacate and discontinue the street described as:

Midland Avenue adjacent to Lots 39 & 40 of Mally's Industrial Subdivision

BE IT FURTHER RESOLVED, that the City Clerk shall within thirty (30) days forward to the State Treasurer, the Department of Commerce, Subdivision Control Unit, and record with the Register of Deeds, a certified copy of said resolution.

Nays: None.

151. Public Hearing – Special Approval at 31191 Stephenson Highway.

A public hearing was held to hear comments, if any, permitting the use of an Allstate Insurance Claim Center autobody repair center at 31191 Stephenson Highway, said property is zoned M-1, Light Industrial. Frank Burke, Director of Construction representing Sterling Auto Body, the applicant, was present and stated that the building would be completely renovated and the site would be modified. He also requested that the hours of operations be extended Monday through Friday, 7 a.m. to 7 p.m. Ben Walton, 31140 Edgeworth stated that he was only opposed to the excess lighting that would come from the business onto his home. Arie Leibovitz, 29548 Southfield, Suite 200, Southfield, Michigan 8076 stated that he represents the current ownership of the building and stated that the applicant will be making significant capital improvements to the building and are planning on being long term good neighbors to the abutting residential neighborhood. Mr. Burke stated that they would shield the lighting so that it would not intrude across the masonry wall and not shining into anyone's yard and will be presented at the Site Plan Review Committee. To address Mr. Walton's comments, City Manager Austin suggested that aCondition #6 could be added that the applicant submit a photometric plan, which would show exactly where the light would be dispersed, to the Site Plan Review Committee; and Condition #5 be modified to reflect the applicants request to change the hours of business from 7 a.m. to 7 p.m. There being no further comments from the audience the public hearing was closed.

Motion by Councilman McGillivray,
Supported by Councilman Clark,

WHEREAS, a Special Approval Board application has been received from Arie Leibovitz, representing Sala Partners, LLC, 29548 Southfield Road, Suite 200, Southfield, Michigan 48076, requesting to use the property at 31191 Stephenson Highway for an Allstate Insurance Claim Center autobody repair center, said property is zoned M-1, Light Industrial; and

WHEREAS, a public hearing was advertised in the Daily Tribune on April 18, 2002 and 68 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

Request: Special Approval for an auto body repair facility (motor vehicle heavy repair) at 31191 Stephenson Highway.

Location: North of 13 Mile Road on the west side of Stephenson Highway.

Applicant: Ari-EL Enterprises, Inc.
29548 Southfield Road, Suite 200
Southfield, MI 48076

Staff Analysis:

1. This request is for Special Approval to operate a motor vehicle heavy repair facility – Sterling Auto Body Collision Center (Allstate Insurance).

2. The applicant for this request is also the applicant for a separate and distinct application for vacation of Midland Street. The site plan for this special approval application is attached and is dependent upon the vacation of Midland Street, as it relies upon land area that is currently within Midland Street right of way. Accordingly, should Council approve the proposed vacation of Midland Avenue (Case No. 1029) this special approval application may move forward through the public hearing, review and decision process.

3. Hours of Operation: 7:30 a.m. – 6:00 p.m. Monday – Friday
9:00 a.m. – 1:00 p.m. Saturday
Closed Sunday

4. Number of Employees: 17

5. Parking requirements have been met through a proposed mutual access / joint parking agreement with the property to the north (31211 Stephenson). Joint use parking is permitted by ordinance and the proposed plan meets the locational requirements for joint use (spaces must be within 300' of the uses they serve). The Site Plan Review Committee has reviewed this proposal and has no objection subject to the limitation that no vehicles awaiting repair shall be parked or stored outside the screen walled area on 31191 Stephenson Highway. Should

Council grant special approval, the applicant would be required to provide a reciprocal parking and access agreement with the adjoining property owner prior to receiving final site plan approval.

6. The Site Plan Review Committee has reviewed the site plan. All Committee comments have been addressed on the submitted plan. Please note that a variance will be required from the ZBA for driveway width for that portion of the proposed interior service drive area immediately north of the existing building (20 feet wide drive required, proposed +/- 19.0 feet). Accordingly, the applicant has represented they will apply for a variance. This variance request would be heard by the ZBA should City Council grant the proposed special approval. This drive area is within the internal screened area for vehicles awaiting service – not customer parking. The Site Plan Review Committee has no objection to the proposed variance in that it is entirely within the screened vehicle service/storage area.

Recommendation:

Following public hearing, should City Council grant special approval for the proposed facility, staff recommends the following conditions:

1. Compliance with all applicable conditions of City Council's vacation of Midland Street.

2. Creation of a reciprocal parking and access agreement with the owners of 31211 Stephenson Highway to allow joint use parking. Said agreement to be recorded, to run with the land, and shall be approved as a part of final site plan review.

3. Vehicles awaiting repair shall be parked or stored only within the screen walled parking area at 31191 Stephenson Highway.

4. Granting of a variance by the ZBA to allow a reduction in the required 20 feet drive width, and compliance with any applicable ZBA conditions.

5. Hours of Operation limited to:

   7:30 a.m. – 6:00 p.m. Monday – Friday
   9:00 a.m. – 1:00 p.m. Saturday
   Closed Sunday

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section of the Code of Ordinances, hereby approves the request subject to the following conditions**:**

1. Compliance with all applicable conditions of City Council's vacation of Midland Street.

2. Creation of a reciprocal parking and access agreement with the owners of 31211 Stephenson Highway to allow joint use parking. Said agreement to be recorded, to run with the land, and shall be approved as a part of final site plan review.

3. Vehicles awaiting repair shall be parked or stored only within the screen walled parking area at 31191 Stephenson Highway.

4. Granting of a variance by the ZBA to allow a reduction in the required 20 feet drive width, and compliance with any applicable ZBA conditions.

5. Hours of Operation limited to:
   7:00 a.m. – 7:00 p.m. Monday – Friday
   7:00 a.m. – 2:00 p.m. Saturday
   Closed Sunday

6. Submittal of a lighting plan and photometric plan showing the location, type and shielding of all existing and proposed lighting. All existing and proposed lighting to be scheduled downward and away from adjacent properties and right-of-ways.

Yeas: Scott, Shad, Swanson, Clark, Corbett, McGillivray and Russell.
Nays: None.

152. Public Hearing – Ordinance 1016- Final Reading.

A public hearing was held to hear comments, if any, to amending Section 10.511 of the Zoning Ordinance for the purpose of regulating the location, design, installation and maintenance of signs with the City. Marvin Henderson, Manager and Steven Jacob, owner Madison Athletic Club, 2 Ajax Drive were present and objected to the proposed 1 minute electronic signage time change standard. Wayne Reif, 950 East Lincoln stated that

he had no objections to the sign at the Madison Athletic Club or the Ordinance but, it was his understanding that the sign was illegally installed and the ordinance should not be changed to make the sign come into compliance. City Attorney L. Sherman stated that the 55 second change was a negotiated arrangement with the Assistant City Attorney and the Community Development Department during the pending promulgation of the new sign ordinance. Community Development Director Schafer stated that the sign was installed without permits and afterward they did file two separate Zoning Board of Appeals variance requests. Both the request were denied and some features of the sign was relocated to bring those items into compliance. He also stated that his Department surveyed adjoining communities: Royal Oak, date, time and temperature only on a 30 second cycle; Hazel Park not permitted under current ordinance, Berkley permitted with a change cycle less than 8 times per day with an exemption for date, time and temperature; Troy permitted with a 1 minute change cycle, 30 seconds for date, time and temperature and Warren not permitted. Raymond Ellis, 1290 Jerry stated that MDOT changes their signs under 30 seconds and in his opinion this is a valid time length for businesses. Robert Maten, 31512 Kenwood stated that he is a member of the Planning Commission and the recommendations made were by a unanimous consensus of the Planning Commission and he firmly objects to any changes of the timing and height. There being no further comments, the public hearing was closed.

Motion by Councilman Corbett, supported by Councilwoman Scott, that Ordinance 1016 be adopted on second and final reading, as follows:

ORDINANCE 1016

AN ORDINANCE TO AMEND ORDINANCE 571, BEING AN ORDINANCE CODIFYING AND ADOPTING A NEW CODE OF ORDINANCES FOR THE CITY OF MADISON HEIGHTS, BY AMENDING SECTION 10.511 - SIGN REGULATIONS - OF THE ZONING ORDINANCE, FOR THE PURPOSE OF REGULATING THE LOCATION, DESIGN, INSTALLATION AND MAINTENANCE OF SIGNS WITHIN THE CITY.

The City of Madison Heights ordains:

Section 1. The following section of the Zoning Ordinance is amended as follows:

Section 10.511. Sign regulations.

(I) GENERAL PROVISIONS:

(A) *Findings and Purpose*: The purpose of this section is to regulate on-site signs and outdoor advertising so as to protect the health, safety, general welfare, property values, and the character of the various neighborhoods in the City of Madison Heights.

The principle features are the restriction of advertising to the use of the premises on which the sign is located and the restriction of the total sign area permissible per site. Any sign placed on land or on a building for the purposes of identification or for advertising a use conducted on the premises shall be deemed an accessory use. It is intended that the display of signs will be appropriate to the land, building, or use to which they are appurtenant and be adequate, but not excessive, for the intended purpose of identification or advertisement. With respect to signs advertising business uses, it is specifically intended, among other things, to avoid excessive competition and clutter among sign displays. The regulations contained in this section are the minimum amount of regulations necessary to achieve its purpose. Outdoor advertising signs (billboards) which advertise products or businesses not connected with the site or building on which they are located, are deemed to constitute a principle use of a lot.

(B) *Definitions*: In addition to the definitions found elsewhere in this section, the following definitions shall apply to sign regulations:

(1) *Building Official* The Building Official of the City of Madison Heights or his authorized representative.

(2) *Department* The Community Development Department of the City of Madison Heights, its officers, inspectors and other employees.

(5) *Owner* A person, firm, partnership, association or corporation and/or their legal successors.

(6) *Off-premises signs.* A sign other than an on-premises sign.

The term "sign" shall also include any bulbs, string of lights, other lighting devices, streamers, pennants, hot and cold air balloon(s) or inflatable structures, propeller(s), flags (other than the official flag of any nation, state or city), other structure(s) conveying a message, any similar device(s) of any type or kind whether bearing lettering or not in any combination of the above. Nothing in this section shall be construed so as to prohibit ideological or noncommercial advertising on any sign on which commercial advertising is permitted.

(g) *Temporary Sign*: A free-standing sign, display, banner or other device, mobile or standing, constructed of cloth, canvas, fabric, plastic, wood, paper or other light temporary material, with or without a structural frame, or any other sign intended for a limited period of display. Holiday displays and political signs shall not be considered temporary signs.

(h) *Wall Sign:* A sign attached to, painted on or placed flat against the exterior wall or surface of any building, no portion of which projects more than twelve (12) inches from the wall and which does not extend above the height of the building wall. The exposed face of the sign must be in a plane parallel to the building wall or structure. Wall signs shall also include signs placed on approved awnings and canopies.

(10) *Sign erector:* Any person engaged in the business of erecting, altering, removing or painting signs on a contractual or other basis.

(C) *Signs Not Requiring Permits*: No permit shall be required for signs enumerated as follows by this paragraph. Such exemptions, however, shall not be construed to relieve the owner of the sign from responsibility for its proper location, erection and maintenance:

Signs permitted under this section shall be removed within seven (7) days of the date of renting, leasing and/or sale. Signs that are displayed for more than twelve (12) months shall be considered part of the permitted permanent signage for the parcel and shall require permits as such. In no case shall a sign list the sale, rent or lease of a building that is not located on the property on which the sign is located.

(2) *Construction signs:* On construction sites, where a building permit has been issued, one (1) identification sign shall be permitted identifying the business under construction, and one (1) identification sign for all building contractors, professional design firms and lending institutions on sites under construction, each sign not to exceed thirty-two (32) square feet in area with not more than two (2) signs permitted on any site. Signs shall have a maximum height of eight (8) feet and

shall be confined to the site under construction and shall be removed within fourteen (14) days after the issuance of a certificate of occupancy.

(3) *Public, charitable, educational or religious events:* Not more than two (2) temporary signs announcing any annual or semi-annual public, charitable, educational or religious event or function, located entirely within the premises on which the event or function is to occur shall be permitted. Maximum sign area shall not exceed thirty-two (32) square feet per side or sixty-four (64) square feet total and the sign shall be free-standing. (7) *Interior building signs*. Signs located on the interior of buildings.

(8) *Garage sale signs:* Temporary directional signs, not exceeding four (4) in number, three (3) square feet in area and three (3) feet in height, shall be permitted on private property along approach routes to a private garage or rummage sale, for a period not to exceed seventy-two hours. Said signs shall contain the address and dates of the sale and shall be removed within four (4) hours of the end of the sale.

(D) *Signs permitted in all districts:* Subject to the other conditions of this ordinance, the following signs shall be permitted anywhere within the City of Madison Heights.

(II) ADMINISTRATION:

(A) *Permits, Applications, Plans, Specifications and Revocation*:

(1) *Permits generally*. It shall be unlawful for any person to erect, re-erect, repair, alter, paint or relocate or reconstruct on the same or another premises or to maintain within the city any sign as defined in this section unless a permit shall have been first obtained from the Community Development Department, except as provided in subsection (l)(C), and a permit fee paid in accordance with the fee schedule adopted by resolution of the City Council.

This section shall not be construed to prevent repair or restoration of any part of an existing sign when said sign is less than fifty (50) per cent destroyed or damaged by storm or other accidental emergency, and when the Building Official has ordered said repair or restoration of the sign to return that sign to a safe condition. If a sign is to be repaired or restored under this exception, the sign message must remain the same. If a different message is to be placed on the sign, a sign permit is required.

(2) *Application*. Application for sign permits shall be made upon forms provided by the Community Development Department for this purpose and shall contain the following information:

WHEREAS, more than 35 years after the passage of the Equal Pay Act and Title VII of the Civil Rights Act, women continue to suffer the consequences of inequitable pay differentials; and

WHEREAS, wage discrimination laws are poorly enforced and extremely difficult to prove and win; and

WHEREAS, women, on average, make just 74 cents to every dollar men earn; and

WHEREAS, although women's earnings have been slowly catching up to men's over time, that reduction in the wage gap has more to do with a decrease in men's earnings than with an increase in women's earnings; and

WHEREAS, a vast majority of households depend on the wages of a working mother, and working families are often just one paycheck away from hardship; and

WHEREAS, fair pay policies can be implemented simply and without undue costs; and

WHEREAS, fair pay strengthens the security of families today and eases future retirement costs, while enhancing our economy, and

WHEREAS, The Paycheck Fairness Act would address the gender wage disparities by:

1. Increasing enforcement of the Equal Pay Act by directing more resources to the Equal Employment Opportunity Commission;

2. Strengthening the remedy provision of the Equal Pay Act by allowing compensatory and punitive damages when appropriate and making it easier for cases to proceed as class actions;

3. Improving data collection, education, and outreach about pay differentials between men's and women's occupations;

4. Recognizing the achievements of employers who have worked to eliminate unfair pay differentials in the workplace;

5. Lifting the gag rule imposed by many employers who forbid employees from discussing their wages with their coworkers; and

Should Council grant special approval a variance of 4 spaces is required, and has been applied for by the applicant. As you know, this site is adjacent to the Ten Mile Improvement Plan (TIP) area. This Plan calls for installation of parking within the existing I-696 service drive immediately north of this site to provide expanded parking for 10 Mile businesses. Staff will be recommending to the ZBA that, should they grant the requested parking variance, it be conditioned upon the applicant agreeing to provide vehicular access at the rear of the site (North property line) to the planned parking area in conformance with the driveway and pedestrian access regulations in effect at the time of TIP construction.

4. The site plan reflects the required screening wall adjacent to parking areas.

5. The Site Plan Review Committee has reviewed the site plan and has no additional comments to address.

236. Public Hearing - S.A.D. 262- Resolution 3.

A public hearing was held to hear comments, if any, on the necessity to construct concrete sidewalks (2002 Annual Sidewalk Program) in the right of way on Brockton, south of Brockton to Progess Drive (westbound I-696 Service Drive), Dequindre frontage south of I-696, John R frontage south of Lincoln, and Dei frontage south of Lincoln. Raymond Winnicki, 632 East Brockton inquired if there were any Federal funding, the replacement of the 4 foot wide slabs to the 5 foot wide slabs; if approaches with the 4 foot slabs would be non-conforming and the time that has been allotted to the homeowners to do the job themselves. City Manager Austin explained that there were no Federal funding, however, the City under the new Sidewalk Policy, is contributing by upgrading the 4 foot wide sidewalk slabs that are not damaged to the 5 foot wide standard sidewalk slab, under the new Sidewalk Policy. He also stated that the time period for the homeowners to do the concrete work will allow the City to offer homeowners reduced costs. In addition, the City Manager responded that a good 4 foot wide walk that runs across an approach will not need to be replaced, since it provides over 5 foot of access. Barbara Holcomb, 628 West Brockton stated that in her opinion the City should pay for the sidewalks since they are going to be replaced no matter the conditions of the slabs. It was explained to her that homeowners need only replace the marked slabs, these are the broken, cracked or damaged ones and the city will be paying the costs of the remaining 4 foot sidewalk upgrades. Richard LePage, 30980 Plum Lane inquired if homeowners would be charged for cutting roots of trees and also replacing damaged trees. City Manager stated if a tree between the curb and sidewalk the city would work with the homeowner and there would be no extra charge. Norma Lee,

142 East Dallas inquired as to what was considered a damage sidewalk. Community Development Director Schafer explained that the criteria of a damage sidewalk is a ½ inch trip hazard between adjacent slabs of concrete or the driveway and the concrete, pitted, shaling or crack sidewalks. She inquired if the two sidewalks in front of her approach would be cut to make the sidewalks 5 foot wide. Community Development Director Schafer stated that the if the sidewalks are 4 foot they are being upgraded to 5 foot wide adjacent to the driveway, if needed, it will be saw cut to create a 5 foot wide sidewalk across the driveway, if it is not needed it will be blended in by the contractor. Richard LePage, 30980 Plum Lane inquired as to the saw cutting costs. City Manger Austin explained that it was a uniformed price for the homeowners and is not priced out individually and that there are no extra costs to property owners. Ken Achrim, 142 East Brockton inquired as to what guarantees the homeowners will have for the replacement of the grass. Community Development Director Schafer stated that there have been very little complaints regarding restoration issues and the city will hold back a retainage from the contractor to guarantee sprinkler heads being damaged are fixed and grass is seeded properly. Mr. Achrim also inquired as to the concrete guarantee. Community Development Director Schafer stated that it is 2 year guarantee based on the workmanship and that the city has had no issues of quality in recent years. Ray Sobocinski, 1674 Beaupre stated that there is no need for 5 foot wide sidewalks and the monies could be used for the proposed Fire Station. Chris Sobocinski, 1674 Beaupre inquired as to the trees on the edge of the sidewalks and what protection will be provided. Community Development Director Schafer stated that, where necessary, the contractor will cut roots out, as to the integrity of the tree, the City does have a tree expert that can evaluate the situation. Deputy Community Development Director Williams stated that there are no plans to remove any trees, there are three trees in the project area, which might require rerouting the sidewalk or grinding part of the base of the tree to clear the sidewalk. Ms. Sobocinski also inquired if consideration of other side effects in doing a project like this such as, global warming removing the grass, increases in CO2 with the snow blowers running an extra foot, seniors who have to remove snow by hand. Mr. Winnicki, 632 East Brockton complimented the City for repaving John R Road, however the saw cutting is not sealed as yet. He also inquired if the approach is damaged by a crack will it be replaced. Community Development Director Schafer stated that if it were just cracked it would not be replaced unless it is necessary to make the 4 foot to a 5 foot wide walk. Deputy Community Development Williams stated that there is no approach work scheduled for his property. Ray Sobocinski, 1674 Beaupre stated that in his opinion because the city is mandating the sidewalk replacement he would advise citizens to sue the City. Mayor Swanson reiterated that the concrete that is in good condition

would be replaced with no charge to the citizens; it is only the damage slabs will require a property owner assessment. City Attorney L. Sherman stated that he could not comment on the law suite Mr. Sobocinski is referring to or the basis for his statement. Mr. Sherman stated that the 5 foot sections being replaced by the City with no charge to the homeowners, the lawsuit in this context relates to whether or not citizens would be appropriately charged for the sidewalks that were broken and replaced, and whether the cost bares a reasonable relationship to the benefit. There being no further comments, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilman Corbett,

WHEREAS, the City Council of the City of Madison Heights, Oakland County, Michigan, has deemed it necessary to construct concrete sidewalks in the right of way on Brockton, south of Brockton to Progress Drive (westbound I-696 service drive), Dequindre frontage south of I-696, John R frontage south of Lincoln, and Dei frontage south of Lincoln in the City of Madison Heights; and

WHEREAS, a Special Approval Board application has been received from Justin Jeris, Kemp Building and Development, 275 West Girard, Madison Heights, requesting to permit the use of processing and removal of topsoil from the site located on the northwest corner of Dequindre and Whitcomb, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was advertised in the Daily Tribune on August 2, 2002, and 43 postcard notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that:

LOCATION: Northwest corner of Whitcomb and Dequindre

REQUEST: Special Approval for topsoil removal under Sections 11-29 through 11-35 of the City Code.

EXISTING ZONING: M-1 Light Industrial

EXISTING USE: Vacant land

STAFF ANALYSIS:

1. The proposed special approval request is to allow processing and removal of 8,000 cubic yards of topsoil on the subject property. Operations were commenced on the site and subsequently halted when determined that special approval was required. Typically, soil removal is approved and permitted as part of site development. Special approval for soil removal is only required when not associated with a specific approved development plan. The applicant currently does not have a specific development plan submitted for approval and is proposing soil removal operations in the interim pending a development proposal.

2. The City Engineer conducts review of soil removal special approvals. The City Engineer recommends approval subject to the following conditions:

    1. All soil-erosion and sedimentation control measures as shown on plans are to be maintained during the life of the soil removal operation.

2. All public streets within the limits used for haul routes are to be maintained free of mud and debris carried from the site.

3. If the soil removal operation is complete in accordance with this application and no construction is to take place within 60 days, the site must be stabilized by an approved method in accordance with soil erosion and sedimentation control requirements.

STAFF RECOMMENDATION:

Should City Council grant special approval for the proposed use, staff recommends compliance with the City Engineer's recommended conditions and submittal of a performance bond to insure restoration of the site (amount to be determined by City Engineer based on submittal of engineer's estimate for restoration).

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 11-29 through 11-35 of the Code of Ordinances, hereby approves the request subject to compliance with the City Engineer's recommended conditions: as follows:

1. All soil-erosion and sedimentation control measures as shown on plans are to be maintained during the life of the soil removal operation.

2. All public streets within the limits used for haul routes are to be maintained free of mud and debris carried from the site.

3. If the soil removal operation is complete in accordance with this application and no construction is to take place within 60 days, the site must be stabilized by an approved method in accordance with soil erosion and sedimentation control requirements.

Deputy City Manager Connors stated that many crows were picked up the last two weeks. He also stated that West Nile Virus is neither in every dead crow nor in every mosquito and the virus cannot be contracted by humans from dead birds. 288. West Nile Virus Update.

Deputy City Manager Connors updated the Council on the West Nile Virus and listed a multi step plan the City will take in the future:

Staff will research counties that spray and other cities to stay current on plans, recommendations and methodologies regarding this problem.

   Staff plans to attend the State Sponsored seminar for City, County and Health Officials to be held in September or October on West Nile Virus.

2. Prepare the Spring City Newsletter to educate residents on specific ways to address this problem next spring and summer.

3. Place larvacide in necessary and appropriate locations in spring and possibly this fall based upon scientific observations.

4. Study the pros and cons of an adulticiding spray program in storm sewers and a residential fogging/spraying program.

5. Review the City's plan with the Environmental Citizens Committee to gather residence reaction and feedback.

6. As necessary, bring back the findings and recommendations as a goal proposal for City Council consideration for 2003.

7. Continue efforts to urge residents who will be out in the evening, to wear long sleeve shirts and long pants and/or wear an appropriate personal insect repellent. For adults a 35% DEET repellent is recommended. For children ages 2 years to 6 years, a repellent of not more than 10% DEET is recommended. For babies from birth to 2 years, a repellent with no DEET is recommended or simply to stay inside during early evening hours. Swan, L.L.C. and Mr. Harry Javens for the property at 27029 Barrington. James Swan, 834 Rosewood, East Lansing and Marc Drasnin, Attorney, were present and stated that they are requesting that the two structures at 27029 Barrington not be demolished. Asst. City Attorney Jeff Sherman asked Mr. Swan if he is prepared to immediately begin reconstruction, what the status of the ownership litigation with Mr. Harry Javens was and does Mr. Swan have a Circuit Court Order indicating title to this property. Attorney Drasnin stated that the last order by the Court of Appeals denied Mr. Javens request for relief and Mr. Swan was granted title on January 16, 2002. As of this date they are unaware of any further litigations. Asst. City Attorney Sherman further stated that there would be two conditions on the approval of a building permit; 1) that the work has to commence immediately and 2) it will be a single family residence, not multiple family.

Mr. Steve Rabinowitz, Counsel for Mr. Javens, stated that there is no need for Mr. Javens to address Council because his concern is ownership of the property which is not the issue at this meeting.

There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Clark,

Supported by Councilwoman Scott,

WHEREAS, a Special Approval Board application has been received from Richard Ziska, 14600 Detroit Avenue, Lakewood, Ohio 44107, requesting to use the property at 31191 Stephenson Highway for a motor vehicle heavy repair facility, said property is zoned M-1, Light Industrial, and

WHEREAS, a public hearing was published in the Daily Tribune on October 31, 2002, and 80 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

Request: Special Approval for an auto body repair facility (motor vehicle heavy repair) at 31191 Stephenson Highway.

Location: North of 13 Mile Road on the west side of Stephenson Highway.

Applicant: Richard Ziska
Zaremba Group
14600 Detroit Avenue
Cleveland, Ohio 44107

Staff Analysis:

1. This request is for Special Approval to operate a motor vehicle heavy repair facility – Sterling Auto Body Collision Center (Allstate Insurance). As you recall, Special Approval Case No. 02-03 was conditionally approved by City Council on May 13, 2002. Both cases are essentially the same request with one difference: The previous case included 17 off-site parking spaces on the adjacent parcel to the north to meet required parking. This case includes those 17 required off-site parking spaces on the adjacent parcel to the south. We understand from the applicant that the previous agreement to provide spaces to the north was not finalized and, accordingly, they have revised their proposal. An agreement for parking with the adjacent parcel to the south has been reached. The site plan for the actual building at 31191 Stephenson Hwy is identical to the previously approved plan.

2. As the previous special approval and site plan were predicated on off site parking that is now proposed on a different site, a new special approval is required.

3. There was also a separate and distinct application for vacation of Midland Street simultaneously with the initial Special Approval Case No. 02-03. This was approved conditionally by Council and has been processed accordingly. Should Council grant special approval, compliance with the remaining conditions of vacation will be required prior to final site plan approval.

4. Proposed Hours of Operation: 7:00 a.m. – 7:00 p.m.
   Monday – Friday
   7:00 a.m. – 2:00 p.m. Saturday
   Closed Sunday

Note: These hours are identical to the approved hours of operation from the previous Special Approval.

5. Number of Employees: 17 (Same as previous special approval)

6. Parking requirements have been met through a proposed mutual access joint parking agreement with the property to the south (31171 Stephenson). Joint use parking is permitted by ordinance and the proposed plan meets the space and locational requirements for joint use (spaces must be within 300' of the uses they serve). The Site Plan Review Committee has reviewed this proposal and has no objection subject to the limitation that no vehicles awaiting repair shall be parked or stored outside the screen walled area on 31191 Stephenson Highway. Should Council grant special approval, the applicant would be required to record the reciprocal parking and access agreement with the adjoining property owner prior to receiving final site plan approval.

7. The Site Plan Review Committee has reviewed the site plan. All Committee comments have been addressed.

8. Please note that a variance was granted by the ZBA for driveway width for that portion of the proposed interior service drive area immediately north of the existing building at 31191 Stephenson Highway (20' wide drive required, proposed +/- 19.0'). As there is no change to the previously approved site plan this variance remains in effect.

Recommendation:

Following public hearing, should City Council grant special approval for the proposed facility, staff recommends the following conditions:

1. Compliance with all conditions of City Council's previous vacation of Midland:

    a. Retention of a 20' wide easement running north / south on the westerly 20' of the vacated Midland Avenue.
    b. Retention of any additional easement requirements from Detroit Edison pending their review.
    c. Creation of a reciprocal ingress/egress easement of not less than 24' wide, centered on the vacated right of way, between lots 39 and 40 to maintain the existing combined driveway.

2. Recording of a reciprocal parking and access agreement with the owners of 31171 Stephenson Highway to allow joint use parking. Said agreement to run with the land and approved as a part of final site plan review.

3. Vehicles awaiting repair shall be parked or stored only within the screen walled parking area at 31191 Stephenson Highway.

4. Hours of Operation limited to: 7:00 a.m. – 7:00 p.m.
   Monday – Friday
   7:00 a.m. – 2:00 p.m. Saturday
   Closed Sunday

5. Submittal of a lighting plan and photometric plan showing the location, type and shielding of all existing and proposed lighting. All existing and proposed lighting to be shielded downward and away from adjacent properties and rights of way.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.329 (6) of the Code of Ordinances, hereby approves the request subject to the following conditions:

1. Compliance with all conditions of City Council's previous vacation of Midland:

    a. Retention of a 20' wide easement running north / south on the westerly 20' of the vacated Midland Avenue.

    b. Retention of any additional easement requirements from Detroit Edison pending their review.

c. Creation of a reciprocal ingress/egress easement of not less than 24' wide, centered on the vacated right of way, between lots 39 and 40 to maintain the existing combined driveway.

2. Recording of a reciprocal parking and access agreement with the owners of 31171 Stephenson Highway to allow joint use parking. Said agreement to run with the land and approved as a part of final site plan review.

3. Vehicles awaiting repair shall be parked or stored only within the screen walled parking area at 31191 Stephenson Highway.

4. Hours of Operation limited to: 7:00 a.m. – 7:00 p.m.
Monday – Saturday
Closed Sunday

5. Submittal of a lighting plan and photometric plan showing the location, type and shielding of all existing and proposed lighting. All existing and proposed lighting to be shielded downward and away from adjacent properties and rights of way.

WHEREAS, a public hearing was advertised in the Daily Tribune on December 4, 2002, and 67 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 29461 John R

REQUEST: Special Approval for a Bellacino's Sub Shop with seating.

EXISTING ZONING: B-2 Planned Business

EXISTING USE: Vacant existing tenant space

STAFF ANALYSIS:

Special Approval is required for restaurants in the B-2 District. The applicant proposes a sit down/carry out restaurant in a vacant 2,500 square feet tenant space.

The facility is within 1,500 feet of 11 other restaurants. Restaurants proposed within 1,500 feet of existing restaurants require Zoning Board of Appeals approval after City Council's consideration and grant of Special Approval. Accordingly, should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request from the 1,500 feet separation requirement.

The existing parking for this site meets minimum parking requirements as modified by the Zoning Board of Appeals in 2001 for the recently constructed Texas Roadhouse. This proposed use would not alter the parking calculations for the entire shopping center as approved for the Texas Roadhouse.

The Site Plan Review Committee has reviewed the site plan and has no additional comments to address.

Should City Council grant approval of this request, the following conditions are recommended:

A. Hours of operation shall be limited to:
   Monday-Thursday 10:30 a.m. – 9:30 p.m.
   Friday-Saturday 10:30 a.m. – 11:00 p.m.
   Sunday 12:00 p.m. – 9:00 p.m.
B. Zoning Board of Appeals approval of a variance from the 1,500 feet separation requirement between restaurants.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section

10-311(2) and 10.319(4) of the Code of Ordinances, hereby approves the request subject to the following:

A. Hours of operation shall be limited to:
   Monday-Thursday 10:30 a.m. – 9:30 p.m.

(3) The necessity of traffic lanes free from parked vehicles, and other obstructions, both to and around the above enumerated establishments capable of handling city fire vehicles.

The Department may declare fire lanes thereon in accordance with the above criteria.

The Fire Chief or his duly authorized representative may grant permission for parking of certain vehicles, objects or trailers in designated fire lanes for limited periods where such parking will not interfere with the usage of the fire lane by emergency vehicles. Whenever such permission is granted, the driver or operator must be present at all times to provide immediate removal of such obstructions when necessary.

511.5 Appeal. Notwithstanding any other provisions found in this code, the following shall be the method of appeal from any decision of the Fire Chief or his duly authorized representative as it may pertain to this Section.

511.5.1 Procedure. If any property owner is aggrieved by any decision as to the establishment of fire lanes, he shall, within thirty (30) days of the date of mailing of the fire lane establishment notice, as provided for in Section 511.2 of this article or of denial of a petition to establish a fire lane, file with the Fire Chief or his duly authorized representative a written exception to such decision together with the reasons for same. Where the code does not require a fire protective signaling system, or if a required system is not connected to the water flow alarm, the required flow switch and alarm bells or horns must be installed independent of any non-required alarm equipment and must be audible everywhere in the building. In multiple tenant buildings at least one bell or horn, connected to the main riser flow switch(s), must be installed in each tenant space and shall sound an alarm upon water flow in any area of the building or structure. These alarm units are to be line voltage and connected to a separate circuit with the breaker locked on. Low voltage systems may be used with Department approval if the supply transformer is hardwired to

Motion by Councilwoman Russell,

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 27921 John R

REQUEST: Special Approval to allow the existing Texas Style Bar-B-Q to maintain interior seating.

EXISTING ZONING: B-3 Planned Business

EXISTING USE: Texas Style Bar-B-Q

STAFF ANALYSIS:

Special Approval is required for restaurants in the B-3 District. The applicant operates the existing carry out facility. At the time the business opened, the applicant was informed of the need for special approval and Zoning Board of Appeals approval of 1,500 feet separation and parking variances in order to have seating. The applicant is now pursuing said approvals for seating.

The facility is within 1,500 feet of seven other restaurants. Restaurants proposed within 1,500 feet of existing restaurants require Zoning Board of Appeals approval after City Council's consideration and grant of Special Approval. Accordingly, should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request from the 1,500 feet separation requirement.

The existing parking for this site does not meet minimum parking requirements. As proposed, a 25 space parking variance is required to accommodate this use. (75 spaces required, 50 spaces provided). Accordingly, should City Council grant Special Approval, this proposal would be forwarded to the ZBA for their consideration of a 25 space parking variance.

The Site Plan Review Committee has reviewed the site plan and has no additional comments.

Should City Council grant approval of this request, the following conditions are recommended:

A. Hours of operation shall be limited to:
   11:00 a.m. – 9:00 p.m.
B. Zoning Board of Appeals approval of a variance from the 1,500 feet separation requirement between restaurants and a 25 space parking variance.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.319(4) of the Code of Ordinances, hereby approves the request subject to the following conditions:

A. Hours of operation shall be limited to:
   11:00 a.m. – 9:00 p.m.

Madison Heights, Michigan
February 4, 2003

A Special Meeting of the Madison Heights City Council was held on Tuesday, February 4, 2003 at 5:30 p.m. in the Municipal Building at 300 West Thirteen Mile Road, Madison Heights, Michigan.

Present: Mayor Swanson, Mayor Pro Tem Corbett, Councilmen Clark and McGillivray, Councilwomen Russell, Shad and Scott. City Manager Austin, City Attorney L. Sherman, and City Clerk Flack.

Absent: None.

A moment of silence was observed in memory of the 7 Astronauts of Space Shuttle Columbia, who were lost on Saturday, February 1, 2003.

44. Fire Station Design Changes.

Robert Formisano, Owner's Representative gave an overview of his report, dated January 31, 2003 on the key recommended Headquarter Fire Station design changes from the original concept design.

Dennis Dundon, Architect discussed the proposed revised sloped metal roof to flat room system and proposed replacement of the underground storm water detention with surfaced retention area.

Councilwoman Russell stated that the Fire Station Task Force should meet to discuss these major design changes.

Mayor Pro Tem Corbett inquired as to the necessity of underground storm water detention. City Manager Austin stated that Community Development Director Schafer reviewed the drawings and is comfortable that the plans will meet the standards set by the County Drain Commissioner. Mayor Pro Tem Corbett stated that the Bond Proposal language included "underground storm water detention." Mr. Formisano stated the soil report and testing, the actual design and engineered calculations of run-off from the paved areas have been completed and are factored into the recommendation and the proposal has been evaluated and confirmed by the Architect, the project's Civil Engineer and the City Engineer.

City Attorney L. Sherman advised Council that the question has been brought up whether or not there was an obligation to complete each and every item listed in the Bond Proposal. He stated that Bond Counsel Don Kiem explained to him and the City Manager that the City was not obligated to construct each and every component that is set forth in the Bond language, but on the other hand the City cannot take money from the Bond Proposal and use it for something that is not specified in the proposal. He further explained that Mr. Kiem stated that if one of the items was not built the monies from the Bond Proposal could still be used for other components listed in the Bond Proposal, and if one of those items was not constructed the City would only need to be prepared to explain to the public the rationale for this change.

Councilwoman Shad stated that she knew the Fire Fighters had input into these proposed changes. Also, she stated that she supported creating 7 segregated employee parking spaces as included in the recommended design, behind the new Station and the Fire Station Task Force Council representative and/or alternate and the citizens of the Task Force Committee need to attend all these meetings.

Councilwoman Russell stated that the Fire Station Task Force allowed ample funding through the bond proposal to meet all the needs requested and the underground storage tank should be included for public accountability purposes.

Councilwoman Shad asked City Attorney Sherman's opinion as to the City's potential liability in replacing the underground storm water detention with a surfaced retention area. City Attorney L. Sherman stated there could be some potential liability for the City.

Councilwoman Russell questioned the City Attorney regarding the impact of the aboveground detention on City's insurance provider, Michigan Municipal Risk Management Authority (MMRMA) premium to the City. City Attorney L. Sherman stated the City will be meeting with a MMRMA representative to discuss the proposed sled hill adjustments and could also discuss the proposed surfaced retention area. He also explained that the premiums are based on past claims not on proposed construction, and that the City has strong experience rating base on a low number of significant claims.

Councilman Clark stated that in his opinion there is an environmental concern with the underground storm water detention as opposed to the newly proposed surfaced retention area. He also inquired if the entrance driveway to the Fire Station is wide enough for two vehicles and the status of the draft pit. Mr. Formisano stated that the Architect and Civil Engineer

designed the circulation of the paved area regulating the vehicle traffic and flow and the turning radius. Fire Chief Martin stated that the proposed Draft Pit design has not changed from the concept design.. He stated that currently the fire truck pumps are tested off site in the City of Ferndale's draft pit, at no charge, but there are overtime expenses of the Fire Fighters that do the pump testing.

Councilwoman Scott inquired as to a negative impact, of an unusual amount of snow and ice on a flat roof versus a slope roof. Mr. Dundon, Architect, stated that either roof was designed to a very rigid code and never had any problem.

Councilman McGillivray stated that he did not object to the surfaced retention proposal as long as the liability issue is viewed by MMRMA.

Clifford Oglesby, 26136 Groveland, stated that he is the Chairman of the Fire Station Task Force and he would like to meet with the Mr. Formisano, the Owners Representative, to discuss further the roof and the training tower. He stated that he had a concern regarding the location of the segregated employee parking.

Ronald Vannoy, 1572 Ann Terrace stated that he was also a member of the Fire Station Task Force and stated that the Bond Proposal language contained the construction of an underground storm water detention facility and draft pit and no changes should be made.

Gary George, 1735 Castlewood, a member of the Fire Station Task Force stated that he was concerned not to deviate too far from the Bond Proposal. He stated that he was concerned about the location of the segregated employee parking. He was also concerned about the impact of the Training Tower live burning exercises on joggers, seniors and anyone with health issues and that the design should insure that the type of burn will also be environmentally safe. He favored the employee parking behind the tower. He would favor more discussion with the public and/or the Task Force.

John Pulice, 20869 Avondale favored segregated employee parking behind the station but opposed the surface retention area because of the potential 3 feet of standing water that could be a hazard to children.

Motion by Councilwoman Russell, supported by Councilman Corbett, that until the end date in November, that from the Fire Station Task Force, one or more citizen members, one or more City Council representatives and any/or all remaining members attend these meetings to report any major changes to Council at Regular City Council Meetings with the Task Force recommendation, yea or nay.

61. Special Approval – 28245 John R Road.

A public hearing was held to hear comments, if any, to permit the use of a car wash at 28245 John R Road, said property is zoned B-3, General Business. Leonard Kopich, 28326 Brush submitted a petition signed by 13 residents on Brush who objected to the proposed car wash for the

following reasons: potential vibrations, high noise levels, high density of exhaust fumes just a few feet from the adjoining property, another car wash is presently located just 2 bocks north, area has high water table, increased danger to school children crossing area, traffic on Brush street, congestion in left turn area on John R and location and large size of the use. Leonard Kopich also stated that he objected to the proposed car wash because of the potential vibrations, high intensity noise levels, exhaust fumes, the danger to children crossing at Katherine and John R Road going to school, stacking of cars onto John R Road, left hand turning conflicts, vehicles circling the block by going into the neighborhood and the noise from the water and machinery. Jim Simmons, 28305 Brush, stated that the walkway connecting Brush Street to the commercial frontage on John R north of the proposed car wash is not cleaned of snow and debris. Councilwoman Russell requested Deputy City Manger Connors investigate. Applicant, Robert Gunn, 19918 Fleetwood, Harper Woods, Michigan 48225 stated that the proposed car wash is state of the art and that vibrations are minimal, the stacking of cars will be eliminated having 2 entrance doors and a screen wall will be erected with landscaping. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Russell,
Supported by Councilman McGillivray,

WHEREAS, a Special Approval Board application has been received from Robert Steven Gunn, 19918 Fleetwood, Harper Woods, Michigan 48225, requesting to use the property at 18245 John R Road for an automated car wash, said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on February 5, 2003, and 138 notices were mailed to property owners within 500 feet of the aforementioned property; and

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board, hereby denies the request because the location, size and character, in general, will not be in harmony with the appropriate and orderly development of the district in which it is situated based on the consideration of the following Madison Heights City Code of Ordinances: Section 10.805(3) Its size, layout and its relation to pedestrian and vehicular traffic to and from the use; Section 10.805(8) The nature, location, size and site layout of the uses shall be such that it will be a harmonious part of the district in which it is situated taking into account, among other things; prevailing shopping habits, convenience of access by prospective patrons, the physical and economic relationship of one type of use to another and related characteristics; and

Section 10.805 (9) The location, size, intensity and site layout of the use shall be such that its operations will not be objectionable to nearby dwellings, by reason of noise, fumes or flash of lights to a greater degree than is normal with respect to the proximity of commercial to residential uses, not interfere with an adequate supply of light and air, not increase the danger of fire or otherwise endanger the public safety.

65. Fire Station Headquarters – Design Change to Flat Roof.

Raymond Ellis, 1290 Jerry stated that in his opinion the proposed concept design changes could be detrimental and cost the taxpayers additional money.

Councilwoman Russell stated that recommendations of the Fire Station Task Force, Deputy City Manager Connors, Owner Representative Forminsano and Construction Manager McCarthy and Architect Dundon is that the flat roof design would solve problems of and avoid technical design and construction issues and would be less susceptible to failure.

Councilwoman Scott stated that she was concerned with the weight on the roof. Dennis Dundon, Architect, stated that the proposed roof is designed to carry heavy snow loads and the roofing material is guaranteed by the manufacturer for 20 years.

Stuart Dibley, 29485 Tawas stated that General Motors took the position that all roofs shall have at least 1" pitch per foot to allow drainage.

Deputy City Manager Connors stated that during the design phase, the architect brought up problems with the original concept design of multiple types of roof and problems that would occur where the flat areas and peaks connect. The roof material being considered are the same that is currently on the Library, the Police Station, City Hall and DPS and they have not experienced any problems.

Motion by Councilman McGillivray, supported by Councilman Clark, to concur with the recommendations of the Fire Station Task Force to

approve the concept design change for the roof from a sloped metal roof to the flat roof design.

66. Fire Training Tower Burning System.

Motion by Councilman Clark, supported by Councilwoman Russell, to run the gas line to the Fire Tower to be capped off and hold off the installation of the natural gas burning system and to use the Class A combustible materials for live burn until such time to determine that there will be sufficient funds to complete the rest of the Fire Station project.

Fire Lieutenant Michael Bradley and a member of the Fire Station Task Force asked if Council would consider approving a Class A combustible materials burning system because compared to a gas system it provides the same type of training can occur with a significant reduction in costs.

67. Substitute Motion.

Motion by Councilman Clark, supported by Councilman McGillivray, to eliminate the gas line and natural gas burner and use the Class A combustible materials for live burn training.

Gary George, 1738 Castlewood, a member of the Fire Station Task Force stated that the original plans presented to City Council and the voters was a Training Tower with a gas burn room. He stated that the Task Force originally considered plans for a prefab Training Tower but later approved a brick structure. He further stated that the costs of the Training Tower and the burn room have now been escalated because of changes to the burn room, making it larger.

Councilwoman Russell stated that during the meetings of the Fire Station Task Force there were never discussions about the natural gas burner versus the Class A combustible materials for a live burn training. She also stated that Fire Fighters she has talked to are afraid that the monies will run out and they will be left with shoddy kitchen cupboards, and bad stoves. She said that it was a legitimate concern and did not think it could happen. She stated that it was the recommendation of the Fire Station Task Force, at their last meeting, that a natural gas burning system and also Class A combustible materials for live burn be included and that the gas line be run and capped off until all the needs are met in the building.
MOTION WITHDRAWN

68. Substitute Motion.

Motion by Councilman McGillivray, to build a Training Tower so it can use Class A combustible material for live burn with no natural gas line.
MOTION DIED FOR LACK OF SUPPORT

Councilman McGillivray stated that the Firefighters can train by State Standards with Class A burn.

Councilwoman Shad stated that the capped gas line would be there for future use.

Dennis Dundon, Architect stated that to run the gas line under the 8" concrete pavement would cost about $3,000.00.

Gary George, 1738 Castlewood inquired if including the Class A capability now precludes this project from proceeding with a gas burning unit. Dennis Dundon stated that the proposed redesign, which has a larger first floor, allows either Class A combustibles to be burned, propane or natural gas burning machinery and/or installation of a gas line allows for flexibility in the future.

Councilwoman Scott inquired as to how many times a year training would occur. Fire Chief Martin stated that it would be done at least six times a year, times three platoons for 18 occurrences, that the Tower would have a burn room with a high temperature lining and construction would allow Class A combustible, natural gas or propane. He also stated that the Tower will not pay for itself but we would have a fee structure to allow our Fire Fighters to train at no charge and charging outside, not Mutual Aid partners, for that training.

Councilwoman Russell stated that the Fire Station Task Force discussed the charging of the outside cities to use the Tower as a long-range reimbursement value.

Fire Chief Martin also stated that the City does pay to use the tower at Oakland Community College. Councilwoman Russell stated that other Cities will begin increasing the fees because of the loss of State Revenue.

Mayor Pro Tem Corbett asked what would be the advantage(s) of a gas burning unit versus a Class A combustible burning unit. Fire Chief Martin stated that the gas fuel system would allow instant on/instant off and the system is computer control.

Fire Fighter Jon Joyce, a member of the Fire Station Task Force stated that the Fire Fighters, in their opinion, could use a Class A burn unit to meet their needs and they did not want to see the extra money spent on the natural gas burn unit because there might not be funds to furnish the inside of the building.

Robert Maten, 31512 Kenwood stated that the Class A room is the best but a capped gas line would allow for a gas line feeding fire and could add to the value of the training.

Nays: None.

Deputy City Manager Connors explained the terracing structure and that the City's risk management authority agrees with the proposed modifications to the sled hill.

Gary George, 1738 Castlewood inquired if the proposed design on the sled hill impacted by the Fire Station project is an eligible expense out of proceeds for the Fire Station Bond Proposal. Councilwoman Russell requested that the City Attorney confirm this legal opinion with Bond Counsel.

118. Cable Television Rate Certification Resolution.

Motion by Councilman Corbett,
Supported by Councilman McGillivray,

STATEMENT OF FACTS

A. The City of Madison Heights was certified by the Federal Communications Commission to regulate local cable television basic service, installation and equipment rates several years following adoption of the U.S. Cable Television Consumers Protection and Competition Act of 1992 ("1992Act")

B. The basic service subject to local regulation consisted of at least all local broadcasters and any local public, educational or governmental access channels. Few homes subscribed to only the basic service. The vast majority also subscribed to what the Act refers to as "cable programming service."

C. "Cable programming service" includes all program channels on a cable system that are not included in basic service which are not separately offered as pay-per-channel programming or pay-per-program services, which are not subject to any regulation. Only the Federal Communications Commission ("FCC") could regulate rates for "cable programming service."

D. Provisions of the 1992 Act directing the FCC to regulate "cable programming services" that made the local regulation of basic rates partially effective were repealed by the U.S. Telecommunications Act of 1996 effective March 31, 1999. Since the vast majority of homes subscribe to "cable programming service," unregulated pay-per-view and pay-per-channel services, basic service regulation was severely undermined.

E. Moreover, there are now two cable operators effectively competing for customers in the City—Comcast and WideOpenWest. Either company could petition the FCC to decertify the City from regulating basic service, installation and equipment rates because they face effective competition but have chosen not to do so. Comcast continues to make numerous rate filings with the City. WOW does not.

NOW, THEREFORE, BE IT RESOLVED

1. The City determines that rate regulation no longer serves the interests of cable subscribers within the City.

2. The City directs its municipal cable television counsel, Neil J. Lehto, to deliver a copy of this resolution notifying the FCC that it no longer intends to regulate basic cable rates.

3. The City has received no consideration for its withdrawal of certification.

The Bonds will be subject to redemption and be payable in the manner described in the form of notice of sale set forth in Section 8 of this resolution.

National City Bank of Michigan/Illinois, Troy, Michigan, is designated as paying agent for the Bonds (the "Paying Agent"). The City Treasurer is hereby authorized to enter into all required contractual arrangements with the Paying Agent. In the event the Bonds are not held in book-entry only form as described herein, then the Paying Agent shall also act as bond registrar and transfer agent. The Issuer may designate another qualified institution to serve as paying agent, transfer agent and bond registrar at any time by notice mailed to registered owners of the Bonds not less than sixty (60) days prior to an interest payment date. Interest shall be payable to the registered owner of record as of the 15th day of the month prior to the payment date for each interest payment. The date of determination of registered owner for purposes of payment of interest as provided in this Section may be changed by the Issuer to conform to market practice in the future. The principal of the Bonds shall be payable at the designated office of the Paying Agent.

The Bonds shall be issued initially in book-entry-only form through The Depository Trust Company in New York, New York ("DTC"). So long as the Bonds are in the book-entry-only form, the Paying Agent shall comply with the terms of the Letter of Representations to be entered into among the Issuer, the Paying Agent and DTC, which provisions shall govern registration, notices and payment, among other things, and which provisions are incorporated herein with the same effect as if fully set forth herein. The City Manager and the City Treasurer each is hereby authorized and directed to enter into the Letter of Representations with DTC in such form as determined by the City Manager or the City Treasurer, in consultation with bond counsel, to be necessary and appropriate. The Paying Agent is hereby authorized and directed to also enter into the Letter of Representations with DTC as agent for the Issuer. In the event the

Issuer determines that the continuation of the system of book-entry-only transfer through DTC (or successor securities depository) is not in the best interest of the DTC participants, beneficial owners of the Bonds, or the Issuer, the Issuer will notify the Paying Agent, whereupon the Paying Agent will notify DTC of the availability through DTC of the bond certificates. In such event, the Issuer shall issue and the Paying Agent as transfer agent shall transfer and exchange bonds as requested by DTC of like principal amount, series and maturity, in authorized denominations to the identifiable beneficial owners in replacement of the beneficial interest of such beneficial owners in the Bonds.

2. The Bonds of this issue shall be executed in the name of the Issuer with the facsimile signatures of the Mayor and the City Clerk of the Issuer and shall have the seal of the Issuer, or a facsimile thereof, printed or impressed on the Bonds. No Bond shall be valid until authenticated by an authorized officer or representative of the Paying Agent. The Bonds shall be delivered to the Paying Agent for authentication and be delivered by the Paying Agent to the purchaser or other person in accordance with instructions from City Manager or the City Treasurer of the Issuer upon payment of the purchase price for the Bonds in accordance with the bid therefor when accepted.

3. The Paying Agent shall keep the books of registration for this issue on behalf of the Issuer. Any Bond may be transferred upon such registration books by the registered owner of record, in person or by the registered owner's duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Paying Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the Issuer shall execute and the Paying Agent shall authenticate and deliver a new Bond or Bonds, for like aggregate principal amount. The Paying Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

4. The City Treasurer is authorized and directed to open a separate depositary account with a bank or trust company or to establish a separate account on the books of the Issuer, to be designated 2003 GENERAL OBLIGATION UNLIMITED TAX BONDS DEBT RETIREMENT FUND (the "Debt Retirement Fund"), the moneys to be deposited into the Debt Retirement Fund to be specifically earmarked and used solely for the purpose of paying

principal of and interest on the Bonds as they come due. All proceeds from taxes levied for the payment of the principal of and interest on the Bonds shall be deposited into the Debt Retirement Fund as collected.

5. Commencing with the year 2003, there shall be levied upon the tax rolls of the Issuer for the purpose of the Debt Retirement Fund each year, in the manner required by the provisions of Act 34, Public Acts of Michigan, 2001, as amended, an amount sufficient so that the estimated collection therefrom will be sufficient to pay promptly, when due, the principal of and interest on the Bonds becoming due prior to the next annual tax levy; provided, however, that if at the time of making any such annual tax levy there shall be surplus moneys on hand in the Debt Retirement Fund for the payment of principal of and interest on the Bonds, then credit therefor may be taken against such annual levy for the Debt Retirement Fund.

In the event cash or direct obligations of the United States or obligations the principal of and interest on which are guaranteed by the United States, or a combination thereof, the principal of and interest on which, without reinvestment, come due at times and in amounts sufficient to pay at maturity or irrevocable call for earlier optional redemption, the principal of, premium, if any, and interest on the Bonds, shall be deposited in trust, this resolution shall be defeased and the owners of the Bonds shall have no further rights under this resolution except to receive payment of the principal of, premium, if any, and interest on the Bonds from the cash or securities deposited in trust and the interest and gains thereon and to transfer and exchange Bonds as provided in this resolution.

6. The City Treasurer or designee is authorized and directed to open a separate depositary account with a bank or trust company or to establish a separate account on the books of the Issuer, to be designated 2003 GENERAL OBLIGATION UNLIMITED TAX BONDS CONSTRUCTION FUND (the "Construction Fund"), and to deposit into the Construction Fund the proceeds of the Bonds less accrued interest and premium, if any, which shall be deposited into the Debt Retirement Fund. The moneys in the Construction Fund shall be used solely to pay the costs of the Project and the costs of issuance of the Bonds.

Legislation also has been introduced in the Michigan Legislature which, if enacted in its present form, would reduce the taxable valuation of property subject to ad valorem taxation from 50% of the cash value to 40% of the cash value. Legislation also has been introduced in the Michigan Legislature, which, if enacted, depending on the version enacted, could result in either immediate or phased-in exemption of all or some of the personal property located in the jurisdictional boundaries of the City, without making provisions for replacement of lost revenues to the City. In addition, the Michigan Department of Treasury has approved revisions to the State's personal property tax tables effective for the year 2003 which may reduce overall personal property tax revenues in the City. The State Tax Tribunal has informally indicated that the Tax Tribunal may allow them to be applied retroactively in pending personal property tax appeals. In anticipation of the new multipliers, many personal property taxpayers have filed appeals of their existing tax assessments. The financial impact of the change in multipliers and any appeals, if successful, on the City's operating revenues in unknown. Purchasers of the bonds offered herein should be alert to the potential effect of the foregoing measures upon the Bonds, the security therefor, and the operations of the City.]

The usual closing documents, including a certificate that no litigation is pending affecting the issuance of the bonds, will be delivered at the time of delivery of the bonds. If the bonds are not tendered for delivery by twelve o'clock noon, Eastern Daylight Time, on the 45th day following the date of sale, or the first business day thereafter if said 45th day is not a business day, the successful bidder may on that day, or any time thereafter until delivery of the bonds, withdraw his proposal by serving notice of cancellation, in writing, on the undersigned in which event the City shall promptly return the good faith deposit. Payment for

the bonds shall be made in Federal Reserve Funds. Accrued interest to the date of delivery of the bonds shall be paid by the purchaser at the time of delivery.

CUSIP NUMBERS: It is anticipated that CUSIP identification numbers will be printed on the bonds, but neither the failure to print such numbers on any bonds nor any error with respect thereto shall constitute cause for a failure or refusal by the purchaser thereof to accept delivery of and pay for the bonds in accordance with terms of the purchase contract. All expenses in relation to the printing of CUSIP numbers on the bonds shall be paid for by the City; provided, however, that the CUSIP Service Bureau charge for the assignment of such numbers shall be the responsibility of and shall be paid for by the purchaser.

157. Special Approval – 27080 John R Road.

A public hearing was held to hear comments, if any, to permit the use of outdoor seating for a restaurant at 27080 John R Road. Steve Bera, owner representing his partners, wife, Sandra Bera, and William K. Ollila, stated that this business is located in the Downtown Development Authority and explained that the outdoor seating would consist of four picnic tables with umbrellas to be located on an existing concrete pad. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Shad,

WHEREAS, a Special Approval Board application has been received from Sandra Bera, 27080 John R Road, requesting to use the property at 27080 John R Road for outdoor seating for a restaurant, said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on May 13, 2003, and 176 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 27080 John R – Northeast corner of John R / 11 Mile

REQUEST: Special Approval for outdoor seating at existing sit down and carry out restaurant.

EXISTING ZONING: B-3 General Business

EXISTING USE: 3,400 square foot sit down and carry out restaurant

STAFF ANALYSIS:

1. This request is to allow the existing restaurant – The Roost – to have outdoor seating in the B-3 District. Special Approval for the existing restaurant was granted by City Council on August 27, 2001. At that time, the site did not meet minimum Zoning Ordinance parking standards and necessitated a parking variance of 5 spaces for the then proposed restaurant with only internal seating. The necessary variance was granted by the ZBA and the restaurant was developed. City Council recently passed amendments to the parking standards of the Zoning Ordinance, including the required parking for restaurants. As proposed, the restaurant meets the new parking standards.

2. Four picnic tables with umbrellas are proposed, located on an existing concrete pad. The applicant indicates that additional site improvements will include a trash receptacle, and may include a decorative fence surrounding the patio. No lighting or sound system is proposed, and the applicant has indicated no intention to seek approval for the sale or consumption of alcoholic beverages now or in the future.

3. The Site Plan Review Committee has reviewed the plan and has no additional comments to address.

4. Should Council grant approval of this request for outdoor seating, the following conditions are recommended:

A. Hours of Operation: 10:30 a.m. – 10:00 p.m.
B. No additional outdoor lighting
C. No sound system
D. No sale or consumption of alcoholic beverages.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section of the Code of Ordinances, hereby approves the request subject to:

A. Hours of Operation: 10:30 a.m. – 10:00 p.m.
B. No additional outdoor lighting
C. No sound system
D. No sale or consumption of alcoholic beverages.

Yeas: Corbett, Russell, Scott, Shad, Swanson and Clark.
Nays: None.

158. Special Approval – 31682 John R Road Road.

A public hearing was held to hear comments, if any, to permit the use of a sit-down/carry out restaurant at 31682 John R Road. Peter Morais, 2864 Inman, Ferndale, Michigan 48220 representing Quizno's and the applicant, Purnima Shad stated that there have been approximately 25 Quizno's constructed in the Metro area. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman Scott,
Supported by Councilman Corbett,

WHEREAS, a Special Approval Board application has been received from Purnima Shad, 43105 Catclaw, Sterling Heights, Michigan 48314, requesting to use the property at 31682 John R Road for a sit-down/carry out restaurant, said property is zoned B-3, General Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on May 16, 2003, and 31 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 31682 John R

REQUEST: Special Approval for a Quizno's Sub Shop with seating.

EXISTING ZONING: B-3 General Business

EXISTING USE: Vacant existing tenant space (1,000 square feet)

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-3 District. The applicant proposes a sit down / carry out restaurant.

2. The facility is within 1,500 feet of 7 other restaurants. Restaurants proposed within 1,500 feet of existing restaurants require Zoning Board of Appeals approval after City Council's consideration and grant of Special Approval. Accordingly, should Council grant special approval, this proposal would be forwarded to the ZBA for their review of a variance request from the 1,500 feet separation requirement.

3. The existing parking for this site exceeds minimum parking requirements.

4. Proposed Hours of Operation:
   Monday – Saturday: 10:00 a.m. - 11:00 p.m.
   Sunday 10:00 a.m. – 9:00 p.m.

5. The Site Plan Review Committee has reviewed the site plan and has no further comments to address.

6. Should Council grant approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to
      Monday – Saturday 10:00 a.m. – 11:00 p.m.
      Sunday 10:00 a.m. – 9:00 p.m.
   B. Zoning Board of Appeals approval of a variance from the 1,500 feet separation requirement.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section of the Code of Ordinances, hereby approves the request subject to

A. Hours of operation shall be limited to
   Monday – Saturday 10:00 a.m. – 11:00 p.m.
   Sunday 10:00 a.m. – 9:00 p.m.

General: All sidewalks shall comply with Sections 23-31 through 23-38 of the Code of Ordinances, except as specified below.

Gap Map Created: There is hereby established as a part of this policy a "Sidewalk Program and Gap Map" (attached). This map establishes sidewalk gap locations throughout the City as of May 2003 and denotes those gaps that are "to remain" and those that are "to be installed".

All sidewalks repaired, replaced or installed as part of public road or utility projects shall be in compliance with City Code.

All Other Gaps "To Be Installed": All other sidewalk gaps shown as "To Be Installed" on the Gap Map shall be installed during the City's scheduled annual sidewalk program in accordance with the "*Sidewalk Program*" years on the Gap Map. All gaps in existing sidewalks identified during the scheduled annual sidewalk program shall be repaired or installed as required to bring the sidewalk into compliance with City Code. Gaps to Remain: Construction of sidewalks shown on the Gap Map as "Sidewalk Gaps to Remain" shall not be required. However, nothing in this policy should be construed as preventing installation of said sidewalks where the property owner and / or City voluntarily seek such installation.

Existing Substandard *4' Wide Sidewalk:* Substandard 4' wide sidewalk that is damaged shall be replaced with standard 5' wide sidewalk, included in the annual sidewalk repair program and paid for by the property owner through the SAD. Where a non-senior property owner has made successful application to the Board of Review for a reduction in property taxes based on financial hardship, that finding shall entitle the property owner to an automatic reduction to $300 in total sidewalk special assessment.

Estimation of Sidewalk Gap Project Costs

The City Engineer, in accordance with Section 22-4 of the Code of Ordinances, shall determine estimated costs of all sidewalk gap construction.

178. SAD 264 – Sidewalk Repair Program, Resolution 3 – Withdrawn

SPECIAL ASSESSMENT DISTRICT NUMBER 264
RESOLUTION NUMBER 3

City Manager Austin reviewed the 2003 Sidewalk Repair and Gap Program and the procedures to provide for the replacement or installation of approximately 28,071 square feet of 5 foot sidewalk; the Sidewalk Repair Program Background Summary and the two Sidewalk Repair Financial Hardship Programs, which provide options to qualified property owners to assist in paying sidewalk special assessment. The following persons offered the following comments:

Keith Achrem, 584 E. Kalama, stated his approach is badly damaged and asked if it would be replaced. Community Development Director Schafer stated that sidewalks only are being replaced, but that Mr. Achrem could work directly with the contractors to do additional work.

Peggy Keveney, 28736 Townley stated that the roots of the tree between the sidewalk and the curb continually raise the sidewalk which necessitates repair every 4-5 years and asked if the tree roots could be trimmed. Community Development Director Schafer stated that the roots are trimmed only to level the sidewalk but that the problem will be looked into.

Tony Usakoski, owner of Universal Fabricators, Inc. at 25855 Commerce, objected to sidewalks in this industrial subdivision because they would create a safety hazard to pedestrian traffic due to the semi-truck and steel haulers in and out of driveways on Commerce, and objected to the expense of snow removal and maintenance.

Wayne Hein, 35635 Delia Dr, Sterling Heights presented pictures of his 4-foot sidewalk at 52 W. Harwood which he feels does not need repairs, and objected to paying for a 5-foot sidewalk.

Gordon Heilbrunn, 31450 Madison, stated he is not part of this year's sidewalk program, but he has one square of sidewalk that was done in a prior year by the City that is lower and holds 4-5 inches of water, and would like it looked into.

Ray Cadrette, 130 E. Harwood stated he wants his sidewalk reevaluated because it was replaced 15 years ago and has no trip hazards.

Community Development Director Schafer stated that the sidewalk program's goal is to create a network for sidewalks throughout the city for workers getting to and from bus routes and to get pedestrians off the streets. He stated that inspectors will investigate and reevaluate each of the questions raised.

John Scalise, 134 E. Harwood asked the actual cost of the assessment and how it would be billed. Community Development Director Schafer stated that the actual amount will be determined after bids are received, but the cost will not be any higher than the estimates supplied to the homeowner. The total assessment will be divided into three separate payments and the City will send out bills.

There being no further comments the public hearing was closed.

Motion by Councilwoman Shad, to postpone the vote for Resolution 3 until the next meeting on June 23rd in order to investigate the complaints.

City Manager Austin stated, as a point of information, that Resolution 3 determines the necessity for the entire project. Resolution 5, which would be scheduled by Resolution 4 for June 23rd, is the second public hearing and at that time Council can approve or postpone approval of the roll.

Councilwoman Shad Withdrew the Motion.

181. Meeting Open to the Public

Clifford Oglesby complimented City Project Director Ron Vannoy and Dolly Ferries for their work on the Memorial Day Parade. Mayor Swanson also commended Mr. Oglesby for his participation.

Gordon Heilbrunn, 31450 Madison, objected to mail he received from the Orthopedic Hospital at 30671 Stephenson as being misleading.

Lorraine Hardy, 68 W. Brockton, wanted to know what the City plans were regarding West Nile Virus control. City Manager Austin stated that larvacide tablets were put in all storm water catch basins and any standing water on all public property and municipal buildings. He urged citizens to eliminate standing water on their properties. A plan has been presented to Council to do testing to see how effective larvacide measures are and depending on results, spraying may be considered. He asked citizens to self-report any clinically confirmed West Nile Virus received from mosquitoes in Madison Heights to help the City develop a control strategy.

Councilwoman Russell asked that Deputy City Manager Connors provide the name of the larvacide to anyone with standing water. She also raised the issue of confidential medical information.

Councilman Corbett stated that Oakland County has a very comprehensive plan for dealing with the treatment of the problem but it excludes information from each community as to where people were bitten, which is more informative than where they live.

Councilwoman Shad asked Richard LePage, 30930 Plum Lane, to speak on the problem. Mr. LePage stated that a trapping method will be used in areas overpopulated by mosquitoes as a method of control and limited spraying in areas with large public gatherings. He complimented Deputy City Manager Connors and the City's efforts on control and noted that he has been involved with a support group for people with the disease.

John Scalise, 134 E. Harwood objected to the number of No Turn on Red signs and the number of traffic lights as not being logical and asked that it be looked into. City Manager Austin stated the Traffic Safety Committee has been working to remove signs and have more adaptive signals. He stated Oakland County is in charge of many of the roads and the number of street traffic lights, and that the City is continuing to work with them.

VOTE ON MOTION 187

Yeas: Swanson, Clark, Corbett and McGillivray
Nays: Shad and Russell

Robert Formisano, Project Planning & Management, stated that since the last update on January 28 there has been significant progress on the project. CDPA Architectural Firm completed their construction blue prints which were used to solicit sub-contractor bids. McCarthy & Smith, the Builder, competitively bid the sub-contracts resulting in a guaranteed maximum price of $4,650,953.66 and soft costs were budgeted at $1,275.046. The sled hill safety is a very important part of the project which is one of the reasons they wanted Grissim, Metz and Andriese, a very good architectural contractor. The City management team's achievements in the last few months included approval of the site plan, vacating the alleyway easement, obtaining a very good bond rate for the general bond financing and rerouting the civic center trail around the base of the hill. A new traffic signal at John R and Irving is in process and being coordinated with the Road Commission. The ground breaking ceremony was held on June 4th. McCarthy & Smith is in the process of developing a new construction schedule based on input from the over 40 sub-contractors and the project is estimated to be ready for occupancy for the second quarter of 2004, with completion to be in the late third or early fourth quarter of 2004. He stated it is extremely important that all site visits be coordinated through the building site superintendent, Dominick Cipparone, for safety reasons.

He requested resolutions recognizing South Oakland County Credit Union and Standard Federal Bank for their participation in a low-interest home improvement program that compliments the City's Community Improvement Program loan. He asked that Staff coordinate with County Commissioner Suarez and Commissioner Webster of Royal Oak, to approach the County to get information from reported West Nile Virus cases on were they were bitten and to anonymously forward that information to the City. He congratulated the Bishop Foley Girls Soccer Team for winning the Regionals for a fourth time and wished them good luck in the State Finals.

Councilwoman Shad thanked Gary George and Patsy Pastoria for the great job done for the Relay for Life Cancer Walk. She congratulated Anna Myers, 10 year old daughter of Assistant City Manager Ben Myers, for being named The Detroit News student of the week.

Councilwoman Russell recognized, and Mayor Swanson called up and presented a Memorial Day Certificate of Recognition to Dolly Ferries because she was working as a school election inspector and was not present at the beginning of the meeting.

Councilwoman Russell asked that City Attorney Sherman to clarify how to collect information on cases of West Nile Virus without violating the Privacy Act. She requested a Certificate of Recognition for Monte Geralds and Councilwoman Scott for narrating the Memorial Day Parade. She noted that the 96% of the donations given to the Michigan American Cancer Society are used directly for research. She requested that a Condolence Certificate be prepared for Nancy Lennon, former Court Administrator, on the death of her son David. She stated that making an appointment to visit the construction site might be difficult and clarified with Mr. Formisano a procedure to approach the construction site manager prior to touring the work site for reasons of safety and to not interrupt work. She also requested an agenda item be prepared on research she requested last fall on charging a fee for storage of recreation vehicles on the City lot, for the next Council meeting on June 23rd.

City Attorney L. Sherman welcomed Diane McGillivray back and wished her a continued speedy recovery. He extended condolences to the family of David Lennon and congratulated all the award winners.

City Manager Austin welcomed Diane McGillivray and provided best wishes for a speedy recovery. He stated that the Fire Station Bond issue was very successful, bids on the 20 year bid bond was 3.6%, which was less than estimated, and will save over $700,000 which will mean a lower millage rate to taxpayers. The funds from the bond sale will be available in a week for the project.

Councilman Clark welcomed Diane McGillivray.

239. Jaycees – Use of Park Shelter Building for 2003 Haunted House and Fee Waiver.

Motion by Councilman Clark, supported by Councilman Corbett, to approve the request from the Madison Heights Jaycees to use the Park Shelter building at Civic Center Park for 2003 Haunted House from Thursday, September 4, 2003 through Sunday, November 16, 2003, and to waive all fees, contingent upon compliance with the Uniform Insurance Requirements for Special Events and all departmental requirements as listed.

Yeas: McGillivray, Russell, Scott, Shad, Swanson, Clark and Corbett.
Nays: None.

Councilwoman Russell stated that last year Council told the Jaycees that this would be the last year to use the park shelter building for their haunted house because the building is in need of renovation. She inquired if the Jaycees plan on returning next year with the same request.

Eric Roffe, Management Vice President, Madison Heights Jaycees stated that he spent three months looking at alternatives but that he could not say he would not be back.

Councilwoman Russell stated that Council would like the Jaycees to find an alternative with the assistance of the Community Development Director. She also stated that children and seniors use the bathrooms at the park shelter building.

Marie Kelsey, President of the Madison Heights Jaycees, stated that there are no permanent plans right now for the Park Shelter building and the Jaycees maintain the bathrooms at the Park Shelter building during the time the haunted house is opened to the public and would still be available to the public if the Park Shelter building were closed and not being used.

Councilman McGillivray asked City Manager Austin when the renovation of the park shelter would take place. City Manager Austin stated that the renovation part of the Parks and Recreation Master Plan development and the next opportunity for a grant would be next spring.

Councilman McGillivray stated that the Parks and Recreation Advisory Board plan to renovate the park shelter building would allow more activities to take place, such as dance classes and other recreational programming. This year the Haunted House would not be a conflict but in the future there will be a conflict and Council will have to draw the line. He suggested that the Jaycees make every effort to work with the Economic Development Coordinator and Community Development Director to come up with a new location.

Councilwoman Shad stated that Council voted unanimously last year that the Jaycees find another location but because of their generosity and giving back to the community she would not mind if the Jaycees use the park shelter building for this year's haunted house. But next year the Jaycees will have to really look hard and start early to find a new location.

Councilwoman Scott commended the Jaycees on their hard work giving back to the community. She also stated that this year, when the City Council denied the Jaycees Fair, Council promised to help them get back to being stable and in her opinion this is the appropriate time.

Mayor Pro Tem Corbett stated that the building is in need of renovation but as along as reasonable safety issues can be addressed he has no objections.

252. Special Approval – 28245 John R Road.

A public hearing was held to hear comments, if any, to permit the use of an automation exterior only car wash at 28245 John R Road, said property is zoned B-3, General Business. Robert Gunn, 19918 Fleetwood, Harper Woods, Michigan 48225 the applicant was present and reviewed the revised application and site plan. The original application was denied by City Council on February 24, 2003. Chester Stempien, Architect, 29895 Greenfield, Southfield, representing the applicant stated that in his opinion the noise level of both the vehicles and the car wash equipment will be eliminated from the homes in the rear of the property with a 6 foot high masonry screen wall and the solid wall of the building.

Edward Rayman, 28356 Brush stated that he favored the car wash because of the current fence will be replaced with a new screen wall and the draining will eliminate the standing water in the rear of his home. Tom Vaughn, 22731 Saxony, Eastpointe stated that he lives in close proximity of a car wash owned by Mr. Gunn at 17335 East Nine Mile Road, East Pointe, and he is not bothered with the problems of trash, noise, car fumes or vibrations. Bill Koerber, 20656 Country Club, Harper Woods, and owner of Du-All Instrument Service, 31431 John R Road stated that he knows the applicant, Steve Gunn and he uses the car wash in East Pointe and that in his opinion this proposed business will be an asset to the community. Hugh Simpson, 86 West Katherine favored the car wash. Greg Vargo, President of Vargo Construction, 20210 Woodland, Harper Woods, stated that he has helped to construct other car washes the applicant owns and it is his opinion this building will be harmonious to the area. Mike Rennick, 28806 Diesing stated that the design of the building would improve the vacant lot and the neighborhood.

Erin Howard, 29660 Mark favored the proposed car wash. Todd Christopher, 20115 North Line, Taylor stated that he installs car washes and specializes in the car wash dryers and that this proposal, by turning the doors toward the front of the building and moving the dryers from the rear of the building, allows the sound to go toward the front of the building. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Shad,
Supported by Councilman Clark,

WHEREAS, a Special Approval Board application has been received from Robert Steven Gunn, 19918 Fleetwood, Harper Woods, Michigan, 48225, requesting to use the property at 28245 John R Road for an automation exterior only car wash, said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on July 31, 2003 and 135 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

Request: Special Approval for an automated car wash at 28245 John R

Location: West side of John R between Katherine and Parker

Applicant: Robert Gunn
19918 Fleetwood
Harper Woods, MI 48225

Staff Analysis:

1. This request is for Special Approval to operate an automated car wash. The applicant previously sought special approval for a car wash on this site in February 2003. That request was denied.

2. After that action, the applicant met with City staff, the City Attorney, and the applicant's legal counsel to discuss the applicant's options. Section 10.201(5)g of the Zoning Ordinance addresses the issue of reapplication for special approvals that have been denied:

G. No reapplication, reconsideration and/or rehearing for a special use permit which has been denied by the City Council shall be resubmitted until the expiration of one (1) year from the date of such denial, except on grounds of newly discovered evidence or proof of materially changed conditions, sufficient to justify reconsideration by the City Council. Each re-application will be treated as a new application.(Underline added)

The applicant has revised the application and site plan and is seeking City Council approval of a new application based on the underlined provisions of the Zoning Ordinance above.

3. The applicant has submitted a detailed summary of the proposal and changes to the application and plan. Major changes to the request include the following:

   - The building has been redesigned to eliminate the previous 8 feet encroachment into the required 20 feet rear yard setback. The required setback is now maintained.

   - The previous plan called for a 12 feet wide driveway behind the building, adjacent to the residential parcels to the west. This drive has been eliminated and the area is proposed to be a grass swale.

   - The previously proposed outside vacuum stations have been eliminated.

   - The building has been modified so that exit doors from the building face John R. The previous plans had exit doors facing south, partially observable from the residential area to the west.

   - Elimination of the vacuum stations resulted in additional area for vehicle stacking (Previous: 14; Proposed: 31).

- ❑ Hours of Operation have been changed**.**

  Previous: 8:00 a.m. – 8:00 p.m. Monday – Saturday;
  8:00 a.m. – 5:00 p.m. Sunday
  Proposed: 8:00 a.m. – 6:00 p.m. Monday – Saturday;
  9:00 a.m. – 5:00 p.m. Sunday

- ❑ Lighting has been redesigned to reduce potential impact on adjacent residential areas. Pole heights have been reduced to 20 feet from 28 feet, and the rear yard lighting is facing away from adjacent residential and is motion sensor activated.

4. Number of Employees: 3

5. The Site Plan Review Committee has reviewed the site plan and has one site plan related comment for Council's consideration in their review of the request:

   a. A chain link fence is required on all sides of the property where no screen wall is proposed. In this case, a 2 feet high chain link fence is required along John R and a 4 feet high chain link fence is required on the north side property line. No chain link fencing is proposed. Accordingly, a variance will be required from the Zoning Board of Appeals.

Recommendation:

Following public hearing, should City Council grant special approval for the proposed facility, staff recommends the following conditions:

1. Zoning Board of Appeals approval of a chain link fence variance on the north side and east front property lines.

2. Hours of Operation:
   8:00 a.m. - 6:00 p.m. Monday – Saturday,
   9:00 a.m. - 5:00 p.m. Sunday

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section of the Code of Ordinances, hereby approves the request subject to the following conditions:

1. Zoning Board of Appeals approval of a chain link fence variance on the north side and east front property lines.

2. Hours of Operation:
   8:00 a.m. - 6:00 p.m. Monday – Saturday,
   9:00 a.m. - 5:00 p.m. Sunday

Richard LePage, 30980 Plum Lane stated that he was representing the 50 condo owners and inquired why the city will not pick up their garbage in front of their condominium (on private property) but they would be required to place the garbage on 13 Mile Road and should the condo owners sign a contract with Waste Management. City Manager Austin stated the Plum Lane Condo Association requested a report be provided by August 15th and that the Department of Public Service is in the process of moving back into the DPS building (after the fire related renovations) and staff would generate the report as soon as possible. City Attorney L. Sherman stated that he would agree with City Manager Austin that some conclusions need to be reached in finalizing the report and it would not be appropriate for the City to advise the condo owners with regard to signing a contract with Waste Management.

417. FY 2004-2005 Goal Plan

City Manager Austin provided an overview of the objectives, limitations, past successes and future expectations of the City Council goal setting process.

Based on the work of Finance Director McGuire, Manager Austin outlined the potential impacts of the State cuts to shared revenues, limits on property tax revenues and the continuation of current expenditure trends on both the current and next year's budget. The first financial projection for FY 2004-05 indicates that General Fund expenditure would exceed revenues by $1.4 million. To address this shortfall the City will be forced to review: alternative service delivery including consolidation, contracting out, reduction, or elimination of programs; continuation of the hiring review and freeze for vacant positions; elimination of positions left vacant from the hiring review/freeze to avoid layoffs, if possible; and diversification of revenue services.

City Manager Austin then led a discussion of the Staff and Council Budget Measures, Ongoing and New Goal Proposals for 2004-2005.

As a result of the discussions, the Council asked the staff to develop a proposed 2004-2005 Goal Plan including the following:

BUDGET MEASURES PROPOSALS:

(A) Retiree Health Savings Plan;
(L) Review of Branch Library Operations;
(K) Police Patrol Vehicle Replacement Plan Modification;
(D) Competitive Bidding of Health Insurance;
(J) Watermain Tapping Fee Adjustments;
(M) Elimination of Redundant Telephone Circuits and Radio Circuit Conversion to Fiber;
(C) Competitive Bidding of Medical Services;
(H) Combining Summer & Spring Newsletters;
(B) Online Position Adverting
(L) Eliminating Tuesday Evening Sessions at the Senior Citizen Center

Councilman McGillivray requested information for the Mayor and Council to share with the residents regarding the utilization and relative service value of the Branch Library and possible alternative uses of the building, if library services are consolidated at the Main Library.

Councilman Corbett inquired if the City could accept advertisement sponsorships of the newsletter/recreation brochure to assist with funding.

Councilman McGillivray requested that the advertising for selected authorized vacant positions include a newspaper of local circulation in addition to the advertising proposal.

Council agreed to revisit (E) Holiday Decoration Lighting Proposal after evaluating during this holiday season, but to authorize a one-year trial of daytime displays (e.g. without lighting).

ONGOING PROPOSALS:

Discussion was also held regarding the following proposals; (cc) West Nile Virus Prevention; (dd) Modify 10 Year Residential Road Improvement Plan; and (aa) Emerald Ash Prevention and Ash Tree Removal.

City Manager Austin reviewed the proposed (dd) Modification 10 Year Residential Road Improvement Plan and stated that the City Staff would proceed with moving up the R-10 projects to 2004, would survey property owners on Woodside west of Barrington in response to the residents petition and would bring back the Re-Programming of Proposal "R" Funds including the addition of road projects on Woodside, Dorchester and Delton for Council's consideration.

NEW PROPOSALS

Briefly the Council reviewed: (e) Purchase of ten (10) Tasers (less lethal stun guns) for the Police Department; (h) Replacement Automatic External Defibrillator; (j) Comprehensive Fire Detection and Suppression Systems for City Buildings; (f) Purchase of Auxiliary Power (generator) and Transfer Switch System for City Hall; and (GGG) High School Recreation Evening Program

City Manager Austin stated that, within the constraints of achieving a balanced budget, the Departments would attempt to identify funding in their budgets to accomplish these New Proposals, but new spending on these proposals would mean reductions in other areas.

Councilwoman Shad stated that if funding was available, Election Polling signs (Goal b) should be displayed at the entrance of polling locations. In addition, Councilwoman Scott inquired if signs could be displayed along main intersections.

Councilman McGillivray requested the City study Civic Center Park Shelter Building Options (Goal HHH) as part of the next Five Year Parks and Recreation Master Plan. He also inquired if the City could investigate recruiting volunteer Park Rangers and/or the use of Police Reserves at the City's major parks.

The discussion concluded by City Manager Austin indicating that staff would prepare a Proposed Goal Plan focusing on the top ten Budget Measure Proposals and would schedule it for consideration at a regular City Council meeting.

418. Adjournment.

There being no further business, Mayor Swanson adjourned the meeting at 11:45 p.m.

He stated the citizen members of the Fire Station Task Force were not being included as part of the Fire Station construction meetings.

The City already has a backup EOC of a remote location at the DPS building. The City Manage indicated that he would follow up with the project team and check the ballot language and newsletter for any reference to the EOC.

Motion by Councilman McGillivray,
Supported by Councilman Clark,

CITY OF MADISON HEIGHTS
RESOLUTION OPPOSING SENATE BILL 810

WHEREAS, Article IX, subsection 3 of the Michigan Constitution mandates that the Legislature provide for the uniform general ad valorem taxation of tangible personal property, provide for the determination of cash value of such personal property and provide the proportion of true cash value at which such property shall be uniformly assessed; and

WHEREAS, the Michigan State Senate is considering the adoption of Senate bill 810 which would amend Public Act 206 of 1893 entitled "The General Property Tax Act;" and,

WHEREAS, Senate Bill 810 provides that for taxes levied after December 31, 2003, that depreciation of personal property used to develop tool and die products could not be less than the depreciation provided for in Section 168 of the Internal Revenue Code; and,

WHEREAS, Section 168 of the Internal Revenue Code provides for an accelerated cost recovery system and prescribes various depreciation methods to determine the deduction; and,

WHEREAS, such a mandatory depreciation minimum is not market based nor value based and is not "ad valorem" and is inequitable to all other taxpayers; and,

WHEREAS, Senate Bill 810 would effectively exempt most remaining taxable tools and thereby deprive municipalities of the resulting local property tax revenues derived therefrom.

NOW, THEREFORE, BE IT RESOLVED that the City of Madison Heights hereby opposes Senate Bill 810 as presently drafted.

BE IT FURTHER RESOLVED, that a copy of the Resolution be forwarded to State Senator Shirley Johnson, State Representative David Woodward, Members of the Senate Committee on Commerce and Labor, all other Members of the State Senate and the State House of Representatives, Governor Jennifer Granholm, the Michigan Municipal League and the Michigan Township Association.

CITY OF MADISON HEIGHTS
RESOLUTION OPPOSING SENATE BILL 811

WHEREAS, the City of Madison Heights has been involved in litigation since 1995 on a Special Tool Exemption matter, Danse Corporation v City of Madison Heights, which is currently pending in the Michigan Court of Appeals for the second time; and,

WHEREAS, this litigation has potential impact on all taxing authorities of the State of Michigan, and

WHEREAS, by virtue of this litigation, the City of Madison Heights has unique insight into the "Special Tool Exemption" issue; and,

WHEREAS, the Michigan State Senate is considering modifications to the definition of the "Special Tool" exemption currently contained in the General Property Tax Act, MCL 211.9b in a purported effort to assist a beleaguered Tool and Die Industry; and,

WHEREAS, when MCL 211.9b was adopted by the Legislature in 1964 it was known as, "The Chrysler Act" intended to primarily benefit the auto industry in order that molds, dies, jigs, etc. producing auto parts that are short lived and likely to change during model changeover would be special tools and exempt from taxation; and,

WHEREAS, MCL 211.9b did not intend to exempt from taxation as special tools molds, dies, jigs, etc. which stamped out a "common wrench," where there was no planned obsolescence at the outset of production, and the mold could be used to produce wrenches for an indefinite period of time; and,

WHEREAS, Senate Bill 811 expressly eliminates any consideration of a "device's actual economic life or useful life or the product's or model's life in the marketplace" which would broaden the exemption to include all molds, die, jigs, etc., and as a result, would wreak financial havoc on municipalities and other taxing authorities by exempting approximately 20% to 30% of industrial personal property assets currently subject to taxation; and,

WHEREAS, the expansion of the "Special Tool Exemption" would transfer the burden the cost of Government to the remainder of taxpayers whose property is not exempt; and,

WHEREAS, the City of Madison Heights believes that it is in the best interest of all concerned to adopt clear and unambiguous definition of what constitutes a "Special Tool" that is consistent with the original intent of the Legislature by exempting only those tools for which there was planned obsolescence from the outset of production.

NOW, THEREFORE, BE IT RESOLVED that the City of Madison Heights hereby opposes Senate Bill 811 as presently drafted.

BE IT FURTHER RESOLVED, that the City of Madison Heights implores the members of the Michigan Legislature to reject Senate Bill 811 in its present form in order to prevent financial windfalls to unintended corporate beneficiaries and avert further erosion of the financial resources of the municipalities.

BE IT FURTHER RESOLVED, that the City of Madison Heights requests and that a clear and unambiguous definition of "Special Tool" be adopted which incorporates the original intent of the Legislature and that any future drafts be circulated to parties of interest with an opportunity for comment.

BE IT FURTHER RESOLVED, that a copy of the Resolution be forwarded to State Senator Shirley Johnson, State Representative David Woodward, Members of the Senate Committee on Commerce and Labor, all other Members of the State Senate and the State House of Representatives, Governor Jennifer Granholm, the Michigan Municipal League and Michigan Township Association.

Penny White, 21408 Birchwood, Farmington, Michigan 48336 the applicant was present and clarified that the restaurant will be able to accommodate seating for 42 persons, because of the vacant addition to the building. There being no comments from the audience, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Scott,

WHEREAS, a Special Approval Board application has been received from Penny White, 21408 Birchwood, Farmington, Michigan 48336, requesting to use the property at 30600 John R Road to permit the increase of the seating capacity to 42 spaces for a restaurant, said property is zoned B-3, General Business, and

WHEREAS, a public hearing was advertised in the Daily Tribune on December 5, 2003, and 136 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

LOCATION: 30600 John R –
Southeast corner of John R and LaSalle.

REQUEST: Special Approval for a restaurant with seating for 42, under Section 10.326(10) of the Zoning Ordinance.

EXISTING ZONING: B-3 General Business

EXISTING USE: Existing restaurant to be converted to The Breakfast Club.

STAFF ANALYSIS:

1. Special Approval is required for restaurants in the B-3 District. The existing European Restaurant facility was granted special approval in 1996 for a restaurant with indoor seating for 20 people. In 1998 the ZBA granted a variance for the existing facility to have outdoor seating conditioned upon elimination of the indoor seating. The outdoor seating variance was not utilized. The applicant now proposes a sit down restaurant with a seating capacity of 42, including an outdoor patio in the summer. (No expansion in the actual structure is proposed). This expansion in seating capacity triggers the need to modify the special approval for the site to accommodate the proposed additional seating and proposed parking arrangement.

2. The existing on-site parking does not meet minimum ordinance requirements for the proposed expansion of seating capacity. Accordingly, the applicant is proposing to use a portion of the Red Oaks Assembly of God parking lot, across LaSalle to the north, to meet the minimum required parking. This would be accomplished through application to the ZBA and is permitted in the Zoning Ordinance through the use of parking easements. Should City Council grant the special approval the applicant will apply to the ZBA for the shared parking agreement. The church has adequate additional parking to accommodate a shared parking agreement that will meet the required parking for both the restaurant and the church. A total of 23 parking spaces are required for the restaurant.

3. Proposed Hours of Operation: Mon – Sun: 7:00 a.m. to 2:00 p.m.

4. The Site Plan Review Committee has reviewed the site plan and has no comments to address.

5. Should Council grant approval of this request, the following conditions are recommended:

   A. Hours of operation shall be limited to Mon – Sun: 7:00 a.m. to 2:00 p.m.
   B. Zoning Board of Appeals approval of combined parking agreement with Red Oaks Church Assembly of God to provide the minimum spaces required for the proposed restaurant.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section of the Code of Ordinances, hereby approves the request subject to the following conditions:

   A. Hours of operation shall be limited to Mon – Sun: 7:00 a.m. to 2:00 p.m.
   B. Zoning Board of Appeals approval of combined parking agreement with Red Oaks Church Assembly of God to provide the minimum spaces required for the proposed restaurant.

C. That the Zoning Board of Appeals investigate the no parking restriction along the south side of LaSalle from John R Road to the driveway entrance to the proposed restaurant subject to the Traffic Safety Committee review.

CITY OF MADISON HEIGHTS
ADOPTED 2004-05 GOAL PLAN
December 15, 2003

Organizational Mission Statement

The Mission of the City of Madison Heights is to provide high quality services to residents and businesses in the most efficient, effective and ethical manner possible so as to maintain and enhance, where possible, the public's health, safety, and quality of life.

Resources Management Related Goals

In light of the growing financial pressures resulting from the reduction in state shared revenues, limits on property tax revenues and the continuation of current personnel-related expenditure trends, the City has developed several budget measure goals in an effort to maintain quality service and/or minimize the impact in service reductions to our residents and businesses. These budget measures focus on alternative service delivery including consolidation, contracting out, reduction or elimination of programs; continuation of the hiring review/freeze of vacant positions and diversification of revenue sources. The goals were developed with an effort to save money, improve efficiencies and/or provide existing services at reduced costs.

A. Review options and prepare a recommendation on both employer and employee pre-funding of non-sworn retiree health care costs.
C. Competitively bid medical services provided to the City, such as pre-employment physicals, pre-employment drug screening, fitness for duty evaluations and work-related injury treatment in order to determine if the City could reduce costs without reducing services.
D. Modify the current vehicle replacement schedule for Police patrol vehicles by moving from an age to a mileage replacement standard.
E. Evaluate the existing utilization of the Branch Library and report on the advisability of consolidating library services at the Main Library, and possible alternative City service provision at this location.

F. Evaluate utilization of the Senior Center as part of the Tuesday evening program to determine cost benefit of these Senior Center hours.
G. Research and identify redundant telephone and radio circuits that can be eliminated as a result of new inter-building fiber optic network.
H. Redesign and combine the spring and summer quarterly City newsletter and recreation brochures.
I. Develop alternative cost saving methods by reducing the amount of employment advertising and moving to more efficient online advertisement.
J. Update ten year old watermain tapping cost recovery fee structure to reflect the cost of providing service to new building construction.

Subject to the availability of funding, the following priority goals should be pursued:

K. Continue the City's efforts to combat West Nile Virus through larviciding of all catch basins, water holding ponds and areas, and mosquito trapping and monitoring throughout the City.
L. Modify the existing Ten Year Residential Road Improvement Program to utilize program savings to expedite critical road reconstruction projects.
M. Expand the Police officers' alternatives for less than lethal use of force, to include the use of Tasers (electric stun guns) to momentarily incapacitate and subdue arrestees.
O. Restore fire alarm systems, currently inoperable, at City Hall, Police Station, District Court and Branch Library.
P. Research and procure a mobile emergency generator power transfer system capable of running the Civic Center telephone system, sub-lighting, power and other linked systems to address temporary emergency power needs.
Q. Enlist the support of local schools to investigate, and where appropriate, adopt an evening recreation program at our local high school building(s) as recommended as part of Youth Dialog Day.

7. Public Hearing – S.A.D. 266 – Greig from John R To Alden – Resolution 3.

A public hearing was held to hear comments, if any, on the necessity to construct concrete pavement, approaches, sidewalks, landscaping, storm sewer connections and miscellaneous related improvements on Greig from John R Road to Alden. Carl Trvszkowski, 26605 Tawas inquired as to the previous assessment he paid on Tawas and the letter he received in 1997 from the former City Assessor stating that he would not be assessed if Greig was paved. City Manager Austin explained that he will be assessed for the sideage based on 10% property owner share being spread and the length of the abutting property. Gary Edwards, 710 Greig, also stated that he received a letter dated November 20, 1996, indicating that if he contributed to the assessment on the paving of the street that he fronted on, he would not be assessed when Greig was paved. He also asked for clarification of Resolution 3 and 4. City Attorney L. Sherman explained that Resolution 3 relates to the necessity, Resolution 4 directs the City Assessor to compile the roll with the estimated assessments and that a notice of the amount be sent to property owners who will then have an opportunity to object. He also explained that the reason for splitting the projects into separate S.A.D.'s is because the portion of Greig between John R and Alden is primarily sideage parcels, the portion of Greig between Alden and Dequindre are primarily frontage parcels; so the formulas that are used to determine the assessments for each parcel are different in each segment.

Edwards stated his concerns that with the current condition of Greig there are vehicles that speed on Greig and run the stop signs and the paving would just add to the problem. He also was concerned about the landscaping which will be an additional expense and problem watering, cutting, fertilizing and repairing the grass. Mr. Edwards did admit the project was needed. James Ray, 26605 Lorenz, stated that he lives on the corner lot and that part of Lorenz has never been paved from 11 Mile Road to Greig. City Manager Austin stated that Lorenz is not part of the current Proposal "R" plan. He explained that one way for roads to be reconstructed, residents on a given block could submit petition(s) with 50% of the people in support of a project, and property owners would be assess 100% of the cost. Another way is to be included as part of the Proposal R program where the cost is subsidized by all the taxpayers in the City which brings down the cost

of the road be constructed and this is what is happening on Greig Street. Mr. Ray also inquired as to the Downtown Development Authority District. City Manager Austin stated that the DDA includes only the properties that front on 11 Mile Road and John R and does not include the neighborhoods behind those businesses. Josephine Sobczyk, one of the owners of T.J. & Sons Auto Repair, 26610 John R Road, stated that she did not object to the paving but wants to have parking on the side of her business. Mr. Austin stated that the detailed design would not be done until Council authorizes it, but every effort is made to minimize curb cuts wherever practical. Community Development Director Schafer stated that the next step, should S.A.D. 266 and 265 be adopted, would be the detail engineering and that the City Engineer would look at the location of the current driveways and curb cuts and try to improve the existing conditions. He also noted that the property owners will receive one more notice of the public hearing in two weeks for confirmation of the roll. He also stated that any questions and review of the plans can be directed to the Community Development Department. Kathleen Hamlo Keedle, 26605 Townley, stated that she also received a letter dated November 20, 1996 and that in her opinion she should not be assessed at all because of her prior special assessment for the paving on the street her home fronts on, and based on the letter that stated no further special assessment when Greig is paved. City Manager Austin stated that Council has set different policies based on the voter approved Proposal "R" program. Mrs. Keedle inquired as to the parking problems that will be caused by the paving, curbs and landscaping.

City Manager Austin stated that the City would be glad to talk to her and explained that parking is going to be allowed on one side of the street, just like all other residential neighborhoods and on paved surfaces like driveways. She also requested the actual wording of how Proposal R was going to be carried out. Mr. Austin stated that he would provide her with a copy of the policy. George Keedle, 26605 Townley inquired if they would be assessed 10% of the cost for the sideage based on what they paid for the frontage. He stated that in his opinion traffic and parking is a problem now and will increase with the new pavement. He also asked what gives the City the power to assess for sideage. City Attorney L. Sherman explained that the State law relating to special assessments states there has to be a reasonable relationship between the costs of the assessment and the benefit to your property. One of the reasons that the formula is to assess only 10% of the costs of the improvements of Greig between John R and Alden is to balance the costs of the assessment with how much benefit there will be to the property. To balance the benefit that each party receives, a real estate expert was retained, who did his own independent analysis on frontage parcels and sideage parcels and he believes, that the 10% assessment is justified based on the improvement to the value of the properties. The Supreme Court stated about 17 or 18 years ago, in Dixon Road Group v City of Novi, that if the ratio between the cost of the

improvements and the benefit to the property was 2.6 or higher, it was disproportional. City Attorney L. Sherman stated that in his legal opinion, based upon subsequent appellate decisions any ratio that is less than 1.8 to 1 is going to pass judicial scrutiny. In this case the real estate expert, the appraiser, that was hired to do the analysis, feels that the ratio between the costs to the homeowners and the benefit to your properties is a 1.1 ratio and therefore, an extremely reasonable relationship exists. Gary Edwards, 1710 Greig, asked what the ratio was for the frontage and sideage property. City Assessor McLachlan stated that in most cases it was 1 to 1. There being no further comments, the public hearing was closed.

Mayor Swanson left the meeting at 8:00 p.m. and Mayor Pro Tem Clark assumed the Chair.

25. Public Hearing – S.A.D. 266 – Greig Street Road Improvements – Resolution 5

A public hearing was held to hear comments, if any, to confirming Special Assessment District Roll 266 to construct road improvements on Greig from John R Road to Alden. City Manager Austin presented a comprehensive report explaining the amended SAD policy provides a greater benefit to S.A.D. 266 property owners as compared to the original Proposal "R" SAD policy for both frontage and sideage parcels. He also noted that the letter from the former City Assessor would increase the assessment for 32 of the 45 property owners including 710 Greig, which is one of only two properties in the district fronting on Greig Street. He also stated that the letter from the former City Assessor is not consistent with any of the other materials, is not and does not represent the City's policy and was issued in error. Gary Edwards, 710 Greig requested Council grant him 3 additional minutes for his presentation.

26. Time Limit Extended.

Motion by Councilwoman Scott, supported by Councilman Clark, to extend the time limit for Mr. Gary Edwards to 3 additional minutes.

Yeas: Russell, Scott, Shad, Swanson, Clark, Corbett and McGillivray.
Nays: None.

27. Public Hearing – S.A.D. 266 – Greig Street Road Improvements – Resolution 5

Gary Edwards, 710 Greig stated that the letter he had received from the former City Assessor dated November 20, 1996 stated in part that Greig would be paved with no costs to property owners with a prior front yard road assessment, and now he received a letter, November 20, 2003 stating that they would be assessed approximately $5800 and that the first letter was sent in error. He further stated that the letter in error could have avoided confusion if the letter was first reviewed and copies were given to the appropriate members of the City Administration. He also stated that City Manager Austin was very cooperative and provided all the information he requested and appreciated the comments of City Attorney L. Sherman at the last public hearing explaining the special assessment process. He asked that someone explain the appeals process if the roll is confirmed.

City Attorney L. Sherman stated that the letter from former City Assessor Haran was responding to a specific question, "By already contributing to a special assessment for the paving of the street that I front on will I be assessed again when Greig is paved?", and then the answer that Mr. Edward's sited was "no, if you have contributed or will contribute to a special assessment district before Greig is paved you will not be assessed again." In Mr. Edwards particular case his home fronts on Greig and the sideage is on Lorenz and he paid for a special assessment for Lorenz, which is his side yard assessment at a reduced rate. There are others, who received the letter that have corner parcels that have sideage on Greig that paid a frontage assessment on the side street. He agreed that the letter is unfortunate and was issued in error and is contrary to all the other information that had been disseminated to the homeowners. He stated that the City is now just addressing Mr. Haran's letter the error now because once the voters approved Proposal "R" and the following January of 1997, the City Council approved an SAD Policy which showed the improvement on Greig would be 50% for the City's costs and the 50% would be spread to the property owners, and in November, 2003 Council amended the SAD policy as it pertains to Greig, making it a 90% City contribution because Greig is an unusual street, between John R and Alden, where there are mostly sideyards. He noted further other SAD projects the sideyards have been assessed at a reduced rate but none have been reduced at a 90% rate. He also stated that the 92% of the project is being picked up by the City and only 8% is being assessed to the property owners. If the City went along with the former City Assessor's letter, issued in error, and allowed all the corner parcels to be assessed at zero, and spread the rest of the 8% to the other property owners, it was his opinion that the City's appraiser would feel that those assessments could not be justified without going back to the outside appraiser. Mr. Sherman explained the appeals process, which is submitting by a letter or a verbal statement objecting to confirmation of the roll. Filing of the petition protesting the assessment with the Michigan Tax Tribunal is within 30 days after confirmation of the roll and the petition can be accessed off the Michigan Tax Tribunal website.

Mr. Edwards, 710 Greig stated that it was his opinion that the letter that was issued in error gave the impression that even though he fronted on Greig and the letter didn't apply to his property, that he would not be assessed for the paving of Greig and that the City should be held responsible for the letter and absorb his assessment.

City Attorney L. Sherman stated that the City acknowledges the letter was sent in error and does not believe that the letter is a binding contract between the City and the property owners. He also stated that no one objected to the necessity of the project and the result will be a substantial benefit to the homeowners.

There being no further comments, the public hearing was closed.

Motion by Councilman Clark,
Supported by Councilwoman Russell

28. Meeting Open to the Public.

Basil Abbo, 30543 Whittier inquired as to who owns the property between the sidewalk and curb. City Manager Austin stated that the City owns that part of the right-of-way but it is the property owner's responsibility to maintain this property. Mr. Abbo stated that he had to remove the tree between the sidewalk and curb because it was causing flooding of his basement but now finds out that the drain tiles have to be replaced because they were damaged by the roots and in his opinion the City should be responsible for the damage. City Manager Austin explained that the City does not plant trees in the right-of-way but if there is a main sewer problem the DPS will assist in cutting the roots out of the main and work with the homeowners if that is the situation. Councilwoman Shad inquired as any assistance from the CIP. City Manager Austin stated that he should meet with Community Development Director Schafer after tonight's meeting to get more details on an assistance program.

Eric Ralph, President of the Madison Heights Jaycees introduced the 2004 Jaycee Board and invited the Mayor and Council and the audience for refreshments after the meeting. Councilman Corbett suggested for fund raising purposes that the Jaycees consider, on behalf of the City, sponsoring a flea market/garage sales and/or selling hot chocolate during the winter sledding at Civic Center Park shelter building. Marie Kelsey, Past President of the Jaycees thanked the Mayor and Council for their support and assistance during her term of office. She also announced the Jaycees will be sponsoring a pop bottle and can drive on Wednesday, February 4, 2004.

Karl Wyckoff, 26270 Tawas stated that there is a continued parking and traffic problem at Schoenhals School and requested that traffic enforcement is needed in the area.

Mary Polis, 26363 Wolverine and Meagan Prebelich, 27036 Dartmouth. Marie Messawar students of Wilkinson Middle School presented a petition opposing the closing of the Branch Library. Councilwoman Russell inquired if the hours at the Wilkinson Middle School library were extended would that be of help and commended the students for their efforts. She also stated that Youth In-Action group are meeting in February to work with the school districts to work out something to keep the schools open for different programs. Ms. Polis stated they would use the School library if the hours were extended. Councilwoman Shad congratulated them for speaking up for what they believe in. Councilman McGillivray applauded the students and stated that an alternative could be to utilize Little House on Hales. Councilman Corbett commended the teachers and counselors for assisting them in their initiative. City Manager Austin stated that the State of Michigan has cut the City's budget by $1 million, and that is why the City is looking at consolidating library services, and cutting back senior citizen center hours and other budget measures, and that they may want to get involved with addressing the source of the problem. Councilwoman Scott stated that these students did an excellent job conveying their needs to Council and that they should convey back to the students who signed the petition that they utilize the branch library.

Theresa Nance, 628 West Woodside stated that it's important to allow those students to continue to use the Branch Library. She inquired if the builder of the new homes on Woodside would be held responsible for the poor road condition of Woodside and contribute toward the special assessment. City Attorney L. Sherman stated because of the difficulty in proving damage to a road that was already in poor condition that pursuing the claim against the builder was not recommended because the cost to litigate would exceed the potential recovery.

City Manager Austin requested Council's consideration on a variation of the Site Plan Review Committee's recommendation, as follows: vacuum stations not to be located outside installation of a masonry screen wall adjacent to the single family home on Greig, and the hours of operation for Sunday to be 10:00 a.m. – 7 p.m.. Greg Need, Attorney, 39533 Woodward, Bloomfield Hills, representing the applicant, Tony Gallo, President of Car Wash Builders, Inc., 30555 Hoover, Warren, Michigan 48093, presented a rendering of the proposed car wash. WHEREAS, a Special Approval Board application has been received from Tony Gallo, Car Wash Builders, Inc., 30555 Hoover, Warren, Michigan 48093, requesting to use the property at 26655 Dequindre Road for an automated car wash, said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on January 30, 2004, and 62 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, as follows:

Location: West side of Dequindre north of Greig.

Applicant: Car Wash Builders, Inc.
30555 Hoover
Warren, MI 48093

Staff Analysis:

1. This request is for Special Approval to operate an automated car wash in the B-3, General Business District

2. Proposed Hours of Operation: 8:00 a.m. – 7:00 p.m.
Monday – Sunday.

3. Number of Employees: 3

4. The Site Plan Review Committee has reviewed the site plan and has the following site plan related comments for Council's consideration in their review of the request:

   a. A chain link fence is required on all sides of the property where no screen wall is proposed. In this case, a 2 foot high chain link fence is required along Dequindre and a 4 foot high chain link fence is required on the north and south side property lines. No chain link fencing is proposed. Accordingly, a variance will be required from the Zoning Board of Appeals.
   b. All operations, including vacuum stations, must be carried on within the building area. A vacuum area is proposed on the north side of the building. Accordingly, a variance will be required from the Zoning Board of Appeals.

5. There is an existing single-family home (1821 Greig), zoned B-3, General Business adjacent to the westerly 100 feet of the south property line of the subject parcel. The zoning ordinance does not require screening along this property line as it is commercially zoned. Council may consider screening this area to reduce the impact of the proposed facility on the existing single-family use. Should Council determine that screening is appropriate, it could be in the form of a screen wall, screen fence or landscaping.

Recommendation:

Following public hearing, should City Council grant special approval, the following conditions are:

1. Zoning Board of Appeals approval of:
    a. A chain link fence variance on the north side, south side and east front property lines.
    b. A variance to allow vacuum stations to be located outside of a building
2. Hours of Operation: 8:00 a.m. to 7:00 p.m.

Clifford Ogelsby, 26136 Groveland inquired where the $36,000 reimbursed by Wal-Mart to the City regarding the installation of the traffic signal at John R and Irving would go. City Manager Austin reiterated that the monies could be used for anything for the Fire Stations Bond Project, if necessary.

Jean Teany, President of the Madison Heights Co-op Tower, 500 East Irving, Apt. 424, stated that she believes that Sam's Club has not taken into consideration that Harlo Street comes into Irving directly in front of the Co-op Tower and traffic from John R Road goes to Irving, makes a left onto Harlo and then to Whitcomb and out to Dequindre. She also stated that in her opinion the gasoline pumps should be directed north and south instead of east and west, which would be helpful in the traffic flow.

Marie Dansereau, 500 E. Irving stated that she was concerned with EMS being able to get down Irving because of the cars parked on the street. City Manager Austin reassured her that the Madison Heights Fire Department's highest priority is the senior citizens and will be able to respond to any emergency quickly.

State Representative Dave Woodward voiced his opposition to HB 4234 and in his opinion the bill is reckless and puts local communities at a disadvantage in funding Police and Fire protection and public works services.

City Attorney L. Sherman thanked Representative Dave Woodward on his quick response to whatever issues the City brings to him and his staff.

John Pulice, 30869 Avondale inquired as to why "No Right" turn signs could be erected onto Irving at the proposed gas station at Sam's Club. Mayor Pro Tem Clark pointed out that the seniors at the co-op would then have to go out to 13 Mile Road.

Barbara Holder, Vice President of the City Council of the City of Rochester Hills stated that she and Councilwoman Linda Raschke are visiting different city councils and invited Council to attend their Council meetings.

Dale Savage, 2221 Harwood, Royal Oak, Independent candidate for State Representative for the 26th District invited everyone to attend a meeting on the I-75 widening issues on Tuesday, March 9, 2004 at the Royal Oak Public Library at 7:00 p.m.

77. Michigan Department of Transportation – I-75 Draft Environmental Impact Statement Resolution.

Motion by Councilman Corbett,
Supported by Councilwoman Shad,

WHEREAS, the Michigan Department of Transportation (MDOT) has prepared a Draft Environmental Impact Statement (DEIS) for the proposed widening and reconstruction of I-75 from M-102 to M-59; and,

WHEREAS, MDOT has asked for review and comment from the City of Madison Heights as well as from members of the public; and

WHEREAS, the City has reviewed the DEIS and offers the attached "Summary of Comments – I-75 Draft Environmental Impact Statement"; and

WHEREAS, the City generally supports improving the I-75 Corridor, including lane expansion as well as consideration of mass transit alternative components, and appreciates the opportunity to comment on this DEIS.

NOW THEREFORE BE IT RESOLVED, The City of Madison Heights recommends that MDOT incorporate the attached "Summary of Comments – I-75 Draft Environmental Impact Statement" into the Final Environmental Impact Statement.

Summary of Comments – I-75 Draft Environmental Impact Statement
The City of Madison Heights

General

- The City of Madison Heights supports the proposed I-75 improvements as a component of the measures needed to address the congestion issues within the I-75 Corridor.

- The City supports consideration of mass transit alternatives, in addition to the proposed I-75 improvements, as appropriate and supplemental methods of addressing current and future congestion within the I-75 corridor.

- The City is not committing to enforcement of any High Occupancy Vehicle (HOV) lane alternative. Should the proposed project ultimately include HOV lanes, enforcement should be the responsibility of the State Police.

Project Design/Improvements

- The proposed design maintains 10' wide interior shoulders, a noted safety concern. Are there alternative cross-section designs that can eliminate this issue within existing rights-of-way?

- The City supports MDOT's efforts to provide separated storm water management through this project. However, the DEIS does not provide detail as to the impact of this system on the City's residents, businesses and the George W. Kuhn (GWK) Drain District.

- The City recommends including extension of a westbound right turn lane on 12 Mile Road, past existing Home Depot driveway, within the project scope.

- Provide clarification of the traffic patterns and design resulting from the proposed EB/WB I-696 to NB I-75 braiding ramp. How high will the ramp be in relation to the adjacent residential area? How will EB/WB I-696 traffic get to Eleven Mile? Madison Heights opposes any design that doesn't provide I-696 traffic direct access to Eleven Mile Road.

- The City plans to install a sidewalk this summer on the south side of 14 Mile from Concord to Stephenson Hwy. The City would like this expense, within the I-75 project area, credited toward any local contribution that may be required relative to the I-75 project.

- The City plans to provide maintenance overlays for portions of the service drive at and near the I-75 project area (I-696 / I-75 area). The City would like this expense, within the I-75 project area, credited toward any local contribution that may be required relative to the I-75 project.

Non-Motorized Access

- The City recommends providing designated pedestrian and bicycle access across all proposed bridges and underpasses and if these non-motorized connections are approved, evaluate the need for the Bellaire Pedestrian Bridge and/or its relocation.

- The Project includes new sidewalk adjacent to service drive on the east side. The City supports this concept and recommends continuing this non-motorized path throughout the project area (north to 14 Mile) with a design to accommodate bicycle traffic.

- The project includes removal of the I-75/Red Run Bridge. This will eliminate or minimize the potential for any future GWK, pedestrian/bicycle access across I-75 via the existing bridge system. Alternatives must be considered to ensure future access in this regard.

Local Road Impacts

- The DEIS generally references the extensive impact the proposed improvements will have on the adjacent road network (56 miles +), but does not address specific adjacent street improvement costs and impacts or the funding mechanisms necessary to mitigate those impacts. The DEIS must identify both the specific impacts as well as the funding mechanism to address those impacts.

- The DEIS generally references the extensive impact on adjacent streets and communities during actual construction, but does not address mitigation of these impacts, including costs or the funding mechanisms to mitigate those impacts.

Neighborhood Impacts

- The DEIS identifies the taking of eight (8) single-family homes and portions of other parcels in Madison Heights. Alternative solutions to the I-696 to NB I-75 ramp and service drive design should be sought to avoid or minimize the impact on the adjacent residential areas.

- ❑ The DEIS does not identify the specific homes generally noted in the DEIS as being impacted by noise. These impacted properties should be located on an aerial photograph to assist in evaluating the impact on City residents.

- ❑ The City recommends additional evaluation of the existing and proposed sound to be generated in the area from I-696 to 11 Mile. The DEIS needs to clarify the design, materials, cost(s), maintenance and jurisdiction of the sound walls. The City does not support transferring responsibility for maintenance and reconstruction from MDOT to the City.

- ❑ Local access and diverted through-traffic during construction will be maintained via service drives. The DEIS does not adequately address safeguards to protect adjacent neighborhoods from this impact, including analysis of closing / restricting access to side streets during construction as well as on a permanent basis.

Interchange Impacts

- ❑ The City supports use of land area freed up by new interchanges for private economic development, where appropriate based on adjacent land uses and parcel configurations. The proceeds from the sale of property should be credited toward any local contribution that may be required relative to the I-75 project.

- ❑ Provide additional clarification of alternatives being considered for the 14 Mile interchange, in light of the consultant's finding that the single point design will not function.

Yeas: Shad, Clark, Corbett, McGillivray and Scott.
Nays: None.

78. RESOLUTION OPPOSING SUBSTITUTE FOR HOUSE BILL 4234

Motion by Councilman McGillivray,
Supported by Councilwoman Shad,

WHEREAS, on February 18, 2003, House Bill 4234 was introduced and referred to the House Committee on Tax Policy, which would amend the General Property Tax Act to exempt $10,000 of the aggregate taxable value

of personal property as identified in the required Personal Property Statement. The exemption could be claimed in each local tax collecting unit in which a required statement was submitted; and,

WHEREAS, on February 26, 2004, the House Committee on Tax Policy passed a Substitute for House Bill No. 4234 which amendment provides for an exemption of the first $3,000 of personal property tax value in 2005, increases the exemption to $6,000 in 2006, then increases the exemption to $10,000 in 2007. The exemption would then be permanently at $10,000 of taxable value for each year after 2007; and,

WHEREAS, while the average tax break to business would be small, approximately $500 per business after full implementation, the cumulative negative impact to Madison Heights and all taxing authorities is significant; and,

WHEREAS, while the proposed phase-in contained in the Substitute for House Bill 4234 attempts to soften the initial impact, Madison Heights will lose in excess of $200,000 annually after the full implementation of the exemption based upon current parcel counts; and,

WHEREAS, local school districts in Madison Heights will suffer annual revenue losses exceeding $265,000; and

WHEREAS, the State of Michigan will forfeit $75,400 in lost State Education Tax revenue every year in the City of Madison Heights alone; and,

WHEREAS, nothing in the Substitute for House Bill 4234 prevents businesses from creating new subsidiary divisions and shell corporations whose sole purpose would be to own taxable assets with taxable values of $10,000 or less to maximize exemption claims which further exacerbates local governments ability to provide services and expands the exemption without any apparent limit; and,

WHEREAS, the State of Michigan's local tax burden ranks 35th in the nation; and,

WHEREAS, personal property taxes continue to provide a major source of local revenue; and,

WHEREAS, the Substitute for House Bill 4234 would further erode Madison Heights' ability to levy personal property taxes used to support Police and Fire Departments and other basic services; and,

WHEREAS, supporters of Substitute for House Bill 4234 envision job creation as a primary benefit of a $500 special tax break to business. The opposite is a more likely result as municipalities faced with further declining revenues will have no alternative but to eliminate more jobs and reduce services; and,

WHEREAS, Madison Heights' budget for State Shared Revenues for Statutory Sales Tax has been reduced by one-half or over $1,000.000.00 in the last three years; and,

WHEREAS, as Madison Heights plans its budget for fiscal year 2004-05, Madison Heights is considering the elimination of a portion of its already lean work force including Police, Fire, Street Maintenance, Building Inspections, Recreation, Youth Services and other personnel; and,

WHEREAS, Madison Heights has already been forced to delay purchases of vital vehicle replacements and various other essential equipment purchases; and

WHEREAS, the net impact of granting this special tax break to business would be to further shift the relative burden of property taxes to our residential taxpayers, who include low income and senior residents, least able to shoulder a higher tax burden;

WHEREAS, the administrative burden on businesses and local units of governments by passage of House Bill 4234 will be dramatically expanded as businesses create new subsidiaries. Businesses will still be required to fill out and file forms with each local unit. Local units still have to process the data and mail tax bills to an expanding group of taxpayers as yet another unfunded mandate becomes an obligation of local government.

NOW, THEREFORE, BE IT RESOLVED that the Madison Heights City Council vehemently opposes the Substitute for House Bill 4234 and implore all members of the House of Representatives to oppose this ill conceived legislation which would reek further havoc with the budgets of all municipalities, all taxing authorities, all school districts and the State of Michigan.

BE IT FURTHER RESOLVED that copies of this Resolution be forwarded to Governor Jennifer Granholm, State Representative David Woodward, State Senator Shirley Johnson, all members of the State House of Representatives, State Senate, Michigan Municipal League and surrounding municipalities.

101. Public Hearing – Ordinance 1032.

A public hearing was held to hear comments, if any, by amending, in part, Appendix A, entitled "Zoning Ordinance," being specifically Article XI, Section 10.511(I)(C)(8), to permit the display of garage or rummage sale signs on private property and in the public right-of-way subject to certain restrictions. Edward Godlewski, 28944 Hales inquired as to the specifics on the signs. Assistant City Attorney J. Sherman stated that the current ordinance does not allow signs in the public right-of-way and provides for a penalty of 90-day misdemeanor with a $500 fine for non-removal of signs. He further stated the proposed Ordinance permits the placement of

one temporary directional sign at or near the proximity of a right-of-way sign on the street corner where the sale is being held from Saturday at 8:00 a.m. until Sunday at 8:00 p.m. It also decriminalizes the ordinance so that no one is subject to a 90 day misdemeanor and $500 fine. If there were a violation it would amount to a verbal warning instead of a written warning and confiscation of the sign or signs. Mr. Godlewski stated that it was his opinion that if the new ordinance is not enforced it will be abused. Councilwoman Russell requested the Administration to contact Police Chief Sagan if the Police Reserves could assist with enforcement of the proposed ordinance. Assistant City Manager Myers stated he would follow up with Police Chief Sagan to see what supplemental assistance can be given to Code Enforcement Officers. John Pulice, 30869 Avondale inquired if any citizen could tear down the illegal signs. Assistant City Attorney J. Sherman stated that he could not recommend tearing down someone else's property and potentially facing liability. Douglas Mac Lean, 27432 Park Court opposed the proposed ordinance because it would allow too many signs in the City. Councilman McGillivray stated that the penalty provision should be more severe than the simple removal of the signs in the right-of-way. Richard Rosen, 32073 Concord stated that it was his opinion that a penalty would allow an incentive to remove the signs.

Motion by Councilman McGillivray, supported by Councilwoman Scott, that Ordinance 1031, Garage Sale Sign Amendment be referred back to the City Administration and/or the Planning Commission to establish a penalty other than removal of the signs.

102. Substitute Motion.

Motion by Councilman Corbett, supported by Councilwoman Shad, to adopt Ordinance 1032 on second and final reading, as follows:

It shall not mean the sale of a single motor vehicle by means of a "For Sale" sign in the window of such vehicle parked near a residence. Notwithstanding section 10.1401 and 10.1404 below, violation of this section shall result in the issuance of a verbal warning and a request to move the offending sign or signs to a permitted location; provided, however, failure to comply with such a request and/or a second or subsequent violation and/or placing or leaving a sign or signs beyond the permitted days and times indicated above, shall result in the immediate confiscation of the sign or signs.

103. Special Approval – 31020 John R Road.

A public hearing was held to hear comments, if any, to amending one condition (Condition #4) of the previously granted special use approval with respect to the hours of operation only, of the gas station and tire and battery facility from 10:00 a.m. to 8:30 p.m. Monday through Sunday at the proposed Sam's Club at 31020 John R Road. Troy Paionk, representing the applicant stated the hours of operations restrictions did not take in account business members, who pay an additional amount to their membership, which allows them to come into the store and utilize the facilities earlier than normal members. There being no further comments from the audience, the public hearing was closed.

Motion by Councilman McGillivray,
Supported by Councilman Corbett,

WHEREAS, a Special Approval Board application has been received from Troy Paionk, representing Wal-Mart, 6303 26 Mile Road – Suite 100, Washington, Michigan 48094, requesting to amend Special Approval Condition #4 of a previously granted special use approval by City Council on March 8, 2004 for a motor vehicle maintenance service facility including gasoline sales for a Sam's Club at 31020 John R Road with respect to the hours of operation only,

WHEREAS, a public hearing was advertised in the Daily Tribune on April 8, 2004 and 76 notices were mailed to property owners within 500 feet of the aforementioned property; and

WHEREAS, a report has been received from the Community Development Department, stating that

Request: Request to Amend Special Approval Condition #4 (Hours of Operation) granted by City Council on March 8, 2004 for a motor vehicle maintenance service facility including gasoline sales at 31020 John R.

Location: Northeast corner of 13 Mile Road and John R.

Staff Analysis:

1. This request is to amend Special Approval Condition #4 (Hours of Operation) granted by City Council on March 8, 2004 for a motor vehicle maintenance service facility including gasoline sales at 31020 John R.

2. March 8, 2004 City Council approved Special Approval with conditions.

3. The Special Approval Condition #4 Hours of Operation are:

   Gas Station and Tire & Battery Facility:
   10:00 a.m. – 8:30 p.m. Monday – Sunday

   Proposed Amended Hours of Operation are:

   Gas Station: 6:00 a.m. – 9:00 p.m. Monday – Saturday
   7:00 a.m. – 8:00 p.m. Sunday

   Tire & Battery Facility: 10:00 a.m. – 8:30 p.m. Monday – Saturday
   10:00 a.m. – 6:00 p.m. Sunday

4. The Applicant has submitted letters requesting and clarifying the change in hours. In addition, applicant has submitted a revised Traffic Impact Statement reflecting the anticipated impact of the revised hours of operation on traffic.

5. Staff and the City Attorney have reviewed the proposed request, which is specifically to address applicant's desire to amend Condition #4 of City Council's March 8, 2004 Special Approval regarding hours of operation. The applicant has already received special approval, subject to conditions, to provide membership only motor vehicle maintenance services (tires and batteries) within the proposed Sam's Club building and gasoline sales (6 pumps) under a canopy. (NOTE: The Special Approval was for the automotive service activities only. The Sam's Club Warehouse facility is a permitted use and is <u>not</u> the subject of special approval). This request to amend condition #4 is <u>not</u> a reconsideration of the special approval – only consideration of the applicant's proposed amendment to Condition #4 - Hours of Operation.

6. Staff confirmed the original proposed hours of operation on several occasions prior to City Council's original consideration of the special approval on March 8, 2004. On each occasion the applicant confirmed the proposed hours of operation as noted on the original application form, and as approved in Condition #4.

7. The proposed site plan has been revised to reflect City Council's condition of special approval that the gasoline facility be relocated to the northwest section of the site. The Site Plan Review Committee has reviewed the revised Site Plan and has approved it without condition, subject to final approval by the Planning Commission, as required by City Council as a condition of Special Approval. Planning Commission final site plan review is tentatively scheduled for April 20, 2004.

8. The applicant prepared a revised traffic impact statement for the proposed amended Hours of Operation (Dated March 29, 2004). By way of background, the Traffic Safety Committee's previous recommendations included: 1. That Sam's Club participate in the cost of the new City installed traffic signal at John R/Irving; and 2. That "No Right Turn – Trucks" signage be installed at the two proposed drives on Irving. Wal-Mart, Inc. agreed to participate in the signal cost as recommended (50% of signal cost = $36,079.50). In addition, plans have been revised to include the recommended "No Right Turn – Trucks" signage. Both of these were addressed as conditions of approval by City Council and these conditions of Special Approval are in effect and remain unchanged. The revised site plan includes all of the recommendations called for in the original traffic.

   No additional traffic improvements are recommended in the revised March 29, 2004 traffic impact statement, which accompanied the request to amend hours of operation, and none are proposed. In addition, the Traffic Safety Committee has reviewed the revised traffic impact statement and site plans and has no additional comments to address.

9. As City Council is aware, two utility easement vacations are proposed as a part of the overall development. These easement vacations are a separate petition, scheduled for public hearing by City Council on April 26, 2004, unrelated and unaffected by this request to amend hours of operation.

Recommendation:

Following public hearing, should City Council grant the request to amend Condition #4 Hours of Operation of the special approval for the proposed facility as originally granted March 8, 2004, staff recommends the following conditions:

1. Hours of Operation shall be limited to:

Gas Station:	6:00 a.m. – 9:00 p.m. Monday – Saturday 7:00 a.m. – 8:00 p.m. Sunday
Tire & Battery Facility:	10:00 a.m. – 8:30 p.m. Monday – Saturday 10:00 a.m. – 6:00 p.m. Sunday

2. All other conditions of Special Approval as granted by City Council on March 8, 2004 remain in full force and effect.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.322(3); 10.201.5(h) of the Code of Ordinances, hereby approves the request subject to the following conditions:

1. Hours of Operation shall be limited to:

Gas Station:	6:00 a.m. – 9:00 p.m. Monday – Saturday 7:00 a.m. – 8:00 p.m. Sunday
Tire & Battery Facility:	10:00 a.m. – 8:30 p.m. Monday – Saturday 10:00 a.m. – 6:00 p.m. Sunday

2. All other conditions of Special Approval as granted by City Council on March 8, 2004 remain in full force and effect.

Nays: None.

Richard LePage, 30980 Plum Lane, supports the Living Wage Ordinance and that in his opinion the City should only be involved with the contractors in the construction trade, believing that Federal and State Laws already provides for a living wage.

Douglas MacLean, 27432 Park Court stated that he opposes the living wage law because in his opinion it is meant for entry-level jobs and would cause higher taxes. He also stated that the concrete is deteriorating at the intersections of Park Court, Farnum, Hales and University, which was recently redone as part of the City Road Improvement Program. Assistant City Manager Myers stated that the City is very much aware of the concrete deteriorating issue and is currently investigating the problem to determine cause, responsibility and a solution.

Gary George, 1735 Castlewood stated that in his opinion City Council should try to identify the specific issues of the proposed Living Wage Ordinance such as who benefits (residents or non-residents), what is the cost, and is it good for the city government.

Clifford Oglesby, 26136 Groveland stated that he could not afford to pay his workers this extra money.

A public hearing was held to hear comments, if any, to modify a previously granted special use approval with respect to one condition prohibiting outdoor vacuums, for a proposed auto wash at 26655 Dequindre. Tony Gallo, Car Wash Builders, Inc., 30555 Hoover, Warren, Michigan 48093 the applicant was present. There being no further comments from the audience, the public hearing was closed.

Motion by Councilwoman Scott,
Supported by Councilman Clark,

WHEREAS, a Special Approval Board application has been received from Tony Gallo, Car Wash Builders, Inc., 30555 Hoover, Warren, Michigan, 48093, requesting to modify a previously granted special use approval with respect to one condition prohibiting outdoor vacuums, for a proposed auto wash at 26655 Dequindre**,** said property is zoned B-3, General Business; and

WHEREAS, a public hearing was advertised in the Daily Tribune on April 16, 2004; and

WHEREAS, a report has been received from the Community Development Department, stating that:

Request: Applicant request to modify Condition No. 4 of the February 9, 2004 City Council Special Approval regarding vacuums for an automated car wash at 26655 Dequindre.

Location: West side of Dequindre north of Greig.

Staff Analysis:

City Council granted special approval for this facility on February 9, 2004, subject to four conditions. The applicant requests that City Council reconsider Condition No. 4 – "Elimination of outdoor Vacuum Facilities".

Section 10.326(8)q specifies that: "All operations must be carried on within the building area, included but not limited to vacuuming, washing and drying."

Applicant originally proposed three outside vacuum stations on the north side of the proposed building and sought City Council special approval and, if approved by City Council, would have needed ZBA approval of that design. Condition No. 4 of City Council's motion to grant special approval removed that option. The applicant then revised his plans and subsequently received site plan approval for the proposed car wash without vacuums and with all other conditions of special approval met. The applicant also discussed his intention to seek City Council modification of Condition No. 4 and he was advised by staff and the Assistant City Attorney as to the procedure to do so. He is now seeking modification to Condition No. 4 only. *Note:* This is not a reconsideration of the special approval – only a request to amend Condition No. 4.

The site plan has been revised to reflect City Council's other conditions of approval. Specifically, the ZBA granted the necessary variances to waive the chain link fence on the north, east and south property lines. In addition, an 8 foot high poured concrete screen wall is proposed for the westerly 100 foot of the south property line and six 8-foot high evergreen trees are proposed in staggered rows in the southwest corner of the site.

The revised site plan and floor plan accompanying this request shows 3 vacuums located entirely within the proposed building, with only the coin validators and vacuum hoses on the north wall of the building. Vehicles would drive up and access the vacuums from outside on the north side of the building. Should City Council agree to the proposed modification to Condition No. 4, ZBA approval of the proposal is still required under Section 10.326(8)q.

The Site Plan Review Committee has reviewed the revised site plan and has no additional comments to address.

The applicant submitted a packet of information to accompany the request. In that packet several sites were referenced as having outdoor vacuums. The following is a brief summary of staff research into those sites.

404 W. 11 Mile Rd. 11 Mile Mini-Mart Auto Wash

Special approval granted for an attended car wash on 8/27/90. Plans approved as part of special approval do not show the existing islands or vacuums. Found no site plans or permits for vacuums on file.

32372 John R. Forster's Auto Wash

Special approval for an attended car wash with gasoline sales on the combined site which was then known as 32302 John R on 2/26/73. Minutes only, no site plan on file. In 1998, the parcel consisted of two contiguous lots sold to separate owners. They remain as two individual businesses, with the vacuums located on the oil change property.

32350 John R. Forster's Oil Change.

No records of special approval for this address. The coin operated vacuums are at this oil change, not at the car wash which is a separate parcel under separate ownership and management. The previously combined parcels were sold in 1998 and separated from the car wash.

28945 John R. Marathon Gas Station

Special approval granted 5/13/96 for a gas station, convenience store, and coin car wash subject to all provisions on the zoning ordinance unless waived by variance. The car wash on this site is a coin operated, unattended unit. Outside vacuums are permitted. The vacuum is shown on the approved site plan.

26750 John R. Super 6 Car Wash

Special approval for a coin-operated car wash granted 10/12/87 after being tabled on 5/26/87 to permit amendment of the Zoning Ordinance to permit coin operated car washes. Outside vacuums are permitted.

29990 John R. Doc's Auto Wash

Special approval for coin operated auto wash granted 4/23/90. Outside vacuums are permitted.

1101 E. Thirteen Mile Meijer Gas Station

The following persons spoke in favor of the Living Wage Ordinance and requested its adoption on first reading:

Al Cholger, 29136 Tessmer Court, thanked Council for considering this ordinance for fair wages for people in poverty, and stated that studies have shown no adverse impact on cities that have adopted Living Wage Ordinances.

Sandra Williams, Secretary/Treasurer of Metropolitan Detroit AFL-CIO and Vice-Chairman of the Interfaith Committee on Worker Issues, asked for support for the living wage and citied reasons such as a growth of the economy, a higher level of productivity, taxes do not increase and it would provide a positive image of Madison Heights as a better place to live.

Vivian Kell, 28306 Alger, resident for 50 years, was in favor of a living wage for workers.

Julie Hurwitz, Executive Director of the Maurice & Jane Sugar Law Center for Economic and Social Justice, stated that it is a national public interest law firm based in the City of Detroit that provides a wide range of legal support to working people, in particular supplying support on living wage issues to communities and coalitions throughout the country. She stated that there are 15 communities in Michigan and over 100 nationwide that have passed Living Wage Ordinances. The idea behind this is that public dollars should not be used to subsidize poverty wage work, but given to private section employers who demonstrate a commitment to providing decent family-supporting jobs in local communities.

Richard LePage, 30980 Plum Lane, stated he believes in a living wage and asked what type of sub-contractors would be affected. City Manager Austin stated that the ordinance as proposed would affect City contracts for services over $5,000, any outside agency funded by the City that employed more than 10 employees and any organization that receives any type of tax abatement from the City. Mr. LePage stated his opinion that there would be a problem of enforcement, similar to the problems of enforcing the Federal prevailing wage law.

Lon Herman, 348 Albany, Ferndale stated he was active in having the Ferndale Living Wage Ordinance passed. He read a letter from former Mayor Chuck Geodert in favor of adopting this ordinance.

Pamela Ortner, 28752 Tawas Ct, a resident of 25 years, stated that working as a nurse she is in favor of the Living Wage Ordinance so that people can receive, or earn enough money to receive, medical insurance.

David Reynolds, Professor of Labor Studies at Wayne State University stated that there are over 120 Living Wage Laws across the country. He presented Council with copies of a study done by the Brennan Center that surveyed the impact on 26 communities after they adopted Living Wage Ordinances. He claimed the study showed that the relative costs are minor, there is better employee morale, lower turnover and less accidents. He cited other positive studies and stated that public money should not support poverty.

David Green, physician at St. John Oakland Hospital read a letter from Helen Weber, Councilmember from Ferndale, stating that Ferndale passed a Living Wage Ordinance in January, 2001 and they found, in the instance of a custodial contract, that firm complying with the ordinance that was awarded bid saved their City money and the quality of work improved.

Mary Ellen Gondeck, 975 East Gardenia, Sisters of St. Joseph's Office of Peace and Justice spoke in favor of the Ordinance because it provides more money for families to spend in their communities and she supports a fair wage for a fair day's work. She urged Council to adopt the Ordinance because she feels it ensures a healthy business and living environment.

State Representative Dave Woodward stated he has worked in the State Legislature to protect fair labor standards because he believes it is the right thing to do, that benefits are given to businesses and should also be given to workers. He strongly recommended adoption of the ordinance.

Gary George, 1735 Castlewood, stated he opposes the Living Wage Ordinance because it benefits only about 1% of the citizens in Madison Heights. He citied examples of other cities who lost businesses, and therefore revenues, because of a living wage requirement. He stated he feel the real issue is that the City needs to urge businesses to create full-time jobs.

Motion by Councilman Corbett, supported by Councilwoman Shad, to adopt Ordinance 1033 on first reading, by number and title only, as follows:

ORDINANCE 1033

Such appointment shall be made on or before sixty (60) days after the vacancy occurs, and shall be for the balance of the unexpired term. Any vacancy which occurs in the office of Councilman shall be filled by the Council at the next regular meeting of the Council after the vacancy occurs, from the unsuccessful candidates for Council at the next preceding regular city election who were nominated and obtained the next highest vote therefore. Such appointment shall be until the next succeeding regular election, at which time such vacancy shall be filled as provided in Chapter 4 of this Charter for any balance of the unexpired original term.

(b) If three (3) or more vacancies exist simultaneously in the office of Councilman or in the event there are no unsuccessful candidates for Council from the next preceding regular city election who obtained the next highest vote available to fill a Council vacancy, such vacancies shall be filled for the respective unexpired term at a special election. In connection with any special election to fill a vacancy or vacancies in any

elective office, candidates shall be nominated at a primary election in a manner identical to that provided for a Special Primary Election; the names of all qualified candidates who file sufficient valid nominating petitions thirty (30) days before such special election shall be certified to the Election Commission and placed on the ballot. All other provisions of this Charter not inconsistent with this Section shall govern.

(c) The provisions of this Section 5.7 shall not apply to the filling of vacancies resulting from recall.

(Amended September 12, 1961; amended November 6, 1985)

WHEREAS, Subsection (a) of the foregoing Charter Section fails to state that a vacancy in the office of Mayor shall be filled by appointment *"from one of the remaining Council Members,"* by a majority vote of the remaining Council Members; and,

WHEREAS, Subsection (a) of the foregoing Charter Section uses archaic and gender specific language, to describe the process of selecting a replacement Council Member in the event of a Council vacancy, as indicated in the following sentence: "any vacancy which occurs in the office of *'Councilman'* shall be filled by the Council at the next Regular Meeting of the Council after the vacancy occurs, from the unsuccessful candidates for Council 'at the *next preceding* regular city election' who were nominated and obtained the next highest vote therefore;" and,

WHEREAS, Subsection (a) of the foregoing Charter Section fails to provide a method for filling a vacancy in the office of Council Member, if there are no nominated and unsuccessful candidates for Council at the last preceding regular city election for Council, except for the holding an expensive special election; and,

WHEREAS, Subsection (b) of the foregoing Charter Section provides for an expensive special election when there are no nominated and unsuccessful candidates for Council at the last preceding regular city election and when simultaneous vacancies on Council occur constituting less than quorum; and,

WHEREAS, Subsection (b) of the foregoing Charter Section refers to primary elections which the City no longer holds;

NOW, THEREFORE, BE IT RESOLVED, that Section 5.7 of the Charter, entitled "Filling Vacancies in Elective Offices," should be amended to state as follows:

SECTION 5.7. FILLING VACANCIES AND ELECTIVE OFFICES

(a) Any vacancy which occurs in the office of Mayor shall be filled by appointment from one of the remaining Council Members by a majority vote of the remaining Council Members. Such appointment shall be made on or before sixty (60) days after the vacancy occurs, and shall be for the balance of the unexpired term. Any vacancy which occurs in the office of Council Member shall be filled by the Council at the next regular meeting of the Council after the vacancy occurs, from the unsuccessful candidates for Council at the last preceding regular City election who were nominated and obtained the next highest vote therefore. Such appointment shall be until the next succeeding regular election, at which time such vacancy shall be filled as provided in Chapter 4 of this Charter for any balance of the unexpired original term. In the event there are no unsuccessful candidates for Council at the last preceding regular City election who were nominated and obtained the next highest vote therefore, Council shall by majority vote appoint a City resident to fill said vacancy. Such appointment shall be made on or before sixty (60) days after the vacancy occurs and shall be until the next succeeding regular election, at which time such vacancy shall be filled as provided in Chapter 4 of this Charter for any balance of the unexpired original term. The appointee shall be subject to the eligibility requirements for Council contained in the Charter, as amended by applicable State Law.

(b) If more than three (3) vacancies exist simultaneously in the office of Council Member, such vacancies shall be filled for the respective unexpired term at a Special Election. In connection with any Special Election to fill a vacancy or vacancies in any elective office, the names of all qualified candidates who file sufficient valid nominating petitions thirty (30) days before such Special Election shall be certified to the Election Commission and placed on the ballot. All other provisions of this Charter not inconsistent with this Section shall govern.

(c) The provisions of this Section 5.7 shall not apply to the filling of vacancies resulting from recall.

(Amended September 12, 1961; amended November 6, 1985)

BE IT FURTHER RESOLVED that the form in which said Charter Proposition shall be submitted to the voters for approval shall be as follows:

STATEMENT OF PURPOSE.

If Chapter 5, Section 5.7 of the Charter is amended, the amendment would clarify that a Mayoral vacancy would be filled by appointment from one of the remaining Council Members; archaic and gender specific language would be replaced; a Council vacancy would be filled from the nominated and unsuccessful candidates for Council; if there were no such candidates, the vacancy would be filled by Council appointment; the reference to primary elections which the city no longer holds would be deleted; and, if more than three vacancies exist simultaneously in the office of Council Member, a special election would be held.

BALLOT QUESTION

Shall Chapter 5, Section 5.7 of the Charter be amended to provide for the filling of vacancies in elective offices in the manner described above?

□ Yes.

□ No.

BE IT FURTHER RESOLVED, that this Amendment shall be submitted to the Governor of the State of Michigan for approval in accordance with the statutes pertaining to Charter Amendments; and,

BE IT FURTHER RESOLVED, that said Charter Amendment be submitted to the electors of the City of Madison Heights for a vote of approval at the election to be held on November 2, 2004; and,

Motion by Councilman Corbett, supported by Councilwoman Scott, to approve a resolution in support of the CWW requesting the Criminal Justice Information System Policy Council (CJIS) to provide all felony conviction information through LEIN to municipal human resource personnel, as a means to protect the public, as follows:

A RESOLUTION IN SUPPORT OF A CJIS REINTERPRETATION OF THE LEIN ACCESS RULE

WHEREAS, protecting citizens, employees and local businesses is an essential public service; and

WHEREAS, The Law Enforcement Information Network (LEIN) Policy Council Act, otherwise known as Public Act 163 of 1974, authorized the disclosure of criminal history record information; and

WHEREAS, Section 4 of the Act states, "The Council shall: (1)(a) Establish policy and promulgate rules regarding the operational procedures to be followed by agencies using the law enforcement information network", and

WHEREAS, Governor John Engler's Executive Order 1998-1, effective April 13, 1998 created the Criminal Justice Information Systems (CJIS) Policy Council; and

WHEREAS, this order transferred the powers and duties of the LEIN policy council to the CJIS Policy Council; and

WHEREAS, the CJIS Policy Council in July of 2002 ruled that criminal history record information shall not be accessed through LEIN for City/Township ordinance background checks; and

WHEREAS, CJIS's policy change only allows the use of the Internet Criminal History Access Tool (ICHAT) that provides only Michigan conviction information; and

WHEREAS, information on federal and out of state felony convictions are no longer available from our local police departments through CJIS; and

WHEREAS, a LEIN background check is a matter of public safety, therefore it is prudent and necessary to check records of any felony convictions – whether they occurred in Michigan or not. It is vital that this information be available to local human resource departments as a means to protect the public; and

WHEREAS, the Conference of Western Wayne (CWW), a consortium of eighteen western Wayne County communities whose total population exceeds 700,000, approved a Resolution on May 14, 2004 to begin a dialogue with the Criminal Justice Information System's Policy Council with the goal of providing all felony conviction information available from a municipality's LEIN equipment to municipal human resource directors.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Madison Heights supports the effort on the part of the CWW and others to allow for LEIN access by municipal human resource personnel as a means to protect the public.

BE IT FURTHER RESOLVED, that a copy of this resolution be sent to Governor Granholm, State Senator Shirley Johnson, State Representative David Woodward, CWW Executive Director Marsha Bianconi, and the MMRMA Administrative Advisory Committee.

1. Special Approval is required for restaurants in the B-1 District.

2. A Big Boy restaurant is proposed on the site along with a 4,800 square foot commercial multi-tenant building. The Big Boy restaurant is the only component of the proposed development that requires City Council action at this time via special approval. The commercial center is permitted by right in the B-1 District.

3. This site has been the subject of previous approvals for a three building commercial multi-tenant development both with and without accessory residential. This previous project did not proceed beyond engineering plan review.

4. The proposed facility is within 1,500' of 3 other restaurants and therefore requires a separation waiver from the Zoning Board of Appeals to accommodate the proposed use.

5. The existing on-site parking exceeds minimum ordinance requirements.

6. Proposed Hours of Operation:

Mon – Thurs:	6:00 a.m. to Midnight.
Friday:	6:00 a.m. to 1:00 a.m.
Saturday:	7:00 a.m. to 1:00 a.m.
Sunday:	7:00 a.m. to Midnight

7. The Site Plan Review Committee has reviewed the site plan and has no further comments to address.

8. Should Council grant approval of this request, the following conditions are recommended:

   A. Zoning Board of Appeals approval of a waiver of the 1,500 foot separation requirement for the proposed restaurant.

   B. Council may also wish to limit hours of operation as noted in item 6 above.

NOW, THEREFORE, BE IT RESOLVED, that the Madison Heights City Council, acting as a Special Approval Board in accordance with Section 10.319(4) of the Code of Ordinances, hereby approves the request to permit the use of a Big Boy restaurant at 30460 John R, upon the following conditions:
